FOR IMMEDIATE RELEASE

TRANSGLOBE ENERGY CORPORATION ANNOUNCES
NORMAL COURSE ISSUER BID

Thursday, December 5, 2002 Calgary, Alberta - TransGlobe Energy Corporation (TransGlobe or the Company) (TSX symbol "TGL"; OTC-BB symbol "TGLEF") is pleased to announce it has received approval from The Toronto Stock Exchange to make a normal course issuer bid for up to 4,855,435 common shares of the Company (being 10% of the public float as defined by The Toronto Stock Exchange) over a 12 month period; but not more than 1,029,896 common shares (2% of the issued and outstanding common shares) in any 30 day period, at the market price from time to time.

The bid may commence on December 9, 2002 and will continue until the earlier of December 8, 2003 and the date by which the Company has acquired the 4,855,435 common shares which may be purchased

under the bid. Purchases will be made through the facilities of The Toronto Stock Exchange only, in accordance with the requirements of The Toronto Stock Exchange, and the price at which the Company will purchase its common shares will be the market price of the shares at the time of acquisition. The Company has appointed Raymond James Ltd. as its broker to conduct normal course issuer bid transactions. Common shares purchased by the Company will be returned to the Company's treasury for cancellation. The Company has been advised that none of the insiders of the Company, nor their associates, has a present intention of selling common shares of the Company during the course of the bid.

Our board of directors believes that the current market price of our shares does not fully reflect the value of our business, our underlying assets or our future prospects, said Ross Clarkson, Chief Executive Officer of the Company. Accordingly, the board of directors believes in having the Company purchase its own shares for cancellation is an appropriate strategy for increasing long term shareholder value.
