NOTES TO CONSOLIDATED FINANCIAL STATEMENTS JUNE 30, 2015 and 2014 (UNAUDITED) AND DECEMBER 31, 2014

1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation The consolidated financial statements include the accounts of Republic Bancorp, Inc. (the Parent Company) and its wholly-owned subsidiaries, Republic Bank & Trust Company (RB&T or the Bank) and Republic Insurance Services, Inc. (the Captive). The Bank is a Kentucky-based, state chartered non-member financial institution. The Captive, which was formed during the third quarter of 2014, is a wholly-owned insurance subsidiary of the Company. The Captive provides property and casualty insurance coverage to the Company and the Bank as well as five other third-party insurance captives for which insurance may not be available or economically feasible. Republic Bancorp Capital Trust (RBCT) is a Delaware statutory business trust that is a wholly-owned unconsolidated finance subsidiary of Republic Bancorp, Inc. All companies are collectively referred to as Republic or the Company. All significant intercompany balances and transactions are eliminated in consolidation.

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the financial statements do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation have been included.

Operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. For further information, refer to the consolidated financial statements and footnotes thereto included in Republic s Form 10-K for the year ended December 31, 2014.

As of June 30, 2015, the Company was divided into four distinct business operating segments: Traditional Banking, Warehouse Lending (Warehouse), Mortgage Banking and Republic Processing Group (RPG). Management considers the first three segments to collectively constitute Core Bank or Core Banking activities. The Warehouse segment was reported as a division of the Traditional Banking segment prior to the fourth quarter of 2014, but realized the quantitative and qualitative nature of a segment by the end of 2014. All prior periods have been reclassified to conform to the current presentation.

Table of Contents

Traditional Banking, Warehouse Lending and Mortgage Banking (collectively Core Banking)

The Traditional Bank provides traditional banking products primarily to customers in the Company s market footprint. As of June 30, 2015, in addition to Internet Banking and Correspondent Lending delivery channels, Republic had 40 full-service banking centers with locations as follows:

- Kentucky 32
- Metropolitan Louisville 19
- Central Kentucky 8
- Elizabethtown 1
- Frankfort 1
- Georgetown 1
- Lexington 4
- Shelbyville 1
- Western Kentucky 2
- Owensboro 2
- Northern Kentucky 3
- Covington 1
- Florence 1
- Independence 1
- Southern Indiana 3
- Floyds Knobs 1
- Jeffersonville 1
- New Albany 1
- Metropolitan Tampa, Florida 2

- Metropolitan Cincinnati, Ohio 1
- Metropolitan Nashville, Tennessee 2

Republic s headquarters are located in Louisville, which is the largest city in Kentucky based on population.

Core Banking results of operations are primarily dependent upon net interest income, which represents the difference between the interest income and fees on interest-earning assets and the interest expense on interest-bearing liabilities. Principal interest-earning Core Banking assets represent investment securities and commercial and consumer loans primarily secured by real estate and/or personal property. Interest-bearing liabilities primarily consist of interest-bearing deposit accounts, securities sold under agreements to repurchase, as well as short-term and long-term borrowing sources. Federal Home Loan Bank (FHLB) advances have traditionally been a significant borrowing source for the Bank.

Other sources of Core Banking income include service charges on deposit accounts, debit and credit card interchange fee income, title insurance commissions, fees charged to clients for trust services, increases in the cash surrender value of Bank Owned Life Insurance (BOLI) and revenue generated from Mortgage Banking activities. Mortgage Banking activities represent both the origination and sale of loans in the secondary market and the servicing of loans for others, primarily the Federal Home Loan Mortgage Corporation (Freddie Mac or FHLMC).

Core Banking operating expenses consist primarily of salaries and employee benefits, occupancy and equipment expenses, communication and transportation costs, data processing, interchange related expenses, marketing and development expenses, Federal Deposit Insurance Corporation (FDIC) insurance expense, franchise tax expense and various general and administrative costs. Core Banking results of operations are significantly impacted by general economic and competitive conditions, particularly changes in market interest rates, government laws and policies and actions of regulatory agencies.

The Core Bank began acquiring single family, first lien mortgage loans for investment through its Correspondent Lending channel in May 2014. Correspondent Lending generally involves the Bank acquiring, primarily from its Warehouse clients, closed loans that meet the Bank s specifications. Substantially all loans purchased through the Correspondent Lending channel are purchased at a premium.

Table of Contents

The Core Bank provides short-term, revolving credit facilities to mortgage bankers across the Nation through its Warehouse segment in the form of warehouse lines of credit. These credit facilities are secured by single family, first lien residential real estate loans. Outstanding balances on these credit facilities may be subject to significant fluctuations consistent with the overall market demand for mortgage loans.

Republic Processing Group

All divisions of the RPG segment operate through the Bank. Nationally, RPG facilitates the receipt and payment of federal and state tax refunds under the Tax Refund Solutions (TRS) division, primarily through refund transfers (RTs). RTs are products whereby a tax refund is issued to the taxpayer after the Bank has received the refund from the federal or state government. There is no credit risk or borrowing cost associated with these products because they are only delivered to the taxpayer upon receipt of the tax refund directly from the governmental paying authority. Fees earned on RTs, net of rebates, are the primary source of revenue for the TRS division and the RPG segment, and are reported as non interest income under the line item. Net refund transfer fees.

The TRS division historically originated and obtained a significant source of revenue from Refund Anticipation Loans (RAL s), but terminated this product effective April 30, 2012. RALs were short-term consumer loans offered to taxpayers that were secured by the client s anticipated tax refund, which represented the sole source of repayment. While RALs were terminated in 2012, TRS may receive recoveries from previously charged-off RALs.

The Republic Payment Solutions (RPS) division is an issuing bank offering general purpose reloadable prepaid debit cards through third party program managers.

The Republic Credit Solutions ($\,$ RCS $\,$) division offers short-term consumer credit products.

Accounting Standards Update (ASU) 2015-3 Interest Imputation of Interest (Topic 835-30): Simplifying the Presentation of Debt Issuance Costs

To simplify presentation of debt issuance costs, the amendments in this ASU require that debt issuance costs related to a recognized debt liability be presented on the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. The amendments in this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. This ASU is not expected to have a material impact on the Company s financial statements.

2. INVESTMENT SECURITIES

Securities Available for Sale

The gross amortized cost and fair value of securities available for sale and the related gross unrealized gains and losses recognized in accumulated other comprehensive income (loss) were as follows:

June 30, 2015 (in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value

Table of Contents

At June 30, 2015 and December 31, 2014, there were no holdings of securities of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10% of stockholders equity.

Sales of Securities Available for Sale

During the three and six months ended June 30, 2015, the Bank recognized a gain of \$88,000 on the call of one available for sale security.

During the three and six months ended June 30, 2014, there were no sales or calls of securities available for sale.

Investment Securities by Contractual Maturity

The amortized cost and fair value of the investment securities portfolio by contractual maturity at June 30, 2015 follows. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date are detailed separately.

	Securities Available for Sale					Securities Held to Maturity

Freddie Mac Preferred Stock

During 2008, the U.S. Treasury, the Federal Reserve Board, and the Federal Housing Finance Agency (FHFA) announced that the FHFA was placing Freddie Mac under conservatorship and giving management control to the FHFA. The Bank contemporaneously determined that its 40,000 shares of Freddie Mac preferred stock were fully impaired and recorded an other-than-temporarily impairment (OTTI) charge of \$2.1 million in 2008. The OTTI charge brought the carrying value of the stock to \$0. During the second quarter of 2014, based on active trading

volume of Freddie Mac preferred stock, the Company determined it appropriate to record an unrealized gain to Other Comprehensive Income (OCI) related to its Freddie Mac preferred stock holdings. Based on the stock is market closing price as of June 30, 2015, the Company is unrealized gain for its Freddie Mac preferred stock totaled \$231,000.

Mortgage Backed Securities and Collateralized Mortgage Obligations

At June 30, 2015, with the exception of the \$5.2 million private label mortgage backed security, all other mortgage backed securities and collateralized mortgage obligations (CMOs) held by the Bank were issued by U.S. government-sponsored entities and agencies, primarily Freddie Mac and the Federal National Mortgage Association (Fannie Mae or FNMA), institutions that the government has affirmed its commitment to support. At June 30, 2015 and December 31, 2014, there were gross unrealized losses of \$856,000 and \$1.2 million related to available for sale mortgage backed securities and CMOs. Because the decline in fair value of these securities is attributable to changes in interest rates and illiquidity, and not credit quality, and because the Bank does not have the intent to sell these mortgage backed securities, and it is likely that it will not be required to sell the securities before their anticipated recovery, management does not consider these securities to be OTTI.

Table of Contents

Market Loss Analysis

Securities with unrealized losses at June 30, 2015 and December 31, 2014, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, are as follows:

Table of Contents

At June 30, 2015, the Bank s security portfolio consisted of 159 securities, 19 of which were in an unrealized loss position. At December 31, 2014, the Bank s security portfolio consisted of 157 securities, 17 of which were in an unrealized loss position.

Other-than-temporary impairment (OTTI)

Unrealized losses for all investment securities are reviewed to determine whether the losses are other-than-temporary. Investment securities are evaluated for OTTI on at least a quarterly basis and more frequently when economic or market conditions warrant such an evaluation to determine whether a decline in value below amortized cost is other-than-temporary. In conducting this assessment, the Bank evaluates a number of factors including, but not limited to:

- The length of time and the extent to which fair value has been less than the amortized cost basis;
- The Bank s intent to hold until maturity or sell the debt security prior to maturity;
- An analysis of whether it is more likely than not that the Bank will be required to sell the debt security before its anticipated recovery;
- Adverse conditions specifically related to the security, an industry, or a geographic area;
- The historical and implied volatility of the fair value of the security;
- The payment structure of the security and the likelihood of the issuer being able to make payments;
- Failure of the issuer to make scheduled interest or principal payments;
- Any rating changes by a rating agency; and
- Recoveries or additional decline in fair value subsequent to the balance sheet date.

The term other-than-temporary is not intended to indicate that the decline is permanent, but indicates that the prospects for a near-term recovery of value are not necessarily favorable, or that there is a general lack of evidence to support a realizable value equal to or greater than the carrying value of the investment. Once a decline in value is determined to be other-than-temporary, the value of the security is reduced and a corresponding charge to earnings is recognized for the anticipated credit losses.

The Bank owns one private label mortgage backed security with a total carrying value of \$5.2 million at June 30, 2015. This security, with an average remaining life currently estimated at five years, is mostly backed by Alternative A first lien mortgage loans, but also has an insurance wrap or guarantee as an added layer of protection to the security holder. This asset is illiquid, and as such, the Bank determined it to be a Level 3 security in accordance with Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*. Based on this determination, the Bank utilized an income valuation model (present value model) approach, in determining the fair value of the security. This approach is beneficial for positions that are not traded in active markets or are subject to transfer restrictions, and/or where valuations are

adjusted to reflect illiquidity and/or non-transferability. Such adjustments are generally based on available market evidence. In the absence of such evidence, management s best estimate is used. Management s best estimate consists of both internal and external support for this investment.

See additional discussion regarding the Bank's private label mortgage backed security under Footnote 6 Fair Value in this section of the filing.

Pledged Investment Securities

Investment securities pledged to secure public deposits, securities sold under agreements to repurchase and securities held for other purposes, as required or permitted by law are as follows:

(in thousands)	J	une 30, 2015	Ι	December 31, 2014

Purchased whole loans*	3,607	4,626
Other consumer	8,873	8,894
Total loans**	3,323,977	3,040,495
Allowance for loan and lease losses	(25,248)	(24,410)
Total loans, net	\$ 3,298,729 \$	3,016,085

^{* -} Identifies loans to borrowers located primarily outside of the Bank s historical market footprint.

The table below reconciles the contractually receivable and carrying amounts of loans at June 30, 2015 and December 31, 2014:

(in thousands)	June 30, 2015	December 31, 2014
Contractually receivable	\$ 3,329,849 \$	3,050,599
Unearned income(1)	(635)	(174)
Unamortized premiums(2)	4,191	4,490
Unaccreted discounts(3)	(10,859)	(15,675)
Net unamortized deferred origination fees and costs	1,431	1,255
Carrying value of loans	\$ 3,323,977 \$	3,040,495

^{** -} Total loans are presented inclusive of premiums, discounts and net loan origination fees and costs. See table directly below for expanded detail.

- (1) Unearned income relates to lease financing receivables.
- (2) Premiums predominately relate to loans acquired through the Bank s Correspondent Lending channel.
- (3) Discounts predominately relate to loans acquired in the Bank s 2012 FDIC-assisted transactions.

15

Table of Contents

Loan Purchases

In May 2014, the Bank began acquiring single family, first lien mortgage loans for investment within its loan portfolio through its Correspondent Lending channel. Correspondent Lending generally involves the Bank acquiring, primarily from Warehouse clients, closed loans that meet the Bank s specifications. Substantially all loans purchased through the Correspondent Lending channel are purchased at a premium. Loans acquired through the Correspondent Lending channel generally reflect borrowers outside of the Bank s historical market footprint, with 83% of such loans as of June 30, 2015 secured by collateral in the state of California.

In addition to secured mortgage loans acquired through its Correspondent Lending channel, the Bank also began acquiring unsecured consumer installment loans for investment from a third-party originator in April 2014. Such consumer loans are purchased at par and are selected by the Bank based on certain underwriting characteristics.

The table below reflects the purchased activity of single family, first lien mortgage loans and unsecured consumer loans, by class, during the three and six months ended June 30, 2015 and 2014.

	Three Mor June	nths Ei e 30,	nded	Six Months Ended June 30,

Credit Quality Indicators

Based on the Bank s internal analyses performed as of June 30, 2015 and December 31, 2014, the following tables reflect loans by risk category. Risk categories are defined in the Company s Annual Report on Form 10-K for the year ended December 31, 2014:

June 30, 2015 (in thousands)	Pass	Special ention *	Substandard *	Doubtful / Loss	Purchased Credit Impaired Loans - Group 1	Purchased Credit Impaired Loans - Substandard	Total Rated Loans**
Residential real estate:							
Owner occupied	\$	\$ 24,473	\$ 15,456	\$	\$ 927	\$	\$ 40,856
Owner occupied - correspondent							
Non owner occupied		1,544	1,983		1,203		4,730
Commercial real estate	770,583	7,455	10,842		10,278		799,158
Commercial real estate -	ŕ	,	·		ŕ		·
purchased whole loans	35,277						35,277
Construction & land							
development	44,199	115	2,687		37		47,038
Commercial & industrial	198,956	2,063	201		1,236		202,456
Lease financing receivables	7,242						7,242
Warehouse lines of credit	488,905						488,905
Home equity			2,658				2,658
Consumer:							
RPG loans							
Credit cards							
Overdrafts							
Purchased whole loans							
Other consumer		9	84				93
Total	\$ 1,545,162	\$ 35,659	\$ 33,911	\$	\$ 13,681	\$	\$ 1,628,413

^{* -} At June 30, 2015, Special Mention and Substandard loans included \$183,000 and \$4 million, respectively, which were removed from PCI accounting in accordance with ASC 310-30-35-13 due to a post-acquisition troubled debt restructuring.

^{** -} The above table excludes all non-classified residential real estate and consumer loans at the respective period ends. The table also excludes most non-classified small Commercial and Industrial (C&I) and Commercial Real Estate (CRE) relationships totaling \$100,000 or less. These loans are not rated by the Company since they are accruing interest and are not past due 80-days-or-more.

The Allowance calculation includes the following qualitative factors, which are considered in combination with the Bank s historical loss rates in determining the general loss reserve within the Allowance:

- Changes in nature, volume and seasoning of the portfolio;
- Changes in experience, ability and depth of lending management and other relevant staff;
- Changes in the quality of the Bank s credit review system;
- Changes in lending policies and procedures, including changes in underwriting standards and collection, charge-off, and recovery practices not considered elsewhere in estimating credit losses;
- Changes in the volume and severity of past due, non-performing and classified loans and leases;
- Changes in the value of underlying collateral for collateral-dependent loans and leases;

- Changes in international, national, regional, and local economic and business conditions and developments that affect the collectability of portfolios, including the condition of various market segments;
- The existence and effect of any concentrations of credit, and changes in the level of such concentrations; and
- The effect of other external factors such as competition and legal and regulatory requirements on the level of estimated credit losses in the institution s existing portfolio.

Other consumer	84	94	
Total	\$ 24,624	\$ 23,337 \$	\$ 322

^{* -} For all periods presented, loans past due 90-days-or-more and still on accrual consist entirely of PCI loans.

Non-accrual loans and loans past due 90-days-or-more and still on accrual include both smaller balance, primarily retail, homogeneous loans that are collectively evaluated for impairment and individually classified impaired loans. Non-accrual loans are typically returned to accrual status when all the principal and interest amounts contractually due are brought current and held current for six consecutive months and future contractual payments are reasonably assured. Troubled Debt Restructurings (TDRs) on non-accrual status are reviewed for return to accrual status on an individual basis, with additional consideration given to performance under the modified terms.

Delinquent Loans

^{* -} All loans, excluding PCI loans, 90-days-or-more past due as of June 30, 2015 and December 31, 2014 were on non-accrual status.

^{** -} Represents total loans past due by aging category divided by total loans.

Impaired Loans

The Bank defines impaired loans as follows:

- All loans internally rated as Substandard, Doubtful or Loss;
- All loans internally rated in a PCI category with cash flows that have deteriorated from management s initial acquisition day estimate;
- All loans on non-accrual status and non-PCI loans past due 90 days-or-more still on accrual;
- All retail and commercial TDRs; and
- Any other situation where the full collection of the total amount due for a loan is improbable or otherwise meets the definition of impaired.

See the section titled Credit Quality Indicators in this section of the filing for additional discussion regarding the Bank's loan classification structure.

Information regarding the Bank s impaired loans follows:

(in thousands)	Jun	e 30, 2015	Decemb	per 31, 2014
Loans with no allocated allowance for loan losses	\$	30,772	\$	32,560
Loans with allocated allowance for loan losses		45,647		53,620
Total impaired loans	\$	76,419	\$	86,180
Amount of the allowance for loan losses allocated	\$	5,757	\$	5,564

Approximately \$7 million and \$10 million of impaired loans at June 30, 2015 and December 31, 2014 were PCI loans. Approximately \$4 million and \$6 million of impaired loans at June 30, 2015 and December 31, 2014 were formerly PCI loans which became classified as Impaired through a post-acquisition troubled debt restructuring.

Table of Contents

The following tables present the balance in the Allowance and the recorded investment in loans by portfolio class based on impairment method as of June 30, 2015 and December 31, 2014:

Table of Contents

purchased whole loans

The following tables present loans individually evaluated for impairment by class of loans as of June 30, 2015 and December 31, 2014 and for the three and six months ended June 30, 2015 and 2014. The difference between the Unpaid Principal Balance and Recorded Investment columns represents life-to-date partial write downs/charge offs taken on individual impaired credits.
