IMPORTANT NOTICES REGARDING PRIVACY, DELIVERY OF SHAREHOLDER DOCUMENTS, PORTFOLIO HOLDINGS AND PROXY VOTING

Privacy. The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy ("Privacy Policy") with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer's account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy only applies to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer's account (i.e., fund shares) is held in the name of a third-party financial adviser/broker-dealer, it is likely that only such adviser's privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance's Privacy Policy, please call 1-800-262-1122.

Delivery of Shareholder Documents. The Securities and Exchange Commission (the "SEC") permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

Portfolio Holdings. Each Eaton Vance Fund and its underlying Portfolio (if applicable) will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

Proxy Voting. From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC's website at www.sec.gov.

Eaton Vance Municipal Income Trusts as of May 31, 2008

INVESTMENT UPDATE

Eaton Vance Municipal Income Trusts (the Trusts) are closed-end Trusts, traded on the American Stock Exchange, which are designed to provide current income exempt from regular federal income tax and state personal income taxes, as applicable. This income is earned by investing primarily in investment-grade municipal securities.

Economic and Market Conditions

Economic growth in the first quarter of 2008 measured 0.9%, according to Commerce Department data reported in May 2008, following the 0.6% growth rate achieved in the fourth quarter 2007. The housing sector continued to struggle in the first quarter due to market concerns related to subprime mortgages. Although the weaker dollar was having a beneficial effect on export-related industries, tourism, and U.S. based multinational companies, consumers started to curtail spending as food and energy costs continued to climb, according to the U.S. Commerce Department, and consumer confidence levels fell to 25-year lows, according to University of Michigan data.

On March 16, 2008, the Federal Reserve (the Fed) took extraordinary actions to support orderly market functioning after it learned that Bear Stearns faced a liquidity crisis which could have triggered a wider market crisis. In addition to approving a financing arrangement to support JPMorgan Chase s acquisition of Bear Stearns, the Fed created a new lending facility that expanded the potential collateral it would accept from member banks and extended the new lending facility to securities firms. Through May 31, 2008, the Federal Funds Rate has been lowered by a total of 325 basis points (3.25%) since September 18, 2007, to 2.00% from 5.25%, and the Discount Rate, the rate at which the Fed lends to banks and securities firms, has been lowered by a total of 400 basis points (4.00%) since August 17, 2007, to 2.25% from 6.25%. Management believes that the Fed s actions have been aimed at providing market liquidity during the period of extreme uncertainty and tight credit conditions that first surfaced in August 2007.

Management Discussion

The Trusts invest primarily in bonds with stated maturities of 10 years or longer, as longer-maturity bonds historically have provided greater tax-exempt income for investors than shorter-maturity bonds.

Relative to their benchmark, the Lehman Brothers Municipal Bond Index a broad-based, unmanaged index of municipal bonds the Trusts underperformed at net asset value (NAV) for the six months ended May 31, 2008.(1) Management believes that much of the underperformance at NAV can be attributed to the broader-based credit crisis that has shaken the fixed-income markets since August 2007, which led investors to move their capital into the Treasury market, particularly in shorter-maturity bonds. This move was originally driven by uncertainty surrounding financial companies exposure to mortgage-backed collateralized debt obligations (CDOs). More recently, the municipal bond market has been impacted by the downgrade of major municipal bond insurers due to their exposure to mortgage-related CDO debt. As a result of an active management style that focuses on income and longer call protection, the Trusts generally hold longer-duration bonds. Although the municipal bond market stabilized and the Trusts performances improved from March 2008 through May 2008, management believes that investors flight to shorter- maturity uninsured bonds from longer-maturity insured bonds, which took place from September 2007 through February 2008, resulted

in the Trusts relative underperformance at NAV for the period.

The ratio of yields on current coupon AAA-rated insured bonds to the yield on 30-year Treasury bonds was 98.2% as of May 31, 2008, with many individual bonds trading higher than 98.2%.(2) Management believes that this was the result of dislocation in the fixed-income marketplace caused by fears of subprime contagion, insurance companies mark-to-market risks and the decentralized nature of the municipal marketplace. Historically, this is a rare occurrence in the

- (1) It is not possible to invest directly in an Index. The Index s total return does not reflect expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index.
- (2) Source: Bloomberg L.P. Yields are a compilation of a representative variety of general obligations and are not necessarily representative of a Trust s yield. Past performance is no guarantee of future results.

The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund. Portfolio information provided in the report may not be representative of the Trusts current or future investments and may change due to active management.

Trust shares are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested.

2

municipal bond market and is generally considered a signal that municipal bonds are significantly undervalued compared to Treasuries.

With this backdrop, management continues to manage all of its municipal funds and trusts with the same relative value approach that it has traditionally employed maintaining a long-term perspective when markets exhibit extreme short-term volatility. We believe this approach has provided excellent long-term benefits to our investors over time.

A Note Regarding Auction Preferred Shares (APS)

As has been widely reported since mid-February 2008, the normal functioning of the auction market in the United States for certain types of auction rate securities has been disrupted by an imbalance between buy and sell orders. Consistent with patterns in the broader market for auction rate securities, the Trusts have, since mid-February, experienced unsuccessful APS auctions. In the event of an unsuccessful auction, the affected APS remain outstanding, and the dividend rate reverts to the specified maximum payable rate.

On June 23, 2008, after the end of the reporting period, management announced that it had secured new financing that the Trusts intend to use to redeem a portion of their outstanding APS, subject to satisfying the notice and other requirements that apply to APS redemptions. Eaton Vance California Municipal Income Trust, Eaton Vance Florida Plus Municipal Income Trust, Eaton Vance Massachusetts Municipal Income Trust, Eaton Vance New Jersey Municipal Income Trust and Eaton Vance New York Municipal Income Trust plan to redeem approximately 6%, 36%, 7%, 3% and 15%, respectively, of their outstanding APS on or after July 7, 2008. Management is working diligently to provide liquidity solutions that will enable the Trusts to redeem their remaining outstanding APS. It is not certain when, or if, the Trusts remaining outstanding APS will be redeemed.

- Average Effective Maturity: 14.4 years
- Average Call Protection: 7.9 years
- Average Dollar Price: \$89.42
- Leverage:** 36.2%

(1) Returns are historical and are calculated by determining the percentage change in share price or net asset value with all distributions reinvested. The Trust s performance at market share price will differ from its results at NAV. Although share price performance generally reflects investment results over time, during shorter periods, returns at share price can also be affected by factors such as changing perceptions about the Trust, market conditions, fluctuations in supply and demand for the Trust s shares, or changes in Trust distributions. Performance results reflect the effects of leverage resulting from the Trust s issuance of Auction Preferred Shares.

(2) The Trust s market yield is calculated by dividing the last dividend paid per common share of the semiannual period by the share price at the end of the semiannual period and annualizing the result.

(3) Taxable-equivalent figure assumes a maximum 41.05% combined federal and state income tax rate. A lower tax rate would result in a lower tax-equivalent figure.

(4) It is not possible to invest directly in an Index. The Index s total return does not reflect the expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index. Index performance is available as of month end only.

(5) The Lipper Averages are the average annual total returns, at net asset value, of the funds that are in the same Lipper Classification as the Trust. It is not possible to invest in a Lipper Classification. Lipper Classifications may include insured and uninsured funds, as well as leveraged and unleveraged funds. The Lipper California Municipal Debt Funds Classification (closed-end) contained 24, 24, 24 and 13 funds for the 6-month, 1-year, 5-year and Life-of-Trust time periods, respectively. Lipper Averages are available as of month end only.

(6) Rating Distribution is determined by dividing the total market value of the issues by the total investments of the Trust.

(7) Portfolio holdings information excludes securities held by special purpose vehicles in which the Trust holds a residual interest. See Note 1H to the Trust s financial statements.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares,

^{**} The leverage amount is Auction Preferred Shares at liquidation value as a percentage of the Trust s net assets applicable to common shares plus Auction Preferred Shares. The Trust uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

when sold, may be worth more or less than their original cost. (2) The Trust s market yield is calculated by dividing the last dividend paid per common share of the semiannual period by the share price at the end of the semiannual period and annualizing the result.

(3) Taxable-equivalent figure assumes a maximum 37.83% combined federal and state income tax rate. A lower tax rate would result in a lower tax-equivalent figure.

(4) It is not possible to invest directly in an Index. The Index s total return does not reflect the expenses that would have been incurred if an investor individually purchased or sold the securities represented in the Index. Index performance is available as of month end only.

(5) The Lipper Averages are the average annual total returns, at net asset value, of the funds that are in the same Lipper Classification as the Trust. It is not possible to invest in a Lipper Classification. Lipper Classifications may include insured and uninsured funds, as well as leveraged and unleveraged funds. The Lipper Michigan Municipal Debt Funds Classification (closed-end) contained 4, 4, 4, and 3 funds for the 6-month, 1-year, 5-year, and Life-of-Trust time periods, respectively. Lipper Averages are available as of month end only.

(6) Rating Distribution is determined by dividing the total market value of the issues by the total investments of the Trust.

(7) Portfolio holdings information excludes securities held by special purpose vehicles in which the Trust holds a residual interest. See Note 1H to the Trust s financial statements.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares,

^{**} The leverage amount is Auction Preferred Shares at liquidation value as a percentage of the Trust s net assets applicable to common shares plus Auction Preferred Shares. The Trust uses leverage through the issuance of preferred shares. Use of financial leverage creates an opportunity for increased income but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Trust s current performance may be lower or higher than the quoted return. For performance as of the most recent month end, please refer to www.eatonvance.com.

Eaton Vance California Municipal Income Trust as of May 31, 2008

PORTFOLIO OF INVESTMENTS (Unaudited) CONT'D

The Trust invests primarily in debt securities issued by California municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at May 31, 2008, 46.4% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 0.5% to 21.0% of total investments.

⁽¹⁾ Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At May 31, 2008, the aggregate value of the securities is \$4,972,899 or 4.8% of the Trust's net assets applicable to common shares.

⁽²⁾ Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at May 31, 2008.

⁽³⁾ Security represents the underlying municipal obligation of an inverse floating rate obligation held by the Trust.

⁽⁴⁾ Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.

AGC - Assured Guaranty Corp.

AMBAC - AMBAC Financial Group, Inc.

AMT - Interest earned from these securities may be considered a tax preference item for purposes of the Federal Alternative Minimum Tax.

CIFG - CIFG Assurance North America, Inc.

FGIC - Financial Guaranty Insurance Company

FSA - Financial Security Assurance, Inc.

MBIA - Municipal Bond Insurance Association

At May 31, 2008, the concentration of the Trust's investments in the various states, determined as a percentage of total investments, is as follows:

Florida	33.2%
Others, representing less than 10% individually	66.8%

The Trust invests primarily in debt securities issued by Florida and other state municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at May 31, 2008, 55.9% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.1% to 23.2% of total investments.

The Trust invests primarily in debt securities issued by Massachusetts municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at May 31, 2008, 36.4% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 4.2% to 12.8% of total investments.

⁽¹⁾ Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At May 31, 2008, the aggregate value of the securities is \$2,112,650 or 5.5% of the Trust's net assets applicable to common shares.

⁽²⁾ Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at May 31, 2008.

⁽³⁾ When-issued security.

⁽⁴⁾ Security represents the underlying municipal obligation of an inverse floating rate obligation held by the Trust.

⁽⁵⁾ Security (or a portion thereof) has been segregated to cover payable for when-issued securities.

⁽⁶⁾ Variable rate demand obligation. The stated interest rate represents the rate in effect at May 31, 2008.

FGIC - Financial Guaranty Insurance Company

Eaton Vance Michigan Municipal Income Trust as of May 31, 2008

PORTFOLIO OF INVESTMENTS (Unaudited) CONT'D

FSA - Financial Security Assurance, Inc.

MBIA - Municipal Bond Insurance Association

XLCA - XL Capital Assurance, Inc.

The Trust invests primarily in debt securities issued by Michigan municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at May 31, 2008, 45.8% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.0% to 17.7% of total investments.

⁽¹⁾ Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At May 31, 2008, the aggregate value of the securities is \$2,254,033 or 7.7% of the Trust's net assets applicable to common shares.

⁽²⁾ Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at May 31, 2008.

⁽³⁾ Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.

⁽⁴⁾ Security represents the underlying municipal obligation of an inverse floating rate obligation held by the Trust.

MBIA - Municipal Bond Insurance Association

XLCA - XL Capital Assurance, Inc.

The Trust invests primarily in debt securities issued by New Jersey municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at May 31, 2008, 46.4% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 2.1% to 19.8% of total investments.

⁽¹⁾ Security represents the underlying municipal obligation of an inverse floating rate obligation held by the Trust.

⁽²⁾ Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At May 31, 2008, the aggregate value of the securities is \$949,112 or 1.4% of the Trust's net assets applicable to common shares.

The Trust invests primarily in debt securities issued by New York municipalities. The ability of the issuers of the debt securities to meet their obligations may be affected by economic developments in a specific industry or municipality. In order to reduce the risk associated with such economic developments, at May 31, 2008, 23.3% of total investments are backed by bond insurance of various financial institutions and financial guaranty assurance agencies. The aggregate percentage insured by an individual financial institution ranged from 1.5% to 13.2% of total investments.

⁽¹⁾ Security represents the underlying municipal obligation of an inverse floating rate obligation held by the Trust.

⁽²⁾ Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At May 31, 2008, the aggregate value of the securities is \$2,080,505 or 2.6% of the Trust's net assets applicable to common shares.

⁽³⁾ Security has been issued as a leveraged inverse floater bond. The stated interest rate represents the rate in effect at May 31, 2008.

⁽⁴⁾ Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.
