PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

In September of 1999, the Deerbrook Publishing Group, Inc. ( Deerbrook ) leased a computer driven aspect image center (printer for film) used to make separation for printing (the aspect image center ) and certain other computer equipment from Copelco Capital, Inc. ( Copelco ). All of the equipment was delivered to the Deerbrook s then printing operation in Phoenix, Arizona, and installed. Shortly thereafter, Deerbrook ceased printing for itself and its customers. The equipment was returned to Copelco. In August of 2000, Copelco brought suit in the United States District Court for the District of Arizona, cause no. CIV 00-1620 PHX ROS, to recover its alleged damages \$155,398.02 for Deerbrook s return of the leased equipment plus continuing interest at the rate of one and one-third percent per month and attorneys fees and costs. The Company does not believe that Copelco has mitigated its damages and further believes that Copelco has either sold the equipment or otherwise disposed of the same in a manner which was not commercially reasonable. The Copelco claims will be vigorously defended against. The range of possible loss should not exceed \$100,000. The outcome of this litigation is unascertainable at this time

**(UNAUDITED)**

**NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION**

The condensed consolidated unaudited interim financial statements included herein have been prepared, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. The consolidated financial statements and notes are presented as permitted on Form 10-QSB and do not contain information included in the Company's annual consolidated statements and notes. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to make the information presented not misleading. The results for the nine months June 30, 2001 may not be indicative of the results for the entire year.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments and other short-term investments with an initial maturity of three months or less to be cash or cash equivalents.

**(UNAUDITED)**

## Edgar Filing: VOLT INC - Form 10QSB/A

The Company maintains cash and cash equivalent balances at several financial institutions which are insured by the Federal Deposit Insurance Corporation up to \$100,000.

### Property and Equipment

Property and equipment are stated at cost. Depreciation is computed primarily using the straight-line method over the estimated useful life of the assets.

Office Equipment	3 to 5 years
Improvements	40 years

There is no depreciation computed for the third quarter since the newly acquired assets were not put into service in the period ended June 30, 2001.

### Earnings (Loss) Per Share of Common Stock

Historical net income (loss) per common share is computed using the weighted average number of common shares outstanding. Diluted earnings per share (EPS) includes additional dilution from common stock equivalents, such as stock issuable pursuant to the exercise of stock options and warrants. Common stock equivalents were not included in the computation of diluted earnings per share when the Company reported a loss because to do so would be antidilutive for periods presented.
