NOTES TO SCHEDULE OF INVESTMENTS:

- * Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. Portfolio securities and other financial instruments for which market quotations are not easily available or if a development / event occurs that may impact the value of a security, may be fair-valued pursuant to procedures established by the Board of Trustees, including certain fixed income securities which may be valued with reference to securities whose prices are more readily available. The Fund's investments are valued weekly by an independent pricing service or are valued at the last sale price on the exchange that is the primary market for such securities, or the last quoted bid price for those securities for which the over-the-counter market is the primary market or for listed securities in which there were no sales. Independent pricing services use information provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics for which a secondary market exists. Senior Loans for which a secondary market does not exist, are valued at fair-value by Pacific Investment Management Company LLC, the Fund's Sub-Adviser, pursuant to procedures approved by the Board of Trustees. Such procedures may include consideration and evaluation of: (1) the creditworthiness of the borrower and any intermediate participants; (2) the term of the Senior Loan; (3) recent prices in the market for similar loans, if any; (4) recent prices in the market for loans of similar quality, coupon rate, and period until next interest rate reset and maturity; and (5) general economic and market conditions affecting the fair-value of the Senior Loan. Exchange traded options are valued at the settlement price determined by the relevant exchange. Short-term investments maturing in 60 days or less are valued at amortized cost, if their original term to maturity was 60 days or less, or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days. The prices used by the Fund to value securities may differ from the value that would be realized if the securities were sold. The Fund's net asset value is determined weekly at the close of regular trading (normally, 4:00 p.m. Eastern time) on the New York Stock Exchange on the last business day of the week.
- (a) Private Placement. Restricted as to resale and may not have a readily available market.
- (b) Illiquid security.
- (c) These securities generally pay interest at rates which are periodically pre-determined by reference to a base lending rate plus a premium. These base lending rates are generally either the lending rate offered by one or more major European banks, such as the LIBOR or the prime rate offered by one or more major United States banks, or the certificate of deposit rate. These securities are generally considered to be restricted as the Fund is ordinarily contractually obligated to receive approval from the Agent bank and/or borrower prior to disposition. Remaining maturities of senior loans may be less than the stated maturities shown as a result of contractual or optional payments by the borrower. Such prepayments cannot be predicted with certainty.

Edgar Filing: PIMCO FLOATING RATE INCOME FUND - Form N-Q

- (d) 144A Security Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, typically only to qualified institutional buyers. Unless otherwise indicated, these securities are not considered to be illiquid.
- (e) When-issued or delayed-delivery security. To be settled/delivered after October 31, 2005.
- (f) Unsettled security, coupon rate undetermined at October 31, 2005.
- (g) Fair-valued security.
- (h) All or partial amount segregated as collateral for futures contracts, when-issued or delayed-delivery securities.
- (i) Non-income producing.
