REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Administrator and Participants of the  
Sun Life Financial (U.S.) Services Company, Inc.  
Sun Advantage Savings and Investment Plan  
Wellesley Hills, Massachusetts

We have audited the accompanying statements of net assets available for benefits of the Sun Advantage Savings and Investment Plan (the "Plan") as of December 31, 2012 and 2011, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2012 and 2011, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2012 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic 2012 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic 2012 financial statements taken as a whole.

SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011

---

1. DESCRIPTION OF THE PLAN

The following description of the Sun Advantage Savings and Investment Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established for the benefit of Sun Life Financial (U.S.) Service Company, Inc.'s (the "Company" or the "Plan Sponsor") U.S. employees and the U.S. employees of its affiliates that elected to become participating employers, Sun Life Financial Distributors, Inc. and Sun Life Investments LLC, under the Plan. The purpose of the Plan is to permit eligible employees of the Company and participating employees to defer and receive employer-matching contributions in order to provide funds for employees in the event of death, disability, unemployment and retirement. Any employee, 21 years or older, is eligible to become a participant in the Plan as soon as administratively feasible after his or her first day of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan includes a Retirement Investment Account ("RIA") for the participants of the Plan, including certain participants of the Sun Life Financial (U.S.) Services Company, Inc. Retirement Income Plan ("Defined Benefit Plan") whose benefits under the Defined Benefit Plan were frozen as of December 31, 2005. The RIA participants of the Plan have additional employer contributions made to the Plan as discussed below.

Contributions - Once an employee becomes eligible to participate in the Plan, he or she may elect to become a participant in the 401(k) account by entering into a salary reduction agreement. The agreement provides that the participant agrees to accept a reduction in compensation in an amount equal to 1% to 60% of the participant's compensation. In addition, participants who are age 50 and greater at the end of the calendar year can make up to \$5,500 in catch-up contributions which will be contributed to the plan. During 2009, the Plan adopted a feature allowing after-tax Roth contributions which can either replace or complement the 401(k) pre-tax contributions. Similar to 401(k) contributions, Roth contributions can be made in an amount equal to 1% to 60% of the participant's compensation. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain Internal Revenue Code ("IRC") limitations.

Participating employers contribute an amount equal to 50% of the first 6% of compensation that a participant contributes to the Plan.

SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

1. DESCRIPTION OF THE PLAN (CONTINUED)

Contributions (continued)

The participating employers also contribute to the RIA a percentage of participant's eligible compensation as determined per the following chart based on the sum of the participant's age and service on January 1 of the applicable plan year—

Age Plus Service	Company Contribution
Less than 40	3%
At least 40 but less than 55	5%
At least 55	7%

For RIA participants who are at least age 40 on January 1, 2006 and whose age plus service on January 1, 2006 equals or exceeds 45, the participating employers also contribute to the RIA from January 1, 2006 through December 31, 2015, a percentage of the participant's eligible compensation as determined per the following chart based on the participant's age and service on January 1, 2006 –

Age	Service	
	Less than 5 years	5 or more years
At least 40 but less than 43	3.0%	5.0%
At least 43 but less than 45	3.5%	5.5%
At least 45	4.5%	6.5%

Participant Accounts - Individual accounts are maintained for each participant of the Plan. Each participant's account is credited with the participant's contributions, related matching contributions, for RIA participants, nonelective contributions, and allocations of Plan earnings, and charged with an allocation of Plan losses and investment related expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments - Participants direct the investment of their contributions and/ or account balances into various investment options offered by the Plan and may change investments and transfer amounts between funds daily. Participant selections of one or more of the investment options must be in multiples of 1%. Participating employer contributions are invested in accordance with participant investment allocations. The Plan currently offers many registered investment companies, the Sun Life Financial Stock Fund (a

party-in-interest), a self-managed account and a stable value fund as investment options for participants.

Vesting - Participants are vested immediately in their contributions, plus actual earnings thereon. Vesting in the participating employer's contribution portion of their accounts, including RIA contributions, is based on years of continuous service. A participant vests at the rate of 20% per year of credited service and is 100% vested after five years of credited service. A participant is fully vested in his or her share of the participating employer contributions upon retirement at normal retirement age or older, disability, or death, regardless of the length of service.

## SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

### 1. DESCRIPTION OF THE PLAN (CONTINUED)

Amendments - On March 21, 2012, a discretionary amendment to the Plan was adopted by the Plan sponsor. The amendment provides that any participant with a vested percentage less than 100% will be 100% vested if the applicable participating employer notifies the Benefit Plans Committee (the "Committee") that the participant has satisfied the following three conditions: (1) the participant is notified in writing on or before February 28, 2012, that his or her employment with a participating employer will be terminated on or after March 9, 2012; (2) such termination of employment occurs as a result of Sun Life Financial Inc. closing its domestic U.S. variable annuity and individual life products to new sales effective December 30, 2011; and (3) the participant submits to the participating employer and does not revoke an executed waiver and release agreement as a condition of receiving post-employment severance payments and begins receiving those severance payments. The amendment applied to 162 unvested or partially vested participants and resulted in approximately \$1.7 million of additional vesting in their Plan accounts.

Notes receivable from participants - A participant may borrow up to 50% from their vested account balance with a minimum loan balance of \$1,000 and a maximum loan balance of \$50,000. Repayment is effected through payroll deductions over a period of one to five years for non-mortgage loans and over a period of one to fifteen years for mortgage loans. Loan repayments are credited against investments, as allocated in the participant's account. The loans are secured by an assignment of a participant's vested interest in the Plan, and bear interest rate commensurate with local prevailing rates at the time funds are borrowed as determined by the Plan administrator. At December 31, 2012, interest rates on outstanding loans range from 3.25% to 8.50% per annum. Maturity dates on outstanding loans are through November 16, 2027.

Payment of Benefits - The Plan provides for normal retirement benefits to be paid to participants who have reached the age of 65. If the participant's service with the participating employer terminates, other than by reason of retirement, the participant may elect to receive his or her distribution following his or her termination of employment. Distributions will be made in installments or in a lump sum, except if the participant's account balance is \$5,000 or less, in which case payment will be made only in a lump sum.

Participants are also eligible to make hardship withdrawals from their deferred contributions in the event of certain financial hardships. Following a hardship withdrawal, participants are not allowed to contribute to the Plan for a period of six months.

Forfeited Accounts - When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account as defined by the Plan, represents a forfeiture. The Plan document permits the use of forfeitures to either reduce future employer contributions or plan administrative expenses. However, if a participant is reemployed and fulfills certain requirements, as defined in the Plan document, the account will be reinstated. At December 31, 2012 and 2011, forfeited amounts not yet allocated totaled \$92,185 and \$123,758, respectively. These accounts will be used to reduce future participating employer contributions. Employer contributions were reduced by \$1,087,164 and \$970,239 from forfeited nonvested accounts for the years ended December 31, 2012 and 2011, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Use of Estimates - The preparation of the financial statements in conformity with GAAP requires the Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

## SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

**Risks and Uncertainties** – The Plan administrator provides various investment options to the Plan's participants. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the value of the participants' account balances and the amounts reported in the financial statements.

**Investment Valuation and Income Recognition** - The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

**Notes Receivable From Participants** - Participant notes receivable are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent participant loans are recorded as distributions based on terms of the Plan document.

**Payment of Benefits** - Benefit payments to participants are recorded upon distribution. There were no participants, who have elected to withdraw from the Plan, but had not yet been paid at December 31, 2012 and 2011.

**Administrative Expenses** - Administrative expenses of the Plan are paid by the Plan Sponsor except for certain fees which are paid by the participants. These fees include loan fees, advisory fees, and fund redemption fees. All investment management and transaction fees directly related to the Plan investments are paid by the Plan. Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

**Excess Contributions Payable** - The Plan is required to return contributions received during the Plan year in excess of IRC limits.

**New and Adopted Accounting Pronouncements** - In May 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS," which change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. Some of the amendments clarify the FASB's intent about the application of existing fair value measurement requirements, while other amendments change a particular principle or requirement for measuring fair value or for disclosing

information about fair value measurements. Many of the requirements in this update are not meant to result in a change in application of the requirements of Topic 820, but to improve upon an entities consistency in application across jurisdictions to ensure that U.S. GAAP and International Financial Reporting Standards (“IFRS”) fair value measurement and disclosure requirements are described in the same way. The amendments in ASU 2011-04 are effective, on a retrospective basis, for fiscal years and interim periods within those fiscal years beginning after December 15, 2011. On January 1, 2012, the Plan adopted the provisions of ASU 2011-04. The adoption did not impact the Plan’s financial statements or disclosures.

## SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New and Adopted Accounting Pronouncements (continued) - In October 2012, FASB issued ASU 2012-04, "Technical Corrections and Improvements". The amendments in this update cover a wide range of Topics in the Codification. The technical corrections (Section A) are divided into three main categories: (1) Source literature amendments – amendments to carry forward the original intent of certain pre-Codification authoritative literature that was inadvertently altered during the Codification process, (2) Guidance clarification and reference corrections – changes in wording and references to avoid misapplication or misinterpretation of guidance, and (3) Relocated guidance – moving guidance from one part of the Codification to another to correct instances in which the scope of pre-Codification guidance may have been unintentionally narrowed or broadened during the Codification process. The purpose of Section B of ASU 2012-04 is to conform the use of the term "fair value" throughout the Codification "to fully reflect the fair value measurement and disclosure requirements" of Accounting Standards Codification ("ASC") Topic 820 "Fair Value Measurement". These provisions are effective upon issuance, except for amendments that are subject to transition guidance discussed below. The Plan adopted the provisions of ASU 2012-04 on October 1, 2012. The adoption did not impact the Plan's financial statements or disclosures.

Accounting Pronouncements Not Yet Adopted - ASU 2012-04 includes certain amendments that are subject to transition guidance that will be effective for fiscal periods beginning after December 15, 2012. The Plan adopted these amendments on January 1, 2013. The adoption did not have an impact on the Plan's financial statements or disclosures.

### 3. PLAN ADMINISTRATOR AND TRUSTEE

The Committee is the named Plan Administrator of the Plan. At December 31, 2012, the Committee consisted of six members. ING National Trust is the named Trustee of the Plan.

### 4. FEDERAL INCOME TAX STATUS

The Plan obtained its latest determination letter dated August 2, 2012, in which the Internal Revenue Service stated that the Plan and related trust as then designed were in compliance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter. The Committee believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and the Plan and the related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has determined as of December 31, 2012 and 2011 that the Plan has taken no uncertain tax positions that require recognition or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Committee believes it is no longer subject to income tax examinations for years prior to 2009.

## SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

## 5. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

## 6. INVESTMENTS

The Plan's individual investments that represented 5% or more of the Plan's net assets available for benefits as of December 31 are as follows:

	2012	2011
Registered investment companies		
Vanguard Institutional Index Fund	\$ 47,691,847	\$ 41,706,403
Vanguard Morgan Growth Fund	33,980,480	30,175,248
Vanguard Developed Markets Index Fund	26,270,627	-
Vanguard Total Bond Market Index Fund	25,748,722	22,951,647
Collective trust		
Vanguard Retirement Savings Trust II	80,141,436	76,805,642

During the year ended December 31, 2012 and 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	2012	2011
Registered investment companies	\$ 31,100,927	\$ (14,066,914)
Sun Life Financial Stock Fund	2,665,881	(3,930,961)
Assets held in Self-Managed Accounts	39,733	43,685
Net appreciation/(depreciation) in fair value of investments	\$ 33,806,541	\$ (17,954,190)

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan uses various methods including market, income and cost approaches. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimizes the use of unobservable inputs.

The Plan has categorized its financial instruments that are carried at fair value into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest

priority level input that is significant to the fair value measurement of the instrument.

## SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

### 6. INVESTMENTS (CONTINUED)

On April 1, 2009, the FASB issued additional guidance on estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, as well as guidance on identifying circumstances indicating that a transaction is not orderly. The Plan reviewed its pricing sources and methodologies and has concluded that its various pricing sources and methodologies are in compliance with this guidance. During the year ended December 31, 2012, there were no changes to these valuation techniques and the related inputs.

Investments recorded at fair value in the Plan's statement of net assets available for benefits are categorized as follows:

#### Level 1

- Unadjusted quoted prices for identical assets or liabilities in an active market.

The types of investments utilizing Level 1 valuations include investments in publicly traded mutual funds with quoted market prices, Sun Life Financial Stock Fund and publicly traded equity investments and mutual funds held in self-managed accounts.

#### Level 2

Quoted prices in markets that are not active or significant inputs that are observable either directly or indirectly.

Level 2 inputs include the following:

- a) Quoted prices for similar investments in active markets,
- b) Quoted prices for identical or similar investments in non-active markets,
- c) Inputs other than quoted market prices that are observable, and
- d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.

The type of investment utilizing Level 2 valuations is the Vanguard Retirement Savings Trust II stable value fund.

#### Level 3

Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. They reflect management's assumptions about what a market participant would use in pricing the asset or liability.

The Plan does not currently hold investments types that are utilizing Level 3 valuations.

## SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

## 6. INVESTMENTS (CONTINUED)

The following table presents the Plan's categories for its investments measured at fair value on a recurring basis as of December 31, 2012:

	Level 1	Level 2	Level 3	Total
Investments, at fair value:

SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

6. INVESTMENTS (CONTINUED)

The Plan determines transfers between levels based on the fair value of each security as of the beginning of the reporting period. The Plan did not transfer assets into or out of Levels 1, 2 and 3 during the years ended December 31, 2012 and 2011.

The methods and assumptions that the Plan uses in determining the estimated fair value of its financial instruments that are measured at fair value on a recurring basis are summarized below:

Shares of registered investment companies - The Plan's investment in shares of registered investment companies are valued at the daily closing price as reported by the fund. Registered investment companies shares held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Short-Term Investment Fund – Investments in money market funds are valued at quoted market prices.

Sun Life Financial Stock Fund - The Plan's investment in the Sun Life Financial Stock Fund is valued at quoted market prices.

Assets held in self-managed accounts - Assets held in self-managed accounts include registered investment companies and exchange traded stocks and bonds. These assets are stated at fair value based on quoted market prices of the assets held in the accounts.

Collective trust fund - The Plan's investment in the collective trust fund is stated at fair value as determined by the issuer of the collective trust fund based on the fair market value of the underlying investments. The collective trust, which is a stable value fund, with underlying investments in fully benefit-responsive investment contracts is valued at fair market value of the underlying investments and then adjusted by the issuer to contract value, as discussed below.

In accordance with FASB ASC Topic 962 "Plan Accounting – Defined Contribution Pension Plans," the stable value fund is included at fair value in participant-directed investments in the statements of net assets available for benefits, and an additional line item is presented representing the adjustment from fair value to contract value. The statements of changes in net assets available for benefits are presented on a contract value basis.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

7. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACTS

The Vanguard Retirement Savings Trust II (the “Trust”), is a collective investment trust established on August 31, 2001, under Section 404 of the Pennsylvania Banking Code. The Trust provides for the collective investment of assets of tax-exempt pension and profit-sharing plans. The Trust invests solely in Vanguard Retirement Savings Trust Master Trust (“VRST Master Trust”). The underlying investments in VRST Master Trust are primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts, and bond mutual funds that are selected by the Trustee, Vanguard Fiduciary Trust Company. The issuers’ ability to meet these obligations may be affected by economic developments in their respective companies and industries. An investment in the Trust is neither insured nor guaranteed by the U.S. government or by Vanguard, and there is no assurance that the VRST Master Trust will be able to maintain a stable net asset value of \$1 per unit.

Investments held by the Trust are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets of the Trust attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined-contribution plans.

Traditional investment contracts issued by insurance companies and banks are nontransferable, but provide for benefit-responsive withdrawals by plan participants at contract value. For traditional investment contracts, fair value compromises the expected future cash flows for each contract discounted to present value. Contract value represents contributions made plus interest accrued at the contract rate, less withdrawals. The crediting rate on traditional contracts is typically fixed for the life of the investment.

The Trust imposes certain restrictions on the Plan, and the Trust itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes that the occurrence of events that would cause the Trust to transact at less than contract value is not probable.

Limitations on the Ability of the Fund to Transact at Contract Value:

Limitations on Contract Value Transactions — Any event outside the normal operation of the Trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. The following events may limit the ability of the Trust to transact at contract value:

- Ø Partial or complete legal termination of the Trust or a unit holder
- Ø Tax disqualification of the Trust or unit holder
- Ø Certain Trust amendments if issuers’ consent is not obtained

In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform the pre-established investment guidelines.

SUN ADVANTAGE SAVINGS AND INVESTMENT PLAN

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

An affiliate of the Plan Sponsor manages two mutual fund investment options within the Plan. These investments include MFS High Income Fund and MFS Total Return Fund, each of which is an investment company registered under the Investment Company Act of 1940. Investment advisory fees are paid from the funds to the affiliate. Fees paid by the Plan for investment management services were included as a reduction of the return on each fund.

At December 31, 2012 and 2011, the Plan held 329,608 and 353,414 shares, respectively, of common stock of Sun Life Financial Inc., an affiliate of the Plan Sponsor, with cost bases of \$9,870,246 and \$10,725,338, respectively. During the years ended December 31, 2012 and 2011, the Plan recorded dividend income from such securities of \$491,982 and \$666,581, respectively. These transactions qualified as permitted party-in-interest transactions.

9. SUBSEQUENT EVENT

Management has evaluated events subsequent to December 31, 2012 and through the issuance date of the Plan's financial statements.

On February 19, 2013, a discretionary amendment to the Plan was executed. The amendment provides that any participant with a vested percentage less than 100% will be 100% vested if the applicable participating company notifies the Committee that the participant has satisfied the following three conditions: (1) the participant's employment is being terminated on or after December, 31 2012; (2) such termination of employment occurs as a result of the approval on August 14, 2012 by the Board of Trustees of Sun Capital Advisers Trust of the proposals to transfer the responsibility for managing the assets of the Trust's funds from Sun Capital Advisers LLC to Massachusetts Financial Services Company; and (3) the participant submits to the participating company, and does not revoke, an executed waiver and release agreement as a condition of receiving post-employment severance payments from such participating company, and the participant begins receiving those post-employment severance payments.
