### THIRD QUARTER FINANCIAL PERFORMANCE

Worldwide product sales were \$349.3m in the third quarter, an increase of 18.2% (2001: \$295.4m) or 12.1% in local currencies, and \$1,013.7m in the first nine months of 2002, up 11.3% (2001: \$911.0m) or 10.0% in local currencies.

During the third quarter of 2002, the weakness of the US dollar has resulted in a positive currency impact of \$18.0m on total product sales.

Royalty and licensing income was up 25.4% to \$33.2m (2001: \$26.5m), largely

reflecting an increase in licensing income derived from the \$200m Pfizer payment, which is being amortised over the lifetime of the agreement at \$17.4m per year.

Total revenues increased by 18.8% to \$382.5m (2001: \$321.9m).

The gross margin was 83.2% of product sales (2001: 83.1%) in the third quarter, and 84.4% in the first nine months (2001: 82.3%).

Reported Research and Development expenses were \$101.3m or 29.0% of product sales (2001: \$78.8m or 26.7% of product sales). This quarterly increase reflects three factors: the one-time initial payment to Genentech related to the Raptiva(TM) agreement, the one-time initial payment to AstraZeneca for anastrozole, and the start of the integration of Genset in September. Excluding the one-time payments to Genentech and AstraZeneca, R&D expenses on a like-for-like basis were \$84.3m, or 24.1% of sales.

Operating income was \$76.9m or 22.0% of product sales (2001: \$69.7m or 23.6% of product sales). Excluding the one-time R&D expenses mentioned above, operating income on a like-for-like basis grew 34.7% to \$93.9m, or 26.9% of sales.

Net financial income was \$13.2m (2001: \$9.4m).

Total taxes were \$14.8m, representing an overall tax rate of 16.5% of profit before tax (2001: \$15.0m).

Reported net income grew 16.9% to \$74.5m or 21.3% of product sales (2001: \$63.8m or 21.6% of product sales). Excluding the one-time R&D expenses mentioned above, net income on a like-for-like basis grew 39.1% to \$88.7m, or 25.4% of sales. Reported basic earnings per share (EPS) were \$4.68 per equivalent bearer share (2001: \$3.97) and \$0.12 per American Depositary Share (ADS) (2001: \$0.10).

For the nine months ended September 30, 2002, net cash flow from operating activities was \$380.1m, up 27.8% compared to \$297.5m for same period of 2001.

Rebif(R) is market leader outside the US, a position it has held since Q2 2001, with sales of Rebif(R) in the rest of the world increasing by 27.2% to \$121.4m (2001: \$95.4m).

### MAJOR AGREEMENTS SIGNED

Serono received an exclusive license from Genentech on August 8, 2002 to market Raptiva(TM) (efalizumab) in moderate-to-severe psoriasis internationally outside of the United States, Japan, and certain other Asian countries. On September 17th, Serono confirmed that it plans to submit a marketing authorization application in Europe for Raptiva(TM) during the first quarter of 2003, following the announcement by Genentech and XOMA of positive and consistent results in a third Phase III efficacy trial.

On July 23, Serono signed an exclusive worldwide agreement with AstraZeneca by which Serono has the rights to develop, register and market the aromatase inhibitor anastrozole in ovulation induction and improvement of follicular development. Phase II in this indication is due to start in the fourth quarter.

On September 23, Serono announced that its cash offers for Genset had been successful. This acquisition enhances our capabilities in genetics to identify and validate new targets and therapeutic proteins. As a result of the offers in France and the United States which closed on September 12, Serono holds 85.9% of the capital and voting rights of Genset (86.6% on a diluted basis). This result satisfies the offers' minimum tender condition of two thirds of the capital and voting rights of Genset on a diluted basis. In order to enable Genset shareholders who have not yet tendered their securities to participate, Serono reopened the offers for a subsequent period which will expire on October 31,

2002.

### OUTLOOK FOR THE FULL YEAR 2002

Taking into consideration results and licensing activities to date, prevailing economic conditions and the acquisition of Genset, our guidance for the full year remains at total product sales growth greater than 10% in local currencies and net income growth of around 10%.

Basic earnings per share are calculated in accordance with IAS 33 (Earnings per Share) by dividing the net income of the group, US\$74.5 million (2001 US\$63.8 million), by an appropriate number of shares. This is 11,532,883 bearer shares (2001 11,661,027) and 11,013,040 registered shares (2001 11,013,040). The total weighted average equivalent number of bearer shares is 15,938,099 (2001 16,066,243) for the three months ended September 30, 2002. As each American depositary share represents ownership interest in one fortieth of a bearer share, basic and diluted earnings per American depositary share is calculated as one fortieth of the earnings per bearer share. For diluted earnings per share, the total number of bearer shares is adjusted to assume conversion of all share options granted to employees and directors. The number of bearer shares used to calculate diluted earnings per share is 11,544,653 (2001 11,695,277).

Basic earnings per share are calculated in accordance with IAS 33 (Earnings per Share) by dividing the net income of the group, US\$239.2 million (2001 US\$240.0 million), by an appropriate number of shares. This is 11,625,344 bearer shares (2001 11,659,064) and 11,013,040 registered shares (2001 11,013,040). The total weighted average equivalent number of bearer shares is 16,030,560 (2001 16,064,280) for the nine months ended September 30, 2002. As each American depositary share represents ownership interest in one fortieth of a bearer share, basic and diluted earnings per American depositary share is calculated as one fortieth of the earnings per bearer share. For diluted earnings per share, the total number of bearer shares is adjusted to assume conversion of all share options granted to employees and directors. The number of bearer shares used to calculate diluted earnings per share is 11,643,162 (2001 11,691,075).
