SHAW ANSWERS THE CALL FOR MORE CHOICE WITH LAUNCH OF SHAW DIGITAL PHONE

A reliable, fully featured and affordable residential telephone service

CALGARY, AB (February 14, 2005) Shaw Communications announced today the launch of Shaw Digital Phone - a reliable, fully featured and affordable residential telephone service. Shaw Digital Phone combines local, long distance and the most popular calling features into a simple package for a fixed monthly fee. Shaw Digital Phone is immediately available in Calgary and will be rolled out to other Shaw markets throughout the year.

The service includes a local residential line, unlimited anytime long distance calling within Canada and the U.S. and six calling features: Voicemail, Call Display, Call Forwarding, 3-Way Calling, Call Return and Call Waiting. Professional installation, access to E9-1-1, directory and operator services, and 24/7/365 customer support are all part of the Shaw Digital Phone service at no additional cost. Customers also have the option of keeping their current home phone number and the service works with existing telephones in a customer s home so no purchase of additional equipment is required.

We are extremely excited about the launch of our digital phone service. Our customers will now have a reliable and credible alternative for their local and long distance telephone services, said Jim Shaw, CEO of Shaw Communications Inc. The triple-play of TV, Internet and telephone service has arrived in Western Canada.
