NOVADEL PHARMA INC. NOTES TO FINANCIAL STATEMENTS

NOTE 1 - BASIS OF PRESENTATION:

The balance sheet at the end of the preceding fiscal year has been derived from the audited balance sheet contained in the Company's Form 10-KSB and is presented for comparative purposes. All other financial statements are unaudited. In the opinion of management, all adjustments, which include only normal recurring adjustments necessary to present fairly the financial position, results of operations and cash flows for all periods presented, have been made in the interim statements. Results of operations for interim periods are not necessarily indicative of the operating results for a full year.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. Before the end of the calendar year, it will be necessary for the Company to obtain additional financing and/or consummate a strategic alliance with a well-funded business partner. There are a number of risks and uncertainties related to the Company's attempt to complete a financing or strategic partnering arrangement that are outside the control of the Company. We may not be able to successfully obtain additional financing on terms acceptable to the Company, or at all. These uncertainties raise substantial doubt as to the Company's ability to continue as a going concern.

Footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted in accordance with the published rules and regulations of the Securities and Exchange

Edgar Filing: NOVADEL PHARMA INC - Form 10QSB

Commission. The financial statements in this report should be read in conjunction with the financial statements and notes thereto included in the Form 10-KSB of NOVADEL PHARMA INC. (the "Company"), for the year ended July 31, 2002.

NOTE 2 - PREPAID EXPENSES AND OTHER CURRENT ASSETS:

Approximately \$86,000 of prepaid supplies; \$41,000 of prepaid insurance; \$2,000 of employee loan and \$2000 of other are included in the \$131,000 total.

OTHER ASSETS:

Approximately \$351,000 of security deposits are included in the \$354,000 total. The remainder is other assets.

ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES:

Approximately \$221,000 of accrued payroll and related payroll taxes; \$168,000 of accrued employee vacation and \$104,000 of accrued legal and professional fees are included in the \$500,000 total. The remainder is other accrued expenses and other current liabilities.

NOTE 3 - PRIVATE PLACEMENT:

During April 2003, the Company received net proceeds of approximately \$2,511,000 from a total of 27.95 Units of the Company's securities. Each Unit consisted of sixty six thousand, six hundred, sixty seven (66,667) common shares, par value \$.001, and sixteen thousand, six hundred, sixty seven (16,667) warrants. Each warrant entitled the holder to purchase an additional share of the company's common stock at an exercise price of \$2.00 within five (5) years. The terms of the placement provide that if at any time following the closing of the offering and continuing for a period of two (2) years thereafter we offer shares of our common stock for sale in a capital raising transaction, we will permit the investors to purchase such number of shares of common stock to maintain their pro rata ownership percentages of NovaDel and that if, at any time following the closing of the offering for a period of one year, we sold shares of common stock in a capital raising transaction (of at least \$1 million) at a per share price less than \$1.50, we will issue to the investors additional shares of common stock (so that they would receive their original shares at such lower price). The sale price of each Unit was \$100,000 (\$1.50 per share). (See also notes 4 and 7) As partial compensation to the placement agent, the Company became obligated to issue to the placement agent warrants to purchase 93,167 shares of the Company's common stock at an exercise price of \$1.65 per share. The warrants have a term of five (5) years.

6

NOTE 4 - STOCK OPTIONS AND WARRANTS:

The Company follows the intrinsic method of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued

Edgar Filing: NOVADEL PHARMA INC - Form 10QSB

to Employees" (APB 25) and related interpretations in accounting for its employee stock options because, as discussed below, Financial Accounting Standards Board Statement No. 123, "Accounting for Stock-Based Compensation" (FAS 123) requires use of option valuation models that were not developed for use in valuing employee stock options. FAS 123 permits a company to elect to follow the intrinsic method of APB 25 rather than the alternative fair value accounting provided under FAS 123, but requires pro forma net income and earnings per share disclosures as well as various other disclosures not required under APB 25 for companies following APB 25. The Company has adopted the disclosure provisions required under Financial Accounting standards Board Statement No. 148, "Accounting for Stock-Based Compensation Transition and Disclosure" (FAS 148). Under APB 25, because the exercise price of the Company's stock options equals the market price of the underlying stock on the date of grant, no compensation expense was recognized.

Pro forma information regarding net income and earnings per share is required by FAS 123 and FAS 148, and has been determined as if the Company had accounted for its employee stock options under the fair value method of that Statement.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options which have no vesting restrictions and are fully transferable. In addition, options valuation models require the input of highly subjective input assumptions including the expected stock price volatility. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable measure of the fair value of its employee stock options.

For purposes of pro forma disclosures, the estimated fair value of options is amortized to expense over the options' vesting period. The Company's pro forma information follows:

Such options have a term of five (5) years.

Such options have a term of ten (10) years.

Each warrant entitles the holder to purchase an additional share of the company's common stock at an exercise price of \$2.00 within five (5) years. The sale price of each Unit was \$100,000 (\$1.50 per share). NOVADEL PHARMA INC.

Part I, Item 2. Management's Discussion and Analysis

Novadel Pharma inc., a Delaware corporation (the "Company"), is engaged in development of novel application drug delivery systems for presently marketed prescription and over-the-counter ("OTC") drugs and has been a consultant to the pharmaceutical industry. Since 1992, the Company has used its consulting revenues to fund its own product development activities.

Since its inception, substantially all of the Company's revenues have been derived from its consulting activities. The Company has had a history of recurring losses from operation, giving rise to an accumulated deficit at April 30, 2003 of approximately \$14,167,000. For the 9 months ending April 30, 2003, the Company has had no revenue from consulting as the Company has shifted its emphasis away from product development consulting for its clients and to development of its own products.

For the reasons stated above, the Company anticipates that it will incur substantial operating expenses in connection with the testing and approval of its proposed delivery systems, and expects these expenses will result in continuing and significant operating losses until such time, if ever, that the Company is able to achieve adequate sales levels.

In view of the Company's very limited resources, its anticipated expenses and the competitive environment in which the Company operates, there can be no assurance that its operations will be sustained for the duration of the next fiscal year.

RESULTS OF OPERATIONS

THE NINE MONTHS ENDED APRIL 2003 [THE "2003 PERIOD"] AND APRIL 2002 [THE "2002 PERIOD"]

Edgar Filing: NOVADEL PHARMA INC - Form 10QSB

Operating revenues for the 2003 Period decreased approximately \$335,000 to \$0 from \$335,000 for the 2002 Period.

Total costs and expenses for the 2003 Period increased approximately \$1,435,000 or 47% to \$4,478,000 from \$3,043,000 for the 2002 Period. This increase includes approximately: \$665,000 in payroll expenses primarily due to the hiring of additional employees and an increase of the vacation pay accrual; \$362,000 in legal & professional fees; \$140,000 in laboratory testing and clinical studies costs; \$129,000 in consultants fees primarily due to a non-cash charge for options issued to consultants; \$66,000 in depreciation and amortization expenses due to the earlier purchases of internal laboratory equipment; \$51,000 in employee recruiting; \$47,000 in insurance expenses due to additional employees and generally increased premiums; \$28,000 in inside laboratory expenses; \$17,000 in trade show and conference expenses; \$12,000 in office expenses due to additional employees; \$11,000 in automobile expenses; \$11,000 in travel expenses; \$10,000 in outside services primarily due to environmental waste removal costs and \$9,000 in rent expenses.

Costs and expenses decreases for the 2003 period, as compared to the 2002 period, includes approximately: \$89,000 in bad debt expense; \$32,000 in buy-out of contract with a consultant; \$8,000 in sample purchases primarily due to returns of earlier purchases and \$6,000 in meetings and memberships.

Interest income increased approximately \$8,000 or 25% to \$40,000 for the 2003 Period from \$32,000 for the 2002 Period due to an increased average cash balance.

Deferred income tax benefit for the 2003 period was approximately \$84,000 compared to approximately \$88,000 for the 2002 period. These benefits resulted from the sale of the Company's New Jersey net operating losses.

The resulting net loss for the 2003 Period was \$4,354,000 (net loss per share of \$0.30) compared to a net loss of \$2,588,000 (net loss per share of \$0.25) for the 2002 Period.

10

THE THREE MONTHS ENDED APRIL 2003 [THE "2003 PERIOD"] AND APRIL 2002 [THE "2002 PERIOD"]

Operating revenues for the 2003 Period decreased approximately \$81,000 to \$0 from \$81,000 for the 2002 Period.

Total costs and expenses for the 2003 Period decreased approximately \$1,261,000 or 59% to \$878,000 from \$2,139,000 for the 2002 Period. This decrease includes approximately: \$1,369,000 in consultants fees; \$18,000 in travel expenses; \$12,000 in trade shows and conferences and \$7,000 in laboratory testing and clinical studies expenses.

Costs and expenses increases for the 2003 period, as compared to the 2002 period, includes approximately: \$145,000 in payroll expense primarily due to the hiring of additional employees and an increase of the vacation pay accrual; \$42,000 in legal & professional fees; \$20,000 in depreciation and amortization expense due to the earlier purchases of internal laboratory equipment and \$13,000 in public company expenses due to increased directors' fees.

Interest income decreased approximately \$10,000 or 59% to \$7,000 for the 2003

Edgar Filing: NOVADEL PHARMA INC - Form 10QSB

period from \$17,000 for the 2002 period due to a decreased average cash balance.

The resulting net loss for the 2003 Period was \$871,000 (net loss per share of \$0.06) compared to a net loss of \$2,041,000 (net loss per share of \$0.15) for the 2002 Period.

LIQUIDITY AND CAPITAL RESOURCES

Net cash used in operating activities approximated \$2,965,000 for the 2003 Period compared to net cash used in operating activities of approximately \$810,000 for the 2002 Period. Net cash used in operating activities for both the 2003 and 2002 periods was primarily attributable to the net loss of \$4,354,000 and \$2,588,000, respectively. For the 2003 period, \$264,000 was used for investing activities compared to \$179,000 for the 2002 Period. For the 2003 period, \$2,511,000 was received from financing activities compared to \$4,934,000 for the 2002 period. Total cash flow for the 2003 period decreased approximately \$718,000 as compared to a \$3,945,000 increase for the 2002 period.

In May 2003, the Company completed its private placement, raising an additional \$2,006,000 of equity (see note 7). Before the end of the calendar year, it will be necessary for the Company to obtain additional financing and/or consummate a strategic alliance with a well funded business partner. There are a number of risks and uncertainties related to the Company's attempt to complete a financing or strategic partnering arrangement that are outside the control of the Company. We may not be able to successfully obtain additional financing on terms acceptable to the Company, or at all. These uncertainties raise substantial doubt as to the Company's ability to continue as a going concern. The Company's auditors have qualified their audit opinion with regard to the Company's ability to continue as a going concern.

INFLATION

The Company does not believe that inflation has had a material effect on its results of operations during the past three fiscal years. There can be no assurance that the Company's business will not be affected by inflation in the future.

Part 1, Item 3. Controls and Procedures

Within the 90-day period prior to the date of this report, our Chief Executive Officer and Chief Financial Officer performed an evaluation of our disclosure controls and procedures, which have been designed to permit us to effectively identify and timely disclose important information. They concluded that the controls and procedures were effective. Since the date of the evaluation, we have made no significant changes in our internal controls or in other factors that could significantly affect our internal controls.
