A list of shareholders as of the record date will be available for inspection at the Company's corporate headquarters during business hours for a period of ten days before the Annual Meeting.

The primary purpose of the 2009 Annual Meeting will be to tabulate the votes cast on the above matters. It is not anticipated that any other business will be conducted at that time.

PROXY STATEMENT

INTRODUCTION

General

This Proxy Statement is made available to shareholders of TESSCO Technologies Incorporated, a Delaware corporation (the "Company"), in connection with the solicitation by the Board of Directors of the Company of proxies for use at the Annual Meeting of Shareholders to be held at our offices located at 375 West Padonia Road, Timonium, Maryland 21093, on Thursday, July 23, 2009 at 9:00 a.m., local time, and at any adjournment or postponement thereof.

Notice of Electronic Availability of Proxy Statement and Annual Report

Pursuant to the e-proxy rules and regulations adopted by the United States Securities and Exchange Commission ("SEC"), we have elected to provide access to our proxy materials over the Internet. On or about June 12, 2009, we mailed to our shareholders a notice (the "E-Proxy Notice") containing instructions on how to access online our 2009 Proxy Statement, Annual Report to Shareholders and Annual Report on Form 10-K for fiscal year ended March 29, 2009, and on how a proxy may be submitted over the Internet. If you would like to receive a printed copy of our proxy materials, you should follow the instructions for requesting proxy materials included in the E-Proxy Notice. These materials will be available free of charge and will be sent to you within three business days of your request. Neither our Annual Report to Shareholders nor our Annual Report on Form 10-K constitute soliciting materials, but provide you with additional information about TESSCO.

Solicitation

The solicitation of proxies is being made primarily by mail, but directors, officers, employees, and contractors retained by the Company may also engage in the solicitation of proxies by telephone. The cost of soliciting proxies will be borne by the Company. The Company has retained the services of Innisfree M&A Incorporated to assist in the solicitation of proxies, at a cost to the Company for basic services of approximately \$7,500. Depending upon the circumstances, the scope of services to be provided by Innisfree may expand, and cost would be expected to increase correspondingly. In addition, the Company may reimburse brokers, custodians, nominees and other record holders for their reasonable out-of-pocket expenses in forwarding proxy material to beneficial owners.

Voting Rights and Outstanding Shares

The Board of Directors of the Company has fixed the close of business on June 4, 2009 as the record date for determining the shareholders of the Company entitled to notice of and to vote at the Annual Meeting. On the record date, 4,805,329 shares of common stock, \$0.01 par value per share, of the Company were issued and outstanding. Each share of common stock entitles the holder to one vote on each matter to be voted on at the Annual Meeting. There is no cumulative voting for the election of directors.

The presence, in person or by proxy, of at least a majority of the total number of shares of common stock entitled to vote is necessary to constitute a quorum at the Annual Meeting. If, for example, there are not sufficient votes for a quorum, the Annual Meeting may be adjourned from time to time in order to permit the further solicitation of proxies.

Edgar Filing: TESSCO TECHNOLOGIES INC - Form DEF 14A

Your vote is important. Because most of our shareholders cannot attend the Annual Meeting in person, it is necessary for a large number to be represented by proxy. Most shareholders have a choice of directing their vote over the Internet, by using a toll-free telephone number or by completing a proxy card and mailing it in a postage-paid envelope that we will provide to you upon your request. Please check the information forwarded by your bank, broker or other holder of record to see what options are available to you. The Internet and telephone proxy vote facilities for shareholders of record are scheduled to close at 11:00 p.m. Eastern Daylight Time on the business day prior to the Annual Meeting day, but may remain open or be reopened if determined to be necessary or appropriate or in the event of any adjournment or postponement of the Annual Meeting.

A shareholder may, with respect to the election of directors, (i) vote "FOR" the election of the nominees, (ii) "WITHHOLD AUTHORITY" to vote for all nominees, or (iii) vote "FOR" the election of all nominees other than any nominee with respect to whom the shareholder withholds authority to vote. A shareholder may, with respect to each other matter specified in the notice of meeting, (i) vote "FOR" the matter, (ii) vote "AGAINST" the matter, or (iii) "ABSTAIN" from voting on the matter.

All shares of common stock entitled to vote and represented by properly submitted proxies received prior to the Annual Meeting and not revoked, will be voted in accordance with your instructions. If no instructions are indicated, the shares of common stock represented by a properly submitted proxy will be voted in accordance with the recommendations of the Board of Directors.

A proxy submitted by a shareholder may indicate that all or a portion of the shares represented by the proxy are not being voted by the shareholder with respect to a particular matter. This could occur, for example, when a broker is not permitted to vote common stock held in street name on certain matters in the absence of instructions from the beneficial owner of the common stock. These "nonvoted shares," i.e., shares subject to a proxy which are not being voted with respect to a particular matter, will be considered shares not present and entitled to vote on such matter, although these shares may be considered present and entitled to vote for other purposes and will count for purposes of determining the presence of a quorum.

Revocation of Proxies

A proxy may be revoked at any time before its exercise by the filing of a written revocation with David M. Young, Corporate Secretary of the Company, by timely providing a later-dated proxy (including by Internet or telephone vote), or by voting by ballot at the Annual Meeting. Mere attendance at the Annual Meeting will not revoke a proxy, and if you are a beneficial owner of shares not registered in your own name, you will need additional documentation from your record holder to vote personally at the Annual Meeting.

Required Vote

The affirmative vote of a plurality of the shares of common stock present in person or by proxy at the Annual Meeting and entitled to vote on the election of directors is required to elect directors. Only nominees nominated by the Board of Directors may be elected at the meeting. Accordingly, if a quorum is present at the Annual Meeting, and the three individuals nominated by the Board of Directors receive any favorable votes, they will be elected to serve as directors. Therefore, provided that a favorable vote is otherwise cast for each such nominee, withholding authority to vote for a director(s) and "nonvoted shares" with respect to the election of directors will not affect the outcome of the election of directors.

The affirmative vote of a majority of the shares of common stock present in person or by proxy at the Annual Meeting and entitled to vote thereon is required to approve each matter other than the election of directors. Under Delaware law, abstentions with respect to matters other than the election of directors are generally considered as shares present and entitled to vote and thus have the same

effect as a vote against such matter. "Nonvoted shares" with respect to such a matter will not be considered as entitled to vote on the matter and thus will not affect the determination of whether the matter is approved.

The Board of Directors knows of no matters that will be presented for consideration at the Annual Meeting other than those described in this Proxy Statement. Submission of a proxy, however, confers on the designated proxy the authority to vote the shares in accordance with their discretion on such other business, if any, as may properly come before the Annual Meeting or any adjournment thereof. If, for example, our Board of Directors or our Chairman and President determines to direct one or more adjournments of the meeting, the persons named as proxies on the enclosed proxy card will have discretionary authority to vote the shares represented by proxies in the event that it is determined to submit a proposal for adjournment to a vote. Proxies solicited by means of this proxy statement will be tabulated by inspectors of election designated by the Board, who will not be employees or directors of the Company or any of its affiliates.

Proposal No. 1 ELECTION OF DIRECTORS

The Company's Board of Directors is divided into three classes, each class consisting, as nearly as possible, of one-third of the total number of directors, and each class having a three-year term. Each year, the directors in one class are elected to serve for a term of three years and until their successors are duly elected and qualified. The seven member board is divided into three classes, of which two classes are comprised of two members and one class which is comprised of three members. The class of three directors, currently consisting of John D. Beletic, Daniel Okrent and Morton F. Zifferer, Jr., has a term of office expiring at the Annual Meeting and until their successors are duly elected and qualified. Messrs. Beletic, Okrent and Zifferer have been nominated by the Board of Directors for re-election at the Annual Meeting to serve for an additional three-year term expiring at the Annual Meeting of Shareholders in 2012 and until their successors are elected and qualified. In the event that any nominee is unable or unwilling to serve, the Board of Directors may name a substitute nominee and the persons named in the proxy will vote for such substitute nominee or nominees as they, in their discretion, shall determine. The Board of Directors has no reason to believe that any nominee named herein will be unable or unwilling to serve.

The Board of Directors recommends a vote "FOR" each of the nominees nominated by the Board of Directors.

Set forth below is information concerning the nominees for election and those directors whose terms continue beyond the date of the Annual Meeting.

Nominees for Director for a Three-Year Term Expiring at the 2012 Annual Meeting

Harvard University. He has previously been public editor of the New York Times and a senior executive at Time Inc., to which he remains a consultant. Robert B. Barnhill, Jr., age 65, has served as President and Chief Executive Officer of the Company since founding the business in its current form, in 1982. Mr. Barnhill has been a director of the Company since 1982, and has been Chairman of the Board since November 1993.

Benn R. Konsynski, Ph.D., age 58, has been a director of the Company since November 1993. He is the George S. Craft Professor of Business Administration for Decision and Information Analysis at the Goizueta Business School of Emory University. He was named Hewlett Fellow at the Carter Center in 1995. Prior to arriving at the Goizueta Business School, he was on the faculty at the Harvard Business School for seven years where he taught in the MBA program and several executive programs. Professor Konsynski specializes in issues of digital commerce and information technology in relationships across organizations.

Board Independence

The Board has determined that each of the current directors, other than Mr. Barnhill, is independent within the meaning of the Company's director independence standards, which reflect both the NASDAQ and SEC director independence standards, as currently in effect. Furthermore, the Board has determined that none of the members of the three standing committees of the Board of Directors has any material relationship with the Company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the Company) and that each such member is "independent" within the meaning of the independence standards applicable to each such committee.

Beginning in fiscal year 2008, the Board of Directors established a Lead Director who is independent and is responsible for (1) assuring that the independent directors meet in executive session typically after each board meeting, (2) facilitating communications between other independent directors and the Chairman of the Board and Chief Executive Officer, and (3) consulting with the Chairman of the Board and Chief Executive Officer on matters relating to corporate governance and Board performance. The Lead Director is elected by our independent directors, upon the recommendation of

the Nominating and Governance Committee and his term as Lead Director runs from one Annual Meeting of Shareholders to the next Annual Meeting of Shareholders. Mr. Beletic currently serves as our Lead Director, and it is anticipated that he will continue to serve in that role until the Annual Meeting in July 2010.

Meetings and Committees of the Board of Directors

The Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Governance Committee. The membership during the last fiscal year and the function of each of the committees is described below. The Board of Directors met seven (7) times during fiscal year 2009. During fiscal year 2009, no director attended fewer than 75% of the total number of meetings of the Board and Committees on which the director served. The Company does not have a policy on director attendance at Annual Meetings, but all of our directors are invited and encouraged to attend Annual Meetings. All of our directors were in attendance at the 2008 Annual Meeting.

John D. Beletic		X	
Benn R. Konsynski	X		X

Audit Committee

The Audit Committee is primarily concerned with the effectiveness of the audits of the Company by the Company's independent public accounting firm. The Audit Committee's duties include approving the selection of the independent registered public accounting firm, reviewing the scope of audits conducted by them, as well as the results of their audits, and reviewing the organization and scope of the Company's internal system of accounting and financial controls. The Audit Committee met seven (7) times during fiscal year 2009. A copy of the Audit Committee charter is available for review on our Website (www.tessco.com), under the heading "Investors." The Board of Directors has determined that Mr. Zifferer is the audit committee financial expert as defined by applicable SEC rules and is "independent" with the meaning of the applicable NASDAQ Rules.

Compensation Committee

The Compensation Committee provides assistance to the members of the Board of Directors in fulfilling their responsibilities to the shareholders, potential shareholders and the investment community relating to compensation practices of the Company, including salary and other forms of compensation. The Compensation Committee's primary duties and responsibilities are to formulate and recommend compensation policies of the Company that will enable the Company to attract and retain high-quality leadership and that are consistent with the Company's established compensation philosophy. The Compensation Committee administers the Company's incentive compensation plans, including our Second Amended and Restated 1994 Stock and Incentive Plan. The Compensation Committee met six (6) times during fiscal year 2009. A copy of the Compensation Committee charter is available for review on our Website (www.tessco.com), under the heading "Investors." Mr. Beletic currently serves as Chairman of the Compensation Committee.

Nominating and Governance Committee

The Company has a Nominating and Governance Committee, the functions of which include making recommendations to the Board regarding matters and practices concerning the Board, its committees and individual directors; evaluation of the current composition and governance structure of the Board of Directors and determination of its future requirements; making recommendations concerning nominees for election to the Board of Directors; and the appointment of Directors to Board Committees and the selection of Chairpersons of the Board Committees. The Nominating and Governance Committee met four (4) times during fiscal year 2009. The Nominating and Governance Committee performs other related functions and is governed by a charter, a copy of which is available for review on our Website (www.tessco.com), under the heading "Investors." Mr. Okrent currently serves as Chairman of the Nominating and Governance Committee.

The Nominating and Governance Committee has determined, in its view, that the minimum qualifications for serving as a director of the Company are that a nominee demonstrate an ability to make a meaningful contribution to the Board's oversight of the business and affairs of the Company, and have an impeccable record and reputation for honest and ethical conduct in both his or her professional and personal activities. The Committee also examines a candidate's specific experiences and skills, time availability, potential conflicts of interest and independence from management and the Company. Candidates may be identified through various means, including by asking current directors and executive officers to notify the Committee if they become aware of persons meeting the criteria described above, by the retention of third-party consultants to assist in this process, and by considering director candidates recommended by shareholders. In considering candidates submitted by shareholders, the Committee will take into consideration the needs of the Board and the qualifications of the candidate. The Committee may also take into consideration other factors it determines to be relevant, such as the number of shares held by the recommending shareholder and the length of time that such shares have been held. To have a candidate considered by the Committee, a shareholder must submit the recommendation in writing and must include the name of the shareholder and evidence of the person's ownership of Company stock, including the number of shares owned and the length of time of ownership, and the name of the candidate, the candidate's resume or a listing of his or her qualifications to be a director of the Company and the person's consent to be named as a director if selected and nominated. The shareholder recommendation and information must be sent to the Corporate Secretary at 11126 McCormick Road, Hunt Valley, Maryland 21031. Once a potential candidate has been identified, the Committee may collect and review information regarding the candidate to assess whether the person should be considered further. If the Committee determines that the candidate warrants further consideration, personal contact with the candidate may be made and further review of the candidate's accomplishments, qualifications and willingness to serve may be undertaken and compared to other candidates. The Committee's evaluation process does not vary

based on whether or not a candidate is recommended by a shareholder, although, as stated above, the Board may take into consideration other factors, such as the number of shares held by the recommending shareholder and the length of time that such shares have been held.

Shareholder Communications with Directors

The Board of Directors recommends that shareholders initiate any communications with the Board in writing. Written communications may be directed to the Corporate Secretary. Shareholders can send communications by e-mail to corporatesecretary@tessco.com, by fax to (410) 229-1669 or by mail to Corporate Secretary, TESSCO Technologies Incorporated, 11126 McCormick Road, Hunt Valley, Maryland 21031. This centralized process will assist the Board in reviewing and responding to shareholder communications in an appropriate manner. The name of any specific intended Board recipient should be noted in the communication. The Board has instructed the Corporate Secretary to forward such correspondence only to the intended recipients; however, the Board has also instructed the Corporate Secretary, prior to forwarding any correspondence, to review such correspondence and, in his discretion, not to forward certain items if they are deemed of a commercial or frivolous nature or otherwise inappropriate for the Board's consideration. In such cases, some of that correspondence may be forwarded elsewhere in the Company for review and possible response.

Director Compensation for Fiscal Year 2009

The current compensation program for non-management directors is designed to achieve the following goals: compensation should fairly pay directors for work required for a company of our size; compensation should align directors' interests with the long-term interests of shareholders; and the structure of the compensation should be simple, transparent and easy for shareholders to understand.

In consideration for services on the Board, each non-employee director of the Company is paid \$25,000 per fiscal year and the Lead Director of the Company is paid \$35,000 per fiscal year. In addition, each non-employee director of the Company, including the Lead Director, is paid \$2,500 for each meeting of the Board and \$1,000 for each meeting of a Committee of the Board that he or she attends. The table below does not include reimbursements for reasonable out-of-pocket expenses incurred in connection with attendance at Board or Committee meetings. Non-management directors are also eligible to receive Performance Stock Units.

The following table summarizes the compensation awarded to, earned by, or paid to the Company's non-management directors during fiscal year 2009:

This column represents the dollar amount recognized by the Company for financial statement reporting purposes in fiscal year 2009 for the fair value of PSU awards made in fiscal year 2009

and in prior fiscal years, in accordance with Statement of Financial Accounting Standards No. 123R. Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. The dollar amounts shown above reflect the Company's accounting expense for these awards, and do not necessarily correspond to the actual value that will be recognized by the recipient. Based on fiscal year 2009 performance, each director earned 4,800 shares related to PSU awards made to them in April 2008. These shares will vest ratably on or about May 1 of 2009, 2010, 2011 and 2012, assuming that each director remains affiliated with the Company on those dates, and subject to accelerated vesting upon a change in control or termination of service to the Company under certain circumstances. Additionally, based on fiscal year 2007 performance, each director, except Mr. Baitler, holds 3,750 shares related to PSU awards made to them in April 2006 that will vest ratably on or about May 1 of 2009 and 2010, assuming each director remains affiliated with the Company on those dates, and subject to accelerated vesting upon a change in control or termination of service to the Company under certain circumstances. Mr. Baitler was not a member of our Board in April 2006.

Proposal No. 2 RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of the Board of Directors has selected the firm of Ernst & Young LLP to serve as our independent registered public accounting firm for the fiscal year ending March 28, 2010, and the Company seeks ratification of such appointment by the shareholders. Ernst & Young LLP has audited our financial statements commencing with the fiscal year ended March 30, 2003. Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting and will have the opportunity to make a statement if they desire to do so, and be available to respond to appropriate questions.

Shareholder ratification of Ernst & Young LLP as our independent registered public accounting firm is not required by our By-laws or otherwise. However, the Board of Directors is submitting the selection of Ernst & Young LLP to the shareholders for ratification as a matter of good corporate practice. If the shareholders fail to approve the selection, the Audit Committee and the Board will reconsider whether or not to retain that firm. Even if the selection is ratified, the Audit Committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if they determine that such a change would be in the best interest of our shareholders.

The Board of Directors recommends a vote "FOR" the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal year 2010.

**Proposal No. 3 SHAREHOLDER PROPOSAL ON ELIMINATION OF
SHAREHOLDER RIGHTS PLAN**

The Company has been advised that one of its shareholders intends to present a proposal at the Company's annual meeting. The name, address and stock ownership of the proponent will be furnished by the Company promptly upon receiving an oral or written request to the Company's Secretary. If the shareholder or its representative who is qualified under applicable law is present at the annual meeting and submits this proposal for a vote, then the shareholder proposal will be voted upon at the annual meeting.

In accordance with applicable proxy regulations, the proposed resolution and supporting statement, exactly as submitted by the shareholder, are set forth below under the heading "Shareholder Proposal." We disclaim all responsibility for the content of the proposal and the supporting statement.

For the reasons set forth in its Statement in Opposition to Proposal No. 3 immediately following the shareholder proposal below, the Board of Directors does not support this proposal and urges you to vote AGAINST this proposal.

Shareholder Proposal

RESOLVED, that the stockholders of TESSCO Technologies Incorporated ("TESSCO") request that the Board of Directors eliminate the Shareholder Rights Plan that was adopted on February 1, 2008.

Supporting Statement:

Discovery Equity Partners L.P. ("DEP") owns 544,524 TESSCO shares. Discovery Group I, LLC, DEP's general partner, manages investment funds that own 13.4% of TESSCO, making Discovery Group TESSCO's largest independent stockholder. We are deeply troubled by the action taken by the Board on February 1, 2008 to deploy a corporate defense tactic aimed directly at thwarting a possible purchase of the Company.

The Board adopted the Rights Plan, often referred to as a Poison Pill, in direct response to Brightpoint, Inc.'s open-market acquisition of a 9.1% ownership position in TESSCO. Brightpoint, a larger distributor of wireless equipment, was a logical strategic acquirer of TESSCO. The aim of the Poison Pill seems to have been to block any unsolicited attempt by Brightpoint, or others, to acquire TESSCO, by preventing ownership of more than 20% of TESSCO stock without the Board's approval.

It appears that the Board feared that shareholders would not agree with the adoption of a Poison Pill because; 1) the Board did not seek the shareholders' consent, and 2) the Board simultaneously implemented Bylaw changes that increase the percentage of stockholders required to call a special stockholder meeting from 25% to 50%, thereby making it more difficult for stockholders to take contravening actions to the Board's Poison Pill maneuver.

As a result of the Board's defensive measures, we suspect that Brightpoint came to realize the futility of its strategic interest in TESSCO. On July 1, 2008, TESSCO announced that it had agreed to repurchase Brightpoint's shares. This occurred just weeks after a June 12, 2008 meeting we held with Mr. Robert Barnhill, Chairman and Chief Executive Officer, at which we proposed that TESSCO conduct a share repurchase program so that any public shareholders desiring liquidity could have an opportunity to sell some shares back to the Company. Mr. Barnhill objected to our idea on the basis of wanting to maintain long-term financial flexibility. This goal was quickly trumped by the opportunity to be rid of a potential acquirer when Brightpoint, and no other shareholder, was provided full liquidity at \$13.64 per share.

TESSCO Board's actions run countercurrent to good corporate governance practices. At present, less than one-third of the companies in the S&P 500 and the Russell 2000 have Poison Pills and that number is in decline. According to its published criteria, proxy-advisor ISS will recommend that shareholders vote against director nominees if a Board adopts a Poison Pill without shareholder approval or does not commit to a shareholder vote within 12 months of adoption. Glass-Lewis, another proxy advisor, states "...typically we recommend that shareholders vote against these plans to protect their financial interests..."

Vote **FOR** this proposal to communicate to the Board that no impediments should exist to any transaction, including a Company sale, which could be of financial benefit to public shareholders.

The Company's Statement in Opposition to Proposal No 3.

The Board recommends a vote **AGAINST** the shareholder proposal set out above for the reasons described below.

The Rights Plan was Adopted to Protect Shareholders Against Abusive Takeover Tactics

The Board adopted a preferred share purchase rights plan (the "Rights Plan") on February 1, 2008, to protect the Company's shareholders against abusive takeover tactics and to ensure that each shareholder would be treated fairly in the event of an unsolicited offer to acquire the Company. Before making its decision to adopt the Rights Plan, the Board consulted with its legal and financial advisors and carefully considered, among other things, the arguments for and against adopting such a plan as well as the Company's strategic plan, business outlook, and the open-market accumulation of shares of the Company's common stock, at that time, by one of the Company's direct competitors. Since the adoption of the Rights Plan, the Board has subsequently reviewed and discussed the Rights Plan and determined that maintaining it remained in the best interests of the Company's shareholders.

The Rights Plan is Designed to Help the Board Enhance Shareholder Value

The overriding objective of the Board in adopting the Rights Plan was, and continues to be, to preserve and maximize the Company's value for all shareholders by requiring potential acquirers to negotiate with the Board and management, which in turn allows the Board to better represent the interests of the Company's shareholders. The Rights Plan is designed to protect shareholder interests in the event that the Company is confronted with coercive or unfair takeover tactics in connection with an unsolicited offer to acquire the Company. The Rights Plan is designed to provide protection from offers that do not treat all shareholders equally, acquisitions in the open market of shares constituting control without offering fair value to all shareholders, and other coercive or unfair takeover tactics that could impair the Board's ability to represent shareholder interests fully.

The Board Will Use the Rights Plan in the Best Interests of Shareholders

The adoption and maintenance of a Rights Plan is appropriately within the scope of the Board's responsibilities for the management of the Company's affairs and the issuance of securities and does not require shareholder approval under Delaware law or the rules of the NASDAQ Stock Market. To redeem the Rights Plan now, in the absence of an acquisition proposal, would remove an important tool that the Board should have for the protection of shareholders and would leave shareholders vulnerable to an unsolicited and potentially coercive and unfair takeover offer. The Board believes that any decision to redeem the Rights Plan should be made by the Board in the context of a specific acquisition proposal. The terms of the Rights Plan allow the Board to redeem the rights to permit an acquisition that it determines, in the exercise of its fiduciary duties, adequately reflects the value of the Company and is in the best interest of its shareholders.

Delaware law imposes fiduciary duties on the Board requiring it to consider any legitimate proposal for the acquisition of the Company, regardless of whether there is a shareholder rights plan in place. The Rights Plan is not intended to prevent a takeover on terms that are fair and equitable to all shareholders, nor is it intended as a deterrent to a shareholder's initiation of a proxy contest. We believe that a shareholder rights plan enhances the Board's power to negotiate the best price possible for shareholders in a sale of the Company.

The Company also believes that it has sound corporate governance processes and procedures in place. The Board is comprised entirely of independent directors, with the exception of the Company's Chief Executive Officer. The Company's director independence standards reflect both the NASDAQ Stock Market and the Securities and Exchange Commission director independence standards. In addition, the three standing committees of the Board consist solely of independent directors and the Company has adopted a Code of Business Conduct and Ethics which applies to all officers and directors. In the event of a takeover attempt triggering the Rights Plan, the Board is in the best possible position to be free from self-interest in discharging its fiduciary duty to determine whether the proposed offer is in the best interests of shareholders.

Consistent with the Board's corporate governance guidelines, the Board from time to time reviews its corporate governance process and arrangements to ensure that they continue to serve the interests of the Company's shareholders. The Rights Plan is currently scheduled to expire on February 11, 2011, and prior to such time the Board intends to continue to evaluate whether maintaining a shareholder rights plan remains in the best interest of the Company's shareholders.

Evidence Shows that Rights Plans are Effective and Protect Investors

Independent evidence suggests that rights plans enhance value for shareholders. Institutional Shareholder Services, Inc., a major institutional shareholder advocacy group, commissioned a study released in February 2004 designed to test the correlation between corporate governance and shareholder value. The study found that companies with strong anti-takeover defenses, including rights plans, achieved higher shareholder returns of three-, five- and ten-year periods, higher return on equity, and higher performance on a number of other key financial and operating statistics.

In addition, a study published in 1997 by Georgeson & Company Inc. (now Georgeson Inc.), a nationally recognized proxy solicitation and investor relations firm, analyzed takeover data between 1992 and 1996 to determine whether rights plans had any measurable impact on shareholder value. The study found that takeover premiums paid to target companies with rights plans were an average of eight percentage points higher than those paid to companies without rights plans, rights plans contributed an additional \$13 billion in shareholder value in takeover situations over the study period, and shareholders of acquired companies without rights plans gave up \$14.5 billion in potential premiums over the same period. The study also noted that the presence of a rights plan at a target company did not increase the likelihood of the withdrawal of a friendly takeover bid or the defeat of a hostile one, and did not reduce the likelihood of a company becoming a takeover target.

Several Current Market Trends and Conditions Support the Maintenance of a Rights Plan

Maintaining a rights plan is a fairly common market practice for companies in our industry and with a market capitalization similar to ours. According to SharkRepellent.net, as of April 29, 2009, approximately 33% of companies in the technology industry and approximately 33% of companies with a market capitalization of less than \$300 million dollars had rights plans in place. In addition, SharkRepellent.net reports that, as of April 29, 2009, approximately 37% of companies in the technology industry with a market capitalization of less than \$300 million, like the Company, had shareholder rights plans in place.

According to MergerMetrics, unfriendly transactions involving deals that started with unsolicited offers represented 23% of all announced deals involving full acquisitions of US public companies in 2008; well above the percentage of unfriendly deals during the past five years. Consistent with these market conditions, SharkRepellent.net reports that 127 shareholder rights plans were adopted in 2008 (the most in any year since 2002) and that activism against rights plans was almost non-existent in 2008, with only eight anti-rights plan proposals included in proxy statements. In light of these market conditions, the Board believes that redemption of the Rights Plan at this time would be premature and would remove any incentive for a potential purchaser to negotiate with the Board, leaving the Company's shareholders vulnerable to potentially coercive and unfair acquisition tactics.

The Board of Directors recommends a vote "AGAINST" Proposal No. 3 on elimination of the Shareholder Rights Plan.

EXECUTIVE COMPENSATION

General

TESSCO operates in the extremely competitive and rapidly changing wireless communication product and service industry. The Compensation Committee (the "Committee") and the Board of Directors (the "Board") believe that compensation programs for our executive officers should be and are designed to attract, motivate and retain talented executives responsible for the long-term success of the Company. These programs are designed within a framework based on the achievement of designated targets and are designed to align the financial interests of executive officers with those of our shareholders. The Committee and the Board believe that alignment between shareholders and executive officers is best achieved by tying a significant portion of total compensation to the achievement of certain financial and non-financial objectives. This philosophy is applied to all team members, with a more significant amount of compensation at risk at the executive levels. The compensation programs for our named executive officers provide base salary, annual cash bonuses, long-term equity incentives, retirement and other benefits that the Committee believes are appropriate and relatively equivalent to typical programs available for comparable executive officers in similarly situated companies. For more details, see "Narrative Supplement to the Summary Compensation Table in Fiscal 2009."

Stock-Based Compensation Plans

The Company's Second Amended and Restated 1994 Stock and Incentive Plan (the "1994 Plan") is currently the sole equity compensation plan under which we make grants and awards. The Committee and the Board believe that the ability to offer equity compensation incentives to eligible participants in the 1994 Plan, and particularly to our current and prospective senior management, is of paramount importance to our long term success. The 1994 Plan, as currently in effect, provides for the grant or award to regular full-time employees (including officers) and non-employee directors of stock options, stock appreciation rights, restricted stock, restricted stock units and other performance awards, which may be denominated in shares of common stock or other securities of the Company.

The maximum number of shares of common stock issued or issuable at any time pursuant to awards granted under the 1994 Plan is 1,908,750, subject to adjustment to reflect stock splits and other similar events. Since the beginning of fiscal year 2005, the Compensation Committee has used Performance Stock Units (PSUs) as its primary vehicle for equity awards under the 1994 Plan (prior to fiscal 2005, stock options were typically granted to key contributors). The Committee determined that moving equity based compensation away from stock options to performance-based and time-vested stock grants is generally more aligned with long-term shareholder interests. The Committee has, however, reconsidered and reevaluated this position from time to time since, but with limited exception, has since continued to make equity compensation awards in a manner consistent with this determination. PSUs are typically granted with one year measurement periods, with any shares earned on the basis of performance during that period paid over a three or four year period, provided that the executive remains employed at the respective payment dates. In August 2006, the Committee also made a restricted stock grant to our Chief Executive Officer in connection with his current employment agreement, as discussed further below.

As of June 4, 2009, 546,769 shares of common stock had been issued to participants pursuant to PSUs previously granted, 189,085 additional shares of the Company's common stock had been earned pursuant to the PSUs, but remained subject to issuance in accordance with the vesting terms applicable to those PSUs, and PSUs covering 264,000 shares of common stock remained unearned and subject to issuance depending on fiscal 2010 performance. These terms provide that, absent accelerated vesting upon a change in control or termination of service under specified circumstances, these shares will be

issued, provided that the respective participants remain employed by or associated with the Company on established payment dates.

As of June 4, 2009, options for 347,407 shares had been granted and exercised and options for 135,000 shares had been granted and remained outstanding under the 1994 Plan.

During fiscal year 2007, the Company made a restricted stock award for 150,000 shares to Mr. Barnhill, the restrictions under which lapse ratably over a period of ten fiscal years following the grant assuming that Mr. Barnhill remains affiliated with the Company, or earlier upon a change in control or in certain other specified circumstances. As of June 4, 2009, the restrictions had lapsed in respect of 45,000 shares covered by the restricted stock award, leaving 105,000 shares still subject to risk of forfeiture.

Accordingly, the number of shares of common stock available for future award grants under the 1994 Plan as of June 4, 2009 was 276,489. The shares of common stock underlying any awards granted under the 1994 Plan that either expire or are terminated or cancelled for any reason, without the issuance of the shares or payment in accordance with the terms of the corresponding award agreement, are returned to the pool of shares available for future awards under the 1994 Plan.

In addition, the Company maintains the Team Member Stock Purchase Plan. This plan permits eligible employees to purchase up to an aggregate of 300,000 shares of the Company's common stock at 85% of the lower of the market price on the first day of a six-month period and the market price on the last day of that same six-month period. During fiscal year 2009, 15,539 shares were sold to employees under this plan.
