---	-------	-------	-------	------------	------------	------------

For the three and nine months ended September 30, 2016 and 2015, options to purchase 5,015,000 and 5,030,000 shares of common stock, respectively, were not added to the diluted average shares because inclusion of such shares would be antidilutive. The option held by Elemetal, LLC (“Elemetal”) to purchase up to 5,000,000 shares of our common stock at an exercise price of \$15 per share, expired on October 25, 2016. For the three and nine months ended September 30, 2016, there were 31,010 unvested Restricted Stock Units (“RSUs”), not added to the diluted average shares because inclusion of such shares would be antidilutive. For the three and nine months ended September 30, 2015, there were 17,500 unvested Restricted Stock Units (“RSUs”), not added to the diluted average shares because inclusion of such shares would be antidilutive.

Less: Line of credit (1)	-	2,303,359		
Long term debt, less current maturities	\$4,271	\$ 13,664		

- (1) On July 19, 2012, DGSE entered into a loan agreement with NTR Metals, LLC (“NTR”), an affiliate of DGSE’s largest stockholder Elemetal, pursuant to which NTR agreed to provide the Company a guidance line of revolving credit in an amount up to \$7,500,000 (the “Loan Agreement”). The Loan Agreement anticipated termination—at which point all amounts outstanding thereunder would be due and payable (such amounts, the “Obligations”)—upon the earlier of: (i) August 1, 2014; (ii) the date that is twelve months after the Company receives notice from NTR demanding the repayment of the Obligations; (iii) the date the Obligations are accelerated in accordance with the terms of the Loan Agreement; or (iv) the date on which the commitment terminates under the Loan Agreement. In connection with the Loan Agreement, the Company granted a security interest in the respective personal property of each of its subsidiaries. The loan carries an interest rate of two percent (2%) per annum for all funds borrowed pursuant to the Loan Agreement. Proceeds received by the Company pursuant to the terms of the Loan Agreement were used for repayment of all outstanding financial obligations incurred in connection with that certain Loan Agreement, dated as of December 22, 2005, between the Company and Texas Capital Bank, and additional proceeds have been used as working

capital in the ordinary course of business. The Company incurred debt issuance costs associated with the Loan Agreement totaling \$56,150. The debt issuance costs were included in other assets in the accompanying consolidated balance sheet, were amortized to interest expense on a straight-line basis over two years, and were completely amortized as of July 2014. On February 25, 2014, we entered into a one-year extension of the Loan Agreement with NTR, extending the termination date to August 1, 2015, and on February 4, 2015, we entered into an additional two-year extension, extending the termination date to August 1, 2017, unless earlier terminated as described above. No debt issuance costs were incurred in relation to these extensions. All other terms of the agreement remained the same. As of September 30, 2016 and December 31, 2015, the outstanding balance of the NTR loan was \$2,303,359, which as of September 30, 2016 was reclassified to Current Liabilities as its maturity date is less than twelve months. See Note 8, *Related Party Transactions* for discussion of a proposed transaction with NTR to cancel and forgive all amounts outstanding under the Loan Agreement, subject to certain closing conditions including but not limited to shareholder approval.

(2) On July 11, 2006, DGSE entered into a promissory note for \$2,530,000 related to the mortgage on its largest retail location in Dallas, Texas with The Ohio National Life Insurance Company. The note bore an interest rate of six and seventy one-hundredths of one percent (6.70%) per annum, with a balloon payment of approximately \$1.5 million due on August 1, 2016 for the outstanding balance. Monthly principal payment payments of \$20,192 plus accrued interest were required. The note was secured by the land and building. On July 27, 2016 the Company closed on the sale of this location and used the proceeds to pay off its outstanding mortgage payable balance of \$1,509,027. As of September 30, 2016 and December 31, 2015, the outstanding balance of the note was \$0 and \$1,589,522, respectively.

(3) On April 3, 2011, DGSE entered into a capital lease for \$58,563 with Graybar Financial Services for phones at the new corporate headquarters. The non-cancelable lease agreement required an advanced payment of \$2,304 and monthly payments of \$1,077 for 60 months at an interest rate of 4.2% beginning in May 2011. At the end of the lease in May 2018, the equipment can be purchased for \$1.

In May 2016, the Company entered into a Sale Agreement for the property associated with our largest retail store located in Dallas, Texas with 1and2 Automotive, LLC and/or its assigns for \$2,250,000. This transaction closed on July 27, 2016 with the proceeds paying off the outstanding mortgage balance on the property. The remaining proceeds will be primarily used to pay for the buildout of our new location, which will allow us to consolidate at least three stores in the eastern part of the Dallas-Fort Worth area. The Company incurred a loss associated with the sale of this property in the amount of \$1,026,078. The loss includes \$250,000 of accelerated depreciation expense associated with the write off of fixed assets.

## Note 7 - Stock-Based Compensation

The Company accounts for share-based compensation by measuring the cost of the employee services received in exchange for an award of equity instruments, including grants of stock options, based on the fair value of the award at the date of grant. In addition, to the extent that the Company receives an excess tax benefit upon exercise of an award, such benefit is reflected as cash flow from financing activities in the consolidated statement of cash flows.

In January 2014, DGSE's Board of Directors (the "Board") granted 112,000 RSUs to its officers and certain key employees. Each RSU is convertible into one share of common stock without additional payment pursuant to the terms of the Restricted Stock Unit Award Agreement, dated January 23, 2014, between the Company and each recipient (the "RSU Award Agreement"). One-fourth (or 28,000) of the RSUs vested and were exercisable as of the date of the grant, and an additional one-fourth of the RSUs (calculated using the total number of RSUs at the time of grant) vest and will be exercisable on each subsequent anniversary of the date of grant until 100 percent of the RSUs have vested, subject to the recipient's continued status as an employee on each such date and other terms and conditions as set forth in the RSU Award Agreement. Upon termination of service of the recipient to us, other than by reason of death or disability, any RSUs that have not vested will be forfeited and the award of such units shall terminate. Pursuant to these grants, an additional 2,000 RSUs vested in January 2016, and the recipients were subsequently

issued common stock. Of the RSUs granted in January 2014, only 500 remain unvested and outstanding as of September 30, 2016.

In September of 2014, the Board granted 14,200 RSUs to each of its three outside directors, for a total of 42,600 RSUs issued. Each RSU is convertible into one share of common stock without additional payment pursuant to the terms of the RSU Award Agreement, dated September 17, 2014, between the Company and each recipient. All of the RSUs were to vest and become exercisable on the earlier of: (i) the one year anniversary of the grant date; or (ii) the day prior to the next Annual Meeting of the Stockholders of DGSE Companies, Inc., subject to each recipient's continued status as a Director through such dates and other terms and conditions of set forth in the RSU Award Agreement. Upon termination of service of the recipient to the Company, other than by reason of death or disability, any RSUs that have not vested will be forfeited and the award of such units shall terminate. All 42,600 of these RSUs vested as of June 9, 2015, the day prior to our 2015 Annual Meeting of Stockholders, which was held June 10, 2015, and subsequently 42,600 shares of common stock were issued pursuant to these RSUs, on June 11, 2015.

On March 24, 2016, the Board awarded the three independent directors a total of 122,040 RSUs as compensation for their Board service. One-fourth (30,510) of the RSUs vest quarterly and were issued on March 31, June 30 and September 30, 2016, respectively. The remaining 30,510 RSUs will vest as of and be issued on or about December 31, 2016, subject to the continued status as a director on each such date and other terms and conditions as set forth in the RSU Award Agreement, dated March 24, 2016. Each vested RSU is convertible into one share of our common stock, par value \$0.01, without additional consideration. Upon termination of service of each independent director, other than by reason of death or disability, any RSUs that have not vested will be forfeited and the award of such units shall terminate. Of these RSUs, 30,510 remain unvested and outstanding as of September 30, 2016.

On April 27, 2016, the Board awarded Matthew M. Peakes, the Chief Executive Officer of the Company, and Nabil J. Lopez, the Chief Financial Officer of the Company at such time, a total of 125,000 RSUs as compensation for their service as executives of the Company. One-fourth (or 31,250) of the RSUs will vest ratably in equal annual installments over a four-year period beginning on April 27, 2017, subject to the continued status as an employee on each such date and other terms and conditions of set forth in the RSU Award Agreement, dated April 27, 2016. Each vested RSU is convertible into one share of our common stock, par value \$0.01, without additional consideration. Upon termination of service of the employee, other than by reason of death or disability, any RSUs that have not vested will be forfeited and the award of such units shall terminate. As a result of his resignation effective August 15, 2016, 50,000 RSUs awarded to Mr. Lopez were forfeited.

In addition to the RSU grant above for Mr. Peakes and Mr. Lopez, the Compensation Committee granted an additional 125,000 performance-based RSUs to the executives that will vest ratably over a four-year period beginning April 27, 2017 if certain financial performance criteria is achieved. Subsequent to such grants, the 2006 Equity Incentive Plan (the "2006 Plan") expired. As a result, no further issuances can be made pursuant to the 2006 Plan. As a result of his resignation effective August 15, 2016, 50,000 RSUs awarded to Mr. Lopez were forfeited.

Stock-based compensation expense for the three months ended September 30, 2016 and 2015 was \$25,628 and \$687, respectively. Stock-based compensation expense for the nine months ended September 30, 2016 and 2015 was \$63,950 and \$36,882, respectively, relating to employee and director RSUs, and included in selling, general and administrative expenses in the accompanying consolidated statements of operations.

#### **Note 8 - Related Party Transactions**

DGSE has a corporate policy governing the identification, review, consideration and approval or ratification of transactions with related persons, as that term is defined in the Instructions to Item 404(a) of Regulation S-K, promulgated under the Securities Act ("Related Party"). Under this policy, all Related Party transactions are identified and approved prior to consummation of the transaction to ensure they are consistent with DGSE's best interests and the best interests of its stockholders. Among other factors, DGSE's Board considers the size and duration of the

transaction, the nature and interest of the of the Related Party in the transaction, whether the transaction may involve a conflict of interest and if the transaction is on terms that are at least as favorable to DGSE as would be available in a comparable transaction with an unaffiliated third party. DGSE's Board reviews all Related Party transactions at least annually to determine if it is in DGSE's best interests and the best interests of DGSE's stockholders to continue, modify, or terminate any of the Related Party transactions. DGSE's Related Person Transaction Policy is available for review in its entirety under the "Investors" menu of the Company's corporate relations website at [www.DGSECompanies.com](http://www.DGSECompanies.com).

Elemetal is DGSE's largest shareholder. Elemetal and its affiliates are also DGSE's primary refiner and bullion trading partner. In the nine months ended September 30, 2016, 35% of sales and 20% of purchases were transactions with Elemetal, and in the same period of 2015, these transactions represented 22% of DGSE's sales and 28% of DGSE's purchases. As of September 30, 2016, the Company was obligated to pay \$6,021,325 to Elemetal as a trade payable, and had a \$1,088 receivable from Elemetal. As of December 31, 2015, the Company was obligated to pay \$4,176,037 to Elemetal as a trade payable, and had a \$169,136 receivable from Elemetal. In the nine months ended September 30, 2016 and 2015, the Company paid Elemetal \$187,784 and \$136,528, respectively, in interest on the Company's outstanding payable.

On July 19, 2012, the Company entered into the Loan Agreement with NTR, pursuant to which NTR agreed to provide the Company with a guidance line of revolving credit in an amount up to \$7,500,000. The Loan Agreement anticipated termination—at which point all amounts outstanding thereunder would be due and payable—upon the earlier of: (i) August 1, 2014; (ii) the date that is twelve months after DGSE receives notice from NTR demanding the repayment of the Obligations; (iii) the date the Obligations are accelerated in accordance with the terms of the Loan Agreement; or, (iv) the date on which the commitment terminates under the Loan Agreement. In connection with the Loan Agreement, DGSE granted a security interest in the respective personal property of each of its subsidiaries. The loan carries an interest rate of two percent (2%) per annum for all funds borrowed pursuant to the Loan Agreement. Proceeds received by DGSE pursuant to the terms of the Loan Agreement were used for repayment of all outstanding financial obligations incurred in connection with that certain Loan Agreement, dated as of December 22, 2005, between DGSE and Texas Capital Bank, N.A., and additional proceeds are expected were used as working capital in the ordinary course of business. On February 25, 2014, we entered into a one-year extension of the Loan Agreement with NTR, extending the termination date to August 1, 2015, and on February 4, 2015, we entered into an additional two-year extension, extending the termination date to August 1, 2017, unless earlier terminated as described above. All other terms of the agreement remain the same. As of September 30, 2016 and December 31, 2015, the outstanding balance of the NTR loan was \$2,303,359, which as of September 30, 2016 was reclassified to Current Liabilities as its maturity date is less than twelve months. In the nine months ended September 30, 2016 and 2015, the Company paid NTR \$34,421 and \$34,293, respectively, in interest on the Company's line of credit.

In April 2013, DGSE moved its principal corporate offices to office space at 15850 Dallas Parkway, Suite 140, Dallas, Texas. This property is owned by an affiliate of Element and also serves as their headquarters. DGSE leases space in the building subject to a lease that expired in December 2015. The Company continues to pay this lease on a month-to-month basis with no increase in the rent. In the nine months ended September 30, 2016 and 2015, the Company recognized rent expense of \$67,500 and \$39,375, respectively, related to this lease.

In the fourth quarter of Fiscal 2013, the Company established a wholly owned subsidiary named Carbon Fund One, LLC to act as the general partner (the "General Partner") for Carbon Fund One, LP (the "Fund"), which was established at the same time. The Fund was an investment fund specializing in the buying and selling of gemstones. The General Partner receives a one percent ownership interest of the Fund, and is paid 2% carried interest on assets under management by the Fund, and 20% of net earnings before distributions to the limited partners. The Fund was intended to provide an investment vehicle for individuals interested in investment opportunities in diamonds and gemstones, and provide incremental value to the Company's shareholders by utilizing the Company's expertise, infrastructure, and retail and wholesale customer base, to generate additional profit through earnings from its role as General Partner. Ultimately, DGSE's management made the decision to end its involvement in the Fund, and the General Partner has wrapped up the Fund's activities and liquidated all remaining inventory. The Fund transacted business with the Company from time to time, including buying gemstones from and selling gemstones to the Company. In the three and nine months ended September 30, 2016, the Company made no sales or purchases from the Fund, and owed the Fund nothing as of September 30, 2016 in trade payables. In the three months ended September 20, 2015, the Company made no sales or purchases from the Fund. In the nine months ended September 30, 2015, the Company made no sales to the Fund, had purchases of \$11,330 from the Fund, and owed the Fund nothing as of September 30, 2015 in trade payables. Additionally, in the three and nine months ended September 30, 2015, the General Partner generated net losses of \$228 and \$1,334, respectively, from its role with the Fund.

On June 20, 2016, the Company entered into a stock purchase agreement with Elemetal and NTR, pursuant to which (i) DGSE agreed to sell and issue to NTR shares of common stock at a stock price of \$0.41 per share in exchange for the cancellation and forgiveness of all amounts outstanding under the Loan Agreement and an associated \$7,500,000 Revolving Credit Note of the same date executed by DGSE in favor of NTR (which indebtedness and accrued interest as of September 30, 2016 was \$2,429,608), and (ii) DGSE agreed to sell and issue to Elemetal 8,536,585 shares of common stock at a stock price of \$0.41 per share and a warrant to purchase an additional 1,000,000 shares of common stock at an exercise price of \$0.65 per share in exchange for the cancellation and forgiveness of \$3,500,000 of trade payables owed to Elemetal as a result of bullion-related transactions. In connection with the closing of the purchase agreement, DGSE will enter into a registration rights agreement with NTR and Elemetal providing for, among other things, demand and piggyback registration rights with respect to the shares to be issued and registration procedures. The closing of the transactions is expected to take place following satisfaction of various closing conditions, including obtaining the approval of DGSE's stockholders and amendment of the Company's Articles of Incorporation. Both matters are scheduled to be submitted to a vote of stockholders at the Company's 2016 Annual Meeting of Stockholders to be held December 7, 2016.

**Note 9 - Legal Proceedings**

There have been no material changes with respect to the legal proceedings disclosed in our Annual Report on Form 10-K, including Amendment No. 1, for the year ended December 31, 2015.

**Note 10 - Discontinued Operations**

During the first half of 2014, the Company elected to discontinue the operations of Southern Bullion, due to the lack of profitability and management's belief that it was unlikely that profitability would be reached in the foreseeable future. The significant change in the precious metals market in 2013, including a 30% decline in the spot price of gold since the acquisition of Southern Bullion in 2011, had a disproportionately negative impact on the customer traffic, transactional volume and profitability of the Southern Bullion operations. As a result, during 2013, the Southern Bullion operations generated a net loss of approximately \$1.9 million. The operating results for all Southern Bullion operations have been reclassified as discontinued operations in the consolidated statements of operations for the three and nine months ended September 30, 2016 and 2015.

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,

Income tax benefit	825	2,123	661	2,123
Income from discontinued operations after income taxes	\$ 825	\$ 13,848	\$ 661	\$ 58,095

As of September 30, 2016, the Company believes it has now recognized all material expenses related to the closure of Southern Bullion operations. Discontinued operations for the three and nine months ended September 30, 2015, include adjustments of existing expense accruals related to winding down the operations of Southern Bullion.

## **ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS 2. OF OPERATIONS.**

*Unless the context indicates otherwise, references to "we," "us," "our," "the Company" and "DGSE" refer to the consolidated business operations of DGSE Companies, Inc., the parent, and all of its direct and indirect subsidiaries.*

### **Forward-Looking Statements**

This Quarterly Report on Form 10-Q for the quarter ended September 30, 2016 (this "Form 10-Q"), including but not limited to: (i) the section of this Form 10-Q entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations;" (ii) information concerning our business prospects or future financial performance, anticipated revenues, expenses, profitability or other financial items; and, (iii) our strategies, plans and objectives, together with other statements that are not historical facts, includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements generally can be identified by the use of forward-looking terminology, such as "may," "will," "would," "expect," "intend," "could," "estimate," "should," "anticipate," "believe." We intend that all forward-looking statements be subject to the safe harbors created by these laws. All statements other than statements of historical information provided herein are forward-looking statements based on current expectations regarding important risk factors. Many of these risks and uncertainties are beyond our ability to control, and, in many cases, we cannot predict all of the risks and uncertainties that could cause our actual results to differ materially from those expressed in the forward-looking statements. Actual results could differ materially from those expressed in the forward-looking statements, and readers should not regard those statements as a representation by us or any other person that the results expressed in the statements will be achieved. Important risk factors that could cause results or events to differ from current expectations are described under the section of this Form 10-Q entitled "Risk Factors" and elsewhere in this Form 10-Q as well as under the section entitled "Risk Factors" in our Fiscal 2015 Annual Report. These factors are not intended to be an all-encompassing list of risks and uncertainties that may affect the operations, performance, development and results of our business. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. We undertake no obligation to release publicly the results of any revisions to these forward-looking statements, which may be made to reflect events or circumstances after the date thereon, including without limitation, changes in our business strategy or planned capital expenditures, store growth plans, or to reflect the occurrence of unanticipated events.

### **Results of Operations**

#### ***General***

We buy and sell jewelry, diamonds, fine watches, rare coins and currency, precious metal bullion products, scrap gold, silver, platinum and palladium as well as collectibles and other valuables. Our customers include individual consumers, dealers and institutions throughout the United States.

Many aspects of our business are impacted by changes in precious metals pricing which rise and fall based upon global supply and demand dynamics, with the greatest impact relating to gold. Fiscal 2015 continued to see a downward pricing pressure in gold prices, dropping as low as \$1,053.95 per ounce. Despite this general decline in the price of gold, the demand for physical gold increased during the last half of 2015. Similar to the trend in the first half of 2016, gold prices have continued to trend upward with the London PM Fix closing at \$1,317.60 per ounce at September 30, 2016. This closing price represents an increase of approximately twelve percent as compared to the average closing price for the three months ended September 30, 2015.

However, the market for buying and selling of pre-owned or “scrap” gold continues to remain extremely negative. Scrap gold purchases have historically been a critical profit engine for all of our locations, and the downturn in this category has had a significant impact on our revenue, profitability and long-term growth plans.

As noted above, the scrap gold buying model has seen a substantial reduction in recent years, and as a result, we continue to adapt our retail strategy to meet the demands of the current market. In Fiscal 2016, the focus of our marketing and merchandising efforts will be to continue to grow our jewelry, diamond and watch businesses. We continue to believe that the most successful locations will be those that can sustain our full retail “exchange” model: engaging in both buying and selling of precious metals and related merchandise, while maintaining a robust and diverse inventory across all jewelry categories and providing critical services such as watch and jewelry repair. Those locations that have historically been primarily scrap buying shops simply no longer make economic sense in the current environment. In recent years, DGSE has had many small locations spread across the DFW area in order to provide multiple scrap collection sites. We are now focusing on developing larger, full-service stores, with broad inventory offerings across all categories, while also providing value-added services that help drive retail traffic. We will continue to focus on evolving our business across all of our markets, in an effort to drive efficiency across our geographical footprint, and maximize profitability.

The following table represents our historical operating results by categories:

	Three Months Ended September 30, 2016			2015		
	Revenues	Gross Profit	Margin	Revenues	Gross Profit	Margin
Jewelry	\$2,741,418	\$ 819,837	29.9 %	\$3,359,395	\$ 1,075,978	32.0 %
Bullion/Rare Coin	6,686,502	617,637	9.2 %	12,003,447	886,115	7.4 %
Scrap	816,940	286,947	35.1 %	834,381	257,761	30.9 %
Other	327,211	143,159	43.8 %	326,603	166,887	51.1 %
<b>Total</b>	<b>\$10,572,071</b>	<b>\$ 1,867,580</b>	<b>17.7 %</b>	<b>\$16,523,826</b>	<b>\$ 2,386,741</b>	<b>14.4 %</b>

	Nine Months Ended September 30, 2016			2015		
	Revenues	Gross Profit	Margin	Revenues	Gross Profit	Margin
Jewelry	\$9,356,503	\$2,939,271	31.4 %	\$11,170,942	\$3,721,734	33.3 %
Bullion/Rare Coin	24,984,939	2,069,333	8.3 %	29,202,169	2,127,472	7.3 %

***Three Months Ended September 30, 2016 compared to Three Months Ended September 30, 2015***

**Revenues.** Revenues related to continuing operations decreased by \$5,951,755, or 36%, during the three months ended September 30, 2016, to \$10,572,071, as compared to \$16,523,826 during the same period in 2015. Bullion sales were down approximately 44% compared to the three months ended September 30, 2015, while jewelry and scrap sales were also down approximately 18% and 2%, respectively, compared to the prior year quarter. Our scrap business has historically been one of our largest revenue and profit drivers, and in Fiscal 2016 that business continued to contract in line with industry trends. During the quarter ended September 30, 2016, we closed one store located in Dallas, Texas.

**Gross Profit.** For the three months ended September 30, 2016, gross profit decreased by \$519,161, or 22%, to \$1,867,580, as compared to \$2,386,741 during the same period in 2015. The decrease in gross profit dollars was due primarily to decreased sales. Gross margin as a percentage of revenue increased to 17.7% for the three months ended September 30, 2016, compared to 14.4% for the same period in the prior year, as the ratio of sales of higher margin categories increased relative to lower margin categories.

**Selling, General and Administrative Expenses.** For the three months ended September 30, 2016, Selling, General and Administrative (“SG&A”) expenses decreased by \$505,528, or 18.8%, to \$2,184,041, as compared to \$2,689,569 during the same period in 2015. The decrease in SG&A was primarily due to an accrual of \$360,000 related to a potential Texas sales tax assessment based on a preliminary assessment by management in connection with the audit of fiscal year 2010 through June 2013 of our Texas sales tax during the three months ended September 30, 2015. SG&A also was impacted favorably by the decrease in advertising expense during the three months ended September 30, 2016 versus September 30, 2015 due principally to a reduction in storefronts. SG&A for the three months ended September 30, 2016 was impacted negatively by additional salary expense associated with staff reductions of approximately \$75,000.

**Loss on the Sale of Asset.** For the three months ended September 30, 2016, the Company incurred a loss of \$1,026,078 related to the sale of its largest retail location in Dallas, Texas. The loss includes approximately \$250,000 of accelerated depreciation expense associated with the write-off of assets and approximately \$136,000 of selling expense.

**Depreciation and Amortization.** For the three months ended September 30, 2016, depreciation and amortization expense was \$77,878 compared to \$80,499 for the same period in 2015, a decrease of \$2,621, or 3%.

**Interest Expense.** For the three months ended September 30, 2016, interest expense was \$88,909, an increase of \$4,083, or 5%, compared to \$84,826 during the same period in 2015. The increase is primarily due to a higher balance in trade payables to Elemetal Capital, on which the Company pays interest.

**Income from Discontinued Operations.** For the three months ended September 30, 2016, the Company recognized a state tax refund of \$825 related to discontinued operations. The results for the three months ended September 30, 2015, included income from discontinued operations of \$13,848 related to the Southern Bullion locations closed in 2014. The income relates to adjustments in accrued expenses related to the wind down of all Southern Bullion operations.

***Nine Months Ended September 30, 2016 compared to Nine Months Ended September 30, 2015***

**Revenues.** Revenues related to continuing operations decreased by \$6,496,619, or 15%, during the nine months ended September 30, 2016, to \$37,844,993, as compared to \$44,341,612 during the same period in 2015. Jewelry, bullion and scrap sales were down compared to the nine months ended September 30, 2015, while consignment sales were up approximately 17% compared with the prior year quarter. Our scrap business has historically been one of our largest revenue and profit drivers, and in Fiscal 2016 that business continued to contract in line with industry trends. During the nine months ended September 30, 2016, we closed Chicago Gold & Diamond Exchange located in Chicago, Illinois and our largest store located in Dallas, Texas. During the nine months ended September 30, 2015, we closed four stores in the Dallas-Fort Worth area.

**Gross Profit.** For the nine months ended September 30, 2016, gross profit decreased by \$990,621, or 14%, to \$6,298,479, as compared to \$7,289,100 during the same period in 2015. The decrease in gross profit dollars was due primarily to decreased sales. As a percentage of revenue, gross margin increased slightly to 16.6% compared to 16.4% in the same period for the prior year, as the ratio of sales of higher margin categories increased relative to lower margin categories.

**Selling, General and Administrative Expenses.** For the nine months ended September 30, 2016, SG&A expenses decreased by \$707,194, or 9%, to \$7,401,556, as compared to \$8,108,750 during the same period in 2015. The decrease in SG&A was achieved through continued efforts to reduce expenses at all levels, including store-level operating expenses, corporate overhead and advertising expense. The decrease is also a result of the recognition of approximately \$145,000 related to the acceleration of rent expense associated with two stores closed during the first quarter of 2015. SG&A for the nine months ended September 30, 2016 was negatively impacted by additional salary expense associated with staff reductions of approximately \$117,000, and costs associated with the proposed transaction with Elemetal and NTR of approximately \$175,000.

**Loss on the Sale of Asset.** For the nine months ended September 30, 2016, the Company incurred a loss of \$1,026,078 related to the sale of its largest retail location in Dallas, Texas. The loss includes approximately \$250,000 of accelerated depreciation expense associated with the write off-of assets and approximately \$136,000 of selling expense.

**Depreciation and Amortization.** For the nine months ended September 30, 2016, depreciation and amortization expense was \$287,278 compared to \$302,831 for the same period in 2015, a decrease of \$15,553, or 5%. This decrease in depreciation is primarily associated with the accelerated write-off of assets formerly utilized in four stores closed during Fiscal 2015.

**Interest Expense.** For the nine months ended September 30, 2016, interest expense was \$284,679, an increase of \$27,192, or 11%, compared to \$257,487 during the same period in 2015. The increase is primarily due to a higher balance in trade payables to Element Capital, on which the Company pays interest.

**Income from Discontinued Operations.** For the nine months ended September 30, 2016, the Company recognized a state tax refund of \$661 related to discontinued operations. The results for the nine months ended September 30, 2015, included income from discontinued operations of \$58,095 related to the Southern Bullion locations closed in 2014. The income relates to adjustments in accrued expenses related to the wind down of all Southern Bullion operations.

## Liquidity and Capital Resources

During the nine months ended September 30, 2016 and 2015, cash flows used in operating activities totaled \$250,243 and \$516,540, respectively, an improvement of \$266,297. Cash used in operating activities for the nine months ended September 30, 2016, was driven largely by a decrease in customer deposits and other liabilities of \$458,444, offset by an increase in accounts payable and accrued expenses of \$1,042,271 due to the timing of vendor payments and the loss from continuing operations of \$2,737,701.

During the nine months ended September 30, 2016 cash flows provided by investing activities was \$1,237,215, an increase of \$1,472,703 over cash flows used in investing activities of \$235,488 during the nine months ended September 30, 2015. The cash provided by investing activities principally relates to the sale of our largest store located in Dallas, Texas. The proceeds from the sale were offset by purchases of property and equipment of approximately \$875,000 primarily related to the build-out of the Company's new flagship store in Dallas, known as Midtown.

During the nine months ended September 30, 2016 and 2015, cash flows used in financing activities totaled \$1,598,526 and \$107,000, respectively, an increase of \$1,491,526. The use of cash in financing activities during both periods was primarily the result of repayment of debt and payments on capital lease obligations.

We expect our capital expenditures to total approximately \$350,000 during the next twelve months. These expenditures are in part for the completion of the new Midtown flagship location of approximately \$150,000 in the fourth quarter of 2016, which will allow us to consolidate at least three stores in the eastern part of DFW, and the purchase of a new point-of-sale system anticipated in mid 2017. As of September 30, 2016, there were no additional commitments outstanding for capital expenditures.

In the event of significant growth in retail and/or wholesale jewelry sales, our demand for additional working capital will increase due to a related need to stock additional jewelry inventory and increases in wholesale accounts receivable. Historically, vendors have offered us extended payment terms to finance the need for jewelry inventory growth and our management believes that they will continue to extend such terms to us in the future.

Our ability to finance our operations and working capital needs are dependent upon management's ability to negotiate extended terms or refinance the Company's debt. While management has historically renewed, extended or replaced short-term debt as it matured, management believes that certain events could adversely impact its ability to continue to do so in the near future. Elemetal serves as the Company's primary source of working capital through an open trade payable account on terms acceptable to the Company. If Elemetal were to renegotiate the terms, restrict access to or

call the account, such action could adversely impact the Company's liquidity and its ability to fund operations, including limiting our ability to obtain the amount of bullion we need in order to satisfy our customer orders.

On July 27, 2016, the Company closed the sale of its largest retail store located in Dallas to 1and2 Automotive, LLC, for \$2,250,000. Proceeds from this transaction were used to pay off the outstanding mortgage balance of \$1,520,664 plus approximately \$136,000 of closing costs incurred and accrued interest. The remaining proceeds of approximately \$600,000 were primarily used to pay for the buildout of the new Midtown location, which will allow us to consolidate at least three stores in the eastern part of DFW.

From time to time, we have adjusted our inventory levels to meet seasonal demand or in order to meet working capital requirements. Management believes that if additional working capital is required, additional loans may be obtained from affiliates, including Elemetal or from other alternative sources. However, due to the Company's historical financial results and existing credit arrangements, there is substantial risk in obtaining alternative sources of debt at favorable terms, if at all. If necessary, inventory levels may be adjusted in order to meet unforeseen working capital requirements.

On July 19, 2012, we entered into the Loan Agreement with NTR, an affiliate of DGSE's majority stockholder Elemetal, pursuant to which NTR, agreed to provide us with a guidance line of revolving credit in an amount up to \$7,500,000. The Loan Agreement anticipated termination—at which point all amounts outstanding thereunder would be due and payable (such amounts, the "Obligations")—upon the earlier of: (i) August 1, 2014; (ii) the date that is twelve months after we receive notice from NTR demanding the repayment of the Obligations; (iii) the date the Obligations are accelerated in accordance with the terms of the Loan Agreement; or (iv) the date on which the commitment terminates under the Loan Agreement. In connection with the Loan Agreement, we granted a security interest in the respective personal property of each of its subsidiaries. The loan carries an interest rate of two percent (2%) per annum for all funds borrowed pursuant to the Loan Agreement. Proceeds received by us pursuant to the terms of the Loan Agreement were used for repayment of all outstanding financial obligations incurred in connection with that certain Loan Agreement, dated as of December 22, 2005, between DGSE and Texas Capital Bank, and additional proceeds have been used as working capital in the ordinary course of business. We incurred debt issuance costs associated with the Loan Agreement totaling \$56,150. The debt issuance costs are included in other assets in the accompanying consolidated balance sheet and were amortized to interest expense on a straight-line basis over two years, and have been completely amortized. On February 25, 2014, we entered into a one-year extension of the Loan Agreement with NTR, extending the termination date to August 1, 2015, and on February 4, 2015, we entered into an additional two-year extension, extending the termination date to August 1, 2017, unless earlier terminated as described above. No debt issuance costs were incurred in relation to these extensions. All other terms of the agreement remain the same. As of September 30, 2016 and December 31, 2015, we had outstanding balances of \$2,303,359 and \$2,303,359, respectively, drawn on the NTR credit facility. Any additional drawdown of funds on the Loan Agreement require the approval of NTR.

On July 15, 2014, we received final notice from the Texas Comptroller of its consent to a payment agreement to pay amounts due by us under the Texas Comptroller's decision (the "Decision") in connection with the 2010 Sales Tax Audit (the "Payment Agreement"). As more fully discussed in the Legal Proceeding section of our Fiscal 2015 Annual Report, pursuant to the terms of the Payment Agreement, we agreed to pay approximately \$1.1 million in taxes, penalties and interest. Pursuant to the terms of the Payment Agreement, we were to pay the agreed amount provided in the Decision over an 18-month period, which began with an initial payment of \$325,000 in June 2014, followed by monthly payments of \$47,000 until all agreed tax amounts, penalty and accrued interest are paid. This expense was fully accrued in Fiscal 2014, but based on the terms of the Payment Agreement, DGSE made payments of \$47,000 per month through all of 2015. The final payment of \$47,000 was submitted to the Texas Comptroller in January 2016 to fully satisfy the indebtedness associated with the 2010 Sales Tax Audit.

The Texas Comptroller conducted a sales and use tax audit of our operations in Texas with respect to the period December 1, 2009 through June 30, 2013 and subsequently sent us a preliminary assessment in September 2015. The audit and assessment were finalized in August 2016 with a final determination that we owe tax of \$220,007, plus penalty and interest of \$64,183, for a total of \$284,190. As of December 31, 2015, we had accrued \$360,000 related to this audit, and we reduced the accrual to the final settlement amount of \$284,190 as of September 30, 2016. Interest accrues at the rate of approximately 4.5% or \$27.05 per day from August 31, 2016 through the payment date. Management believes any potential exposure associated with this audit has been adequately accrued.

In October 2007, we purchased a retail location, with office and storage facilities in Dallas, Texas. In connection with the purchase, we assumed a loan with a remaining principal balance at that time of \$2,323,484 and an interest rate of 6.70%. The loan has required monthly payments of \$23,281 with a balloon payment of \$1,508,962 due on August 1, 2016. In November 2013, we signed an agreement to lease a portion of this facility to a third party, beginning in January 2014. Under the terms of the five-year agreement, we received \$5,000 per month in base rent initially, increasing to \$7,500 per month after 24 months. The lessee was also required to pay additional rent based on revenue it generated using the facility. As discussed above, the remaining balance was repaid with proceeds from the sale of the property, which closed on July 27, 2016.

On June 20, 2016, DGSE entered into a stock purchase agreement with Elemental and NTR, pursuant to which (i) DGSE agreed to sell and issue to NTR shares of common stock at a stock price of \$0.41 per share in exchange for the cancellation and forgiveness of all amounts outstanding under the Loan Agreement and an associated \$7,500,000 Revolving Credit Note of the same date executed by DGSE in favor of NTR (which indebtedness and accrued interest as of September 30, 2016 was \$2,429,608), and (ii) DGSE agreed to sell and issue to Elemental 8,536,585 shares of common stock at a stock price of \$0.41 per share and a warrant to purchase an additional 1,000,000 shares of common stock at an exercise price of \$0.65 per share in exchange for the cancellation and forgiveness of \$3,500,000 of trade payables owed to Elemental as a result of bullion-related transactions. In connection with the closing of the purchase agreement, DGSE will enter into a registration rights agreement with NTR and Elemental providing for, among other things, demand and piggyback registration rights with respect to the shares to be issued and registration procedures. The closing of the transactions is expected to take place following satisfaction of various closing conditions, including obtaining the approval of DGSE's stockholders and amendment of the Company's Articles of Incorporation. Both matters are scheduled to be submitted to a vote of stockholders at the Company's 2016 Annual Meeting of

Stockholders to be held December 7, 2016. Excluding the warrant, the transactions contemplated by the stock purchase agreement, if closed as of December 7, 2016, would result in a reduction of Total Liabilities and an increase in Stockholders' Equity of \$5,947,816.

If the shareholders do not approve the proposed transaction with Elemetal and NTR, or other closing conditions are not satisfied, it would limit our ability to obtain the amount of bullion we need in order to satisfy our customer orders (which, in turn, would likely reduce our sales) and could require the Company to pay down on the outstanding bullion payable, which currently is approximately \$5.9 million. In addition, NTR may not be willing to renew the Loan Agreement, in which case our Obligations under the Loan Agreement, which are currently approximately \$2.3 million, would be due and payable on August 1, 2017. Either event would have a material adverse effect on our liquidity.

### **Off-Balance Sheet Arrangements**

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.**

Because we are a “smaller reporting company,” we are not required to disclose the information required by this item.

### **ITEM 4. CONTROLS AND PROCEDURES.**

#### *Disclosure Controls and Procedures*

Based upon the evaluation required by Section 11a-15(b) of the Securities Exchange Act of 1934, as amended, our management, with the participation of our Chief Executive Officer and acting Chief Financial Officer, has concluded that our disclosure controls and procedures, as of September 30, 2016, were effective.

#### *Changes in Internal Control over Financial Reporting*

There have been no changes in our internal controls over financial reporting during the quarter ended September 30, 2016, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## **PART II - OTHER INFORMATION**

### **ITEM 1. LEGAL PROCEEDINGS.**

There have been no material changes with respect to the legal proceedings disclosed in our Fiscal 2015 Annual Report.

#### **ITEM 1A. RISK FACTORS.**

For a full discussion of the risk factors applicable to our business, financial condition or results of operations, please see the section entitled “Risk Factors” in our Fiscal 2015 Annual Report. There have been no material changes in our risk factors from those disclosed in our Fiscal 2015 Annual Report. Other than as listed below, the risk factors disclosed in our Fiscal 2015 Annual Report could materially affect our business, financial condition or results. Additional risks and uncertainties not currently known to us or that we currently deem immaterial also may materially adversely affect our business, financial condition or results.

*We have received a notice of non-compliance with a continued listing standard from the NYSE MKT for our common stock. If we are unable to avoid the delisting of our common stock from the NYSE MKT, it could have a substantial negative effect on the liquidity and market price for our common stock, our access to capital markets and our liquidity and results of operations.*

On April 12, 2016, we received a notice from the NYSE MKT LLC (the “NYSE MKT”) indicating that we did not meet continued listing standards of the NYSE MKT. We are not in compliance with Section 1003(a)(ii) of the NYSE MKT Company Guide (the “Company Guide”) because we reported stockholders’ equity of \$3.87 million as of December 31, 2015, less than the required minimum of \$4.0 million, and had net losses in in three out of our four most recent fiscal years. As a result, we became subject to the procedures and requirements of Section 1009 of the Company Guide.

We submitted a plan of compliance to the NYSE MKT on May 11, 2016 addressing how we intend to regain compliance with the continued listing standards of the NYSE MKT. On May 27, 2016, the NYSE MKT accepted DGSE's compliance plan and granted DGSE an extension until October 12, 2017 to regain compliance with Section 1003(a)(ii) of the Company Guide. DGSE will be subject to periodic review by the NYSE MKT during the compliance plan period. Failure to make progress consistent with the compliance plan or to regain compliance with the continued listing standards of the Company Guide by the end of the extension period could result in DGSE being delisted from the NYSE MKT.

Excluding the warrant, and if closed on December 7, 2016, the transactions contemplated by the stock purchase agreement to be voted on at the December 7, 2016 Annual Meeting would result in a decrease in Total Liabilities and an increase in Stockholders' Equity of \$5,947,816.

If our common stock ultimately were to be delisted for any reason, it could negatively impact us by (i) reducing the liquidity and market price of our common stock; and (ii) reducing the number of investors willing to hold or acquire our common stock, which could negatively impact our ability to raise equity financing, which could negatively affect our liquidity and results of operations.

***We owe a significant account payable balance to Elemetal and indebtedness to NTR***

Elemetal is DGSE's largest shareholder. Elemetal and its affiliates are also DGSE's primary refiner and bullion trading partner. In the nine months ended September 30, 2016, 35% of sales and 20% of purchases were transactions with Elemetal, and in the same period of 2015, these transactions represented 22% of DGSE's sales and 28% of DGSE's purchases. As of September 30, 2016, the Company was obligated to pay \$6,021,325 to Elemetal as a trade payable, and had a \$1,088 receivable from Elemetal. Additionally, DGSE incurs interest on its outstanding payable. We also had an outstanding balance of \$2,303,359 as of September 30, 2016 under our Loan Agreement with NTR, which balances together with accrued and unpaid interest, would be due and payable on August 1, 2017. As discussed in Part I, Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources," we have entered into a stock purchase agreement with Elemetal pursuant to which \$3,500,000 of the trade payable we owe Elemetal and the outstanding balance under the Loan Agreement with NTR would be cancelled and forgiven in exchange for the issuance of common stock and a warrant to purchase common stock. The closing of the transactions is expected to take place following satisfaction of various closing conditions, including obtaining the approval of DGSE's stockholders and amendment of the Company's Articles of Incorporation. Both matters are scheduled to be submitted to a vote of stockholders at the Company's 2016 Annual Meeting of Stockholders to be held December 7, 2016. Excluding the warrant, and if closed on December 7, 2016, the transactions contemplated by the stock purchase agreement to be voted on at the December 7, 2016 Annual Meeting would result in a decrease in Total Liabilities and an increase in Stockholders' Equity of \$5,947,816.

If we do not obtain stockholder approval or other closing conditions are not satisfied, it could limit our ability to obtain the amount of bullion we need in order to satisfy our customer orders, which in turn would likely reduce our sales and results of operations. In addition, Elemetal may require DGSE to pay down the outstanding payable and NTR may not be willing to renew or extend the Loan Agreement, either of which would have a material adverse effect on our liquidity.
