Agreement to Fund

On November 26, 2004 we entered into a three-year “Agreement to Fund” our real estate projects with GDBA Investments, LLLP (“GDBA”), our largest shareholder. We are currently dependent on this relationship and would be unable to fund any projects if we lose our current funding commitment from GDBA. In addition, our senior credit facility with Vectra Bank Colorado, which is renewable annually, has been guaranteed by GDBA Investments and its principals. Given the early stage of our company, it is unlikely that we could renew our senior credit facility without the continuation of these guarantees.

We utilized capital from GDBA to fund our project growth through the second quarter of 2006. The amount we borrowed throughout the quarter fluctuated as we borrowed to fund new projects and repaid principal and interest on properties we sold. As of June 30, 2006 we owed GDBA \$9,416,961 in principal and accrued interest of \$875,160.

In the first six months of 2006, we received \$2,805,451 in loans for our construction projects under our loan agreement with GDBA. We repaid a total of \$1,078,811 during this period to this shareholder. In the first six months of 2005, we received \$8,366,081 in loans for our construction projects under our loan agreement with GDBA. We repaid a total of \$1,215,042 during this period to this shareholder.

(4) Notes Receivable and Development Deposits

During the course of acquiring properties for development, Across America, on behalf of its subsidiaries and development partners, typically is required to provide capital for earnest money deposits that may or may not be refundable in addition to investing in entitlements for properties before the actual land purchase. Because these activities represent a risk of our capital in the event the land purchase is not completed, it is our policy to require our development partners to personally sign promissory notes to Across America Real Estate Corp. for all proceeds expended before land is purchased. Once the land has been purchased and can collateralize the capital invested by us, the promissory note is cancelled. AARD had \$560,478 in earnest money deposits outstanding at June 30, 2006. These deposits were held by affiliates and all were collateralized by promissory notes from our development partners.

(5) Property and Equipment

The Company's property and equipment consisted of the following at June 30, 2006:

Equipment	\$	20,443

(10) Senior Credit Facility

On April 25, 2005, we received a \$10,000,000 financing commitment under a Credit Agreement from Vectra Bank of Colorado (“Vectra Bank”). This commitment permits us to fund construction notes for built-to-suit real estate projects for national and regional chain retailers. The financing is facilitated through a series of promissory notes. Each note is issued for individual projects under the facility and must be underwritten and approved by Vectra Bank and has a term of 12 months with one (1) allowable extension not to exceed 6 months subject to approval. Interest is funded from an interest reserve established with each construction loan. Each note under the facility is for an amount, as determined by Vectra Bank, not to exceed the lesser of 75% of the appraised value of the real property under the approved appraisal for the project or 75% of the project costs. Principal on each note is due at maturity, with no prepayment penalty. Vectra Bank retains a First Deed of Trust on each property financed and the facility has the personal guarantees of GDBA and its owners.

On August 3, 2006 we executed a First Amendment to our Credit Agreement with Vectra Bank extending the expiration date of the facility to July 21, 2007, which is annually renewable. The terms and conditions of each construction note issued under the facility remain unchanged, and any construction issued prior to the expiration date of the Credit Agreement, will survive the expiration of the facility and will be subject to its individual term as outlined in the Credit Agreement.

As of June 30, 2006, we had one outstanding note under this facility with a maximum principal amount of \$1,820,000 and a maturity date of March 6, 2007. As of June 30, 2006, this note had an outstanding principal amount of \$1,711,301 and total accrued interest of \$85,020.

On August 23, 2005, Riverdale Carwash Lot3A, LLC entered into a loan agreement with Vectra Bank in the amount of \$1,200,000. The note, which is not part of the \$10,000,000 construction facility with Vectra Bank, is being amortized monthly over a twenty-year period and has an eighteen month maturity. The note is due to mature on

February 23, 2007 and as of June 30, 2006, this note had an outstanding principal balance of \$1,172,169.

(11) Variable Compensation Plan

The variable compensation plan is designed to reward the senior management of AARD based upon the growth and profitability of the Company. The variable compensation pool is calculated by taking income after all expenses but before taxes. The income before taxes is then differentiated into two components; a base component and a growth component.

The base component is an amount equal to the income before taxes and variable compensation for the prior year. The growth component is calculated by subtracting the base component from the current year's income before taxes and variable compensation. The variable compensation pool is calculated by multiplying the base component by 8% and the growth component by 15% and adding the two figures together.

(12) Capitalized Interest and Interest Expense

For the period ended June 30, 2006 the Company has recognized \$142,568 interest expense that is not related to capitalized projects and \$120,817 additional capitalized interest expense that is included in either Construction in Progress or Property Held for Sale on the balance sheet June 30, 2006, with the exception of projects that were sold during the year, which would have included the capitalized interest amount in our Cost of Sales.

(13) Letters of Intent

On December 21, 2005 we announced that we have entered into letters of intent with two entities to provide financing for our continuing operations. One of the entities is GDBA, who would convert approximately \$3,000,000 of current debt into Convertible Preferred Stock. As a result, under each letter of intent, each entity would hold a total investment of \$10,000,000 in two instruments, consisting of Senior Subordinated Notes, for a total of \$7,000,000, and Convertible Preferred Stock, for a total of \$3,000,000. The entity which is not GDBA, or its designees, would also be allowed to purchase an additional amount of Convertible Preferred stock up to an additional \$300,000. The letters of intent are not binding upon the parties and remain subject to the execution of mutually acceptable contracts. As of August 7, 2006, no such contracts have been executed on either instrument and each remain outstanding only as letters of intent.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS AND PLAN OF OPERATION

The following discussion of our financial condition and results of operations should be read in conjunction with, and is qualified in its entirety by, the consolidated financial statements and notes thereto included in, Item 1 in this Quarterly Report on Form 10-QSB. This item contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from those indicated in such forward-looking statements.

Forward-Looking Statements

This Quarterly Report on Form 10-QSB and the documents incorporated herein by reference contain forward-looking statements that have been made pursuant to the provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on current expectations, estimates, and projections about our industry, management beliefs, and certain assumptions made by our management. Words such as "anticipates", "expects", "intends", "plans", "believes", "seeks", "estimates", variations of such words, and similar expressions are intended to identify such forward-looking statements. These statements are not guarantees of future performance and are subject to certain risks, uncertainties, and assumptions that are difficult to predict; therefore, actual results may differ materially from those expressed or forecasted in any such forward-looking statements. Unless required by law, we undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events, or otherwise. However, readers should carefully review the risk factors set forth herein and in other reports and documents that we file from time to time with the Securities and Exchange Commission, particularly the Report on Form 10-SB, and future Annual Reports on Form 10-KSB and any Current Reports on Form 8-K.

Risk Factors

You should carefully consider the risks and uncertainties described below; and all of the other information included in this document. Any of the following risks could materially adversely affect our business, financial condition or operating results and could negatively impact the value of your investment.

WHILE WE HAVE GENERATED A MODEST PROFIT IN OUR LAST TWO FISCAL YEARS, WE WERE UNPROFITABLE IN THE MOST RECENT FISCAL QUARTER. THERE IS NO GUARANTEE THAT WE WILL CONTINUE TO BE PROFITABLE.

Our revenues for the fiscal year ended December 31, 2005 were \$7,951,962. We had net income of \$77,666 for the fiscal year ended December 31, 2005. Our revenues for the fiscal year ended December 31, 2004 were \$1,787,922. We had net income of \$25,686 for the fiscal year ended December 31, 2004. However, for the six months ended June 30, 2006, we had an operating loss of \$74,351, which included an operating profit of \$130,765 for the three months ended March 31, 2006 and an operating loss of \$204,722 for the three months ended June 30, 2006. Although we have had a modest profit for the past two fiscal years, we were unprofitable in our most recent fiscal quarter. We cannot say whether we will be able to achieve sustained profitability. We have only completed several transactions, so it continues to be difficult for us to accurately forecast our quarterly and annual revenue. However, we use our forecasted revenue to establish our expense budget. Most of our expenses are fixed in the short term or incurred in advance of anticipated revenue. As a result, we may not be able to decrease our expenses in a timely manner to offset any revenue shortfall. We attempt to keep revenues in line with expenses but cannot guarantee that we will be able to do so.

WE WILL NEED ADDITIONAL FINANCING IN THE FUTURE BUT CANNOT GUARANTEE THAT IT WILL BE AVAILABLE TO US.

In order to expand our business, we will continue to need additional capital. To date, we have been successful in obtaining capital for our projects, but we cannot guarantee that additional capital will be available at all or under sufficient terms and conditions for us to utilize it. Because we have an ongoing need for capital, we may experience a lack of liquidity in our future operations. We expect that we will need additional financing of some type, which we do not now possess, to fully develop our operations. We expect to rely principally upon our ability to raise additional financing, the success of which cannot be guaranteed. To the extent that we experience a substantial lack of liquidity, our development in accordance with our proposed plan may be delayed or indefinitely postponed, which would have a materially adverse impact on our operations and the investors' investment.

AS A COMPANY WITH LIMITED OPERATING HISTORY, WE ARE INHERENTLY A RISKY INVESTMENT. OUR OPERATIONS ARE SUBJECT TO OUR ABILITY TO FINANCE REAL ESTATE PROJECTS.

Because we are a company with a limited history, our operations, which consist of real estate financing of built-to-suit projects for specific national retailers, must be considered an extremely risky business, subject to numerous risks. Our operations will depend, among other things, upon our ability to finance real estate projects and for those projects to be sold. Further, there is the possibility that our proposed operations will not generate income sufficient to meet operating expenses or will generate income and capital appreciation, if any, at rates lower than those anticipated or necessary to sustain the investment. Our operations may be affected by many factors, some of which are beyond our control. Any of these problems, or a combination thereof, could have a materially adverse effect on our viability as an entity.

WE HAVE A HEAVY RELIANCE ON OUR CURRENT FUNDING COMMITMENT WITH OUR LARGEST SHAREHOLDER

We are currently dependant on our relationship with GDBA Investments, LLLP, ("GDBA"), our largest shareholder, through its Agreement to Fund. We would be unable to fund any projects if we lose our current funding commitment from GDBA. In addition, our senior credit facility with Vectra Bank Colorado, which is renewable annually, has been guaranteed by GDBA Investments and its principals. Given the early stage of our company, it is unlikely that we could renew our senior credit facility without the continuation of these guarantees.

WE DO NOT HAVE A LONG HISTORY OF BEING ABLE TO SELL PROPERTIES AT A PROFIT

We have only been in business since 2003. We do not have a significant track record and may be unable to sell properties upon completion. We may be forced to sell properties at a loss. Furthermore, in order to sell properties for a profit, we may be forced to hold properties for longer periods that we plan, which may require the need for additional financing sources. Any of these conditions would likely result in reduced operating profits and could likely strain current funding agreements.

THE MANNER IN WHICH WE FINANCE OUR PROJECTS CREATES THE POSSIBILITY OF A CONFLICT OF INTEREST.

We fund our projects with construction financing obtained through the efforts of our management and largest shareholder, GDBA. This arrangement could create a conflict of interest with respect to such financings. However, there may be an inherent conflict of interest in the arrangement until such time as we might seek such financings on a competitive basis.

INTENSE COMPETITION IN OUR MARKET COULD PREVENT US FROM DEVELOPING REVENUE AND PREVENT US FROM ACHIEVING ANNUAL PROFITABILITY.

We provide a defined service to finance real estate projects. The barriers to entry are not significant. Our service could be rendered noncompetitive or obsolete. Competition from larger and more established companies is a significant threat and expected to increase. Most of the companies with which we compete and expect to compete have far greater capital resources, and many of them have substantially greater experience in real estate development. Our ability to compete effectively may be adversely affected by the ability of these competitors to devote greater resources than we can.

OUR SUCCESS WILL BE DEPENDENT UPON OUR MANAGEMENT'S EFFORTS.

Our success will be dependent upon the decision making of our directors and executive officers. These individuals intend to commit as much time as necessary to our business, but this commitment is no assurance of success. The loss of any or all of these individuals, particularly Ms. Ann L. Schmitt, our President and CEO, could have a material, adverse impact on our operations. We have no written employment agreements with any officers and directors, including Ms Schmitt. We have not obtained key man life insurance on the lives of any of these individuals.

OUR STOCK PRICE MAY BE VOLATILE, AND YOU MAY NOT BE ABLE TO RESELL YOUR SHARES AT OR ABOVE THE PUBLIC SALE PRICE.

There has been, and continues to be, a limited public market for our common stock. Our common stock trades on the NASD Bulletin Board. However, an active trading market for our shares has not, and may never develop or be sustained. If you purchase shares of common stock, you may not be able to resell those shares at or above the initial price you paid. The market price of our common stock may fluctuate significantly in response to numerous factors, some of which are beyond our control, including the following:

- * actual or anticipated fluctuations in our operating results;
- * changes in financial estimates by securities analysts or our failure to perform in line with such estimates;
- * changes in market valuations of other real estate oriented companies, particularly those that market services such as ours;
- * announcements by us or our competitors of significant innovations, acquisitions, strategic partnerships, joint ventures or capital commitments;
- * introduction of technologies or product enhancements that reduce the need for our services;

- * the loss of one or more key customers; and
- * departures of key personnel.

Further, we cannot assure that an investor will be able to liquidate his investment without considerable delay, if at all. The factors which we have discussed in this document may have a significant impact on the market price of our common stock. It is also possible that the relatively low price of our common stock may keep many brokerage firms from engaging in transactions in our common stock.

As restrictions on resale end, the market price of our stock could drop significantly if the holders of restricted shares sell them or are perceived by the market as intending to sell them.

BUYING A LOW-PRICED PENNY STOCK SUCH AS OURS IS RISKY AND SPECULATIVE.

Our shares are defined as a penny stock under the Securities and Exchange Act of 1934, and rules of the Commission. The Exchange Act and such penny stock rules generally impose additional sales practice and disclosure requirements on broker-dealers who sell our securities to persons other than certain accredited investors who are, generally, institutions with assets in excess of \$5,000,000 or individuals with net worth in excess of \$1,000,000 or annual income exceeding \$200,000, or \$300,000 jointly with spouse, or in transactions not recommended by the broker-dealer. For transactions covered by the penny stock rules, a broker-dealer must make a suitability determination for each purchaser and receive the purchaser's written agreement prior to the sale. In addition, the broker-dealer must make certain mandated disclosures in penny stock transactions, including the actual sale or purchase price and actual bid and offer quotations, the compensation to be received by the broker-dealer and certain associated persons, and deliver certain disclosures required by the SEC. Consequently, the penny stock rules may affect the ability of broker-dealers to make a market in or trade our common stock and may also affect your ability to sell any of our shares you may own in the public markets.

WE DO NOT EXPECT TO PAY DIVIDENDS ON COMMON STOCK

We have not paid any cash dividends with respect to our common stock, and it is unlikely that we will pay any dividends on our common stock in the foreseeable future. Earnings, if any, that we may realize will be retained in the business for further development and expansion.

Overview and History

Across America Real Estate Corp. was incorporated under the laws of the State of Colorado on April 22, 2003.

In 2003, we completed a registered offering of our common shares under the provisions of the Colorado securities laws and under an exemption from the federal securities laws. We raised a total of \$34,325 in this offering.

Our principal business address is 1660 17th Street, Suite 450, Denver, Colorado 80202. We are in the business of financing and developing build-to-suit real estate projects for specific retailers who sign long-term leases for use of the property. We create each project such that it will generate income from the placement of the construction loan, rental income during the period in which the property is held, and capital appreciation upon sale of the facility. Our affiliates, subsidiaries and management develop the construction and permanent financing for our benefit.

We have not been subject to any bankruptcy, receivership or similar proceeding.

Results of Operations

The following discussion involves our results of operations for the quarters ending June 30, 2006 and June 30, 2005. Our revenues for the quarter ended June 30, 2006 were \$143,917 compared to revenues for the quarter ended June 30, 2005 of \$42,651. Revenues for both quarters were comprised entirely of rental income on completed properties available for sale. Our revenues for the six months ended June 30, 2006 were \$2,018,995, of which \$1,723,000 represented the sale of a Checker Auto Parts store from our TSD CSK Firestone, LLC on March 24, 2006, \$268,995 was derived from rental income and \$27,000 was from management fees. Our revenues for the six months ended June 30, 2005 were \$42,651 and were derived entirely from rental income.

We recognize Cost of Sales on projects during the period in which they are sold. Because we sold no projects during the quarters ended June 30, 2006 or June 30, 2005, we had no Cost of Sales during those periods. Cost of Sales for the six months ended June 30, 2006 were \$1,462,852 which was entirely associated with the cost of our Checker Auto Parts store in Firestone, Colorado.

Gross margins on the sale of this project were approximately 15.1%, which we believe is on the lower end of our anticipated normal range of gross margins for projects going forward. We had no Cost of Sales in the six months ended June 30, 2005.

Selling, general and administrative costs were \$348,639 for the quarter ended June 30, 2006, compared to \$165,368 for the quarter ended June 30, 2005. Selling, general and administrative costs were \$630,494 for the six months ended June 20, 2006 compared to \$245,750 for the six months ended June 30, 2005. These year over year increases were attributable to the substantial increase in staff over the past year in addition to increased sales and marketing activity to generate additional projects. We anticipate these costs will continue to increase as we continue to grow our business activities going forward.

We had a net loss of \$213,312 for the three months ended June 30, 2006 compared to a net loss of \$156,995 for the three months ended June 30, 2005. We had a net loss of \$257,329 for the six months ended June 30, 2006 compared to a net loss of \$243,648 for the six months ended June 30, 2005. The increased losses in each year over year period reflect higher revenues, which have been offset by increased operating costs. Much of the increase in operating costs can be attributed to the increased number of projects currently under development. Management believes that these projects will produce enough revenues during the current year to absorb these additional costs.

Our balance sheet on June 30, 2006 compared to June 30, 2005 reflects our increase in project activity year over year. Both assets and liabilities increased substantially and proportionally with our additional investments in projects and our required borrowing activity to finance them.

Liquidity and Capital Resources

Our cash balance on June 30, 2006 was \$264,873, which included \$116,736 in operating cash and \$148,137 of restricted capital that was designated for specific projects and could not be used for our operations. This compares to a cash balance of \$714,986 on June 30, 2005, which included \$164,634 in operating cash and \$550,352 of restricted capital that was designated for specific projects and could not be used for our operations. We generate operating cash from the sale of properties. We continue to be dependent on our ability to sell our projects on a timely basis in order to generate capital for our operations.

We decreased our net cash used in operating activities and net cash provided by financing activities substantially for the six months ended June 30, 2006 compared to the six months ended June 30, 2005. These changes are largely due to a fewer land purchases and less construction activity when comparing the quarters year over year. Management believes that this decrease is largely due to timing issues for the quarter and is not generally representative of the activity we anticipate for the remainder of the current fiscal year.

Management continues to assess the Company's capital resources in relation to its ability to fund continued operations on an ongoing basis. As such, management may seek to access the capital markets to raise additional capital through the issuance of additional equity, debt or a combination of both in order to fund the operations and continued growth of the Company.

In December, 2005, we entered into letters of intent with two entities to provide financing for our continuing operations. Under each letter of intent, each entity would invest a total of Ten Million Dollars (\$10,000,000) in two instruments, consisting of Senior Subordinated Notes, for a total of Seven Million Dollars (\$7,000,000), and Convertible Preferred Stock, for a total of Three Million Dollars (\$3,000,000). One of the entities, or its designees, would also be allowed to purchase an additional amount of Convertible Preferred Stock up to an additional Three Hundred Thousand Dollars (\$300,000). These letters of intent are not binding upon the parties and remain subject to the execution of mutually acceptable contracts. To date, we have not finalized either letter of intent. Otherwise, at the present time, we have no definitive plans to raise any additional capital.

Recently Issued Accounting Pronouncements

In December 2004, the Financial Accounting Standards Board issued FASB Statement No. 123R, Share Based Payment, which requires all companies to treat the fair value of stock options granted to employees as an expense. As a result of this standard, effective for periods beginning after January 1, 2006, we and other companies are required to record a compensation expense equal to the fair value of each stock option granted. We are currently assessing our valuation options allowed in this standard. This change in accounting standards reduces the attractiveness of granting stock options because of the additional expense associated with these grants, which would negatively impact our results of operations. And while we do not currently have an employee stock option plan, stock options are an important employee recruitment and retention tool, and we may not be able to attract and retain key personnel without such a program. Accordingly, even though we have not quantified the dollar amount of this standard at this time, the result would have a negative impact on our earnings starting with the accounting period beginning January 1, 2006 should we pursue any form of stock option plan. We do not expect the adoption of any recently issued accounting pronouncements to have a significant impact on our net results of operations, financial position, or cash flows.

Seasonality

Our revenues are not impacted by seasonal demands for our products or services.

Critical Accounting Policies

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires us to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates and assumptions affect the reported amounts of revenues and expenses during the reporting period. On an ongoing basis, we evaluate estimates and assumptions based upon historical experience and various other factors and circumstances. We believe our estimates and assumptions are reasonable in the circumstances; however, actual results may differ from these estimates under different future conditions.

We believe that the estimates and assumptions that are most important to the portrayal of our financial condition and results of operations, in that they require subjective or complex judgments, form the basis for the accounting policies deemed to be most critical to us. These relate to bad debts, impairment of intangible assets and long lived assets, contractual adjustments to revenue, and contingencies and litigation. We believe estimates and assumptions related to these critical accounting policies are appropriate under the circumstances; however, should future events or occurrences result in unanticipated consequences, there could be a material impact on our future financial conditions or results of operations.

ITEM 3. CONTROLS AND PROCEDURES

As of the end of the period covered by this report, based on an evaluation of our disclosure controls and procedures (as defined in Rules 13a -15(e) and 15(d)-15(e) under the Exchange Act), each our Chief Executive Officer and the Chief Financial Officer has concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the applicable time periods specified by the SEC's rules and forms.

There were no changes in our internal controls over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
