Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements

(Unaudited)

1. Summary of Significant Accounting and Reporting Policies

Nature of Operations

Hilltop Holdings Inc. (Hilltop and, collectively with its subsidiaries, the Company) is a financial holding company registered under the Bank Holding Company Act of 1956, as amended by the Gramm-Leach-Bliley Act of 1999. On November 30, 2012, Hilltop acquired PlainsCapital Corporation pursuant to a plan of merger whereby PlainsCapital Corporation merged with and into a wholly owned subsidiary of Hilltop (the PlainsCapital Merger), which continued as the surviving entity under the name PlainsCapital Corporation (PlainsCapital).

The Company has two primary operating business units, PlainsCapital and National Lloyds Corporation (NLC). PlainsCapital is a financial holding company, headquartered in Dallas, Texas, that provides, through its subsidiaries, an array of financial products and services. In addition to traditional banking services, PlainsCapital provides residential mortgage lending, investment banking, public finance advisory, wealth and investment management, treasury management, capital equipment leasing, fixed income sales, asset management, and correspondent clearing services. NLC is a property and casualty insurance holding company that provides, through its subsidiaries, fire and homeowners insurance to low value dwellings and manufactured homes primarily in Texas and other areas of the southern United States.

On September 13, 2013 (the Bank Closing Date), PlainsCapital Bank (the Bank) assumed substantially all of the liabilities, including all of the deposits, and acquired substantially all of the assets of Edinburg, Texas-based First National Bank (FNB) from the Federal Deposit Insurance Corporation (the FDIC), as receiver, and reopened former FNB branches acquired from the FDIC under the PlainsCapital Bank name (the FNB Transaction). Pursuant to the Purchase and Assumption Agreement (the P&A Agreement), the Bank and the FDIC entered into loss-share agreements whereby the FDIC agreed to share in the losses of certain covered loans and covered other real estate owned (OREO) that the Bank acquired, as further described in Note 2 to the consolidated financial statements. The fair value of the assets acquired was \$2.2 billion, including \$1.1 billion in covered loans, \$286.2 million in securities, \$135.2 million in covered OREO and \$42.9 million in non-covered loans. The Bank also assumed \$2.2 billion in liabilities, consisting primarily of deposits. The acquisition of FNB s expansive branch network allowed the Bank to increase its presence in Texas to include the Rio Grande Valley, Houston, Corpus Christi, Laredo and El Paso markets, among others.

On March 31, 2014, the Company entered into a definitive merger agreement with SWS Group, Inc. (SWS) providing for the merger of SWS with and into Peruna LLC, a wholly owned subsidiary of Hilltop formed for the purpose of facilitating this transaction. SWS stockholders will receive per share consideration of 0.2496 shares of Hilltop common stock and \$1.94 of cash, equating to \$7.25 per share based on Hilltop s closing price on June 30, 2014. The value of the merger consideration will fluctuate with the market price of Hilltop common stock. The Company intends to fund the cash portion of the consideration through available cash. The merger is subject to customary closing conditions, including regulatory approvals and approval of the stockholders of SWS, and is expected to be completed prior to the end of 2014.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States (GAAP), and in conformity with the rules and regulations of the Securities and Exchange Commission (the SEC). In the opinion of management, these financial statements contain all adjustments necessary for a fair statement of the results of the interim periods presented. Accordingly, the financial statements do not include all of the information and footnotes required by GAAP for complete financial statements and should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2013. Results for interim periods are not necessarily indicative of results to be expected for a full year or any future period.

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates regarding the allowance for loan losses, the fair values of financial instruments, the amounts receivable under the loss-share agreements with the FDIC (FDIC Indemnification Asset), reserves for losses and loss adjustment expenses, the mortgage loan indemnification liability, and the potential impairment of assets are particularly subject to change. The Company has applied its critical accounting policies and estimation methods consistently in all periods presented in these consolidated financial statements.

Certain reclassifications have been made to the prior period consolidated financial statements to conform with the current period presentation.

Hilltop owns 100% of the outstanding stock of PlainsCapital. PlainsCapital owns 100% of the outstanding stock of the Bank and 100% of the membership interest in PlainsCapital Equity, LLC. The Bank owns 100% of the outstanding stock of PrimeLending, a PlainsCapital Company (PrimeLending), PCB-ARC, Inc. and RGV-ARC, Inc. The Bank has a 100% membership interest in First Southwest Holdings, LLC (First Southwest) and PlainsCapital Securities, LLC.

Hilltop also owns 100% of NLC, which operates through its wholly owned subsidiaries, National Lloyds Insurance Company (NLIC) and American Summit Insurance Company (ASIC).

PrimeLending owns a 100% membership interest in PrimeLending Ventures Management, LLC, the controlling and sole managing member of PrimeLending Ventures, LLC (Ventures).

The principal subsidiaries of First Southwest are First Southwest Company (FSC), a broker-dealer registered with the SEC and the Financial Industry Regulatory Authority and a member of the New York Stock Exchange, and First Southwest Asset Management, Inc., a registered investment advisor under the Investment Advisors Act of 1940.

The consolidated financial statements include the accounts of the above-named entities. All significant intercompany transactions and balances have been eliminated. Noncontrolling interests have been recorded for minority ownership in entities that are not wholly owned and are presented in compliance with the provisions of Noncontrolling Interest in Subsidiary Subsections of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

PlainsCapital also owns 100% of the outstanding common securities of PCC Statutory Trusts I, II, III and IV (the Trusts), which are not included in the consolidated financial statements under the requirements of the Variable Interest Entities Subsections of the ASC, because the primary beneficiaries of the Trusts are not within the consolidated group.

2. Acquisitions

FNB Transaction

On the Bank Closing Date, the Bank assumed substantially all of the liabilities, including all of the deposits, and acquired substantially all of the assets of FNB from the FDIC in an FDIC-assisted transaction. As part of the P&A Agreement, the Bank and the FDIC entered into loss-share agreements covering future losses incurred on certain acquired loans and OREO. The Company refers to acquired commercial and single family residential loan portfolios and OREO that are subject to the loss-share agreements as covered loans and covered OREO, respectively, and these assets are presented as separate line items in the Company s consolidated balance sheet. Collectively, covered loans and covered OREO are referred to as covered assets.

In accordance with the loss-share agreements, the Bank may be required to make a true-up payment to the FDIC approximately ten years following the Bank Closing Date if the FDIC s initial estimate of losses on covered assets is greater than the actual realized losses. The true-up payment is calculated using a defined formula set forth in the P&A Agreement.

1		

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The FNB Transaction was accounted for using the purchase method of accounting and, accordingly, purchased assets, including identifiable intangible assets and assumed liabilities, were recorded at their respective fair values as of the Bank Closing Date using significant estimates and assumptions to value certain identifiable assets acquired and liabilities assumed. The amounts are subject to adjustments based upon final settlement with the FDIC. The terms of the P&A Agreement provide for the FDIC to indemnify the Bank against claims with respect to liabilities and assets of FNB or any of its affiliates not assumed or otherwise purchased by the Bank and with respect to certain other claims by third parties.

Pro Forma Results of Operations

The operations acquired in the FNB Transaction are included in the Company s operating results beginning September 14, 2013. The purchase of assets and assumption of certain liabilities of FNB from the FDIC, as receiver, was sufficiently significant to require disclosure of historical financial statements and related pro forma financial disclosure. Due to the nature and magnitude of the FNB Transaction, coupled with the federal assistance and protection resulting from the FDIC loss-share agreements, historical financial information of FNB is not relevant to future operations. The Company has omitted certain historical financial information and the related pro forma financial information of FNB pursuant to the guidance provided in Staff Accounting Bulletin Topic 1.K, Financial Statements of Acquired Troubled Financial Institutions (SAB 1:K), and a request for relief granted by the SEC. SAB 1:K provides relief from the requirements of Rule 3-05 of Regulation S-X in certain instances, such as the FNB Transaction, where a registrant engages in an acquisition of a significant amount of assets of a troubled financial institution for which audited financial statements are not reasonably available and in which federal assistance is so persuasive as to substantially reduce the relevance of such information to an assessment of future operations.

3. Fair Value Measurements

Fair Value Measurements and Disclosures

The Company determines fair values in compliance with The Fair Value Measurements and Disclosures Topic of the ASC (the Fair Value Topic). The Fair Value Topic defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. The Fair Value Topic defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The Fair Value Topic assumes that transactions upon which fair value measurements are based occur in the principal market for the asset or liability being measured. Further, fair value measurements made under the Fair Value Topic exclude transaction costs and are not the result of forced transactions.

The Fair Value Topic creates a fair value hierarchy that classifies fair value measurements based upon the inputs used in valuing the assets or liabilities that are the subject of fair value measurements. The fair value hierarchy gives the highest priority to quoted prices in active markets for

identical assets or liabilities and the lowest priority to unobservable inputs, as indicated below.

• *Level 1 Inputs*: Unadjusted quoted prices in active markets for identical assets or liabilities that the Company can access at the measurement date.

• *Level 2 Inputs*: Observable inputs other than Level 1 prices. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (e.g., interest rates, yield curves, prepayment speeds, default rates, credit risks, loss severities, etc.), and inputs that are derived from or corroborated by market data, among others.

• *Level 3 Inputs*: Unobservable inputs that reflect an entity s own assumptions about the assumptions that market participants would use in pricing the assets or liabilities. Level 3 inputs include pricing models and discounted cash flow techniques, among others.

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

Fair Value Option

The Company has elected to measure substantially all of PrimeLending s mortgage loans held for sale and retained mortgage servicing rights (MSR) at fair value, under the provisions of the Fair Value Option. The Company elected to apply the provisions of the Fair Value Option to these items so that it would have the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The Company determines the fair value of the financial instruments accounted for under the provisions of the Fair Value Option in compliance with the provisions of the Fair Value Topic of the ASC discussed above.

At June 30, 2014, the aggregate fair value of PrimeLending s mortgage loans held for sale accounted for under the Fair Value Option was \$1.41 billion, and the unpaid principal balance of those loans was \$1.35 billion. At December 31, 2013, the aggregate fair value of PrimeLending s mortgage loans held for sale accounted for under the Fair Value Option was \$1.09 billion, and the unpaid principal balance of those loans was \$1.07 billion. The interest component of fair value is reported as interest income on loans in the accompanying consolidated statements of operations.

The Company holds a number of financial instruments that are measured at fair value on a recurring basis, either by the application of the Fair Value Option or other authoritative pronouncements. The fair values of those instruments are determined primarily using Level 2 inputs. Those inputs include quotes from mortgage loan investors and derivatives dealers and data from independent pricing services.

The following tables present information regarding financial assets and liabilities measured at fair value on a recurring basis (in thousands).

	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value

Derivative liabilities		(4,490)		,				(449)			(4,939)
Total	\$	53,867	\$	4,305	\$		\$	()	\$ (1,810)	\$	57,682

All net realized and unrealized gains (losses) in the tables above are reflected in the accompanying consolidated financial statements. The unrealized gains (losses) relate to financial instruments still held at June 30, 2014. The available for sale securities noted in the table above reflect Hilltop s note receivable and warrant to purchase common stock of SWS as discussed in Note 4 to the consolidated financial statements.

For Level 3 financial instruments measured at fair value on a recurring basis at June 30, 2014, the significant unobservable inputs used in the fair value measurements were as follows.

Financial instrument	Valuation Technique	Unobservable Input	Weighted Average / Range
Available for sale securities - note receivable	Discounted cash flow	Discount rate	8.3%
Available for sale securities - warrant	Binomial model	SWS common stock price volatility	24.0%
Loans held for sale	Discounted cash flow / Market comparable	Projected price	86 - 90%
Mortgage servicing rights asset	Discounted cash flow	Constant prepayment rate Discount rate	10.32% 11.11%
Derivative liabilities	Discounted cash flow	Discount rate Time to receive full payment of	14 - 28%
		cash flows	10.75 - 14.0 years

Hilltop s note receivable is valued using a cash flow model that estimates yield based on comparable securities in the market. The interest rate used to discount cash flows is the most significant unobservable input. An increase or decrease in the discount rate would result in a corresponding decrease or increase, respectively, in the fair value measurement of the note receivable.

Hilltop Holdings Inc. and Subsidiaries

Notes to Consolidated Financial Statements (continued)

(Unaudited)

The warrant is valued utilizing a binomial model. The underlying SWS common stock price and its related volatility, an unobservable input, are the most significant inputs into the model, and, therefore, decreases or increases to the SWS common stock price would result in a significant change in the fair value measurement of the warrant.

The fair value of certain loans held for sale that are either non-standard (i.e. loans that cannot be sold through normal sale channels) or non-performing is measured using unobservable inputs. The fair value of such loans is generally based upon estimates of expected cash flows using unobservable inputs including listing prices of comparable assets, uncorroborated expert opinions, and/or management s knowledge of underlying collateral.

The MSR asset is valued by projecting net servicing cash flows, which are then discounted to estimate the fair value. The fair value of the MSR asset is impacted by a variety of factors. Prepayment rates and discount rates, the most significant unobservable inputs, are discussed further in Note 7 to the consolidated financial statements.

Derivative liabilities in the tables above include a derivative option agreement (Fee Award Option) entered into by First Southwest and valued using discounted cash flows and probability of exercise.

The Company had no transfers between Levels 1 and 2 during the periods presented.

The following tables present the changes in fair value for instruments that are reported at fair value under the Fair Value Option (in thousands).

	Changes in Fair Value for Assets and Liabilities I Three Months Ended June 30, 2014					Reported at Fair Value under Fair Value Option Three Months Ended June 30, 2013
