DIGITAL ANGEL CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Dollars in thousands)
(Unaudited)

1. The Company and Basis of Presentation

Digital Angel Corporation and its subsidiaries (the Company) develops and deploys sensor and communications technologies that enable rapid and accurate identification, location tracking, and condition monitoring of high-value assets. The Company operates in two segments: (1) Animal Applications and (2) GPS and Radio Communications.

Animal Applications develops, manufactures, and markets a broad line of electronic and visual identification devices for the companion animal, livestock, laboratory animal, fish and wildlife markets worldwide. The positive identification and tracking of cattle and hogs are crucial for asset management and for disease control and food safety. In addition to the visual ear tags, which have been sold by the Company since the late 1940s, Animal Applications utilizes radio frequency transmission (RFID) technologies in its electronic ear tags and implantable microchips.

GPS and Radio Communications consists of the design, manufacture and support of global positioning system (GPS) enabled equipment. Applications for the segment's products include location tracking and message monitoring of vehicles, aircraft and people in remote locations through systems that integrate GPS and geosynchronous satellite communications and GPS enabled equipment and intelligent communications products and services for telemetry, mobile data and radio communications applications serving commercial and military markets. Technology development in this segment includes the integration and miniaturization into marketable products of two technologies: wireless communications and position location technology (including GPS and other systems).

On February 28, 2005, the Company acquired Denmark-based DSD Holdings A/S and its wholly-owned subsidiaries Daploma International A/S and Digitag A/S. DSD Holdings A/S became a wholly-owned subsidiary of Digital Angel Corporation. DSD Holdings A/S produces visual and radio frequency identification (RFID) tags as well as tamper-proof seals for packing and shipping applications. DSD Holdings A/S's operations are included from the date of acquisition.

As of September 30, 2005, Applied Digital Solutions, Inc. (Applied Digital or ADS) owned 24,291,673 shares or 55.4% of the Company's common stock.

The accompanying unaudited condensed consolidated financial statements of the Company as of September 30, 2005 and for the three and nine month periods ended September 30, 2005 and 2004 have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X under the Securities Exchange Act of 1934. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of the Company's management, all adjustments (including normal recurring adjustments) considered necessary to present fairly the financial statements have been made.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

The consolidated statements of operations for the three and nine months ended September 30, 2005 and 2004 are not necessarily indicative of the results that may be expected for the entire year. These statements should be read in conjunction with the Digital Angel Corporation's audited consolidated financial statements and related notes thereto for the year ended December 31, 2004 which are included in the Company's Annual Report on Form 10-K.

Certain items in the condensed consolidated financial statements for the 2004 periods have been reclassified for comparative purposes.

2. Principles of Consolidation

The September 30, 2005 and 2004 condensed consolidated financial statements include the accounts of the Company and its wholly-owned and majority-owned subsidiaries (DSD Holdings A/S and OuterLink Corporation operations are included from the date of acquisition: February 28, 2005 and January 22, 2004, respectively). All significant intercompany accounts and transactions have been eliminated in consolidation.

3. Revenue Recognition

The Company, except for its subsidiary OuterLink Corporation, recognizes product revenue at the time product is shipped and title has transferred, provided that a purchase order has been received or a contract has been executed, there are no uncertainties regarding customer acceptance, the sales price is fixed and determinable and collectibility is deemed probable. If uncertainties regarding customer acceptance exist, revenue is recognized when such uncertainties are resolved. There are no significant post-contract support obligations at the time of revenue recognition. Digital Angel Corporation's accounting policy regarding vendor and post contract support obligations is based on the terms of the customers' contracts, billable upon occurrence of the post-sale support. Costs of products sold and services provided are recorded as the related revenue is recognized. Digital Angel Corporation offers a warranty on its products. For non-fixed and fixed fee jobs, service revenue is recognized based on the actual direct labor hours in the job multiplied by the standard billing rate and adjusted to net realizable value, if necessary. Other revenue is recognized at the time service or goods are provided. It is the Company's policy to record contract losses in their entirety in the period in which such losses are foreseeable.

The Company's subsidiary, OuterLink Corporation, earns revenue from messaging services and from the sale of related products to customers (communication terminals and software). OuterLink Corporation's messaging service is only available through use of its products and such products have no alternative use. Accordingly, service revenue is recognized as the services are performed. OuterLink Corporation's product revenue, for which title and risk of loss transfers to the customer on shipment, is deferred upon shipment and is recognized ratably over the estimated customer service period of 30 months.

4. Stock-Based Compensation

The Company applies APB Opinion No. 25 and related Interpretations in accounting for all its stock option plans. Accordingly, no compensation cost has been recognized under these plans. The Company has adopted the disclosure-only provisions of SFAS No. 123, Accounting for Stock-Based Compensation and SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure, which was released in December 2002 as an amendment to SFAS No. 123. The following table illustrates the effect on net loss and earnings per share if the fair value based method had been applied to all awards (in thousands, except per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2005	2004	2005	2004
Reported net loss	\$ (984)	\$ (527)	(2,368)	\$ (6,260)
Stock-based employee compensation expense in reported net loss, net of related tax effects	83		228	31
Stock-based employee compensation expense determined under the fair value based method, net of related tax effects	(1,341)	(2,024)	(4,113)	(5,647)

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Pro forma net loss	\$	(2,242)	\$	(2,551)	\$	(6,253)	\$	(11,876)
Loss per share -basic and diluted								
As reported	\$	(0.02)	\$	(0.01)	\$	(0.05)	\$	(0.20)
Pro forma	\$	(0.05)	\$	(0.08)	\$	(0.14)	\$	(0.37)

In December 2004, SFAS No. 123 (revised 2004), Share-Based Payment (SFAS 123R) was issued. SFAS 123R replaced SFAS No. 123 and supercedes APB Opinion No. 25. The Company is required to adopt SFAS 123R beginning January 1, 2006. SFAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The pro forma disclosures previously permitted under SFAS 123 no longer will be an alternative to financial statement recognition. The Company has begun, but has not completed, evaluating the impact of the adoption of SFAS 123R on its results of operations. In connection with evaluating the impact of SFAS 123R, the Company is considering the potential implementation of different valuation methods to determine the fair value of share-based compensation. The Company believes the adoption of SFAS 123R will have a material impact on its results of operations, regardless of the valuation method used.

5. Inventory (in thousands)

	September 30, 2005	December 31, 2004

Allowance for excess and obsolescence	(1,978)	(1,915)
Net inventory	\$ 8,381	\$ 6,232

6. Stock Exchanges with Applied Digital Solutions, Inc.

On February 25, 2005, the Company entered into a Stock Purchase Agreement with Applied Digital. The purpose of the stock exchange was to use the shares as partial consideration for the acquisition of DSD Holdings A/S and its wholly-owned subsidiaries, Daploma International A/S and Digitag A/S, as described more fully in note 9. The Company and Applied Digital entered into the share exchange because of the selling shareholders' desire, at the time the transaction was negotiated, to receive their consideration in Applied Digital common stock as opposed to the Company's common stock. In addition, the stock purchase represented a strategic investment by Applied Digital whereby Applied Digital could increase its ownership interest in the Company. Pursuant to the agreement, the Company issued 644,140 shares of its common stock to Applied Digital. The Company received 684,543 shares of Applied Digital common stock as consideration. The exchange ratio of shares was based upon the average of the volume-weighted-average price of the Company's common stock and Applied Digital's common stock for the ten trading days immediately preceding, and not including, the transaction closing date which was \$5.434 for the Company's common stock and \$5.113 for Applied Digital's common stock. The value of the stock exchanged was \$3.5 million.

On March 1, 2004, the Company issued 3,000,000 shares of its common stock to Applied Digital pursuant to the Stock Purchase Agreement (Stock Purchase Agreement) with Applied Digital dated August 14, 2003. The Stock Purchase Agreement dated August 14, 2003 was used as a method for the Company to obtain and sell shares of Applied Digital in order to generate cash for operations in a period of time when other capital was scarce or not available. The Company believed the share exchange with Applied Digital, as compared to selling shares of Digital Angel, was beneficial because (i) the net yield on the sale was higher as the Company did not have to pay an underwriting commission and (ii) the Company believed the sale of Applied Digital shares was preferable to the sale of Digital Angel shares because (a) a larger number of Applied Digital shares were outstanding in the hands of unaffiliated holders (b) Applied Digital shares had a much larger volume of stock trading on a daily basis and (c) Applied Digital shares had lower stock price volatility than Digital Angel shares. In addition, the Company and Applied Digital mutually agreed that the stock purchase represented a strategic investment by Applied Digital whereby Applied Digital could increase its ownership interest in the Company.

The purchase price per share for the shares of the Company's stock was based on the closing price of the Company's common stock on June 30, 2003 of \$2.64 per share. This price was used because the Company and Applied Digital determined that this was a fair price and because it reflected the fair value of the securities before any impact of the Applied Digital Debenture holders potentially hedging their position in the Company's common stock and thereby affecting the market price of the stock. In connection with this transaction, the Company granted a five year warrant to the Applied Digital Debenture holders to acquire up to 500,000 shares of the Company's common stock at an exercise price of \$2.64 per share. The warrant was issued in consideration for a waiver from the Applied Digital Debenture holders allowing Applied Digital to register the shares being issued in connection with the Stock Purchase Agreement. The exercise price of the warrant was determined in negotiation with the Applied Digital Debenture holders. The purchase price of the Applied Digital common stock was based on the average of the volume weighted average price of Applied Digital's common stock for the ten trading days immediately preceding (and not including) the closing date. In addition, as part of this transaction, the Company granted a five year warrant to Applied Digital to purchase up to 1 million shares of the Company's common stock. The exercise price of the warrant, \$3.74, was based on the daily volume weighted average price of the

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Company's common stock for the first 10 consecutive trading days of 2004 starting on January 2, 2004.

The Company accounted for this transaction in a manner similar to a private placement whereby the Company issued common stock and warrants in exchange for common stock of Applied Digital. The Company's intention was to sell the shares of Applied Digital to generate cash for its operations. Accordingly, the Company accounted for the Applied Digital stock as a trading security under SFAS 115, Accounting for Certain Investments in Debt and Equity Securities.

In the nine months ended September 30, 2004, the Company recorded realized losses of \$1.0 million on the 910,000 shares of Applied Digital common stock sold and an unrealized loss of \$1.9 million on the remaining 1,070,000 shares held by the Company. Fair value of the Applied Digital common stock was determined by quoted values reported on NASDAQ. As of December 31, 2004, the Company had sold all of the 1,980,000 shares of Applied Digital common stock for \$6.7 million. In December 2004, Applied Digital exercised its warrant for 1,000,000 shares of common stock. Net proceeds to the Company upon exercise of the warrant were \$3.74 million.

7. Discontinued Operations

In April 2004, our Board of Directors approved a plan to sell our Medical Systems segment. The Medical Systems segment represented the business operations of Medical Advisory Systems, Inc, which we acquired on March 27, 2002. The Medical Systems segment was one of our reporting units in accordance with SFAS 131, *Disclosures about Segments of an Enterprise and Related Information*. Accordingly, the financial condition, results of operations and cash flows of our Medical Systems segment have been reported as discontinued operations for all periods presented. The following discloses the operating losses from discontinued operations for the three and nine months ended September 30, 2005 and 2004, consisting of losses attributable to the Medical Systems segment:

	Three-Months Ended September 30,		Nine-Months Ended September 30,	
	2005	2004	2005	2004
Product revenue	\$	\$	\$	\$ 204
Service revenue				223
Total revenue				427
Cost of products sold				87
Cost of services sold				317
Total cost of products and services sold				404
Gross profit				23
Selling, general and administrative expenses		35		1,081
Other expense (income)	(85)	(290)	(85)	(185)
Income (loss) from discontinued operations	\$ 85	\$ 255	\$ 85	\$ (873)

The above results do not include any allocated or common overhead expenses. No benefit has been provided for income taxes on the losses attributable to the Medical Systems division. The Company does not anticipate the Medical Systems division incurring additional losses in the future. However, in accordance with SFAS 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, any additional operating losses or changes in the values of assets or liabilities will be reflected in the financial condition and results of operations as incurred.

The net (liabilities) assets of discontinued operations as September 30, 2005 and December 31, 2004, were comprised of the following:

	September 30, 2005		December 31, 2004

Net (Liabilities) Assets	\$	(94)	\$	6
--------------------------	----	------	----	---

8. Segment Information

The Company is an advanced technology company in the field of rapid and accurate identification, location tracking, and condition monitoring of high-value assets. The Company's operating segments are: (1) Animal Applications and (2) GPS and Radio Communications. During 2004, Digital Angel Corporation sold substantially all the assets related to its Medical Systems segment's medical services business.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

It is on the basis of segment reporting that management utilizes the financial information to assist in making internal operating decisions. The Company evaluates performance based on stand-alone segment operating income.

Following is the selected segment data for the three months ended September 30, 2005 (in thousands):

	Animal Applications	GPS and Radio Communications	Corporate / Unallocated	Consolidated
Net revenue from external customers:				
Product	\$ 8,448	\$ 4,769	\$	\$ 13,217
Service	321	220		541
Total revenue	\$ 8,769	\$ 4,989	\$	\$ 13,758
Operating loss	\$ (612)	\$ (373)	\$	\$ (985)
Loss before taxes, minority interest share of income and discontinued operations	\$ (601)	\$ (381)	\$	\$ (982)

Following is the selected segment data as of and for the nine months ended September 30, 2005 (in thousands):

9. Acquisitions

The following describes the acquisitions by the Company (in thousands) in the nine months ended September 30, 2005 and 2004:

Company Acquired	Date Acquired	Acquisition Price	Goodwill and Other Intangibles Acquired	Other Net Assets and Liabilities	Business Description
DSD Holdings A/S	2/28/05	\$ 3,902	\$ 4,743	\$ (847)	Manufactures and markets visual and electronic RFID tags for livestock.
OuterLink Corporation	1/22/04	\$ 8,501	\$ 8,522	\$ (21)	Provider of real-time, satellite-based automated tracking, wireless data transfer and two-way messaging with large fleets of vehicles.

On February 28, 2005, the Company acquired DSD Holdings A/S and its wholly-owned subsidiaries Daploma International A/S and Digitag A/S. DSD Holdings A/S became a wholly-owned subsidiary of Digital Angel Corporation. The acquisition was accounted for under the purchase method of accounting. The excess of purchase price over the fair value of the assets and liabilities of DSD Holdings A/S has been recorded as goodwill. The acquisition of DSD Holdings A/S has been recorded based on preliminary estimates as of the date of acquisition. Any changes to the preliminary estimates during the allocation period will be reflected as an adjustment to goodwill.

Under the terms of the DSD Holdings A/S acquisition, the Company purchased all of the outstanding capital stock of DSD Holdings A/S in consideration for a purchase price of seven times DSD Holdings A/S's average annual EBITDA over the next three years less outstanding indebtedness at the end of the time period. An initial payment of \$3.5 million was made at closing through the delivery of Applied Digital common stock valued at \$3.5 million which the Company acquired from Applied Digital in exchange for \$3.5 million of Digital Angel Corporation common stock. To account for pre-closing pricing fluctuations the Company paid additional consideration of \$195,000 to the

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

shareholders of DSD Holdings A/S on June 7, 2005.

In addition, Digital Angel entered into employment agreements with the Chief Executive Officer of DSD Holdings A/S and its subsidiaries, Lasse Nordfjeld and his son, the President of Daploma, Torsten Nordfjeld.

Denmark-based DSD Holdings A/S through its subsidiaries manufactures and markets visual and electronic RFID tags for livestock. In considering the benefits of the DSD acquisition, the management of Digital Angel recognized the synergies available with DSD's highly automated and efficient manufacturing facility, as well as DSD's presence in successfully developed markets in Europe, the Middle East and Asia. The acquisition provides Digital Angel with immediate expansion of its existing business in the significant European market for livestock tagging and tracking.

Digital Angel Corporation operates DSD Holdings A/S and its operating subsidiaries from their current headquarters near Copenhagen, Denmark.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

On January 22, 2004, the Company acquired OuterLink Corporation, which became a wholly-owned subsidiary of Digital Angel Corporation. The acquisition was accounted for under the purchase method of accounting. The excess of purchase price over the fair value of the assets and liabilities of OuterLink Corporation was recorded as goodwill of \$3.8 million and intangible assets of \$4.7 million. The intangible assets are customer relationships, trademarks and core technology. The customer relationships and core technology are being amortized over periods ranging from 4 to 8 years. Amortization recorded in the three-months ended September 30, 2005 and 2004 was \$0.2 million and \$0.1million, respectively. Amortization recorded in the nine-months ended September 30, 2005 and 2004 was \$0.5 million and \$0.5 million, respectively. The trademark has an indefinite life.

The cost of the acquisition consisted of 100,000 shares of Series A preferred stock valued at \$8.3 million and acquisition costs of \$0.2 million. The Series A preferred stock became convertible into four million shares of the Company's common stock when the volume weighted average price of the Company's common stock was greater than or equal to \$4.00 per share for ten consecutive trading days. As of September 30, 2005, 99,976 preferred shares had been converted into 3.9 million shares of the Company's common stock.

The valuation of the stock was primarily based on historical trading history and stock prices of the Company's common stock and a marketability discount of 30%. The acquisition costs consist of legal and accounting related services that were direct costs of the acquisition.

In considering the benefits of the OuterLink Corporation acquisition, the management of Digital Angel Corporation recognized the strategic complement of OuterLink Corporation's technologies and customer base with Digital Angel Corporation's existing animal applications and military GPS business lines.

The results of DSD Holdings A/S and OuterLink Corporation have been included in the consolidated financial statements since their dates of acquisition, February 28, 2005 and January 22, 2004, respectively. Unaudited pro forma results of operations for the three months ended September 30, 2004 and the nine months ended September 30, 2005 and 2004 are included below. Such pro forma information assumes that the above acquisitions had occurred as of January 1, 2005 and 2004, and revenue is presented in accordance with the Company's accounting policies. This summary is not necessarily indicative of what the results of operations of the Company would have been had it been a combined entity during such periods, nor does it purport to represent results of operations for any future periods.

10. Contingencies

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Digital Angel Corporation vs. Allflex USA, Inc and Pet Health Services (USA), Inc.

On October 20, 2004, the Company commenced an action in the United States District Court for the District of Minnesota against Allflex USA, Inc. and Pet Health Services (USA), Inc. This suit claimed that Allflex is marketing and selling a syringe implantable identification transponder that infringes a 1993 patent granted to the Company for syringe implantable identification transponders previously found by the United States District Court for the District of Colorado to be enforceable. The suit also claimed that PetHealth is using, selling and/or distributing the same transponder in violation of the Company's patent. The suit sought, among other things, an adjudication of infringement and that the infringing parties be enjoined from further improper action. The suit sought actual damages, punitive damages and interest, costs and attorneys' fees. Allflex asserted a counterclaim for breach of contract of an existing license agreement between the Company and Allflex and asserted a counterclaim seeking a declaration of the parties' rights and obligations under the license agreement. Allflex also moved for a judgment on the pleadings, asserting that the license agreement should act as a bar to a case for infringement. The Company contested the motion on the ground that Allflex's actions exceed the scope of the license and constituted an impermissible infringement of the patent and asked the Court for leave to amend the complaint to assert a claim against a separate patent licensed exclusively to the Company by Bio Medic Data Systems. On June 23, 2005, the Court issued a ruling granting the Defendant's motion for judgment on the pleadings and denying the Company's motion for leave to amend.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

On July 21, 2005, Allflex filed an action in the United States District Court for the Northern District of Texas seeking a declaratory judgment that it did not infringe the Bio Medic patent. The Company has not been served with this complaint and Allflex has agreed to withdraw the complaint without prejudice.

On September 28, 2005, Allflex sought an award of attorneys fees and costs based on a fee-shifting clause in the license agreement and under 35 U.S.C. §285, which provides for an award of attorneys fees and costs in exceptional cases. The Company contested this motion, and on October 6, 2005, the Court denied the motion in its entirety. Final judgment in the action has not yet entered, and the Company is considering whether to appeal the Court's ruling granting judgment on the pleadings.

Digital Angel Corporation vs. Datamars, Inc., Datamars, S.A., The Crystal Import Corporation and Medical Management International, Inc.

On October 20, 2004, the Company commenced an action in the United States District Court for the District of Minnesota against Datamars, Inc., Datamars, S.A., The Crystal Import Corporation, and Medical Management International, Inc. (Banfield). This suit claims that the defendants are marketing and selling syringe implantable identification transponders manufactured by Datamars that infringe the Company's 1993 patent for syringe implantable identification transponders previously found by the United States District Court for the District of Colorado to be enforceable. Certain of the locations in which the infringing transponders are sold, include, but are not limited to, Banfield, The Pet Hospital of which certain locations are associated with PetSmart stores. The suit seeks, among other things, an adjudication of infringement and that the infringing parties be enjoined from further improper action. The suit also seeks actual damages, punitive damages and interest, costs and attorneys' fees. The Company believes that the suit is well-grounded in law and fact. Discovery in the action has been commenced and is continuing.

Crystal v. Digital Angel, et al.

On or about December 29, 2004 The Crystal Import Corporation filed an action against AVID Identification Systems, Inc. and the Company in the United States District Court for the Northern District of Alabama. Crystal's complaint primarily asserted federal and state antitrust and related claims against AVID, though it also asserted similar claims against the Company. The Company filed a motion to dismiss the action for failure to state a claim on which relief could be granted, or in the alternative, to have the action transferred to the United States District Court for the District of Minnesota for consolidation with the Datamars patent infringement action referred to above or to have the action stayed until the completion of the Datamars action. On October 12, 2005, the Alabama Court denied the Company's motion to dismiss the complaint, but granted the Company's motion to transfer the action to Minnesota, where the Company intends to seek to consolidate the action with the patent infringement action. Given the uncertainties associated with all litigation and given the early stage of this proceeding, the Company is unable to offer any assessment on the potential liability exposure, if any, to the Company from this lawsuit.

12. Related Party Activity

The Company has executed an exclusive eleven year Distribution and Licensing Agreement dated March 4, 2002 with Verichip Corporation (Verichip), a wholly-owned subsidiary of Applied Digital, covering the manufacturing, purchasing and distribution of Verichip's implantable microchip and the maintenance of the Verichip Registry by the Company. The agreement includes a license for the use of the Company's technology in Verichip's identified markets. The Company will be the sole manufacturer and supplier to Verichip. Revenue recognized under the Distribution and Licensing Agreement was \$0.5 million and \$0.1 million for the nine months ended September 30, 2005 and 2004, respectively. Prior to January 1, 2005 and pursuant to mutual agreement between the Company, Applied Digital and Verichip Corporation amounts due from Verichip Corporation were offset against amounts the Company owed to Applied Digital for certain general and administrative services, research and development services, directors and officers insurance and expense reimbursement. Effective January 1, 2005, all amounts due from Verichip Corporation are to be paid to the Company.

See Note 6 for a description of the stock exchange transactions with Applied Digital.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the accompanying financial statements and related notes thereto.

We consist of Digital Angel Corporation and its seven subsidiaries - Digital Angel Technology Corporation (DATC), Timely Technology Corp., Signature Industries Limited (90.9% owned subsidiary), OuterLink Corporation, DSD Holdings A/S, Digital Angel Holdings, Inc. and Digital Angel International, Inc.

RESULTS OF OPERATIONS

The following table summarizes our results of operations as a percentage of net operating revenue for the three and nine months ended September 30, 2005 and 2004 and is derived from the accompanying consolidated statements of operations included in this report.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2005 %	2004 %	2005 %	2004 %
Product revenue	96.1	95.4	95.6	95.5

Net loss	(7.2)	(4.7)	(5.6)	(19.5)

Three Months Ended September 30, 2005 Compared to the Three Months Ended September 30, 2004

Revenue

Revenue for the three months ended September 30, 2005 increased \$2.6 million, or 23.1%, to \$13.8 million when compared to \$11.2 million in revenue for the three months ended September 30, 2004.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Revenue for each of the operating segments was as follows (in thousands):

	Three Months Ended September 30, 2005	Three Months Ended September 30, 2004
Animal Applications	\$ 8,769	\$ 5,515
GPS and Radio Communications	4,989	5,665
Total	\$ 13,758	\$ 11,180

The Animal Applications segment's revenue increased approximately \$3.3 million, or 59.0%, in the three months ended September 30, 2005 compared to the three month period ended September 30, 2004. The increase in revenue was principally due to an increase in sales to fish and wildlife customers of approximately \$0.9 million, an increase in microchip and visual product sales to livestock customers of approximately \$0.8 million, an increase in sales to companion animal customers of approximately \$0.5 million, and the inclusion of approximately \$1.1 million of revenue from DSD Holdings A/S. DSD Holdings A/S was acquired on February 28, 2005.

The GPS and Radio Communications segment's revenue decreased approximately \$0.7 million, or 11.9% to approximately \$5.0 million in the three months ended September 30, 2005 from approximately \$5.7 million in the three months ended September 30, 2004. The decrease primarily relates to decreased revenue at our subsidiary, Signature Industries. In the three months ended September 30, 2005 there were no shipments by Signature Industries of the G2R Sarbe locator beacon under the contract with the government of India compared to approximately \$1.8 million of shipments in the three months ended September 30, 2004. Signature's last shipment under the contract with the government of India occurred in May 2005. In the three months ended September 30, 2005 this decrease was offset by increased shipments of Sarbe accessories to the United Kingdom Ministry of Defence of approximately \$0.6 million and increased sales of approximately \$0.5 million in Signature's alarm and equipment leasing divisions.

Gross Profit and Gross Profit Margin

Gross profit for the three month period ended September 30, 2005 was approximately \$5.9 million, an increase of approximately \$0.9 million, or 18.3%, compared to approximately \$5.0 million in the three month period ended September 30, 2004. As a percentage of revenue, the gross profit margin decreased to 43.1% for the three months ended September 30, 2005 from 44.9% for the three months ended September 30, 2004.

Gross profit from operations for each operating segment was as follows (in thousands):

	Three Months Ended September 30, 2005	Three Months Ended September 30, 2004
Animal Applications	\$ 3,478	\$ 2,155
GPS and Radio Communications	2,458	2,861
Total	\$ 5,936	\$ 5,016

Gross profit margin from operations for each operating segment was:

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

	Three Months Ended September 30, 2005 %	Three Months Ended September 30, 2004 %
Animal Applications	39.7	39.1
GPS and Radio Communications	49.3	50.5

The Animal Applications segment's gross profit increased approximately \$1.3 million, or 61.4%, in the three month period ended September 30, 2005 compared to the three months ended September 30, 2004. We attribute approximately \$1.0 million of the increase to the previously mentioned sales increase and improved margins and the inclusion of approximately \$0.3 million of gross profit from DSD Holdings A/S. DSD Holdings A/S was acquired on February 28, 2005. The gross margin percentage was 39.7% for the three month period ended September 30, 2005 compared to 39.1% for the three month period ended September 30, 2004.

The GPS and Radio Communications segment's gross profit decreased approximately \$0.4 million, or 14.1%, in the three month period ended September 30, 2005 as compared to the three month period ended September 30, 2004. The decrease in gross profit relates to the decrease in sales. The gross margin percentage decreased to 49.3% in the three month period ended September 30, 2005 as compared to 50.5% in the three month period ended September 30, 2004.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased approximately \$1.3 million, or 29.8%, in the three month period ended September 30, 2005 as compared to the three month period ended September 30, 2004. As a percentage of revenue, selling, general and administrative expenses were 41.8% and 39.7% for the three months ended September 30, 2005 and 2004, respectively.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Selling, general and administrative expenses for each of the operating segments were as follows (dollars in thousands):

	Three Months Ended September 30, 2005	Three Months Ended September 30, 2004
Animal Applications	\$ 3,373	\$ 1,944
GPS and Radio Communications	2,383	2,491
Total	\$ 5,756	\$ 4,435

Selling, general and administrative expenses as a percentage of revenue for each of the operating segments were:

	Three Months Ended September 30, 2005 %	Three Months Ended September 30, 2004 %
Animal Applications	38.5	35.2
GPS and Radio Communications	47.8	44.0

The Animal Applications segment's selling, general and administrative expenses increased approximately \$1.4 million in the three month period ended September 30, 2005 as compared to the three month period ended September 30, 2004 and selling, general and administrative expense as a percentage of revenue increased to 38.5% from 35.2% in the same respective period. The increase in selling, general and administrative expense relates primarily to a charge of approximately \$0.4 million in legal expenses related to the protection of the Company's intellectual property, approximately \$0.4 million of compensation expense, and approximately \$0.4 million of expense related to DSD Holding A/S. DSD Holding A/S was acquired on February 28, 2005.

The GPS and Radio Communications segment's selling, general and administrative expenses decreased approximately \$0.1 million to approximately \$2.4 million in the three month period ended September 30, 2005 from approximately \$2.5 million in the three month period ended September 30, 2004. As a percentage of revenue, selling, general and administrative expenses increased to 47.8% in the three month period ended September 30, 2005 from 44.0% in the three month period ended September 30, 2004. The increase in selling, general and administrative expense as a percentage of sales resulted primarily from the decrease in sales in the current period.

Research and Development Expense

Research and development expense was approximately \$1.2 million in the three month period ended September 30, 2005, an increase of approximately \$0.4 million, or 59.4%, from approximately \$0.7 million for the three month period ended September 30, 2004. As a percentage of revenue, research and development expense was 8.5% and 6.5% for the three months ended September 30, 2005 and 2004, respectively.

Research and development expense for each of the operating segments was as follows (in thousands):

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

	Three Months Ended September 30, 2005	Three Months Ended September 30, 2004
Animal Applications	\$ 717	\$ 539
GPS and Radio Communications	448	192
Total	\$ 1,165	\$ 731

The Animal Applications segments research and development expense was approximately \$0.7 million in the three month period ended September 30, 2005, an increase of approximately \$0.2 million, or 33.0%, from approximately \$0.5 million for the three month period ended September 30, 2004. The increase is related to the development of a large scale radio frequency identification (RFID) antenna detection system for a fish and wildlife customer.

The GPS and Radio Communications segment's research and development expense was approximately \$0.4 million in the three month period ended September 30, 2005, an increase of approximately \$0.2 million, or 133.3%, from approximately \$0.2 million in the three months ended September 30, 2004. The increase is primarily related to expenses at our OuterLink subsidiary associated with continued development of its next generation of communication system hardware.

Interest Expense

Interest expense was approximately \$0.1 million and approximately \$0.3 million for the three month periods ended September 30, 2005 and 2004, respectively. Interest expense in the three months ended September 30, 2004 included discount amortization and deferred debt cost amortization.

Loss on Applied Digital Common Stock

On March 1, 2004, Digital Angel Corporation issued 3,000,000 shares of its common stock and a warrant to purchase up to 1,000,000 shares of the Company's common stock to Applied Digital in exchange for 1,980,000 shares of Applied Digital's common stock, exclusive of warrant proceeds. In the quarter ended September 30, 2004, the Company recorded unrealized losses of approximately \$0.3 million related to the stock exchange with Applied Digital. As of December 31, 2004, the Company had sold all of the 1,980,000 shares of Applied Digital common stock for approximately \$6.7 million.

Income Taxes

The Company recorded an income tax provision of \$24,000 in the three month period ended September 30, 2005 and no tax provision for the three month period ended September 30, 2004. Income taxes for the three month period ended September 30, 2005 relate to income earned by a subsidiary of Daploma International A/S. The Company accounts for income taxes under the asset and liability approach. Deferred tax assets and liabilities are recognized for the expected future tax consequences attributed to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to reverse. A valuation allowance is provided against net deferred tax assets when it is more likely than not that a tax benefit will not be realized.

Discontinued Operations

During 2004, the Company sold substantially all the assets of its Medical Systems segment.

The following discloses the operating losses from discontinued operations for the three months ended September 30, 2005 and 2004, consisting of losses attributable to the Medical Systems segment:

	Three-Months Ended September 30,	
	2005	2004
Product revenue	\$	\$

Other income		(85)		(290)
Income from discontinued operations	\$	85	\$	255

Nine Months Ended September 30, 2005 Compared to the Nine Months Ended September 30, 2004

Revenue

Revenue for the nine months ended September 30, 2005 increased approximately \$10.0 million, or 31.2%, to approximately \$42.0 million when compared to approximately \$32.0 million in revenue for the nine months ended September 30, 2004.

Revenue for each of the operating segments was as follows (in thousands):

	Nine Months Ended September 30, 2005		Nine Months Ended September 30, 2004	
Animal Applications	\$	25,402	\$	18,700
GPS and Radio Communications		16,619		13,321
Total	\$	42,021	\$	32,021

The Animal Applications segment's revenue increased approximately \$6.7 million, or 35.8%, in the nine months ended September 30, 2005 compared to the nine month period ended September 30, 2004. The increase in revenue was principally due to an increase in microchip and visual product sales to livestock customers of approximately \$1.7 million, an increase in sales to fish and wildlife customers of approximately \$0.9 million, an increase in sales to companion animal customers of approximately \$0.5 million, an increase in sales to Verichip Corporation of approximately \$0.4 million and the inclusion of approximately \$3.2 million of revenue from DSD Holdings A/S. DSD Holdings A/S was acquired on February 28, 2005.

The GPS and Radio Communications segment's revenue increased approximately \$3.3 million, or 24.8% to approximately \$16.6 million in the nine months ended September 30, 2005 from approximately \$13.3 million in the nine months ended September 30, 2004. The increase was principally due to increased sales of approximately \$2.9 million at our subsidiary, Signature Industries, related to shipments of Sarbe accessories to the United Kingdom Ministry of Defence and increased sales in Signature's alarm and equipment leasing divisions. Additionally, sales at our subsidiary OuterLink Corporation increased approximately \$0.4 million in the nine months ended September 30, 2005 as compared to the nine months ended September 30, 2004.

Gross Profit and Gross Profit Margin

Gross profit for the nine month period ended September 30, 2005 was approximately \$18.6 million, an increase of approximately \$4.9 million, or 35.5%, compared to approximately \$13.7 million in the nine month period ended September 30, 2004. As a percentage of revenue, the gross profit margin increased to 44.2% for the nine months ended September 30, 2005 from 42.8% for the nine months ended September 30, 2004.

Gross profit from operations for each operating segment was as follows (in thousands):

	Nine Months Ended September 30, 2005	Nine Months Ended September 30, 2004
Animal Applications	\$ 10,067	\$ 7,289
GPS and Radio Communications	8,504	6,412
Total	\$ 18,571	\$ 13,701

Gross profit margin from operations for each operating segment was:

	Nine Months Ended September 30, 2005 %	Nine Months Ended September 30, 2004 %
Animal Applications	39.6	39.0
GPS and Radio Communications	51.2	48.1

The Animal Applications segment's gross profit increased approximately \$2.8 million, or 38.1%, in the nine month period ended September 30, 2005 compared to the nine months ended September 30, 2004. We attribute approximately \$1.6 million of the increase to the previously mentioned sales increase and \$1.2 million of the increase to the inclusion of gross profit from DSD Holdings A/S. DSD Holdings A/S was acquired on February 28, 2005. The gross margin percentage was 39.6% for the nine month period ended September 30, 2005 and 39.0% for the

nine month period ended September 30, 2004.

The GPS and Radio Communications segment's gross profit increased approximately \$2.1 million, or 32.6%, in the nine month period ended September 30, 2005 as compared to the nine month period ended September 30, 2004. The gross margin percentage increased to 51.2% in the nine month period ended September 30, 2005 as compared to 48.1% in the nine month period ended September 30, 2004. The increase in gross profit margin results primarily from higher margins at our Signature Industries, Ltd subsidiary related to shipments of Sarbe accessories to the Ministry of Defence.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased approximately \$4.0 million, or 30.7%, in the nine month period ended September 30, 2005 as compared to the nine month period ended September 30, 2004. As a percentage of revenue, selling, general and administrative expenses were 40.9% and 41.1% for the nine months ended September 30, 2005 and 2004, respectively.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Selling, general and administrative expenses for each of the operating segments were as follows (dollars in thousands):

	Nine Months Ended September 30, 2005	Nine Months Ended September 30, 2004
Animal Applications	\$ 9,714	\$ 6,010
GPS and Radio Communications	7,488	7,152
Total	\$ 17,202	\$ 13,162

Selling, general and administrative expenses as a percentage of revenue for each of the operating segments were:

	Nine Months Ended September 30, 2005 %	Nine Months Ended September 30, 2004 %
Animal Applications	38.2	32.1
GPS and Radio Communications	45.1	53.7

The Animal Applications segment's selling, general and administrative expenses increased approximately \$3.7 million in the nine month period ended September 30, 2005 as compared to the nine month period ended September 30, 2004 and as a percentage of revenue increased to 38.2% from 32.1% in the same respective period. The increase in selling, general and administrative expenses relates primarily to increased legal, compensation and insurance expense, and approximately \$1.0 million of expense related to DSD Holding A/S. DSD Holding A/S was acquired on February 28, 2005.

The GPS and Radio Communications segment's selling, general and administrative expenses increased approximately \$0.3 million to approximately \$7.5 million in the nine month period ended September 30, 2005 from approximately \$7.2 million in the nine month period ended September 30, 2004. The increase results principally from increased sales and marketing expenses at our subsidiary, Signature Industries. As a percentage of revenue, selling, general and administrative expenses decreased to 45.1% in the nine month period ended September 30, 2005 from 53.7% in the nine month period ended September 30, 2004 primarily due to the increase in sales in the current period.

Research and Development Expense

Research and development expense was approximately \$3.4 million in the nine month period ended September 30, 2005, an increase of approximately \$1.1 million, or 49.8%, from approximately \$2.3 million for the nine month period ended September 30, 2004. As a percentage of revenue, research and development expense was 8.1% and 7.0% for the nine months ended September 30, 2005 and 2004, respectively.

Research and development expense for each of the operating segments was as follows (in thousands):

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

	Nine Months Ended September 30, 2005		Nine Months Ended September 30, 2004	
Animal Applications	\$	2,087	\$	1,715
GPS and Radio Communications		1,283		535
Total	\$	3,370	\$	2,250

The Animal Applications segments research and development expense increased approximately \$0.4 million in the nine months ended September 30, 2005 as compared to the nine months ended September 30, 2004. The increase relates primarily to the development new large scale radio frequency identification (RFID) antenna detection system for a fish and wildlife customer.

The GPS and Radio Communications segment's research and development expense was approximately \$1.3 million for the nine month period ended September 30, 2005 an increase of approximately \$0.7 million, or 139.8%, when compared to approximately \$0.5 million in the nine months ended September 30, 2004. Of the approximately \$0.7 million increase, approximately \$0.4 million related to research and development expenses at our OuterLink subsidiary for the continued development of its next generation of communication system hardware and approximately \$0.3 million related to continuing product development programs.

Interest Expense

Interest expense was approximately \$0.3 million and approximately \$0.8 million for the nine month periods ended September 30, 2005 and 2004, respectively. Interest expense for the nine month period ended September 30, 2004 includes discount amortization and deferred debt cost amortization. There were no corresponding charges in the 2005 period.

Loss on Applied Digital Common Stock

On March 1, 2004, Digital Angel Corporation issued 3,000,000 shares of its common stock and a warrant to purchase up to 1,000,000 shares of the Company's common stock to Applied Digital in exchange for 1,980,000 shares of Applied Digital's common stock, exclusive of warrant proceeds. In the nine months ended September 30, 2004, the Company recorded realized losses of approximately \$1.0 million on the approximately 910,000 shares of Applied Digital common stock sold and unrealized losses of approximately \$1.9 million on the 1,070,000 shares held by the Company. As of December 31, 2004, the Company had sold all of the 1,980,000 shares of Applied Digital common stock for approximately \$6.7 million.

Income Taxes

The Company recorded an income tax provision of \$0.1 million in the nine month period ended September 30, 2005 and no tax provision for the nine month period ended September 30, 2004. Income taxes for the nine month period ended September 30, 2005 relate to income earned by a subsidiary of Daploma International A/S. The Company accounts for income taxes under the asset and liability approach. Deferred tax assets and liabilities are recognized for the expected future tax consequences attributed to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to reverse. A valuation allowance is provided against net deferred tax assets when it is more likely than not that a tax benefit will not be realized.

Discontinued Operations

During 2004, the Company sold substantially all the assets of its Medical Systems segment.

The following discloses the operating losses from discontinued operations for the nine months ended September 30, 2005 and 2004, consisting of losses attributable to the Medical Systems segment:

	Nine-Months Ended September 30,		
	2005	2004	
Product revenue	\$	\$	204
Service revenue			223
Total revenue			427
Cost of products sold			87
Cost of services sold			317
Total cost of products and services sold			404
Gross profit			23
Selling, general and administrative expenses			1,081
Other income		(85)	(185)
Income (loss) from discontinued operations	\$	85	\$ (873)

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2005, the Company had cash of \$12.1 million. Cash used in operating activities totaled \$1.6 million and \$0.7 million in the first nine months of 2005 and 2004, respectively.

In the first nine months of 2005, the use of cash was due primarily to the loss from continuing operations of \$2.5 million, an increase in inventory of \$1.1 million and a decrease in accounts payable, accrued expenses and deferred revenue of \$1.5 million. The increase inventory primarily relates to a build up of inventory in our Animal Applications division in planning for fourth quarter sales. The decrease in accrued expenses relates primarily to the payment of employee bonuses in the first quarter of 2005. Offsetting these uses of cash was depreciation and amortization of \$1.8 million.

Accounts payable increased by \$1.2 million to \$5.1 million at September 30, 2005 from \$3.9 million at December 31, 2004. The increase primarily relates to \$1.1 million of accounts payable acquired in the acquisition of DSD Holdings A/S.

Investing activities used cash of \$2.6 million in the first nine months of 2005 and provided cash of \$1.1 million in the first nine months of 2004. In the first nine months of 2005, cash used was primarily for the acquisition of DSD Holdings A/S of \$1.3 and expenditures for plant property and equipment of \$1.3 million.

Financing activities used cash of \$1.0 million in the first nine months of 2005 and 2004. In the first nine months of 2005, cash used was primarily for the purchase of 328,100 shares of treasury stock for \$1.5 million. In the first nine months of 2005, proceeds to the Company related to stock option and warrant exercises were \$0.4 million.

The Company expects that current available funds will adequately fund the Company's operations for the next twelve months.

Debt, Covenant Compliance and Liquidity

Invoice Discounting Agreement On April 9, 2003, Signature Industries Ltd. entered into a two-year Invoice Discounting Agreement with The Royal Bank of Scotland Commercial Services Limited (RBS). The Invoice Discounting Agreement, as amended October 28, 2003 and June 21, 2005, provides for Signature to sell with full title guarantee most of its receivables, as defined in the Invoice Discounting Agreement, as amended. RBS prepays 80% of the receivables sold in the United Kingdom and 75% of the receivables sold in the rest of the world, not to exceed an outstanding balance of £750,000 (\$1.3 million at September 30, 2005) at any given time. RBS pays Signature the remainder of the receivable upon collection of the receivable. Receivables which remain outstanding 90 days from the end of the invoice month become ineligible and RBS may require Signature to repurchase the receivable back. The discounting charge accrues daily at an annual rate of 1.85% above the base rate, as defined in the amended Invoice Discounting Agreement (6.35% at September 30, 2005). Signature pays a commission charge to RBS of 0.16% of each receivable balance sold. The Invoice Discounting Agreement, as amended, requires a minimum commission charge of £833 per month. Discounting charges of \$30,000 and \$52,000 are included in interest expense for the nine months ended September 30, 2005 and 2004, respectively. As of September 30, 2005 Signature did not have any receivables financed under the Invoice Discounting Agreement.

Credit Facility As of September 30, 2005, DSD Holdings is party to a credit agreement with Danske Bank. The credit facility provides for borrowings up to DKK 12 million (\$1,932,000 at September 30, 2005). At September 30, 2005, the annual interest rate on the facility was 4.2%. Borrowing availability under the facility as of September 30, 2005 was approximately \$205,000. As of September 30, 2005, \$1.6 million was outstanding under the credit agreement with Danske Bank.

Mortgage Notes Payable The Company is party to a mortgage notes payable collateralized by land and building. Principal and interest payments totaling approximately \$30,000 are payable monthly. Payments are due through November of 2010. The interest rate on the note is fixed at 8.18%. As of September 30, 2005, the amount outstanding under the mortgage note payable was \$2.2 million.

Equipment Loans Daploma is party to equipment loans which are collateralized by production equipment. Principal and interest payments totaling approximately DKK 0.2 million (\$29,000 at September 30, 2005) are payable monthly. Payments are due through January of 2010. The interest rate on the loans are variable and range from 4.5% to 7.8% as of September 30, 2005. As of September 30, 2005, the amount outstanding under the equipment loans was \$1.2 million.

Stock Issuances to Applied Digital On February 25, 2005, the Company entered into a Stock Purchase Agreement with Applied Digital. Pursuant to the agreement the Company issued 644,140 shares of its common stock to Applied Digital. The Company received 684,543 shares of Applied Digital common stock as consideration. The value of the stock exchanged was \$3.5 million. The Applied Digital common stock received by the Company was used as partial consideration for the acquisition of DSD Holdings A/S and its wholly-owned subsidiaries, Daploma International A/S and Digitag A/S.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Stock Repurchase On March 29, 2005, the Company's Board of Directors approved the repurchase of up to 1.5 million shares of its common stock over a ninety day period commencing on March 30, 2005. As of September 30, 2005, the Company purchased 328,000 shares for a total of \$1.5 million.

The following table summarizes the Company's fixed cash obligations as of September 30, 2005 over various future years (in thousands):

Contractual cash obligations	Total	Less than 1 Year	Payments Due by Period		After 5 Years
			1-3 Years	4-5 Years	
Notes Payable and Long-Term Debt	\$ 5,932	\$ 2,236	\$ 950	\$ 769	\$ 1,977
Operating Leases	18,544	681	1,211	1,049	15,603
Employment Contracts	1,149	1,113	36		
	\$ 25,625	\$ 4,030	\$ 2,197	\$ 1,818	\$ 17,580

IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 123 (revised 2004), Share-Based Payment (SFAS 123R), which replaces SFAS No. 123, Accounting for Stock-Based Compensation, (SFAS 123) and supercedes APB Opinion No. 25, Accounting for Stock Issued to Employees. SFAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values beginning with fiscal years after June 15, 2005, with early adoption encouraged. The pro forma disclosures previously permitted under SFAS 123 no longer will be an alternative to financial statement recognition. The Company is required to adopt SFAS 123R beginning January 1, 2006. Under SFAS 123R, the Company must determine the appropriate fair value model to be used for valuing share-based payments, the amortization method for compensation cost and the transition method to be used at date of adoption. The transition methods include prospective and retroactive adoption options. The Company has begun, but has not completed, evaluating the impact of the adoption of SFAS 123R on its results of operations. In connection with evaluating the impact of SFAS 123R, the Company is considering the potential implementation of different valuation methods to determine the fair value of share-based compensation. The Company believes the adoption of SFAS 123R will have a material impact on its results of operations, regardless of the valuation method used.

In November 2004, the FASB issued SFAS No. 151, Inventory Costs, an amendment of ARB No. 43, Chapter 4. SFAS No. 151 amends Accounting Research Bulletin (ARB) No. 43, Chapter 4, to clarify that abnormal amounts of idle facility expense, freight, handling costs and wasted materials (spoilage) should be recognized as current-period charges. In addition, SFAS No. 151 requires that allocation of fixed production overhead to inventory be based on the normal capacity of the production facilities. The Company is required to adopt SFAS 151 beginning January 1, 2006. The Company believes the adoption of SFAS 151 will not have a material impact on the results of its operations, financial position or cash flows.

Forward-Looking Statements and Associated Risk

This Form 10-Q contains forward-looking statements within the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995 with respect to our financial condition, results of operations and business, and it includes statements relating to:

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

our growth strategies including, without limitation, our ability to deploy new products and services;
anticipated trends in our business and demographics;
our ability to successfully integrate the business operations of recently acquired companies;
our future profitability and liquidity; and
regulatory, competitive or other economic influences.

Words such as anticipates, expects, intends, plans, believes, seeks, estimates and similar expressions also identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks and uncertainties that could cause actual results to differ materially from estimates or forecasts contained in the forward-looking statements. Some of these risks and uncertainties are beyond our control.

Risk Factors

You should carefully consider the risk factors listed below. These risk factors may cause our future earnings to be less or our financial condition to be less favorable than we expect. These factors may also affect the trading price of our common stock. You should read this section together with the other information contained herein.

As of September 30, 2005, our majority stockholder, Applied Digital, owns 55.4% of our common stock, is able to completely control the board of directors and may support actions that conflict with the interests of the other stockholders.

As of September 30, 2005, Applied Digital Solutions is the beneficial owner of 55.4% of our common stock, and it controls us with respect to all matters upon which our stockholders may vote, including the selection of the Board of Directors, mergers, acquisitions, sale of additional equity securities and other significant corporate transactions. There can be no assurance as to how Applied Digital Solutions may support actions that are contrary to or conflict with the interests of the other stockholders.

New accounting pronouncements expected to negatively impact our future results of operations.

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 123R Share-Based Payment. This statement, which will be effective in our first quarter of 2006, will change how we account for share-based compensation, and will have a material impact on our future results of operations.

We currently account for share-based payments to employees and directors using the intrinsic value method. Under this method, we generally do not recognize any compensation related to stock option grants we issue under our stock option plans.

SFAS 123R will require us to recognize share-based compensation as compensation expense in the statement of operations based on the fair values of such equity on the date of the grant, with the compensation expense recognized over the period in which the recipient is required to provide service in exchange for the equity award. This statement will also require us to adopt a fair value-based method for measuring the compensation expense related to share-based compensation. We have begun, but have not completed, evaluating the impact of the adoption of SFAS 123R on our results of operations. In connection with evaluating the impact of SFAS 123R, we are considering the potential implementation of different valuation methods to determine the fair value of share-based compensation. We believe the adoption of SFAS 123R will have a material impact on our results of operations, regardless of the valuation method used.

We may continue to incur losses.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

We incurred a net loss of \$2.4 million for the nine months ended September 30, 2005. We also recorded a net loss of \$5.0 million, \$9.5 million and \$92.4 million for the years ended December 31, 2004, 2003 and 2002, respectively. Included in the \$92.4 million loss for the year ended December 31, 2002 is a goodwill impairment charge of \$57.4 million, an asset impairment charge of \$6.4 million, and a \$18.7 million charge arising from the remeasurement of options in connection with the 2002 merger between Digital Angel Acquisition Company, which was then a wholly-owned subsidiary of Medical Advisory Systems, and Digital Angel Corporation, which was then a 93% owned subsidiary of Applied Digital Solutions. No assurance can be given as to whether we will achieve profitability, if at all. Profitability depends on many factors, including the success of marketing programs, the maintenance and reduction of expenses, and the ability to coordinate successfully the operations of our business units. If we fail to achieve and maintain sufficient profitability within the time frame expected by investors, the market price of our common stock may be adversely affected.

Infringement by third parties on our intellectual property or development of substantially equivalent proprietary technology by our competitors could negatively affect our business.

Our success depends significantly on our ability to maintain patent and trade secret protection, to obtain future patents and licenses, and to operate without infringing on the proprietary rights of third parties. There can be no assurance that the measures we have taken to protect our intellectual property will prevent its misappropriation or circumvention. In addition, there can be no assurance that any patent application, when filed, will result in an issued patent, or that our existing patents, or any patents that may be issued in the future, will provide us with significant protection against competitors. Moreover, there can be no assurance that any patents issued to or licensed by us will not be infringed upon or circumvented by others. Litigation to establish the validity of patents, to assert infringement claims against others, and to defend against patent infringement claims has been and is expected to continue to be expensive and time-consuming, even if the outcome is in our favor. We also rely to a lesser extent on unpatented proprietary technology, and no assurance can be given that others will not independently develop substantially equivalent proprietary information, techniques or processes or that we can meaningfully protect our rights to such unpatented proprietary technology. Infringement on our intellectual property or the development of substantially equivalent technology by our competitors could have a material adverse effect on our business.

Domestic and foreign government regulation and other factors could impair our ability to develop and sell our products in certain markets.

The electronic animal identification market can be negatively affected by such factors as food safety concerns, consumer perceptions regarding cost and efficacy, international technology standards, national infrastructures or programs, and slaughterhouse removal of microchips.

We are also subject to federal, state and local regulation in the United States, including regulation by the FDA, FCC and the USDA, and local regulation in other countries. We cannot predict the extent to which we may be affected by further legislative and regulatory developments concerning our products and markets. We are required to obtain regulatory approval before marketing most of our products. The regulatory process can be very time-consuming and costly, and there is no assurance that we will receive the regulatory approvals necessary to sell our products under development. Regulatory authorities also have the authority to revoke approval of previously approved products for cause, to request recalls of products and to close manufacturing plants in response to violations. Any such regulatory action, including the failure to obtain such approval, could prevent us from selling, or materially impair our ability to sell, our products in certain markets and could negatively affect our business.

We rely heavily on sales to government contractors of our animal identification products, and any decline in the demand by these customers for our products could negatively affect our business.

Certain customers for electronic identification devices for fish are government contractors that rely on funding from the United States government. Since these contractors rely heavily on government funds, any decline in the availability of such funds could result in a decreased demand by these contractors for our products. Any decrease in demand by such customers could have a material adverse effect on our financial condition and results of operations and result in a decline in the market value of our common stock.

We depend on a single production arrangement with Raytheon Microelectronics Espana, SA for our patented syringe-injectable microchips, and the loss of or any significant reduction in the production could have an adverse effect on our business.

We rely solely on a production arrangement with Raytheon Microelectronics Espana, SA for the manufacture of our patented syringe-injectable microchips that are used in all of our implantable electronic identification products. In addition, we have no formal written agreement with Raytheon for the production of our microchips. Raytheon utilizes our proprietary technology and our equipment in the production of our syringe-injectable microchips. The termination, or any significant reduction, by Raytheon of the assembly of our microchips or a material increase in the price charged by Raytheon for the assembly of our microchips could have an adverse effect on our financial condition and results of operations. In addition, Raytheon may not be able to produce sufficient quantities of the microchips to meet any significant increased demand for our products or to meet any such demand on a timely basis. Any inability or unwillingness of Raytheon to meet our demand for microchips would require us to utilize an alternative production arrangement and remove our automated assembly production machinery from the Raytheon facility, which would be costly and could delay production. Moreover, if Raytheon terminates our production arrangement, we cannot ensure that the assembly of our microchips from another source would be on comparable or acceptable terms. The failure to make such an alternative production arrangement could have an adverse effect on our business.

We depend on principal customers.

Our five largest customers, in aggregate, accounted for 23.0% of our consolidated revenue in the nine months ended September 30, 2005. Our subsidiary, Signature Industries, Ltd. is heavily dependent on contracts with domestic government agencies and foreign governments, including India and the United Kingdom, primarily relating to military applications. The loss of, or a significant reduction in, orders from these or our other major customers could have a material adverse effect on our financial condition and results of operations.

We compete with other companies in the visual and electronic identification and pilot locator beacon markets, and the products sold by our competitors could become more popular than our products or render our products obsolete.

The market for visual and electronic identification and pilot locator beacon products is highly competitive. We believe that our principal competitors in the visual identification market for livestock are AllFlex USA and Y-Text Corporation and that our principal competitors in the electronic identification market are AllFlex USA, Datamars SA and Avid Identification Systems, Inc. and that our principal competitors in the pilot locator beacon market are Boeing North American Inc., General Dynamics Decision Systems and Tadiran Spectralink Ltd.

In addition, other companies could enter this line of business in the future. Certain of our competitors have substantially greater financial and other resources than us. We may not be able to compete successfully with these competitors, and those competitors may develop or market technologies and products that are more widely accepted than ours or that would render our products obsolete or noncompetitive.

Our earnings will decline if we write off goodwill and other intangible assets.

As of September 30, 2005, we had recorded goodwill of \$53.6 million. On January 1, 2002, we adopted SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 142 requires that goodwill and certain intangibles no longer be amortized but instead be tested for impairment at least annually by applying a fair value based test. During the fourth quarter of 2003, the Company performed the annual impairment test for goodwill using a fair value based approach, primarily discounted cash flows. An evaluation of the Medical Systems reporting unit indicated that \$2.4 million of goodwill was impaired. Additionally, management estimated that certain intangible assets at our Medical Systems reporting unit were impaired by \$0.6 million. Accordingly, the Company recorded an impairment charge of \$3.0 million in the fourth quarter of 2003.

We assess the fair value of our goodwill annually or earlier if events occur or circumstances change that would more likely than not reduce the fair value of our goodwill below its carrying value. These events or circumstances would include a significant change in business climate, including a significant, sustained decline in an entity's market value, legal factors, operating performance indicators, competition, sale or disposition of a significant portion of the business, or other factors. If we determine that significant impairment has occurred, we would be required to write off the impaired portion of goodwill. Impairment charges could have a material adverse effect on our financial condition and results of operations.

The exercise of options and warrants outstanding and available for issuance may adversely affect the market price of our common stock.

As of September 30, 2005, we had 9,958,000 options and 530,000 warrants outstanding to purchase from us a total of 10,488,000 shares of common stock at exercise prices ranging from \$0.05 to \$10.50 per share. As of September 30, 2005 the weighted average exercise price of the options and warrants outstanding was \$3.89. The exercise of outstanding options and warrants and the sale in the public market of the shares purchased upon such exercise may adversely affect the market price of our common stock.

Currency exchange rate fluctuations could have an adverse effect on our sales and financial results.

We generate a portion of our sales and incur a portion of our expenses in currencies other than U.S. dollars. To the extent that we are unable to match revenues received in foreign currencies with costs paid in the same currency, exchange rate fluctuations in any such currency could have an adverse effect on our financial results.

We depend on a small team of senior management, and we may have difficulty attracting and retaining additional personnel.

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

Our future success will depend in large part upon the continued services and performance of senior management and other key personnel. If we lose the services of any member of our senior management team, our overall operations could be materially and adversely affected. In addition, our future success will depend on our ability to identify, attract, hire, train, retain and motivate other highly skilled technical, managerial, marketing, purchasing and customer service personnel when they are needed. Competition for these individuals is intense. We cannot ensure that we will be able to successfully attract, integrate or retain sufficiently qualified personnel when the need arises. Any failure to attract and retain the necessary technical, managerial, marketing, purchasing and customer service personnel could have a material adverse effect on our financial condition and results of operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We have operations and sales in various regions of the world. Additionally, we may export and import to and from other countries. Our operations may therefore be subject to volatility because of currency fluctuations, inflation, and changes in political and economic conditions in these countries. Sales and expenses may be denominated in local currencies and may be affected as currency fluctuations affect our product prices and operating costs or those of our competitors.

We presently do not use any derivative financial instruments to hedge our exposure to adverse fluctuations in interest rates, foreign exchange rates, fluctuations in commodity prices or other market risks, nor do we invest in speculative financial instruments.

Item 4. Controls and Procedures

As of the end of the period covered by this Form 10-Q, we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

During the period covered by the Form 10-Q, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

Digital Angel Corporation vs. Allflex USA, Inc and Pet Health Services (USA), Inc.

On October 20, 2004, the Company commenced an action in the United States District Court for the District of Minnesota against AllFlex USA, Inc. and Pet Health Services (USA), Inc. This suit claimed that Allflex is marketing and selling a syringe implantable identification

Edgar Filing: DIGITAL ANGEL CORP - Form 10-Q

transponder that infringes a 1993 patent granted to the Company for syringe implantable identification transponders previously found by the United States District Court for the District of Colorado to be enforceable. The suit also claimed that PetHealth is using, selling and/or distributing the same transponder in violation of the Company's patent. The suit sought, among other things, an adjudication of infringement and that the infringing parties be enjoined from further improper action. The suit sought actual damages, punitive damages and interest, costs and attorneys' fees. Allflex asserted a counterclaim for breach of contract of an existing license agreement between the Company and Allflex and asserted a counterclaim seeking a declaration of the parties' rights and obligations under the license agreement. Allflex also moved for a judgment on the pleadings, asserting that the license agreement should act as a bar to a case for infringement. The Company contested the motion on the ground that Allflex's actions exceed the scope of the license and constituted an impermissible infringement of the patent and asked the Court for leave to amend the complaint to assert a claim against a separate patent licensed exclusively to the Company by Bio Medic Data Systems. On June 23, 2005, the Court issued a ruling granting the Defendant's motion for judgment on the pleadings and denying the Company's motion for leave to amend.

On July 21, 2005, Allflex filed an action in the United States District Court for the Northern District of Texas seeking a declaratory judgment that it did not infringe the Bio Medic patent. The Company has not been served with this complaint and Allflex has agreed to withdraw the complaint without prejudice.

On September 28, 2005, Allflex sought an award of attorneys' fees and costs based on a fee-shifting clause in the license agreement and under 35 U.S.C. §285, which provides for an award of attorneys' fees and costs in exceptional cases. The Company contested this motion, and on October 6, 2005, the Court denied the motion in its entirety. Final judgment in the action has not yet entered, and the Company is considering whether to appeal the Court's ruling granting judgment on the pleadings.

Digital Angel Corporation vs. Datamars, Inc., Datamars, S.A., The Crystal Import Corporation and Medical Management International, Inc.

On October 20, 2004, the Company commenced an action in the United States District Court for the District of Minnesota against Datamars, Inc., Datamars, S.A., The Crystal Import Corporation, and Medical Management International, Inc. (Banfield). This suit claims that the defendants are marketing and selling syringe implantable identification transponders manufactured by Datamars that infringe the Company's 1993 patent for syringe implantable identification transponders previously found by the United States District Court for the District of Colorado to be enforceable. Certain of the locations in which the infringing transponders are sold, include, but are not limited to, Banfield, The Pet Hospital of which certain locations are associated with PetSmart stores. The suit seeks, among other things, an adjudication of infringement and that the infringing parties be enjoined from further improper action. The suit also seeks actual damages, punitive damages and interest, costs and attorneys' fees. The Company believes that the suit is well-grounded in law and fact. Discovery in the action has been commenced and is continuing.

Crystal v. Digital Angel, et al.

On or about December 29, 2004 The Crystal Import Corporation filed an action against AVID Identification Systems, Inc. and the Company in the United States District Court for the Northern District of Alabama. Crystal's complaint primarily asserted federal and state antitrust and related claims against AVID, though it also asserted similar claims against the Company. The Company filed a motion to dismiss the action for failure to state a claim on which relief could be granted, or in the alternative, to have the action transferred to the United States District Court for the District of Minnesota for consolidation with the Datamars patent infringement action referred to above or to have the action stayed until the completion of the Datamars action. On October 12, 2005, the Alabama Court denied the Company's motion to dismiss the complaint, but granted the Company's motion to transfer the action to Minnesota, where the Company intends to seek to consolidate the action with the patent infringement action. Given the uncertainties associated with all litigation and given the early stage of this proceeding, the Company is unable to offer any assessment on the potential liability exposure, if any, to the Company from this lawsuit

Item 6. Exhibits

(a) Exhibits

- 3.1 Amended and Restated Certificate of Incorporation (incorporated by reference to Exhibit 3.1 to Amendment No. 1 to our Registration Statement on Form S-3 (No. 333-110817) filed on January 23, 2004)
- 3.2 Bylaws (incorporated by reference to Exhibit 3.2 to Amendment No. 1 to our Registration Statement on Form S-3 (No. 333-110817) filed on January 23, 2004)
- 31.1 Certification of Chief Executive Officer under Rules 13a-14(a)/15d-14(a) under the Securities and Exchange Act and Section 302 of the Sarbanes-Oxley Act of 2002.
