SECTION 1 CONFLICT MINERALS DISCLOSURE

ITEM 1.01. Conflict Minerals Disclosure and Report

Conflict Minerals Disclosure

This Specialized Disclosure Report on Form SD (Form SD) of EchoStar Corporation (the Company) is filed pursuant to Rule 13p-1 (the Rule) promulgated under the Securities Exchange Act of 1934, as amended, for the reporting period January 1, 2013 to December 31, 2013.

The Rule was adopted by the Securities and Exchange Commission (SEC) to implement reporting and disclosure requirements related to certain specified minerals as directed by the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. The specified minerals are gold, columbite-tantalite (coltan), cassiterite and wolframite, including their derivatives, which are limited to tantalum, tin and tungsten (the Conflict Minerals). The Rule requires disclosure of certain information when a registrant manufactures or contracts to manufacture products that contain Conflict Minerals that are necessary to the functionality or production of such products. For products that contain such necessary Conflict Minerals, the registrant must conduct in good faith a reasonable country of origin inquiry designed to determine whether any of the Conflict Minerals originated in the Democratic Republic of the Congo or an adjoining country (each, a Covered Country and collectively, the Covered Countries). If based on such inquiry, a registrant knows or has reason to believe that any of the necessary Conflict Minerals contained in its products originated or may have originated in a Covered Country and that such necessary Conflict Minerals may not be solely from recycled or scrap sources, the registrant must conduct due diligence with respect to the source and chain of custody of the Conflict Minerals to determine if the necessary Conflict Minerals directly or indirectly finance or benefit armed groups in the Covered Countries.

In accordance with the Rule, for the reporting period January 1, 2013 to December 31, 2013, the Company:

- Determined that the Company manufactured, or contracted to manufacture, products (the Covered Products) for which the Conflict Minerals are necessary to the functionality or production of those products.
- Conducted a good faith reasonable country of origin inquiry regarding the Conflict Minerals, which was reasonably designed to determine whether any of the Conflict Minerals originated in the Covered Countries or whether any of the Conflict Minerals may be from recycled or scrap sources. Based on that inquiry, the Company has reason to believe that the Conflict Minerals may have originated in the Covered Countries and that such Conflict Minerals may not be from recycled or scrap sources.
- Conducted due diligence with respect to the source and chain of custody of the Conflict Minerals.

Based on the results of these procedures, the Company has filed this Form SD and the associated Conflict Minerals Report. A copy of the Company's Conflict Minerals Report is filed as Exhibit 1.02 to this Form SD, and is publicly available on the Company's website at <http://sats.client.shareholder.com/sec.cfm>.
