Letter to Shareholders

Dear Shareholder:

Thank you for your confidence in our products and the support you have shown. I am excited to provide you with this update on the first six domestic exchange traded funds (ETFs) launched under the WisdomTree Trust.

On June 16, 2006, the WisdomTree Trust listed 20 fundamentally weighted ETFs on the New York Stock Exchange (NYSE). According to the NYSE, this event represented the largest one-day listing by a single issuer in the history of the NYSE. The day also marked an important turning point in the ETF industry. For the first time, a global family of dividend-weighted ETFs offered investors a fundamental alternative to market cap-weighted index funds in every major capitalization segment and across major geographic regions of the developed world.

Both domestic and international equity markets have seen sustained rallies since the WisdomTree ETFs were launched. From June 16, 2006 to September 30, 2006, the Russell 3000 Index, a broad measure of the U.S. stock market, advanced 6.62% on a total return basis. Internationally, the MSCI EAFE Index, which measures the performance of stocks in 21 industrialized equity markets outside the United States and Canada, increased by 9.20% on a total return basis over the same period.⁽¹⁾

With the launch of 10 pure international sector ETFs on October 13, 2006, the WisdomTree Trust now has 30 ETFs in the market. Within five months, this dividend-based family has attracted more than \$1 billion in assets under management - one indication of how quickly these new tools are being adopted by investment advisors, wirehouses and self-directed investors.

On behalf of my colleagues at WisdomTree Asset Management and the Board of Trustees of the WisdomTree Trust, I thank you for your investment in the WisdomTree family of fundamentally weighted ETFs. We look forward to serving you in the future.

Best Regards,

Edgar Filing: WisdomTree Trust - Form N-CSRS

- (1) Performance information for the Russell 3000 Index assumes the reinvestment of gross dividends and excludes management fees, transaction costs and expenses. Performance information for the MSCI EAFE Index assumes the reinvestment of net dividends and excludes management fees, transaction costs and expenses. You cannot invest directly in an index.

WisdomTree Trust Domestic Equity Funds 1

Management's Discussion of Funds' Performance

The six domestic ETFs introduced by the WisdomTree Trust give investors alternatives to market capitalization-weighted index funds in all major market capitalization segments of the U.S. equity market. All of the WisdomTree domestic ETFs discussed in this report track specific indexes that are derived from the WisdomTree Dividend Index, which measures the performance of dividend-paying companies in the United States. Unlike ETFs that track traditional market capitalization-weighted indexes, the WisdomTree domestic ETFs are designed to track indexes that are weighted based on the dividends that companies pay. For ease of comparison, this report provides index performance data on each ETF's underlying WisdomTree Index and a comparable benchmark index.

Each of the six WisdomTree domestic ETFs had higher cumulative returns than their comparable capitalization-weighted index for the period from their inception on June 16, 2006 to the close of the period on September 30, 2006. The broadest WisdomTree domestic ETF, the WisdomTree Total Dividend Fund ("DTD"), had a cumulative total return of 8.43% from its inception on June 16, 2006 to September 30, 2006. DTD outperformed the Russell 3000 Index by 1.81% over that period. The WisdomTree High-Yielding Equity Fund ("DHS"), which is comprised of higher dividend-yielding stocks selected from the WisdomTree Dividend Index, returned 10.02% for the period, outperforming the Russell 1000 Value Index by 1.42% since the Fund's inception.

The best performing size segment of the WisdomTree Dividend Index for this period was the large-cap portion. The WisdomTree LargeCap Dividend Fund ("DLN") returned 8.92% for the period, surpassing the return of the S&P 500 Index by 1.62%. The WisdomTree MidCap Dividend Fund ("DON") returned 6.45%, surpassing the return of the S&P Mid Cap 400 Index by 4.21% for the period. The WisdomTree SmallCap Dividend Fund ("DES") returned 7.17%, exceeding the return of the Russell 2000 Index by 2.07%. The WisdomTree Dividend Top 100 Fund ("DTN") outperformed the Russell 1000 Value Index by 0.52% for the period, returning 9.12%. Both DTN and DHS, which select stocks based on higher dividend yields, also outperformed a comparable equity income index, the Dow Jones U.S. Select Dividend Index. DTN and DHS returned 9.12% and 10.02%, respectively, while the Dow Jones U.S. Select Dividend Index, returned 6.93%.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses. In comparison, the Funds' performance is negatively impacted by these

deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. For the most recent month end performance information visit www.wisdomtree.com.

The Dow Jones U.S. Select Dividend Index is an index of 100 stocks selected from the Dow Jones Total Market Index based on high dividend yields and other dividend criteria; the Russell 3000 Index measures the performance of the 3000 largest stocks in the U.S. market by market value; the Russell 2000 Index measures the performance of the smallest 2000 companies in the Russell 3000 Index; the Russell 1000 Value Index measures the performance of Russell 1000 companies with lower price to book ratios and lower forecasted growth values; the S&P 500 Index is the Standards & Poor's composite index of 500 stocks; the S&P MidCap 400 Index is an unmanaged group of 400 domestic stocks chosen for market size, liquidity and industry group representation.

Performance Summary

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total

Edgar Filing: WisdomTree Trust - Form N-CSRS

assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the bid and ask for Fund shares as of the close of trading (generally 4:15 p.m.) on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. The gap in time between the calculation of NAV returns and market price returns (4:00 p.m. and 4:15 p.m., respectively) is one factor that contributes to differences between NAV returns and market price returns.

Performance Summary

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the bid and ask for Fund shares as of the close of trading (generally 4:15 p.m.) on the exchange where Fund shares are listed. NAV

and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. The gap in time between the calculation of NAV returns and market price returns (4:00 p.m. and 4:15 p.m., respectively) is one factor that contributes to differences between NAV returns and market price returns.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, such as brokerage commissions on purchases and sales of your Fund shares and (2) ongoing Fund costs, including management fees and other Fund expenses. The following Example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from June 16, 2006* to September 30, 2006.

Actual expenses

The first line under each Fund in the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled "Expenses Paid During Period 06/16/06* to 09/30/06" to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The second line under each Fund in the table below provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

		Beginning Account Value 06/16/06*

WisdomTree Trust Domestic Equity Funds 51

Notes to Financial Statements (unaudited)

1. ORGANIZATION

WisdomTree Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of September 30, 2006, the Trust offered 20 investment funds (each a "Fund", collectively, the "Funds"). Each Fund is considered to be non-diversified. The Funds commenced operations on June 16, 2006.

These financial statements relate only to the WisdomTree Dividend Top 100 Fund ("Dividend Top 100 Fund"), WisdomTree High-Yielding Equity Fund ("High-Yielding

Edgar Filing: WisdomTree Trust - Form N-CSRS

Equity Fund"), WisdomTree LargeCap Dividend Fund ("LargeCap Dividend Fund"), WisdomTree MidCap Dividend Fund ("MidCap Dividend Fund"), WisdomTree SmallCap Dividend Fund ("SmallCap Dividend Fund"), and WisdomTree Total Dividend Fund ("Total Dividend Fund"), together the "Domestic Equity Funds".

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index ("Index") developed by WisdomTree Investments, Inc. Each Index consists of dividend paying securities in the market suggested by its name that meet specific criteria developed by WisdomTree Investments, Inc. ("WisdomTree Investments"). "WisdomTree", "WisdomTree Investments", and "Dividend Top 100" are service marks of WisdomTree Investments licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Funds.

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles (U.S. GAAP), requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in the net assets from operations during the reporting period. Actual results could differ from those estimates.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Investment Valuation - Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. The Net Asset Value ("NAV") of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time (the "NAV Calculation Time"). NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Unlisted equity securities are valued at last quoted sale price or, if no sale price is available, at the mean between the most recently quoted bid and asked prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates current market value.

(b) Investment Transactions - Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

(c) Investment Income - Dividend income is recognized on the ex-dividend date. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

(d) Expenses/Reimbursements - WisdomTree Asset Management, Inc. ("WTA") has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees, (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTA. Pursuant to a separate contractual

arrangement WTA has agreed to pay the expenses described in (iii), (iv) and (v) through July 31, 2007.

(e) Security Lending - Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned) as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the

Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

(f) Dividends and Distributions to Shareholders - It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended ("the Code"). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company ("RIC") under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

The following distributions from net investment income were declared on October 4, 2006, and paid on October 10, 2006 to shareholders of record on October 6, 2006:

Fund	Net Investment Income

Edgar Filing: WisdomTree Trust - Form N-CSRS

Total Dividend Fund	\$ 201,558
High-Yielding Equity Fund	229,667
LargeCap Dividend Fund	416,717
Dividend Top 100 Fund	147,905
MidCap Dividend Fund	110,164
SmallCap Dividend Fund	240,696

(g) Short-Term Investments - Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit ("CDs"), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

3. ADVISER FEES AND TRANSACTIONS

Adviser Fees - WTA provides investment management services to each Fund pursuant to an Investment Advisory Agreement between the Trust and WTA. As compensation for services rendered, facilities furnished, and expenses borne by WTA, each Fund pays WTA a fee, as listed below, which is accrued daily and paid monthly, based on the average daily net assets of the Fund.

Fund	Fee Rate (bps)
Total Dividend Fund	0.28%
High-Yielding Equity Fund	0.38%
LargeCap Dividend Fund	0.28%
Dividend Top 100 Fund	0.38%
MidCap Dividend Fund	0.38%

MidCap Dividend Fund	7,523
SmallCap Dividend Fund	7,760

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2006, there were an unlimited number of \$0.001 par value capital shares of beneficial interest authorized by the Trust. Capital shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in capital shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities included in the relevant Fund's underlying index and an amount of cash. Investors purchasing and redeeming Creation Units pay a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments (excluding in-kind transactions and short-term investments) for the period ended September 30, 2006 were as follows:

7. NEW ACCOUNTING PRONOUNCEMENTS

On July 13, 2006, the Financial Accounting Standards Board ("FASB") released FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. At this time, management is evaluating the implications of FIN 48 and its impact in the financial statements has not yet been determined.

On September 15, 2006, the FASB released Statement of Financial Accounting

Edgar Filing: WisdomTree Trust - Form N-CSRS

Standards No. 157, "Fair Value Measurements" ("FAS 157") which provides enhanced guidance for measuring fair value. The standard requires companies to provide expanded information about the assets and liabilities measured at fair value and the potential effect of these fair valuations on an entity's financial performance. The standard does not expand the use of fair value in any new circumstances, but provides clarification on acceptable fair valuation methods and applications. Adoption of FAS 157 is required for fiscal years beginning after November 15, 2007. At this time, management is evaluating the implications of FAS 157 and its impact in the financial statements has not yet been determined.

8. SUBSEQUENT EVENT

Effective October 13, 2006, the Trust added ten international sector ETFs. Each ETF focuses on a specific industry sector consisting of only international equity securities. Each has an expense ratio of 0.58% and represents the international sector specified in its name:

- WisdomTree International Basic Materials Sector Fund (DBN)
- WisdomTree International Communications Sector Fund (DGG)
- WisdomTree International Consumer Cyclical Sector Fund (DPC)
- WisdomTree International Consumer Non-Cyclical Sector Fund (DPN)
- WisdomTree International Energy Sector Fund (DKA)
- WisdomTree International Financial Sector Fund (DRF)
- WisdomTree International Health Care Sector Fund (DBR)

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value ("NAV") of each Fund and the market trading price of shares of each Fund. For these purposes, the "market price" is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading (generally 4:15 p.m.) on the exchange where Fund shares are listed. The term "premium" is sometimes used to describe a market price in excess of NAV and the term "discount" is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. The gap in time between the calculation of per share NAV and market price (4:00 p.m. and 4:15 p.m., respectively) is one factor that contributes to differences between a Fund's NAV and the market price of its shares. Other factors that contribute to such differences are the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

Approval of Investment Advisory Agreement and Sub-Advisory Agreement (unaudited)

The Board of Trustees of the Trust, including a majority of the Independent Trustees, has the responsibility under the 1940 Act to approve the Trust's Investment Advisory Agreement and Sub-Advisory Agreement (collectively, the "Investment Advisory Agreements"). In addition, the Trust's Board of Trustees receives, reviews and evaluates information concerning the services and personnel of WTA, the investment adviser, and BNY Investment Advisors ("BNYIA"), the sub-adviser, at each quarterly meeting of the Board of Trustees. While particular emphasis will be placed on information concerning profitability, comparability of fees, total expenses, the Trust's investment performance, and other relevant factors at any future meeting at which a renewal of the Investment Advisory Agreements is considered, the process of evaluating WTA and BNYIA and the Trust's investment arrangements is an ongoing one. In this regard, the Board's consideration of the nature, extent and quality of the services to be provided by WTA and BNYIA under the Investment Advisory Agreements includes deliberations at quarterly meetings.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Initial Approval of Investment Advisory Agreement. The Trust and WTA have entered into an investment advisory agreement (the "Advisory Agreement"). At a meeting held on February 21, 2006 the Board of Trustees, including a majority of the Independent Trustees, approved the Advisory Agreement with WTA with respect to the Funds. In approving the Advisory Agreement with WTA, the Board reviewed and analyzed the factors it deemed relevant, including: (1) the nature, quality and extent of the services to be provided to the Funds by WTA; (2) WTA's personnel and operations; (3) WTA's financial condition; (4) the level and method of computing each Fund's advisory fee; (5) the possibility of "fall-out" benefits to WTA and its affiliates (i.e., ancillary benefits that may be realized by WTA or its affiliates from WTA's relationship with the Funds); (6) the anticipated effect of growth and size on each Fund's performance and expenses; and (7) possible conflicts of interest.

The Board also considered the nature and quality of the services to be provided by WTA to the Funds, recognizing WTA's operational capabilities and resources. The Board also noted the extensive responsibilities that WTA has as investment adviser to the Funds, including the selection of the Funds' sub-adviser and oversight of the sub-adviser's compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds. The Board gave substantial consideration to the fees payable under the Advisory Agreement. In this connection, the Board evaluated the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the sub-adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund's fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTA, the Board concluded that the level of the fees paid to WTA with respect to each Fund is fair and reasonable.

The Board also approved the Sub-Advisory Agreement with the sub-adviser to the Funds, BNYIA, using the same criteria it used for WTA. The Board considered BNYIA's operational capabilities and resources and BNYIA's experience in serving as an adviser to ETFs, noting that BNYIA currently provides investment advisory and management services to other ETFs. The Board also evaluated the performance of comparable funds managed by BNYIA in comparison to a peer group, and the expertise and performance of the BNYIA personnel. The Board also noted that Bank of New York ("BNY"), an affiliate of BNYIA, was proposed to serve as the Funds' administrator, accountant, custodian and transfer agent and will receive compensation for acting in these capacities and will be responsible for, among other things, coordinating the Funds' audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodying Fund assets. As such, the Board concluded that the benefits accruing to BNYIA and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services. The Board noted that WTA, not the Funds, pays the fees to BNYIA under the Sub-Advisory Agreement.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTA and BNYIA, the Board determined that the approval of the Advisory Agreement and the Sub-Advisory Agreement was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the assistance of independent counsel, approved the Advisory Agreement and Sub-Advisory Agreement.

Letter to Shareholders

Dear Shareholder:

Thank you for your confidence in our products and the support you have shown. I am excited to provide you with this update on the first 14 international exchange traded funds (ETFs) launched under the WisdomTree Trust.

On June 16, 2006, the WisdomTree Trust listed 20 fundamentally weighted ETFs on the New York Stock Exchange (NYSE). According to the NYSE, this event represented the largest one-day listing by a single issuer in the history of the NYSE. The day also marked an important turning point in the ETF industry. For the first time, a global family of dividend-weighted ETFs offered investors a fundamental alternative to market cap-weighted index funds in every major capitalization segment and across major geographic regions of the developed world.

Several other important firsts were achieved in connection with this listing. WisdomTree introduced the first ETFs that track international small-cap stocks, including small capitalization companies listed in Europe and Japan. The WisdomTree Trust is also the first ETF provider to offer exchange-traded funds tracking high-yielding stocks trading in Europe, Japan and the Pacific Region.

Both domestic and international equity markets have seen sustained rallies since the WisdomTree ETFs were launched. From June 16, 2006 to September 30, 2006, the Russell 3000 Index, a broad measure of the U.S. stock market, advanced 6.61% on a total return basis. Internationally, the MSCI EAFE Index, which measures the performance of stocks in 21 developed equity markets outside the United States and Canada, increased by 9.20% on a total return basis over the same period.(1)

With the launch of 10 pure international sector ETFs on October 13, 2006, the WisdomTree Trust now has 30 ETFs in the market. Within five months, this dividend-based family has attracted more than \$1 billion in assets under management - one indication of how quickly these new tools are being adopted by investment advisors, wirehouses and self-directed investors.

On behalf of my colleagues at WisdomTree Asset Management and the Board of Trustees of the WisdomTree Trust, I thank you for your investment in the WisdomTree family of fundamentally weighted ETFs. We look forward to serving you in the future.

Best Regards,

Jonathan Steinberg

WisdomTree Trust International Equity Funds 1

Management's Discussion of Funds' Performance

The 14 international ETFs introduced by the WisdomTree Trust give investors alternatives to market capitalization-weighted index funds in major areas of the developed world. All of the WisdomTree international ETFs discussed in this report track specific indexes that are derived from the WisdomTree Dividend Index of Europe, Far East Asia and Australasia ("WisdomTree DIEFA"), which measures the performance of dividend-paying companies in 21 developed equity markets outside the United States and Canada. Unlike ETFs that track traditional market capitalization-weighted indexes, the WisdomTree international ETFs are designed to track indexes that are weighted based on the dividends that companies pay. For ease of comparison, this report provides index performance data on each ETF's underlying WisdomTree Index and a comparable market capitalization-weighted index.

WisdomTree's broadest international fund, the WisdomTree DIEFA Fund ("DWM"), had a cumulative total return of 10.35% from its inception on June 16, 2006 to the close of the period on September 30, 2006. DWM outperformed the MSCI EAFE Index by 1.15% over that period. The WisdomTree DIEFA High-Yielding Equity Fund ("DTH"), which is comprised of higher dividend-yielding stocks selected from the WisdomTree DIEFA Index, returned 10.49% for the period, slightly less than the MSCI EAFE Value Index, which returned 10.52%. The best performing size segment of the WisdomTree DIEFA Index for this period was the mid-cap portion. WisdomTree's International MidCap Dividend Fund ("DIM") returned 11.99% since inception, surpassing the MSCI EAFE Index by 2.79% from June 16, 2006 to September 30, 2006.

The best performing region of the industrialized world since the inception of the WisdomTree ETFs has been Europe. The WisdomTree Europe Total Dividend Fund ("DEB") generated a total return of 11.05% from its launch on June 16, 2006 to September 30, 2006. While this Fund lagged the performance of the MSCI Europe Index by 0.33% for the same period, the WisdomTree Europe SmallCap Dividend Fund ("DFE") outperformed the MSCI Europe Small Cap Index by 1.96% from June 16, 2006 to September 30, 2006, generating a total return of 10.37% for the period.

As was the case in Europe, the dividend-paying portion of the small-cap market in Japan outperformed a broader index of Japanese small-cap stocks. Whereas the MSCI Japan Small Cap Index declined 4.51% from June 16, 2006 to September 30, 2006, the WisdomTree Japan SmallCap Dividend Fund ("DFJ") lost only 1.40% of its value for the same period. WisdomTree's broadest small-cap fund -- the WisdomTree International SmallCap Dividend Fund ("DLS") -- returned 8.10% from June 16, 2006 to September 30, 2006, surpassing the MSCI EAFE SmallCap Index by 4.30% for the period.

Returns on equity securities in the Pacific Region, excluding Japan, were generally higher than equity returns in Japan. WisdomTree's Pacific ex-Japan Total Dividend Fund ("DND") returned 8.47% from June 16, 2006 to September 30, 2006, outperforming the MSCI Pacific ex-Japan Index by 1.41% for the period.

Management's Discussion of Funds' Performance (concluded)

The MSCI value indexes for Europe, Japan and the Pacific Region ex-Japan had higher returns than the corresponding WisdomTree High-Yielding Equity Funds for this period, as value stocks outperformed the broader market generally. However, the WisdomTree International Dividend Top 100 ("DOO"), which returned 12.24% from June 16, 2006 to September 30, 2006, outperformed the MSCI EAFE Value Index by 1.72% over the same time frame.

Fund performance assumes reinvestment of dividends and capital gain distributions. An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses. In comparison, the Funds' performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares that a shareholder would pay on Fund distributions. Past performance is no guarantee of future results. For the most recent month end performance information visit www.wisdomtree.com.

The MSCI EAFE Index is a market cap-weighted index composed of companies representative of the developed market structure of 21 developed countries in Europe, Australasia and Japan; the MSCI EAFE Value Index measures the performance of value stocks in the MSCI EAFE Index; the MSCI EAFE Small Cap Index measures the performance of small cap stocks in the MSCI EAFE Index; the MSCI Europe Index is a subset of the MSCI EAFE Index and represents the performance of Western Europe, developed market equity performance; the MSCI Europe Small Cap Index measures the performance of small cap stocks in the MSCI Europe Index; the MSCI Europe Value Index measures the performance of value stocks within the MSCI Europe Index; the MSCI Japan Index is a market cap-weighted index that measures the performance of the Japanese equity markets; the MSCI Japan Value Index measures the performance of value stocks in the MSCI Japan Index; the MSCI Japan Small Cap Index measures the performance of small cap stocks in the MSCI Japan Index; the MSCI Pacific ex-Japan Index is a market cap-weighted index that measures the performance of stocks in Australia, Hong Kong, Singapore, and New Zealand; the MSCI Pacific ex-Japan Value Index measures the performance of value stocks in the MSCI Pacific ex-Japan Index. Performance information for the MSCI indexes assumes the reinvestment of net dividends and excludes management fees, transaction costs and expenses. You cannot invest directly in an index.

Performance Summary

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the bid and ask for Fund shares as of the close of trading (generally 4:15 p.m.) on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. The gap in time between the calculation of NAV returns and market price returns (4:00 p.m. and 4:15 p.m., respectively) is one factor that contributes to differences between NAV returns and market price returns.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions.

Performance Summary

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the bid and ask for Fund shares as of the close of trading (generally 4:15 p.m.) on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. The gap in time between the calculation of NAV returns and market price returns (4:00 p.m. and 4:15 p.m., respectively) is one factor that contributes to differences between NAV returns and market price returns.

An index is a statistical measure of a specified financial market or sector. An index does not actually hold a portfolio of securities, incur expenses or pay any transaction costs. Therefore index returns do not reflect deductions for fees or expenses and are not available for direct investment. In comparison, the Fund's performance is negatively impacted by these deductions. Fund returns do not reflect brokerage commissions or taxes on transactions in Fund shares or that a shareholder would pay on Fund distributions.

Performance Summary

The following performance chart is provided for comparative purposes and represents the period noted. The Fund's per share net asset value ("NAV") is the value of one share of the Fund and is calculated by dividing the value of total assets less total liabilities by the number of shares outstanding. The NAV return is based on the NAV of the Fund and the market return is based on the market price per share of the Fund. The price used to calculate market price returns is the mid-point of the bid and ask for Fund shares as of the close of trading (generally 4:15 p.m.) on the exchange where Fund shares are listed. NAV and market returns assume that dividends and capital gain distributions have been reinvested in the Fund at NAV and market price, respectively. The gap in time between the calculation of NAV returns and market price returns (4:00 p.m. and 4:15 p.m., respectively) is one factor that contributes to differences between NAV returns and market price returns.

Shareholder Expense Examples (unaudited)

As a shareholder of a WisdomTree Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of your Fund shares and (2) ongoing costs, including management fees and other Fund expenses. The following Example is intended to help you understand your ongoing costs (in dollars and cents) of investing in a Fund and to compare these costs with the ongoing costs of investing in other funds.

The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from June 16, 2006* to September 30, 2006.

Actual expenses

The first line under each Fund in the table on the next page provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line for your Fund under the heading entitled "Expenses Paid During Period 06/16/06* to 09/30/06" to estimate the expenses you paid on your account during this period.

Edgar Filing: WisdomTree Trust - Form N-CSRS

Hypothetical example for comparison purposes

The second line under each Fund in the table on the next page provides information about hypothetical account values and hypothetical expenses based on each Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales of Fund shares. Therefore, the second line under each Fund in the table is useful in comparing ongoing Fund costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

* Commencement of investment operations.

Notes to Financial Statements (unaudited)

1. ORGANIZATION

WisdomTree Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was established as a Delaware statutory trust pursuant to a Trust Instrument dated December 15, 2005. As of September 30, 2006, the Trust offered 20 investment funds (each a "Fund", collectively, the "Funds"). Each Fund is considered to be non-diversified. The Funds commenced operations on June 16, 2006.

These financial statements relate only to the WisdomTree DIEFA Fund ("DIEFA Fund"), WisdomTree DIEFA High-Yielding Equity Fund ("DIEFA High-Yielding Equity Fund"), WisdomTree Europe Total Dividend Fund ("Europe Total Dividend Fund"), WisdomTree Europe High-Yielding Equity Fund ("Europe High-Yielding Equity Fund"), WisdomTree Europe SmallCap Dividend Fund ("Europe SmallCap Dividend Fund"), WisdomTree Japan Total Dividend Fund ("Japan Total Dividend Fund"), WisdomTree Japan High-Yielding Equity Fund ("Japan High-Yielding Equity Fund"), WisdomTree Japan SmallCap Dividend Fund ("Japan SmallCap Dividend Fund"), WisdomTree Pacific ex-Japan Total Dividend Fund ("Pacific ex-Japan Total Dividend Fund"), WisdomTree Pacific ex-Japan High-Yielding Equity Fund ("Pacific ex-Japan High-Yielding Equity Fund"), WisdomTree International Dividend Top 100 Fund ("International Dividend Top 100 Fund"), WisdomTree International LargeCap Dividend Fund ("International LargeCap Dividend Fund"), WisdomTree International MidCap Dividend Fund ("International MidCap Dividend Fund"), and WisdomTree International SmallCap Dividend Fund ("International SmallCap Dividend Fund"), together the "International Equity Funds".

Each Fund seeks investment returns that closely correspond to the price and yield performance, before fees and expenses, of a particular index ("Index") developed by WisdomTree Investments, Inc. Each Index consists of dividend paying securities in the market suggested by its name that meet specific criteria developed by WisdomTree Investments, Inc. ("WisdomTree Investments"). "WisdomTree", "WisdomTree Investments", "WisdomTree DIEFA", and "International Dividend Top 100" are service marks of WisdomTree Investments licensed for use by the Trust. WisdomTree Investments has patent applications pending on the methodology and operation of its Indexes and the Funds.

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles (U.S. GAAP), requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in

Edgar Filing: WisdomTree Trust - Form N-CSRS

the net assets from operations during the reporting period. Actual results could differ from those estimates.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Investment Valuation -- Securities traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. The Net Asset Value ("NAV") of each Fund's shares is calculated each day the national securities exchanges are open for trading as of the close of regular trading on the New York Stock Exchange, generally 4:00 p.m. New York time (the "NAV Calculation Time"). NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Events occurring after the close of trading on non-U.S. exchanges may result in adjustments to the valuation of foreign securities to more accurately reflect their fair value as of the close of regular trading on the New York Stock Exchange. The Fund may rely on an independent fair valuation service in adjusting the valuations of foreign securities. Unlisted equity securities are valued at last quoted sale price or, if no sale price is available, at the mean between the most recently quoted bid and asked prices. Securities for which market quotations are not readily available are valued at fair value as determined by management and in accordance with procedures approved by the Board of Trustees. Eastern time. Short-term securities with 60 days or less remaining to maturity are valued using the amortized cost method, which approximates current market value.

(b) Investment Transactions -- Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method.

(c) Foreign Currency Translation -- The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars using exchange rates deemed appropriate by the investment adviser. Realized and unrealized foreign exchange gains or losses on investments are included as a component of net realized and unrealized gain or loss on foreign currency transactions in the Statement of Operations. Certain foreign exchange gains and losses included in realized and unrealized gains or losses are included in or are a reduction of ordinary income in accordance with U.S. Federal income tax regulations.

(d) Investment Income -- Dividend income is recognized on the ex-dividend date, net of any foreign taxes withheld. Interest income is accrued daily. The value of additional securities received as dividend payments is recorded as income and as an increase to the cost basis of such securities.

(e) Expenses/Reimbursements -- WisdomTree Asset Management, Inc. ("WTA") has agreed to pay all expenses of the Trust, except for: (i) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions; (ii) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith; (iii) compensation and expenses of each Independent Trustee; (iv) compensation and expenses of counsel to the Independent Trustees, (v) compensation and expenses of the Trust's chief compliance officer; (vi) extraordinary expenses; (vii) distribution fees and expenses paid by the Trust

under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act; and (viii) the advisory fee payable to WTA. Pursuant to a separate contractual arrangement WTA has agreed to pay the expenses described in (iii), (iv) and (v) through July 31, 2007.

(f) Security Lending -- Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. The loans are collateralized at all times by cash and/or high grade debt obligations in an amount at least equal to 102% of the market value of domestic securities loaned (105% in the case of foreign securities loaned) as determined at the close of business on the preceding business day. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. The Funds retain all or a portion of the interest received on investment of cash collateral or receives a fee from the borrower. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

The securities lending income earned by the Funds is disclosed on the Statements of Operations.

(g) Dividends and Distributions to Shareholders -- It is each Fund's policy to comply with all requirements of the Internal Revenue Code of 1986, as amended ("the Code"). Each Fund intends to qualify for and to elect treatment as a separate Regulated Investment Company ("RIC") under Subchapter M of the Code. It is the policy of each Fund to pay out dividends, if any, to investors at least annually. Taxable net realized gains from investment transactions, reduced by capital loss carryforwards, if any, are declared and distributed to shareholders at least annually. The capital loss carryforward amount, if any, is available to offset future net capital gains. The Funds may occasionally be required to make supplemental distributions at some other time during the year. The Trust reserves the right to declare special distributions if, in its reasonable discretion, such action is necessary or advisable to preserve the status of each Fund as a RIC or to avoid imposition of income or excise taxes on undistributed income. Dividends and distributions to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains are determined in accordance with Federal income tax regulations which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the components of net assets based on their federal tax basis treatment; temporary differences do not require reclassification. Dividends and distributions, which exceed earnings and profit for tax purposes, are reported as a tax return of capital.

(h) Short-Term Investments -- Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments in which a Fund may invest include short-term obligations issued by the U.S. Government, negotiable certificates of deposit ("CDs"), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

4. CAPITAL SHARE TRANSACTIONS

As of September 30, 2006, there were an unlimited number of \$0.001 par value capital shares of beneficial interest authorized by the Trust. Capital shares are issued and redeemed by each Fund only in Creation Units or multiples thereof. Except when aggregated in Creation Units, shares of each Fund are not redeemable. Transactions in capital shares for each Fund are disclosed in detail in the Statements of Changes in Net Assets. The consideration for the purchase of Creation Units of a Fund generally consists of the in-kind contribution of a designated portfolio of equity securities constituting a portfolio sampling representation of the securities involved in the relevant Fund's underlying index and an amount of cash. Investors purchasing and redeeming Creation Units pay a purchase transaction fee and a redemption transaction fee to offset transfer and other transaction costs associated with the issuance and redemption of Creation Units.

7. NEW ACCOUNTING PRONOUNCEMENTS

On July 13, 2006, the Financial Accounting Standards Board ("FASB") released FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" ("FIN 48"). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. At this time, management is evaluating the implications of FIN 48 and its impact in the financial statements has not yet been determined.

On September 15, 2006, the FASB released Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FAS 157") which provides enhanced guidance for measuring fair value. The standard requires companies to provide expanded information about the assets and liabilities measured at fair value and

Edgar Filing: WisdomTree Trust - Form N-CSRS

the potential effect of these fair valuations on an entity's financial performance. The standard does not expand the use of fair value in any new circumstances, but provides clarification on acceptable fair valuation methods and applications. Adoption of FAS 157 is required for fiscal years beginning after November 15, 2007. At this time, management is evaluating the implications of FAS 157 and its impact in the financial statements has not yet been determined.

Frequency Distribution of Discounts & Premiums (unaudited)

The chart below presents information about differences between the per share net asset value ("NAV") of each Fund and the market trading price of shares of each Fund. For these purposes, the "market price" is the mid-point of the highest bid and lowest offer for Fund shares as of the close of trading (generally 4:15 p.m.) on the exchange where Fund shares are listed. The term "premium" is sometimes used to describe a market price in excess of NAV and the term "discount" is sometimes used to describe a market price below NAV. The chart presents information about the size and frequency of premiums or discounts. The gap in time between the calculation of per share NAV and market price (4:00 p.m. and 4:15 p.m., respectively) is one factor that contributes to differences between a Fund's NAV and the market price of its shares. Other factors that contribute to such differences are the supply and demand for Fund shares and investors' assessments of the underlying value of a Fund's portfolio securities.

Differences between the closing times of U.S. and non-U.S. markets may contribute to differences between the NAV and market price of Fund shares. Many non-U.S. markets close prior to the close of the U.S. securities exchanges. Developments after the close of such markets as a result of ongoing price discovery may be reflected in a Fund's market price but not in its NAV (or vice versa).

WisdomTree Trust International Equity Funds 105

Approval of Investment Advisory Agreement and Sub-Advisory Agreement (unaudited)

The Board of Trustees of the Trust, including a majority of the Independent Trustees, has the responsibility under the 1940 Act to approve the Trust's Investment Advisory Agreement and Sub-Advisory Agreement (collectively, the "Investment Advisory Agreements"). In addition, the Trust's Board of Trustees receives, reviews and evaluates information concerning the services and personnel of WTA, the investment adviser, and BNY Investment Advisors ("BNYIA"), the sub-adviser, at each quarterly meeting of the Board of Trustees. While particular emphasis will be placed on information concerning profitability, comparability of fees, total expenses, the Trust's investment performance, and

Edgar Filing: WisdomTree Trust - Form N-CSRS

other relevant factors at any future meeting at which a renewal of the Investment Advisory Agreements is considered, the process of evaluating WTA and BNYIA and the Trust's investment arrangements is an ongoing one. In this regard, the Board's consideration of the nature, extent and quality of the services to be provided by WTA and BNYIA under the Investment Advisory Agreements includes deliberations at quarterly meetings.

Initial Approval of Investment Advisory Agreement. The Trust and WTA have entered into an investment advisory agreement (the "Advisory Agreement"). At a meeting held on February 21, 2006 the Board of Trustees, including a majority of the Independent Trustees, approved the Advisory Agreement with WTA with respect to the Funds. In approving the Advisory Agreement with WTA, the Board reviewed and analyzed the factors it deemed relevant, including: (1) the nature, quality and extent of the services to be provided to the Funds by WTA; (2) WTA's personnel and operations; (3) WTA's financial condition; (4) the level and method of computing each Fund's advisory fee; (5) the possibility of "fall-out" benefits to WTA and its affiliates (i.e., ancillary benefits that may be realized by WTA or its affiliates from WTA's relationship with the Funds); (6) the anticipated effect of growth and size on each Fund's performance and expenses; and (7) possible conflicts of interest.

The Board also considered the nature and quality of the services to be provided by WTA to the Funds, recognizing WTA's operational capabilities and resources. The Board also noted the extensive responsibilities that WTA has as investment adviser to the Funds, including the selection of the Funds' sub-adviser and oversight of the sub-adviser's compliance with Fund policies and objectives, oversight of general Fund compliance with federal and state laws, and the implementation of Board directives as they relate to the Funds. The Board gave substantial consideration to the fees payable under the Advisory Agreement. In this connection, the Board evaluated the personnel, systems and equipment necessary to manage the Funds and the costs associated with compensating the sub-adviser. The Board also examined the fees to be paid by each Fund in light of fees paid to other investment managers by comparable funds and the method of computing each Fund's fee. After comparing the fees with those of comparable funds and in light of the quality and extent of services to be provided and the costs anticipated to be incurred by WTA, the Board concluded that the level of the fees paid to WTA with respect to each Fund is fair and reasonable.

The Board also approved the Sub-Advisory Agreement with the sub-adviser to the Funds, BNYIA, using the same criteria it used for WTA. The Board considered BNYIA's operational capabilities and resources and BNYIA's experience in serving as an adviser to ETFs, noting that BNYIA currently provides investment advisory and management services to other ETFs. The Board also evaluated the performance of comparable funds managed by BNYIA in comparison to a peer group, and the expertise and performance of the BNYIA personnel. The Board also noted that Bank of New York ("BNY"), an affiliate of BNYIA, was proposed to serve as the Funds' administrator, accountant, custodian and transfer agent and will receive compensation for acting in these capacities and will be responsible for, among other things, coordinating the Funds' audits, financial statements and tax returns, managing expenses and budgeting for the Funds, processing trades on behalf of each Fund and custodying Fund assets. As such, the Board concluded that the benefits accruing to BNYIA and its affiliates by virtue of their relationship to the Trust are reasonable and fair in comparison with the anticipated costs of providing the relevant services. The Board noted that WTA, not the Funds, pays the fees to BNYIA under the Sub-Advisory Agreement.

Based on these considerations and the overall high quality of the personnel, operations, financial condition, investment advisory capabilities, methodologies, and performance of WTA and BNYIA, the Board determined that the approval of the Advisory Agreement and the Sub-Advisory Agreement was in the best interests of each Fund. After full consideration of these and other factors, the Board, including a majority of the Independent Trustees, with the

The WisdomTree Funds are exchange traded funds ("ETFs") registered with the United States Securities and Exchange Commission ("SEC") as series of WisdomTree Trust ("Trust"). WisdomTree Asset Management, Inc., a wholly owned subsidiary of WisdomTree Investments, Inc., serves as the investment adviser to the WisdomTree Trust. None of the WisdomTree entities are affiliated with ALPS Distributors, Inc., the Funds' distributor. WisdomTree Investments, its affiliates and their independent providers are not liable for any informational errors, incompleteness, or delays, or for any actions taken in reliance on information contained herein.

Investors should consider the investment objectives, risks, charges and expenses of the funds carefully before investing. A prospectus, containing this and other information, is available at wisdomtree.com, or by calling 1-866-909-WISE (9473). Investors should read the prospectus carefully before investing. There are risks associated with investing, including possible loss of principal. Past performance does not guarantee future results. Indexes are unmanaged and you can not invest directly in an index.

In addition to the normal risks associated with investing, foreign investing involves special risks, such as risk of loss from currency fluctuation or political or economic uncertainty. Funds focusing on a single country, sector, and/or funds that emphasize investments in smaller companies may experience greater price volatility. Transactions in fund shares will result in brokerage commissions and will generate tax consequences. Shares may be sold through brokerage accounts, but may be redeemed from the funds only in large amounts of 50,000 shares or more.
