Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of
Enbridge Employee Services, Inc. Employees Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Enbridge Employee Services, Inc. Employees Savings Plan (the Plan) at December 31, 2005 and 2004, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of Assets (Held at End of Year) and Reportable Transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan s management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE A - DESCRIPTION OF THE PLAN

General: The following is a general description of the Enbridge Employee Services, Inc. Employees Savings Plan (the Plan) and is qualified in its entirety by reference to the Plan Document as amended. Participants should refer to the Plan Document for a more complete description of its provisions. The Plan provides a program whereby eligible participants may accumulate savings on a regular basis. The Plan is a defined contribution plan intended to satisfy the requirements of Section 401(a) of the Internal Revenue Code of 1986, as amended (the Code), and the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan allows participants to contribute to the Plan on a pre-tax basis pursuant to Section 401(k) of the Code and provides for employer matching contributions pursuant to Section 401(m) of the Code.

Enbridge Employee Services, Inc. (the Company) is the Plan Sponsor (the Plan Sponsor). The Plan is administered by the Plan Sponsor and advised by a committee whose members are appointed by the Plan Sponsor, the Pension Administration Committee (the PAC). T. Rowe Price Trust Company (the Trustee) is the Trustee for the Plan. T. Rowe Price Retirement Plan Services, Inc. has been designated recordkeeper of the Plan by the PAC.

All regular employees of the Company are eligible to participate in the Plan as soon as administratively possible following their date of hire. Temporary employees are eligible to participate after a year of service as defined in the Plan.

The Plan was amended in 2005 to clarify certain Plan language and definitions. Additional amendments to the Plan in 2005 provide for automatic enrollment of new employees in the Plan effective October 1, 2004, at a deferral rate of 2% of Credited Compensation, as well as clarification of the timing and manner of distributions of any accrued benefit with a lump sum value greater than \$1. Provisions were also added to recognize prior service under the Plan for employees who were hired by the Sponsor in connection with the acquisition of the assets of Kahuna Gas, LLC, U.S. Oil Co., Inc., Shell US Gas and Power LLC, and Devon Gas Services. The Plan was amended in April 2004 and March 2005 in connection with the acquisitions of certain entities in 2004 and the related hiring of employees associated with the entities acquired. The Board of Directors of the Company continues to have authority to amend the Plan in any regard at any time.

Contributions: All contributions made to the Plan are invested by the Trustee as they are received from the Company. Participants are entitled to make pre-tax contributions to the Plan by electing to contribute a specified percentage of their compensation, up to 50%, but in no event in excess of the statutory maximum contribution amount, which for 2005 and 2004 was \$14 and \$13, respectively. The statutory maximum amount is increased by the catch-up contribution amount of \$4 and \$3 for 2005 and 2004, respectively, for anyone who attained age 50 or older during the year.

The Company will match 100% of a participant's pre-tax contributions (not including the catch-up contribution) up to the percentages of compensation set forth below, based on the participant's years of service:

Less than one year of service:	2% match
One year of service:	3% match
Two years of service:	4% match
Three or more years of service:	5% match

Service for designated affiliates and predecessor employers may be taken into account for this purpose, as designated in the Plan.

Edgar Filing: ENBRIDGE INC - Form 11-K

Participant contributions are invested at the discretion of each participant in one or more of the investment options discussed below. A participant contributes to the Plan by electing to defer a portion of his or her salary that would otherwise be payable to such participant. All matching contributions are made in Enbridge Inc. Stock. At the participants discretion, and subject to the terms of the Plan, the participants may transfer up to 50% of the matched contributions to the remaining investment options available under the Plan.

6

Vesting: Participants are fully vested in all contributions to the Plan. Neither an amendment to the Plan nor the termination of the Plan may reduce the vested amount credited to any participant's account without the consent of the participant, unless such reduction is necessary to 1) comply with applicable regulatory requirements; 2) enable the Plan to remain qualified; or 3) enable the contributions by the Company to the Plan to be deductible. In addition, neither the amendment nor the termination of the Plan may have the effect of giving the Company any interest in the Plan's assets, nor divert any assets to purposes other than for the exclusive benefit of participants and their beneficiaries. In the event of Plan termination, the Company will make distributions to participants as soon as administratively feasible.

Plan Termination: Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the Plan assets will be valued as of the date of such termination or discontinuance, and after crediting any increase or charging any decrease to all accounts then existing, the Plan shall distribute the full amount of each participant's account.

Investment options: A brief description of the Plan's investment options follows. For a detailed description of the investment options and respective risk profiles, refer to each respective fund's prospectus.

Investments at Quoted Market Price:

Enbridge Inc. Stock Fund - The Enbridge Inc. Stock Fund seeks capital appreciation and current income by investing in the common stock of Enbridge Inc., the ultimate parent company of the Company.

T. Rowe Price U.S. Treasury Intermediate Bond Fund - The T. Rowe Price U.S. Treasury Intermediate Bond Fund seeks a high level of income consistent with maximum credit protection and moderate fluctuation in principal by investing in U.S. Government obligations, mortgage and asset backed securities and investment grade corporate debt issues having a remaining effective maturity of no more than 10 years from the time of purchase. The Plan no longer offers this fund as an investment option. Effective October 1, 2004, the T. Rowe Price Spectrum Income Fund replaced the T. Rowe Price U.S. Treasury Intermediate Fund as an income investment option. If plan participants had assets in the U.S. Treasury Intermediate Fund, they had until March 31, 2005 to request an exchange to a new investment option(s). Any assets remaining in the U.S. Treasury Intermediate Fund at that time were transferred to the Spectrum Income Fund.

Dodge & Cox Balanced Fund - The Dodge & Cox Balanced Fund seeks income, conservation of principal, and long-term growth of principal and income. Stocks generally compose 60-65% of the fund's assets, bonds 30% to 40%, and up to 5% in cash, but the fund may hold up to 75% of assets in common stocks and convertibles. The stock portion of the fund is invested in well established companies, while the balance of the fund's assets are invested in high-quality, fixed income securities, such as U.S. Treasuries, mortgage backed securities, and corporate bonds.

T. Rowe Price Equity Income Fund - The T. Rowe Price Equity Income Fund seeks substantial dividend income as well as long-term growth of capital by investing primarily in dividend-paying common stocks of established companies.

T. Rowe Price Mid-Cap Growth Fund - The T. Rowe Price Mid-cap Growth Fund seeks long-term growth of capital by investing primarily in the common stocks of medium-sized companies with potential for above-average growth.

T. Rowe Price International Stock Fund - The T. Rowe Price International Stock Fund seeks long-term growth of capital through investments primarily in the common stocks of established non-U.S. companies.

T. Rowe Price Small-Cap Stock Fund- The Small-Cap Stock Fund seeks long-term growth of capital through investments in stocks of small companies. A small company is defined as having a market capitalization that falls (i) within or below the range of companies in either the current Russell 2000 Index or the S&P Small-Cap 600 Index or (ii) below the three-year average maximum market cap of companies in either index as of December 31 of the three preceding years.

T. Rowe Price Blue Chip Growth Fund - The Blue Chip Growth Fund seeks long-term growth of capital through investing primarily in common stocks of well-established companies with the potential for above-average growth in earnings.

T. Rowe Price Spectrum Income Fund The Spectrum Income Fund seeks a high level of current income with moderate price fluctuations by investing in a diversified group of T. Rowe Price mutual funds that invest primarily in fixed income securities.

7

Common and Collective Trust Funds:

T. Rowe Price Stable Value Fund - The T. Rowe Price Stable Value Fund seeks to provide a competitive yield while maintaining principal stability by investing primarily in a diversified portfolio of structured investment contracts and guaranteed investment contracts issued by insurance companies and banks.

T. Rowe Price Equity Index Trust - The T. Rowe Price Equity Index Trust seeks to replicate as closely as possible the total return performance of the Standard & Poor's 500 Composite Index.

Participant Loans: The Plan allows participants to borrow from their fund accounts, a minimum of \$1 up to a maximum of \$50 (\$25 prior to November 8, 2002) or 50% of their account balance, whichever is less. The maximum loan amount is reduced by the excess of the highest outstanding balance of loans from the Plan during the one-year period ending on the day before the date on which the loan was made over the outstanding balance of loans from the Plan on the date on which the loan was made. A loan is secured by the balance in the participant's account and bears interest at a rate of one percent above the prime rate as of the first business day of the month in which the loan is to be funded. Loans are to be repaid by payroll deduction not less frequently than quarterly over a period not to exceed five years as elected by the participant. Participants may have no more than two loans outstanding (one loan limit prior to November 8, 2002). Upon termination of employment, a participant may continue to repay the loan by personal check each month. If a participant fails to repay a loan according to its terms, the Trustee will declare the loan in default and, if the participant is entitled to receive a distribution from the Plan, the participant will be considered as receiving a distribution in the amount of the outstanding balance on the loan and, if the participant is not entitled to a distribution, the participant will receive a deemed distribution in the amount of the outstanding balance on the loan. The Plan had 24 deemed distributions for the year ended December 31, 2005 and no deemed distributions during the year ended December 31, 2004. The participant loans outstanding at December 31, 2005 and 2004 were \$2,719 and \$2,344, respectively. The ranges of interest rates charged to participants for outstanding loans were between 5% and 10.5% during the years 2005 and 2004.

Payment of Benefits: Upon retirement or termination of employment, a participant may elect to receive the value of the participant's account in any of the following forms of distribution: a lump sum, installments over a period elected by the participant or in two or more withdrawals, any one of which may be no less than \$1 and which may be taken no more frequently than once each calendar quarter. Distributions must commence no later than the required beginning date as set forth in the Plan. Assets of \$9,032 and \$3,269 associated with former employees were included in the total plan assets for the years ended December 31, 2005 and 2004, respectively.

The Plan also permits withdrawals of pre-tax elective deferral contributions in the event of a hardship. Hardship for this purpose is defined as an immediate and heavy financial need that cannot be satisfied from other sources and that is for the payment of medical expenses, purchase of a principal residence, payment of tuition and related fees for a year of post-secondary education, or payments necessary to prevent the eviction of the participant or the foreclosure of the mortgage on the participant's primary residence.

Administrative Expenses: The Company may pay the Trustee fees, brokerage fees, and other administrative expenses incident to administering the Plan, but is not obligated to do so. If the Company does not do so, such costs may be charged against the Plan assets. Loan processing fees are paid by the Plan and are deducted from the individual participant's accounts when the loan is issued. Administrative expenses related to the 2005 and 2004 plan year were paid by the Company. Administrative expenses paid by the Company were \$48 and \$39 for 2005 and 2004, respectively.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Presentation: The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America. The preparation of the

Plan financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

8

Valuation of Investments and Income Recognition: The Plan's investments are stated at fair value. Shares of corporate stock and registered investment companies are valued using quoted market prices. Shares of common and collective funds are valued using amounts reported by the Trustee. Amounts reported by the Trustee are stated at fair value as determined in good faith by or under the supervision of the Trustee. Participant loans are stated at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation and depreciation in fair value of investments, which consists of net realized gains and losses and the unrealized appreciation and depreciation on those investments.

Benefit Payments: Benefit distributions are recorded when paid.

Risks and Uncertainties: The Plan provides investment options in various combinations of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially adversely affect participant account balances and the amounts reported in the financial statements.

NOTE C - INCOME TAX STATUS

By resolution of the Board of Directors of Enbridge (U.S.) Inc. effective February 28, 2002, the Plan was amended and restated to comply with law changes (commonly referred to as "GUST" amendments), to incorporate Plan amendments since its last restatement and to make amendments required by the Economic Growth and Tax Relief Reconciliation Act of 2001. The restated Plan was submitted to the Internal Revenue Service on February 28, 2002, which issued a favorable tax determination letter on January 30, 2003. The plan has been amended since receiving the determination letter (see Note A). Where operational non-compliance has been discovered, the Company has taken action, with the assistance of legal counsel, to correct such non-compliance in accordance with applicable IRS guidance. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

NOTE D - INVESTMENTS

The fair values of individual investments that represent 5% or more of the Plan's net assets are as follows:

	December 31,	
	2005	2004
<u>Participant Directed</u>		
Dodge and Cox Balanced Fund	\$ 28,212	\$ 26,137
T. Rowe Price Equity Income Fund	7,963	7,320
T. Rowe Price Mid-Cap Growth Fund	19,899	18,028
T. Rowe Price Stable Value Fund	17,071	17,442
Enbridge Inc. Stock Fund	38,756	24,576
<u>Non-participant Directed</u>		
Enbridge Inc. Stock Fund	12,563
