USE OF PROCEEDS

We expect to receive net proceeds from this offering of approximately \$99.4 million after deducting the agents' discount. We intend to use the net proceeds from this offering to repay all \$50.0 million of our Fixed Rate Notes due October 20, 2004, which bear interest at a rate of 7.62%. The remaining proceeds will be used to repay amounts borrowed under our revolving credit facility which were used to repay our \$50.0 million 7.125% Fixed Rate Notes that matured in June of 2004. Our revolving credit facility is scheduled to expire in June of 2006 and bears interest at a rate of LIBOR plus 55 basis points.

RATIO OF EARNINGS TO FIXED CHARGES

Our ratio of earnings to fixed charges for the six-month period ended June 30, 2004 was 3.4. Our ratio of earnings to combined fixed charges and preferred stock dividend requirements for the six-month period ended June 30, 2004 was 3.1.

For purposes of computing these ratios, earnings have been calculated by adding fixed charges (excluding capitalized interest), amortization of capitalized interest and distributed income of equity investees to pre-tax income from continuing operations before adjustment for minority interest in consolidated subsidiaries or income/loss from unconsolidated partnerships. Fixed charges consist of interest costs, whether expensed or capitalized, the interest component of rental expense, and amortization of debt discounts and issue costs, whether expensed or capitalized.
