Introductory Note: Please see the information under the caption "Cautionary Statements" below which sets forth important disclosure regarding forward-looking statements contained in this Form.

Pacific Ethanol, Inc. and its subsidiaries (collectively referred to as the "Company") are engaged in the business of marketing and producing ethanol and its co-products. The Company was unable to file its Quarterly Report on Form 10-Q for the quarter ended March 31, 2009 in a timely manner without unreasonable effort or expense because management needs additional time to complete the financial and other disclosures in the Quarterly Report. The Company has been actively pursuing a number of alternatives, including seeking to restructure its debt and seeking to raise additional debt or equity financing, or both, and has been diligently negotiating with its various lenders. However, there can be no assurance that the Company will be successful. If the Company cannot restructure its debt and obtain sufficient liquidity in the very near-term, the Company will need to seek protection under the U.S. Bankruptcy Code. Because of the extraordinary demands that these activities have placed on the time and attention of the Company's senior management and staff, the Company was unable to timely complete the financial and other disclosures in the Quarterly Report. The Company plans to file its Quarterly Report by May 18, 2009, in compliance with Rule 12b-25.

Unaudited Preliminary Results of Operations

The following results of operations are preliminary and have not been audited or otherwise reviewed by the Company's independent auditors. The Company's final, unaudited results of operations could be materially different from the unaudited preliminary results of operations set forth below.

The Company anticipates reporting net sales of approximately \$86.7 million for the three months ended March 31, 2009 as compared to net sales of \$161.5 million for the same period in 2008. The decrease in net sales resulted primarily from a decrease in both the volume of ethanol sold by the Company and lower average sales prices. The volume of ethanol sold by the Company for the three months ended March 31, 2009 decreased by approximately 24% as compared to the same period in 2008. The Company's average sales price of ethanol decreased 28% to \$1.65 per gallon for the three months ended March 31, 2009 from an average sales price of \$2.30 per gallon for the same period in 2008.

The Company anticipates reporting a gross loss of approximately \$11.1 million for the three months ended March 31, 2009 as compared to gross profit of \$15.7 million for the same period in 2008. The Company anticipates reporting that its gross margin was approximately negative 12.8% for the three months ended March 31, 2009 as compared to a gross profit margin of 9.7% for the same period in 2008. The decline in the Company's gross margins was primarily due to increased costs to operate its four ethanol production facilities in relation to their reduced production levels and lower average sales prices.

The Company anticipates reporting a net loss of approximately \$23.9 million for the three months ended March 31, 2009 as compared to a net loss of \$35.2 million for the same period in 2008. The Company anticipates reporting loss available to common stockholders of approximately \$24.7 million for the three months ended March 31, 2009, net of preferred stock dividends, as compared to a loss available to common stockholders of \$36.3 million for the same period in 2008.

The Company anticipates reporting a diluted net loss per common share of approximately \$0.43 for the three months ended March 31, 2009 as compared to a net loss per common share of \$0.90 for the same period in 2008. The Company had 57.0 million weighted-average basic and diluted shares outstanding for the three months ended March 31, 2009.
