NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollar amounts in Millions Except Per Share Amounts)

(Unaudited)

(1) BACKGROUND AND BASIS OF PRESENTATION

Convergys Corporation (the Company or Convergys) is a global leader in customer management, focused on bringing value to its clients through every customer interaction.

Prior to May 2012, the Company had two reportable segments, Customer Management and Information Management. In March 2012, the Company signed a definitive agreement to sell the Information Management line of business to NetCracker Technology Corporation (NetCracker), a wholly owned subsidiary of NEC Corporation (NEC) for \$449.0 in cash. The sale closed in May 2012, for which the Company received \$462.6 in cash proceeds, including working capital adjustments. As a result of the sale of the Information Management line of business, the operating results related to Information Management have been reflected as discontinued operations. The total gain on the sale of the Information Management business amounted to \$99.8 pretax, and \$16.2 net of taxes at December 31, 2012. During the three and nine months ended September 30, 2013, the Company recorded an additional gain of \$5.7 and \$2.0, respectively, net of tax, as certain contingencies and tax positions were settled or adjusted. Subsequent to the sale of Information Management, the Company has maintained one reportable segment, reflecting the internal financial reporting structure and operating focus of the management team and chief operating decision maker.

On April 30, 2013, the Company acquired New Zealand-based Datacom's contact center operations with facilities in Kuala Lumpur, Malaysia and Manila, Philippines for \$20.0 AUD (approximately \$20.0 USD). The acquisition added 15 Asian languages to Convergys' language capabilities and approximately 1,000 employees, working in three Southeast Asia contact centers, to Convergys' global operations. See Note 13.

The accompanying Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial reporting (U.S. GAAP) and U.S. Securities and Exchange Commission (SEC) regulations, and, in the opinion of management, include all adjustments necessary for a fair presentation of the results of operations, financial position and cash flows for each period shown. All adjustments are of a normal and recurring nature. Certain information and footnote disclosures normally included in Financial Statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted. Interim Consolidated Financial Statements are not necessarily indicative of the financial position or operating results for an entire year. These interim Consolidated Financial Statements should be read in conjunction with the audited Financial Statements and the Notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, filed on February 21, 2013. Certain balances in prior years have been reclassified to conform to the current year presentation.

(2) RECENT ACCOUNTING PRONOUNCEMENTS

In July 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-02, "Intangibles - Goodwill and Other: Testing Indefinite-Lived Intangible Assets for Impairment." The standard is intended to reduce the cost and complexity of testing indefinite-lived intangible assets other than goodwill for impairment by providing entities with an option to perform a qualitative assessment to determine whether further impairment testing is necessary. The approach is similar to the guidance in ASU 2011-08 finalized in 2011 for goodwill impairment testing. ASU 2012-02 is effective for annual and interim impairment tests performed for fiscal years beginning after September 15, 2012 and early adoption is permitted. The Company adopted ASU 2012-02 effective January 1, 2013, which did not have a material effect on the consolidated financial statements.

In February 2013, the FASB issued ASU 2013-02, "Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income." The standard requires an entity to present (either on the face of the statement where net income is presented or in the notes) the effects on the line items of net income of significant amounts reclassified out of accumulated other comprehensive income if the item reclassified is required

under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For reclassification items not required under U.S. GAAP to be reclassified directly to net income in their entirety in the same reporting period, an entity is required to cross-reference to other disclosures currently required under U.S. GAAP that provide additional detail about those amounts. ASU 2013-02 applies to all public and private companies that report items of other comprehensive income. ASU 2013-02 is effective for reporting periods beginning after December 15, 2012, with prospective adoption required. The Company adopted ASU 2013-02 effective January 1, 2013. See Note 15.

(3) DIVESTITURES AND DISCONTINUED OPERATIONS

On May 16, 2012, the Company completed the sale of its Information Management line of business to NEC Corporation for \$449.0 in cash. The Company recorded a gain of \$99.8 pretax and \$16.2, net of taxes in 2012. The sale of Information Management

Table of Contents

was a taxable transaction that resulted in \$83.6 being recorded for the combined federal, state and foreign income tax obligations in 2012. The high effective tax rate is primarily due to a lower basis in net assets, including goodwill, for tax purposes compared to their book basis. The gain on sale included the elimination of \$201.7 of goodwill and intangible assets. During the three and nine months ended September 30, 2013, the Company recorded an additional gain of \$5.7 and \$2.0, respectively, net of tax, as certain contingencies and tax positions were settled or adjusted. The results of the Information Management business have been classified as discontinued operations for all periods presented. Certain costs previously allocated to the Information Management segment that do not qualify for discontinued operations accounting treatment are now reported as costs from continuing operations. These costs were \$8.8 for the nine months ended September 30, 2012. The Company has taken action to reduce these costs and the transition services revenue from services provided to the buyer subsequent to completion of the sale substantially offset the remainder of these costs. During the three and nine months ended September 30, 2013, the Company earned \$3.8 and \$13.3, respectively, in revenue under these transition services agreements, compared to \$6.1 and \$9.0, respectively, for the same period in 2012. While the transition services agreements vary in duration up to 24 months from the date of sale depending upon the type of service provided, the Company expects to substantially eliminate the underlying costs as the transition services are completed.

The results of the Information Management business included in discontinued operations for the three and nine months ended September 30, 2013 and 2012 are summarized as follows:

	Three Months Ended September		Nine Months Ended September	
	30,		30,

(1) Excludes costs previously allocated to Information Management that did not meet the criteria for presentation within discontinued operations of \$8.8 for the nine months ended September 30, 2012.

(4) EARNINGS PER SHARE AND SHAREHOLDERS' EQUITY**Earnings per Share**

The following is a reconciliation of the numerator and denominator of the basic and diluted earnings per share (EPS) computations:

Table of Contents

		Continuing Operations		Discontinued Operations		Total

Basic EPS	114.2	\$(2.0)	\$(0.02)	\$70.6	\$0.62	\$0.60
Effect of dilutive securities:						
Stock-based compensation arrangements	—	—	—	—	—	—
Convertible Debt	—	—	—	—	—	—
Diluted EPS	114.2	\$(2.0)	\$(0.02)	\$70.6	\$0.62	\$0.60

The diluted EPS calculation excludes the effect of 0.7 outstanding stock options for the three and nine months ended September 30, 2013 and 1.4 outstanding stock options for the three and nine months ended September 30, 2012 because their effect is anti-dilutive. As the Company reported a Net Loss from Continuing Operations for the nine months ended September 30, 2012, diluted shares outstanding are equivalent to basic shares outstanding. The calculation at September 30, 2013 also excludes 0.3 performance-based restricted stock units granted in both 2013 and 2012 as performance criteria have not yet been met.

As described more fully in Note 8, the Company issued approximately \$125.0 aggregate principal amount of 5.75% Junior Subordinated Convertible Debentures due 2029 (2029 Convertible Debentures). The 2029 Convertible Debentures were initially convertible, subject to certain conditions, into shares of the Company's common stock at an initial conversion price of approximately \$12.07 per share, or eighty-two and eighty-two hundredths shares per one thousand in principal amount of debentures. The conversion rate is subject to adjustment for certain events outlined in the indenture governing the Debentures (the Indenture), including payment of dividends. As of September 30, 2013, the implied conversion rate for the Convertible Debentures was \$11.84 per share, or eighty-four and forty-six hundredths shares per one thousand in principal amount of debentures. There were 4.0 dilutive shares related to the 2029 Convertible Debentures for the three and nine months ended September 30, 2013.

Shareholders' Equity

The Company repurchased 2.1 and 5.8 shares of its common stock during the three and nine months ended September 30, 2013, respectively, at an average price of \$18.76 and \$17.36 per share for a total of \$39.4 and \$100.0. Based upon the timing of the transactions, \$3.5 of shares repurchased had not settled as of September 30, 2013. These shares are excluded from outstanding shares at the end of the current quarter and will be settled in cash during the

fourth quarter of 2013. As of September 30, 2013, the Company had the authority to repurchase an additional \$152.3 of outstanding common shares pursuant to current authorizations.

Table of Contents

The Company also repurchased 0.9 shares at an average price of \$19.29 for aggregate proceeds of \$17.7 subsequent to September 30, 2013 through November 6, 2013.

Dividends

During 2012 and 2013, the Company's Board of Directors approved, and the Company has paid, the following dividends per common share:

Announcement Date	Record Date	Dividend Amount	Payment Date
May 8, 2012	June 22, 2012	\$0.05	July 6, 2012
July 26, 2012	September 21, 2012	\$0.05	October 5, 2012

July 30, 2013	September 20, 2013	\$0.06	October 4, 2013

On November 6, 2013, the Company announced that its Board of Directors declared a quarterly cash dividend of \$0.06 per common share to be paid on January 10, 2014 to shareholders of record as of December 27, 2013.

The Board expects that future cash dividends will be paid on a quarterly basis. However, any decision to pay future cash dividends will be subject to Board approval, and will depend on the Company's future earnings, cash flow, financial condition, financial covenants and other relevant factors.

(5) EMPLOYEE BENEFIT PLANS

The Company sponsors a frozen defined benefit pension plan, which includes both a qualified and non-qualified portion, for eligible employees (the Cash Balance Plan) in North America. The Company recorded a liability of \$43.2 and \$70.0 as of September 30, 2013 and December 31, 2012, respectively, for the Cash Balance Plan. In addition, the Company sponsors an unfunded defined benefit plan for certain eligible employees in the Philippines. The Company recorded a liability of \$27.6 and \$23.8 as of September 30, 2013 and December 31, 2012, respectively, for the Philippines plan. Components of pension cost for these plans are as follows:

	Three Months Ended September		Nine Months Ended September	
	30, 2013	2012	30, 2013	2012
Interest cost on projected benefit obligation	\$2.6	\$3.0	\$8.8	\$8.9

Settlement charge	4.4	—	11.9	—
Pension cost	\$9.0	\$4.7	\$27.5	\$13.6

During the three and nine months ended September 30, 2013, the Company recognized non-cash pension settlement charges of \$4.4 and \$11.9, respectively. The Company contributed \$10.0 to fund the Cash Balance Plan during the first nine months of 2013. The Company recognized a 0.2 curtailment benefit during the nine months ended September 30, 2012 related to the impact of the sale of the Information Management business.

The Company also sponsors a non-qualified, unfunded executive deferred compensation plan and a supplemental, non-qualified, unfunded plan for certain senior officers. Components of pension cost for the unfunded executive pension plans are as follows:

During the nine months ended September 30, 2013, the Company recognized a settlement loss of \$0.2 related to the supplemental, non-qualified, unfunded plan and a settlement gain of \$0.2 related to the unfunded executive compensation plan. Subsequent to recognition of the settlement loss related to the supplemental, non-qualified, unfunded plan, this plan has been fully settled. The Company recognized a \$0.3 and \$0.1 curtailment loss for the three and nine months ended September 30, 2012, respectively, due to the sale of the Information Management business and subsequent corporate restructuring initiatives.

As previously disclosed, the Company's Executive Deferred Compensation Plan (the "EDCP") which permitted eligible participants, including executive officers, to defer receipt of certain income, was frozen as of December 31, 2011. Before the plan was frozen, the Company provided a match to a participant's deferred amounts (reduced by the Company match eligible to be received under the Company's Retirement and Savings Plan). On July 25, 2013, the Company's Board of Directors authorized the Company to reinstate the EDCP, effective January 1, 2014, for eligible participants, including executive officers. Under this authorization, the Company will match up to 100% of the first 3% of a participant's deferred amounts and 50% of a participant's next 2% of deferred amounts. The Company match under the EDCP will be reduced by the Company match eligible to be received under the Company's Retirement and Savings Plan.

(6) RESTRUCTURING**2013 Restructuring**

During the three and nine months ended September 30, 2013, the Company recorded a severance charge of \$4.3, impacting approximately 800 employees. These actions were initiated to continue the Company's efforts to refine its operating model and reduce costs. The severance charge is expected to be substantially paid in cash by June 30, 2014. The total remaining liability under this severance-related restructuring plan, which is included within Payables and other current liabilities on the Company's Consolidated Balance Sheets was \$3.8 as of September 30, 2013.

2012 Restructuring

During 2012, the Company recorded restructuring charges of \$11.6, consisting of \$11.4 of severance-related charges and \$0.2 of facility-related charges, as described below. The \$11.4 of severance-related charges impacted approximately 100 professional employees and reflect the change in the Company's executive management team and realignment of Corporate overhead as a result of the sale of the Information Management business. These severance-related charges were fully paid in cash by September 30, 2013, pursuant to the Company's severance policies. As of December 31, 2012, the remaining liability under this severance-related restructuring plan, which was included within Payables and other current liabilities on the Company's Consolidated Balance Sheets was \$5.2.

Facilities Restructuring

The Company's facilities restructuring reserves are equal to the estimated future costs associated with the facilities, net of proceeds from any probable future sublease agreements. The Company uses estimates, based on consultation with the Company's real estate advisers, to determine the proceeds from any future sublease agreements. The Company continues to evaluate these estimates in assessing the facilities abandonment liability. The remaining liability for previously exited facilities, which is included within Payables and other current liabilities on the Company's Consolidated Balance Sheets was \$0.1 as of September 30, 2013 and \$0.3 as of December 31, 2012.

(7) STOCK-BASED COMPENSATION PLANS

The Company's operating results for the three and nine months ended September 30, 2013 included long-term incentive plan expense of \$3.3 and \$10.7, respectively, compared to \$5.3 and \$15.8, respectively, for the same period in 2012. Long-term incentive plan expense includes expense related to discontinued operations of \$1.4 in 2012 prior to completion of the sale of the Information Management business. Long-term incentive plan expense includes: (a) incentive plan expense that is paid in cash based on relative shareholder return and (b) stock compensation expense. Stock compensation expense for the three and nine months ended September 30, 2013 was \$3.3 and \$10.7, respectively, compared to \$5.6 and \$16.2, respectively, for the same period in 2012.

Stock compensation expense for the 2011 and 2012 stock option grants was \$0.2 and \$0.7, respectively, for the three and nine months ended September 30, 2013.

Restricted Stock Awards

During the nine months ended September 30, 2013 and 2012, the Company granted 1.1 shares and 1.5 shares, respectively, of restricted stock units. The weighted-average fair values of these grants were \$16.35 and \$12.97 per share, respectively. Included in these amounts were 0.4 shares and 0.6 shares, respectively, of performance-based restricted stock units granted at the fair value of \$16.23 and \$12.93 per share, respectively, equal to the Company's share price at grant date, that vest upon the Company's satisfaction of certain financial performance conditions. The 2013 performance-based grants include 0.3 shares that provide for payout based upon the extent to which the Company achieves certain EPS targets, as determined by the Compensation and Benefits Committee of the Board of Directors, over a three-year period. Payout levels range from 50% to 200% of award shares earned. No payout can be earned if performance is below the minimum threshold level. As the targets for the second and third year have not yet been set, the key terms have not been effectively communicated to the recipients, and as such the expense related to these grants cannot be recognized until the key terms are established. These grants have been excluded from the table below. The remaining 0.1 of performance-based shares granted in 2013 vested immediately.

The 2012 performance-related grants provide for payout based upon the extent to which the Company achieves certain EBITDA targets, as determined by the Compensation and Benefits Committee of the Board of Directors for this award, over a two-year period. Payout levels range from 50% to 200% of award shares earned. No payout can be earned if performance is below the minimum threshold level. Compensation cost related to these 2012 grants is adjusted based upon expected performance as compared to defined targets.

The 2013 time-based grants are scheduled to vest 25% at the completion of year one after the grant date, 25% after year two and 50% after year three. The 2012 time-based grants are scheduled to vest 50% at the end of year two and 50% at the end of year three. The 2011 time-based grants vested 50% at the completion of year two after grant date with the remaining 50% scheduled to vest at the end of year three.

The total compensation cost related to non-vested time-based and performance-based restricted stock units not yet recognized as of September 30, 2013 was approximately \$11.8 and \$1.4, respectively, which is expected to be recognized over a weighted average of 1.0 years and 0.2 years, respectively. Changes to non-vested time-based and performance-based restricted stock and restricted stock units for the nine months ended September 30, 2013 were as follows:

Time-based Restricted Stock Units

(8) DEBT AND CAPITAL LEASE OBLIGATIONS

Debt and capital lease obligations consist of the following:

	September 30, 2013	December 31, 2012
Revolving credit facilities	\$—	\$—
2029 Convertible Debentures	59.1	58.4
Capital Lease Obligations	2.0	2.2
Accounts Receivable Securitization	—	—
Total debt	61.1	60.6
Less current maturities	0.9	0.7
Long-term debt	\$60.2	\$59.9

On March 11, 2011, the Company entered into a \$300.0 Four-Year Competitive Advance and Revolving Credit Facility Agreement (the 2011 Credit Facility), replacing the Company's \$400.0 Five-Year Competitive Advance and Revolving Credit Facility Agreement (the 2006 Credit Facility), which was terminated at that time. Convergys has two borrowing options available under the 2011 Credit Facility: (i) a competitive advance option which will be provided on an uncommitted competitive advance basis through an auction mechanism and (ii) a revolving credit option which will be provided on a committed basis. Under each option, amounts borrowed and repaid may be re-borrowed subject to availability. Borrowings under the 2011 Credit Facility bear interest at one of the rates described in the 2011 Credit Facility. The maturity date of the 2011 Credit Facility is March 11, 2015 except that, upon the satisfaction of certain conditions, Convergys may extend the maturity date by one year, twice during the term. Convergys will pay an annual facility fee regardless of utilization. At September 30, 2013, the facility was undrawn. The Company was in compliance with all covenants at September 30, 2013.

In the fourth quarter of 2009, the Company announced an offer to exchange one thousand twenty dollars in principal amount of its 5.75% Junior Subordinated Convertible Debentures due September 2029 (2029 Convertible Debentures) for each one thousand dollars in principal amount of its 4.875% Unsecured Senior Notes (4.875% Senior Notes) due December 15, 2009. Convergys issued a total of \$125.0 aggregate principal amount of the 2029 Convertible Debentures in exchange for \$122.5 of the 4.875% Senior Notes. At the date of issuance, the Company recognized the

liability component of the 2029 Convertible Debenture at its fair value of \$56.3. The liability component is recognized as the fair value of a similar instrument that does not have a conversion feature at issuance. The equity component, which is the value of the conversion feature at issuance, was recognized as the difference between the proceeds from the issuance of the debentures and the fair value of the liability component, after adjusting for the deferred tax impact of \$32.7. The 2029 Convertible Debentures were issued at a coupon rate of 5.75%, which

Table of Contents

was below that of a similar instrument that does not have a conversion feature. Therefore, the valuation of the debt component, using the income approach, resulted in a debt discount. The debt discount will be amortized over the life of a similar debt instrument without a conversion feature, which the Company determined to equal the contractual maturity of the 2029 Convertible Debentures. Amortization is based upon the effective interest rate method and will be included within the interest expense caption in the accompanying Consolidated Statements of Income.

The 2029 Convertible Debentures were initially convertible, subject to certain conditions, into shares of the Company's common stock at an initial conversion price of approximately \$12.07 per share, or eighty-two and eighty-two hundredths shares of the Company's common stock per one thousand dollars in principal amount of Debentures. As of September 30, 2013, the implied conversion rate for the Convertible Debentures was \$11.84 per share, or eighty-four and forty-six hundredths per one thousand in principal amount of debentures. Upon conversion, the Company will pay cash up to the aggregate principal amount of the converted 2029 Convertible Debentures and settle the remainder of the conversion value of the Debentures in cash or stock at the Company's option. The conversion rate will be subject to adjustment for certain events outlined in the indenture governing the Debentures (the Indenture), including payment of dividends. The conversion rate will increase for a holder who elects to convert this Debenture in connection with certain share exchanges, mergers or consolidations involving the Company, as described in the Indenture. The 2029 Convertible Debentures, which pay a fixed rate of interest semi-annually, have a contingent interest component that will require the Company to pay interest based on the trading price of the Debentures exceeding a specified threshold at specified times, commencing on September 15, 2019, as outlined in the Indenture. The maximum amount of contingent interest that will accrue is 0.75% per annum of the average trading price of the Debentures during the periods specified in the Indenture. The fair value of this embedded derivative was not significant at September 30, 2013 or December 31, 2012.

During June 2011, the Company extended the terms of an asset securitization facility collateralized by accounts receivable of certain of the Company's subsidiaries, with a purchase limit of \$150.0 expiring in June 2014. The asset securitization program is conducted through Convergys Funding Inc., a wholly-owned bankruptcy remote subsidiary of the Company. As of September 30, 2013 and December 31, 2012, the facility was undrawn.

At September 30, 2013, future minimum payments of the Company's debt arrangements are as follows:

Remainder of 2013 and 2014	\$1.1
2015	0.9
2016	—
2017	—
2018	—
Thereafter	125.0
Total	\$127.0

(9) COMMITMENTS AND CONTINGENCIES**Commitments**

At September 30, 2013, the Company had outstanding letters of credit of \$38.6 and other bond obligations of \$1.6 related to performance and payment guarantees. The Company believes that any guarantee obligation that may arise will not be material. The Company also has purchase commitments with telecommunications providers of \$1.1 for the remainder of 2013.

At September 30, 2013, the Company had an outstanding performance bond obligation of \$30.0 related to a performance and payment guarantee for the Company's former HR Management line of business which was sold in 2010 to NorthgateArinso. Subsequent to completion of the sale of the HR Management business, the Company continues to be responsible for this bond obligation. As part of the gain on disposition, the Company recognized a liability equal to the present value of probability weighted cash flows of potential outcomes, a Level 3 fair value measurement. Although the buyer is obligated to indemnify the Company for any and all losses, costs, liabilities and expenses incurred related to these performance bonds, as of September 30, 2013, the Company maintains a liability of

\$1.0 for these obligations. The Company's guarantee for this bond obligation expires in August 2016.

Contingencies

The Company from time to time is involved in various loss contingencies, including tax and legal contingencies that arise in the ordinary course of business. The Company accrues for a loss contingency when it is probable that a liability has been incurred and the amount of such loss can be reasonably estimated. At this time, the Company believes that the results of any such

Table of Contents

contingencies, either individually or in the aggregate, will not have a materially adverse effect on the Company's results of operations or financial condition. However, the outcome of any litigation cannot be predicted with certainty. An unfavorable resolution of one or more pending matters could have a materially adverse impact on the Company's results of operations or financial condition in the future.

In November 2011, one of the Company's call center clients, Hyundai Motor America ("Hyundai"), tendered a contractual indemnity claim to Convergys Customer Management Group, Inc., a subsidiary of the Company, relating to a putative class action captioned Brandon Wheelock, individually and on behalf of a class and subclass of similarly situated individuals, v. Hyundai Motor America, Orange County Superior Court, California, Case No. 30-2011-00522293-CU-BT-CJC. The lawsuit alleges that Hyundai violated California's telephone recording laws by recording telephone calls with customer service representatives without providing a disclosure that the calls might be recorded. Plaintiff is seeking, among other things, an order certifying the suit as a California class action, statutory damages, payment of attorneys' fees and pre- and post-judgment interest. Convergys Customer Management Group, Inc. is not named as a defendant in the lawsuit. On March 5, 2012, the court sustained a demurrer filed by Hyundai to one of the Plaintiff's causes of action, but overruled the demurrer as the Plaintiff's other cause of action. On March 15, 2012, Plaintiff filed an amended complaint. Hyundai answered the amended complaint on April 16, 2012, by generally denying the allegations and asserting certain affirmative defenses. On May 7, 2012, Hyundai filed a motion for summary judgment based on Hyundai's claim that an exemption under the California recording laws was intended to exempt the type of recording done by Hyundai's call centers. On February 5, 2013, the court denied the motion. On July 2, 2013, the California Court of Appeal, Fourth Appellate District, denied Hyundai's appeal of the court's ruling, and on September 18, 2013 the Supreme Court of the State of California denied Hyundai's petition to grant review. Discovery had been stayed while the court's ruling was under appellate review. At a status hearing on October 22, 2013 the court lifted the stay on discovery.

Convergys Customer Management Group, Inc. is not named as a defendant in the lawsuit, and there has been no determination as to whether Convergys Customer Management Group, Inc. will be required to indemnify Hyundai. The Company believes Convergys Customer Management Group, Inc. has meritorious defenses to Hyundai's demand for indemnification and also believes there are meritorious defenses to Plaintiff's claims in the lawsuit. The likelihood of losses that may become payable under such claims, the amount of reasonably possible losses associated with such claims, and whether such losses may be material cannot be determined or estimated at this time. For these reasons, the Company has not established a reserve with respect to this matter.

On March 28, 2013, the Company received a demand from a subsidiary of NEC Corporation for defense and indemnification under the stock and asset purchase agreement among the Company, NEC Corporation and the subsidiary with respect to the sale by the Company of its Information Management business. The demand was made in connection with a third party claim that, among other things, the business lacked certain necessary software licenses at the time of the sale. On May 10, 2013, the parties completed a settlement agreement. The Company settled in cash its obligations under this agreement during the second quarter of 2013. The final settlement did not have a material adverse impact on the Company's results of operations or financial condition.

(10) FAIR VALUE DISCLOSURES

U.S. GAAP defines a hierarchy which prioritizes the inputs in measuring fair value. The three levels of the fair value hierarchy are as follows: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs are quoted prices for similar assets and liabilities in active markets or inputs that are observable for the asset or liability, either directly or indirectly through market corroboration, for substantially the full term of the financial instrument; and Level 3 inputs are unobservable inputs based on the Company's assumptions used to measure assets and liabilities at fair value. A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement.

At September 30, 2013 and December 31, 2012, the Company had foreign currency forward contracts measured at fair value. The fair values of these instruments were measured using valuations based upon quoted prices for similar assets and liabilities in active markets (Level 2) and are valued by reference to similar financial instruments, adjusted for terms specific to the contracts. There were no transfers between the three levels of the fair value hierarchy during the

nine months ended September 30, 2013 and 2012. The assets and liabilities measured at fair value on a recurring basis as of September 30, 2013 and December 31, 2012 were as follows:

The Company also had investment securities held in a grantor trust for the benefit of participants of the executive deferred compensation plan measured at fair value at September 30, 2013 and December 31, 2012. The fair value of these instruments was measured using the quoted prices in active markets for identical assets (Level 1). There were no transfers between the three levels of the fair value hierarchy during the nine months ended September 30, 2013 and 2012. The assets measured at fair value on a recurring basis as of September 30, 2013 and December 31, 2012 were as follows:

At September 30, 2013, the Company held time deposits with maturities greater than 90 days and less than 180 days measured at fair value. The valuation technique used to measure the fair value of the time deposits was based on observable market data. There were no transfers between the three levels of the fair value hierarchy during the nine

months ended September 30, 2013 and 2012. The assets measured at fair value on a recurring basis as of September 30, 2013 and December 31, 2012 were as follows:

Fair values of cash equivalents and current accounts receivable and payable approximate the carrying amounts because of their short-term nature. The fair value of short-term debt approximates its recorded value because of its short-term nature. Based on quoted market prices at September 30, 2013, the fair value of the \$125.0 of the Company's 2029 Convertible Debentures is \$223.7.

(11) FINANCIAL INSTRUMENTS

Derivative Instruments

The Company is exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices. The Company's risk management strategy includes the use of derivative instruments to reduce the effects on its operating results and cash flows from fluctuations caused by volatility in currency exchange rates.

The Company serves many of its U.S.-based clients using contact center capacity in the Philippines, India, Canada and Colombia. Although the contracts with these clients are typically priced in U.S. dollars, a substantial portion of the costs incurred to render services under these contracts are denominated in Philippine pesos (PHP), Indian rupees (INR), Canadian dollars (CAD) or Colombian pesos (COP), which represents a foreign exchange exposure. The Company also maintains a contract with a client priced in Australian dollars (AUD). The Company has hedged a portion of its exposure related to the anticipated cash flow requirements denominated in these foreign currencies by entering into forward exchange contracts and options with several financial institutions to acquire a total of PHP 29,802.0 at a fixed price of \$696.8 at various dates through December 2016, INR 11,663.0 at a fixed price of \$196.5 at various dates through December 2016, CAD 28.3 at a fixed price of \$27.3 at various dates through December 2015 and COP 26,400.0 at a fixed price of \$13.8 at various dates through December 2014, and to sell a total of AUD 33.6 at a fixed price of \$34.2 at various dates through September 2014. These instruments mature within the next 39 months and had a notional value of \$968.6 at September 30, 2013 and \$590.4 at December 31, 2012. The derivative instruments discussed above are designated and effective as cash flow hedges. The following table reflects the fair values of these derivative instruments:

	September 30, 2013	December 31, 2012
Forward exchange contracts and options designated as hedging instruments:		
Included within other current assets	\$6.4	\$16.4
Included within other non-current assets	1.3	11.6
Included within other current liabilities	21.6	6.0
Included within other long-term liabilities	22.6	3.5

The Company recorded a deferred tax benefit of \$14.2 and a deferred tax expense of \$7.1 related to these derivatives at September 30, 2013 and December 31, 2012, respectively. A total of \$22.4 of deferred losses and \$11.4 of deferred gains, net of tax, related to these cash flow hedges at September 30, 2013 and December 31, 2012, respectively, were included in accumulated other comprehensive loss (OCL). As of September 30, 2013, deferred losses of \$15.3 (\$9.4 net of tax), on derivative instruments included in accumulated OCL are expected to be reclassified into earnings during the next twelve months. The following table

17

Table of Contents

provides the effect of these derivative instruments on the Company's Consolidated Financial Statements for the three and nine months ended September 30, 2013 and 2012:

	Gain (Loss) Recognized in OCL on Derivative (Effective Portion)	Gain (Loss) Reclassified from Accumulated OCL into Income (Effective Portion)	Location of Gain (Loss) Reclassified from Accumulated OCL into Income (Effective Portion)
Three Months Ended September 30, 2013			
Foreign exchange contracts	\$ (13.5)	\$ (3.7)	- Cost of providing services and products sold and Selling, general and administrative
Nine Months Ended September 30, 2013			
Foreign exchange contracts	\$ (53.0)	\$ 2.0	- Cost of providing services and products sold and Selling, general and administrative
Three Months Ended September 30, 2012			
Foreign exchange contracts	\$ 14.0	\$ 4.3	- Cost of providing services and products sold and Selling, general and administrative
Nine Months Ended September 30, 2012			
Foreign exchange contracts	\$ 30.0	\$ 10.0	- Cost of providing services and products sold and Selling, general and administrative

The amount recognized related to the ineffective portion of the derivative instruments was not material for the nine months ended September 30, 2013.

The Company also enters into derivative instruments (forwards) to economically hedge the foreign currency impact of assets and liabilities denominated in nonfunctional currencies. The Company recorded a net gain of \$4.5 and a net loss of \$1.0 during the nine months ended September 30, 2013 and 2012, respectively, related to changes in fair value of these derivative instruments not designated as hedges. The gains and losses largely offset the currency gains and losses that resulted from changes in the assets and liabilities denominated in nonfunctional currencies. These gains and losses are classified within other income, net in the accompanying Consolidated Statements of Income. The fair value of these derivative instruments not designated as hedges at September 30, 2013 was \$3.4.

The aggregate fair value of all derivative instruments in a liability position on September 30, 2013 is \$44.2.

Short Term Investments

In December 2011, the Company made investments in certain securities, included within short-term investments in the Consolidated Balance Sheets, which are held in a grantor trust for the benefit of participants of the executive deferred compensation plan, which was frozen during the fourth quarter of 2011. This investment was made in securities reflecting the hypothetical investment balances of plan participants. As of September 30, 2013, the Company maintained investment securities with a fair value of \$13.5 classified as trading securities. The investment securities include exchange-traded mutual funds, common stock of the Company and money market accounts. These securities are carried at fair value, with gains and losses, both realized and unrealized, reported in other income (expense), net in the Consolidated Statements of Income. The cost of securities sold is based upon the specific identification method. Interest and dividends on securities classified as trading are included in other income (expense), net.

Additionally, during 2013 and 2012 the Company made investments in time deposits with maturities greater than 90 days and less than 180 days, included within short-term investments in the Consolidated Balance Sheets. As of September 30, 2013, the Company maintained short-term time deposits with a fair value of \$113.0.

(12) INCOME TAXES

The liability for unrecognized tax benefits was \$51.0 and \$54.0 at September 30, 2013 and December 31, 2012, respectively, and is included in other long-term liabilities in the accompanying Consolidated Balance Sheets. As of September 30, 2013, the total amount of unrecognized tax benefits that would affect income tax expense if recognized in the Consolidated Financial Statements is \$42.8. This amount includes interest and penalties of \$17.2. It is reasonably possible that the total amount of

18

Table of Contents

unrecognized tax benefits will decrease between approximately \$2 and \$10 in the next twelve months; however, actual developments in this area could differ from those currently expected.

The effective tax rate on net income from continuing operations was 8.7% and 18.3% for the three months ended September 30, 2013 and 2012, respectively. The change in tax rate for the period ended September 30, 2013 is primarily due to a shift in the geographic mix of worldwide income and certain discrete items. The Company recognized tax expense of \$1.7 on a pre-tax loss from continuing operations of \$0.3 for the nine months ended September 30, 2012 compared to an effective tax rate of 14.5% for the nine months ended September 30, 2013. Prior year tax expense is primarily due to non-deductible goodwill impairment charge recognized in the second quarter of 2012.

(13) GOODWILL AND OTHER INTANGIBLE AND LONG-LIVED ASSETS**Acquisition of Datacom**

On April 30, 2013, the Company acquired the business process outsourcing operations of New Zealand-based Datacom, including contact centers in Kuala Lumpur, Malaysia and Manila, Philippines. The purchase price of \$20.0 AUD (approximately \$20.0 USD) included \$15.0 of cash paid at closing and assumptions of \$5.3 of debt obligations which were immediately paid by the Company, as well as working capital adjustments that were finalized during the third quarter of 2013. In connection with the acquisition, the Company recognized \$10.3 of goodwill and \$7.0 of customer relationship intangible asset. The customer relationship intangible asset will be amortized over an estimated economic useful life of 8 years. The determination of the useful life is based upon consideration of market participant and transaction specific factors. The Company included various industry studies, historical acquisition experience, economic factors, future cash flows of the combined company and the relative stability of the acquired customer base. The acquired goodwill is not expected to be deductible for tax purposes. The intangible assets fall within Level 3 of the fair value hierarchy under U.S. GAAP.

Goodwill and Intangible Assets

Goodwill was \$589.3 at September 30, 2013 compared to \$577.7 at December 31, 2012. This increase was primarily due to the acquisition discussed above. Second quarter 2012 results of operations include a \$46.0 goodwill impairment charge recorded within the asset impairment caption in the accompanying Consolidated Statements of Income. The Company tests goodwill for impairment annually as of October 1 and at other times if events have occurred or circumstances exist that indicate the carrying value of goodwill may no longer be recoverable. Goodwill impairment testing is performed at the reporting unit level, one level below the business segment. The Company's three reporting units prior to the sale of Information Management were CM Live Agents, CM Customer Interaction Technology (CIT) and Information Management.

The impairment test for goodwill involves a two-step process. The first step compares the fair value of a reporting unit with its carrying amount, including the goodwill allocated to each reporting unit. If the carrying amount is in excess of the fair value, the second step requires the comparison of the implied fair value of the reporting unit goodwill with the carrying amount of the reporting unit goodwill. Any excess of the carrying value of the reporting unit goodwill over the implied fair value of the reporting unit goodwill will be recorded as an impairment loss. Fair value of the reporting units is determined using a combination of the market approach and the income approach. Under the market approach, fair value is based on actual stock price or transaction prices of comparable companies. Under the income approach, value is dependent on the present value of net cash flows to be derived from the ownership.

Completion of the sale of the Information Management business qualified as a triggering event for an interim assessment of goodwill impairment for the Company's CIT reporting unit. The sale of the Information Management business impacted the sale of certain products developed by the CIT reporting unit and co-marketed by CIT and the Information Management business. Due in part to this transition, the fair value of the CIT reporting unit was determined to be less than its carrying value. The conclusion of step two of the impairment analysis resulted in the impairment of the entire \$46.0 goodwill balance of this reporting unit. The Company, therefore, recorded a \$46.0 (\$44.4 net of tax) goodwill impairment charge, included within operating income, during the second quarter of 2012. Fair value was determined based on a discounted cash flow analysis which contains significant unobservable inputs

that fall within Level 3 of the fair value hierarchy under U.S. GAAP.

Intangible assets (including software and customer relationships) decreased to \$32.8 at September 30, 2013 from \$33.7 at December 31, 2012, primarily due to amortization, offset by the acquisition. As of September 30, 2013, the Company's total identifiable intangible assets, acquired primarily through business combinations, consisted of the following:

19

Table of Contents

	Gross Carrying Value	Accumulated Amortization	Net
Software (classified with Property, Plant & Equipment)	\$41.3	\$(30.0)) \$11.3
Trademarks	10.0	(10.0)) —
Customer relationships and other intangibles	126.2	(104.7)) 21.5
Total	\$177.5	\$(144.7)) \$32.8

The intangible assets are being amortized using the following amortizable lives: 5 to 8 years for software, 4 years for trademarks, and 7 to 12 years for customer relationships and other intangibles. The remaining weighted average depreciation period for software is 2.91. The remaining weighted average amortization period for trademarks, customer relationships and other intangibles is 6.57. Amortization of software is included within depreciation expense as the underlying assets are classified within property, plant and equipment.

Trademarks, customer relationships, and other intangibles amortization expense was \$4.0 and \$5.1 for the nine months ended September 30, 2013 and 2012, respectively, and is estimated to be approximately \$5.3 for the year ended December 31, 2013. The related estimated expense for the five subsequent years ended December 31 is as follows:

2014	\$4
2015	3
2016	3
2017	3
2018	3
Thereafter	5

Long-Lived Assets

The Company evaluates its property, plant and equipment when events or circumstances indicate a possible inability to recover their carrying amounts. During 2012, the Company committed to a plan to sell its Corporate office facilities in Cincinnati, Ohio. The facility met the "Held-for-Sale" criteria set forth in U.S. GAAP; the book value was adjusted to its fair value less costs to sell, resulting in an impairment charge of \$42.6 (\$27.0 after tax) recorded during the second quarter of 2012. During 2013, the Company committed to sell an additional facility in Dallas, Texas which also resulted in "Held-for-Sale" classification. During the three and nine months ended September 30, 2013 the Company recognized net impairment losses of \$0.4 and \$1.5, respectively, to adjust both facilities to fair value less costs to sell at the date of sale to a third-party buyer. The Company measured assets held-for-sale at the lower of net book value or fair value less cost to sell. Fair value and cost to sell estimates were based on corroborative market data, which is a Level 2 input of the fair value hierarchy under U.S. GAAP. The Company completed the sale of these facilities in July 2013 resulting in cash collections of \$47.6.

ITEM 2.

MANAGEMENT DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(Dollar amounts in Millions Except Per Share Amounts)

BACKGROUND

Convergys Corporation (we, the Company or Convergys) is a global leader in customer management, focused on bringing value to our clients through every customer interaction. Over half of the Fortune 50 companies trust us to care for their most important asset: their customers. Our business model allows us to deliver consistent, quality service at the scale and in the geographies that meet our clients' business needs and pro-actively partner to solve client business challenges through our account management model. We leverage our breadth and depth of capabilities to help leading companies create quality customer experiences across multiple channels, while increasing revenue and reducing their cost to serve.

Operations and Structure

Prior to May 2012, we had two reportable segments, Customer Management and Information Management. In March 2012, we signed a definitive agreement to sell the Information Management line of business to NEC Corporation for \$449.0 in cash. The sale closed in May 2012, for which we received \$462.6 in cash, including working capital adjustments. As a result of the sale of the Information Management business, the operating results and assets and liabilities related to Information Management have been reflected as discontinued operations for all periods presented. The total gain on the sale of the Information Management business amounted to \$99.8 pretax and \$16.2 net of taxes, at December 31, 2012. During the three and nine months ended September 30, 2013, we recorded an additional gain of \$5.7 and \$2.0, respectively, net of tax, as certain contingencies and tax positions were settled or adjusted. Subsequent to the sale of Information Management, we maintained one reportable segment, reflecting the internal financial reporting structure and operating focus of our management team and chief operating decision maker.

On April 30, 2013, we acquired New Zealand-based Datacom's contact center operations with facilities in Kuala Lumpur, Malaysia and Manila, Philippines for \$20.0 AUD (approximately \$20.0 USD). The acquisition added 15 Asian languages to Convergys' language capabilities and approximately 1,000 employees, working in three Southeast Asia contact centers, to Convergys' global operations.

Convergys handles more than 4 billion customer contacts per year. We have approximately 82,000 employees in over 70 locations across the globe and in our work-at-home environment. We provide multilingual, multichannel customer care with global service delivery infrastructure that operates 24 hours a day, 365 days a year.

Agent-related revenues, which accounted for more than 91% of revenues for the nine months ended September 30, 2013, are typically recognized as the services are performed based on staffing hours or the number of contacts handled by service agents using contractual rates. Remaining revenues are derived from the sale of premise-based and hosted automated self-care and technology solutions and provision of professional services. Revenues from the sale of these solutions and provision of services are typically recognized as the services are provided over the duration of the contract using contractual rates.

Three Months Ended September 30, 2013 versus Three Months Ended September 30, 2012

Consolidated revenues for the third quarter of 2013 were \$521.0, a 3% increase from \$507.6 in the same period last year. Revenue related to the acquired Datacom operations contributed approximately 1% of the growth during the current quarter. Revenues from communications clients increased 1% from the third quarter 2012, reflecting volume increases and new programs with several existing clients, partially offset by volume declines with our largest client. Revenues from technology clients increased 24% from the third quarter of 2012, reflecting new programs with existing clients. Revenues from financial services clients decreased 14% from the third quarter of 2012, primarily reflecting program completion with one client. Other revenues, which are comprised of clients outside the Company's three largest industries, increased 8% from the third quarter of 2012. This increase is attributable to volume increases and new programs with existing clients.

Nine Months Ended September 30, 2013 versus Nine Months Ended September 30, 2012

Consolidated revenues for the first nine months of 2013 were \$1,518.8, a 2% increase from \$1,496.2 in the same period last year. Revenue related to the acquired Datacom operations contributed approximately 1% of the growth during the current period. Revenues from the communications clients increased 1% from the first nine months of 2012 reflecting volume increases and new programs with several existing clients, partially offset by volume declines with our largest client. Revenues from the technology clients increased 14% from the first nine months of 2012, primarily due to new programs with existing clients. Revenues from the financial services clients decreased 13% from the first nine months of 2012, primarily reflecting program completion with one client. Other revenues, which are comprised of clients outside of the Company's three largest industries, increased 6% from the first nine months of 2012 due to volume increases and new programs with existing clients.

Three Months Ended September 30, 2013 versus Three Months Ended September 30, 2012

Consolidated total operating costs and expenses for the third quarter of 2013 of \$489.7 increased 5% from \$468.5.

Total operating costs and expenses for the three months ended 2013 include a \$4.4 non-cash pension settlement charge, included within Selling, general and administrative costs. Based upon changes in the funded status of the Cash Balance Plan, the restriction that previously limited retirees to receive only 50% of their asset value through lump sum distributions was lifted. Therefore, in 2013, retirees are eligible to request remaining balances. As we exceeded the threshold of lump sum payments to recognize a settlement charge in the second and third quarters of 2013, an additional settlement charge may be recognized during the fourth quarter of 2013 as additional lump sum payments are made. Third quarter 2013 also includes \$0.4 of asset impairment charges related to the Company's completion of its sale of two facilities.

As a percentage of revenues, the cost of providing services and products sold was 65.5% in the third quarter of 2013 compared to 64.2% in the prior year period, primarily as a result of the timing of certain program ramps. Selling, general and administrative expenses of \$118.4 in the third quarter of 2013 increased \$0.4 from the prior year period. As a percentage of revenues, selling, general, and administrative cost was 22.7% compared to 23.2% in the prior year. The decrease is primarily a result of lower stock-based compensation costs and continued efforts to control costs, partially offset by the \$4.4 pension settlement charge. Research and development costs of \$2.0 decreased \$0.3 from the prior year due to reductions in headcount. Depreciation expense of \$22.2 increased \$2.5 from the prior year primarily due to capital expenditures during the current quarter as we expand our capacity. Amortization expense of \$1.4 remained consistent period over period.

Nine Months Ended September 30, 2013 versus Nine Months Ended September 30, 2012

Consolidated total operating costs and expenses of \$1,420.9 decreased 5% from the first nine months of 2012 costs of \$1,488.6. Operating costs and expenses for the first nine months of 2013 include pension settlement charges totaling \$11.9 and asset impairment charges of \$1.5, both discussed above. Costs previously allocated to the Information Management segment that do not qualify for discontinued operations accounting treatment and reported as costs from continuing operations were \$8.8 in the first nine months of 2012. During the first nine months of 2012, the Company also recognized \$88.6 non-cash impairment charges, consisting of \$46.0 for the impairment of goodwill in the CIT reporting unit, and \$42.6 for the impairment of certain facilities within Corporate classified as held-for-sale. The first nine months of 2012 results also include corporate restructuring charges resulting from the sale of the Information Management business of \$6.4 and pension and other post employment benefit plan curtailment benefit of \$2.7 related to changes in the executive management team following the sale.

Costs of providing services and products sold during the first nine months of 2013 increased 3% to \$986.5 from the first nine months of 2012. As a percentage of revenues, cost of providing services and products sold was 65.0% compared to 64.2% in the prior year period, primarily as a result of the timing of certain program ramps. Selling, general and administrative expenses of \$352.9 in the first nine months of 2013 decreased 1% as compared to \$356.8 in the prior year period. As a percentage of revenues, selling, general, and administrative cost was 23.2% compared to 23.8% in the prior year, reflecting cost reductions previously taken along with continued efforts to control costs, partially offset by the \$11.9 pension settlement charges. Research and development costs of \$6.3 decreased \$2.4 from the prior year due to reductions in headcount. Depreciation expense of \$64.3 increased \$3.8 from the prior year, primarily due to capital expenditures during the current period as we expand our capacity. Amortization expense of \$4.0 decreased \$1.1 due to completion of the amortization of certain definite lived intangible assets.

Table of Contents

Operating Income and Adjusted Operating Income (a non-GAAP measure)

In order to assess the underlying operational performance of the continuing operations of the business and to have a basis to compare underlying results to prior and future periods, we provide the non-GAAP measures, Adjusted Operating Income and Adjusted Operating Margin, in the table below. For the three and nine months ended September 30, 2013, Adjusted Operating Income and Adjusted Operating Margin exclude the following:

The non-cash pension settlement charge discussed above and in Note 5 of the Notes to Consolidated Financial Statements of \$4.4 and \$11.9 for the three and nine months ended September 30, 2013, respectively; and

The net impairment charge related to the adjustment of two facilities held for sale to their fair values less costs to sell discussed above and in Note 13 of the Notes to Consolidated Financial Statements of \$0.4 and \$1.5 for the three and nine months ended September 30, 2013, respectively.

For the three and nine months ended September 30, 2012, Adjusted Operating Income and Adjusted Operating Margin exclude the following:

Certain costs previously allocated to the Information Management business that are now included in continuing operations as discussed above and in more detail in Note 3 of the Notes to Consolidated Financial Statements (\$8.8 for the nine months ended September 30, 2012);

Asset impairment charges of \$88.6 including \$46.0 for the impairment of goodwill of the CIT reporting unit and \$42.6 for the impairment of facilities classified as held for sale as discussed in Note 13 of the Notes to Consolidated Financial Statement;

Pension and other post employment benefit plan curtailment benefit of \$2.7, including \$4.1 of curtailment credits from pension and other post employment benefit plans as discussed in Note 5 of the Notes to Consolidated Financial Statements and \$1.4 of post-retirement benefit costs related to changes in the executive management team; and Corporate restructuring charges resulting from the sale of the Information Management business of \$6.4.

Adjustments for these charges are relevant in evaluating the overall performance of the business. Limitations associated with the use of these non-GAAP measures include that these measures do not present all of the amounts associated with our results as determined in accordance with GAAP. Management compensates for this limitation by using both the non-GAAP measures and the GAAP measures in its evaluation of performance. There are no material purposes for which we use these non-GAAP measures beyond those described above. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

Consolidated operating income was \$97.9 for the first nine months of 2013 compared to operating income of \$7.6 in the prior year period. Excluding the pension and other post-employment benefit plan charges, asset impairment charges, restructuring and Information Management-related costs, consolidated operating income for the first nine months of 2013 was \$111.3 compared to \$108.7 in the same period in the prior year primarily due to higher revenue and controlled costs, slightly offset by the \$4.3 severance charge in the current period.

Three Months Ended September 30, 2013 versus Three Months Ended September 30, 2012

Other income of \$2.5 increased from \$0.8 due to an increase in interest income along with a \$1.0 gain related to the executive deferred compensation plan investments during the third quarter of 2013.

Nine Months Ended September 30, 2013 versus Nine Months Ended September 30, 2012

Other income of \$4.8 increased from \$2.9 primarily due to an increase in interest income for the nine months of 2013. Interest expense of \$8.7 improved from \$10.8 in the prior year reflecting a lower level of debt outstanding throughout the first nine months of 2013 as well as the incremental interest expense related to the Orlando facility in the first nine months of 2012.

Three Months Ended September 30, 2013 versus Three Months Ended September 30, 2012

Our effective tax rate on net income from continuing operations was 8.7% for the three months ended September 30, 2013 compared to an effective tax rate of 18.3% in the same period last year. The lower tax rate for the three months ended September 30, 2013 is primarily due to a shift in the geographic mix of worldwide income and certain discrete items recorded in the third quarter of 2013.

Nine Months Ended September 30, 2013 versus Nine Months Ended September 30, 2012

We recognized income tax expense of \$1.7 on a net loss from continuing operations of \$0.3 for the nine months ended September 30, 2012 compared to an effective tax rate of 14.5% for the nine months ended September 30, 2013. Prior year tax expense was primarily due to a non-deductible goodwill impairment charge recognized in the second quarter of 2012.

Net Income from Continuing Operations; Earnings per Diluted Share from Continuing Operations; Adjusted Net Income From Continuing Operations; and Adjusted Earnings per Diluted Share from Continuing Operations (non-GAAP measures)

We use income from continuing operations, net of tax and earnings per share data excluding the operating charges discussed above and the incremental interest charges related to the Orlando facility discussed above for the three and nine months ended September 30, 2013 and 2012, to assess the underlying operational performance of the continuing operations of the business for the year and to have a basis to compare underlying results to prior and future periods. Adjustments for these items are relevant in evaluating the overall performance of the business. Limitations associated with the use of these non-GAAP measures include that these measures do not include all of the amounts associated with our results as determined in accordance with GAAP. Management compensates for these limitations by using the non-GAAP measures, income from continuing operations, net of tax and diluted earnings per share excluding these items, and the GAAP measures, income from continuing operations, net of tax and diluted earnings per share, in its evaluation of performance. There are no material purposes for which we use these non-GAAP measures beyond those described above. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

Third quarter 2013 results from discontinued operations include an additional gain of \$5.7, net of tax, related to the settlement or adjustment of certain tax positions associated with previously divested businesses. Diluted income from discontinued operations, net of tax, per share for the three months ended September 30, 2013 was \$0.05. Earnings from discontinued operations were \$2.4 in the third quarter 2012. These results reflect \$3.5 of transaction costs incurred in connection with the sale of the Information Management business, net of \$1.1 tax benefit. Diluted loss from discontinued operations, net of tax, per share for the three months ended September 30, 2012 was \$0.02. Including the results of discontinued operations third quarter 2013 net income and diluted earnings per share were \$33.9 and \$0.31, respectively, compared with \$27.9 and \$0.24, respectively, in the third quarter of 2012.

Nine Months Ended September 30, 2013 versus Nine Months Ended September 30, 2012

For the first nine months of 2013 results from discontinued operations include an additional gain of \$2.0, net of tax, related to the settlement or adjustment of certain contingencies and tax positions associated with previously divested

businesses. Diluted income from discontinued operations, net of tax, per share of the nine months ended September 30, 2013 was \$0.02. Income from discontinued operations was \$70.6 in the first nine months of 2012. Discontinued operations include the operating results of the Information Management business during the first nine months of the year, tax benefits associated with changes in uncertain tax positions related to other previously divested businesses and the gain on the sale of the Information Management business, inclusive of transaction costs. Diluted income from discontinued operations, net of tax, per share for the nine months ended September 30, 2012 was \$0.62.

Including the results of discontinued operations net income and diluted earnings per share were \$82.4 and \$0.76, respectively for the first nine months of 2013, compared with \$68.6 and \$0.60, respectively, for the same period in 2012.

EBITDA and Adjusted EBITDA (non-GAAP measures)

Management uses EBITDA and adjusted EBITDA and the GAAP measure, income from continuing operations, net of tax, to monitor and evaluate the underlying performance of the business and believes the presentation of these measures will enhance investors' ability to analyze trends in the business and evaluate our underlying performance relative to other companies in the industry. EBITDA and Adjusted EBITDA should not be considered in isolation or as a substitute for income from continuing operations, net of tax, or other income statement data prepared in accordance with GAAP and our presentation of EBITDA and adjusted EBITDA may not be comparable to similarly-titled measures used by other companies. There are no material purposes for which we use these non-GAAP measures beyond the purposes described above. These non-GAAP measures should be considered supplemental in nature and should not be construed as being more important than comparable GAAP measures.

RESTRUCTURING CHARGES

2013 Restructuring

During the three and nine months ended September 30, 2013, we recorded a severance charge of \$4.3, impacting approximately 800 employees. These actions were initiated to continue the Company's efforts to refine its operating model and reduce costs. The severance charge is expected to be substantially paid in cash by June 30, 2014. The total remaining liability under this severance-related restructuring plan, which is included within Payables and other current liabilities on the Consolidated Balance Sheets was \$3.8 as of September 30, 2013.

2012 Restructuring

During 2012, we recorded restructuring charges of \$11.6, consisting of \$11.4 of severance-related charges and \$0.2 of facility-related charges, as described below. The \$11.4 of severance-related charges impacted approximately 100 professional employees and reflect the change in the Company's executive management team and realignment of Corporate overhead as a result of the sale of the Information Management business. These severance-related charges were fully paid in cash by September 30, 2013, pursuant to the Company's severance policies. As of December 31, 2012, the remaining liability under this severance-related restructuring plan, which was included within Payables and other current liabilities on the Company's Consolidated Balance Sheets was \$5.2.

Savings from Restructuring Plans

The 2013 and 2012 severance actions resulted in cost reductions in excess of \$16 and \$10, respectively, on an annualized basis. The impact of these benefits is spread across our operating expenses, primarily within the selling, general and administrative expense caption of our Consolidated Statements of Income. The severance actions also resulted in cash savings of approximately \$16 and \$10, respectively, on an annualized basis. The impact on liquidity was not material for either plan.

Table of Contents

Facility Restructuring

Our facilities restructuring reserves are equal to the estimated future costs associated with the facilities, net of proceeds from any probable future sublease agreements. We use estimates, based on consultation with our real estate advisers, to determine the proceeds from any future sublease agreements. We continue to evaluate these estimates in assessing the facilities abandonment liability. The remaining liability for previously exited facilities, which is included within Payables and other current liabilities on the Company's Consolidated Balance Sheets was \$0.1 as of September 30, 2013 and \$0.3 as of December 31, 2012.

CLIENT CONCENTRATION

During the first nine months of 2013, our three largest clients accounted for 46.0% of our revenues, compared to 48.4% in the same period of 2012. Our largest client, AT&T, accounted for 20.9% of revenues in the first nine months of 2013 as compared to 23.6% of revenue in the same period in the prior year. Comcast Corporation and DIRECTV, our second and third largest clients, comprised 12.7% and 12.3%, respectively, of revenues in the first nine months of 2013, as compared to 12.4% and 12.4%, respectively, of revenues in the same period in the prior year. Volumes under certain of our long-term arrangements are earned under multiple contracts with these clients and are subject to variation based on, among other things, general economic conditions, client outsourcing trends and seasonal patterns in our clients' businesses.

BUSINESS OUTLOOK

Convergys continues to expect revenue growth and profit improvement in 2013. Convergys expectations for the full year are now:

- Revenue to approximate \$2,045 million, revised from prior guidance to exceed \$2,055 million;
 - Adjusted EBITDA to exceed \$248 million, unchanged from prior guidance;
 - Effective tax rate on adjusted income from continuing operations to approximate 19 percent, lowered from prior guidance to approximate 22 percent;
 - Diluted shares outstanding to approximate 108 million, reduced from prior guidance of 109 million shares;
 - Adjusted Earnings per Diluted Common Share to approximate \$1.10, improving from prior guidance to exceed \$1.05.
- Not included in this guidance is the impact of any future strategic acquisitions or share repurchase activities. Also not included in this guidance are results classified within discontinued operations related to the sale of the Information Management business as well as other impacts from corporate simplification actions initiated in prior years such as non-cash pension settlement charges.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Liquidity and Cash Flows

We believe that we have adequate liquidity from cash and expected future operating cash flows to fund ongoing operations, invest in the business and pay dividends at the discretion of the Board of Directors for the next twelve months.

Cash flows from operating activities generally provide us with a significant source of funding for our investing and financing activities. Cash flows from operating activities totaled \$149.3 in the first nine months of 2013 compared to \$106.2 in the same period last year, which included \$8.1 of cash flows provided by discontinued operations. The increase in the current year was primarily a result of approximately \$15.0 of cash payments made in 2012 to reduce long-term liabilities, and approximately \$25.0 of tax payments made in 2012 related to prior year internal restructurings, partially offset by current period increases in working capital requirements.

Cash flows used in investing activities were \$60.4 during the first nine months of 2013, which included \$43.2 of capital expenditures, \$16.4 used for acquisitions and \$120.5 of purchases of short-term investments, partially offset by \$47.6 of proceeds from the disposition of assets and \$71.8 in proceeds from the maturity of short-term investments.

Cash flows provided by investing activities were \$355.0 during the first nine months of 2012, which included \$433.1

from discontinued operations related to the sale of the Information Management business and \$6.5 in proceeds from the maturity of short-term investments, partially offset by \$65.6 of capital expenditures and \$19.0 of purchases of short-term investments.

Cash flows used in financing activities were \$117.7 during the first nine months of 2013 compared to \$185.7 during the first nine months of 2012. During the first nine months of 2013, we settled in cash the repurchase of 5.8 of the Company's common shares for \$100.2, including \$3.6 of shares repurchased but not settled prior to December 31, 2012, and excluding \$3.5 of shares repurchased in the third quarter that had not settled as of September 30, 2013. We also paid \$17.7 in cash dividends. These outflows were partially offset by \$2.8 received from the exercise of stock options and \$2.2 of excess tax benefits associated with share-

Table of Contents

based payments. During the first nine months of 2012, we repaid \$66.4 on our outstanding borrowings and repurchased 8.3 of the Company's common shares for \$120.3. These outflows were partially offset by \$6.8 we received from exercise of stock options in the first nine months of 2012.

We use free cash flow, a non-GAAP measure, to assess the financial performance of the Company. We define free cash flow as cash flows from operating activities less capital expenditures. A reconciliation of the GAAP measure, net cash provided by operating activities, to the non-GAAP measure, free cash flow, is as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2013	2012	2013	2012
Net cash provided by operating activities under U.S. GAAP	\$76.6	\$54.6	\$149.3	\$106.2
Capital expenditures ⁽¹⁾	(16.9)	(24.8)	(43.2)	(71.8)
Free cash flow (a non-GAAP measure)	\$59.7	\$29.8	\$106.1	\$34.4

⁽¹⁾ Includes \$6.2 of capital expenditures related to the Information Management business for the nine months ended September 30, 2012.

Free cash flow, as defined above, was \$106.1 for the first nine months of 2013, compared to \$34.4 for the same period in 2012. The increase in free cash flow of \$71.7 from the prior year was due to higher cash generated from operating activities and decreased capital expenditures during the first nine months of 2013 as presented in the table above.

We believe that free cash flow is useful to investors because it relates the operating cash flow of the Company to the capital that is spent to continue and improve business operations, such as investment in the Company's existing businesses. Further, free cash flow facilitates management's ability to strengthen the Company's balance sheet, to repay the Company's debt obligations and to repurchase the Company's common shares. Limitations associated with the use of free cash flow include that it does not represent the residual cash flow available for discretionary expenditures as it does not incorporate certain cash payments including payments made on capital lease obligations or cash payments for business acquisitions. Management compensates for these limitations by utilizing the non-GAAP measure, free cash flow, and the GAAP measure, cash flows from operating activities, in its evaluation of performance. There are no material purposes for which we use the non-GAAP measure beyond the purposes described above.

Capital Resources, Off-Balance Sheet Arrangements and Contractual Commitments

At September 30, 2013, total capitalization was \$1,391.7, consisting of \$61.1 of short-term and long-term debt and \$1,330.6 of equity. The total debt-to-capital ratio was 4.4% at September 30, 2013, compared to 4.2% at December 31, 2012.

On March 11, 2011, we entered into a \$300 Four-Year Competitive Advance and Revolving Credit Facility Agreement (the 2011 Credit Facility), replacing our \$400 Five-Year Competitive Advance and Revolving Credit Facility Agreement (the 2006 Credit Facility), which was terminated at that time. We have two borrowing options available under the 2011 Credit Facility: (i) a competitive advance option which will be provided on an uncommitted competitive advance basis through an auction mechanism and (ii) a revolving credit option which will be provided on a committed basis. Under each option, amounts borrowed and repaid may be re-borrowed subject to availability. Borrowings under the 2011 Credit Facility bear interest at one of the rates described in the 2011 Credit Facility. The maturity date of the 2011 Credit Facility is March 11, 2015 except that, upon the satisfaction of certain conditions, we may extend the maturity date by one year twice during the term. We pay an annual facility fee regardless of utilization. At September 30, 2013 the facility was undrawn. We were in compliance with all covenants at September 30, 2013.

In the fourth quarter of 2009, the Company announced an offer to exchange one-thousand twenty dollars in principal amount of its 5.75% Junior Subordinated Convertible Debentures due September 2029 (2029 Convertible Debentures) for each one-thousand dollars in principal amount of its 4.875% Unsecured Senior Notes (4.875% Senior Notes) due December 15, 2009. We issued a total of \$125.0 aggregate principal amount of the 2029 Convertible Debentures in exchange for \$122.5 of the 4.875% Senior Notes. The entire balance of the 2029 Convertible Debentures was outstanding as of September 30, 2013 and December 31, 2012.

During June 2011, the Company extended the terms of an asset securitization facility collateralized by accounts receivable of certain of the Company's subsidiaries, with a purchase limit of \$150.0 expiring in June 2014. The asset

securitization program is conducted through Convergys Funding Inc., a wholly-owned bankruptcy remote subsidiary. The asset securitization facility does not qualify for sale treatment under the authoritative guidance for the accounting for transfers and servicing of financial assets and extinguishments of liabilities. Accordingly, the accounts receivable and related debt obligation will remain on our Consolidated Balance Sheets. At September 30, 2013 and December 31, 2012, the facility was undrawn.

Table of Contents

We repurchased 2.1 and 5.8 of our common shares during the three and nine months ended September 30, 2013 at an average price of \$18.76 and \$17.36 per share for a total of \$39.4 and \$100.0. The timing and terms of any future transactions depend on a number of considerations including market conditions and our liquidity. In February 2013, our Board of Directors approved an increase in remaining authorized share repurchases to \$250.0 in the aggregate. At September 30, 2013, the Company has the authority to repurchase an additional \$152.3 pursuant to current authorizations.

At September 30, 2013, we had outstanding letters of credit of \$38.6 and other bond obligations of \$1.6 related to performance and payment guarantees. We believe that any guarantee obligation that may arise will not be material. We also have purchase commitments with telecommunications providers of \$1.1 for the remainder of 2013.

At September 30, 2013, we had outstanding performance bond obligations of \$30.0 related to performance and payment guarantees for the Company's former HR Management line of business. Subsequent to completion of the sale of the HR Management business, the Company continues to be responsible for these bond obligations. As part of the gain on disposition we recognized a liability equal to the present value of probability weighted cash flows of potential outcomes. Although the buyer is obligated to indemnify us for any and all losses, costs, liabilities and expenses incurred related to these performance bonds, as of September 30, 2013 we maintain a liability of \$1.0 for these obligations. The Company's guarantee for this bond obligation expires in August 2016.

It is reasonably possible that our unrecognized tax benefits of \$51.0 will decrease between approximately \$2 and \$10 in the next twelve months based upon the resolution of audits; however, actual developments in this area could differ from those currently expected.

During 2012 and 2013, the Company's Board of Directors approved, and the Company has paid, the following dividends per common share:

Announcement Date	Record Date	Dividend Amount	Payment Date
May 8, 2012	June 22, 2012	\$0.05	July 6, 2012
July 26, 2012	September 21, 2012	\$0.05	October 5, 2012

July 30, 2013	September 20, 2013	\$0.06	October 4, 2013

On November 6, 2013, the Company announced that its Board of Directors declared a quarterly cash dividend of \$0.06 per common share to be paid on January 10, 2014 to shareholders of record as of December 27, 2013.

The Board expects that future cash dividends will be paid on a quarterly basis. However, any decision to pay future cash dividends will be subject to Board approval, and will depend on the Company's future earnings, cash flow, financial condition, financial covenants and other relevant factors. We intend to continue to use cash dividends as a means of returning capital to shareholders, subject to our periodic determinations that cash dividends are in the best interests of our shareholders.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to a variety of market risks, including the effects of changes in foreign currency exchange rates and interest rates. Market risk is the potential loss arising from adverse changes in market rates and prices. Our risk management strategy includes the use of derivative instruments to reduce the effects on our operating results and cash flows from fluctuations caused by volatility in currency exchange and interest rates. In using derivative financial instruments to hedge exposures to changes in exchange rates and interest rates, we expose ourselves to counterparty credit risk. We manage exposure to counterparty credit risk by entering into derivative financial instruments with highly-rated institutions that can be expected to perform fully under the terms of the agreements and by diversifying the number of financial institutions with which we enter into such agreements.

Interest Rate Risk

At September 30, 2013, all of the Company's debt instruments were fixed rate borrowings with an outstanding amount of \$61.1. We had no variable rate borrowings at September 30, 2013.

Foreign Currency Exchange Rate Risk

We serve many of our U.S.-based clients using contact center capacity in the Philippines, India, Canada and Colombia. Although the contracts with these clients are typically priced in U.S. dollars, a substantial portion of the costs incurred to render

Table of Contents

services under these contracts are denominated in Philippine pesos (PHP), Indian rupees (INR), Canadian dollars (CAD) or Colombian pesos (COP), which represents a foreign exchange exposure. Beginning in 2011, we entered into a client contract priced in Australian dollars (AUD). As of September 30, 2013, we have hedged a portion of our exposure related to the anticipated cash flow requirements denominated in these foreign currencies by entering into forward contracts with several financial institutions to acquire a total of PHP 29,802.0 at a fixed price of \$696.8 at various dates through December 2016, INR 11,663.0 at a fixed price of \$196.5 at various dates through December 2016, CAD 28.3 at a fixed price of \$27.3 at various dates through December 2015 and COP 26,400.0 at a fixed price of \$13.8 at various dates through December 2014, and to sell a total of AUD 33.6 at a fixed price of \$34.2 at various dates through September 2014. The fair value of these derivative instruments as of September 30, 2013 is presented in Note 11 of the Notes to Consolidated Financial Statements. The potential loss in fair value at September 30, 2013 for such contracts resulting from a hypothetical 10% adverse change in all foreign currency exchange rates is approximately \$90.0. This loss would be mitigated by corresponding gains on the underlying exposures.

Other foreign currency exposures arise from transactions denominated in a currency other than the functional currency. We periodically enter into forward exchange contracts that are not designated as hedges. The purpose of these derivative instruments is to protect the Company against foreign currency exposure pertaining to receivables, payables and intercompany transactions that are denominated in currencies different from the functional currencies of the Company or the respective subsidiaries. As of September 30, 2013, the fair value of these derivatives not designated as hedges was \$3.4.

Critical Accounting Policies and Estimates

See “ITEM 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report for the year ended December 31, 2012 on Form 10-K for a discussion of our critical accounting policies and estimates.

There have been no material changes to our critical accounting policies and estimates in 2013.

ITEM 4. CONTROLS AND PROCEDURES

The Company’s Chief Executive Officer and Chief Financial Officer evaluated, together with the Company’s General Counsel, Chief Accounting Officer and other key employees, the effectiveness of design and operation of the Company’s “disclosure controls and procedures” (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Act)) as of the end of the quarter ended September 30, 2013. Based on this evaluation, the Company’s Chief Executive Officer and Chief Financial Officer have concluded that the Company’s disclosure controls and procedures were effective as of the end of the period covered by this report such that the information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to the Company’s management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure, and are effective to ensure that such information is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms.

There were no significant changes in the design or approaches of the Company’s internal control over financial reporting, or any other factors, that occurred during the period covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The information required by Item 1 is included in Note 9 of the Notes to the Consolidated Financial Statements of this Form 10-Q and incorporated by reference herein.

ITEM 1A. RISK FACTORS

See “ITEM 1A. Risk Factors” in our annual report for the year ended December 31, 2012 on Form 10-K for a discussion of our risk factors. There have been no material changes to our risk factors in 2013.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There were no unregistered sales of equity securities during the third quarter of 2013 or from September 30, 2013 through the date of filing of this report. We repurchased 2.1 shares of our common stock for \$39.4 during the three months ended September 30, 2013, as summarized in the following table:

	Shares Repurchased	Average price per share
January 2013	14,000	\$ 16.53
February 2013	1,265,171	16.51
March 2013	847,474	16.85
April 2013	1,487,158	16.40
May 2013	34,309	17.04
June 2013	16,152	18.11
July 2013	4,675	19.12
August 2013	773,386	19.27
September 2013	1,321,223	18.46
Total	5,763,548	\$ 17.36

At September 30, 2013, the Company remained authorized to repurchase up to an incremental \$152.3 of outstanding shares. The timing and terms of any future transactions depend on a number of considerations including market conditions and our liquidity.

ITEM 5. OTHER INFORMATION

On November 4, 2013, following a request by Christine Timmins Barry, the Company’s Senior Vice President of Global Operations, to transition out of her executive officer role to a non-executive officer role with the Company, the Company’s Board of Directors authorized a search for a replacement. Ms. Timmins Barry indicated that she would remain in her current role and retain her responsibilities through a transition period to assist the Company with an orderly succession process.
