Approximate Date of Commencement of Proposed Sale to the Public: As soon as practicable after the Registration Statement becomes effective.

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933, as amended (the Securities Act), check the following box.

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

CALCULATION OF REGISTRATION FEE

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

Title of Each Class of Securities to be Registered	Amount to be Registered	Proposed Maximum Offering Price Per Unit	Proposed Maximum Aggregate Offering Price	Amount of Registration Fee
Common Shares, no par value	34,139,903	\$ 0.11	\$ 3,755,389(1)	\$ 401.83(3)
Common Shares, no par value, underlying certain of selling shareholders warrants	1,851,852	\$ 0.27	\$ 500,000(2)	\$ 53.50(3)
Common Shares, no par value, underlying certain of selling shareholders warrants	300,000	\$ 0.11	\$ 33,000(2)	\$ 3.53(3)
Total	36,291,755		\$	\$ 458.86

-
- (1) Estimated solely for purposes of calculating the registration fee pursuant to Rule 457(c) under the Securities Act of 1933, as amended. The average of the high and low prices as of June 16, 2006 was \$0.11 per share.
- (2) In accordance with Rule 457(g), the proposed maximum aggregate offering price of shares issuable upon the exercise of warrants is based on a proposed maximum offering price per unit equal to the higher of (i) the exercise price of the warrants, (ii) the offering price of the common shares in the registration statement, or (iii) the average sales price of the common shares as determined by 457(c).
- (3) Previously paid.

This registration statement contains a combined prospectus under Rule 429 under the Securities Act, which relates to the 36,291,755 shares reflected in the calculation of registration fee table and to 7,044,583 shares previously registered under the Securities Act on the registration statement on Form S-2, as amended, bearing File No. 333-121038. Accordingly, upon effectiveness, this registration statement shall act as a post-effective amendment to such registration statement on Form S-2.

The registrant hereby amends this registration statement on such date or dates as may be necessary to delay its effective date until the registrant shall file a further amendment which specifically states that this registration statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the registration statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

Subject to Completion, dated January 19, 2007

PROSPECTUS

43,336,338 Common Shares
Spescom Software Inc.

The selling shareholders named in this prospectus are offering up to 43,336,338 of our common shares, including up to 33,793,103 common shares to be issued upon conversion of Series I Preferred Stock and 6,726,852 common shares issuable upon the exercise of certain warrants. We will not receive any of the proceeds from their sale of our shares, but if the selling shareholders pay the exercise price under any of the warrants in cash, we will use those proceeds for general corporate purposes, including working capital.

Our common shares are currently listed on the Over the Counter Bulletin Board (OTCBB). Our trading symbol is SPCO.OB.

Investing in our shares involves a high degree of risk. See Risk Factors beginning on page 5 of this prospectus to read about the risks you should consider before buying our shares.

The selling shareholders are offering these common shares. The selling shareholders may sell all or a portion of these shares from time to time in market transactions through any market on which our common shares are then traded, in negotiated transactions or otherwise, and at prices and on terms that will be determined by the then prevailing market price or at negotiated prices directly or through a broker or brokers, who may act as agent or as principal or by a combination of such methods of sale. The selling shareholders will receive all proceeds from the sale of the common shares. For additional information on the methods of sale, you should refer to the section entitled Plan of Distribution.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is January 19, 2007

PROSPECTUS SUMMARY

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

This summary highlights information contained elsewhere in this prospectus. Because it is a summary, it does not contain all of the information that you should consider before investing in us. You should read the entire prospectus carefully before making an investment decision. The sections entitled Risk Factors, and Information Regarding Forward-Looking Statements should be read together with the more detailed information in the financial statements and the accompanying notes in the section entitled Financial Statements and Certain Other Financial Information. In this prospectus, references to the Company, we, us or our refer to Spescom Software Inc., except where the context otherwise requires.

Our Company

Overview

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

Spescom Software Inc. (the Company) was founded and incorporated as a California corporation in 1981 and is headquartered in San Diego, California with an international sales and support subsidiary in London, United Kingdom. The Company develops, markets and supports eB, its integrated suite of collaborative document, configuration and records management software solutions. The Company's eB suite is a set of software technologies that support, improve and enable collaboration among legacy enterprise solutions. The eB suite enables the efficient capture, management and distribution of all types of information across an enterprise. The Company believes eB's integration of document, configuration and records management functionality onto a single platform is a major differentiator and significant competitive advantage that allows the Company to address the information management needs of an enterprise in a more holistic manner than solutions provided by other vendors.

In 2000, the Company acquired the rights to certain configuration management technology and skills from Spescom Ltd. (Spescom Ltd.), which at the same time acquired a controlling interest in the Company. From this combination of document and configuration management technologies and skills, the Company began doing business as Spescom Software Inc. on October 1, 2001. As of January 16, 2007, Spescom Ltd. owned approximately 56% of the outstanding common shares of the Company after giving effect to the conversion of the shares of the Company's Series F Preferred Stock held by Spescom Ltd.

The document/content management technology developed by the Company and integrated with the configuration management technology developed by Spescom Ltd. provides a powerful solution to the business and information management challenges faced by enterprises that design, build, manage and operate complex products and assets. The combined document and configuration management capabilities of the eB software suite enables it to provide full IDM functionality together with PDM functionality at price points that satisfy a broad range of user needs. The eB suite enables the management of all unstructured information (documents/content) as well as structured information (product/asset/process) on a single platform, thereby enabling change to be managed across both environments.

The Company's integrated document, configuration and records management (iDCR) solutions enable all requirements (design, safety, environmental, etc.), all documents, structured and unstructured, within an enterprise (including office documents, emails, CAD drawings, images, voice and computer print outs), and all data on products, assets, processes, projects and people to be captured, identified and inter-linked. This results in a unified and structured view of all enterprise information and promotes rapid access to relevant information by authorized users in context to their tasks and functions. eB's collaborative workspace environment provides an automated closed-loop change management process that ensures information integrity throughout the enterprise and compliance with legal, regulatory, corporate, audit and quality requirements.

The Company is building its business strategies around two core strengths. First, the Company's software and related services solve critical and recurring problems for companies operating in complex, asset-intensive industries. Second, the Company's software solutions have clear and significant architectural advantages that enable the Company to offer high value solutions to the Company's users as well as to distinguish itself from its competitors. To capitalize on these strengths, the Company has instituted the following strategic initiatives:

Continue to develop and position eB as a critical but complementary enterprise platform.

Continue direct sales in the Company's vertical markets.

Form product strategic partnering agreements to be able to provide more enhanced solutions

Enter new markets through increased investment in and expansion of strategic partnerships.

Outsource non-core operations.

Increase the Company's market presence.

The Company intends to continue to extend its position as a technology leader in developing and marketing integrated document, configuration and records management solutions. The Company intends to do this by continuing to enhance the features and functionality of its eB product suite using industry best practices, customer input and feedback and current technologies, including tools to allow users to tailor the look and feel of the product, administrative tools to enable systems operators to easily setup and make changes to the system and add tighter integration with other third party enterprise products. Through this enhanced functionality and integration the Company's products can provide even faster deployment and greater management control of enterprise information. The Company also plans to introduce new products and product extensions which are complementary to its existing suite of products and which address both existing and emerging market needs.

During 2005, the Company released a major update to eB 14 which is the Company's flagship platform based on the Microsoft .NET architecture. This platform has over two years of proven production use in high-volume / high-usage environments. Existing customers continue to migrate to eB Version 14, generating service revenue and new license opportunities. The Company expects that the migration of existing customers will take place over the next 18 months. In 2005, the eB product was certified by the Institute of Configuration Management, to be compliant with their CMII standard. The Company is developing specific applications for the vertical markets on which the Company has focused, providing additional license and services revenue from existing customers, as well as new marketing and sales opportunities into the selected vertical markets. The Company obtained Gold Partner status from Microsoft during 2005 and is currently participating in Microsoft beta and new product launch programs, which allows the Company to properly plan for support of the latest and soon to be released computing environments. In December 2006, the Company announced the ability of eB to manage the integrity of documents stored in a Microsoft Office 2007 Server (SharePoint), making it even easier to deploy eB solutions within an enterprise.

The Company's principal executive offices are located at 10052 Mesa Ridge Court, Suite 100, San Diego, California 92121 and the Company's general telephone number is (858) 625-3000.

This Offering

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

Shares offered by the selling shareholders	43,336,338, including 33,793,103 shares of common stock issuable upon conversion of the Company's Series I Preferred Stock and 6,726,852 shares of common stock issuable upon exercise of warrants (collectively, the Warrants).
Use of proceeds	We will not receive any proceeds from the sale of common shares by the selling shareholders. The proceeds from this offering are solely for the account of the selling shareholders. We may receive proceeds from any exercise of the Warrants. Any net proceeds that we receive from any exercise of the Warrants will be used for general corporate purposes, including working capital for our business.
Risk factors	The purchase of our common stock involves a high degree of risk. You should carefully review and consider Risk Factors beginning on page 5.
OTC Bulletin Board Trading Symbol	SPCO.OB

RISK FACTORS

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

An investment in our shares involves a high degree of risk. Before making an investment decision, you should carefully consider all of the risks described in this prospectus. If any of the risks discussed in this prospectus actually occur, our business, financial condition and results of operations could be materially and adversely affected. If this were to happen, the price of our shares could decline significantly and you may lose all or a part of your investment. The risk factors described below are not the only ones that may affect us. Additional risks and uncertainties that we do not currently know about or that we currently deem immaterial may also adversely affect our business, financial condition and results of operations. Our forward-looking statements in this prospectus are subject to the following risks and uncertainties. Our actual results could differ materially from those anticipated by our forward-looking statements as a result of the risk factors below. See Information Regarding Forward-Looking Statements.

The Company has a history of significant losses. If we do not sustain profitability, our financial condition and stock price could suffer.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company has a history of losses and may incur losses in the foreseeable future. We incurred net losses of \$2,376,000, \$6,049,000 and \$223,000 for the fiscal years 2006, 2005 and 2004, respectively. As of September 30, 2006, our accumulated deficit was \$92,313,000. If revenues do not reach the levels the Company anticipates, or if operating expenses exceed the Company's expectations, the Company may not be able to achieve or sustain profitability in the near future or at all. If the Company is unable to achieve and sustain profitability at satisfactory levels, its financial condition and stock price could be materially adversely affected.

The Company will be controlled by Spescom Ltd. and its subsidiaries as long as they are entitled to a majority of the votes eligible to be cast in the election of directors.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

As of January 16, 2007, Spescom Ltd. (together with its subsidiaries), by virtue of its ownership of common stock and Series F Preferred Stock, was entitled to 27,408,249, or 56%, of the total number of votes eligible to be cast in the election of directors. Spescom Ltd. therefore currently has the ability to elect a majority of the Company's board of directors and to remove the entire board of directors, with or without cause, without calling a special meeting. Moreover, even if the above-referenced percentage were to drop below 50%, it is likely that Spescom Ltd. would have sufficient votes to retain control of the Company. As a result, Spescom Ltd. will likely continue to control all matters affecting the Company, including but not limited to:

the composition of the Company's board of directors and, through it, any determination with respect to the Company's business direction and policies, including the appointment and removal of officers;

the allocation of business opportunities that may be suitable for the Company and Spescom Ltd.;

any determinations with respect to mergers or other business combinations or extraordinary transactions;

the Company's acquisition or disposition of assets; and

the Company's financing.

Spescom Ltd. is not prohibited from selling a controlling interest in us to a third party.

Upon a liquidation of the Company, sale of all or substantially all of the Company's assets, or merger of the Company, the Company's preferred shareholders would be entitled to receive substantial payments prior to any distribution to the common shareholders.

Upon a liquidation of the Company, the holders of Series F Convertible Preferred Stock would be entitled to receive, prior to any distribution to the holders of common stock, an aggregate amount equal to \$5,291,000 plus accrued but unpaid dividends per share and interest on all such dividends, which as of December 31, 2006 totaled \$971,000. Upon a liquidation of the Company, sale of all or substantially all of the Company's assets, or merger of the Company, prior to any distribution or payment of merger consideration to the holders of common stock, the holders of Series I Convertible Preferred Stock would be entitled to receive an aggregate amount equal to the higher of (i) \$2,450,000 plus declared but unpaid dividends per share, which as of December 31, 2006 totaled \$46,000 and (ii) the amount such holders would be entitled to receive had such holders' shares of Series I Preferred Stock been converted into shares of common stock immediately prior to the liquidation, sale of assets or merger in accordance with the terms of the Series I Preferred Stock.

The Company has borrowed funds from Spescom Ltd., which debts are secured by all of the Company's assets, and the Company may become insolvent if repayment of such debt is due prior to the Company's ability to obtain funds to repay such debt or if the Company fails to restructure such debt.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

At December 31, 2006, the Company owed, including accrued but unpaid interest, an aggregate amount of \$873,000 to Spescom Ltd. Interest accrues on such debt at an annual interest rate of 10%, and such debt is secured by a security interest in favor of Spescom Ltd. on all of the Company's assets. In January 2007 the Company paid \$200,000 on the debt to Spescom Ltd. For the balance of the debt Spescom Ltd. has agreed to extend the maturity date until October 1, 2007. If the Company is unable to generate sufficient cash flow from its operations, secure funds from the capital markets or lenders or restructure its debt to Spescom Ltd., the Company will become insolvent.

The Company will likely not be able to rely on Spescom Ltd. to fund its future capital requirements, and financing from other sources may not be available on favorable terms or at all.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company may need financing in the future and such financing may not be available on favorable terms or at all from any source. Although the Company in the past has received funding from Spescom Ltd. for working capital purposes, the Company believes that, due to Spescom Ltd. s current financial condition, it is unlikely that Spescom Ltd. would provide additional financing. In addition, if Spescom Ltd. were able to provide additional loans on terms acceptable to the Company, the funding of such loans could be delayed or prevented by currency exchange regulations of the Republic of South Africa, under which Spescom Ltd. is required to apply for and obtain the approval of the South African Reserve Bank before providing any funds to the Company.

The Company believes its capital requirements will vary greatly from quarter to quarter, depending on, among other things, capital expenditures, fluctuations in its operating results, financing activities, and investments and third party products and receivables management. The Company s future liquidity will depend on its ability to generate new system sales of its eB product suite in the near term, which cannot be assured. Failure to generate sufficient system sales to meet the Company s cash flow needs can be expected to have a material adverse effect on the Company s business, results of operations, and financial condition. Management believes that the Company s current cash and receivables, as well as additional cash that may be generated from operations, will be sufficient to meet its short-term needs for working capital. However, the Company may not be able to obtain sufficient orders to enable the Company to achieve a sustained break-even level of cash flow, which would be necessary to continue operations in the absence of further financing. Future equity financings would be dilutive to the existing holders of the Company s common stock. Future debt financings could involve restrictive covenants. Moreover, the Company may not be able to attract equity or debt financing at all.

The Company is dependent on sales to a relatively small number of new customers each quarter, so any failure to close a sale to any customer could have a material adverse effect on its quarterly operating results.

A small number of customers has typically accounted, and will continue in the future to account, for a large percentage of the Company's annual revenues. Constellation Energy Group accounted for 13% of revenue for fiscal 2006. Network Rail accounted 16% of the Company's revenues in fiscal 2005. Network Rail and Constellation Energy Group accounted for 23% and 15%, respectively, of revenues for fiscal 2004. Because of the Company's reliance on sales to relatively few customers, the loss of any sale could have a material adverse effect on the results of its operations on any given quarter. Additionally, a significant portion of the Company's revenues has historically been, and is expected in the future to be, derived from the sale of systems to new customers. The Company generally incurs significant marketing and sales expense prior to entering into a contract with a new customer that generates revenues. The length of time it takes to establish a new customer relationship typically ranges from 6 to 12 months. As such, the Company may incur significant expenses associated with its sales efforts directed to prospective customers in any particular period before any associated revenues stream begins. If the Company is not successful at obtaining significant new customers or if a small number of customers cancel or delay their orders for its products, then its business and its prospects could be harmed which may cause the price of the Company's common stock to decline.

The Company has granted a source code license in the eB product suite to Aveva Solutions Limited and could face competition from the offering by that company or one of its sublicensees of products with substantially the same functionality as the eB product suite.

On October 2, 2006, the Company entered into a \$2 million licensing contract with an engineering IT solutions and services company, Aveva Solutions Limited (AVEVA), by which the Company granted to AVEVA a non-exclusive perpetual license to use and sublicense (subject to certain restrictions described below) the technology underlying the Company's eB product suite, including the source code of the eB product suite. However, prior to October 2, 2007, AVEVA may not actively offer a product that includes substantial functionality from the eB product suite to specified customers of the Company, which comprise substantially all of the Company's customers. In addition, prior to March 31, 2008, AVEVA may not (1) sublicense the source code of the eB product suite or any derivative of it (except to third party contractors under limited circumstances) or (2) sublicense the eB product suite or any derivative of it when such technology is not included with other products (except to existing customers of AVEVA's parent company, Aveva Group plc, and certain of its affiliates). Nevertheless, subject to the foregoing restrictions, AVEVA or a party to whom AVEVA grants a sublicense could offer products using the Company's source code and providing substantially the same functionality as the eB product suite, which could have a material adverse impact on the Company's business, results of operations, and financial condition. The Company is not aware, however, that AVEVA has undertaken or intends to undertake any activities using the licensed technology that are in direct competition with the Company's business. Furthermore, the Company believes, based on communications with AVEVA, that AVEVA intends to use the licensed technology only in products designed for use in and offered to business segments that the Company does not currently serve or intend to serve.

The Company's operating results are difficult to predict and fluctuate substantially from quarter to quarter and year to year, which may increase the difficulty of financial planning and forecasting and may result in declines in the Company's stock price.

The Company's future operating results may vary from the Company's past operating results, are difficult to predict and may vary from year to year due to a number of factors. Many of these factors are beyond the Company's control. These factors include:

the potential delay in recognizing revenue from license transactions due to revenue recognition rules which the Company must follow;

the tendency to realize a substantial amount of revenue in the last weeks, or even days, of each quarter due to the tendency of some of the Company's customers to wait until quarter or year end in the hope of obtaining more favorable terms;

customer decisions to delay implementation of the Company's products;

the size and complexity of the Company's license transactions;

any seasonality of technology purchases;

demand for the Company's products, which can fluctuate significantly;

the timing of new product introductions and product enhancements by both the Company and its competitors;

changes in the Company's pricing policy;

the publication of opinions concerning us, the Company's products or technology by industry analysts;

changes in foreign currency exchange rates; and

domestic and international economic and political conditions.

One or more of these factors may cause the Company's operating expenses to be disproportionately high or the Company's gross revenues to be disproportionately low during any given period, which could cause the Company's net revenue and operating results to fluctuate significantly. The Company's operating results have fluctuated significantly in the past. You should not rely on the Company's annual operating results to predict its future results because of the significant fluctuations to which the Company's results are subject.

As a result of these and other factors, operating results for any fiscal year are subject to significant variation, and the Company believes that period-to-period comparisons of its results of operations are not necessarily meaningful in terms of their relation to future performance. You should not rely upon these comparisons as indications of future performance. It is likely that the Company's future quarterly and annual operating results from time to time will not meet the expectations of public market analysts or investors, which could cause a drop in the price of its common stock.

The Company's market is subject to rapid technological change and if the Company fails to continually enhance its products and services in a timely manner, its revenue and business would be harmed.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company must continue to enhance and improve the performance, functionality and reliability of its products and services in a timely manner. The software industry is characterized by rapid technological change, changes in user requirements and preferences, frequent new product and services introductions embodying new technologies, and the emergence of new industry standards and practices that could render the Company's products and services obsolete. The Company has experienced product development delays in the past, and may experience delays in the future. The Company's failure to continually enhance its products and services in a timely manner would adversely impact its business and prospects. In the past, the Company has also discovered that some of its customers desire additional performance and functionality not currently offered by its products. The Company's success will depend, in part, on its ability to internally develop and license leading technologies to enhance its existing products and services, to develop new products and services that address the increasingly sophisticated and varied needs of its customers, and to respond to technological advances and emerging industry standards and practices on a cost-effective and timely basis. The Company's product development efforts with respect to its eB product suite are expected to continue to require substantial investments by the Company, and the Company may not have sufficient resources to make the necessary investments. If the Company is unable to adapt its products and services to changing market conditions, customer requirements or emerging industry standards, it may not be able to maintain or increase its revenue and expand its business.

The Company's lack of product diversification means that any decline in price or demand for its products and services would seriously harm its business.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The eB product suite and related services have accounted for substantially all of the Company's revenue and this situation is expected to continue for the foreseeable future. Consequently, a decline in the price of, or demand for, the eB product suite or related services, or their failure to achieve broad market acceptance, would seriously harm the Company's business.

Significant unauthorized use of the Company's products would result in material loss of potential revenues and the Company's pursuit of protection for its intellectual property rights could result in substantial costs to it.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company's software is licensed to customers under license agreements containing provisions prohibiting the unauthorized use, copying and transfer of the licensed program. Policing unauthorized use of the Company's products is difficult and, while the Company is unable to determine the extent to which piracy of its software products exists, any significant piracy of its products could materially and adversely affect the Company's business, results of operations and financial condition. In addition, the laws of some foreign countries do not protect the Company's proprietary rights to as great an extent as do the laws of the United States and the Company's means of protecting its proprietary rights may not be adequate.

The Company relies on third party software products incorporated in its products. Any loss of use to such third party software could result in delays in the Company's product shipments.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company relies on certain software that it licenses from third parties, including software that is integrated with internally developed software and used in the Company's products to perform key functions. There can be no assurances that the developers of such software will remain in business, that they will continue to support their products, that their products will otherwise continue to be available to the Company on commercially reasonable terms or that their products are free from bugs or defects. The loss of or inability to maintain any of these software licenses could result in delays or reductions in product shipments until equivalent software can be developed, identified, licensed and integrated, which could adversely affect the Company's business, operating results and financial condition.

If third parties claim that the Company infringes on their patents, trademarks, or other intellectual property rights, it may result in costly litigation or require the Company to make royalty payments.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company is not aware that any of its software products infringe the proprietary rights of third parties. There can be no assurance, however, that third parties will not claim infringement by the Company with respect to its current or future products. The Company expects that software product developers will increasingly be subject to infringement claims. Any such claims, with or without merit, could be time-consuming, result in costly litigation, cause product shipment delays, consume significant management time or require the Company to enter into royalty or licensing agreements. Such royalty or licensing agreements, if required, may not be available on terms acceptable to the Company or at all, which could have a material adverse effect on the Company's business, results of operations and financial condition.

The Company may face product liability claims from its customers.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company's license agreements with its customers usually contain provisions designed to limit its exposure to potential product liability claims. It is possible, however, that the limitation of liability provisions contained in the Company's license agreements may not be effective under the laws of some jurisdictions. A successful product liability claim brought against the Company could result in payment by the Company of substantial damages, which would harm its business, operating results and financial condition and cause the price of its common stock to fall.

If the Company loses key personnel, or is unable to attract and retain additional key personnel, the Company may not be able to successfully grow and manage its business.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company believes that its future success will depend upon its ability to attract and retain its key technical and management personnel. These employees are not subject to employment contracts. The Company may not be successful in retaining its key employees in the future or in attracting and assimilating replacement or additional key personnel. Any failure in retaining and attracting management personnel may impair its ability to rapidly grow and manage its business.

The Company faces intense competition from several competitors and may be unable to compete successfully.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The market for the Company's products is intensely competitive, subject to rapid change and significantly affected by new product introductions and other market activities of industry participants. The Company currently encounters competition from a number of public and private companies, including Electronic Document Management System/Enterprise Content Management vendors such as EMC (formerly Documentum), FileNet, OpenText, Sword and Hummingbird; Enterprise Asset Management vendors such as Indus and MRO/Maximo; and to a lesser extent Product Data Management/Product Lifecycle Management vendors such as Matrix I, PTC and EDS. Many of these direct competitors have significantly greater financial, technical, marketing and other resources than the Company. The Company also expects that direct competition will increase as a result of recent consolidation in the software industry.

The Company also faces indirect competition from systems integrators and VARs. The Company relies on a number of systems consulting and systems integration firms for implementation and other customer support services, as well as for recommendation of its products to potential purchasers. Although the Company seeks to maintain close relationships with these service providers, many of these third parties have similar, and often more established, relationships with the Company's principal competitors. If the Company were unable to develop and retain effective, long-term relationships with these third parties, the Company's competitive position would be materially and adversely affected. Further, these third parties may market software products in competition with the Company in the future and may otherwise reduce or discontinue their relationship with, or support of, the Company and its products.

In addition, database vendors, such as Oracle, IBM and Microsoft are potential competitors in the future if they acquire competitive technology or otherwise expand their current product offerings. Like the Company's current competitors, these companies have longer operating histories, significantly greater financial, technical, marketing and other resources and name recognition and a larger installed base of customers than the Company. Several of these companies, including Oracle, Microsoft, IBM and others, have well-established relationships with the Company's current and potential customers and strategic partners, as well as extensive resources and knowledge of the enterprise software industry that may enable them to offer a single-vendor solution more easily than the Company can. In addition, the Company's competitors may be able to respond more quickly to new or emerging technologies and changes in customer requirements, or to devote greater resources to the development, promotion and sale of their products than the Company can. If the Company cannot respond to its competitors adequately and in a timely manner, then it may be required to reduce prices for its products and could suffer reduced gross margins and loss of market share, any of which could harm its business, prospects, financial condition and operating results, causing the price of its common stock to decline. In addition, the Company's past financial losses and customer uncertainty regarding the Company's financial condition are likely to have a material adverse effect on the Company's ability to sell its products in the future against competitors.

The Company's common stock is deemed to be penny stock, which may make it more difficult for investors to sell their shares due to suitability requirements.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company's common stock is deemed to be penny stock as that term is defined in Rule 3a51-1 promulgated under the Securities Exchange Act of 1934. These requirements may reduce the potential market for the Company's common stock by reducing the number of potential investors. This may make it more difficult for investors in the Company's common stock to sell shares to third parties or to otherwise dispose of them. This could cause the Company's stock price to decline. Penny stock is stock:

With a price of less than \$5.00 per share;

That is not traded on a recognized national exchange;

Whose prices are not quoted on the NASDAQ automated quotation system (NASDAQ listed stock must still have a price of not less than \$5.00 per share); or

In issuers with net tangible assets less than or equal to \$2.0 million (if the issuer has been in continuous operation for at least three years) or \$5.0 million (if in continuous operation for less than three years), or with average revenues of less than \$6.0 million for the last three years.

Broker/dealers dealing in penny stocks are required to provide potential investors with a document disclosing the risks of penny stock. Moreover, broker/dealers are required to determine whether an investment in a penny stock is a suitable investment for a prospective investor.

The Company's common stock trades sporadically; the market price of the Company's common stock may be volatile.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company's common stock currently trades sporadically on the OTC Bulletin Board. The market for the Company's common stock may continue to be an inactive market, and the market price of the Company's common stock may experience significant volatility. The Company's quarterly results, failure to meet analysts' expectations, announcements by the Company or its competitors regarding acquisitions or dispositions, loss of existing customers, new industry standards or technology, changes in general conditions in the economy, and general market conditions could cause the market price of the common stock to fluctuate substantially. In addition, the stock market has experienced significant price and volume fluctuations that have particularly affected the trading prices of equity securities of many technology companies. These price and volume fluctuations often have been unrelated to the operating performance of the affected companies.

Conversion of the Company's preferred stock would result in significant dilution to existing shareholders.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

In a private placement completed in March 2006, the Company issued, in addition to certain warrants, shares of new Series I Convertible Preferred Stock, which upon conversion into common stock would result in substantial dilution to common shareholders. The number of shares of the Company's common stock into which the shares of Series I Preferred Stock may be converted varies based on a volume-weighted measure of the market price of the common stock. The range is from 11,666,667 common shares, if the market price measure were to be at least \$0.25 at the time of all conversions, up to 33,793,104 common shares, if the market price measure were to be no greater than \$0.08 at the time of all conversions.

On September 30, 2003, the Company issued 5,291 shares of Series F Preferred Stock with a stated value of \$1,000 per share in consideration of the cancellation of \$5,291,000 of its debt owed to Spescom Ltd. and its subsidiary. The Series F Preferred Stock is convertible into the Company's common stock at a stated conversion price of \$0.45 per share, subject to certain adjustments to prevent dilution, representing a total of 11,757,778 shares of the Company's common stock. Such conversion may occur at the option of the holder until September 30, 2008. On that date, any outstanding Series F Preferred Stock not previously converted will be converted automatically. Conversion of the Series F Preferred Stock will result in substantial dilution to common shareholders.

Future sales of common stock by the Company's shareholders, including investors in future offerings and Spescom Ltd., could adversely affect the Company's stock price.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

In connection with the Series I Convertible Preferred Stock private placement completed in March 2006, the Company filed a registration statement for the common stock of the Company issuable upon conversion of such preferred stock. The registration statement was declared effective by the Securities and Exchange Commission on July 10, 2006. Any sales of these shares of common stock or shares of the Company's common stock issued in any future offering could cause a decline in the price of the Company's stock. In addition, Spescom Ltd. holds 27,408,249 shares of the Company's common stock on a fully diluted basis as of January 16, 2007, and if it sells its shares of the Company from time to time in the future, the Company's stock price may be adversely affected. Spescom Ltd. also has certain demand and piggyback registration rights relating to 11,757,778 of these shares.

The exercise of outstanding options and warrants would result in dilution of the Company's stock.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

As of January 16, 2007, the Company had outstanding stock options to purchase approximately 4,372,250 shares of common stock and warrants to purchase approximately 6,726,852 shares of common stock. If all or a significant number of the options or warrants are exercised, shareholders could suffer significant dilution.

The Company is subject to significant foreign currency fluctuations which may have a material adverse effect on the Company's business and financial results.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

Changes in foreign currency rates, the condition of local economies, and the general volatility of software markets may result in a higher or lower proportion of foreign revenues in the future. Although the Company's operating and pricing strategies take into account changes in exchange rates over time, future fluctuations in the value of foreign currencies may have a material adverse effect on the Company's business, operating results and financial condition.

INFORMATION REGARDING FORWARD-LOOKING STATEMENTS

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

Some of the statements in Prospectus Summary, Risk Factors, Use of Proceeds and elsewhere in this prospectus, including those using words such as believes, expects, intends, estimates, projects, predicts, assumes, anticipates, plans, and seeks and comparable terms, statements. Forward-looking statements are not statements of historical fact and reflect our views and assumptions as of the date of this prospectus regarding future events and operating performance.

All forward-looking statements address matters that involve risks and uncertainties. There are important factors that could cause our actual results to differ materially from those indicated in these statements. We believe that these factors include but are not limited to those described under Risk Factors, including the following:

The Company's control by and indebtedness to Spescom Ltd.

The uncertainty regarding the Company's ability to obtain additional debt and equity financing, when and if necessary

Our dependence on a small number of new customers

The fluctuation of our operating results

A developing market and rapid technological changes

Our lack of product diversification

Potential violation of our intellectual property rights

Our dependence on third-party software providers

Potential intellectual property infringement claims by third parties

Potential product liability claims by customers

Our potential inability to compete effectively

Potential difficulty for investors to sell their shares of common stock in the Company

Potential volatility of the market price of the Company's common stock

The exercise of outstanding options and warrants would dilute the Company's stock

Fluctuations in foreign currency exchange rates

This list of factors is not exhaustive and should be read with the other cautionary statements that are included in this prospectus.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary materially from our projections. Any forward-looking statements you read in this prospectus reflect our current views with respect to future events and are subject to these and other risks, uncertainties and assumptions relating to, among other things, our operations, results of operations, growth strategy and liquidity. All subsequent written and oral forward-looking statements attributable to us or individuals acting on our behalf are expressly qualified in their entirety by this paragraph. You should specifically consider the factors identified in this prospectus that could cause actual results to differ from those discussed in the forward-looking statements before making an investment decision. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future events or otherwise.

USE OF PROCEEDS

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

We will not receive any proceeds from the sale of common shares by the selling shareholders. The proceeds from this offering are solely for the account of the selling shareholders. We may receive proceeds if the Warrants are exercised. Any net proceeds that we receive from any exercise of the Warrants will be used for general corporate purposes, including working capital for our business.

DIVIDEND POLICY

The Company has never paid a dividend on its Common Stock, and the current policy of its Board of Directors is to retain all earnings to provide funds for the operation and expansion of the Company's business. Consequently, the Company does not anticipate that it will pay cash dividends on its Common Stock in the foreseeable future.

DILUTION

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The following table compares the \$0.09 offering price (the average of the high and low price of the shares on January 16, 2007) of the shares to the cost to our existing shareholders of shares of common stock that they acquired from us within the past five years, that are issuable upon conversion of outstanding shares of preferred stock acquired from us within the past five years, or that they have the right to acquire from us under outstanding stock options or warrants.

	Shares Purchased		Total Consideration		Average price per share
	Number	Percent	Amount	Percent (3)	
Existing stockholders	62,952,887(1)	59%	\$ 12,745,799(4)	77%	\$ 0.20(6)
New investors	43,336,338(2)	41%	\$ 3,900,270(5)	23%	\$ 0.09(7)
Total	106,289,225	100%	\$ 16,646,069	100%	

(1) The number of shares of our common stock currently outstanding that were purchased from us within the five years ended January 16, 2007 plus the number of shares of common stock that are issuable upon the conversion of outstanding shares of preferred stock that were purchased from us within the past five years, plus the number of shares issuable upon the exercise of currently outstanding stock options and warrants.

(2) The maximum number of shares being offered to investors in this offering.

(3) The percentage that each number represents of the sum of both numbers.

(4) The sum of the price paid to us for all shares of common stock purchased from us within the five years ended January 16, 2007 (including shares of preferred stock that are convertible into common stock) and the aggregate exercise price of all currently outstanding stock options and warrants.

(5) The product of an assumed offering price of \$0.09 per share (the average of the high and low price of the shares on January 16, 2007) and the aggregate maximum number of shares being offered to investors in the offering.

(6) The weighted average price of all shares purchased from us within the five years ended January 16, 2007 (including shares of preferred stock that are convertible into common stock) and the exercise price of all currently outstanding stock options and warrants.

(7) For purposes of this table, we have assumed an offering price of \$0.09 per share (the average of the high and low price of the shares on January 16, 2007).

Our net tangible book value as of September 30, 2006 was approximately (\$5,010,000), or (\$0.06) per share of our common stock. If you invest in our common stock, your interest will be diluted to the extent of the difference between the price you pay per share of our common stock and the net tangible book value per share of our common stock at the time of your purchase. Net tangible book value per share is calculated by subtracting our total liabilities from our total tangible assets, and dividing this amount by the number of shares of our common stock issued and outstanding after giving effect to the conversion of all shares of our outstanding preferred stock. The sale of shares of common stock in this offering by the selling shareholders will not affect our net tangible book value because we will not receive any proceeds from their sale of our common stock. Based on our net tangible book value as of September 30, 2006 and assuming an offering price of \$0.09 per share, investors in this offering will experience immediate and substantial dilution of \$0.15 per share.

The foregoing discussion is based upon the number of shares actually issued and outstanding as of January 16, 2007, which assumes the conversion of all of our outstanding shares of preferred stock into 45,550,881 shares of common stock. As of that date, there were 11,099,102 options and warrants outstanding at a weighted average exercise price of \$0.33 per share. To the extent outstanding options or warrants are exercised, you may experience further dilution.

In addition, we may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our shareholders.

SELECTED CONSOLIDATED FINANCIAL DATA

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The following table sets forth selected consolidated financial data of the Company. The financial data for each of the years ended September 30, 2006, 2005, 2004, 2003 and 2002 have been derived from the audited Consolidated Financial Statements.

The data set forth below should be read in conjunction with the Consolidated Financial Statements and Notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations.

	2006	2005	Years ended September 30, 2004		2003	2002

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The Company develops, markets and supports eB, its integrated suite of collaborative document, configuration and records management software solutions. The eB suite enables organizations in a broad range of industries to create, capture, store, manage, share and distribute critical business information regarding their customers, products, assets and processes in an efficient manner. The eB suite also enables them to maintain complete, up-to-date information about the configuration of their products, assets and infrastructures so that they can achieve operational excellence and compliance with regulatory requirements. eB provides the capabilities of an Enterprise Content Management (ECM)/Electronic Document Management (EDM) System, but extends these capabilities by also managing the things that the content/documents relate to such as products, assets, functions, processes, requirements, projects, organizations, locations, work orders, etc. As a result, eB can be used to manage the lifecycle of physical items (e.g. products, equipment or assets), and the requirements (e.g. functional, safety, performance, environmental, etc.) that govern them. It enables intelligent relationships to be defined between these items thereby creating an interdependency model. As a result, the effects of any change on requirements, documents and items can be determined and change can be managed to effectively ensure information integrity. In particular, eB enables organizations with extensive and complex physical infrastructures to efficiently identify, classify, structure, link, and manage documents, physical items, and requirements throughout their lifecycles and ensure that conformance between these is maintained by means of an automated change process.

We develop, market and support eB, our integrated suite of collaborative document, configuration and records management software solutions. Our revenues in the fiscal year ended September 30, 2006 increased by 20% from the prior fiscal year primarily due to increased license sales for both new and existing customers.

Our revenues are derived from licenses of our software to our customers, services that we provide under maintenance support contracts and our non-maintenance services, consisting primarily of design studies, system implementation and training. Of our total revenues in fiscal 2006, license revenues accounted for 25%, maintenance services revenues accounted for 44% and non-maintenance services represented 31%.

Many of our customers are located outside the United States, with foreign-originated revenues accounting for 35% and 49% of fiscal 2006 and 2005 revenues, respectively. Revenue in fiscal 2006 reflected a foreign currency gain of \$10,000 due to the declining value of the dollar during the year.

While revenues increased, our cost of revenues increased by 11% in fiscal 2006 compared to fiscal 2005 primarily because of higher cost of sales for licenses. Our gross profit increased from 58% to 62% of revenues in fiscal 2006 due to the increase in high margin software sales. Operating expenses decreased by 23% primarily as a result of decreased marketing and sales efforts in fiscal 2006 and a reduction in personnel in September 2005.

At September 30, 2006, our principal sources of liquidity consisted of \$95,000 of cash and cash equivalents, compared to \$285,000 at September 30, 2005. On October 31, 2005 and March 10, 2006 we completed two private placement of preferred stock which resulted in aggregate gross proceeds of \$1,000,000. Subsequent to fiscal 2006, we received an initial payment of \$1,200,000 relating to a large license sale in October 2006, in connection with which the Company expects to receive an additional license and development fee of \$800,000. (See Note 13 to the Consolidated Financial Statements for further information regarding that license sale.)

This Management's Discussion and Analysis of Financial Condition and Results of Operation summarizes the significant factors affecting our consolidated operating results, financial condition, liquidity and cash flow during the three-year period ended September 30, 2006, each year therein being referred to as fiscal 2006, fiscal 2005 and fiscal 2004. Unless otherwise indicated, references to any year in this discussion refer to the applicable fiscal year ended September 30. This discussion and analysis should be read with the consolidated financial statements and financial statement footnotes included in this Annual Report on Form 10-K.

This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results may differ materially from those anticipated in these forward-looking statements due to many factors, including but not limited to those set forth under the headings Risk Factors and Special Note Regarding Forward-Looking Statements.

Critical Accounting Policies

The consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. As such, management is required to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The significant accounting policies which are most critical to aid in fully understanding and evaluating reported financial results include the following:

Revenue Recognition

The Company's revenues are derived from sales of its document and configuration management systems that are primarily composed of software and services, including maintenance, training and consulting services, and third party software and hardware. The Company recognizes revenue in accordance with Statement of Position (SOP) 97-2 Software Revenue Recognition, SOP 98-9, Modification of SOP 97-2, Software Revenue Recognition with Respect to Certain Transactions, Staff Accounting Bulletin (SAB) No. 101, updated by SAB s 103 and 104 Update of Codification of Staff Accounting Bulletins, and Emerging Issues Task Force No. 00-21 (EITF 00-21) Accounting for Revenue Arrangements with Multiple Deliverables. Revenue through the Company's Value Added Resellers (VARS) are net of any VAR discount in accordance with EITF 99-19 Reporting Revenue Gross as a Principal versus Net as an Agent.

Software license and third party product revenues are recognized upon shipment of the product if no significant vendor obligations remain and collection is probable. In cases where a significant vendor obligation exists, revenue recognition is delayed until such obligation has been satisfied. For new software products where a historical record has not yet been demonstrated that acceptance is perfunctory, the Company defers recognition of revenue until acceptance has occurred. If an undelivered element of the arrangement exists under the license arrangement, a portion of revenue is deferred based on vendor-specific objective evidence (VSOE) of the fair value of the undelivered element until delivery occurs. If VSOE does not exist for all undelivered elements, all revenue is deferred until sufficient evidence exists or all elements have been delivered. Annual maintenance revenues, which consist of ongoing support and product updates, are recognized on a straight-line basis over the term of the contract. Payments received in advance of performance of the related service for maintenance contracts are recorded as deferred revenue. Revenues from training and consulting services are recognized when the services are performed and adequate evidence of providing such services is available. Contract revenues for long-term contracts or programs requiring specialized systems are recognized using the percentage-of-completion method of accounting, primarily based on contract labor hours incurred to date compared with total estimated labor hours at completion. Provisions for anticipated contract losses are recognized at the time they become known.

Contracts are billed based on the terms of the contract. There are no retentions in billed contract receivables. Unbilled contract receivables relate to revenues earned but not billed at the end of the period.

The Company considers many factors when applying accounting principles generally accepted in the United States of America related to revenue recognition. These factors include, but are not limited to:

The actual contractual terms, such as payment terms, delivery dates, and pricing of the various product and service elements of a contract

Availability of products to be delivered

Time period over which services are to be performed

Creditworthiness of the customer

The complexity of customizations to the Company's software required by service contracts

The sales channel through which the sale is made (direct, VAR, distributor, etc.)

Discounts given for each element of a contract

Any commitments made as to installation or implementation of go live dates.

Each of the relevant factors is analyzed to determine its impact, individually and collectively with other factors, on the revenue to be recognized for any particular contract with a customer. Management is required to make judgments regarding the significance of each factor in applying the revenue recognition standards, as well as whether or not each factor complies with such standards. Any misjudgment or error by management in its evaluation of the factors and the application of the standards, especially with respect to complex or new types of transactions, could have a material adverse effect on the Company's future operating results.

Software Development Costs and Purchased Software

Software development costs and purchased software are capitalized when technological feasibility and marketability of the related product have been established. Software development costs incurred solely in connection with a specific contract are charged to cost of revenues. Capitalized software costs are amortized on a product-by-product basis, beginning when the product is available for general release to customers. In 2006 and 2005, the Company capitalized \$35,000 and \$514,000, respectively, of internal software development costs. The capitalized software costs relate primarily to the eB version 14 product release completed in November 2005 and is the core base product of the Company going forward. Annual amortization expense is calculated using the greater of the ratio of each product's current gross revenues to the total of current and expected gross revenues or the straight-line method over the estimated useful life of three to five years.

Allowance for Doubtful Accounts

The Company sells its products directly to end-users, generally requiring a significant up-front payment and remaining terms

appropriate for the creditworthiness of the customer. The Company also sells its products to VARs and other software distributors generally under terms appropriate for the creditworthiness of the VAR or distributor. The Company retains no continuing obligations on sales to VARs. Management believes that no significant concentrations of credit risk existed at September 30, 2006. Receivables from customers are generally unsecured. The Company continuously monitors its customer account balances and actively pursues collections on past due balances. The Company maintains an allowance for doubtful accounts which is comprised of a general reserve based on historical collections performance plus a specific reserve for certain known customer collections issues. If actual bad debts are greater than the reserves calculated based on historical trends and known customer issues, the Company may be required to book additional bad debt expense which could have a material adverse effect on our business, results of operations and financial condition for the periods in which such additional expense occurs.

Share-Based Payments

In December 2004, the Financial Accounting Standards Board (FASB) revised Statement of Financial Accounting Standards No. 123 (FAS 123R), Share-Based Payment, which establishes accounting for share-based awards exchanged for employee services and requires companies to expense the estimated fair value of these awards over the requisite employee service period. On April 14, 2005, the U.S. Securities and Exchange Commission adopted a new rule amending the effective dates for FAS 123R. In accordance with the new rule, the accounting provisions of FAS 123R were effective for the Company beginning in the quarter ended December 31, 2005.

Under FAS 123R, share-based compensation cost is measured at the grant date, based on the estimated fair value of the award, and is recognized as expense over the employee's requisite service period. The Company has no awards with market or performance conditions. The Company adopted the provisions of FAS 123R on October 1, 2005, the first day of the Company's fiscal year 2006, using a modified prospective application, which provides for certain changes to the method for valuing share-based compensation. Under the modified prospective application, prior periods are not revised for comparative purposes. The valuation provisions of FAS 123R apply to new awards and to awards that are outstanding on the effective date and subsequently modified or cancelled. Estimated compensation expense for awards outstanding at the effective date will be recognized over the remaining service period using the compensation cost calculated for pro forma disclosure purposes under FASB Statement No. 123, Accounting for Stock-Based Compensation (FAS 123).

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

On November 10, 2005, the FASB issued FASB Staff Position No. FAS 123(R)-3, Transition Election Related to Accounting for Tax Effects of Share-Based Payment Awards. The Company has elected to adopt the alternative transition method provided in this FASB Staff Position for calculating the tax effects of share-based compensation pursuant to FAS 123R. The alternative transition method includes a simplified method to establish the beginning balance of the additional paid-in capital pool (APIC pool) related to the tax effects of employee share-based compensation, which is available to absorb tax deficiencies recognized subsequent to the adoption of FAS 123R.

Results of Operations

The following table sets forth the percentage relationship to total revenues of items included in the Company's Consolidated Statements of Operations for the years ended September 30, 2006, 2005 and 2004.

	2006	2005	2004
Revenues			
Licenses	25%	13%	43%
Services and other	75%	87%	57%
Total revenues	100%	100%	100%
Cost of revenues			
Licenses	4%	4%	3%
Services and other	34%	38%	25%
	38%	42%	28%
Gross profit	62%	58%	72%
Operating expenses:

Percentage of total revenues	25%		13%		43%

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

License revenues increased by \$1.0 million, or 141%, to \$1.8 in fiscal 2006 million from \$737,000 in fiscal 2005. The increase is due to (1) new customers ordering software systems such as Florida Power and Light for \$269,000 and Defense Threat Reduction Agency (a part of the United States Defense Department) for \$140,000 and (2) current customers expanding their systems such as Constellation Energy Group who placed sales for \$282,000 and JEA for \$275,000. License revenues decreased by \$3.2 million, or 81%, to \$737,000 in fiscal 2005 from \$3.9 in fiscal 2004. This decrease was due to delays in new customers ordering software and current customers expanding their existing systems. We believe these delays were the result of customer concerns regarding budgets and availability of internal customer resources. In fiscal 2004 the Company benefited from three large license sales of which one was to an existing customer, Network Rail, for \$1.5 million and two new customers, Constellation Energy Group for \$750,000 and City of Las Vegas for \$546,000.

The Company was successful in capitalizing on its pipeline of sales opportunities in 2006 resulting in a substantial increase in license revenues compared to relatively weak license sales in fiscal 2005. While the Company's pipeline of sales opportunities continues to be strong for 2007, the Company's license revenues can fluctuate from quarter to quarter, based on the timing of customers orders due to the long sales cycle and changes in customers' internal plans for the rollout of software licenses. The length of time it takes to establish new customer relationships typically ranges from 6 to 12 months and as such the timing of sales can fluctuate significantly.

A small number of customers has typically accounted for a large percentage of the Company's total annual revenues. Constellation Energy Group accounted for 13% of 2006 revenue and Network Rail accounted for 16% of fiscal 2005 revenue, while Network Rail and Constellation Energy Group accounted for 23% and 15%, respectively, of revenues for fiscal 2004. The Company's reliance on relatively few customers could have a material adverse effect on the results of its operations on a quarterly basis. In an effort to decrease the Company's dependence on large license orders from individual customers, the Company is focusing on building its network of software resellers to increase its channels to market. In fiscal 2006 revenue through resellers totaled \$796,000 or 11% of total revenue versus \$507,000 or 9% in fiscal 2005 and \$471,000 or 5% in fiscal 2004.

Service and Other Revenues

(in thousands)

	2006	Change		2005	Change		2004
Services and other revenues	\$ 5,231	3%	\$	5,088		/\$	5,105
Percentage of total revenues		75%			87%		57%

Services and other revenues are comprised of maintenance and non-maintenance services. Non-maintenance services typically relate to design studies, implementation of systems and training which vary with the level of license revenues while maintenance revenue is primarily dependent on customers renewing their annual maintenance support contracts.

Services and other revenues increased \$143,000 or 3% from \$5.1 million in fiscal 2005 to \$5.2 million in fiscal 2006. Non-maintenance services increased \$134,000 while there was a slight increase of \$9,000 for maintenance revenue in fiscal 2006. Non-maintenance services increased as customers continued to utilize the Company's resources to assist in implementing their systems in new business areas within their company and upgrading from older legacy systems to the current versions of eB.

Service and other revenues were relatively unchanged from fiscal 2004 to fiscal 2005. Non-maintenance services increased \$122,000 while maintenance revenue decreased \$139,000. Non-maintenance services increased slightly as customers continued to utilize the Company's resources to assist in implementing their systems in new business areas within their company and upgrading from older legacy systems to the current versions of eB. The decrease in maintenance revenue is primarily the result of customers which had been acquired by other entities and therefore did not renew their maintenance.

We anticipate that service and other revenue will fluctuate primarily due to fluctuations in sales to new customers, which require more services that typically include a business process study, integration with other business systems and training. In addition, we expect that service and other revenues will continue to fluctuate from quarter to quarter based on the timing of customer orders.

Cost of RevenuesCost of Licenses Revenues

(in thousands)

	2006	Change		2005	Change		2004
Cost of License Revenues	\$ 324	57%	\$	206	(21)%	/\$	260
Percentage of total revenues		4%			4%		3%

Cost of licenses revenues consists of costs associated with reselling third-party products and amortization of internal software development costs.

Cost of license revenues increased \$118,000 or 57% in fiscal 2006 compared to fiscal 2005 primarily due to a full year of software

amortization totaling \$87,000 and an increase in third party software costs of \$31,000 for one customer. However, the gross profit percentage of license revenue increased to 82% in fiscal 2006 from 72% in fiscal 2005 primarily due to the substantial increase in the sales of the Company's proprietary software during fiscal 2006 while the related costs was only the amortization of the Company's capitalized software development costs.

The cost of license revenues decreased in absolute dollars but increased as a percentage of license revenues in fiscal 2005 compared to fiscal 2004. The \$54,000, or 21% decrease was comprised of a \$32,000 decrease in software amortization expense as a result of software being fully amortized in fiscal 2004 and a \$22,000 decrease in third party software costs reflecting the lower third party product sales in fiscal 2005. Although license revenues decreased 81% in fiscal 2005 the cost of license revenues decreased only 21% resulting in a reduction in gross profit percentage of license revenues to 72% in fiscal 2005 from 93% the prior year. This decrease was due to the fact that fiscal 2005 had a higher portion of third party license revenues to total license revenues.

We expect the cost of license revenues to fluctuate based on customer requirements for third-party software products since these costs have the largest impact on cost of license revenues. We expect the gross profit percentage from license revenues to improve as sales of the Company's proprietary software become a greater portion of total license revenues in future years.

Cost of Services and Other Revenues

(in thousands)

	2006	Change		2005	Change		2004
Cost of services and other revenues	\$ 2,370	6%	\$	2,232	(1)%	\$	2,249
Percentage of total revenues	34%			38%			25%

Cost of services and other revenues consists primarily of personnel-related costs in providing consulting services, training to customers and support. It also includes costs associated with reselling third-party hardware and maintenance, which includes telephone support costs.

Cost of services and other revenues increased by \$138,000 or 6% primarily due to third party scanning services provided to one customer during fiscal 2006. The gross profit percentage on services and other revenue decreased slightly to 55% in fiscal 2006 from 56% in fiscal 2005.

Cost of services and other revenues decreased \$17,000, or 1%, in fiscal 2005 compared to fiscal 2004 as services and other revenue remained was also relatively unchanged. The gross profit percentage on services and other revenue for fiscal 2005 was unchanged from 2004 at 56%.

We expect the cost of services and other revenues to fluctuate in absolute dollar amounts and as a percentage of total revenues as the related service revenue fluctuates.

Operating ExpensesResearch and Development

(in thousands)

	2006	Change		2005	Change		2004
Research and development expenses	\$ 1,058	24%	\$	852	(39)%	\$	1,393
Percentage of total revenue	15%			15%			15%

Research and development expenses consist of salaries and benefits for software developers as well as an allocation of corporate expenses, calculated on the basis of headcount, such as corporate insurance, facilities, telephone and other.

In fiscal 2006, research and development expenses increased \$206,000, or 24% compared to fiscal 2005. In fiscal 2005 capitalization costs relating to the Version 14 eB software upgrade totaled \$514,000, while only \$35,000 was capitalized in fiscal 2006 since the project was

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

completed in November 2005, resulting in research and development costs of \$479,000 being expensed. Excluding the effect from the capitalized software, research and development costs decreased \$273,000 from fiscal 2005 to fiscal 2006 as a result of lower personnel related costs due to a reduction in personnel in September 2005.

Research and development expenses decreased by \$541,000, or 39% from fiscal 2004 compared to fiscal 2005. The decrease was due primarily to the capitalization of \$514,000 in costs directly associated with the development of a new architecture for the eB platform. The balance of the decrease, \$27,000, related to the reduction in engineering personnel implemented in June 2005. As a percentage of

total revenues research and development expense remained unchanged at 15%.

We believe that continued investment in research and development is a critical factor in maintaining our competitive position and we expect research and development costs to increase in absolute dollar amounts but remain relatively unchanged as a percentage of total revenue.

Marketing and Sales

(in thousands)

	2006	Change	2005	Change	2004
Marketing and sales expenses	\$ 2,410	(37)%	\$ 3,799	29%	\$ 2,949
Percentage of total revenue	35%		65%		33%

Marketing and sales expenses consist of salaries, cost of benefits, sales commissions and other expenses related to the direct sales force, as well as allocation of overall corporate expenses, calculated on the basis of headcount, related to items such as corporate insurance, facilities, telephone and other.

In fiscal 2006, marketing and sales expenses decreased \$1,389,000 or 37% when compared to fiscal 2005. This decrease is primarily due to a reduction in personnel in September 2005 resulting in \$756,000 lower personnel related costs and reduced costs of \$589,000 for advertising, consulting, and tradeshow.

Marketing and sales expenses increased in absolute dollars and as a percentage of total revenue for fiscal 2005 compared to fiscal 2004. The increase of \$850,000, or 29% is due primarily to \$452,000 for additional marketing and sales personnel, \$263,000 in marketing research and analysis of the IT infrastructure and banking markets, and \$247,000 in marketing costs primarily related to a public relations campaign, user conference, trade shows, and travel. In September 2005 the Company determined that it did not have adequate resources to continue to pursue the IT infrastructure and banking markets. In addition, at the end of fiscal 2005 the Company restructured its marketing and sales department resulting in decreased costs in 2006.

We expect marketing and sales expense to increase in absolute dollar amounts but decrease as a percentage of total revenue in fiscal 2007.

General and Administrative

(in thousands)

	2006	Change	2005	Change	2004
General and administrative expenses	\$ 1,622	(19)%	\$ 1,994	1%	\$ 1,965
Percentage of total revenue	23%		34%		22%

General and administrative expenses consist primarily of personnel costs for finance, information technology, human resources and general management, as well as outside professional services and an allocation of overall corporate expenses, calculated on the basis of headcount, such as corporate insurance, facilities, telephone and other.

In fiscal 2006, general and administrative expenses decreased by \$372,000 or 19% when compared to fiscal 2005. A significant portion of the decrease was attributable to restructuring costs of \$239,000 incurred in 2005 that was partially offset by a \$77,000 reduction in the Company's

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

allowance for uncollectible accounts. The balance of the decrease was due to a reduction in legal and professional fees of \$333,000 that was offset by the increase of compensation expense of \$123,000 related to the adoption of FAS 123R.

General and administrative expenses remained relative constant on an absolute dollar basis and increased as a percentage of total revenues for fiscal 2005 as compared to fiscal 2004. Fiscal 2005 general and administrative expense included \$239,000 in restructuring costs which was comprised of employee termination expense of \$203,000 and \$36,000 in the writedown of capitalized software development costs associated with the Company's decision in September 2005 to no longer pursue the eB IT market.

We expect that general and administrative expenses will increase slightly in absolute dollars in comparison to the prior year but decrease as a percentage of total revenue in fiscal 2007.

Interest and Other Income

Interest and other income consists primarily of interest earned on our cash and cash equivalents, gains on revaluation of derivatives or foreign translation adjustments, and gains on the sale of assets. In fiscal 2006, interest and other income increased to \$4,000 from \$1,000, a net increase of \$3,000, primarily from a foreign translation exchange difference.

Interest and other income decreased by \$12,000 to \$1,000 in fiscal 2005 from \$13,000 in fiscal 2004 due primarily to fiscal 2004 including a gain of \$6,000 on the revaluation of a derivative that was recognized as a liability in the consolidated balance sheet in fiscal 2003 but was converted into stock in the second quarter of fiscal 2004.

Interest and Other Expense

Interest and other expense decreased \$43,000 from fiscal 2005 to 2006. Other expense in fiscal 2005 included an expense of \$146,000 relating to extending the expiration date of certain warrants. The expense was determined based on the value calculated using the Black-Scholes method. Excluding the expense associated with extending the life of the warrants, interest expense increased \$103,000 from fiscal 2005 to 2006 primarily due to interest on the higher balance of dividends and notes payable to Spescom Ltd. and Spescom Ltd. UK.

Interest and other expense increased \$140,000 from fiscal 2004 to fiscal 2005 due to expenses associated with the Company extending the life of certain warrants that were due to expire in August 2005 for a period of one year. The expense was determined based on the value calculated using the Black-Scholes method.

Deemed Preferred Dividend

In October 2005 the Company completed a financing arrangement whereby the Company issued 1,950 shares of our Series H Preferred Stock along with 925,926 common stock warrants for gross proceeds of \$500,000 and the exchange and cancellation of 1,450 shares of Series G Convertible Preferred Stock. In accordance with EITF 00-27 Application of issue No 98-5 to Certain Convertible Instruments, the Company calculated using the Black Scholes method the intrinsic value of the convertible instruments issued and determined that there was a deemed preferred dividend equal to the gross proceeds received of \$500,000.

In March 2006 the Company completed the second round of the financing arrangement whereby the Company issued 2,450 shares of Series I Preferred Stock along with 925,926 common stock warrants for gross proceeds of \$500,000 and the exchange and cancellation of 1,950 shares of Series H Convertible Preferred Stock. In accordance with EITF 00-27 Application of issue No 98-5 to Certain Convertible Instruments, the Company calculated using the Black Scholes method the intrinsic value of the convertible instruments issued and determined that there was a deemed preferred dividend equal to the gross proceeds received of \$500,000.

In fiscal 2005 the Company also had a deemed dividend in connection with a financing arrangement whereby the Company issued 2,200 shares of Series G Convertible Preferred Stock along with 2,750,000 common stock warrants for gross proceeds of \$2,200,000. The Company calculated using the Black Scholes method the intrinsic value of the convertible instruments issued and determined that there was a deemed preferred dividend equal to the gross proceeds received of \$2,200,000.

Preferred Dividends

The outstanding Series F Convertible Preferred Stock was entitled to receive dividends of 5% of the stated value of \$1,000 per share per annum, payable on a quarterly basis in cash or common stock (valued on the basis of the average per share market value on the 30 trading days immediately prior to the date on which such dividend is declared by the Board of Directors). Cumulative preferred dividends earned in both fiscal 2006 and fiscal 2005 were \$265,000. Unpaid dividends accrue interest at the rate of 8% per annum. As of September 30, 2006, unpaid dividends and accrued interest amounted to \$794,000 and \$93,000, respectively.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The outstanding Series I Convertible Preferred Stock was entitled to receive dividends of 6.75% of the stated value of \$1,000 per share per annum, payable on a monthly basis in cash or common stock accrued through the July 10, 2006 effective date of the registration statement filed by the Company that included the common stock issuable under the Series I Convertible Preferred Stock (Series I Preferred Stock). Cumulative preferred dividends earned for fiscal 2006 were \$46,000. Unpaid dividends did not accrue interest. As of September 30, 2006, unpaid dividends amounted to \$46,000.

Prior to the exchange on March 10, 2006 of all the outstanding Series H Convertible Preferred Stock (Series H Preferred Stock) for Series I Preferred Stock, the Series H Preferred Stock was entitled to receive dividends of 6.75% of the stated value of \$1,000 per share per annum, payable monthly in arrears on the last day of each month based on the number of shares of Series H Preferred Stock outstanding as of the first day of each such month. For fiscal year 2006 dividends on the Series H Preferred Stock totaled \$44,000 and there was no Series H Preferred Stock outstanding for the same periods in the prior year. A total of 325,966 shares of common stock were issued on March 31, 2006 based on a \$0.13 per share fair market price in payment of Series H Preferred Stock dividends due as of March 10, 2006, when the Series H Preferred Stock was exchanged for Series I Preferred Stock.

The outstanding Series G Convertible Preferred Stock (the Series G Preferred Stock) was entitled to receive dividends of 5% of the stated value of \$1,000 per share per annum, payable monthly in arrears on the last day of each month based on the number of shares of Series G Preferred Stock outstanding as of the first day of each such month until the common shares under the Series G Preferred Stock was registered. Prior to the registration statement being declared effective in March 2005 by the Securities & Exchange Commission, the Company issued 82,050 shares of common stock with a value of \$37,000 as a dividend on the Series G Preferred Stock. In connection with the Series G Preferred Stock financing in November 2004, the Company recorded a beneficial conversion of \$2,200,000 as a preferred deemed dividend, as discussed above.

Liquidity and Capital Resources

At September 30, 2006, our principal sources of liquidity consisted of \$95,000 of cash and cash equivalents compared to \$285,000 at September 30, 2005. On October 31, 2005 and March 10 2006 we completed private placements of preferred stock which resulted in aggregate gross proceeds of \$1,000,000. Subsequent to the end of fiscal 2006, we received an initial payment of \$1,200,000 relating to a large license and development fee sale of \$2,000,000 in October 2006. (See Note 13 to the Consolidated Financial Statements for further information regarding that license sale.) Our liquidity could be negatively impacted by a decrease in demand for our products, which are subject to rapid technological changes, reductions in capital expenditures by our customers and intense competition, among other factors.

In past years, the Company has received loans from Spescom Ltd. in the past to meet its obligations. The outstanding balance of its demand notes owed to Spescom Ltd. including interest was \$680,000 at September 30, 2006 as compared to \$615,000 at September 30, 2005. Spescom Ltd. has agreed not to call the notes prior to October 1, 2007. In addition at September 30, 2006, the Company had a payable to Spescom Ltd. of \$534,000. The payable primarily relates to marketing research and analysis that Spescom Ltd. performed on behalf of the Company in fiscal 2005 and administrative services and facilities that Spescom Ltd. has provided to the Company in the United Kingdom. Subsequent to yearend the Company paid \$350,000 to Spescom Ltd. on the payable balance owed. The Company has agreed to pay an additional \$200,000 to Spescom Ltd. upon payment of the second installment of \$800,000 from the license sale.

Cash used in operating activities was \$773,000 for fiscal 2006. The \$773,000 use of cash in operating activities was due to the loss the Company incurred in fiscal 2006. The operating loss was adjusted for non-cash activities of \$656,000 comprised primarily of \$167,000 in depreciation and amortization, \$196,000 for FAS 123R period charge for employee stock options, and \$253,000 in unpaid interest on notes payable to Spescom Ltd., and on an operating basis the Company also had a \$346,000 decrease in deferred revenue due to one customer's prepayment in 2005 of maintenance for three years.

Cash used in operating activities was \$1,026,000 for fiscal 2005. The \$1,026,000 use of cash in operating activities was due to the substantial loss the Company incurred in fiscal 2005. The operating loss was adjusted for non-cash activities of \$734,000 comprised primarily of \$84,000 in depreciation and amortization, \$135,000 in unpaid interest on notes payable to Spescom Ltd., and \$302,000 in deferred payment professional services performed by Spescom Ltd. On an operating basis the Company also benefited from a \$1,119,000 increase in deferred revenue due to customers participating in an incentive program for early annual maintenance renewal. The \$168,000 used in operations for fiscal 2004 was due to a decrease in operating assets and liabilities of \$575,000 while adjustments for non-cash activities increased \$359,000, offset by the Company's net income of \$48,000.

Cash used in investing activities was \$78,000 for fiscal 2006. In fiscal 2006 the Company capitalized \$35,000 in software development costs associated with its release of its *eB* product with a new architecture. In fiscal 2006 the Company purchased \$43,000 of property and equipment in connection with the move into a new office facility in the United Kingdom.

Cash used in investing activities was \$567,000 for fiscal 2005. In fiscal 2005 the Company capitalized \$514,000 in software development costs associated with its release of its *eB* product with a new architecture. In fiscal 2005 the Company purchased \$14,000 of property and equipment and made \$39,000 of software purchases.

In fiscal 2006 the Company received net proceeds totaling \$716,000 after offering costs from two preferred stock offerings. On October 25, 2005, the Company entered into a definitive agreement relating to a private placement with Monarch Pointe Fund, Ltd. (Monarch) and M.A.G. Capital, LLC (MAG). Pursuant to the agreement, on October 25, 2005, the Company issued (1) 1,950 shares of Series H Convertible Preferred Stock to Monarch and (2) warrants, which expire October 25, 2008, to purchase an aggregate of 925,926 shares of common stock at \$0.27 per share to Monarch and MAG. The aggregate consideration received by the Company for the Series H Convertible Preferred Stock and warrants

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

consisted of \$500,000 and the remaining 1,450 shares of the Series G Convertible Preferred Stock, which were cancelled by the Company. The agreement contemplated the issuance by the Company at a second closing of 500 shares of Series H Convertible Preferred Stock and warrants, expiring on the third anniversary of the second closing, to purchase 925,926 shares of common stock at \$0.27 per share, in exchange for aggregate consideration of \$500,000. The obligations of the investors to consummate that second closing were subject to certain conditions, including that the closing price of the Company's common stock would be \$0.16 or greater for 20 consecutive trading days. This stock price condition was not satisfied and the second closing was not completed.

On March 10, 2006, the Company completed a private placement with MAG, Monarch, and Mercator Momentum Fund III, L.P. (MMF). Under the terms of the financing, the Company issued (i) to Monarch and MMF an aggregate of 2,450 shares of Series I Convertible Preferred Stock and (ii) to MAG, Monarch and MMF warrants, expiring March 10, 2009, to purchase an aggregate of 925,926 shares of common stock at \$0.27 per share. The Company received aggregate consideration for the Series I Convertible Preferred Stock and warrants issued in the private placement consisting of \$500,000 and the 1,950 shares of Series H Convertible Preferred Stock issued by the Company in October 2005, which have been cancelled. The Series I Preferred Stock is described under "Description of Capital Stock" below.

In fiscal 2005 cash provided by financing activities totaled \$1,747,000 primarily generated from the Series G Convertible Preferred Stock private placement the Company completed in November 2004 which provided net gross proceeds of \$2,200,000.

The Company believes its capital requirements will continue to vary greatly from quarter to quarter, depending on, among other things, capital expenditures, fluctuations in its operating results, financing activities, and investments and third party products and receivables management. The Company's future liquidity will depend on its ability to generate new system sales of its eB product suite in the near term, which cannot be assured. Management believes that the Company's current cash and receivables and cash that may be generated from operations, will be sufficient to meet its short-term needs for working capital for at least the next year. However, the Company may not be able to obtain sufficient orders to enable the Company to continue on a cash flow break-even level, which would be necessary to continue operations in the absence of further financing. Future equity financings, if available to the Company, would be dilutive to the existing holders of the Company's common stock. Future debt financings, if available to the Company, would likely involve restrictive covenants.

Net Operating Loss Tax Carryforwards

As of September 30, 2006, the Company had a net operating loss carryforward (NOL) for federal income tax purposes of \$32,993,000, which expires over the years 2007 through 2024. The Company also had a NOL carryforward for state income tax purposes of \$5,765,000, which expires over the years 2007 through 2012. In addition, the Company generated but has not used research and investment tax credits for federal income tax purposes of approximately \$274,000, which will substantially expire in the

years 2007 through 2012. Under the Internal Revenue Code of 1986, as amended (the Code), the Company generally would be entitled to reduce its future Federal income tax liabilities by carrying unused NOL forward for a period of 20 years to offset future taxable income earned, and by carrying unused tax credits forward for a period of 20 years to offset future income taxes. As a result of the issuances of shares to Spescom Ltd. in the past, an additional ownership change occurred in April 2000. The Company's ability to utilize the consolidated NOL in future years will be limited pursuant to Code Section 382. The annual limitation is approximately \$1,159,000.

Off-Balance Sheet Arrangements

At September 30, 2006 and 2005, we did not have any relationships with unconsolidated entities or financial partnerships, including entities often referred to as structured finance or special purpose entities that would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. Therefore, we are not materially exposed to any financing, liquidity, market or credit risk that could arise if we were engaged in such relationships.

Foreign Currency

The Company's geographic markets are primarily in the United States and Europe, with some sales in other parts of the world. In fiscal 2006, revenues recorded in the United States were 65% of total revenue and revenues from Europe and other locations were 35% of total revenue. For fiscal 2005 and 2004 combined, revenues recorded in the United States were 54% of total revenues, and revenues from Europe and other locations were 46% of total revenues.

Revenues from our United Kingdom subsidiary can fluctuate from quarter to quarter based on the timing of customer orders. Revenue in fiscal 2006 and fiscal 2005 were improved by foreign currency gain of \$10,000 and \$75,000 respectively, in each case due to a weakened dollar value compared to the pound sterling. Changes in foreign currency rates, the condition of local economies, and the general volatility of software markets may result in a higher or lower proportion of foreign revenues in the future. Although the Company's operating and pricing strategies take into account changes in exchange rates over time, future fluctuations in the value of foreign currencies may have a material adverse effect

on the Company's business, operating results and financial condition.

Inflation

The Company believes that inflation has not had a material effect on its operations to date. Although the Company enters into fixed-price contracts, management does not believe that inflation will have an adverse material impact on its operations for the foreseeable future, as the Company takes into account expected inflation in its contract proposals and is generally able to project its costs based on forecasted contract requirements.

Contractual Obligations and Commercial Commitments

The following summarizes our contractual obligations and other commitments at September 30, 2006, and the effect such obligations could have on our liquidity and cash flow in future periods:

	Total	Amount of Commitment Expiring by Period			
		Less Than 1 Year	1-3 Years	3-5 Years	Over 5 Years
Notes and Accounts Payable to Spescom Ltd.	\$ 1,214,000	\$ 550,000	\$ 664,000	\$	\$
Lease commitments Operating Leases	1,109,000	337,000	663,000	109,000	
Lease commitments Capital Leases	60,000	44,000	16,000		
Total	\$ 2,383,000	\$ 931,000	\$ 1,343,000	\$ 109,000	\$

Market Risk

Interest Rate Risk

The Company's exposure to market rate risk for changes in interest rates relates primarily to the Company's investment portfolio. The Company does not use derivative financial instruments in its investment portfolio. The Company places its investment with high quality issuers and follows internally developed guidelines to limit the amount of credit exposure to any one issuer. Additionally, in an attempt to limit interest rate risk, the Company follows guidelines to limit the average and longest single maturity dates. The Company is adverse to principal loss and ensures the safety and preservation of its invested funds by limiting default, market and reinvestment risk. As of September 30, 2006, 2005 and 2004 the Company did not have any investments in money market accounts.

Foreign Exchange Risk

Our revenue originating outside the United States was 35%, 49% and 48% for fiscal 2006, 2005 and 2004, respectively. International sales are made mostly from our foreign sales subsidiary in the United Kingdom. The functional currency of the Company's United Kingdom subsidiary is the pound sterling. Our subsidiary incurs and settles most of its expenses in its local currency.

The assets and liabilities of our subsidiary are translated into U.S. dollars at exchange rates in effect at the balance sheet date. Income and expense items are translated at the daily current exchange rates. Gains and losses from translation are included in stockholders' equity.

BUSINESS

General

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

Spescom Software Inc, formerly Altris Software, Inc., (the Company) was founded and incorporated as a California corporation in 1981 and is headquartered in San Diego, California with an international sales and support subsidiary in London, United Kingdom. Our principal executive office is located at 10052 Mesa Ridge Court, Suite 100, San Diego, California, 92121. Our telephone number at that address is (858) 625-3000. Our website address is www.spescomsoftware.com. Our annual reports on Form 10-K, our quarterly reports on Form 10-Q, our current reports on Form 8-K and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities and Exchange Act of 1934 can be accessed, free of charge, at our website as soon as reasonably practicable after they are electronically filed with or furnished to the Securities and Exchange Commission.

The Company develops, markets and supports eB, its integrated suite of collaborative document, configuration and records management software solutions. The eB suite enables organizations in a broad range of industries to create, capture, store, manage, share and distribute critical business information regarding their customers, products, assets and processes in an efficient manner. The eB suite also enables them to maintain complete, up-to-date information about the configuration of their products, assets and infrastructures so that they can achieve operational excellence and compliance with regulatory requirements. eB provides the capabilities of an Enterprise Content Management (ECM)/Electronic Document Management (EDM) System, but extends these capabilities by also managing the things that the content/documents relate to such as products, assets, functions, processes, requirements, projects, organizations, locations, work orders, etc. As a result, eB can be used to manage the lifecycle of physical items (e.g., products, equipment or assets), and the requirements (e.g., functional, safety, performance, environmental, etc.) that govern them. It enables intelligent relationships to be defined between these items thereby creating an interdependency model. As a result, the effects of any change on requirements, documents and items can be determined and change can be managed to effectively ensure information integrity. In particular, eB enables organizations with extensive and complex physical infrastructures to efficiently identify, classify, structure, link, and manage documents, physical items, and requirements throughout their lifecycles and ensure that conformance between these is maintained by means of an automated change process.

The Company believes eB's integration of document, configuration and records management functionality onto a single platform is a major differentiator and significant competitive advantage that allows the Company to address the information management needs of an enterprise in a more holistic manner than solutions provided by other vendors. In addition, eB provides interoperability and scalability across and beyond an enterprise, deployment over the web, and quick, cost-effective out-of-the-box implementation. Finally, the product's full functionality is available via a set of application programming interfaces (APIs) that enable the rapid definition and deployment of customer specific solutions and integration with other business applications, including enterprise resource planning (ERP), maintenance management, and project management products.

History

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

In the 1980 s, the Company and a handful of other pioneering companies set out to provide a better alternative for managing documents electronically. In the mid 1990 s the Company acquired two of those other companies, Optigraphics Corp., and Trimco Ltd. that were recognized for their product excellence and vision. As a combined entity, the Company became a leading developer of enterprise document management solutions. In 2000, the Company acquired the rights to certain configuration management technology and skills from Spescom Ltd., which at the same time acquired a controlling interest in the Company. Due to this unique combination of document and configuration management technologies and skills, the Company began doing business as Spescom Software Inc. on October 1, 2001.

As of January 16, 2007 Spescom Ltd. by virtue of its ownership of 27,408,249 shares of the Company s common stock and Series F Preferred Stock controlled 56% of the outstanding voting shares of the Company.

A timeline summary of equity transactions between the Company and Spescom Ltd. follows:

1999

The Company sold 3,428,571 shares of its common stock to Spescom Ltd. for \$2,300,000 in cash. In addition, the Company sold a 60% interest in ASL, its United Kingdom subsidiary, for an additional \$1,000,000. At the end of 1999 Spescom Ltd. purchased the Company's subordinated debt and Series E Preferred Stock held by a third party. Under the terms of the debt and preferred stock, Spescom Ltd. had the right to convert the debt and preferred stock into common stock at \$1.90 per share which equated to 3,226,841 shares of common stock.

2000

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

In April 2000 the Company sold 5,284,714 shares of its common stock to Spescom Ltd. for \$3,700,000. Also, the Company agreed to convert its subordinated debt and Series E Preferred Stock held by Spescom Ltd. into 9,528,096 shares of common stock an effective conversion rate of \$.70 per share. The Company also transferred its remaining interest in ASL to Spescom Ltd. for no consideration. In September 2000 the Company changed its year end from December 31 to September 30 to coincide with Spescom Ltd. s year end.

2001

In October 2000 Spescom Ltd. contributed certain assets and liabilities of its United Kingdom subsidiary (formerly ASL) to the Company for 550,000 shares of common stock of the Company.

2002

In 2002 Spescom Ltd. loaned working capital to the Company under promissory notes secured by all of the assets of the Company.

2003

In September 2003 the Company agreed to convert \$5,292,000 of the \$5,791,000 owed to Spescom Ltd. into shares of the Company's Series F Preferred Stock. The Series F Preferred Stock is convertible into the Company's common stock based upon a conversion rate of \$.45 per share (subject to certain adjustments set forth in the related Certificate of Determination for the Series F Preferred Stock), which equates to 11,757,778 shares of common stock.

2004

In November 2003 the Company issued a note payable to Spescom UK with a principal balance of \$600,000 which was repaid in full during fiscal 2004.

2005

In November 2004 the Company completed a financing arrangement whereby the Company issued 2,200 shares of Series G Convertible Preferred Stock along with 2,750,000 common stock warrants for gross proceeds of \$2,200,000. During fiscal 2005, 750 shares of this preferred stock was converted into 2,428,000 shares of common stock.

2006

In fiscal 2006, the Company completed two preferred stock financings, the net aggregate result of which was the Company's issuance of 2,450 shares of Series I Convertible Preferred Stock along with 1,851,852 common stock warrants, its receipt of cash consideration of \$1,000,000 and its cancellation of the remaining 1,450 shares of Series G Convertible Preferred Stock. As a result of these financing activities, Spescom Ltd.'s ownership of the Company on a fully diluted basis including the shares issuable upon conversion of the shares of the Company's Series F Convertible Preferred Stock held by Spescom Ltd is now less than 50%. Spescom Ltd., however, by virtue of its ownership of common stock and Series F Convertible Preferred Stock, is currently entitled to 56% of the total number of votes eligible to be cast in the election of directors.

Industry Background

In today's marketplace, organizations are increasingly looking for better ways to help manage their business information and processes. Most companies are overwhelmed by the amount and variety of information generated by their suppliers, customers, employees and partners and by the rate at which change occurs in their operations. As a result, organizations are seeking computer-based information management solutions that enable them to improve productivity, reduce costs, react quickly to changes in their marketplace, improve customer service or comply with stringent regulatory and quality certification requirements.

Enterprise information can be broadly divided into two categories:

i) **Structured information** stored in a database regarding, for example, customers, suppliers, products and transactions. This data is readily manipulated by a computer application to achieve a specified business objective, for example, general accounting, manufacturing planning, inventory control, purchasing, asset management, personnel management. Most enterprise software applications including for example, Enterprise Resource Planning (ERP), Customer Relationship Management (CRM), Supply Chain Management (SCM), and Product Lifecycle Management (PLM), solely use this category of information.

ii) **Unstructured information** generated by software for personal computers and workstations, such as word processing documents, spreadsheets and computer-aided design (CAD) drawings, as well as other types of information which may or may not be in electronic format, such as manufacturing procedures, maintenance records, training and technical manuals, facility layouts, blueprints, product and parts drawings, specifications, schematics, invoices, checks and other business records, presentation graphics, photos, audio and video clips and facsimile documents. The majority of corporate information is in an unstructured format and is growing at an exponential rate straining an enterprise's ability to efficiently, access, process and communicate that information.

Whatever the format and wherever the location, unstructured data represents information that is essential to a company's business and forms a key part of its intellectual capital. In today's competitive marketplace, companies need the ability to leverage their intellectual capital; however, limitations on a company's ability to access, process and communicate this information has restrained the productivity of businesses at both the individual and team levels. Without an effective means of obtaining business information, employees are often forced to re-create information from scratch, duplicating effort and increasing the potential for error. In addition, professionals often spend a significant amount of their time locating information rather than engaging in higher-value activities. Additional complexity results where information must be accessed and revised by collaborative teams dispersed throughout and beyond an enterprise that may operate different desktop software and computers. The lack of effective tools for communicating and sharing information and for automating the business logic makes this process even more time-consuming, inefficient and error-prone.

A further factor that is increasingly impacting business is that of information integrity. Due to the dynamic business environment, enterprises are being stretched to the limit to manage change effectively. The result of rapid change is a reduction in enterprise information integrity and an inevitable decrease in operational efficiency, safety, customer service, regulatory compliance and profitability. Independent research by the Institute of Configuration Management (ICM) based in Phoenix, Arizona has determined that a reduction of only 8% in information integrity results in a 50% reduction in operational effectiveness.

In recent years, enterprises have become keenly aware of the need to secure and protect their corporate information as its loss could threaten the ongoing operations of the business. The need to not only provide secured access to information but also implement effective disaster recovery plans is of utmost importance. Stringent regulatory requirements as a result of the Enron and other financial fiascos have also forced enterprise to re-examine and improve their information and records management policies and systems.

To address some of the above issues, Electronic Document Management Systems (EDMS) were developed in the late 1990's to enable enterprises to effectively and efficiently manage, share and distribute critical business information contained in documents. An EDMS solution is often viewed by organizations as part of their information systems re-engineering, and as a result there are several significant issues they typically consider when evaluating an EDMS solution. Such issues include scalability of the system, the ability to integrate with existing structural databases and applications, deployment over the web, the price of the system, the ability to view multiple document formats, the level and cost of integration services required, the impact of the system on network bandwidth, integration with existing business processes, the ability to control document security, the ability to operate on existing computing infrastructure and with existing applications, the system architecture and the ability to handle large and complex data types and to customize the product to the client's particular needs. In addition, organizations also consider user related issues such as the ability to search, retrieve, view, and edit data in a controlled manner and associate unstructured and structured data to company assets.

More recently EDMSs have evolved to Enterprise Content Management (ECM) systems that not only capture, manage and deliver document content but manage all types of content within an enterprise including email, web content, digital assets (video, voice, pictures) and forms.

A further category of software used to manage information about an enterprise's products and/or assets includes Product Data Management (PDM), Product Lifecycle Management (PLM) and Enterprise Asset Management (EAM) applications. These applications typically enable all the component parts comprising a product or an asset/plant and all associated information to be identified, structured and managed throughout their lifecycles. PDM and PLM applications are mainly used to manage information regarding discrete products especially during the design and manufacturing phases. EAM applications typically are used to maintain a complex asset/plant throughout its operational life cycle.

While all of the above categories of products create, organize, and track data, they do little to ensure the integrity or relevance of the information they manage. A new category of products called Enterprise Information Management (EIM) is emerging that add this level knowledge. The Company sees itself as being an early entrant in this category.

The Company's Strategic Positioning

The Company has leveraged its historic domain knowledge and developed technology built on the modern Microsoft .NET framework that encompasses many of the features of an ECM and PLM system. These features have been uniquely combined and enhanced with the ability to relate all relevant and interdependent information together providing an EIM solution ideal for maintaining the information integrity necessary for compliance needs across many industries and business needs. The unique combination of features developed to work in the pervasive Microsoft infrastructure enable the Company to deliver superior solutions at a better value compared to the competition.

While the Company's product offerings are applicable and deployed in many markets, the Company has focused on and been successful in the regulated energy sector and local governments.

Competition

The market for the Company's products is intensely competitive, subject to rapid change and significantly affected by new product introductions and other market activities of industry participants. The Company currently encounters competition from a number of public and private companies, including Electronic Document Management Systems/Enterprise Content vendors such as EMC (formerly Documentum), IBM/FileNet, and OpenText/Hummingbird; Enterprise Asset Management vendors such as Indus and IBM(MRO/Maximo); and to a lesser extent Product Data Management/Product Lifecycle Management vendors such as UGS, PTC and Dassault(Matrix One). Many of these direct competitors have significantly greater financial, technical, marketing and other resources than the Company. The Company also expects that direct competition will increase as a result of recent consolidation in the software industry.

The Company also faces indirect competition from systems integrators and value added resellers (VARs). The Company relies on a number of systems consulting and systems integration firms for implementation and other customer support services, as well as for recommendation of its products to potential purchasers.

The Company believes that the principal competitive factors affecting its market include system features such as scalability of the system, the ability to integrate and compliment existing applications such as other EDMS, EAM and PDM, the ability to provide integrated document, configuration and records management capability, the price of the system, the level and cost of integration required, the impact of the system on network bandwidth, integration with existing business processes, the ability to operate on existing computing infrastructure and with existing applications, the system architecture and the ability to handle large and complex data types and to customize products to the client's needs. In addition, organizations also consider features such as the ability to search, retrieve, view, annotate and edit data in a controlled manner.

The Company's Solution

The Company's solutions are for regulated organizations with vast quantities of interdependent documents that need to be managed and controlled through their lifecycle. Customers are generally focused on meeting regulatory compliance requirements and reducing business risk while optimizing process efficiency to lower the cost of operations and compliance. The Company's product eB is n Enterprise Information Management solution that vastly improves the integrity, visibility and access to all relevant information at the time it is needed. The eB product is unlike document and records management solutions that collect and archive documents for search and retrieval and lack document control capabilities such as IBM/FileNET or EMC/Documentum. The solution ensures the integrity of the controlled information, and uniquely connects information objects with relevant assets, people, processes, projects and functions to create a framework for rapid access to accurate information in context.

Technology

The company has been an early adopter of the critically acclaimed Microsoft .NET Framework as the development platform for all products. The core product architecture embodies several best practice concepts such as Service Oriented Architecture (SOA), XML data structures, and

modular n-tier components that make it scalable in terms of quantity of data, number of users, and volume of transactions.

With strong partnership ties with Microsoft (Gold Certified Partner, Managed Partner), the Company has access to valuable insight and guidance in the use of Microsoft technology and products.

The Company's Products

The Company's flagship product eB is a fully integrated Enterprise Information Management suite that includes collaborative document, configuration and records management software. The eB product enables the efficient capture, management and distribution of all types of information across an enterprise.

The functionality of eB consists of a core platform that contains functionality usually provided by multiple applications in a single fully integrated environment. This includes:

Document/content management

Imaging

Workflow

Item management

Requirements management

Change management

Records management

This core functionality is exposed via a comprehensive set of application program interfaces available as a toolkit to enable rapid application development and easy integration with other software products.

eB provides a collaborative environment for managing both unstructured and structured enterprise information. In addition, it not only provides a hub to connect other applications to each, but also identifies and controls key information with the goal of ensuring its integrity.

eB enables documents/content, as well as physical items (products, equipment or assets) and requirements (e.g., functional, safety, environmental) to be identified, classified, structured, linked and managed throughout their life-cycles. It is designed to ensure that conformance between these is maintained by means of an automated change process.

It provides the capabilities of a document management suite but goes beyond this by also providing the capability to manage items and link documents to items and requirements. It then applies industry standard configuration management rules to control the effects of change on both documents and items in order to achieve information integrity.

The records management functions of *eB* support the enterprise to achieve compliance with legal, regulatory, corporate, audit and quality requirements regarding declaration, archiving and disposition of enterprise records.

Multiple ways of accessing *eB* are provided from standard out-of-the-box interfaces as well as integrations with other business applications. Full access is also provided over the Internet using standard web browsers enabling global collaboration and access to information anytime, anywhere to authorized users. Any one or all of the components of *eB* can be deployed, depending on a customer's specific requirements.

In December 2006, the Company announced the ability of *eB* to manage the integrity of documents stored in a Microsoft Office 2007 Server (SharePoint), making it even easier to deploy *eB* solutions within an enterprise.

This integrated solution provides enterprises with many benefits, including:

1. A single system for all document, data, records and process orientated functions across an enterprise that simplifies maintenance for administrators and IT staff.
2. A single point of entry for users, which reduces the cost of training and eliminates the need for users to know or care where documents and other information resides.
3. A broad range of functionality that addresses the needs of many different users throughout an organization, thereby maximizing the investment.
4. Rapid deployment using standard out-of-the-box interfaces and applications resulting in a fast return on investment.

5. A single point of contact and support for the technology, which results in potentially fewer problems with software upgrades, than might otherwise be encountered in systems that use products from multiple vendors.
6. Reduced integration effort compared to implementing best-of-breed systems using technologies from multiple vendors an approach that requires learning multiple programming interfaces in an attempt to integrate unrelated products.
7. Rapid application development and simplified integration with other critical systems such as ERP applications using the powerful eB Software Development Kit.

Strategy

Business Model

The Company is building its business strategies around three core strengths:

Expertise and a large customer base in the Nuclear industry

A large customer base in applications within local governments mainly where some form of regulatory compliance is required.

The inherently broad application set the eB product can handle when combined with the Microsoft SharePoint product.

To capitalize on these strengths, the Company has instituted the strategic initiatives listed below. We believe that these initiatives will enhance the Company's ability to achieve a defensible, leading market position within its growing market niche.

Strategic Initiatives

Continue to Develop and Position eB as a Critical but Complementary Enterprise Platform. Rather than position and market eB as a stand-alone, mutually exclusive enterprise suite, the Company will continue to promote eB as an essential, high value, high functionality niche platform that complements, rather than supplants, existing/legacy solutions. By positioning eB in this less threatening manner, the Company not only minimizes

repetitive and costly head-to-head evaluations with competitors having significantly greater resources, but also enables the conversion of its competitors into partners .

Continue Investment in the Company's Direct Sales Force. The Company currently employs a dual sales model comprised of both a direct sales force and select partners and re-sellers. Vertical markets targeted by the Company's direct sales force are those: (1) in which the Company has market domain expertise, and (2) that have a limited number of end-user customers that can be effectively penetrated and profitably served by its relatively small sales force. The direct sales force will focus on core market verticals where we can leverage our vertical expertise.

Form product strategic partnering agreements to be able to provide more enhanced solutions. The Company will continue its efforts to develop integrations/interconnections with already established software market leaders.

Enter New Markets Through Increased Investment in and Expansion of Strategic Partnerships. To expand into new markets, the Company seeks to increase its key strategic relationships with dominant players in market verticals, system integrators and channel partners having significantly greater resources and immediate access to customers. Because of the Company's positioning of eB as a complementary rather than replacement or standalone solution, the Company is well positioned to create win-win relationships with its direct/indirect competitors. Ultimately, the end-users benefit with higher value solutions that truly address their critical information requirements. Properly implemented, we believe this strategy affords the Company new, relatively immediate, incremental, high margin revenues with substantially reduced investment. However, for this strategy to be successful, the Company must allocate resources for the additional demands placed on the Company. In particular, the Company must invest in: (1) product development to assure eB integrates easily with those of the expanding partner network, and (2) sales, marketing and customer support resources to train, coordinate, and support a growing partnership network and base of end-users.

Outsource Non-Core Operations. The Company plans to continue its program of outsourcing non-core service functions. Services presently outsourced include on-site implementation and integration using partners in selected regions and markets. The Company plans to expand these functions to include other regions and markets.. Through careful partner and supplier selection and program coordination, monitoring and implementation, the Company is better positioned to:

- i) Allocate its resources to its critical, core functions,

- ii) Focus on the delivery of higher margin services and products such as system design services and solution products, and

- iii) Leverage these partners market position, thus providing increase sales opportunity and customer penetration.

Increase Company's Market Presence. The Company plans to increase the awareness and credibility of the Company and the eB suite within its vertical markets, with its partners, and within the investment and technology analyst communities. To heighten the profile of the Company in its customer markets, the Company will be modernizing its corporate image to showcase its state-of-the-art technology and focus on regulatory compliance issues.

Grow revenues by:

- i) Leveraging senior business development executives with extensive market contacts within each of the Company's targeted vertical markets in the US and UK/Europe. In addition, the Company plans to allocate additional resources to support these key persons with adequate staffs and budgets to leverage their effect in the market.
- ii) Leveraging existing user groups to increase the number of licensed seats and/or number of software modules. This is intended to not only increase software sales but also enhance the recurring revenue stream the Company realizes from annual software maintenance contracts. In addition, the Company will target conversion of legacy software seats into eB.
- iii) Applying resources to expand horizontally or vertically to new user groups, departments or subsidiaries within existing markets
- iv) Leverage partnerships into new markets

Customers

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company is primarily active in markets characterized by customers that have extensive assets and infrastructures that need to be managed throughout their life cycles. The target markets specifically include:

Utilities (power, water and gas)

Transportation (air, rail and sea)

Public Sector/Local Government

Enterprises within these markets are highly regulated and operate extensive and complex assets and infrastructures that form the foundation for the products and services they provide to their customers and for generating revenues. For example, rail transportation companies operate a complex rail network including tracks, signaling, electrification, etc. and utilities or public sector enterprises operate power, water or gas distribution networks.

The following are examples of customers who are using the Company's products:

Utilities. Within the utilities industry, countless documents relating to plant management, facility maintenance and support, transmittal processing and tracking and statutory compliance must be current and readily available at all times. Furthermore, with pending deregulation, utilities are under increasing pressure to minimize their costs. The Company has installed information management solutions at utilities around the world and today provides the core Configuration Management product of numerous utilities and has dominated certain applications functions.

Transportation. In the rail transportation segment, countless documents relating to scheduling, structures, track and signaling must be current and readily available at all times. For example, one of the world's oldest and largest public transportation systems had more than 3,000,000 maintenance and safety documents stored on aperture cards and microfiche, and manual handling processes were straining efficient operation. The Company's information management solution now enables users quick access to all documents on-line, including the documents described above as well as accounts payable and invoice records, internal letters and memoranda and other business records, with additional search, optical character recognition (OCR) and e-mail functionality. Today, the system can be accessed and operated by over 1,500 individual users who can retrieve critical business information whenever necessary on a near-instantaneous basis, thereby enabling this public transportation system to better ensure regulatory compliance.

Public Sector / Local Government. Local authorities constantly face the challenges of complying with safety, environmental and fiscal regulations. Many of these organizations have used eB to control their documents and data needed to support these business processes in a highly efficient manner. As an example, a major US metropolitan utilities district has adopted eB as its standard throughout the city and county, and has made extensive use of the interfaces with its Permit Tracking and Geographical Information Systems (GIS). Geo-spatial data is of utmost importance to the safety and security programs currently being developed by all metropolitan authorities. It allows them to accurately identify buildings, powerplants and other structures of high risk, and integrate all available data (e.g. building and evacuation plans, fire surveys, threat assessments) into police, fire and rapid response systems. eB's ability to store this information and make it available in context to geographical location, forms a critical components of a solution for safety and security in local government.

A small number of customers has typically accounted for a large percentage of the Company's annual revenues. In fiscal 2006 Constellation Energy Group accounted for 13% of revenues. In fiscal 2005 Network Rail accounted for 16% of revenues. In fiscal 2004 Network Rail and Constellation Energy Group accounted for 23% and 15% of revenue respectively. The Company's reliance on relatively few customers could have a material adverse effect on the results of its operations on a quarterly basis.

For this reason alternatives to market avenues are being pursued with strategic partners. It is a defined objective of the Company to substantially grow our partnering relationships in markets where we are not directly active.

Sales and Marketing

Direct sales

The Company focuses its direct sales force on select vertical markets with compelling business needs for the Company's information management solutions. The Company has established a strong market presence in those chosen verticals both domestically and internationally. The Company's strategy is to continue its direct sales and marketing to increase its market penetration in these verticals. Sales cycles for the Company's products generally last from six to twelve months.

Indirect distribution channels

Although the Company has historically generated the majority of its revenues from its direct sales force, the Company has also established a network of third-party VARs, system integrators and OEMs who build and sell systems (with components or complete systems provided by the Company) that address specific customer needs within various vertical markets, including those targeted directly by the Company. Sales through indirect channels amounted to \$796,000 or 11%, \$507,000 or 9% and \$471,000 or 5% of total sales for fiscal years 2006, 2005 and 2004, respectively.

The Company's strategy is to further grow and develop its VAR, systems integrator and OEM channels which are primarily targeted at the industries and geographic regions not covered by its direct sales force in order to reach the broadest customer base. The VARs and systems integrators are an integral part of the Company's distribution strategy as they are responsible for identifying potential end-users, selling the Company's products to end-users as part of a complete hardware and software solution, customizing and integrating the Company's products at the end-user's site and supporting the end-user following the sale.

Customers, VARs, systems integrators and OEMs may not continue to purchase the Company's products. The failure by the Company to maintain its existing relationships, or to establish new relationships in the future, could have a material adverse effect on the Company's business, results of operations and financial condition.

Services and Support

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company believes that a high level of services and support are critical to its performance. As a result, the Company maintains a telephone hotline service to provide technical assistance and software support directly to its end-users on an as-needed basis. The Company also provides technical support, maintenance, training and consulting to its VARs, systems integrators and OEMs, which in turn provide technical support services directly to end-users. These services are designed to increase end-user satisfaction, provide feedback to the Company as to end-users demands and requirements and generate recurring revenue. The Company provides much of its maintenance activities through its eSupport website which enables customers and partners to obtain support on a self-service basis. The Company plans to continue to expand its support programs as the depth and breadth of the products offered by the Company increase.

VARs, Systems Integrators and OEM support

The Company employs pre-sales, technical support personnel that work directly with VARs, systems integrators and OEMs to provide responses to technical sales inquiries. The Company also offers educational and training programs, as well as customized consulting services to its VARs, systems integrators and OEMs. Fees for training and consulting services are generally charged on a per diem basis. The Company also provides product information bulletins on an ongoing basis, including bulletins posted through its Internet web site and through periodic informational updates about the products installed. These bulletins generally answer commonly asked questions and provide information about new product features.

Technical Support and Software Maintenance

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company, in conjunction with its VARs and systems integrators, offers end-users a software maintenance program that includes software updates provided by the Company to end-users and technical support provided by the VARs and systems integrators. Telephone consultation is provided by the Company to VARs and systems integrators in response to end-user questions that VARs and systems integrators are unable to answer. VARs and systems integrators typically charge end-users a fee for maintenance and support of the entire EDMS and

imaging system, including software and hardware. In turn, the Company charges VARs and systems integrators an annual fee based upon a percentage of the original purchase price of the licensed software.

The Company generally includes a 90-day limited warranty with software licenses. During the warranty period, end-users are entitled to corrections for documented program errors. The services provided during the warranty period may be extended by the end-user entering into the Company's software maintenance program.

Product Development

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company's product development efforts are focused on providing customers with the most technologically advanced solutions for their document, configuration and records management needs. The Company believes that the marketplace is rapidly moving towards demanding that all corporate information, structured and unstructured, simple and complex, be managed in a consistent and controlled manner. Customers are requiring integrated solutions that address critical information management issues in a holistic manner, that can be implemented quickly and provide a rapid ROI. This trend demands that greater functionality is provided out-of-the-box thereby reducing the need for multiple products from different vendors and the associated integration and support costs. It also demands that products work across technology platforms, across the web, business processes and geographic locations to provide real-time information management with integrated document/content, records and configuration management capabilities.

The Company intends to continue to extend its position as a technology leader in developing and marketing EIM solutions that include integrated document, configuration and records management solutions. The Company intends to do this by continuing to enhance the features and functionality of its eB product suite using industry best practices, customer input and feedback and current technologies, including tools to allow users to tailor the look and feel of the product, administrative tools to enable systems operators to easily setup and make changes to the system and add tighter integration with other third party enterprise products. Through this enhanced functionality and integration the Company's products can provide even faster deployment and greater management control of enterprise information. The Company also plans to introduce new products and product extensions which are complementary to its existing suite of products and which address both existing and emerging market needs.

During 2006, the Company developed a new feature set that enable it to bring EIM features to an existing Microsoft SharePoint installation. This technology will continue to be enhanced and refined during 2007. In addition, the Company is participating in the Early Adopter program for certification on Microsoft's new Vista operating system.

Backlog and Current Contracts

The Company's contract backlog consists of the aggregate anticipated revenues remaining to be earned at a given time from the uncompleted portions of its existing contracts. It does not include revenues that may be earned if customers exercise options to make additional purchases. At September 30, 2006, the Company's contract backlog was \$4,244,000, as compared to \$4,355,000 at September 30, 2005. The Company expects a majority of the September 30, 2006 backlog to be substantially completed in fiscal 2007. The amount of contract backlog is not necessarily indicative of future contract revenues because short-term contracts, modifications to or terminations of present contracts and production delays can provide additional revenues or reduce anticipated revenues. The Company's backlog is typically subject to large variations from time to time when new contracts are awarded. Consequently, it is difficult to make meaningful comparisons of backlog.

The Company's contracts with its customers generally contain provisions permitting termination at any time at the convenience of the customer (or the U.S. Government if the Company is awarded a subcontract under a prime contract with the U.S. Government), upon payment of costs incurred plus a reasonable profit on the goods and services provided prior to termination. To the extent the Company deals directly or through prime contractors with the U.S. Government or other governmental sources, it is subject to the business risk of changes in governmental appropriations. In order to reduce the risks inherent in competing for business with the U.S. Government, the Company has directed its government contracts marketing efforts toward teaming with large corporations, who typically have existing government contracts, can alleviate the cash flow burdens often imposed by government contracts and have more extensive experience in and resources for administering government contracts. The Company does not have any contractual arrangements regarding such joint marketing efforts. In the past, such efforts have been pursued when deemed appropriate by the Company and such corporations in response to opportunities for jointly providing systems or services to potential government agency customers.

Patents and Technology

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company's success is dependent in part upon proprietary technology. The Company owns certain U.S. and foreign patents covering certain aspects of its document management systems technology, including two patents that enable large format drawings to be rapidly downloaded and viewed over low speed communication links. The Company also owns a patent on technology to allow edit users to make changes to documents without having to specify whether they are working on raster or vector data and a patent for a reviser capability that allows users to modify and store drawing changes in raster and vector format for subsequent review of the original document and each sequential revision.

Employees

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

As of January 16, 2007, the Company had 33 full-time employees, of whom 8 were engaged in product development, 11 in customer support, implementation and application engineering activities, 8 in sales and marketing and 6 in administration. The Company also utilizes consultants for specific projects. None of the Company's employees is represented by a labor union. The Company has not experienced work stoppages and believes its relationship with its employees is good. Competition for qualified personnel in the industry in which the Company competes is intense and the Company expects that such competition will continue for the foreseeable future. The Company had an incentive stock option plan that expired March 31, 2006, which was used for granting options to employees as a means of attracting and keeping key individuals. The Company believes that its future success will depend, in large measure, on its ability to continue to attract, hire and retain qualified employees and consultants.

Properties

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company's headquarters are located in San Diego, California. The Company leases 12,192 square feet of a 40,000 square foot building in San Diego. The lease, which commenced September 1, 2003 and terminates on August 31, 2009, carries a monthly rent starting at \$18,898 in year one, increasing 3% each year to \$21,908 in year six.

The Company leases 3,024 square feet of a 6,137 square foot building located in Surrey, United Kingdom. The lease, which commenced on February 10, 2006 and terminates on February 10, 2011, includes an early termination option effective on February 10, 2009, provided six months notice is given. The monthly rent, which begins on August 10, 2006, is \$6,663 over the lease term.

See Note 10 of the Notes to the Consolidated Financial Statements for further information regarding the Company's lease commitments.

Legal Proceedings

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company is involved from time to time in litigation arising in the normal course of business. The Company believes that any liability with respect to such routine litigation, individually or in the aggregate, is not likely to be material to the Company's consolidated financial position or results of operations.

MANAGEMENT

Directors

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The following table and discussion set forth certain information with regard to the Company's current directors.

In accordance with the Stock Purchase Agreement dated as of January 14, 2000 between the Company and Spescom Ltd., the Company has covenanted to include two nominees of Spescom Ltd. in management's slate of nominees to be elected to the Board of Directors at each election of directors and to recommend to the shareholders the election of such nominees for as long as Spescom Ltd. or any affiliate of Spescom Ltd. holds at least thirty-three percent (33%) of the Common Stock. Dr. Myers and Mr. Isaacman were the nominees designated by Spescom Ltd for election at the 2005 Annual Meeting of Stockholders.

Name	Age	Position
Alan Kiraly	45	Chief Executive Officer and Director
Michael Silverman	62	Chairman and Director
Hilton Isaacman	53	Director
D. Ross Hamilton	68	Director
Larry D. Unruh	55	Director
James P. Myers	66	Director

Mr. Kiraly was appointed Chief Executive Officer and a Director of the Company in January 2007, after having served as Interim Chief Executive Officer since August 2006. Mr. Kiraly joined the Company as Vice President of Product Development in August 2004. From October 2000 until joining the Company, he was the Chief Executive Officer of Lascom Solutions Inc., the United States subsidiary of Lascom, SA, a French software developer. Mr. Kiraly was Vice President, Product Management and Development from November 1999 to October 2000 at Motiva Software Inc. Prior to Motiva he held a variety of management positions in product marketing, development and project services at various companies in the software industry. Mr. Kiraly earned a B.S. degree in Mechanical Engineering from Michigan State University in 1983, and Masters of Science in Mechanical Engineering from the University of Dayton in 1986.

Mr. Silverman has been a Director of the Company since April 2004. He was appointed Chairman of the Board of the Company in September 2004. Since 2001 Mr. Silverman has been a director of Island Pacific, Inc., a publicly held software company in the retail industry and in February 2004 was appointed its Chairman. Mr. Silverman founded Advanced Remote Communications Solutions, Inc. (formerly known as Boatracs, Inc.) in 1990 and serves on its board of directors. He previously served as its Chairman until May 2002, and as Chief Executive Officer and President until October 1997, and from November 1999 to May 2002. Mr. Silverman is a Chartered Accountant (South Africa) and received M.B.A. from Stanford University in 1969.

Mr. Isaacman, a nominee of Spescom Ltd., has been a Director of the Company since April 2000. Mr. Isaacman was the Executive Director Corporate Finance of Spescom Ltd from 1999 to 2005. Mr. Isaacman previously served as Spescom Ltd.'s Financial Director from 1990 to 1998. Mr. Isaacman began his career with Spescom Ltd. in 1988 as Financial Manager and was a member of Spescom Ltd.'s Board of Directors from 1990 to 2005. Mr. Isaacman is a Chartered Accountant (South Africa) and received a certificate in accounting, tax and auditing from the University of Capetown in 1982.

Mr. Hamilton has been a Director of the Company since June 1994. He served as Chairman of the Board of the Company from January 1997 through June 1997. Since 1983 Mr. Hamilton has served as President of Hamilton

Research, Inc., a financial consulting firm. Mr. Hamilton received a B.S. degree in Economics from Auburn University in 1961.

Mr. Unruh has served as a Director of the Company since May 1988. Since January 2003 he has been Managing Partner of Hein & Associates LLP, certified public accountants, as well as its Managing Tax Partner since 1982. Mr. Unruh has served as a director of Advanced Laser Technology, Inc. since 1999 and also served as a director of Basin Exploration, Inc., an oil exploration and development company from 1992 to 2001. Mr. Unruh received a B.S. degree in Accounting from the University of Denver in 1973.

Dr. Myers, a nominee of Spescom Ltd., has been a Director of the Company since July 2001. In October 2003 Dr. Myers was appointed as a member of the board of directors of Spescom Ltd. and serves as Chairman. Dr. Myers, currently a consultant, has over 30 years of international business experience specializing in the telecommunications industry. Dr. Myers served as President of Southwestern Bell International Development Africa (Pty) Ltd from 1985 to 1998. Dr. Myers served as the Executive Vice President of that company from 1994 to 1995. From 1993 to 1994, Dr. Myers was the Executive Director of Technology Resources Incorporated. From 1991 to 1993, Dr. Myers was the President of JMA, Inc. From 1979 to 1991, Dr. Myers was the President of The Gammon Group, Inc. From 1969 to 1978, Dr. Myers was a Principal with the accounting firm Arthur Young & Company.

From 1965 to 1969, Dr. Myers was an Operations Research Analyst with Texas Instruments, Inc. Dr. Myers earned his B.A. in Mathematics from Texas A&M University in 1963, a Master of Arts in Mathematical Physics from the University of Arizona in 1965, and a Doctor of Philosophy in Industrial Engineering/Operations Research from Texas Tech University in 1969. Dr. Myers is currently serving as a Director for the following entities: Blackstar Investors PLC, African Merchant Bank, Econet Wireless, and American Chamber of Commerce of South Africa.

All directors are elected annually and serve until the next annual meeting of shareholders and until their successors have been elected and qualified.

Executive Officers

The following table and discussion set forth certain information with regard to the Company's current executive officers.

Name	Age	Position
Alan Kiraly	45	Chief Executive Officer
Glenn Cox	50	Vice President, Marketing and Sales
John W. Low	50	Chief Financial Officer and Secretary
Pierre de Wet	43	Vice President, Operations

Biographical information for *Mr. Kiraly* is set forth above under Directors.

Mr. Cox was appointed Vice President, Marketing and Sales in October 2005. Previously *Mr. Cox* served as Vice President Business Development of the Company from April 1998. *Mr. Cox* joined the Company in January 1997 as Vice President Customer Care. Prior to joining the Company *Mr. Cox* was with Northeast Utilities for 15 years holding various management positions within the information technology group. *Mr. Cox* earned a B.S.E. degree from University of Connecticut in 1982.

Previously, *Mr. DeWet* served as Director of Operations from April 1998 to September 1999 and Director of Projects from May 1997 to April 1998. Prior to joining the Company, *Mr. DeWet* was a Technical Marketing Manager at Paradigm System Technology from June 1995 to April 1997 where he was responsible for establishing relationships with technical partners in Europe and

North America. From April 1991 to June 1995, Mr. DeWet was with PQ Africa, a division of Comparex Holdings. Mr. DeWet earned a B.S. degree from the University of Pretoria in 1989.

Summary of Compensation of Executive Officers

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The following table sets forth certain information concerning the annual and long-term compensation for services rendered in all capacities to the Company of (i) all individuals who served as the Company's Chief Executive Officer during the fiscal year ended September 30, 2006 and (ii) the other three individuals who served as executive officers during the fiscal year ended September 30, 2006 (collectively, the Named Executive Officers).

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

Name and Position	Year	Annual Compensation		Other Annual Compensation (\$)(1)	Long-term Compensation Awards Stock Options (# Shares)
		Salary(\$)	Bonus(\$)		
Alan Kiraly Chief Executive Officer (2)	2006	\$	152,152		200,000
	2005		129,808		
	2004		54,519		30,000
Keith Stentiford Former Chief Executive Officer (3)	2006	\$	196,967		850,000
	2005		121,154		150,000
Glenn Cox Vice President Sales (4)	2006	\$	159,312	\$ 66,223	100,000
John W. Low Chief Financial Officer and Secretary	2006	\$	207,488		150,000
	2005		183,451		
	2004		178,147		
Pierre de Wet Vice President Operations	2006	\$	160,135		100,000
	2005		143,559		
	2004		144,745		

-
- (1) Excludes compensation in the form of other personal benefits, which, other than as set forth in the table above, did not exceed the lesser of \$50,000 or 10% of the total annual salary and bonus reported for each year.
- (2) Mr. Kiraly was appointed Interim Chief Executive Officer in August 2006 and the compensation for fiscal 2006 includes \$24,000 received by Mr. Kiraly for his service in that capacity. Prior to his appointment as Interim Chief Executive Officer, Mr. Kiraly served as Vice President of Product Development of the Company.
- (3) Mr. Stentiford resigned as Chief Executive Officer of the Company in August 2006.
- (4) Mr. Cox was appointed Vice President Sales in October 2005. Prior to that appointment, he held the non-executive position of Vice President Business Development of the Company. The compensation of \$66,223 paid in fiscal 2006 related to commissions earned on sales.

Option Grants in Last Fiscal Year

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

Shown below is information concerning grants of options issued by the Company to the Named Executive Officers during the fiscal year ended September 30, 2006:

Name	Number of Securities Underlying Options Granted(#)(1)	% of Total Options Granted to Employees in Fiscal Year	Exercise Price (\$/Share)	Expiration Date	Potential Realizable Value at Assumed Annual Rates of Stock Price Appreciation For Option Term(2)	
					5% (\$)	10% (\$)
Alan Kiraly	200,000	9%	\$ 0.13	3/31/16	\$ 16,351	\$ 41,437
Keith Stentiford (3)	750,000	35%	\$ 0.11	12/27/15	\$ 51,884	\$ 131,484
	100,000	5%	\$ 0.13	3/31/16	\$ 8,176	\$ 20,719
Glenn Cox	100,000	5%	\$ 0.13	3/31/16	\$ 8,176	\$ 20,719
John W. Low	150,000	7%	\$ 0.13	3/31/16	\$ 12,263	\$ 31,078
Pierre de Wet	100,000	5%	\$ 0.13	3/31/16	\$ 8,176	\$ 20,719

(1) All options were granted with an exercise price equal to the closing sale price of the Common Stock as reported on the OTC Bulletin Board on the date of grant. The options vest 25% 90 days from the date of grant and in additional annual installments of 25% commencing on the first anniversary of the date of grant.

(2) The 5% and 10% assumed rates of appreciation are specified under the rules of the Securities and Exchange Commission and do not represent the Company's estimate or projection of the future price of its Common Stock. The actual value, if any, which a Named Executive Officer may realize upon the exercise of stock options will be based upon the difference between the market price of the Common Stock on the date of exercise and the exercise price.

(3) Mr. Stentiford resigned in August 2006 and all of his options expired unexercised.

Aggregated Option Exercises in Last Fiscal Year and Fiscal Year-End Option Values

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The following table sets forth for the Named Executive Officers information with respect to option exercises during the fiscal year ended September 30, 2006 and unexercised options and option values at September 30, 2006, in each case with respect to options to purchase shares of the Common Stock:

Name	Shares Acquired on Exercise	Value Realized	Number of Unexercised Options Held as of September 30, 2006		Value of Unexercised in-the-money Options at September 30, 2006(\$)(1)	
			Exercisable	Nonexercisable	Exercisable	Nonexercisable
Alan Kiraly			72,500	157,500		
Keith Stentiford						
Glenn Cox			135,000	85,000		
John W. Low			613,500	112,500		
Pierre de Wet			272,000	75,000		

(1) Based on the closing sale price of the Common Stock on the OTC Bulletin Board on September 30, 2006 (\$0.12 per share).

Compensation of Directors

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The directors of the Company are paid a meeting fee of \$1,250 per Board or Audit Committee meeting attended and \$1,000 per Compensation Committee meeting attended. In addition Mr. Silverman as Chairman of the Board of Directors receives an annual fee of \$25,000 payable quarterly. Mr. Unruh as Chairman of the Audit Committee receives an annual fee of \$10,000 payable quarterly.

Employment Arrangements

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company does not have any employment contracts with the Company's executive officers other than the retention agreements described in the following paragraph.

The Company has entered into retention agreements with Alan Kiraly, Glenn Cox, John W. Low and Pierre de Wet, each of which contains the following terms and conditions: If, at the time of a change in control of the Company, the executive officer party to the agreement has not voluntarily terminated his employment or been terminated by the Company for cause, the officer shall be entitled to a retention bonus, payable in cash and/or securities of the entity acquiring the Company (the Acquiror), allocated to him from a bonus pool with the approval of the Compensation Committee. The bonus pool shall be equal to seven percent of the net acquisition proceeds received by the Company in connection with the change in control, provided that the minimum amount of such pool shall be \$450,000 and the maximum amount shall be \$675,000. The officer shall be entitled to receive at least 50% of the retention bonus in cash. If the officer is not employed by the Company or the Acquiror after the change in control, the Company agrees to, within 12 months after the change in control, redeem, or cause the redemption of, for cash any non-marketable securities of the Acquiror that were paid as part of the retention bonus. The redemption shall be at fair market value, as determined by the Acquiror. In addition to the retention bonus, the Company agrees, subject to the officer's execution of a release and separation agreement, to pay the officer severance benefits equal to his base salary for a certain period, which in each case is six or nine months, and a portion of the COBRA premiums under the Company's or the Acquiror's health plan for the same period, when (i) the officer does not remain employed with the Company or the Acquiror immediately following the change in control and certain other conditions are satisfied or (ii) the officer accepts employment with the Company or the Acquiror following the change in control and is terminated without cause within 12 months.

Equity Compensation Plan Information

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The following table gives information about the Company's common stock that may be issued upon the exercise of options under all of the Company's equity compensation plans as of September 30, 2006. The table includes the 1996 Stock Incentive Plan.

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted-average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column a) (c)
Equity compensation plans approved by security holders	4,454,750	\$ 0.28	
Equity compensation plans not approved by security holders	1,300,000(1)(2)(3)	\$ 0.33	
Total	5,754,750	\$ 0.29	

(1) A warrant underlying 1,000,000 of these option shares was granted in 2004 to a public relations firm. The exercise price under the warrant is \$0.40 per share. The warrant expires on November 3, 2007. The warrant vests and becomes exercisable as follows: (i) 500,000 option shares vest on the date that the average of the last sale price of the Company's stock on the OTC Bulletin Board for the ten trading days immediately preceding such date (the Market Price) exceeds \$0.60 per share, (ii) 250,000 option shares vest on the date that the Market Price exceeds \$0.70 per share, and (iii) the remaining 250,000 option shares vest and become exercisable on the date that the Market Price exceeds \$0.80 per share.

(2) A warrant underlying 300,000 of these option shares was granted on March 31, 2006 to a public relations firm. The exercise price under the warrant is \$0.10 per share. The warrant expires on the third anniversary of its date of issuance.

(3) Amount does not include 825,000 shares issuable upon exercise of certain warrants granted to an investment consulting firm pursuant to an agreement executed in connection with the November 2004 private placement of Series G Convertible Preferred Stock. Specifically, that firm received warrants to purchase (i) 550,000 shares of the Company's common stock at a purchase price of \$0.40 per share, expiring November 5, 2009, and (ii) 275,000 shares of the Company's common stock at a purchase price of \$0.44 per share, expiring November 5, 2007.

Compensation Committee Interlocks and Insider Participation

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Compensation Committee is comprised of Messrs. Hamilton, Isaacman, Myers and Unruh. None of the committee members is or was an employee or officer of the Company during the fiscal year ended September 30, 2006. No executive officer of the Company has served as a member of the Board of Directors or Compensation Committee of any company in which Messrs. Hamilton, Isaacman, Myers and Unruh is an executive officer.

Report of Compensation Committee of the Board of Directors

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The following is the Report of the Compensation Committee describing the compensation policies and rationales applicable to the Company's executive officers with respect to the compensation paid to our executive officers for the fiscal year ended September 30, 2006.

The responsibilities of the Compensation Committee are to set compensation policies applicable to the Company's executive officers. The Committee's fundamental policy is to offer the Company's executive officers competitive compensation opportunities based upon the overall performance of the Company, the individual contribution of such officers to the financial success of the Company and market rates of compensation of executive officers at similarly situated technology companies. It is the Committee's objective to have a substantial portion of each officer's total compensation potential contingent upon the Company's performance, as well as upon the officer's own level of performance. Accordingly, each executive officer's compensation package is generally comprised of three elements: (i) base salary, which is established primarily on the basis of individual qualifications, performance and market considerations, (ii) annual variable performance awards payable in cash and tied to the Company's achievement of financial performance goals and the executive's contribution to the achievement of those goals, and (iii) long-term stock-based incentive awards that are intended to strengthen the mutuality of interests between the executive officers and the shareholders.

Base Salary. Individual officer salaries are determined based on individual experience, performance and breadth of responsibility within the Company. The Compensation Committee reviews these factors for each executive officer each year. In addition, the Compensation Committee considers executive officers' salaries for relative competitiveness with similarly-situated companies.

Bonuses. Individual bonuses are based on the contribution of each officer and achievement of overall financial goals of the Company.

Equity Plans. The 1996 Stock Incentive Plan was a long-term incentive plan for the Company's employees, executive officers and directors. The plan expired on March 31, 2006. The plan was intended to align shareholder and employee interests by creating a direct link between long-term rewards and the value of the Company's common stock. The Compensation Committee believes that long-term stock ownership by executive officers and employees is an important factor in retaining valued employees and in achieving growth in share value. The options utilize vesting periods that encourage employees to continue in the employ of the Company. Because the value of an option bears a direct relationship to the Company's stock price, the Compensation Committee believes that options motivate executive officers and employees to manage the Company in a manner which will benefit all shareholders. The Compensation Committee is planning to submit a new Stock Incentive Plan for shareholder approval in 2007.

Stock options may be awarded to employees at any time. The exercise price per share of each stock option is generally equal to the prevailing market price of a share of the Company's common stock on the date the option is granted. The size of stock option grants is determined by a number of factors, including comparable grants to executive officers and employees of similarly situated companies, as well as the executive officer's relative position and responsibilities with the Company, the individual performance of the executive officer over the previous fiscal year, the anticipated contribution of the executive officer to the attainment of the Company's long-term strategic performance goals, and the dilutive effect of the option grant. The Committee views stock option grants as an important component of its long-term, performance-based compensation philosophy.

Compensation for the CEO is determined through a process similar to that discussed above for the other executive officers. The Board of Directors reviews the CEO's compensation based on the Board's overall evaluation of performance toward the achievement of the Company's financial, strategic and other goals, with consideration given to length of service, to competitive chief executive officer compensation information and the overall financial strength of the Company. Mr. Stentiford served as the Company's CEO from prior to the beginning of fiscal 2006 through his resignation in August 2006. Mr. Stentiford's compensation for his service as CEO during fiscal 2006, as approved by the Board, consisted of base salary at the annual rate of \$230,000, target bonus and stock options. Mr. Stentiford was not eligible for receipt of the target bonus approved by the Board because he resigned prior to the end of fiscal 2006. Mr. Kiraly was appointed Interim Chief Executive Officer in August 2006 following Mr. Stentiford's resignation and was appointed Chief Executive Officer in January 2007. Mr. Kiraly's compensation for his services during fiscal 2006, as approved by the Board, consisted of base salary at the annual rate of \$204,000.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

Respectfully submitted by the Compensation Committee of the Board of Directors of Spescom Software Inc. for the year ended September 30, 2006.

Performance Graph

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The stock performance graph shall not be deemed to be incorporated by reference by any general statement incorporating by reference this prospectus or the registration statement of which this prospectus is a part into any filing under the Securities Act of 1933, as amended, or under the Securities Exchange Act of 1934, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such Acts. The following graph shows the Company's total return to shareholders compared to the S&P SmallCap 600 Index and the S&P 600 Application Software Index over the period from October 1, 2001 to September 30, 2006.

Company / Index	Base Period Sep01	INDEXED RETURNS				
		Sep02	Sep03	Years Ending Sep04	Sep05	Sep06
SPESCOM SOFTWARE INC	100	41.38	196.55	186.21	62.07	41.38
S&P SMALLCAP 600 INDEX	100	98.21	124.58	155.20	188.13	201.60
S&P 600 APPLICATION SOFTWARE INDEX	100	86.85	133.17	142.12	175.06	191.73

The cumulative total return on the stock performance graph indicates historical results only and is not necessarily indicative of future results.

Each line on the stock performance graph assumes that \$100 was invested in the Company's Common Stock and the respective indices on October 1, 2001. The graph then tracks the value of these investments, assuming reinvestment of dividends, through the five years ended September 30, 2006.

PRINCIPAL AND SELLING SHAREHOLDERS

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The following table sets forth information as to shares of the Common Stock owned as of January 16, 2007 by (i) each director, (ii) all individuals who served as the Company's Chief Executive Officer during the fiscal year ended September 30, 2006, (iii) the other three individuals who served as executive officers during the fiscal year ended September 30, 2006, (iv) all directors and executive officers as a group and (v) each person who, to the extent known to the Company, beneficially owned more than 5% of the outstanding shares of Common Stock. Unless otherwise indicated in the footnotes following the table, the persons as to whom the information is given have sole voting and investment power over the shares shown as beneficially owned, subject to community property laws where applicable.

Name	Number of Shares (1)	Percent of Class (1)
Spescom Ltd. (4)	27,408,249(3)	56.0%
M.A.G. Capital, LLC (5)	41,680,883(6)(7)(8)	55.2%(9)
Forest Securities Limited (10)	3,141,910	8.5%
D. Ross Hamilton	336,500	*
Hilton Isaacman	306,250	*
James P. Myers (2)	27,556,249(3)	56.2%
Larry D. Unruh	154,297	*
John W. Low	667,000	1.8
Keith Stentiford (11)		
Pierre de Wet	273,600	*
Michael Silverman	36,000	*
Alan Kiraly (12)	72,500	*
Glenn Cox	171,400	*
All Current Directors and Executive Officers as a Group (9 persons) (2)	29,572,796(3)	58.2 %

* Less than one percent.

(1) Amounts and percentages include shares of the Company's common stock that may be acquired within 60 days of January 16, 2007 through the exercise of stock options as follows: 272,000 shares for Mr. De Wet, 72,500 shares for Mr. Kiraly, 135,000 shares for Mr. Cox, 613,500 shares for Mr. Low, 150,000 shares for Mr. Hamilton, 150,000 shares for Mr. Unruh, 306,250 shares for Mr. Isaacman, 135,000 shares for Mr. Myers, 35,000 shares for Mr. Silverman, and 1,869,250 shares for all directors and executive officers as a group.

(2) Dr. Myers, a Director of the Company, is also a member of the board of directors of Spescom Ltd. As an affiliate of Spescom Ltd., Dr. Myers could be deemed to be a beneficial owner of the 27,408,249 shares of common stock of the Company beneficially owned by Spescom Ltd. However, Dr. Myers disclaims beneficial ownership of all such shares.

(3) Amount includes 11,757,778 shares of the Company's common stock issuable upon conversion of the Series F Preferred Stock held by Spescom Ltd. at an initial conversion price of \$.45 per share.

(4) The primary business address of Spescom Ltd. and Dr. Myers is Spescom Park, Cnr. Alexandra & Second Street, Halfway House, Midrand 1685, South Africa.

(5) The shares of the Company's common stock beneficially owned by M.A.G. Capital, LLC (MAG), as detailed in notes (7) and (8), include certain shares beneficially owned by MAG's affiliates Monarch Pointe Fund, Ltd. (Monarch) and Mercator Momentum Fund III, L.P (MMF). MAG controls the investments of Monarch and MMF. David F. Firestone is the Managing Member of MAG and, in such capacity, holds the right to vote and the right to dispose of the shares beneficially owned by MAG, Monarch and MMF. The primary business address of MAG is 555 South Flower Street, Suite 4200, Los Angeles, CA 90071, and the primary business address of each of Monarch and MMF is c/o M.A.G. Capital, LLC, 555 South Flower Street, Suite 4200, Los Angeles, CA 90071.

(6) Amount includes 1,475,926 shares of the Company's common stock beneficially owned by MAG by virtue of MAG's ownership of certain warrants, of which shares (i) 550,000 are issuable upon exercise of a warrant at an exercise price of \$0.44 per share; and (ii) 925,926 are issuable upon exercise of warrants at an exercise price of \$0.27 per share.

(7) Amount includes 35,005,556 shares of the Company's common stock beneficially owned by Monarch, of which (i) 3,285,883 are outstanding, (ii) up to 32,000,000 are issuable upon conversion of the Series I Preferred Stock at a conversion price equal to 85% of the market price (the volume weighted average price of the Company's common stock during the 5 trading days prior to conversion, subject to adjustment), provided that in no event shall the conversion price exceed a ceiling price of \$0.21 per share, or be less than a floor price of \$0.0725 per share; (iii) 2,200,000 are issuable upon exercise of a warrant at an exercise price of \$0.44 per share; and (iv) 805,556 are issuable upon exercise of warrants at an exercise price of \$0.27 per share.

(8) Amount includes 1,913,473 shares of the Company's common stock beneficially owned by MMF, of which (i) up to 1,793,103 are issuable upon conversion of the Series I Preferred Stock at a conversion price equal to 85% of the market price (the volume weighted average price of the Company's common stock during the 5 trading days prior to conversion, subject to adjustment), provided that in no event shall the conversion price exceed a ceiling price of \$0.21 per share, or be less than a floor price of \$0.0725 per share; and (ii) 120,370 are issuable upon exercise of a warrant at an exercise price of \$0.27 per share.

(9) Under the Certificate of Determination of Series I Preferred Stock and the terms of each warrant for the purchase of shares of the Company's common stock held by MAG, Monarch and MMF, each of those entities may not convert any shares of Series I Convertible Preferred Stock or exercise any such warrant if doing so would cause the aggregate beneficial ownership of the Company's common stock of MAG, Monarch and MMF to exceed 9.99% of the Company's common stock then outstanding.

(10) The primary business address of Forest Securities Limited is Polygon Hall, P.O. Box 135, Le Marchant Street, St. Peter Port, Guernsey, GY1 4EL.

(11) Mr. Stentiford resigned as Chief Executive Officer and Director of the Company effective August 18, 2006.

(12) Mr. Kiraly was appointed interim Chief Executive Officer of the Company effective August 18, 2006. On January 10, 2006 he was appointed Chief Executive Officer and a Director of the Company.

Selling Shareholders

The following table sets forth the number of common shares beneficially owned by each of the selling shareholders as of January 16, 2007. To our knowledge, except as provided below, none of the selling shareholders has had a material relationship with us within the past three years other than as a result of the ownership of the shares covered by this prospectus. Because the selling shareholders may offer all or some of the shares which they hold pursuant to the offering contemplated by this prospectus, and because there are currently no agreements, arrangements or understandings with respect to the sale of any of the shares, no definitive estimate can be given as to the amount of shares that will be held by the selling shareholders after completion of this offering and the following table has been prepared on the assumption that all options and warrants will be exercised and all common shares offered hereby will be sold. The selling shareholders named below are not obligated to sell any of the shares shown as offered by them below but may offer the shares offered by this prospectus from time to time.

Name of Shareholder	Shares beneficially owned before offering			Shares beneficially owned after offering	
	Common Shares	Common Shares issuable on conversion of Preferred Stock and/or exercise of warrants	Shares being offered	Number of Shares	Percent of Class
Monarch Pointe Fund, Ltd. (1)(3)	3,285,883	35,005,556	37,746,939	544,500	1%
Mercator Momentum Fund III, L.P. (1)	0	1,913,473	1,913,473	0	0%
M. A. G. Capital, LLC (2)(3)	0	1,475,926	1,475,926	0	0%
Liolios Group, Inc. (4)	0	300,000	300,000	0	0%
Trilogy Capital Partners, Inc. (5)	0	1,000,000	1,000,000	0	0%
Cappello Capital Corp.(6)	0	41,250	41,250	0	0%
Pompan Family Trust U/A/D 4/4/98 (8)	0	470,250(7)	470,250	0	0%
Alexander L. & Linda Cappello 2001 Family Trust (9)	0	143,365(7)	143,365	0	0%
Robert & Ellen Deutschman Family Trust(10)	0	127,135(7)	127,135	0	0%
Sean D.P. Kelly	0	12,000(7)	12,000	0	0%
David Barnes	0	18,000(7)	18,000	0	0%
Larry Kim	0	6,000(7)	6,000	0	0%
Peter Janda	0	3,000(7)	3,000	0	0%
Kyle Messman	0	3,000(7)	3,000	0	0%
Benjamin Fox	0	1,000(7)	1,000	0	0%
CEOcast, Inc.(11)	165,000	0	75,000	90,000	*
Total	3,450,883	40,519,955	43,336,338	634,500	1%

* Less than one percent.

This table is based upon information supplied by the selling shareholders.

(1) M. A. G. Capital, LLC (MAG) controls the investments of Monarch Pointe Fund, Ltd. (Monarch) and Mercator Momentum Fund III, L.P. (MMF). David F. Firestone is the Managing Member of MAG and, in such capacity, holds the right to vote and the right to dispose of the shares beneficially owned by Monarch and MMF.

(2) David Firestone is the Managing Member of MAG and, in such capacity, holds the right to vote and the right to dispose of the shares beneficially owned by MAG.

(3) On November 5, 2004, the Company issued 1) 2,200 shares of Series G Convertible Preferred Stock to Monarch and 2) warrants, which expire November 5, 2007, to purchase an aggregate of 2.75 million shares of common stock at \$0.44 per share to Monarch and MAG, which was then named Mercator Advisory Group, LLC. The aggregate purchase price of the Series G Convertible Preferred Stock and warrants was \$2.2 million. During fiscal 2005, 750 shares of this preferred stock was converted into 2,428,000 shares of common stock. On October 25, 2005, the Company issued 1) 1,950 shares of Series H Convertible Preferred Stock to Monarch and 2) warrants, which expire October 25, 2008, to purchase an aggregate of 925,926 shares of common stock at \$0.27 per share to Monarch and MAG. The aggregate consideration received by the Company for the Series H Convertible Preferred Stock and warrants consisted of \$500,000 and the remaining 1,450 shares of the Series G Convertible Preferred Stock, which were cancelled by the Company. The 1,950 shares of Series H Convertible Preferred Stock issued on October 25, 2005 were returned to the Company and cancelled in connection with the private placement on March 10, 2006 of Series I Convertible Preferred Stock.

(4) The right to vote and the right to dispose of the shares beneficially owned by Liolios Group, Inc. (Liolios Group) is held by Scott Liolios, the President of Liolios Group. Scott Liolios is an independent contractor of Bathgate Capital Partners LLC, a registered broker-dealer. Liolios Group acquired the securities to be resold as compensation for public relations services that have been provided to the Company, which services have been provided in the ordinary course of business of Liolios Group. At the time of the acquisition by Liolios Group of the securities to be resold, Liolios Group did not have any agreement, understanding or arrangement with any person, either directly or indirectly, to dispose of the securities.

(5) A.J. Cervantes has voting or dispositive power over the shares beneficially owned by Trilogy Capital Partners, Inc.

(6) Cappello Capital Corp. (Cappello) is a registered broker-dealer. It received its warrants as compensation in connection with the Company's \$2.2 million private placement in November of 2004 in which Cappello served as placement agent. Gerard Cappello has voting or dispositive power over the shares beneficially owned by Cappello.

(7) These warrants were issued to Cappello, a registered broker-dealer, as compensation in connection with the Company's \$2.2 million private placement in November of 2004 in which Cappello served as placement agent. Also in connection with that private placement, these warrants were transferred to the indicated selling shareholders. Each of the indicated selling shareholders, at the time the warrants were transferred, was an employee of Cappello or was the trust of a principal of Cappello. Presently, each of the indicated selling shareholders continues to be an employee of Cappello or the trust of a principal of Cappello, except that Larry Kim, Peter Janda, Kyle Messman and Benjamin Fox are no longer employees of Cappello. None of the indicated selling shareholders, at the time of the acquisition of the securities to be resold, had any agreement, understanding or arrangement with any person, either directly or indirectly, to dispose of the securities.

(8) Bruce L. Pompan has voting or dispositive power over the shares beneficially owned by the Pompan Family Trust U/A/D 4/4/98.

(9) Alex Cappello has voting or dispositive power over the shares beneficially owned by Alexander L. & Linda Cappello 2001 Family Trust.

(10) Robert Deutschman has voting or dispositive power over the shares beneficially owned by Robert & Ellen Deutschman Family Trust.

(11) Kenneth Sgro has voting and dispositive power over the shares beneficially owned held by CEOcast, Inc.

PLAN OF DISTRIBUTION

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The selling shareholders, or their pledgees, donees, transferees, or any of their successors in interest selling shares received from a named selling shareholder as a gift, partnership distribution or other non-sale-related transfer after the date of this prospectus (all of whom may be selling shareholders) may sell the common shares offered by this prospectus from time to time on any stock exchange or automated interdealer quotation system on which the common shares are listed or quoted at the time of sale, in the over-the-counter market, in privately negotiated transactions or otherwise, at fixed prices that may be changed, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at prices otherwise negotiated. The selling shareholders may sell the common shares by one or more of the following methods, without limitation:

Block trades in which the broker or dealer so engaged will attempt to sell the common shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

An exchange distribution in accordance with the rules of any stock exchange on which the common shares are listed;

Ordinary brokerage transactions and transactions in which the broker solicits purchases;

Privately negotiated transactions;

In connection with short sales of Company shares;

Through the distribution of common shares by any selling shareholder to its partners, members or stockholders;

By pledge to secure debts or other obligations;

In connection with the writing of non-traded and exchange-traded call options, in hedge transactions and in settlement of other transactions in standardized or over-the-counter options;

Purchases by a broker-dealer as principal and resale by the broker-dealer for its account; or

In a combination of any of the above.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

These transactions may include crosses, which are transactions in which the same broker acts as an agent on both sides of the trade. The selling shareholders may also transfer the common shares by gift. We do not know of any arrangements by the selling shareholders for the sale of any of the common shares.

The selling shareholders may engage brokers and dealers, and any brokers or dealers may arrange for other brokers or dealers to participate in effecting sales of the common shares. These brokers or dealers may act as principals, or as an agent of a selling shareholder. Broker-dealers may agree with a selling shareholder to sell a specified number of the shares at a stipulated price per share. If the broker-dealer is unable to sell common shares acting as agent for a selling shareholder, it may purchase as principal any unsold shares at the stipulated price.

Broker-dealers who acquire common shares as principals may thereafter resell the shares from time to time in transactions in any stock exchange or automated interdealer quotation system on which the common shares are then listed, at prices and on terms then prevailing at the time of sale, at prices related to the then-current market price or in negotiated transactions. Broker-dealers may use block transactions and sales to and through broker-dealers, including transactions of the nature described above. The selling shareholders may also sell the common shares in accordance with Rule 144 or Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"), rather than pursuant to this prospectus. In order to comply with the securities laws of some states, if applicable, the shares of common stock may be sold in these jurisdictions only through registered or licensed brokers or dealers.

From time to time, one or more of the selling shareholders may pledge, hypothecate or grant a security interest in some or all of the shares owned by them. The pledgees, secured parties or person to whom the shares have been hypothecated will, upon foreclosure in the event of default, be deemed to be selling shareholders. The number of a selling shareholder's shares offered under this prospectus will decrease as and when it takes such actions. The plan of distribution for that selling shareholder's shares will otherwise remain unchanged. In addition, a selling shareholder may, from time to time, sell the shares short, and, in those instances, this prospectus may be delivered in connection with the short sales and the shares offered under this prospectus may be used to cover short sales.

To the extent required under the Securities Act, the aggregate amount of selling shareholders' shares being offered and the terms of the offering, the names of any agents, brokers, dealers or underwriters, any applicable commission and other material facts with respect to a particular offer will be set forth in an accompanying prospectus supplement or a post-effective amendment to the registration statement of which this prospectus is a part, as appropriate. Any underwriters, dealers, brokers or agents participating in the distribution of the common shares may receive compensation in the form of underwriting discounts, concessions, commissions or fees from a selling shareholder and/or purchasers of selling shareholders' shares, for whom they may act (which compensation as to a particular broker-dealer might be less than or in excess of customary commissions). Neither we nor any selling shareholder can presently estimate the amount of any such compensation.

The selling shareholders and any underwriters, brokers, dealers or agents that participate in the distribution of the common shares may be deemed to be underwriters within the meaning of the Securities Act, and any discounts, concessions, commissions or fees received by them and any profit on the resale of the securities sold by them may be deemed to be underwriting discounts and commissions. If a selling shareholder is deemed to be an underwriter, the selling shareholder may be subject to certain statutory liabilities including, but not limited to Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act. Selling shareholders who are deemed underwriters within the meaning of the Securities Act will be subject to the prospectus delivery requirements of the Securities Act. The SEC staff is of a view that selling shareholders who are registered broker-dealers or affiliates of registered broker-dealers may be underwriters under the Securities Act. We will not pay any compensation or give any discounts or commissions to any underwriter in connection with the securities being offered by this prospectus.

A selling shareholder may enter into hedging transactions with broker-dealers and the broker-dealers may engage in short sales of the common shares in the course of hedging the positions they assume with that selling shareholder, including, without limitation, in connection with distributions of the common shares by those broker-dealers. A selling shareholder may enter into option or other transactions with broker-dealers, who may then resell or otherwise transfer those common shares. A selling shareholder may also loan or pledge the common shares offered hereby to a broker-dealer and the broker-dealer may sell the common shares offered by this prospectus so loaned or upon a default

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

may sell or otherwise transfer the pledged common shares offered by this prospectus.

The selling shareholders and other persons participating in the sale or distribution of the common shares will be subject to applicable provisions of the Exchange Act, and the rules and regulations under the Exchange Act, including Regulation M. This regulation may limit the timing of purchases and sales of any of the common shares by the selling shareholders and any other person. The anti-manipulation rules under the Exchange Act may apply to sales of common shares in the market and to the activities of the selling shareholders and their affiliates. Regulation M may restrict the ability of any person engaged in the distribution of the common shares to engage in market-making activities with respect to the particular common shares being distributed for a period of up to five business days before the distribution. These restrictions may affect the marketability of the common shares and the ability of any person or entity to engage in market-making activities with respect to the common shares.

We have agreed to indemnify M.A.G. Capital, LLC (MAG), Monarch Pointe Fund, Ltd. (Monarch), Mercator Momentum Fund III, L.P. (MMF), Trilogy Capital Partners, Inc., Liolios Group, Inc., Cappello Capital Corp., Pompan Family Trust U/A/D 4/4/98, Alexander L. & Linda Cappello 2001 Family Trust, Robert & Ellen Deutschman Family Trust, Sean D.P. Kelly, David Barnes, Larry Kim, Peter Janda, Kyle Messman and Benjamin Fox, and certain agents and control persons of those parties, against specified liabilities, including liabilities under the Securities Act. The Company has also agreed with MAG, Monarch and MMF to indemnify any brokers, dealers and agents who may be deemed to be underwriters, if any, of the common shares offered by this prospectus for resale by MAG, Monarch and MMF.

We will not receive any proceeds from sales of any common shares by the selling shareholders. We may receive proceeds upon the exercise of the Warrants. Any net proceeds that we receive from any exercise of the Warrants will be used for general corporate purposes, including working capital for our business.

We cannot assure you that the selling shareholders will sell all or any portion of the common shares offered by this prospectus. In addition, we cannot assure you that a selling shareholder will not transfer the shares of our common stock by other means not described in this prospectus.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

Certain of the transactions described below involve Spescom Ltd. As of January 16, 2007, Spescom Ltd. owned approximately 56% of the outstanding common shares of the Company after giving effect to the conversion of the shares of the Company's Series F Preferred Stock held by Spescom Ltd.

Spescom Ltd. and the Company have entered into a license agreement pursuant to which Spescom Ltd. has licensed to the Company the right to use the name "Spescom" and to use a trademark owned by Spescom Ltd. related to certain computer software. The Company will not pay any royalties to Spescom Ltd. in connection with this license. The license is for an indefinite term, but is terminable by either party upon 60 days prior written notice. Under the license agreement, Spescom Ltd. has agreed to indemnify and hold harmless the Company and its directors, officers, employees and agents against liabilities arising from any claim brought against the Company that alleges that Spescom Ltd.'s or the Company's use of the trademark being licensed infringes the rights of any third party, provided that the Company is in material compliance with the provisions of the license agreement.

On September 30, 2003, the Company issued 5,291 shares of its Series F Convertible Preferred Stock (the "Preferred Shares") to Spescom Ltd. in consideration of the cancellation of \$5,291,000 of its debt owed to Spescom Ltd. and Spescom Ltd.'s United Kingdom subsidiary, Spescom Ltd. ("Spescom Ltd. UK").

The Preferred Shares are convertible into the Company's common stock at an initial conversion price of \$0.45 per share (subject to certain adjustments set forth in the related Certificate of Determination for the Preferred Shares) representing a total of 11,757,778 shares of the Company's common stock. Such conversion may occur at the option of the holder until September 30, 2008. On that date, any outstanding Preferred Shares not previously converted are to be converted automatically. The Preferred Shares are entitled to a liquidation preference equal to \$1,000.00 per share, plus accrued but unpaid dividends per share and interest on all accrued but unpaid dividends at an annual rate of 8% compounded annually from the date of accrual. The Preferred Shares are also entitled to receive dividends of 5% of the stated value of \$1,000.00 per share per annum, payable on a quarterly basis in cash or common stock (valued on the basis of the average per share market value on the 30 trading days immediately prior to the date on which such dividend is declared by the Board of Directors). Unpaid dividends accrue interest at the rate of 8% per annum. As part of this transaction, Spescom Ltd. and Spescom Ltd. UK received certain demand and piggyback registration rights with respect to the common stock underlying the Preferred Shares.

In November 2005 the Company's wholly owned subsidiary, Spescom Software Ltd. agreed to guarantee certain loan obligations of Spescom Ltd which totaled \$1.2 million as of December 31, 2006. The proceeds of these loans had been used by Spescom Ltd. in prior years to provide working capital to the Company. The guarantee is secured by the assets of Spescom Software Ltd. which totaled \$283,000 at September 30, 2006.

The Company has issued certain shares of its preferred stock and certain warrants for the purchase of shares of its common stock to M.A.G. Capital, LLC and its affiliates Monarch Pointe Fund, Ltd. and Mercator Momentum Fund III., L.P., as described under "Description of Capital Stock" (under the subheadings "Series I Convertible Preferred Stock" and "The Warrants") and "Principal and Selling Shareholders" (in footnote 3 to the table under the subheading "Selling Shareholders").

DESCRIPTION OF CAPITAL STOCK

Authorized Stock

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

As of the date of this prospectus, our authorized capital stock consists of 100,000,000 shares of common stock, no par value, and 1,000,000 shares of preferred stock, no par value. As of January 16, 2007, our issued and outstanding shares of capital stock consists of 37,144,494 common shares, 5,291 shares of Series F Preferred stock, and 2,450 shares of Series I Preferred Stock. These numbers exclude the approximately 6,726,852 common shares issuable upon the exercise of the Warrants and 4,372,250 common shares issuable pursuant to outstanding options under the Company's equity compensation plans.

Common Shares

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The holders of common stock are entitled to one vote per share on all matters voted on by the shareholders, including elections of directors. Subject to preferences that may apply to any of our outstanding preferred stock, holders of our common stock will receive ratably any dividends our board of directors declares out of funds legally available therefore, and in the event of liquidation or dissolution of the Company, are entitled to share in all assets remaining after payment of liabilities and any liquidation preference of any of our outstanding preferred stock. Our common stock has no preemptive rights, conversion rights, or other subscription rights or redemption or sinking fund provisions. The shares of our common stock to be issued upon completion of this offering will be fully paid and non-assessable.

Series F Convertible 5% Preferred Stock

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

On September 30, 2003, the Company issued 5,291 shares of Series F Preferred Stock (the Series F Preferred Shares) with a stated value of \$1,000 per share in consideration of the cancellation of \$5,291,000 of its debt owed to Spescom Ltd. and its subsidiary. The Series F Preferred Shares are convertible into the Company's common stock, at a stated conversion price of \$0.45 per share, representing a total of 11,757,778 shares of the Company's common stock, subject to certain adjustments to prevent dilution. Such conversion may occur at the option of the holder until September 30, 2008. On that date, any outstanding Series F Preferred Shares not previously converted are to be converted automatically.

The Series F Preferred Shares are entitled to a liquidation preference equal to \$1,000 per share, plus accrued but unpaid dividends per share and interest on all accrued but unpaid dividends. The Series F Preferred Shares are also entitled to receive dividends of 5% of the stated value of \$1,000 per share per annum, payable on a quarterly basis in cash or common stock (valued on the basis of the average per share market value on the 30 trading days immediately prior to the date on which such dividend is declared by the Board of Directors). Unpaid dividends, if any, accrue interest at the rate of 8% per annum. As part of the transaction, Spescom Ltd. and its U.K. subsidiary received certain demand and piggyback registration rights with respect to the common stock underlying the Series F Preferred Shares. Each holder of Series F Preferred Shares is entitled to the number of votes equal to the number of shares of common stock to which such holder would be entitled upon conversion of the Series F Preferred Shares held by such holder on all matters submitted to the vote of the holders of common stock, and votes as a class with the holders of common stock. In a change of control, merger or sale, the holders of Series F Preferred Shares would preserve their conversion rights and would be entitled to the same number of shares immediately prior to such transaction.

Series I Convertible Preferred Stock

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

On March 10, 2006, the Company completed a private placement with M.A.G. Capital, LLC ("MAG"), Monarch Pointe Fund, Ltd. ("Monarch") and Mercator Momentum Fund III, L.P. ("MMF"). Under the terms of the financing, the Company issued (i) to Monarch and MMF an aggregate of 2,450 shares of Series I Convertible Preferred Stock ("Series I Preferred Stock") and (ii) to MAG, Monarch and MMF warrants, expiring March 10, 2009, to purchase an aggregate of 925,926 shares of common stock at \$0.27 per share. The Series I Preferred Stock is convertible into no fewer than 11,666,667 shares of common stock and into no more than 33,793,104 shares of common stock. The Company received aggregate consideration of \$500,000 and 1,950 shares of the Company's Series H Convertible Preferred Stock, which have been cancelled, for the Series I Preferred Stock and warrants issued in the private placement.

The Certificate of Determination for the Series I Convertible Preferred Stock provides that, if the Company has not entered into a binding agreement to consummate a consolidation, merger, reclassification of the stock of the Company (subject to certain exceptions), or disposition of all or substantially all of the assets of the Company on or before April 30, 2006, the holders of Series I Preferred Stock may, by the vote not later than December 31, 2006 of at least two-thirds of the then-outstanding shares of Series I Preferred Stock, elect to have all of the outstanding Series I Preferred Stock redeemed by the Company. In that event, the Company would be obligated to redeem the Series I Preferred Stock at an amount equal to \$1,000 per share plus all declared but unpaid dividends. The Certificate of Determination further provides that, if such election were made and the Company were to lack sufficient funds available to redeem the Series I Preferred Stock in accordance with applicable law, the holders of Series I Preferred Stock as a class would be entitled to elect the smallest number of directors of the Company constituting a majority of the authorized number of directors. A corporate transaction of the variety discussed in the preceding paragraph did not occur on or before April 30, 2006. However, the holders of Series I Preferred Stock have not notified the Company of any election to redeem the Series I Preferred Stock on or before December 31, 2006.

Each share of Series I Preferred Stock is convertible into a number of shares of common stock determined by dividing \$1,000 by the conversion price per share in effect at the time of conversion, provided that a holder of Series I Preferred Stock may at any given time convert only that number of shares of Series I Preferred Stock so that, upon conversion, the aggregate beneficial ownership of the Company's common stock of such holder and all persons affiliated with such holder is not more than 9.99% of the Company's common stock then outstanding. The conversion price per share is equal to 85% of the market price (the volume-weighted average price of the Company's common stock during the 5 immediately preceding trading days, subject to adjustment), provided that in no event shall the conversion price exceed a ceiling price of \$0.21 per share, or be less than a floor price of \$0.0725 per share. The conversion price is subject to adjustment in the case of any stock split, combination, capital reorganization, reclassification, consolidation or merger, and certain dividends. Subject to certain exceptions, the conversion price is also subject to weighted average anti-dilution adjustment in the case of an issuance of shares of common stock or securities exercisable for or convertible into common stock, at a per share price, exercise price or conversion price less than the conversion price then in effect.

Each holder of Series I Preferred Stock is entitled to a liquidation preference equal to the greater of (i) \$1,000 per share plus declared but unpaid dividends per share and (ii) the amount such holder would be entitled to receive had such holder's shares been converted into shares of common stock immediately prior to the distribution in accordance with the terms of the Series I Preferred Stock. Commencing on the issuance date of the Series I Preferred Stock, the Series I Preferred Stock is entitled to receive dividends of 6.75% of the stated value of \$1,000 per share per annum, only payable until the registration statement for the common stock underlying the Series I Preferred Stock is declared effective by the Securities and Exchange Commission.

The Warrants

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Warrants referred to in this prospectus consist of warrants for the purchase of an aggregate of 6,726,852 shares of our common stock, as described below.

An aggregate of 4,601,852 shares of our common stock are issuable under warrants held by M. A. G. Capital, LLC (MAG), which was formerly named Mercator Advisory Group, LLC, and its affiliates Monarch Pointe Fund, Ltd. (Monarch) and Mercator Momentum Fund III, L.P. (MMF), as follows:

2,750,000 shares are issuable under warrants (the Series G Financing Warrants) issued on November 5, 2004 together with shares of preferred stock in the private offering of Series G Preferred Stock to Monarch. Of such warrants, 2,200,000 were issued to Monarch and 550,000 were issued to MAG. Those warrants have an exercise price of \$0.44 per share and expire on November 5, 2007.

925,926 shares are issuable under warrants (the Series H Financing Warrants) issued on October 25, 2005 together with shares of preferred stock in the private offering of Series H Preferred Stock to Monarch. Of such warrants, 462,963 were issued to Monarch and 462,963 were issued to MAG. Those warrants have an exercise price of \$0.27 per share and expire on October 25, 2008.

925,926 shares are issuable under warrants (the Series I Financing Warrants) issued on March 10, 2006 together with shares of preferred stock in the private offering of Series I Preferred Stock to Monarch and MMF. Of such warrants, 342,593 were issued to Monarch, 120,370 were issued to MMF, and 462,963 were issued to MAG. Those warrants have an exercise price of \$0.27 per share and expire on March 10, 2009.

The warrants held by MAG, Monarch and MMF prohibit any exercise thereof that would result in the holder owning beneficially more than 9.99% of the outstanding shares of Common Stock of the Company as determined under Section 13(d) of the Securities Exchange Act of 1934.

On November 15, 2005, the Company entered into an agreement with Liolios Group, Inc. (Liolios) for the provision of public relations services to the Company. As part of the compensation due Liolios, the Company agreed to issue to Liolios, every month the agreement is effective, a warrant to purchase up to 50,000 shares of the Company's common stock at an exercise price of \$0.10 per share. Also as part of the compensation due Liolios, the Company agreed to issue to Liolios a one-time performance warrant to purchase up to 500,000 shares of the Company's common stock at an exercise price of \$0.25 per share, which would vest if, during the term of the agreement, the volume-weighted average price of the Company's common stock were to exceed \$0.50 for five consecutive trading days. Pursuant to notice provided by the Company to Liolios in accordance with the agreement, the agreement terminated six months from November 15, 2005. On March 31, 2006, the Company issued to Liolios a warrant (the Liolios Warrant), expiring on the third anniversary of its date of issuance, for the purchase of 300,000 shares of the Company's common stock at an exercise price of \$0.10 per share. Liolios agreed to accept that warrant in lieu of all of the warrants issuable to Liolios as monthly compensation during the six-month term of the agreement and in lieu of the performance warrant.

On November 4, 2004, the Company issued to Trilogy Capital Partners, Inc. (Trilogy) warrants (the Trilogy Warrants) to purchase 1,000,000 shares of its common stock at \$0.40 per share, expiring November 3, 2007. The warrants vest and become exercisable as follows: (i) 500,000 warrants vest on the date that the average of the last sale price of the Company's stock on the OTC Bulletin Board for the ten trading days immediately preceding such date (the Market Price) exceeds \$0.60 per share, (ii) 250,000 warrants vest on the date that the Market Price exceeds \$0.70 per share, and (iii) the remaining 250,000 warrants vest and become exercisable on the date that the Market Price exceeds \$0.80 per share.

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

In connection with the Series G private placement in November 2004, the Company entered into an agreement with Cappello Capital Corp. (Cappello), an investment consulting firm, pursuant to which Cappello received warrants (the Cappello Warrants) to purchase (i) 550,000 shares of the Company s common stock at a purchase price of \$0.40 per share, expiring November 5, 2009, and (ii) 275,000 shares of the Company s common stock at a purchase price of \$0.44 per share, expiring November 5, 2007.

Shares Included in this Prospectus

The shares included in this prospectus include 36,291,755 shares that have not been registered prior to this offering. Those shares consist of (i) 33,793,103 common shares issuable upon conversion of the shares of Series I Preferred Stock issued to Monarch and MAG on March 10, 2006; (ii) 1,851,852 common shares issuable upon exercise of the Series H Financing Warrants and the Series I Financing Warrants; (iii) 300,000 common shares issuable upon exercise of the Liolios Warrant; (iv) 325,966 common shares issued to Monarch in payment of dividends on shares of Series H Preferred Stock; and (v) 20,834 common shares issued to Monarch in payment of dividends on shares of Series G Preferred Stock.

The shares included in this prospectus also include, pursuant to Rule 429 under the Securities Act, 7,044,583 shares previously registered under the Securities Act on the Company's registration statement on Form S-2, as amended, bearing File No. 333-121038 (the "S-2 Registration Statement"). Those shares consist of (i) 2,750,000 shares issuable upon exercise of the Series G Financing Warrants; (ii) 1,000,000 shares issuable upon exercise of the Trilogy Warrants; (iii) 825,000 common shares issuable upon exercise of the Cappello Warrants; (iv) 2,333,367 common shares issued to Monarch upon conversion of shares of Series G Preferred Stock; (v) 61,216 shares issued to Monarch in payment of dividends on shares of Series G Preferred Stock; and (vi) 75,000 shares issued to CEOCast, Inc. as compensation for public relations services rendered under a Consultant Agreement entered into between the Company and CEOCast, Inc. on March 5, 2004.

In addition to the 7,044,583 shares referenced in the preceding paragraph, the S-2 Registration Statement included 4,999,967 shares which are not included in this prospectus. Those shares consist primarily of 4,904,967 common shares that, as of the effective date of the S-2 Registration Statement, were issuable upon conversion of shares of Series G Preferred Stock. Those shares are no longer subject to issuance because all shares of Series G Preferred Stock have either been converted into common shares or cancelled in connection with the private placement of Series H Preferred Stock, as described in footnote 3 to the table under the heading "Principal and Selling Shareholders" and the subheading "Selling Shareholders." The balance of the 4,999,967 shares consists of 95,000 shares issued to Monarch upon conversion of shares of Series G Preferred Stock and subsequently sold by Monarch under the S-2 Registration Statement.

Registration Rights

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

In connection with our March 10, 2006 private offering of Series I Preferred Stock, we entered into a registration rights agreement with Monarch, MMF and MAG for their benefit, and the benefit of the direct and indirect transferees of the shares sold in that offering. Under this registration rights agreement, we agreed to use commercially reasonable efforts to (i) file with the SEC, no later than 30 days after March 10, 2006, a registration statement providing for the resale of the common shares into which the preferred shares sold in that private offering are convertible, as well as the common shares issuable upon the exercise of the Series I Financing Warrants and the Series H Financing Warrants and (ii) maintain the effectiveness of such registration statement until one of certain conditions is satisfied. Pursuant to that obligation, the Company filed a registration statement that became effective on July 10, 2006 and filed the amendment to registration statement of which this prospectus is part.

The Liolios Warrant is entitled to piggyback registration rights. The common shares issuable upon exercise of the Liolios Warrant are included in this prospectus pursuant to those registration rights.

Certain of the securities included in this prospectus pursuant to Rule 429 under the Securities Act, as discussed under "Shares Included in this Prospectus" above, were previously registered for resale on the S-2 Registration Statement pursuant to registration rights of the holders. The common shares issuable upon the exercise of the Series G Financing Warrants were registered for resale pursuant to a registration rights agreement entered into between the Company, Monarch and MAG in connection with the November 5, 2004 private offering of Series G Convertible Preferred Stock. The common shares issuable upon exercise of the Cappello Warrants and the Trilogy Warrants were registered for resale pursuant to the piggyback registration rights provided under those warrants. The common shares held by CEOcast, Inc. included in this prospectus were registered for resale pursuant to the piggyback registration rights granted in the Consultant Agreement entered into between the Company and CEOcast, Inc. on March 5, 2004. The Company intends to satisfy its continuing obligations under the registration rights referenced in this paragraph through the inclusion of the associated common shares in this prospectus.

Transfer Agent

Our registrar and transfer agent for the shares is Mellon Investor Services, 400 South Hope Street, 4th Floor, Los Angeles, California 90071.

MARKET PRICE OF COMMON STOCK

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Company's common stock trades on the OTC Bulletin Board under the symbol SPCO.OB. The following table shows, for the fiscal quarters indicated, the high and low bid prices of the Company's common stock. These high and low bid prices from over-the-counter market quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission and may not necessarily represent actual transactions.

	High	Low
Year Ending September 30, 2006		
First Quarter	\$ 0.25	\$ 0.09
Second Quarter	0.25	0.11
Third Quarter	0.14	0.08
Fourth Quarter	0.12	0.06
Year Ended September 30, 2005		
First Quarter	\$ 0.55	\$ 0.31
Second Quarter	0.68	0.30
Third Quarter	0.50	0.21
Fourth Quarter	0.36	0.16

On January 16, 2007, there were approximately 800 holders of record of the Company's Common Stock and the last sale price of the Common Stock as reported on the OTC Bulletin Board on January 16, 2007 was \$0.10 per share.

LEGAL MATTERS

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The validity of the shares under California law will be passed upon by Gibson, Dunn & Crutcher, LLP, Palo Alto, California.

EXPERTS

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The consolidated financial statements and related financial statements schedule as of September 30, 2006 and for the three years then ended incorporated in this prospectus have been audited by Singer Lewak Greenbaum & Goldstein LLP, an independent registered public accounting firm, as stated in their reports, which are incorporated herein, and have been so incorporated in reliance upon the report of such firm given upon their authority as experts in accounting and auditing.

WHERE YOU CAN FIND MORE INFORMATION

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

We filed with the SEC a registration statement on Form S-1 under the Securities Act for the common shares sold in this offering. This prospectus does not contain all of the information in the registration statement and the exhibits and schedules that were filed with the registration statement. For further information with respect to the common shares and us, we refer you to the registration statement and the exhibits and schedules that were filed with the registration statement. Statements made in this prospectus regarding the contents of any contract, agreement or other document that is filed as an exhibit to the registration statement are not necessarily complete, and we refer you to the full text of the contract or other document filed as an exhibit to the registration statement.

We also file annual, quarterly and special reports, proxy statements, and other information with the SEC. A copy of the registration statement and the exhibits and schedules that were filed with the registration statement and any other document we file with the SEC may be inspected without charge at the public reference facilities maintained by the SEC at 100 F Street, NE, Washington, DC 20549. Copies of all or any part of the registration statement may be obtained from the SEC upon payment of the prescribed fee. Information regarding the operation of the public reference rooms may be obtained by calling the SEC at 1-800-SEC-0330. The SEC maintains a web site that contains reports, proxy and information statements and other information regarding registrants that file electronically with the SEC. The address of the site is <http://www.sec.gov>.

Website Access to our Periodic SEC Reports

Edgar Filing: SPESCOM SOFTWARE INC - Form POS AM

The Internet address of our corporate website is www.spescomsoftware.com. We intend to make our periodic SEC reports (on Forms 10-K and 10-Q) and current reports (on Form 8-K), as well as the beneficial ownership reports filed by our directors, officers and 10% stockholders (on Forms 3, 4 and 5) available free of charge through our website as soon as reasonably practicable after they are filed electronically with the SEC. We may from time to time provide important disclosures to investors by posting them in the investor relations section of our website, as allowed by SEC rules. The information on our website is not a part of this prospectus.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors

Spescom Software Inc.

San Diego, California

We have audited the consolidated balance sheets of Spescom Software Inc., as of September 30, 2006 and 2005, and the related consolidated statements of operations, comprehensive loss, shareholders' deficit, and cash flows for each of the three years in the period ended September 30, 2006. Our audits also included the financial statement schedule of Spescom Software Inc. listed in Item 15(a). These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provided a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Spescom Software Inc. as of September 30, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended September 30, 2006, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule, when considered in relation to the consolidated financial statements taken as a whole, presents fairly in all material respects the information set forth therein.
