DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

Dick's Sporting Goods, Inc. (together with its subsidiaries, referred to as "the Company", "we", "us" and "our" unless specified otherwise) is a leading omni-channel sporting goods retailer offering an extensive assortment of authentic, high-quality sports equipment, apparel, footwear and accessories through a blend of dedicated associates, in-store services and unique specialty shop-in-shops. The Company also owns and operates Golf Galaxy, Field & Stream and other specialty concept stores. When used in this Quarterly Report on Form 10-Q, unless the context otherwise requires or otherwise specifies, any reference to "year" is to the Company's fiscal year.

The accompanying unaudited consolidated financial statements have been prepared in accordance with the requirements for Quarterly Reports on Form 10-Q and do not include all the disclosures normally required in annual consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The interim consolidated financial statements are unaudited and have been prepared on the same basis as the annual audited consolidated financial statements. In the opinion of management, such unaudited consolidated financial statements include all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of the interim financial information. This unaudited interim financial information should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended January 31, 2015 as filed with the Securities and Exchange Commission on March 27, 2015. Operating results for the 13 and 39 weeks ended October 31, 2015 are not necessarily indicative of the results that may be expected for the fiscal year ending January 30, 2016 or any other period.

Recently Issued Accounting Pronouncements

Deferred Taxes

In November 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-17, "Balance Sheet Classification of Deferred Taxes." This update requires an entity to classify deferred tax liabilities and assets as noncurrent within a classified statement of financial position. ASU 2015-17 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2016. This update may be applied either prospectively to all deferred tax liabilities and assets or retrospectively to all periods presented. Early application is permitted as of the beginning of the interim or annual reporting period. The Company does not expect that the adoption of this guidance will have a significant impact on the Company's Consolidated Financial Statements.

Measurement of Inventory

In July 2015, the FASB issued ASU 2015-11, "Simplifying the Measurement of Inventory." This update requires an entity that determines the cost of inventory by methods other than last-in, first-out (LIFO) and the retail inventory method (RIM) to measure inventory at the lower of cost and net realizable value. ASU 2015-11 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2016. Prospective application is required. Early application is permitted as of the beginning of the interim or annual reporting period. The Company does not expect that the adoption of this guidance will have a significant impact on the Company's Consolidated Financial Statements.

Contracts with Customers

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers." This update requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Additionally, the update (1) specifies the accounting for some costs to obtain or fulfill a contract with a customer and (2) expands disclosure requirements related to revenue and cash flows arising from contracts with customers. The update permits the use of either the retrospective or cumulative effect transition method. In August 2015, the FASB subsequently issued ASU 2015-14, "Revenue from Contracts with Customers - Deferral of the Effective Date," which approved a one year deferral of ASU 2014-09 for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. Early application is permitted as of the original effective date for annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. The Company is currently evaluating the impact of the adoption of ASU 2014-09 and ASU 2015-14 on the Company's Consolidated Financial Statements.

2. Store Closings

The calculation of accrued store closing and relocation reserves primarily includes future minimum lease payments, maintenance costs and taxes from the date of closure or relocation to the end of the remaining lease term, net of contractual or estimated sublease income. The liability is discounted using a credit-adjusted risk-free rate of interest. The assumptions used in the calculation of the accrued store closing and relocation reserves are evaluated each quarter.

The following table summarizes the activity in fiscal 2015 and 2014 (in thousands):

	39 Weeks Ended	
	October 31, 2015	November 1, 2014
Accrued store closing and relocation reserves, beginning of period	\$12,785	\$17,102
Expense charged to earnings	3,451	2,119
Cash payments	(3,427)	(5,357)
Interest accretion and other changes in assumptions	(115)	(81)
Accrued store closing and relocation reserves, end of period	12,694	13,783
Less: current portion of accrued store closing and relocation reserves	(4,577)	(4,267)
Long-term portion of accrued store closing and relocation reserves	\$8,117	\$9,516

The current portion of accrued store closing and relocation reserves is included within accrued expenses and the long-term portion is included within long-term deferred revenue and other liabilities on the unaudited Consolidated Balance Sheets. The related expense is recorded within selling, general and administrative expenses on the unaudited Consolidated Statements of Income.

3. Earnings Per Common Share

Basic earnings per common share is computed based on the weighted average number of shares of common stock outstanding during the period. Diluted earnings per common share is computed based on the weighted average number of shares of common stock outstanding, plus the effect of dilutive potential common shares outstanding during the period, using the treasury stock method. Dilutive potential common shares are stock-based awards, which include outstanding stock options, restricted stock and warrants.

The computations for basic and diluted earnings per common share are as follows (in thousands, except per share data):

	13 Weeks Ended		39 Weeks Ended	
	October 31, 2015	November 1, 2014	October 31, 2015	November 1, 2014

4. Fair Value Measurements

Accounting Standard Codification ("ASC") 820, "Fair Value Measurement and Disclosures," outlines a valuation framework and creates a fair value hierarchy for assets and liabilities as follows:

Level 1: Observable inputs such as quoted prices in active markets;

Level 2: Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3: Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

Assets measured at fair value on a recurring basis as of October 31, 2015 and January 31, 2015 are set forth in the table below (in thousands):

Description	Level 1	Level 2	Level 3
As of October 31, 2015			
Assets:			
Deferred compensation plan assets held in trust ⁽¹⁾	\$54,802	\$—	\$—
Total assets	\$54,802	\$—	\$—
As of January 31, 2015			
Assets:			
Deferred compensation plan assets held in trust ⁽¹⁾	\$52,193	\$—	\$—
Total assets	\$52,193	\$—	\$—

⁽¹⁾ Consists of investments in various mutual funds made by eligible individuals as part of the Company's deferred compensation plan.

The fair value of cash and cash equivalents, accounts receivable, accounts payable, revolving credit borrowings and certain other liabilities approximated book value due to the short-term nature of these instruments at both October 31, 2015 and January 31, 2015.

The Company uses quoted prices in active markets to determine the fair value of the aforementioned assets determined to be Level 1 instruments. The Company's policy for recognition of transfers between levels of the fair value hierarchy is to recognize any transfer at the end of the fiscal quarter in which the determination to transfer was made. The Company did not transfer any assets or liabilities among the levels within the fair value hierarchy during the 39 weeks ended October 31, 2015 or the fiscal year ended January 31, 2015.

5. Debt

Revolving Credit Agreement - On August 12, 2015, the Company entered into a five-year senior secured revolving credit agreement (the "Credit Agreement") that amended and restated the Company's then existing credit facility. The Credit Agreement provides for a \$1 billion revolving credit facility, including up to \$150 million in the form of letters of credit and allows the Company, subject to the satisfaction of certain conditions, to request an increase of up to \$250 million.

The Credit Agreement matures on August 12, 2020. It is secured by a first priority security interest in certain property and assets, including receivables, inventory, deposit accounts, securities accounts and other personal property of the Company and is guaranteed by the Company's domestic subsidiaries.

The interest rates per annum applicable to loans under the Credit Agreement are, at the Company's option, equal to a base rate or an adjusted LIBOR rate plus, in each case, an applicable margin percentage. The applicable margin percentage for base rate loans is 0.125% to 0.375% and for adjusted LIBOR rate loans is 1.125% to 1.375%, depending on the borrowing availability of the Company.

Table of
Contents

DICK'S SPORTING GOODS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The Credit Agreement contains certain covenants that limit the ability of the Company to, among other things: incur or guarantee additional indebtedness; pay distributions on, redeem or repurchase capital stock or redeem or repurchase subordinated debt; make certain investments; sell assets; or consolidate, merge or transfer all or substantially all of the Company's assets. In addition, the Credit Agreement contains a covenant that requires the Company to maintain a minimum adjusted availability of 7.5% of its borrowing base.

6. Subsequent Event

Dividend - On November 12, 2015, the Company's Board of Directors authorized and declared a quarterly cash dividend in the amount of \$0.1375 per share of common stock and Class B common stock payable on December 31, 2015 to stockholders of record as of the close of business on December 11, 2015.

Due to the seasonal nature of our business, interim results are not necessarily indicative of results for any other period within, or the entire fiscal year. Our revenue and earnings are typically greater during our fiscal fourth quarter, which includes the holiday selling season.

The primary factors that have historically influenced the Company's profitability and success have been the growth in its number of stores and selling square footage, the integration of eCommerce with its brick and mortar stores, positive consolidated same store sales, which include the Company's eCommerce business, and its strong gross profit margins. For example, in the last five years, the Company has grown from 437 Dick's Sporting Goods stores as of October 30, 2010 to 645 Dick's Sporting Goods stores as of October 31, 2015. The Company's eCommerce sales penetration to total net sales has increased from 2.2% to 7.9% for the year-to-date period ended October 30, 2010 and October 31, 2015, respectively.

Over the past three years, the Company has innovated its eCommerce sites with enhancements in the customer experience, new releases of its mobile and tablet sites, and development of capabilities that integrate the Company's online presence with its brick and mortar stores, including ship-from-store; buy-online, pick-up in-store; return-to-store and multi-faceted marketing campaigns that are consistent across the stores and eCommerce websites. On average, approximately 80% of the Company's eCommerce sales are generated within brick and mortar store trade areas.

The Company's store network and the integration of eCommerce remain fundamental to the strength of its omni-channel platform, and it continues to expand its presence through the opening of new stores. The Company believes it has the potential to reach approximately 1,100 Dick's Sporting Goods locations, including smaller market locations across the United States. The Company believes that growing its store network and eCommerce business simultaneously will enable it to profitably grow the business by delivering an omni-channel shopping experience for its customers.

The Company's senior management focuses on certain key indicators to monitor the Company's performance including:

Consolidated same store sales performance – Same store sales provide a measure of sales growth for stores open at least one year over the comparable prior year period and sales completed on our eCommerce websites. A store is included in the same store sales calculation in the same fiscal period that it commences its 14th full month of operations. Stores that were closed or relocated during the applicable period have been excluded from same store sales. Each relocated store is returned to the same store sales base in the fiscal period that it commences its 14th full month of operations at that new location. Our management considers same store sales to be an important indicator of our current performance. Same store sales results are important to leverage our costs, which include occupancy costs, store payroll and other store expenses. Same store sales also have a direct impact on our total net sales, cash and working capital. See further discussion of our same store sales in the "Results of Operations and Other Selected Data" section herein.

Operating cash flow – Cash flow generation supports the general operating needs of the Company and funds capital expenditures related to its omni-channel platform, distribution and administrative facilities, costs associated with continued improvement of information technology tools, costs associated with potential strategic acquisitions or investments that may arise from time to time and stockholder return initiatives, including cash dividends and share repurchases. The Company typically generates significant positive operating cash flows and proportionately higher net income levels in the fiscal fourth quarter in connection with the holiday selling season. See further discussion of the Company's cash flows in the "Liquidity and Capital Resources and Changes in Financial Condition" section herein.

Quality of merchandise offerings – To monitor and maintain acceptance of its merchandise offerings, the Company monitors sell-throughs, inventory turns, gross margins and markdown rates on a department and style level. This analysis helps the Company manage inventory levels to reduce cash flow requirements and deliver optimal gross margins by improving merchandise flow and establishing appropriate price points to minimize markdowns.

Store productivity – To assess store-level performance, the Company monitors various indicators, including new store productivity, sales per square foot, store operating contribution margin and store cash flow.

CRITICAL ACCOUNTING POLICIES

As discussed in Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" of the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2015, the Company considers its policies on inventory valuation, vendor allowances, goodwill and intangible assets, impairment of long-lived assets and closed store reserves, self-insurance reserves, stock-based compensation and uncertain tax positions to be the most critical in understanding the judgments that are involved in preparing the Company's consolidated financial statements. There have been no changes in the Company's critical accounting policies during the quarter ended October 31, 2015.

Revenue from retail sales is recognized at the point of sale, net of sales tax. Revenue from eCommerce sales is recognized upon shipment of merchandise. Service-related revenue is recognized as the services are performed. A provision for anticipated merchandise returns is provided through a reduction of sales and cost of goods sold in the period that the related sales are recorded. Revenue from gift cards and returned merchandise credits (collectively

⁽¹⁾ the "cards") is deferred and recognized upon the redemption of the cards. These cards have no expiration date.

Income from unredeemed cards is recognized on the unaudited Consolidated Statements of Income within selling, general and administrative expenses at the point at which redemption becomes remote. The Company performs an evaluation of the aging of the unredeemed cards, based on the elapsed time from the date of original issuance, to determine when redemption becomes remote.

Cost of goods sold includes the cost of merchandise, vendor allowances, inventory shrinkage, freight, distribution, shipping and store occupancy costs. The Company defines merchandise margin as net sales less the cost of merchandise sold. The cost of merchandise includes product costs paid to the vendor, including items such as purchase discounts and vendor chargebacks, as well as inventory write-downs for the lower of cost or market.

⁽²⁾ Store occupancy costs include rent, common area maintenance charges, real estate and other asset-based taxes, store maintenance, utilities, depreciation, fixture lease expenses and certain insurance expenses. Cost of goods sold included a \$2.4 million write-down of golf-related inventory for the 39 weeks ended November 1, 2014 relating to the Company's golf restructuring.

⁽³⁾ Selling, general and administrative expenses include store and field support payroll and fringe benefits, advertising, bank card charges, information systems, marketing, legal, accounting, other store expenses and all expenses associated with operating the Company's corporate headquarters. Selling, general and administrative expenses for the 13 and 39 weeks ended October 31, 2015 includes a \$7.9 million litigation settlement charge. Selling, general

and administrative expenses for the 39 weeks ended November 1, 2014 included a \$14.4 million gain on sale of a Gulfstream G650 corporate aircraft and asset impairment and severance charges related to the Company's golf restructuring of \$14.3 million and \$3.7 million, respectively.

- (4) Pre-opening expenses consist primarily of rent, marketing, payroll and recruiting costs incurred prior to a new or relocated store opening, which are expensed as incurred.
- (5) Includes investment income recognized to reflect changes in deferred compensation plan investment values with a corresponding charge to selling, general and administrative costs for the same amount.
- (6) Includes Dick's Sporting Goods, Golf Galaxy, Field & Stream and other specialty concept stores.

Net Income

The Company reported net income of \$47.2 million for the current quarter, or \$0.41 per diluted share, compared to net income of \$49.2 million, or \$0.41 per diluted share, for the quarter ended November 1, 2014. Net income for the quarter ended October 31, 2015 includes \$4.7 million, net of tax, or \$0.04 per diluted share, related to a litigation settlement charge.

Net Sales

Net sales increased 8% in the current quarter to \$1.6 billion from \$1.5 billion for the quarter ended November 1, 2014 due primarily to the growth of our store network and a 0.4% increase in consolidated same store sales. The 0.4% increase in consolidated same store sales contributed \$6.3 million of the increase in net sales for the quarter ended October 31, 2015. The remaining \$109.7 million increase in sales is primarily attributable to new stores. The 0.4% increase in consolidated same store sales consisted of a 0.7% increase at Dick's Sporting Goods and a 2.9% decrease at Golf Galaxy. eCommerce sales penetration was 8.0% of total net sales during the current quarter compared to 7.3% of total net sales during the quarter ended November 1, 2014, representing an approximate increase of 18% in eCommerce sales across both Dick's Sporting Goods and Golf Galaxy.

The increase in Dick's Sporting Goods same store sales was primarily driven by increases within our hardlines and footwear categories, partially offset by a decrease within the apparel category, most notably seasonal outerwear that was negatively impacted by record-setting warm weather across the majority of our markets. The same store sales increase at Dick's Sporting Goods was driven by an increase in sales per transaction of approximately 1.2% partially offset by a decrease in transactions of approximately 0.5%. Based upon the current quarter sales mix, every 1% change in consolidated same store sales, which consists of both brick and mortar and eCommerce sales, would impact earnings before income taxes for the current quarter by approximately \$5.0 million.

Income from Operations

Income from operations decreased to \$77.1 million in the current quarter from \$79.9 million for the quarter ended November 1, 2014.

Gross profit increased 8% to \$488.4 million in the current quarter from \$452.0 million for the quarter ended November 1, 2014, and increased as a percentage of net sales by 13 basis points compared to the same period last year. The increase in the gross profit rate was primarily driven by an increase in merchandise margin of 32 basis points partially offset by an increase in occupancy and shipping expenses in the current quarter compared to the same period last year. The increase in merchandise margin was primarily driven by lower inventory markdowns during the current quarter compared to the same period last year. Occupancy costs increased \$16.7 million in the current quarter from the quarter ended November 1, 2014. Our occupancy costs are generally fixed in nature and fluctuate based on the number of stores that we operate. As a percentage of net sales, occupancy costs increased at a higher rate than the 8% increase in net sales during the current quarter. The increase in shipping expenses during the current quarter was the result of the growth and increased penetration of eCommerce sales as compared to the Company's total net sales. Every 10 basis point change in merchandise margin would impact earnings before income taxes for the current quarter by approximately \$1.6 million.

Selling, general and administrative expenses increased 10% to \$395.0 million in the current quarter from \$357.7 million for the quarter ended November 1, 2014, and increased as a percentage of net sales by 62 basis points. The quarter ended October 31, 2015 includes a litigation settlement charge of \$7.9 million. Apart from the litigation

settlement charge, selling, general and administrative expenses increased 14 basis points as a percentage of net sales primarily driven by higher store payroll costs as the Company continued to invest to enhance the shopping experience within its stores.

LIQUIDITY AND CAPITAL RESOURCES AND CHANGES IN FINANCIAL CONDITION

Overview

The Company's liquidity and capital needs have generally been met by cash from operating activities and our revolving credit facility. Cash flow from operations is seasonal in our business. Typically, we use cash flow from operations to increase inventory in advance of peak selling seasons, with the pre-holiday inventory increase being the largest. In the fourth quarter, inventory levels are reduced in connection with sales during the holiday season and this inventory reduction, combined with proportionately higher net income, typically produces significant positive cash flow.

Net cash provided by operating activities for the 39 weeks ended October 31, 2015 was \$115.9 million compared to net cash provided by operating activities of \$102.8 million for the prior year comparable period. Net cash from operating, investing and financing activities are discussed further below.

On August 12, 2015, the Company entered into a five-year senior secured revolving credit agreement (the "Credit Agreement") that amended and restated the Company's then existing credit facility. The Credit Agreement provides for a \$1 billion revolving credit facility, including up to \$150 million in the form of letters of credit and allows the Company, subject to the satisfaction of certain conditions, to request an increase of up to \$250 million. The Credit Agreement replaced the Company's prior \$500 million revolving credit facility (the "Prior Credit Agreement"). The Credit Agreement is further described within Note 5 to the unaudited Consolidated Financial Statements.

The Company generally utilizes its Credit Agreement for working capital needs based primarily on the seasonal nature of its business, with the Company's peak borrowings occurring during its third quarter as the Company increases inventory in advance of the holiday selling season.

Funds drawn on our Credit Agreement during the 39 weeks ended October 31, 2015 totaled \$1,019.1 million over the course of 94 days. The Company repaid \$676.7 million of these borrowings, ending the period with \$342.4 million of outstanding borrowings under the Credit Agreement, which was the maximum daily amount outstanding at any point in time during the 39 weeks ended October 31, 2015.

Funds drawn on our Prior Credit Agreement during the 39 weeks ended November 1, 2014 totaled \$1,057.6 million over the course of 74 days. The Company repaid \$777.1 million of these borrowings, ending the period with \$280.5 million of outstanding borrowings under the Prior Credit Agreement, which was the maximum daily amount outstanding at any point in time during the 39 weeks ended November 1, 2014.

The Company ended the current period with \$73.8 million in cash and cash equivalents as compared to \$221.7 million at the end of fiscal 2014. As of October 31, 2015 and January 31, 2015, total remaining borrowing capacity, after subtracting letters of credit, was \$643.6 million and \$486.0 million.

The Company intends to allocate capital to invest in its future growth, specifically the development of its omni-channel platform and specialty store concepts, as well as to return capital to stockholders through dividends and share repurchases.

Capital expenditures – Normal capital requirements primarily relate to the development of our omni-channel platform, including new and existing Dick's Sporting Goods stores and eCommerce technology investments. The Company also plans to invest in its specialty store concepts and improve its supply chain and corporate information technology infrastructure. The Company has a capital appropriations committee that approves all capital expenditures in excess of certain amounts and groups and prioritizes all capital projects among required, discretionary and strategic categories.

Table of Contents

Share repurchases – On March 7, 2013, the Company's Board of Directors authorized a five-year share repurchase program of up to \$1 billion of the Company's common stock. During the 39 weeks ended October 31, 2015, the Company repurchased approximately 5.8 million shares of its common stock for \$300.0 million. Any future share repurchase programs are subject to the final determination of our Board of Directors and will be dependent upon future earnings, cash flows, financial requirements and other factors.

Dividends – During the 39 weeks ended October 31, 2015, the Company paid \$49.2 million of dividends to its stockholders. The declaration of future dividends and the establishment of the per share amount, record dates and payment dates for any such future dividends are subject to the final determination of our Board of Directors and will be dependent upon future earnings, cash flows, financial requirements and other factors.

The Company currently believes that cash flows generated by operations and funds available under its Credit Agreement will be sufficient to satisfy current capital requirements through the remainder of fiscal 2015. Other investment opportunities, such as potential strategic acquisitions, share repurchases, investments or store expansion rates in excess of those presently planned, may require additional funding.

The change in cash and cash equivalents is as follows (in thousands):

	39 Weeks Ended	
	October 31, 2015	November 1, 2014
Net cash provided by operating activities	\$115,869	\$102,757
Net cash used in investing activities	(276,368)	(223,503)
Net cash provided by financing activities	12,671	16,957
Effect of exchange rate changes on cash and cash equivalents	(52)	(9)
Net decrease in cash and cash equivalents	\$(147,880)	\$(103,798)

Operating Activities

Operating activities consist primarily of net income, adjusted for certain non-cash items and changes in operating assets and liabilities. Adjustments to net income for non-cash items include depreciation and amortization, deferred income taxes, stock-based compensation expense and tax benefits on stock options, as well as non-cash gains and losses on the disposal of the Company's assets. Changes in operating assets and liabilities primarily reflect changes in inventories, accounts payable and income taxes payable / receivable, as well as other working capital changes.

Cash provided by operating activities increased \$13.1 million for the 39 weeks ended October 31, 2015 compared to the same period last year. The increase in cash provided by operating activities is due primarily to a \$29.6 million increase in non-cash items and a \$12.7 million increase in net income, partially offset by a decrease in operating assets and liabilities of \$29.2 million period-over-period. The increase in non-cash items is due primarily to the sale of a Gulfstream G650 corporate aircraft during the 39 weeks ended November 1, 2014 and changes in deferred income taxes period over period.

The decrease in operating assets and liabilities is due primarily to the following:

Changes in inventory and accounts payable decreased operating cash flows by \$38.7 million compared to the prior year, primarily attributable to slower sell-through of seasonal outerwear categories in the current year-to-date period.

Changes in income taxes payable / receivable decreased operating cash flows by \$20.1 million compared to the prior year, primarily due to higher income tax payments in the current period. Income tax payments in fiscal 2015 were unfavorably impacted by the sale of a Gulfstream G650 corporate aircraft during fiscal 2014.

Changes in deferred construction allowances increased operating cash flows by \$30.7 million compared to the prior year, primarily due to the timing and increased amount of collections associated with self-developed stores where tenant allowances are provided by landlords.

Investing Activities

Cash used in investing activities increased \$52.9 million for the 39 weeks ended October 31, 2015 compared to the same period last year. During the 39 weeks ended November 1, 2014, the Company received \$73.4 million of proceeds from the sale of a Gulfstream G650 corporate aircraft and paid \$26.3 million to acquire intellectual property rights to the Field & Stream mark in product categories that were not otherwise owned by the Company.

Financing Activities

Cash provided by financing activities consists primarily of the Company's capital return initiatives, including its share repurchase program and cash dividend payments, and cash flows generated from stock option exercises. Cash provided by financing activities for the 39 weeks ended October 31, 2015 totaled \$12.7 million compared to \$17.0 million for the same period in the prior year. The Company repurchased \$100.0 million more shares during the 39 weeks ended October 31, 2015 compared to the same period in the prior year. The higher share repurchase activity was partially offset by higher net Credit Agreement borrowings and changes in the bank overdraft balance between years.

Event Subsequent to Quarter-end

Dividend – On November 12, 2015, the Company's Board of Directors authorized and declared a quarterly cash dividend in the amount of \$0.1375 per share of common stock and Class B common stock payable on December 31, 2015 to stockholders of record as of the close of business on December 11, 2015.

Off-Balance Sheet Arrangements

The Company's off-balance sheet arrangements as of October 31, 2015 primarily relate to store operating leases and purchase obligations for marketing commitments, including naming rights, licenses for trademarks, corporate aircraft and technology-related and other commitments. The Company has excluded these items from the unaudited Consolidated Balance Sheets in accordance with generally accepted accounting principles. The Company does not believe that any of these arrangements have, or are reasonably likely to have, a material effect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or resources.

Contractual Obligations and Other Commercial Commitments

The Company is party to many contractual obligations that involve commitments to make payments to third parties in the ordinary course of business. For a description of the Company's contractual obligations and other commercial commitments as of January 31, 2015, see the Company's Annual Report on Form 10-K for the fiscal year ended January 31, 2015, filed March 27, 2015. During the current quarter, there were no material changes outside the ordinary course of business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

ITEM 4. CONTROLS AND PROCEDURES

During the third quarter of fiscal 2015, there were no changes in the Company's internal controls over financial reporting that materially affected, or are reasonably likely to materially affect, the Company's internal controls over

financial reporting.

During the quarter, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended. Based upon that evaluation, the Company's management, including the Chief Executive Officer and the Chief Financial Officer, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q, October 31, 2015.

Table of Contents

There are inherent limitations in the effectiveness of any control system, including the potential for human error and the circumvention or overriding of the controls and procedures. Additionally, judgments in decision-making can be faulty and breakdowns can occur because of simple errors or mistakes. An effective control system can provide only reasonable, not absolute, assurance that the control objectives of the system are adequately met. Accordingly, our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our control system can prevent or detect all errors or fraud. Finally, projections of any evaluation or assessment of effectiveness of a control system to future periods are subject to the risks that, over time, controls may become inadequate because of changes in an entity's operating environment or deterioration in the degree of compliance with policies and procedures.
