NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1-BASIS OF PRESENTATION:

The accompanying unaudited interim consolidated financial statements of NutraCea have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission ("SEC"), and should be read in conjunction with the audited financial statements and notes thereto contained in NutraCea's Annual Report filed with the SEC on Form 10-KSB. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements that would substantially duplicate the disclosure contained in the audited financial statements for 2003 as reported in the 10-KSB have been omitted.

NOTE 2-RESTATEMENT:

NutraCea has restated its Consolidated Financial Statements for the second quarter of 2003 to correct an error in valuation of stock-based compensation. ## Edgar Filing: NUTRACEA - Form 10QSB

30, 2004 compared to an operating loss of \$682,029 for the same quarter in 2003. The operating losses are due to the significant operating expenses consisting primarily of non-cash stock option and warrant awards made to certain officers and consultants of NutraCea. The Company recorded operating losses of \$20,216,239 for the six month period ended June 30, 2004 compared to \$1,046,044 for the first half of 2003. The six month operating loss in 2004 was due primarily to the significant operating expenses incurred in the first quarter of 2004 relating to the issuance of the Company's common stock as compensation and pursuant to the exercise of outstanding options and warrants.

During the quarter ended June 30, 2004 the Company entered into the following consulting agreements:

On April 2, 2004, NutraCea entered into a 180-day consulting agreement with Chamberlain Capital Partners LLC, a marketing and investor relations company, for the purpose of developing a new corporate web site.

On April 29, 2004, NutraCea entered into a one-year consulting agreement (with options to extend for four successive terms of one year each) with Dr. Cherukuri and Dr. Cheruvanky, two retired employees of NutraCea, for the purpose of continuing patent development work and product quality control.

### Off-Balance Sheet Arrangements

During the quarter ended June 30, 2004, the Company did not engage in any off-balance sheet arrangements as defined in Item 303 (c) of the SEC's Regulation S-B.

### LIQUIDITY AND SOURCES OF CAPITAL

NutraCea has incurred significant operating losses since its inception, and, as of June 30, 2004 NutraCea had an accumulated deficit of \$41,567,005. However, at June 30, 2004, NutraCea had cash and cash equivalents of \$1,012,744 and working capital of \$293,746.

To date, NutraCea has funded its operations, in addition to sales revenues, through a combination of short-term debt and the issuance of common and preferred stock. During the six months ended June 30, 2004, NutraCea has issued a total of 14,627,566 shares of common stock of which approximately 7.6 million shares were issued as compensation to officers and consultants of the Company. During the six months ended June 30, 2004, NutraCea raised a total of \$2,767,368 from the exercise of options and warrants to purchase 6,929,323 shares of common stock. NutraCea continues to pursue cost cutting or expense deferral strategies in order to conserve working capital.

Based on management's financial projections, NutraCea has enough cash reserves to finance its business plan through fiscal year 2004

Due to the Company's limited cash flow and operating losses, it is unlikely that

## Edgar Filing: NUTRACEA - Form 10QSB

the Company could obtain financing through commercial or banking sources. Consequently, the Company is dependent on continuous cash infusions from major investors and the exercise of outstanding warrants and options in order to fund its current operations. If these sources of capital were unwilling or unable to provide additional working capital to the Company, the Company would probably not be able to sustain its full range of operations. There is no written agreement or contractual obligation which would require the Company's past funding sources to fund the Company's future operations up to certain amounts or indeed continue to finance the Company's operations at all.

As of June 30, 2004, NutraCea's principal commitments include a lease commitment that expires in 2006 of \$ 5,358 per month for the Company's corporate offices.

Management of NutraCea believes that it will need to raise additional capital to continue to develop, promote and conduct its operations. Such additional capital may be raised through public or private financing as well as borrowing from other sources. Although the Company believes that current and/or future investors will continue to fund the Company's expenses, there is no assurance that such investors will continue to fund the Company's ongoing operations or the terms upon which such investments will be made.

### CRITICAL ACCOUNTING POLICIES

NutraCea's discussion and analysis of its financial condition and results of operations are based upon its consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of financial statements require managers to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses and disclosures on the date of the financial statements. On an on-going basis, the Company's accountants' evaluate the estimates, including, but not limited to, those related to revenue recognition. The Company uses authoritative pronouncements, historical experience and other assumptions as the basis for making judgments. Actual results could differ from those estimates.

The Company has adopted the fair value based method of accounting prescribed in Financial Accounting Standards Board ("FASB") Statement No. 123, "Accounting for Stock-Based Compensation," for its employee stock option plans.

The Company has adopted SFAS No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of FASB Statement No. 13 and Technical Corrections" which requires gains and losses from extinguishment of debt to be reported as part of recurring operations.

### ITEM 3. CONTROLS AND PROCEDURES

NutraCea has adopted and implemented internal disclosure controls and procedures designed to provide reasonable assurance that all reportable information will be recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms. Under the supervision and with the participation of NutraCea's management, including NutraCea's President and Chief Executive Officer and NutraCea's Controller and Principal Financial Officer, NutraCea has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e) as of the end of the fiscal quarter covered by this report. Based on that evaluation, the President and Chief Executive Officer and the Controller and Principal Financial Officer have concluded that these disclosure controls and procedures are effective. There were no changes in NutraCea's internal controls or in other factors during or since the end of the fiscal quarter covered by this report that have had a material effect or are reasonably likely to have a material effect on internal controls subsequent to the end of the fiscal quarter covered by this report.
