The accompanying unaudited interim consolidated financial statements of NutraCea have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission ("SEC"), and should be read in conjunction with the audited financial statements and notes thereto contained in the Company's Annual Report filed with the SEC on Form 10-KSB. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. NOTE 3 - NOTES PAYABLE AND FINANCING AGREEMENTS

In March, 2003 the Company executed two promissory notes totaling \$45,000 to a third party investor. The notes bear interest at 2% per month, are due on demand, and are collateralized by shares of the Company's common stock. The Company retired \$5,000 of this debt in September, 2003. In addition, the Company retired a \$50,000 note payable to a third party investor in June of 2003.

During the nine months ended September 30, 2003, the Company entered into a non-recourse factoring agreement with a financial institution to factor certain of its accounts receivable. According to the agreement, the purchase price of qualifying accounts receivable was up to 75% of the total outstanding purchase orders, plus a bonus based upon a certain percentage applied to the amount borrowed from the factor, depending on when the invoice is paid. A contingent reserve of 25% of the purchase price represents a hold-back to secure the performance, and the Company must meet various other conditions in accordance with the agreement. As of September 30, 2003, the Company had no outstanding amounts due under the factoring agreement.

During the quarter ended September 30, 2003, the Company executed promissory notes totaling \$209,000 to various third party investors. The notes bear interest at 10% per annum, mature twelve months from the date of issue, and are convertible at the option of the holder into shares of the Company's common stock at a conversion price of \$0.20 cents per share. Upon conversion of the notes payable, the holders will be entitled to receive one warrant to purchase common stock for each common share issued. The warrant will have an exercise price of \$.20 per share and will expire one year from the date of issuance. On July 23, 2003, a note in the amount of \$5,000 was converted by the holder, and the Company issued 25,000 shares of common stock in relation to this conversion. Subsequent to September 30, 2003, the holder rescinded the conversion of the note and surrendered the stock certificate to the Company, which cancelled the

Edgar Filing: NUTRACEA - Form 10-Q

shares and returned them to authorized and unissued stock.

In June and July, 2003, the Company entered into convertible note payable agreements with a third party investor for \$160,000, including \$4,800 in finder's fees. The notes bear interest at 10% per annum and are due in July, 2004. The notes are convertible at the option of the holder into shares of the Company's common stock at a conversion price of \$0.20 per share. Upon conversion of the notes, the holder is entitled to receive one warrant to purchase one share of common stock for each share of common stock issued. The warrants will have an exercise price of \$0.20 per share and will expire five years from the date of the issuance.

NOTE 4 - NOTES PAYABLE - RELATED PARTIES

During the nine months ended September 30, 2003, the Company executed a note payable in the amount of \$20,422, bearing interest at 10% and due on demand, to the Chief Executive Officer. Additionally, the Chief Executive Office and a related party made short-term advances to the Company amounting to \$210,000, all of which was repaid prior to September 30, 2003.

The Company also executed notes payable in June and September, 2003 in the

7

amount of \$50,000 and \$40,000, respectively, to a greater than 5% shareholder. The notes are convertible at the option of the holder into shares of the Company's common stock at a conversion price of \$.20 per share, bearing interest at 10% per annum and due in June and September, 2004, respectively. Upon conversion of the notes payable, the holder will be entitled to receive one warrant to purchase common stock for each common share issued. The warrant will have an exercise price of \$.20 per share and will expire one year from the date of issuance.

NOTE 5 - COMMITMENTS AND CONTINGENCIES

Registration Statement

The Company will pay all of the costs connected with the registration on Form SB-2 related to the re-sale of up to 3,709,028 pre-reverse split shares of common stock originally filed on June 4, 2002, except the holder of the common stock will pay all sales commissions or brokers' discounts and the fees and expenses of the holders' legal counsel or accountants, if any. This registration statement was withdrawn on June 10, 2003.

Agreements

In April 2003, the Company entered into a three-year employment agreement with its Chief Operating Officer, whereby the Company is to pay the officer a base salary of \$10,000 per month. The agreement states that the first four months salary will be deferred, except for a 10% percentage bonus to be paid to the officer dependent upon certain reductions in monthly operation costs or conversion of debt into equity. The agreement also provides that the officer is entitled to an annual bonus based upon performance and a monthly car allowance of \$500, beginning on the seventh month of employment. In addition, the officer was issued warrants to purchase 1,000,000 shares of the Company's common stock, 250,000 of which vest only if certain earnings benchmarks are met (see "common stock").

On September 18, 2003, the Company entered into a Technology Agreement with a third party, whereby the initial term of a distribution agreement dated May 1,

Edgar Filing: NUTRACEA - Form 10-Q

2001 granting the exclusive worldwide distributorship of a food supplement formulation based on NutraCea's proprietary technology rights was extended to September 17, 2006. In addition, the Technology Agreement restates certain minimum purchase requirements under the distribution agreement and transfers all rights to the production and distribution of certain nutraceutical products created using NutraCea's technology. Under the terms of the agreement, NutraCea will receive the sum of \$100,000, to initially be recorded as a deposit towards the minimum purchase requirement. Should the payor at a later date desire to obtain certain additional rights to the NutraCea technology, the payor will pay to NutraCea a lump sum option fee of \$300,000. The aforementioned payment of \$100,000 towards the minimum purchase requirement shall be deemed a deposit against the option fee to the degree it has not been used for product purchases.

Litigation

On April 4, 2002, a complaint was filed against the Company by Millennium Integrated Services, Inc. ("MISI") in the Superior Court of California for the County of Sacramento. MISI provided Web site development services to the

8

Company at a cost of \$204,405. MISI sought contract payment of \$204,405, plus interest of \$32,031 and damages for alleged conversion and misappropriation of trade secrets. On April 9, 2002, MISI filed a Motion for a Writ of Attachment that would allow MISI to seize and hold the Company's assets worth \$236,436, pending the resolution of the lawsuit. This Writ of Attachment was granted on April 10, 2002. On May 27, 2003, the Company entered into a settlement agreement with MISI for \$148,000. Per the agreement, approximately \$30,000 of this amount had been levied by the Writ of Attachment and attached to a bank account and accounts receivable. As of July 1, 2003, the Company paid a total of \$118,000 in cash in full settlement of this matter.

On July 16, 2002, a Complaint was filed against the Company by Faraday Financial, Inc. ("Faraday"), in the United States District Court, for the District of Utah (Case No 02-CV-00959). The lawsuit stems from a settlement agreement entered into in December 2001, pursuant to which Faraday converted \$500,000 of debt into 735,730 pre-reverse split shares of the Company's preferred stock. Among other terms, the settlement agreement required that a registration statement covering the resale of the 735,730 pre-reverse split shares be in effect by June 30, 2002. Although the Company filed a registration statement on June 4, 2002, such registration statement has not been declared effective. In the event that the Company failed to affect a registration statement by June 30, 2002, the Company's Chief Executive Officer, Ms. Patricia McPeak, was to transfer to Faraday an additional 735,730 pre-reverse split shares of her common stock and become personally liable to Faraday for the original \$500,000 debt amount plus 12% interest per annum. Faraday is also seeking a judgment against the Company for \$500,000 plus accrued, but unpaid interest. Faraday is also claiming attorney's fees and other costs related to the lawsuit.

On August 29, 2002, the Company filed a motion to dismiss the Complaint due to lack of personal jurisdiction for both itself and Ms. McPeak. On November 27, 2002, the Company's motion to dismiss was denied as to both the Company and Ms. McPeak. A tentative settlement agreement was reached on October 5, 2003, whereby the suit will be dismissed and Faraday shall be guaranteed payment or any deficiency upon the sale of their common stock.

NOTE 6 - SHAREHOLDERS' DEFICIT

As disclosed in Note 8, Subsequent Events, effective November 12, 2003 and

Edgar Filing: NUTRACEA - Form 10-Q

pursuant to adoption of the Company's "Certificate of Amendment of Restated Articles of Incorporation" dated October 27, 2003, the Company effected a reverse split of all previously issued common stock on the basis of one-for-ten shares. Additionally, per the "Certificate of Amendment of Restated Articles of Incorporation", the number of authorized shares of common stock was increased from 50,000,000 to 100,000,000, and the number of authorized shares of preferred stock was increased from 10,000,000 to 20,000,000. Unless otherwise noted, all prior period share amounts reflected in the following discussion of common stock and elsewhere in this Form 10-QSB have been adjusted to account for the one-for-ten reverse split.

9

Convertible, Redeemable Series A Preferred Stock

In December 2001, the Company approved the issuance of 3,000,000 shares of convertible, redeemable Series A preferred stock and executed a certificate of designation of the rights, preferences, and privileges of the Series A preferred stock. Each shareholder of Series A preferred stock is entitled to receive a 7% cumulative dividend, which is only payable in the case of liquidation or redemption. The Series A preferred stock has a \$1 per share stated value and will receive certain liquidation preferences after satisfaction of claims of creditors, but before payment or distributions of assets and surplus funds. On November 12, 2003, the number of authorized shares of preferred stock was increased from 10,000,000 shares to 20,000,000 shares.

Furthermore, the Series A preferred stock is convertible at the option of the holder at \$1 per share into the Company's common stock, subject to certain anti-dilution provisions. In addition, the Series A preferred stock will automatically convert into common stock in the event of a qualified public trading benchmark, which is defined as (i) the common stock is listed on a national exchange at twice its conversion price or (ii) the common stock is quoted on the over-the-counter bulletin board at an average bid price of at least \$1.25 per share over any 30-day trading period.

On July 7, 2003, the Company cancelled 634,121 shares of preferred stock previously issued to a shareholder as collateral and issued 200,000 shares of preferred stock for accrued interest totaling \$8,351 on a promissory note dated September 23, 2002.

During the quarter ended September 30, 2003, the Company converted 1,243,230 shares of preferred stock to 1,243,230 pre-reverse split shares of common stock.

During the quarter ended September 30, 2003, the Company issued 1,947,656 pre-reverse split shares of common stock in payment of preferred stock dividends due in the amount of \$148,043.

The Company may redeem any and all outstanding shares of Series A preferred stock. Upon the five-year anniversary of the date of issuance, the Company is required to redeem all of its outstanding shares of Series A preferred stock at \$1 per share, plus all accrued and unpaid dividends declared. As of September 30, 2003, cumulative dividends totaled \$108,489.

The consultant accepted a cash payment of \$2,500 and a commitment to provide product valued at \$2,500; a promissory note payable at \$2,000 a month beginning November 1, 2003 was executed for the balance of \$19,000.

10

On August 6, 2003, the Company issued 30,000 pre-reverse split shares of common stock to a consultant for services totaling \$2,395. In addition, the Company was committed to issue 10,000 pre-reverse split shares of common stock per month up to a value of \$2,000, plus an additional \$2,000 per month in cash, for future services.

On August 18, 2003, the Company entered into a settlement agreement with a consultant for unpaid fees in the amount of \$9,236. As compensation for any funding, the consultant is to be paid 7.5% of any cash received, 2.5% in value of such funding in warrants to purchase common stock of the Company, based on the closing price on the day any agreement is signed, and a warrant to purchase one share of the Company's common stock for every dollar funded. The warrants are exercisable at \$0.50 per pre-reverse split share on or before three years from the anniversary of any funding. Pursuant to this agreement, during the nine months ended September 30, 2003, the Company issued warrants to purchase 108,708 pre-reverse split shares of common stock at an exercise price of \$0.001 per share and warrants to purchase 444,200 pre-reverse split shares of common stock at an exercise price of \$.50 per share. For example, statements like the Company "expects," "anticipates" or "believes" are forward-looking statements. RESULTS OF OPERATIONS

Three-Month Period Ended September 30, 2003 versus 2002

During the quarter ended September 30, 2003, NutraCea generated net sales of \$631,220 compared to \$247,367 for the same quarter of 2002, representing an increase in sales of \$383,853. Increased sales of NutraGlo Incorporated ("NutraGlo") in the amount of \$451,335 were due to increased purchase orders and two production runs in 2003 compared to one in 2002. These increased sales were offset by the loss of certain customers of NutraStar Technologies Incorporated ("NutraStar") who chose to obtain their stabilized rice brand from the RiceX Company ("RiceX"), and by less interstate sales of NutraStar due to decreased advertising.

Cost of goods sold for the quarter ended September 30, 2003 increased by \$176,304 to \$311,853 from \$135,549 for the quarter ended September 30, 2002. The majority of the increase, \$205,240, results from the increased sales of NutraGlo, and was offset in part by a decrease of \$28,936 in cost of goods sold arising from the decreased sales of NutraStar. The Company's gross profit increased by \$207,549 to \$319,367 for the quarter ended September 30, 2003 compared to \$111,818 for the quarter ended September 30, 2002. This increase reflects the Company's continuing focus on selling its own higher margin products as compared to the cross selling of RiceX products.

Operating expenses increased by \$44,072 to \$656,870 for the third quarter of 2003 compared to \$612,798 for the third quarter of 2002. The majority of the increase is due to non-cash stock and option awards, which increased by \$57,496 to \$242,855 for the quarter ended September 30, 2003 from \$185,359 for the

Edgar Filing: NUTRACEA - Form 10-Q

quarter ended September 30, 2002. Decreases totaling \$13,424 primarily result from the Company's reduced business operations and efforts at overhead reduction.

Interest expense decreased by \$46,264 to \$25,997 for the quarter ended September 30, 2003 from \$72,261 for the quarter ended September 30, 2002. While interest

17

expense decreased by \$57,042 primarily due to the recording of interest expense related to the beneficial conversion feature on convertible debt in the third quarter of 2002, interest expense increased by \$10,778 as a result of a factoring agreement relating to some of the Company's accounts receivable entered into in 2003.

The Company's overall net loss for the third quarter of 2003 decreased by \$209,741 to \$363,500 compared to a net loss of \$573,241 recorded for the comparable quarter of 2002. NutraCea also recognized accrued cumulative preferred dividends of \$33,425, which increased the net loss available to common shareholders to \$396,925 for the quarter ended September 30, 2003 compared to a net loss of \$609,723 available to common shareholders as of September 30, 2002.

Nine-Month Period Ended September 30, 2003 versus 2002

Total revenue for the nine-month period ended September 30, 2003 increased by \$128,558 to \$1,206,652 compared to \$1,078,094 for the nine months ended September 30, 2002. Increased sales of NutraGlo in the amount of \$605,480 were due to increased purchase orders and production runs. These increased sales were offset by decreased sales of NutraStar in the amount of \$394,398, due to cancellation of our exclusive contract with RiceX. The majority of the balance of the decrease, \$82,524, was due to decreased advertising.

Cost of sales decreased by \$54,574 to \$634,973 for the nine months ended September 30, 2003 from \$689,547 for the same period in 2002. Cost of sales increased by \$255,824 due to increased sales of NutraGlo and decreased by \$293,058 due to decreased sales of NutraStar. The balance of the decrease, \$17,340, was realized in reduced freight costs.

Operating expenses decreased by \$985,803 to \$1,581,327 for the nine months ended September 30, 2003 from \$2,567,130 for the comparable period in 2002. This decrease reflects a decrease in employee related expenses of \$212,584 compared to the nine months ended September 30, 2002, and a decrease of \$346,102 in the cost of professional fees and outside services. In addition, during the period ended September 30, 2002, an allocation to loss reserve for licenses was recorded for \$75,359. Non-cash stock and option awards decreased by \$282,271 to \$279,714 for the nine months ended September 30, 2003 from \$561,985 for the nine months ended September 30, 2002. The balance of the decrease, \$69,487, primarily results from the Company's reduced business operations and efforts at overhead reduction.

Interest expense decreased by \$12,187 to \$65,874 for the nine months ended September 30, 2003 from \$78,061 for the nine months ended September 30, 2002. While interest expense decreased by \$28,703 primarily due to the recording of interest expense related to the beneficial conversion feature on convertible debt in 2002, interest expense increased by \$16,516 as a result of a factoring agreement entered into in 2003 relating to some of the Company's accounts receivable.

18

Edgar Filing: NUTRACEA - Form 10-Q

The Company's overall net loss for the nine months ended September 30, 2003 decreased by \$1,180,486 to \$1,075,522 compared to a net loss of \$2,256,008 recorded for the comparable period of 2002. NutraCea also recognized accrued cumulative preferred dividends of \$108,489, which increased the net loss available to common shareholders to \$1,184,011 for the quarter ended September 30, 2003 compared to a net loss of \$2,365,455 to common shareholders as of September 30, 2002.

LIQUIDITY AND SOURCES OF CAPITAL

NutraCea has incurred significant operating losses since its inception, and, as of September 30, 2003 NutraCea had an accumulated deficit of \$9,462,851. At September 30, 2003, NutraCea had cash and cash equivalents of \$139,051 and a net working capital deficit of \$2,475,865.

To date, NutraCea has funded its operations, in addition to sales revenues, through a combination of short-term debt and the issuance of common and preferred stock. During the nine months ended September 30, 2003, NutraCea raised a total of \$320,422 from related party promissory notes and \$414,000 from the issuance of third-party convertible notes. The interest rate on these promissory notes ranged from 8% to 24% per annum with two of the notes also being collateralized by a total of 45,000 shares of the Company's common stock. The Company also raised \$104,500 from the sale of 1,340,476 pre-reverse split shares of its common stock during the nine months ended September 30, 2003. The Company has conserved cash by deferring \$376,677 of compensation expenses and issuing warrants to purchase 2,745,000 pre-reverse split shares of common stock at exercise prices ranging from \$0.001 to \$0.07 per share to employees in lieu of deferred salary totaling \$232,154 during the six months ended June 30, 2003. The Company will continue to pursue cost cutting or expense deferral strategies in order to conserve working capital. These strategies will limit the Company's implementation of its business plan and increase the future liabilities of the Company.

On April 29, 2003, the Company entered into a non-recourse factoring agreement with a financial institution to factor certain of its accounts receivable. As of September 30, 2003, the Company had no outstanding amounts due under the factoring agreement.

The Company is dependent on the proceeds from future debt or equity investments to fund its operations and fully implement the Company's business plan. If the Company is unable to raise sufficient capital, the Company will be required to delay or forego some portion of its business plan, which will have a material adverse effect on the Company's anticipated results from operations and financial condition. Alternatively, the Company may seek interim financing in the form of bank loans, private placement of debt or equity securities, or some combination thereof. Such interim financing may not be available in the amounts or at the times when the Company requires, and will likely not be on terms favorable to the Company.

Due to the Company's need for outside capital and its operating losses, the financial statements include a going concern footnote explaining the

uncertainties relating to the Company's ability to continue operations.

CONTRACT WITH KEY SUPPLIER

NutraCea had entered into an agreement with The RiceX Company ("RiceX"), whereby RiceX would sell NutraCea its rice bran solubles and rice bran fiber complex at

Edgar Filing: NUTRACEA - Form 10-Q

prices equal to the lower of RiceX's standard price or the price negotiated by other customers for like quantities and products (the "RiceX Agreement"). The RiceX Agreement also provided that RiceX would not sell any rice bran solubles or rice bran fiber concentrate products in the United States except to NutraCea. On July 9, 2002, this Agreement was terminated. As a result of this termination, NutraCea no longer has the right to be the exclusive distributor of the RiceX rice solubles and rice bran fiber concentrates in the United States; however, NutraCea has continued to buy such products from RiceX on a nonexclusive basis. The RiceX Agreement also provides for a license from RiceX to NutraCea for the domestic use of four patents relating to the use of rice bran supplements to help treat diabetes and hyperlipidemia.

NutraCea currently purchases all of its stabilized rice bran from RiceX. However, NutraCea believes its special rice bran requirements could be met by other suppliers. If NutraCea were unable to acquire the amount of raw product it requires or if there were an interruption in product delivery for any reason, NutraCea's business, results from operations, and financial condition, would be adversely affected.

CRITICAL ACCOUNTING POLICIES

NutraCea's discussion and analysis of its financial conditions and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of financial statements require managers to make estimates and disclosures on the date of the financial statements. On an on-going basis, NutraCea evaluates its estimates, including, but not limited to, those related to revenue recognition. The Company uses authoritative pronouncements, historical experience and other assumptions as the basis for making judgments. Actual results could differ from those estimates. NutraCea believes that the following critical accounting policies affect its more significant judgments and estimates in the preparation of its consolidated financial statements.

Revenue recognition

NutraCea is required to make judgments based on historical experience and future expectations, as to the reliability of shipments made to its customers. These judgments are required to assess the propriety of the recognition of revenue based on Staff Accounting Bulletin ("SAB") No. 101, "Revenue Recognition," and related guidance. NutraCea makes these assessments based on the following factors: i) customer-specific information, ii) return policies, and iii) historical experience for issues not yet identified.

20

Valuation of long-lived assets

Long-lived assets, consisting primarily of property and equipment, patents and trademarks, and goodwill, comprise a significant portion of the Company's total assets. Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that their carrying values may not be recoverable. Recoverability of assets is measured by a comparison of the carrying value of an asset to the future net cash flows expected to be generated by those assets. The cash flow projections are based on historical experience, management's view of growth rates within the industry, and the anticipated future economic environment.

Factors NutraCea considers important that could trigger a review for impairment

Edgar Filing: NUTRACEA - Form 10-Q

include the following:

- (a) significant underperformance relative to expected historical or projected future operating results,
- (b) significant changes in the manner of its use of the acquired assets or the strategy of its overall business, and
- (c) significant negative industry or economic trends.

When the Company determines that the carrying value of patents and trademarks, long-lived assets and related goodwill and enterprise-level goodwill may not be recoverable based upon the existence of one or more of the above indicators of impairment, it measures any impairment based on a projected discounted cash flow method using a discount rate determined by its management to be commensurate with the risk inherent in its current business model.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity." SFAS No. 150 establishes standards for how an issuer classifies and measures in its statement of financial position certain financial instruments with characteristics of both liabilities and equity. In accordance with the standard, financial instruments that embody obligations for the issuer are required to be classified as liabilities. SFAS No. 150 is effective for financial instruments entered into or modified after May 31, 2003 and otherwise will be effective at the beginning of the first interim period beginning after June 15, 2003. Having adopted of SFAS No. 150 in the quarter ended September 30, 2003, the Company has reclassified its redeemable preferred stock as a current liability.
