IntelliCell BioSciences Inc. and Subsidiary
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Description of Business

Formation

IntelliCell Biosciences Inc., a New York corporation, was formed under the name Regen Biosciences, Inc. on August 13, 2010 as a pioneering regenerative medicine company to develop and commercialize regenerative medical technologies in large markets with unmet clinical needs. On February 17, 2011, Regen Biosciences, Inc. changed its name to IntelliCell BioSciences Inc. (“IntelliCell”). To date, IntelliCell has developed proprietary technologies that allow for the efficient and reproducible separation of stromal vascular fraction (branded “IntelliCell™”) containing adipose stem cells that can be performed in tissue processing centers and in doctors’ offices.

In conjunction with the formation of IntelliCell (formerly Regen Biosciences, Inc.), a shareholder contributed, as part of his initial capital contribution, one hundred percent (100%) of the outstanding stock of Tech Stem Inc., a New York corporation (“Tech Stem”) originally formed on May 24, 2010. Tech Stem’s business is the sourcing, sales and distribution of laboratory equipment and supplies utilized in tissue processing related to IntelliCell’s technologies.

Reverse Merger

On April 27, 2011, IntelliCell and Media Exchange Group, Inc. (“MEG”) entered into an Agreement and Plan of Merger which was amended on June 3, 2011 (the “Merger Agreement”). Under the terms of the Merger Agreement, a subsidiary of MEG (“Merger Sub”) merged into IntelliCell. The Merger Sub ceased to exist as a corporation and IntelliCell continued as the surviving corporate entity. As a result of the merger, MEG’s former shareholders acquired majority of IntelliCell’s outstanding common stock and all of IntelliCell’s Series B preferred stock. The recapitalized IntelliCell Biosciences, Inc. is hereafter referred to as “IntelliCell” or the “Company”. As consideration for the Merger, the holders of the an aggregate of 7,975,768 shares of IntelliCell’s common stock exchanged their shares of common stock for an aggregate of 15,476,978 shares of the Company’s common stock and Dr. Steven Victor, the principal shareholder of IntelliCell and Chief Executive Officer (“CEO”), exchanged an aggregate of 10,575,482 shares of IntelliCell’s common stock for an aggregate of 20,521 shares of the Company’s series B preferred stock. Each share of series B preferred stock is convertible into 1,000 shares of the Company’s common stock. In addition, the holders of the series B preferred stock are entitled to notice of stockholders’ meetings and to vote as a single class with the holders of the Common Stock on any matter submitted to the stockholders for a vote, and are entitled to the number of votes equal the product of (a) the number of shares of Common Stock into which the series B preferred stock is convertible into on the record date of the vote multiplied by (b) ten (10). The closing of the Merger took place on June 3, 2011 (the “Closing Date”).

Prior to the consummation of the Merger, the Company entered into agreements the holders of an aggregate of \$1,619,606 of indebtedness to the Company, comprised of accrued compensation in the amount of \$1,201,551, promissory notes in the principal amount of \$263,707 plus accrued interest of \$9,398 less unamortized debt discounts of \$83,264 and accrued expenses totaling \$228,414 in exchange for the issuance of an aggregate of 12,123 shares of series C preferred stock. Each share of series C preferred stock shall be convertible into 1,000 shares of the Company’s common stock. Certain holders of the Company’s series C preferred stock have contractually agreed to restrict their ability to convert the series C preferred stock such that the number of shares of the Company common stock held by each of holder and its affiliates after such conversion shall not exceed 4.99% of the Company’s then issued and outstanding shares of common stock.

Furthermore, prior to the consummation of the Merger, the Company entered into agreements with the holders of an aggregate of \$250,000 of accrued compensation, pursuant to which such persons agreed to forgive all amounts owed by the Company.

2. Going Concern

The condensed consolidated financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of \$61,421,672 and a working capital deficit of \$23,780,066 as of March 31, 2014, respectively. Further losses are anticipated in the continued development of its business, raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand and a private placement of common stock or other debt or equity securities. There can be no assurance that we will be able to obtain further financing, do so on reasonable terms, or do so on terms that would not substantially dilute our current stockholders' equity interests in us. If we are unable to raise additional funds on a timely basis, or at all, we probably will not be able to continue as a going concern.

3. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP").

Principles of Consolidation

The consolidated financial statements include the accounts of IntelliCell and those of Tech Stem Inc., the Company's wholly owned subsidiary (collectively the "Company"). All significant inter-company transactions and balances have been eliminated.

Management's Use of Estimates and Assumptions

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions affecting the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates. Management's estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the consolidated financial statements in the periods they are determined to be necessary.

Financial Instruments and Fair Value Measurements

The Company's financial instruments consist primarily of cash and cash equivalents, trade receivables, trade payables and debt instruments.

GAAP requires certain disclosures regarding the fair value of financial instruments. The fair value of financial instruments is made as of a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

GAAP defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal, or most advantageous market in which it would transact, and it considers assumptions that market participants would use when pricing the asset or liability.

7

Table of Contents

GAAP establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the degree of subjectivity that is necessary to estimate the fair value of a financial instrument. GAAP establishes three levels of inputs that may be used to measure fair value:

For cash, cash equivalents, and trade payables, the carrying value approximates cost. For debt obligations with conversion features, the Company records a derivative liability using the Black-Scholes method of valuation.

Fair Value Measurements – The fair value of financial instruments are classified into one of the following categories:
Level 1 – Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 - Level 2 applies to assets or liabilities for which there are inputs other than quoted prices included within Level 1 that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3 - Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

Stock Based Compensation

The Company recognizes the cost of employee services received in exchange for awards of equity instruments, such as stock options and restricted stock, based on the fair value of those awards at the date of grant over the requisite service period. The Company uses the Black-Scholes-Merton (“Black-Scholes”) option pricing model to determine the fair value of stock option awards. Stock-based compensation plans, related expenses and assumptions used in the Black-Scholes option pricing model are more fully described in Note 14.

Revenue Recognition

The Company licenses independent third parties to use the Company’s technology in order to enable them to establish tissue processing centers in major metropolitan markets, as well as establishing centers it will operate. Each center will utilize the Company’s proprietary technology in conjunction with a suite of laboratory equipment selected by the Company that will enable the lab to process adipose tissue into stromal vascular fraction containing adipose stem cells using the Company’s technology and protocols. In certain centers, the Company will maintain ownership of the laboratory equipment and in other cases the laboratory equipment will be sold to an independent party. These license fees are payable upon signing of a license agreement and are recognized as revenue ratably over the license.

The Company has also entered into agreements with independent sales representative organizations that will market the centers services to physicians in the geographic area. Fees for tissue processing cases from such physicians will be collected by the Company and recognized upon performance of the laboratory analysis. Sales of equipment by Tech Stem are recognized when the following fundamental criteria are met: (i) delivery has occurred, (ii) the price to the customer is fixed or determinable and (iii) collection of the resulting accounts receivable is reasonably assured.

Table of Contents

Certain Risks and Uncertainties

The Company has a limited operating history and its prospects are subject to the risks and uncertainties frequently encountered by companies in the early stages of development and commercialization, especially those companies in rapidly evolving and technologically advanced industries such as the biotech / medical device field. The future viability of the Company largely depends on its ability to complete development of new products and processes and maintain and/or receive regulatory approval for those products and processes. No assurance can be given that the Company's new processes and products will be successfully developed, regulatory approvals will be maintained or granted, or acceptance of these processes and products by the medical and patient communities will be achieved.

Restricted Cash and Cash Equivalents

Restricted cash and cash equivalents consist primarily of funds received that are restricted for specific purposes or cash set aside and restricted for specific payments. As of March 31, 2014 and December 31, 2013, the Company has restricted cash of \$664,362 and \$0, respectively. Cash escrow agreements were executed under the YA Global financing agreement. Funds of \$260,362 were placed in escrow for payment of taxes owed to Internal Revenue Service and the State of New York. Funds of \$450,000 were placed in escrow for which \$200,000 is to be used for the Dr. James Andrews Consulting agreement payments and \$250,000 to be used solely for the legal and accounting costs associated with the Company's 2013 and 2014 review and filings of forms 10K and 10Q. During the quarter ended March 31, 2014, \$46,000 was paid from the \$450,000 escrow for accounting fees and Dr. Andrews Consulting agreement.

Accounts Receivable

The Company extends credit to customers without requiring collateral. The Company provides for doubtful accounts based on management's evaluations of the collectability of accounts receivable. Management's evaluation is based on the Company's historical collection experience and a review of past-due amounts. The Company determines accounts receivable to be delinquent when collection is past due under the agreed upon terms. Accounts receivable are written off when it is determined that amounts are uncollectible.

Property and equipment, net

Property and equipment is recorded at cost. Depreciation and amortization are computed using the straight-line method over the estimated useful lives of the related asset and, for leasehold improvements, the shorter of the lease term or estimated useful life.

Maintenance and repairs are charged to expense as incurred. Costs of renewals and betterments are capitalized.

Table of Contents

Research and Development Costs

Research and development (“R&D”) expenses include supplies, salaries, and other headcount related costs, contract and other outside service, and facilities and overhead costs. The Company expenses the costs associated with research and development activities when incurred.

Derivative Financial Instruments

The Company has issued various financial instruments to investors that contain anti-dilution provisions. GAAP provides guidance on determining what types of financial instruments or embedded features in a financial instrument would cause the financial instrument to be classified as a liability instead of equity. Under the evaluation criteria, the Company concluded that the financial instruments that contained full ratchet anti-dilution provisions are to be treated as derivative liabilities. GAAP requires that the fair value of these liabilities be re-measured at the end of every reporting period with the change in value over the period reported in the statement of operations. These instruments were valued using pricing models which incorporate the Company’s stock price, volatility, U.S. risk free rate, dividend rate and estimated life.

Income Taxes

The Company accounts for income taxes using the liability method. The liability method requires recognition of future tax benefits, measured by enacted rates, attributable to deductible temporary differences between financial statement and income tax bases of assets and liabilities to the extent that realization of such benefits is “more likely than not.” The Company’s temporary differences between financial statement and income tax reporting relate primarily to receivable reserves, depreciation expense, and operating loss carryforwards. This standard also provides guidance on derecognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, accounting for income taxes in interim periods and income tax disclosures.

GAAP requires that, in applying the liability method, the financial statement effects of an uncertain tax position be recognized based on the outcome that is more likely than not to occur. Under this criterion the most likely resolution of an uncertain tax position should be analyzed base on technical merits and on the outcome that will likely be sustained under examination. The Company recognizes accrued penalties, and interest associated with uncertain tax positions, as part of the income tax provision.

Net Loss per Share

Basic net loss per share is calculated by dividing the net loss for the period by the weighted-average number of common shares outstanding during the period. Diluted net loss per share is calculated by dividing loss for the period by the weighted-average number of common shares outstanding during the period, increased by potentially dilutive common shares (“dilutive securities”) that were outstanding during the period. Dilutive securities include stock options and warrants granted and convertible debt. The Company’s loss attributable to common stockholders, along with the dilutive effect of potentially issuable common stock due to outstanding options warrants and convertible securities cause the normal computation of diluted loss per share to be smaller than the basic loss per share; thereby yielding a result that is counterintuitive. Consequently, the diluted loss per share amount presented does not differ from basic loss per share due to this “anti-dilutive” effect.

Reclassifications

Certain prior year amounts were reclassified to conform with current year presentation.

Table of Contents

4. Property and Equipment, net

The Company's property and equipment at March 31, 2014 and December 31, 2013 consists of the following:

	March 31, 2014	December 31, 2013
Lab equipment	\$206,089	\$206,089
Leasehold Improvements	2,226,181	2,226,181

Total	\$1,227,545	\$2,609,257

Table of Contents

6. License Fees Payable

During the years ended December 31, 2013 and 2012, the Company executed various license agreements and collected an aggregate of \$1,222,500 in license fees for six centers which had not yet commenced operations as of March 31, 2014. Consequently, recognition of such revenue had been deferred pending commencement of operations. The Company was unable to perform its obligations in regards to the licensing agreements and, accordingly, the agreements were cancelled. The Company has classified the amounts to be returned to the former licensees as Licensee Fees Payable on the condensed consolidated balance sheet.

In 2013, the Company converted three different license fees outstanding into convertible debentures totaling \$300,000, bringing the total balance as of March 31, 2014 to \$922,500.

7. Notes Payable

Consorteum Notes Payable

In conjunction with the Merger, the Company assumed notes payable in the principal amount of \$2,463,652 plus accrued interest of \$369,898.

Following completion of the Merger, the Company entered into an asset purchase agreement (the "Consorteum Purchase Agreement") with Consorteum Holdings, Inc. ("Consorteum"), an unrelated company, pursuant to which the Company agreed to sell, transfer and assign to Consorteum all of the Company's rights, title and interests to, and agreements relating to, its digital trading card business and platform in exchange for Consorteum assuming an aggregate principal amount of \$1,864,152 of indebtedness of the Company (the "Consorteum Notes"). Such rights include, but are not limited to, the Company's name, phone number and listing, reputation, relationships and other intangible assets (including its rights to any intellectual property or proprietary technology), as well as the company's rights under certain licensing agreements ("Digital Trading Assets").

Also on June 6, 2011, the Company and Consorteum entered into an amendment agreement (the "Amendment Agreement") to the Consorteum Purchase Agreement pursuant to which the parties agreed, among other things, that the obligations of the Parties to consummate the transactions contemplated by the Purchase Agreement are subject to (i) the approval of the Board of Directors of each of the parties, and (ii) the completion of the assignment of the Assumed Liabilities (including receipt of all the necessary consents of the holders of all outstanding indebtedness of the Buyer).

On June 30, 2011, the Company and Consorteum agreed to waive the requirement that the conditions precedent set forth in the Consorteum Purchase Agreement as amended be satisfied on or before closing and each party agreed that as of the date of the Consorteum Purchase Agreement, Consorteum would assume an aggregate of \$1,477,052 of principal indebtedness plus accrued interest from the Company totaling \$250,695 less unamortized note discounts of \$9,890. Upon completion of the requirements of the Consorteum Purchase Agreement and the Amendment Agreement, the note holders who consented to the assumption of their obligations by Consorteum received shares of Consorteum common stock in satisfaction of their notes. Included in the notes assumed by Consorteum were notes payable to former officers and directors of the Company prior to the Merger totaling \$450,000 in principal plus accrued interest of \$74,935. Notwithstanding the foregoing, Consorteum agreed to provide the Company a guarantee, whereby Consorteum agrees to unconditionally and irrevocably guarantee to the Company the prompt and complete payment, as and when due and payable (whether at stated maturity or by required prepayment, acceleration, demand or otherwise), of any remaining notes payable for which the Company had not received the necessary consent as of the date of the waiver. As a result of the foregoing, the transactions contemplated by the Consorteum Purchase Agreement closed on June 30, 2011.

Upon completion of the Consortium Purchase Agreement, the Company had notes payable totaling \$986,600 that were not assumed in the agreement.

During the period ending June 30, 2012, \$375,000 of the principal balance of the Consortium Notes and accrued interest of \$152,549 was converted to common stock and warrants as part of the February 2012 private placement. 9. Convertible Debentures

May 2011 Convertible Debenture Offering

In May 2011, IntelliCell completed a convertible debt offering aggregating \$1,385,000. The units offered consist of a \$50,000 subordinated convertible debenture payable one year from the date of issue with interest at a rate of 6% and convertible, at the option of the holder, into the Company's common stock at an initial conversion price of \$1.72 per share (the "May 2011 Debentures"). Each unit also included a detachable five (5) year warrant to purchase 57,143 shares of IntelliCell's common stock at an exercise price of \$1.72 per share. The proceeds from the issuance of convertible debt securities with detachable warrants were allocated between the warrants and the debt security. The discount is being amortized over the life of the debt. As of December 31, 2011, the Company recorded an original issue discount of \$288,564 related to the value of the warrants that will be amortized as interest expense over the initial one year term of the May 2011 Debentures.

As a result of the Company's Merger, and the effect of recapitalization, the exercise price of the May 2011 Debentures and warrants was decreased from \$1.72 to \$.88. JMJ Financial Promissory Note

On February 20, 2013 (the "Effective Date"), the Company entered into promissory note, as amended (the "JMJ Note") with JMJ Financial ("JMJ"), pursuant to which JMJ agreed to lend the Company up to an aggregate principal amount of \$500,000 (the "Principal Sum") for an aggregate purchase price of \$450,000. JMJ provided \$100,000 to the Company on the Effective Date. The JMJ Note matures one year from the date of each payment by JMJ to the Company (the "Maturity Date").

The Company may repay the JMJ Note at any time on or before the 90th day after the Effective Date, after which the Company may not make further payments on the Note prior to the Maturity Date without written approval from the Investor. If the Company repays the JMJ Note on or before the 90th day after the Effective Date, the interest rate under the JMJ Note shall be zero percent (0%). If the Company does not repay the JMJ Note on or before the 90th day after the Effective Date, a one-time interest payment of 12% shall be applied to the Principal Sum.

JMJ may convert, beginning on the six month anniversary of the Effective Date, the outstanding principal and accrued interest on the Note into shares of the Company's common stock at a conversion price per share equal to the lesser of (i) \$0.16 or (ii) 60% of the lowest trade price in the 25 trading days prior to the date of conversion (the "Conversion Price"). The Conversion Price will be subject to adjustment for, among other things, the Company's failure to be DTC eligible and only being Xclearing deposit eligible.

The Company shall include on the next registration statement the Company files with Securities and Exchange Commission (or on the subsequent registration statement if such registration statement is withdrawn) all shares issuable upon conversion of the JMJ Note. Failure to include such securities on the next registration statement will result in liquidated damages of 25% of the outstanding principal balance of the Note, but not less than \$25,000, being immediately due and payable to JMJ at its election in the form of cash or added to the Principal Sum of the JMJ Note.

JMJ has contractually agreed to restrict its ability to convert the JMJ Note such that the number of shares of the Company common stock held by the Investor and its affiliates after such conversion does not exceed 4.99% of the Company's then issued and outstanding shares of common stock.

So long as the JMJ Note is outstanding, upon any issuance by the Company or any of its subsidiaries of any security with any term more favorable to the holder of such security or with a term in favor of the holder of such security that was not similarly provided to JMJ in the JMJ Note, then the Company shall notify the Borrower of such additional or more favorable term and such term, at JMJ's option, shall become a part of the transaction documents with JMJ.

13. Capital Stock

The principal features of the Company's capital stock are as follows:

Series B Preferred Stock

As of March 31, 2014 and December 31, 2013, the Company has designated 21,000 shares of preferred stock as Series B preferred stock, with a par value of \$.01 per share, of which 15,058 shares of preferred stock are issued and outstanding. Each share of series B preferred stock shall be convertible into 1,000 shares of the Company's common stock. In addition, the holders of the series B preferred stock shall be entitled to notice of stockholders' meeting and to vote as a single class with the holders of the Common Stock upon any matter submitted to the stockholders for a vote, and shall be entitled to such number of votes as shall equal the product of (a) the number of shares of Common Stock into which the series B preferred stock is convertible into on the record date of such vote multiplied by (b) ten (10).

Series C Preferred Stock

As of March 31, 2014 and December 31, 2013, the Company has designated 13,000 shares of preferred stock as Series C preferred stock, with a par value of \$.01 per share, of which 7,250 shares of preferred stock are issued and outstanding. Each share of Series C preferred stock shall be convertible into 1,000 shares of the Company's common stock. . In addition, the holders of the series B preferred stock shall be entitled to notice of stockholders' meeting and to vote as a single class with the holders of the Common Stock upon any matter submitted to the stockholders for a vote, and shall be entitled to such number of votes as shall equal to the number of shares of Common Stock into which the series B preferred stock is convertible into on the record date.

Certain holders of the Company's Series C preferred stock have contractually agreed to restrict their ability to convert the Series C preferred stock such that the number of shares of the Company common stock held by each of holder and its affiliates after such conversion shall not exceed 4.99% of the Company's then issued and outstanding shares of common stock.

Series D Preferred Stock

As of March 31, 2014 and December 31, 2013, the Company has designated 500,000 shares of preferred stock as Series D preferred stock, with a par value of \$.01 per share, of which 56,500 shares of preferred stock are issued and outstanding. Each share of series D convertible preferred stock is convertible at any time at an initial conversion price equal to \$2.00 per share, subject to adjustment under certain circumstances. As long as the series D preferred stock is outstanding, the conversion price of the series D convertible preferred stock in effect shall be reduced by \$0.05 for every 180 day period a share of series D preferred stock is held by the investor. The series D convertible preferred stock automatically converts into shares of the Company's common stock after three years. Each share of Series D convertible preferred stock was issued with a warrant to purchase 10 shares of the Company's common stock. The warrants are exercisable for a period of five years from the date of issuance at an initial exercise price of \$2.00, subject to adjustment under certain circumstances. The exercise price of the warrants and the conversion price of the series D convertible preferred stock are subject to full ratchet and anti-dilution adjustment for subsequent lower price issuances by the Company, as well as customary adjustments provisions for stock splits, stock dividends, recapitalizations and the like. However, no adjustment made shall cause the exercise price of the series D convertible preferred stock and warrants to be less than \$1.00. The holders of Series D preferred stock have no voting rights.

Series F Preferred Stock

On January 17, 2014, Intellicell Biosciences, Inc. (the “Corporation”) filed a certificate of designations, rights and preferences (the “Certificate of Designation”) with the Secretary of State of the State of Nevada pursuant to which the Corporation set forth the designation, powers, rights, privileges, preferences and restrictions of the Series E Preferred Stock. On January 22, 2014 the Corporation filed a certificate of correction (the “Certificate of Correction”) with the Secretary of State of Nevada to change the name of the designation from “Series E Preferred Stock” to “Series F Preferred Stock.” By unanimous written consent of the Board, the Board issued an aggregate of fifty one (51) shares of Series F Preferred to five individuals. The five individuals include the Company’s CEO and Chairman and four members of the Board of Directors. As a result of the voting rights granted to the Series F Preferred, the Series F Stockholders hold, in the aggregate, approximately 50.95% of the total voting power of all issued and outstanding voting capital of the Company. Each one (1) share of the Series F Preferred Stock shall have voting rights equal to (x) 0.019607 multiplied by the total issued and outstanding shares of Common Stock eligible to vote at the time of the respective vote (the “Numerator”), divided by (y) 0.49, minus (z) the Numerator. For purposes of illustration only, if the total issued and outstanding shares of Common Stock eligible to vote at the time of the respective vote is 5,000,000, the voting rights of one share of the Series F Preferred shall be equal to $102,036 (0.019607 \times 5,000,000) / 0.49 - (0.019607 \times 5,000,000) = 102,036$.

A summary of the Company's stock awards for options as of March 31, 2014 and changes for the period ended March 31, 2014 is presented below:

	Stock Options	Weighted Average Exercise Price
Outstanding, December 31, 2013	4,122,926	\$ 2.34
Granted	--	--
Exercised	--	--
Expired/Cancelled		--
Outstanding, March 31, 2014	4,122,926	\$ 2.34
Exercisable, March 31, 2014	3,641,673	\$ 2.14

The expected life of awards granted represents the period of time that they are expected to be outstanding. The Company has no historical experience with which to establish a basis for determining an expected life of these awards. Therefore, the Company only gave consideration to the contractual terms and did not consider the vesting schedules, exercise patterns and pre-vesting and post-vesting forfeitures significant to the expected life of the option award.

We estimate the volatility of our common stock based on the calculated historical volatility of similar entities in industry, in size and in financial leverage whose share prices are publicly available. We base the risk-free interest rate used in the Black-Scholes-Merton option valuation model on the implied yield currently available on U.S. Treasury zero-coupon issues with an equivalent remaining term equal to the expected life of the award. We have not paid any cash dividends on our common stock and do not anticipate paying any cash dividends in the foreseeable future. Consequently, we use an expected dividend yield of zero in the Black-Scholes-Merton option valuation model.

Total stock-based compensation expense in connection with options granted to employees recognized in the condensed consolidated statement of operations for the period ended March 31, 2014 and 2013 was \$342,135 and \$360,360, respectively, net of tax effect. There was no stock-based compensation expense in connection with options granted to non-employees recognized for the periods ended March 31, 2014 and 2013. Additionally, none of the options outstanding and unvested as of March 31, 2014, and 2013 had any intrinsic value.

Warrants

The following table summarizes the changes in the warrants outstanding at March 31, 2014, and the related prices for the shares of the Company's common stock issued to non-employees of the Company. These warrants were issued in lieu of cash compensation for services performed or financing expenses and in connection with the private placements and merger.

Laboratory Services and License Agreement

On March 11, 2014 (the “Effective Date”), Intellicell Biosciences, Inc., (the “Company”), executed a Laboratory Services and License Agreement (the “License Agreement”), effective March 7, 2014, with The Andrews Research and Education Foundation, Inc. (“AREF”) pursuant to which the Company agreed to grant certain technology and trademark licenses to AREF.

The term of the License Agreement shall be for a period of three (3) years commencing on March 7, 2014 and shall automatically renew for subsequent periods of three (3) years unless either party to the License Agreement provides notice of its intention not to renew at least ninety (90) days prior to the expiration of any three (3) year term.

Subject to the terms and conditions of the License Agreement, the Company agreed to grant AREF a non-exclusive (except for the Pensacola, Florida area and a surrounding radius of 150 miles), non-assignable, non-transferrable, non-sublicensable license to market the use of and practice the Technology (as such term is defined in the License Agreement) at AREF’s premises for restricted purposes as provided in the License Agreement. The Company also agreed to grant AREF a non-exclusive, non-assignable, non-sublicensable, license to the Trademarks (as such term is defined in the Agreement). Furthermore, the Company reserved the perpetual worldwide right to license and use the Patent (as defined in the License Agreement), Trademarks and the Technology licensed under the License Agreement for any purpose.

Except for when performed for research purposes, AREF shall pay to the Company a fee equal to \$2,500 per Tissue Processing (as such term is defined in the License Agreement) case processed. The parties to the License Agreement have mutually agreed not to disclose any Confidential Information (as such term is defined in the License Agreement), whether verbal or written, conveyed to them prior to, during or subsequent to the term of the License Agreement.

Consulting Agreements

On March 11, 2014, the Company executed a Consulting Agreement (the “Consulting Agreement”) with Dr. James Andrews, effective March 7, 2014, pursuant to which Dr. Andrews shall serve as Chairman of the Intellicell Orthopedic Cellular Therapy Advisory Board. The initial term of the Agreement shall be for a period of ten (10) years unless extended as provided in the Agreement or unless terminated by either party with thirty (30) days advance written notice to the other party. In consideration for Consultant’s services, the Consultant shall be paid a monthly fee and make a monthly charitable contribution to the Andrews Foundation after the Company closes a Capital Raise (as defined in the Consulting Agreement), and the amount of such monthly fee and monthly charitable contribution shall be determined based on the amount raised in the Capital Raise. Based upon the capital raise transaction in March 2014 with YA Global Investments, LP in the amount of \$2,100,000, the monthly fee payable to the Consultant thereafter shall be equal to \$40,000, which includes a \$6,000 payment to Dr. Michael Immel and a charitable contribution of \$10,000 payable to the Andrews Foundation. These payments will continue for the term of the Consulting Agreement.

Furthermore, commencing on March 1, 2014 and ending on May 1, 2017, on each of March 1, June 1, October 1 and January 1 during such period, the Company shall issue and the Consultant shall be entitled to receive non-qualified stock options to purchase a number of shares of the Company’s common stock equal to 750,000 divided by the average of the closing bid price per share of such common stock for the ten (10) trading days immediately prior to the date of issuance, subject to certain adjustments as set forth in the Consulting Agreement. The options have a strike price of \$0.0058 per share and are exercisable for ten (10) years. A portion (13.33%) of such options will be issued to the Andrews Foundation (and Dr. Immel shall receive 20% of such options). In addition, The Company shall issue to the Consultant 6,666,666 shares of its common stock based on the market price at the date of the execution of the License

Agreement (see description above), as well as 2,000,000 shares to Dr. Immel and 7,999,999 shares to the Andrews Foundation. Additionally, 1,000,000 shares shall be issued to the Consultant, 200,000 shares shall be issued to Dr. Immel and 133,333 shares shall be issued to the Andrews Foundation upon FDA approval of the Company's Stromal Vascular Fraction Cell injection for treatment of osteoarthritis.

TCA Default Notice

On July 15, 2013, while the Company was finalizing an amendment and waiver to that certain Convertible Promissory Note (the “Note”) issued by the Company in favor of TCA Global Credit Master Fund, LP (“TCA”) on June 7, 2012 in the principal amount of \$500,000, the Company was advised that Ironridge Global IV, LTD (“Ironridge”), led by Mr. John C. Kirkland, Esq., purportedly purchased the Note from TCA. The Complaint and Motion alleged that Ironridge and TCA each served the Company with a Notice of Foreclosure and Sale, both claiming to be the “Secured Party” of the same assets.

On August 8, 2013, a Summons and Complaint (the “Complaint”) was filed along with a Motion for a Temporary Restraining Order (the “Motion”) before the Supreme Court of the State of New York, County of New York (the “Court”) under the caption Intellicell Biosciences, Inc. v Ironridge Global IV, LTD., and TCA Global Credit Master Fund, LP, Index No. 652800/13. The Motion sought to restrain the sale of the Company’s assets.

Given that Ironridge and TCA asserted that they would sell the secured assets of the Company at auction on August 12, 2013, the Motion sought to temporarily restrain both parties from so doing. On August 12, 2013, Justice Sherwood, Justice of the Supreme Court, New York County, issued a written Order granting the relief requested, thereby restraining any sale of assets (the “Temporary Restraining Order”).

On August 26, 2013, despite the Company’s best efforts to amicably resolve the dispute related to the Note, a subsequent hearing on the Motion was held, at which time the Company voluntarily brought with it to Court: (i) a certified check in the amount of \$535,833.33 constituting payment of all principal and interest owed under the Note; and (ii) a stock certificate constituting the facility fee shares owed to the Secured Party pursuant to that certain Equity Facility Agreement. Since TCA admitted in prior court filings that it has no remaining interest in the that certain Note and Equity Facility Agreement, both the check and the stock certificate were tendered to Ironridge in open court, and counsel for Ironridge confirmed receipt thereof to Justice Oing directly. The company's attorneys argued in court that with the exception of possible attorney’s fees owed, the Company's obligations under the transaction documents have now been satisfied in full.

In addition, the Court found Ironridge’s jurisdictional argument to be unavailing and held that the case shall remain in New York and directed all parties to file submissions with the Court on September 10, 2013, indicating why any other monies are or are not owed under those certain transaction documents. Judge Oing further directed that the Temporary Restraining Order restraining the sale of the Company’s assets shall remain in place indefinitely until further order of the Court and that the auction shall not be rescheduled and that Ironridge shall not make, post or distribute any further advertisements, internet postings, blogs or otherwise in relation thereto. Finally, Judge Oing held that the balance of the \$680,000 that was being held in escrow be immediately released.

On January 28, 2014, Judicial Hearing Officer Ira Gammerman, in a decision on each of Ironridge’s claims against the Company, fully justified IntelliCell’s position by ruling against each of Ironridge’s and TCA’s demands for monetary damages. The Court made it clear that Ironridge and TCA are not entitled to monetary damages and had no right to inappropriately broadcast to the world that it could sell IntelliCell’s assets.

Additional litigations

On March 17, 2014, Dean E. Miller, as representative shareholder, on behalf of the nominal defendant Intellicell Biosciences, Inc., filed a shareholder's derivative action against Steven Victor, MD, in his capacity as Chairman - CEO and individually, Anna Rhodes as former Executive Vice President and individually, Leonard L. Mazur as interim Chief Operating Officer and individually, Myron Holubiak as a Director and individually, Michael Hershman, as Chairman of the Board of Directors and individually, Stuart Goldfarb as a former Director and individually, Victor Dermatology & Rejuvenation, P.C., Victor Cosmeceuticals, Inc., Lasersculpt, Inc., and the Doe Entities 1-5, as defendants, and Intellicell Biosciences, Inc., as nominal-defendant. The complaint, which was filed on the aforementioned date with the United States District Court Southern District of New York, alleges that the Company has failed to comply with US Food and Drug Administration and United States Patent and Trade Office regulations. The allegations in the complaint include, but are not limited to, allegations involving fraud, negligence, false reporting, and mismanagement of laboratory facilities. Pursuant to the complaint, the amount in controversy exceeds \$75,000. Furthermore, the complaint as filed lists the following counts: 1. Against the individual defendants for breach of their fiduciary duties in connection with their management of the Company; 2. Against the individual defendants for breach of fiduciary duty in connection with disseminating false information; 3. Against the individual defendants for breach of fiduciary duty for failing to design and implement adequate internal controls; 4. Request for injunctive relief; 5. Imposition of constructive trust/accounting; and 6. Appointment of referee injunctive relief. The Company believes that such allegations and claims are without merit and intends to vigorously defend such allegations and claims. Because the inquiry is in its initial stages, the Company is not currently able to predict the probability of a favorable or unfavorable outcome, or the amount of any possible loss in the event of an unfavorable outcome. Consequently, no material provision or liability has been recorded for such allegations and claims as of December 31, 2013. However, management is confident in its defenses to such allegations and claims.

On March 13, 2014, Steven A. Victor ("Dr. Victor"), Intellicell Biosciences, Inc., a Nevada corporation, Intellicell Biosciences Inc., a New York corporation, and Regen Medical P.C., a New York corporation filed a complaint against Jonathan Schwartz ("Schwarz"), Joseph P. Salvani ("Salvani") and Douglas R. Dollinger ("Dollinger"), in the Supreme Court of the State of New York, County of New York. Schwartz and Salvani, both shareholders of the Company, are represented by Dollinger in his capacity as legal counsel. Pursuant to the complaint, the plaintiffs' first cause of action alleges that the defendants conspired together and acted in concert, to defame Dr. Victor and the Company in an effort to take control of the Company and to reap large profits by dumping their shares thereafter. Furthermore, the plaintiffs' second cause of action alleges that Salvani made false statements to a potential investor, resulting in damages amounting to \$250,000. The plaintiffs seek compensatory damages, together with punitive damages and interest in connection with the first cause of action, and compensatory damages in the amount of \$250,000.00, together with punitive damages and interest, in connection with the second cause of action.

In February 2014, John Cade and two other lenders to Intellicell's predecessor entities filed suit, in the Second Judicial District Court of the State of Nevada, Washoe County, for non-payment of certain promissory notes owed by predecessor company, Media Exchange Group. Company Counsel managed to obtain a stay of Intellicell's time to appear until June 20, 2014.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Statement of Forward Looking Information

This quarterly report on Form 10-Q and other reports (collectively, the "Filings") filed by Intellicell Biosciences, Inc. ("Intellicell" or the "Company") from time to time with the U.S. Securities and Exchange Commission (the "SEC") contain or may contain forward-looking statements and information that are based upon beliefs of, and information currently available to, the Company's management as well as estimates and assumptions made by Company's management. Readers are cautioned not to place undue reliance on these forward-looking statements, which are only predictions and speak only as of the date hereof. When used in the Filings, the words "anticipate," "believe," "estimate," "expect," "future," "intend," "plan," or the negative of these terms and similar expressions as they relate to the Company or the Company's management identify forward-looking statements. Such statements reflect the current view of the Company with respect to future events and are subject to risks, uncertainties, assumptions, and other factors, including the risks contained in the "Risk Factors" section of the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2013, filed with the SEC on May 12, 2014, relating to the Company's industry, the Company's operations and results of operations, and any businesses that the Company may acquire. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ significantly from those anticipated, believed, estimated, expected, intended, or planned.

Although the Company believes that the expectations reflected in the forward-looking statements are reasonable, the Company cannot guarantee future results, levels of activity, performance, or achievements. Except as required by applicable law, including the securities laws of the United States, the Company does not intend to update any of the forward-looking statements to conform these statements to actual results.

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). These accounting principles require us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions upon which we rely are reasonable based upon information available to us at the time that these estimates, judgments and assumptions are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements as well as the reported amounts of revenues and expenses during the periods presented. Our financial statements would be affected to the extent there are material differences between these estimates and actual results. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not require management's judgment in its application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result. The following discussion should be read in conjunction with our consolidated financial statements and notes thereto appearing elsewhere in this report.

History

We were incorporated in Nevada under the name AVL Systems International, Inc. on March 8, 1999. On March 9, 2000, we filed an amendment to our articles of incorporation to change our corporate name to I-Track, Inc. On March 21, 2003, we filed Articles of Exchange pursuant to which we acquired Strategic Communication Partners, Inc., and we filed an amendment to our articles of incorporation to change our corporate name to China Wireless Communications, Inc. On May 17, 2010, we filed an amendment to our articles of incorporation to change our corporate name to Media Exchange Group, Inc. On June 3, 2011, we completed the acquisition of Intellicell Biosciences, Inc., a New York corporation, pursuant to the terms of an Agreement and Plan of Merger dated April 27, 2011. Thereafter, on June 30, 2011, we completed the sale of all of our rights, title and interests to, and agreements relating to, our digital trading card business and platform as well as all other intangible assets of the business, pursuant to an asset purchase agreement with Consorteum Holdings, Inc. As a result of the transactions with Intellicell and

Consorteum, we terminated our digital trading card business and platform and succeeded to the business operations and research efforts of Intellicell in the field of Regenerative medicine. On June 27, 2011, we filed articles of merger to change our corporate name to Intellicell Biosciences, Inc.

Merger with Intellicell Biosciences, Inc.

On April 27, 2011, we entered into an Agreement and Plan of Merger with Intellicell which was amended on June 3, 2011 (the "Merger Agreement"). Under the terms of the Merger Agreement, our wholly-owned subsidiary ("Merger Sub") merged into Intellicell. The Merger Sub ceased to exist as a corporation and Intellicell continued as the surviving corporate entity. As a result of the merger, Intellicell shareholders acquired the majority of our outstanding common stock and all of our Series B preferred stock. The recapitalized Intellicell Biosciences, Inc. is hereafter referred to as "Intellicell" or the "Company". As consideration for the Merger, the holders of the an aggregate of 7,975,768 shares of Intellicell's common stock exchanged their shares of common stock for an aggregate of 15,476,978 shares of the Company's common stock and Dr. Steven Victor, the principal shareholder of Intellicell, exchanged an aggregate of 10,575,482 shares of Intellicell's common stock for an aggregate of 20,521 shares of the Company's series B preferred stock. Each share of series B preferred stock is convertible into 1,000 shares of the Company's common stock. In addition, the holders of the series B preferred stock are entitled to notice of stockholders' meetings and to vote as a single class with the holders of the Common Stock on any matter submitted to the stockholders for a vote, and are entitled to the number of votes equal the product of (a) the number of shares of Common Stock into which the series B preferred stock is convertible into on the record date of the vote multiplied by (b) ten (10). The closing of the Merger took place on June 3, 2011 (the "Closing Date").

Table of Contents

In addition to the foregoing, in accordance with the Merger Agreement, all outstanding convertible notes issued by Intellicell (the “Intellicell Notes”) and warrants issued by Intellicell (the “Intellicell Warrants”) entitle the holder to convert or exercise, as the case may be, into and receive the same number of shares of the Company common stock as the holder of Intellicell Notes and Warrants would have been entitled to receive pursuant to the Merger had such holder exercised such Intellicell Notes and Warrants in full immediately prior to the closing of the Merger. Thus, remaining are an aggregate of \$1,360,000 of Intellicell Notes outstanding which are convertible into an aggregate of 1,533,258 shares of common stock of the Company and warrants to purchase an aggregate of 3,071,342 shares of common stock of the Company. In the current period, holders of Intellicell Notes in the principal amount of \$25,000 have converted their Intellicell Notes into shares of our common stock. We have not repaid any of the principal or accrued but unpaid interest that has become due and payable under the remaining Intellicell Notes. The Company is currently working on making arrangements to honor its remaining obligations under the Intellicell Notes, however, there can be no assurance that any such arrangements will ever materialize or be permissible or sufficient to cover any or all of the obligations under the Intellicell Notes.

As a result of the Merger, Intellicell became our wholly-owned subsidiary, with Intellicell’s former shareholders acquiring a majority of the outstanding shares of our common stock, as well as all of the shares of our series B preferred stock.

Debt Conversions and Settlements

Prior to the consummation of the Merger, the Company entered into agreements the holders of an aggregate of \$1,619,606 of indebtedness to the Company, comprised of accrued compensation in the amount of \$1,201,551, promissory notes in the principal amount of \$263,707 plus accrued interest of \$9,398 less unamortized debt discounts of \$83,264 and accrued expenses totaling \$228,414 (the “Series C Debt”), which included \$1,201,551 of accrued compensation, \$128,047 of notes payable held or made by affiliates of the Company, pursuant to which such persons agreed to settle and compromise such Series C Debt in exchange for the issuance of an aggregate of 12,123 shares of series C preferred stock. Each share of series C preferred stock shall be convertible into 1,000 shares of the Company’s common stock. Certain holders of the Company’s series C preferred stock have contractually agreed to restrict their ability to convert the series C preferred stock such that the number of shares of the Company common stock held by each of holder and its affiliates after such conversion shall not exceed 4.99% of the Company’s then issued and outstanding shares of common stock.

Furthermore, prior to the consummation of the Merger, the Company entered into agreements with the holders of an aggregate of \$250,000 of accrued compensation, pursuant to which such persons agreed to forgive all amounts owed to the Company.

Asset Purchase Agreement with Consorteum Holdings, Inc.

On June 6, 2011, we entered into an asset purchase agreement (the “Consorteum Purchase Agreement”) with Consorteum Holdings, Inc. (“Consorteum”) pursuant to which we agreed to sell, transfer and assign to Consorteum, and Consorteum has agreed to purchase from us, all of our rights, title and interests to, and agreements relating to, our digital trading card business and platform as well as all other intangible assets of the business in exchange for Consorteum assuming an aggregate principal amount of \$1,864,152 of our indebtedness (the “Assumed Indebtedness”) in accordance with the terms of that certain assignment and assumption agreement executed on June 6, 2011. Such rights include, but are not limited to, our former name, phone number and listing, goodwill and other intangible assets (including its rights to any intellectual property or proprietary technology), as well as our rights under certain licensing agreements.

On June 6, 2011, we and Consorteum entered into an amendment agreement (the “Amendment Agreement”) to the Consorteum Purchase Agreement pursuant to which the parties agreed, among other things, that the obligations of the parties to consummate the transactions contemplated by the Purchase Agreement was subject to (i) the approval of the Board of Directors of each of the parties, and (ii) the completion of the assignment of the Assumed Liabilities (including receipt of all the necessary consents of the holders of all outstanding indebtedness of the Buyer).

On June 30, 2011, we and Consorteum agreed to waive the requirement that the conditions precedent set forth in the Consorteum Purchase Agreement be satisfied on or before closing and each party agreed that as of the date of the Consorteum Purchase Agreement, Consorteum shall assume an aggregate of \$1,477,052 of principal indebtedness from us plus accrued interest totaling \$250,695 in accordance with the terms of the Consorteum Purchase Agreement. The foregoing included notes payable to certain of our former affiliates totaling \$450,000. Notwithstanding the foregoing, Consorteum agreed to provide us with a guaranty, whereby Consorteum agreed to unconditionally and irrevocably guarantee to us the prompt and complete payment, as and when due and payable (whether at stated maturity or by required prepayment, acceleration, demand or otherwise), of the Assumed Indebtedness, including any Assumed Indebtedness which we had not received the necessary consent for as of the date of the waiver. As a result of the foregoing, the transactions contemplated by the Consorteum Purchase Agreement closed on June 30, 2011.

Corporate Structure

As a result of the foregoing transactions, we currently have a wholly-owned subsidiary, Intellicell Biosciences, Inc., a New York corporation, through which we engage in our principal business. We have also recently formed another wholly-owned subsidiary, ICBS Research, Inc., a New York corporation, for the purpose of engaging in clinical studies at prominent medical centers to obtain FDA approval for major clinical indications. In addition, our wholly-owned subsidiary, Intellicell Biosciences, Inc., a New York corporation, owns one hundred percent (100%) of the outstanding stock of Tech Stem Inc., a New York corporation.

Results of Operations

Three Months Ended March 31, 2014 Compared to Three Months Ended March 31, 2013

Revenue

Revenue for the three months ended March 31, 2014 and 2013 was \$32,500 and \$0, respectively. Revenues in 2014 were attributable to fees from 13 cases processed by Regen Medical in the Company's New York City Tissue Processing Center which were 100% related party revenue. The rate per case to process the cells was \$2,500. We intend to engage in a multi-pronged approach with respect to the utilization and commercialization of our proprietary process that will involve entering into technology licensing agreements and related service agreements with physicians, physician practice groups, hospitals and ambulatory service centers located in the United States. We will also be seeking to enter into technology licensing agreements that cover a particular international territory or country. In addition, we will also be seeking to establish "Centers of Excellence" in conjunction with physicians under an arrangement whereby we are appointed the exclusive managing agent for the professional corporation in exchange for the grant of a license to the professional corporation to utilize our proprietary process. Depending upon the arrangement involved, we will be collecting some combination of fees from licensing, processing, service, and management, as well as up-front territorial licensing fees.

License fees will generally be payable upon signing of a license agreement and will be recognized as revenue ratably over the appropriate period of time to which the revenue item relates.

Cost of goods sold and Gross Margin

Cost of goods sold were \$4,618 and \$0 for the three months ended March 31, 2014 and 2013, respectively. These costs were the cost of supplies for cases processed in our tissue processing center in New York.

Gross margins were \$27,882 and \$0 for the three months ended March 31, 2014 and 2013, respectively. In the future, the cost of goods sold effecting gross margins will include costs for the supplies sold to licensees for the processing of each tissue processing case, cost of equipment sold directly to licensees, and the direct sales costs associated with license fees received.

Operating expenses

Research and development expenses were \$180,000 and \$157,078 for three months ended March 31, 2014 and 2013, respectively. The principal component of research development costs consists of services as the attending physician in patient cases, for lab technicians, and for nursing staff employed by Dr. Victor's medical practice included as part of the ongoing research of our technologies and processes.

The Company continues to increase research and development costs in the current year period. The principal component of research and development costs consists of fees payable to Regen Medical, a medical practice owned by Dr. Steven Victor, the Company's Chief Executive Officer and principal shareholder. The fees are for services as the attending physician in patient cases, for lab technicians, and for nursing staff employed by Dr. Victor's medical practice included as part of the ongoing research of our technologies and processes. These fees totaled \$180,000 and \$49,500 for the three months ended March 31, 2014 and March 31, 2013, respectively. The fees payable to Regen Medical for these cases range from \$5,000 to \$15,000 per case.

Sales and marketing expenses were \$8,150 and \$4,828 for the three months ended March 31, 2014 and 2013, respectively. Sales and marketing expenses consist of costs associated with the development of our brochure and informational materials, our website, an informational video and travel expenses to attend professional meetings, as well as commissions on sales.

General and administrative expenses were \$1,110,776 and \$715,645 for the three months ended March 31, 2014 and 2013, respectively. The following are the significant components of the general and administrative costs:

Table of Contents

Salary Expense

General and administrative is comprised of salary expenses of \$196,278 and \$246,080 for the three months ended March 31, 2014 and 2013, respectively. Included in the salary expense for each of the three months ended March 31, 2014 and 2013 was \$68,750 paid to a significant shareholder as a result of this individual serving in the capacity of our Chief Executive Officer. In addition, the Company incurred salary expenses totaling \$45,000 for the three months ended March 31, 2014 and March 31, 2013, respectively, to the spouse of the Company's Chief Executive Officer and majority shareholder.

Rent and office administrative expenses

Included in general and administrative expenses are \$110,594 and \$103,800 of rent for the three months ended March 31, 2014 and 2013, respectively. Rent is for the office space and Tissue Processing Lab located at 460 Park Avenue.

Professional fees

For the three months ended March 31, 2014 and 2013, we have incurred approximately \$607,995 and \$241,000 in legal, accounting, and professional fees primarily related the FDA compliance, public company costs, and Company litigation.

Depreciation

Depreciation expense is included in general and administrative costs and amounted to \$101,963 and \$84,551 for the three months ended March 31, 2014 and 2013, respectively.

Employee Stock Based Compensation. During the three months ended March 31, 2014 and 2013, the Company incurred employee stock based compensation expenses of \$342,135 and \$360,360, respectively, for incentive stock options and common stock issued to employees. The incentive stock options were valued using the Black Scholes method.

Non-Employee Stock Based Compensation. During the three months ended March 31, 2014 and 2013, non-employee stock based compensation of \$93,333 and \$300,000 were incurred as non-cash charges, respectively. Non-employee stock based compensation is comprised of the following:

- During the three months ended March 31, 2014, the Company did not issue any shares of common stock shares for medical advisory and professional services compared to 2,000,000 shares issued, valued at \$300,000 during the three months ended March 31, 2013. The shares for stock based compensation for the \$93,333 were issued subsequent to March 31, 2014.

The value of the warrants and non-employee stock options were determined using the Black Scholes method, the details of which are more fully explained within the notes to the financial statements.

Changes in Fair Value of Derivative Liability

The Company has issued various instruments (as detailed below) which are accounted for as derivative liabilities and are valued at fair value at the date of issuance and at each balance sheet date. The change in value of these instruments is recorded as a charge (or as income). During the three months ended March 31, 2014 and 2013, the Company recorded an expense in the amount of \$10,280,997 and income in the amount of \$654,998, respectively, relating to the change in value of all its derivative liabilities.

The instruments with derivative properties are as follows:

Convertible Debt - Derivative Liabilities

In May 2011, IntelliCell completed a convertible debt offering aggregating \$1,385,000. The units offered consist of a \$50,000 subordinated convertible debenture payable one year from the date of issue with interest at a rate of 6% and convertible, at the option of the holder, into the Company's common stock at an initial conversion price of \$1.72 per share. Each unit also included a detachable five (5) year warrant to purchase 57,143 shares of IntelliCell's common stock at an exercise price of \$1.72 per share. The proceeds from the issuance of convertible debt securities with detachable warrants were allocated between the warrants and the debt security. The discount is being amortized over the life of the debt. As of December 31, 2011, the Company recorded an original issue discount of \$288,564 related to the value of the warrants that will be amortized as interest expense over the initial one year term of the convertible debentures. As of December 31, 2011, the Company has recognized \$216,422 of interest expense as a result of such amortization.

The Company accounted for the conversion features underlying the convertible debentures issued in accordance with GAAP, as the conversion feature embedded in the convertible debentures could result in the debentures being converted to a variable number of the Company's common shares. The Company determined the value of the derivative conversion features of these debentures issued during the year ended December 31, 2011 at the relevant commitment dates to be \$32,209 utilizing a Black-Scholes valuation model. The change in fair value of the liability for the conversion feature resulted in a reduction to income of \$5.690 and a reduction to income of \$437,013 for the three months ended March 31, 2014 and 2013, respectively, which is included in the accompanying financial statements. The fair value of the derivative conversion features was determined to be \$9,373 and \$3,683 at March 31, 2014 and December 31, 2013, respectively.

Table of Contents

The Company accounted for the detachable warrants included with the convertible debentures as liabilities in accordance with GAAP, as the warrants are subject to anti-dilution protection and could result in them being converted to a variable number of the Company's common shares. The Company determined the value of the derivative feature of the warrants issued during year ended December 31, 2011 at the relevant commitment dates to be \$332,401 utilizing a Black-Scholes valuation model. The change in fair value of the liability for the warrants resulted in a reduction to income of \$6,416 and \$211,015, respectively for the three months ended March 31, 2014 and 2013, respectively, which is included in the accompanying financial statements. The fair value of the derivative conversion features was determined to be \$12,671 and \$6,254 at March 31, 2014 and December 31, 2013, respectively.

As discussed, as a result of the Company's Merger, and the effect of recapitalization, the exercise price of the convertible debentures and warrants was decreased from \$1.72 to \$.88. The subordinated convertible debentures are convertible into an aggregate of 1,561,443 shares of common stock and warrants to purchase an aggregate of 3,071,542 shares of common stock.

Common Stock Offering - Derivative Liabilities

In February 2012, the Company entered into securities purchase agreements with accredited investors, pursuant to which the Company sold (i) an aggregate of 2,600,000 shares of the Company's common stock, par value \$0.001 per share (the "Common Stock"), (ii) class A warrants to purchase an aggregate of 5,200,000 shares of Common Stock (the "Class A Warrants"), and (iii) class B warrants to purchase an aggregate of 5,200,000 shares of Common Stock (the "Class B Warrants" and together with the Class A Warrants, the "Warrants"), for aggregate gross cash proceeds of \$2,627,649, which consisted of \$2,100,000 of cash and the exchange and cancelation of a promissory note (bearing principal and interest totaling \$527,549) and a warrant ("Exchange Agreement").

The Class A Warrants are exercisable for a period of five years from the date of issuance at an initial exercise price of \$2.00, subject to adjustment. The Class B Warrants are exercisable for a period of five years from the date of issuance at an initial exercise price of \$3.75, subject to adjustment. The exercise price of the Warrants were subject to anti-dilution protection if shares or share-indexed financing instruments were sold at less than the stated conversion prices.

Therefore, the associated conversion feature requires liability classification under GAAP which is carried at their fair value to be reevaluated each reporting period. We estimate their fair value as a common stock equivalent, enhanced by the forward elements (coupon, puts, and calls), because that technique embodies all of the assumptions (including credit risk, interest risk, stock price volatility and conversion behavior estimates) that are necessary to determine the fair value of this type of financial instrument.

We determined the value of the derivative conversion features of these debentures issued at the relevant commitment dates to be \$19,036,312 utilizing a Black-Scholes valuation model.

Between September 5, 2012 and October 11, 2012, the February 2012 investors (including the investor that exchanged and cancelled his outstanding promissory note) agreed to certain amendments to their securities purchase agreement and exchange their respective Warrants for (i) an aggregate of 6,100,000 shares of the Company's Common Stock (ii) a new series A warrant to purchase an aggregate of 6,100,000 shares of Common Stock at an exercise price of seventy-five cents (\$0.75) per share and (iii) a new series B warrant to purchase an aggregate of 6,100,000 shares of Common Stock at an exercise price of seventy-five cents (\$0.75) per share.

As of March 31, 2014 and December 31, 2013, the Company had 100,000 Class A and 100,000 Class B warrants outstanding, that were not exchanged and retained their anti-dilutive properties. The change in fair value for the conversion feature resulted in a net increase in income of \$446 for the three months ended March 31, 2014. The value

of the derivative liabilities was \$926 and \$481 as of March 31, 2014 and December 31, 2013, respectively.

Loss before income tax and Net Loss

Loss before income tax for the three months ended March 31, 2014 and March 31, 2013 was \$13,004,773 and \$1,058,459, respectively, which includes a charge for the non-cash change in fair value of derivative liabilities and other expense of \$10,280,997 for the three months ended March 31, 2014 and a reduction of charges for the non-cash change in fair value of derivative liabilities of \$654,998 for the three months ended March 31, 2013. Furthermore, loss before income tax for the three months ended March 31, 2014 and 2013 included non-cash expense for Employee Stock Compensation of \$342,135 and \$360,360, respectively. As we are still implementing our business strategy we anticipate that we will continue to have operating losses for the next several calendar quarters until such time as we have been able to establish a sufficient number of licensees generating licensing, processing, service, and management fees to us, as well as up-front territorial licensing fees, sufficient to cover our operating costs.

Liquidity and Capital Resources

We had a working capital deficit as of March 31, 2014 of \$25,266,948, compared to a working capital deficit at December 31, 2013 of \$13,053,731.

Table of Contents

Our cash and cash equivalents as of March 31, 2014 was \$335,969, compared to cash balances at December 31, 2013 of \$0. We are in the early stages of the implementation of our business strategy and anticipate we will require additional cash to fund our operations for the next twelve months inclusive of costs associated with attracting, training and acquiring laboratory equipment for licensees, costs associated with the conducting of clinical research needed to establish and protect the therapeutic benefits of our technologies, costs associated with the development and marketing and promotional and educational materials relative to our services and costs associated with building out the infrastructure necessary to manage and control our business. In the near term, we plan to utilize our existing limited cash balances and proceeds from licensing, processing, service, and management fees to us, as well as up-front territorial licensing fees, and additional debt and equity based financings to maintain our operations.

Based on our current cash and cash equivalents levels and expected cash flow from operations, we believe our current cash position is not sufficient to fund our cash requirements during the next twelve months, including operations and capital expenditures. We intend to license our proprietary technology and services or obtain equity and/or debt financing to support our current and proposed operations and capital expenditures. We cannot assure that continued funding will be available. There can be no assurance, however, that any such opportunities may arise, or that any such acquisitions may be consummated. Additional financing may not be available on satisfactory terms when required. To the extent that we raise additional funds by issuing equity securities, our stockholders may experience significant dilution. We currently have no firm commitments for any additional capital. There is no guarantee that we will be successful in raising the funds required. If additional financing is not available or is not available on acceptable terms, we will have to curtail our operations.

Net cash used in operating activities

Net cash used in operating activities was \$1,522,669 and \$248,058 for the three months ended March 31, 2014 and March 31, 2013, respectively. Cash was used primarily to fund our operating losses exclusive of non-cash expenditures such as stock compensation for services and changes in the fair value of our derivative liabilities. For the three months ended March 31, 2014, operating activities were impacted by an increase in accounts payable and accrued liabilities of \$46,167 and accrued interest of \$126,667. For the three months ended March 31, 2013, operating activities were impacted by an increase in our accounts payable and accrued liabilities of \$446,192, accrued interest of \$28,770, and accrued liabilities to related parties of \$113,750.

Net cash used in investing activities

Net cash provided by investing activities was \$0 and \$89,079 for the three months ended March 31, 2014 and March 31, 2013, respectively. Furthermore, \$0 and \$93,350 of net advances were received from Regen Medical, respectively during the three months ended March 31, 2014 and March 31, 2013.

Net cash provided by financing activities

Net cash provided by financing activities was \$1,858,638 and \$148,820 for the three months ended March 31, 2014 and March 31, 2013, respectively, consisting of \$0 and \$20,000 of net proceeds received from the sale of our common stock, and \$2,617,000 and \$100,000 of gross proceeds from our convertible debenture issuances, respectively. Additionally, the Company placed \$664,362 of convertible debenture proceeds in specific escrow accounts for the purpose of future payment of specific expenses for delinquent taxes, future committed consulting fees and costs to complete all financial reporting filings through March 31, 2014.

Critical Accounting Policies

Fair Value of Financial Instruments

GAAP requires certain disclosures regarding the fair value of financial instruments. The fair value of financial instruments is made as of a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

GAAP defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Company considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

GAAP establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the degree of subjectivity that is necessary to estimate the fair value of a financial instrument. GAAP establishes three levels of inputs that may be used to measure fair value:

Level 1 – Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 - Level 2 applies to assets or liabilities for which there are inputs other than quoted prices included within Level 1 that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived

principally from, or corroborated by, observable market data.

Level 3 - Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

Revenue Recognition

The Company licenses independent third parties to use the Company's technology in order to enable them to establish tissue processing centers in major metropolitan markets, as well as establishing centers it will operate. Each center will utilize the Company's proprietary technology in conjunction with a suite of laboratory equipment selected by the Company that will enable the lab to process adipose tissue into stromal vascular fraction containing adipose stem cells using the Company's technology and protocols. In certain centers the Company will maintain ownership of the laboratory equipment and in other cases the laboratory equipment will be sold to an independent party. These license fees are payable upon signing of a license agreement and will be recognized as revenue ratably over the appropriate period of time to which the revenue item relates. As of September 30, 2012, the Company had executed license agreements and received \$1,160,000 in license fees for six centers which had not yet commenced operations and therefore recognition of such revenue was deferred. Furthermore, the Company has accrued \$62,500 of previously paid license fees to be returned to a licensee for the Company's cancellation of the license agreement.

Table of Contents

The Company has also entered into agreements with independent sales representative organizations that will market the centers services to physicians in the geographic area. Fees for tissue processing cases from such physicians will be collected by the Company and recognized upon performance of the laboratory analysis. Sales of equipment by Tech Stem are recognized when the following fundamental criteria are met: (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred, (iii) the price to the customer is fixed or determinable and (iv) collection of the resulting accounts receivable is reasonably assured.

Off Balance Sheet Arrangements:

We do not have any off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as “special purpose entities” (SPEs).

New Accounting Pronouncements

No accounting standards or interpretations issued recently are expected to have a material impact on the Company's consolidated financial position, operations or cash flows.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We do not hold any derivative instruments and do not engage in any hedging activities.

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Disclosure controls and procedures include, without limitation, means controls and other procedures that are designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms and (ii) accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, because of the Company's limited resources and limited number of employees, management concluded that our disclosure controls and procedures were ineffective as of March 31, 2014.

Management has identified control deficiencies regarding the lack of segregation of duties and the need for a stronger internal control environment. Management of the Company believes that these material weaknesses are due to the small size of the Company's accounting staff. The small size of the Company's accounting staff may prevent adequate controls in the future, such as segregation of duties, due to the cost/benefit of such remediation.

To mitigate the current limited resources and limited employees, we rely heavily on direct management oversight of transactions, along with the use of external legal and accounting professionals. As we grow, we expect to increase our number of employees, which will enable us to implement adequate segregation of duties within the internal control framework.

These control deficiencies could result in a misstatement of account balances that would result in a reasonable possibility that a material misstatement to our consolidated financial statements may not be prevented or detected on a timely basis. In light of this material weakness, we performed additional analyses and procedures in order to conclude that our consolidated financial statements for the quarter ended September 30, 2013 included in this Quarterly Report on Form 10-Q were fairly stated in accordance with US GAAP. Accordingly, management believes that despite our material weaknesses, our consolidated financial statements for the quarter ended September 30, 2013 are fairly stated, in all material respects, in accordance with US GAAP.

Limitations on Effectiveness of Controls and Procedures

Our management, including our principal executive officer and principal financial officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include, but are not limited to, the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The

design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

(b) Changes in Internal Controls

There were no changes in our internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

Item 1. Legal Proceedings

From time to time, the Company may become involved in various lawsuits and legal proceedings, which arise in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm its business. Other than as stated below, the Company is currently not aware of any such legal proceedings or claims that they believe will have, individually or in the aggregate, a material adverse effect on its business, financial condition or operating results.

Ironridge Litigation

On August 8, 2013, a Summons and Complaint (the “Complaint”) was filed along with a Motion for a Temporary Restraining Order (the “Motion”) before the Supreme Court of the State of New York, County of New York (the “Court”) under the caption Intellicell Biosciences, Inc. v Ironridge Global IV, LTD., and TCA Global Credit Master Fund, LP, Index No. 652800/13. The Motion sought to restrain the sale of the Company’s assets.

As previously reported, on July 15, 2013, while the Company was finalizing an amendment and waiver to that certain Convertible Promissory Note (the “Note”) issued by the Company in favor of TCA Global Credit Master Fund, LP (“TCA”) on June 7, 2012 in the principal amount of \$500,000, the Company was advised that Ironridge Global IV, LTD (“Ironridge”), led by Mr. John C. Kirkland, Esq., purportedly purchased the Note from TCA. The Complaint and Motion alleged that Ironridge and TCA each served the Company with a Notice of Foreclosure and Sale, both claiming to be the “Secured Party” of the same assets.

Given that Ironridge and TCA asserted that they would sell the secured assets of the Company at auction on August 12, 2013, the Motion sought to temporarily restrain both parties from so doing. On August 12, 2013, Justice Sherwood, Justice of the Supreme Court, New York County, issued a written Order granting the relief requested, thereby restraining any sale of assets (the “Temporary Restraining Order”).

On August 26, 2013, despite the Company’s best efforts to amicably resolve the dispute related to the Note, a subsequent hearing on the Motion was held, at which time the Company voluntarily brought with it to Court: (i) a certified check in the amount of \$535,833.33 constituting payment of all principal and interest owed under the Note; and (ii) a stock certificate constituting the facility fee shares owed to the Secured Party pursuant to that certain Equity Facility Agreement. Since TCA admitted in prior court filings that it has no remaining interest in the that certain Note and Equity Facility Agreement, both the check and the stock certificate were tendered to Ironridge in open court, and counsel for Ironridge confirmed receipt thereof to Justice Oing directly. The company's attorneys argued in court that, with the exception of possible attorney’s fees owed, the Company's obligations under the transaction documents have now been satisfied in full.

In addition, the Court found Ironridge’s jurisdictional argument to be unavailing and held that the case shall remain in New York and directed all parties to file submissions with the Court on September 10, 2013, indicating why any other monies are or are not owed under those certain transaction documents. Judge Oing further directed that the Temporary Restraining Order restraining the sale of the Company’s assets shall remain in place indefinitely until further order of the Court and that the auction shall not be rescheduled and that Ironridge shall not make, post or distribute any further advertisements, internet postings, blogs or otherwise in relation thereto. Finally, Judge Oing held that the balance of the \$680,000 that was being held in escrow be immediately released. A hearing was scheduled for October 29, 2013.

Hanover Holdings Litigation

On May 21, 2013, the Supreme Court of the State of New York, County of New York (the “Court”), entered an order (the “Order”) approving, among other things, the fairness of the terms and conditions of an exchange pursuant to Section 3(a)(10) of the Securities Act of 1933, as amended (the “Securities Act”), in accordance with a stipulation of settlement (the “Settlement Agreement”) between Intellicell Biosciences, Inc., a Nevada corporation (the “Company”), and Hanover Holdings I, LLC, a New York limited liability company (“Hanover”), in the matter entitled Hanover Holdings I, LLC v. Intellicell Biosciences, Inc., Case No. 651709/2013 (the “Action”). Hanover commenced the Action against the Company on May 10, 2013 to recover an aggregate of \$706,765.38 of past-due accounts payable of the Company, plus fees and costs (the “Claim”). The Order provides for the full and final settlement of the Claim and the Action. The Settlement Agreement became effective and binding upon the Company and Hanover upon execution of the Order by the Court on May 21, 2013. On May 23, 2013, the Company issued and delivered to Hanover 8,500,000 shares (the “Initial Settlement Shares”) of the Company’s common stock, \$0.001 par value (the “Common Stock”)

The Settlement Agreement provides that the Initial Settlement Shares will be subject to adjustment on the trading day immediately following the Calculation Period (as defined below) to reflect the intention of the parties that the total number of shares of Common Stock to be issued to Hanover pursuant to the Settlement Agreement be based upon a specified discount to the trading volume weighted average price (the “VWAP”) of the Common Stock for a specified period of time subsequent to the Court’s entry of the Order. Specifically, the total number of shares of Common Stock to be issued to Hanover pursuant to the Settlement Agreement shall be equal to the sum of: (i) the quotient obtained by dividing (A) \$706,765.38 by (B) 55% of the average of the lowest 10 VWAPs of the Common Stock over the 80-consecutive trading day period immediately following the date of issuance of the Initial Settlement Shares (or such shorter trading-day period as may be determined by Hanover in its sole discretion by delivery of written notice to the Company) (the “Calculation Period”); (ii) the quotient obtained by dividing (A) the total dollar amount of legal fees and expenses incurred in connection with the Action, which shall not exceed \$57,500 (less \$5,000 heretofore paid by the Company) by (B) the VWAP of the Common Stock over the Calculation Period; and (iii) the quotient obtained by dividing (A) agent fees of \$35,338.27 by (B) the VWAP of the Common Stock over the Calculation Period, rounded up to the nearest whole share (the “VWAP Shares”). As a result, the Company ultimately may be required to issue to Hanover substantially more shares of Common Stock than the number of Initial Settlement Shares issued (subject to the limitations described below). The Settlement Agreement further provides that if, at any time and from time to time during the Calculation Period, Hanover reasonably believes that the total number of Settlement Shares previously issued to Hanover shall be less than the total number of VWAP Shares to be issued to Hanover or its designee in connection with the Settlement Agreement, Hanover may, in its sole discretion, deliver one or more written notices to the Company, at any time and from time to time during the Calculation Period, requesting that a specified number of additional shares of Common Stock promptly be issued and delivered to Hanover or its designee (subject to the limitations described below), and the Company will upon such request reserve and issue the number of additional shares of Common Stock requested to be so issued and delivered in the notice (all of such additional shares of Common Stock, “Additional Settlement Shares”). At the end of the Calculation Period, (i) if the number of VWAP Shares exceeds the number of Initial Settlement Shares and Additional Settlement Shares issued, then the Company will issue to Hanover or its designee additional shares of Common Stock equal to the difference between the number of VWAP Shares and the number of Initial Settlement Shares and Additional Settlement Shares, and (ii) if the number of VWAP Shares is less than the number of Initial Settlement Shares and Additional Settlement Shares issued, then Hanover or its designee will return to the Company for cancellation that number of shares of Common Stock equal to the difference between the number of VWAP Shares and the number of Initial Settlement Shares and Additional Settlement Shares. Hanover may sell the shares of Common Stock issued to it or its designee in connection with the Settlement Agreement at any time without restriction, even during the Calculation Period.
