Item 8.01 Other Events

On August 17, 2005, the Company sold substantially all of the operations comprising the automotive business conducted by the Company's wholly-owned subsidiary, Carlisle Engineered Products to The Reserve Group of Akron, Ohio. The Company estimates it will record an after-tax loss on the disposition of these assets of approximately \$9 million. This loss will be recorded in the Company's results from discontinued operations for the third quarter ended September 30, 2005. The transaction did not include the sale of trade accounts receivable dated prior to August 1, 2005, the effective date of the sale. Also excluded were certain assets from two small plants. The sale was pursuant to the Company's previously announced plan to exit the automotive business on January 6, 2005, and is consistent with the Company's commitment to allocate resources to those businesses in which it can create sustainable competitive advantage. Total after-tax losses associated with the disposition of this business approximate \$45 million, including impairment charges of \$28 million recorded in the fourth quarter of 2004 relating to impairment of goodwill and of an investment in a joint venture. The total after-tax losses also included impairment charges on fixed assets of \$8 million recorded in the second quarter of 2005, and the aforementioned loss on the August 17, 2005 sale. Additional losses are possible as the Company continues its plans to dispose of the remaining assets of the automotive business. A copy of the press release is attached hereto as Exhibit 99.1.
