GATEHOUSE MEDIA, INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements
(In thousands, except share and per share data)

(1) Unaudited Financial Statements

The accompanying unaudited condensed consolidated financial statements of GateHouse Media, Inc. and its subsidiaries (the "Company") have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Certain information and note disclosures normally included in comprehensive annual financial statements presented in accordance with GAAP have generally been condensed or omitted pursuant to Securities and Exchange Commission ("SEC") rules and regulations.

Management believes that the accompanying condensed consolidated financial statements contain all adjustments (which include normal recurring adjustments) that, in the opinion of management, are necessary to present fairly the Company's consolidated financial condition, results of operations and cash flows for the periods presented. The results of operations for interim periods are not necessarily indicative of the results that may be expected for the full year. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes for the year ended December 31, 2007, included in the Company's Annual Report on Form 10-K.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

On May 9, 2005, an affiliate of Fortress Investment Group LLC, FIF III Liberty Holdings LLC ("Parent"), FIF III Liberty Acquisitions, LLC, a wholly owned subsidiary of Parent ("Merger Subsidiary"), and the Company entered into an agreement that provided for the merger of Merger Subsidiary with and into the Company, with the Company continuing as a wholly owned subsidiary of Parent (the "Merger"). The Merger was completed on June 6, 2005. The total value of the transaction was approximately \$527,000.

Initial Public Offering

On October 25, 2006, the Company completed its initial public offering ("IPO") of 13,800,000 shares of its common stock at \$18.00 per share. The Company's registered common stock is traded on the New York Stock Exchange under the symbol "GHS."

On November 3, 2006, the underwriters of the Company's IPO exercised their option to purchase an additional 2,070,000 shares of common stock pursuant to the terms of the underwriting agreement. The total net proceeds from the IPO of 13,800,000 shares and this additional allotment of 2,070,000 shares, after deducting offering expenses and the underwriting discount, was \$261,605.

Follow-on Public Offering

On July 23, 2007, the Company completed its follow-on public offering of 18,700,000 shares of its common stock, including 1,700,000 shares sold pursuant to the exercise by the underwriters of their option, pursuant to the terms of the underwriting agreement, at a public offering price of \$18.45 per share. The total net proceeds from the follow-on public offering were approximately \$331,622.

Recently Issued Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 157, *Fair Value Measurements* ("SFAS No. 157"). SFAS No. 157 defines fair value, provides a market-based framework for measuring fair value, and expands disclosure requirements. SFAS No. 157 applies to other accounting pronouncements that require or permit fair value measurements. SFAS No. 157 does not require any new fair value measurements. SFAS No. 157 is initially effective for financial statements issued for fiscal years beginning after November 15, 2007, however the FASB provided a one year deferral for implementation of the standard for non-financial assets and liabilities. Accordingly, the Company's adoption of SFAS No. 157 in 2008 was primarily related to the valuation of its derivative instruments. The adoption of SFAS No. 157 decreased the value of the derivative instruments by \$3,300. The Company is currently evaluating the impact of this standard with respect to its effect on nonfinancial assets and liabilities.

GATEHOUSE MEDIA, INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements—(Continued)
(In thousands, except share and per share data)

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (“SFAS No. 159”). SFAS No. 159 permits companies to measure financial instruments and certain other items at fair value. The objective of this statement is to improve financial reporting by providing companies with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is expected to expand the use of fair value measurement for accounting for financial instruments. SFAS No. 159 is effective for financial statements issued as of the beginning of the first fiscal year that begins after November 15, 2007. The adoption of SFAS No. 159 did not have a material impact on the Company's consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *“Business Combinations”* (“SFAS No. 141(R)”), and SFAS No. 160, *“Noncontrolling Interests in Consolidated Financial Statements — an amendment of ARB No. 51”* (“SFAS 160”).

SFAS No. 141(R) significantly changes the accounting for business combinations. Under SFAS No. 141(R), an acquiring entity will be required to recognize all the assets acquired and liabilities assumed in a transaction at the acquisition-date at fair value with limited exceptions. SFAS No. 141(R) further changes the accounting treatment for certain specific items, including:

- Acquisition costs will be generally expensed as incurred;
- Acquired contingent liabilities will be recorded at fair value at the acquisition date and subsequently measured at either the higher of such amount or the amount determined under existing guidance for non-acquired contingencies;
- Restructuring costs associated with a business combination will be generally expensed subsequent to the acquisition date; and
- Changes in deferred tax asset valuation allowances and income tax uncertainties after the acquisition date generally will affect income tax expense.

SFAS No. 141(R) includes a substantial number of new disclosure requirements. SFAS No. 141(R) applies prospectively to the Company's business combinations for which the acquisition date is on or after January 1, 2009. The Company is currently evaluating the impact the adoption of SFAS No. 141(R) will have on its consolidated financial statements.

In March 2008, the FASB issued SFAS No. 161 *“Disclosures about Derivative Instruments and Hedging Activities - an amendment of FASB Statement No. 133”* (“SFAS No. 161”). The new standard requires additional disclosures regarding a company's derivative instruments and hedging activities by requiring disclosure of the fair values of derivative instruments and their gains and losses in a tabular format. It also requires disclosure of derivative features that are credit risk-related as well as cross-referencing within the notes to the financial statements to enable financial statement users to locate important information about derivative instruments, financial performance, and cash flows. SFAS No. 161 is effective for financial statements issued as of the beginning of the first fiscal year that begins after November 15, 2008, with early application encouraged. The principal impact from this standard will be to require the Company to expand its disclosures regarding derivative instruments.

(2) Share-Based Compensation

The Company recognized compensation cost for share-based payments of \$1,089 and \$1,107 during the three months ended March 31, 2008 and 2007, respectively. The income tax benefit related to share-based payments recognized in the statement of operations during the three months ended March 31, 2008 and 2007 was \$426 and \$433, respectively. The total compensation cost not yet recognized related to non-vested awards as of March 31, 2008 was \$8,586, which is expected to be recognized over a weighted average period of 2.4 years through October 2011.

(a) Restricted Share Grants

Edgar Filing: GateHouse Media, Inc. - Form 10-Q

Prior to the IPO, the Company had issued 792,500 RSGs to certain management investors pursuant to each investor's management stockholder agreement (the "Management Stockholder Agreements"). Under the Management Stockholder Agreements, RSGs vest by one-third on each of the third, fourth and fifth anniversaries from the grant date. Following the adoption of the GateHouse Media, Inc. Omnibus Stock Incentive Plan (the "Plan") in October 2006, an additional 268,680 RSGs were granted during the year ended December 31, 2006. During the year ended December 31, 2007 an additional 198,846 RSGs were granted to Company directors, management and employees, 105,453 of which were both granted and forfeited. During the three months ended March 31, 2008, an additional 184,063 RSGs were granted to Company management and employees. The majority of the RSGs issued under the Plan vest in increments of one-third on each of the first, second and third anniversaries of the grant date. In the event a grantee of an RSG is terminated by the Company without cause, a number of unvested RSGs immediately vest that would have vested under the normal vesting period on the next succeeding anniversary date following such termination. In the event an RSG grantee's employment with the Company is terminated without cause within twelve months after a change in control as defined in the applicable award agreement, all unvested RSGs become immediately vested at the termination date. During the period prior to the lapse and removal of the vesting restrictions, a grantee of an RSG will have all of the rights of a stockholder, including without limitation, the right to vote and the right to receive all dividends or other distributions. As a result, the RSGs are reflected as outstanding common stock; however, the unvested RSGs have been excluded from the calculation of basic earnings per share. With respect to Company employees, the value of the RSGs on the date of issuance is recognized as employee compensation expense over the vesting period or through the grantee's eligible retirement date, if shorter, with an increase to additional paid-in-capital.

As of March 31, 2008 and 2007, there were 1,101,567 and 1,059,380 RSGs, respectively, issued and outstanding with a weighted average grant date fair value of \$13.34 and, \$14.60 respectively. As of March 31, 2008, the aggregate intrinsic value of unvested RSGs was \$6,543. During the three months ended March 31, 2008, the aggregate fair value of vested RSGs was \$1,024.

RSG activity was as follows:

	Number of RSGs	Weighted-Average Grant Date Fair Value
Unvested at December 31, 2007	1,035,480	\$ 13.87
Granted	184,063	8.16
Vested	(116,990)	9.86
Forfeited	(986)	20.39
Unvested at March 31, 2008	1,101,567	\$ 13.34

8

GATEHOUSE MEDIA, INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements—(Continued)
(In thousands, except share and per share data)

SFAS No. 123R, *Share Based Payment* (“SFAS No. 123R”), requires the recognition of share-based compensation for the number of awards that are ultimately expected to vest. The Company’s estimated forfeitures are based on forfeiture rates of comparable plans. Estimated forfeitures will be reassessed in subsequent periods and the estimate may change based on new facts and circumstances.

(b) Valuation of Equity Securities Issued as Compensation

Prior to January 1, 2006, the Company recorded deferred share-based compensation, which consisted of the amounts by which the estimated fair value of the instrument underlying the grant exceeded the grant or exercise price, at the date of grant or other measurement date, if applicable and recognized the expense over the related service period. In determining the fair value of the Company’s common stock at the dates of grant prior to the IPO on October 25, 2006, GateHouse’s stock was not traded and, therefore, the Company was unable to rely on a public trading market for its stock prior to October 25, 2006.

On May 9, 2005, an affiliate of Fortress Investment Group LLC, FIF III Liberty Holdings LLC (“Parent”), FIF III Liberty Acquisitions, LLC, a wholly owned subsidiary of Parent and the Company entered into an agreement that provided for the merger of Merger Subsidiary with and into the Company, with the Company continuing as a wholly owned subsidiary of Parent. The Merger was completed on June 6, 2005. The Merger resulted in a new basis of accounting under SFAS No. 141, *Business Combinations* (“SFAS No. 141”).

The Company believes the Merger was on arms’ length terms and represented the fair value of its equity on June 6, 2005. In connection with the Merger, an appraisal of certain assets and liabilities was prepared by an unrelated valuation specialist and indicated a \$10.00 fair value per share for the Company’s common stock on that date.

As the Company began the process of preparing for its IPO, it developed a preliminary valuation using a discounted cash flow approach as of July 2006. The Company prepared this valuation using an estimated revenue growth rate based upon advertising rate increases considering consumer price index (“CPI”), implementation of additional online content and products and introduction of additional niche products. Additionally, the Company used an estimated annual EBITDA (adjusted to exclude certain non-cash and non-recurring items) growth rate based upon increases in revenues, cost reductions from the integration of acquisitions and improvements in cost from clustering and centralized services.

The Company estimated that the fair value of its common stock was \$15.01 per share based on a valuation using a discounted cash flow approach as of July 2006.

In preparing a discounted cash flow analysis, certain significant assumptions were made including:

- the rate of revenue growth, which is a function of, among other things, anticipated increases in advertising rates (CPI based), impacts of online strategy and the introduction of niche products;
- the rate of the Company’s Adjusted EBITDA growth, which is a function of, among other things, anticipated revenues, cost reductions and synergies from the integration of CP Media and Enterprise NewsMedia, LLC and ongoing cost savings resulting from a clustering strategy;
- estimated capital expenditures;
- the discount rate of 7.8%, based on the Company’s capital structure as of July 2006, the cost of equity, based on a risk free rate of 5.0% and a market risk of premium of 7.0% and the Company’s cost of debt; and
- a terminal multiple of between 9 and 10 times unlevered cash flow, based upon the Company’s anticipated growth prospects and private and public market valuations of comparable companies. The Company defines unlevered cash flow as Adjusted EBITDA less interest expense, cash taxes and capital expenditures.

The Company also considered the cash flow based trading multiples of comparable companies, including competitors and other similar publicly traded companies and sales transactions for comparable companies in its industry. Additionally, it considered the results of operations, market conditions, competitive position and the stock performance of these companies, as well as its financial forecasts, as updated, to develop its valuation. The Company determined the valuation performed by management to be the best available tool for projections of the final price range for purposes of valuing its stock-based compensation. The Company did not obtain contemporaneous valuations by unrelated valuation specialists at times other

than the Merger valuation because: (i) the Company's efforts were focused on, among other things, potential acquisitions and refinancing the Company and (ii) the Company did not consider it to be economic to incur costs for such valuations given the number of shares issued. The Company considered that it met its internal financial performance objectives as reflected in its valuation.

The Company retrospectively applied the valuation to share-based compensation relating to RSGs and common stock sales which occurred from January 2006 to May 2006. Therefore, the unaudited condensed consolidated financial statements reflect this valuation for grants made prior to the Company's IPO.

(3) Reclassifications

Certain amounts in the prior period consolidated financial statements have been reclassified to conform to the 2008 presentation.

(4) Acquisitions

(a) Acquisitions — 2008

During the three months ended March 31, 2008, the Company acquired 17 publications for an aggregate purchase price of approximately \$23,250. These were all attractive tuck-in acquisitions, in which the acquired businesses fit in extremely well with existing GateHouse clusters. The results of operations for the acquisitions have been included in the Company's condensed consolidated financial statements since the date of the acquisitions. The purchase price allocations for these acquisitions are as follows:

Current assets	\$ 1,812
Property, plant and equipment	5,686
Noncompete agreements	1,602
Advertising relationships	7,606
Subscriber relationships	1,760
Mastheads	3,261
Customer relationships	1,567
Goodwill	3,327
Total assets	26,621
Current liabilities	1,271
Long-term liabilities	2,100
Total liabilities	3,371
Net assets acquired	\$ 23,250

The Company continues to refine the fair value estimates in accordance with SFAS No. 141. As additional information becomes available and as actual values vary from these estimates, the underlying assets and liabilities may need to be adjusted, thereby impacting asset estimates, as well as goodwill.

For tax purposes, the amount of goodwill that is expected to be deductible is \$3,327 for the newspapers acquired during the three months ended March 31, 2008.

(b) Morris Publishing Group Newspaper Acquisitions — 2007

On November 30, 2007, the Company completed its acquisition of thirty seven publications from the Morris Publishing Group for an aggregate purchase price, including working capital of approximately \$121,213. The acquisition included fifteen daily and seven weekly newspapers, as well as fifteen shopper publications serving South Dakota, Florida, Kansas, Michigan, Missouri, Nebraska, Oklahoma and Tennessee. The rationale for the acquisition was primarily due to the attractive nature of the community newspaper assets with stable revenues and cash flows combined with cost saving opportunities available by clustering with the Company's nearby newspapers. The Company has accounted for these acquisitions under the purchase method of accounting. Accordingly, the cost of the acquisition has been allocated to the assets and liabilities assumed based upon their respective fair values. The results of operations for the Morris Publishing Group newspaper acquisitions have been included in the Company's condensed consolidated financial statements since the date of the acquisition.

The Company continues to refine the fair value estimates in accordance with SFAS No. 141. As additional information becomes available and as actual values vary from these estimates, the underlying assets and liabilities

may need to be adjusted, thereby impacting asset estimates, as well as goodwill. The following table summarizes the fair values of the assets acquired and liabilities assumed as of the acquisition date adjusted through March 31, 2008:

Current assets	\$ 9,414
Other assets	10,685
Property, plant and equipment	21,923
Advertising relationships	38,011
Subscriber relationships	8,341
Mastheads	12,244
Customer relationships	3,659
Goodwill	21,244
Total assets	125,521
Current liabilities	4,249
Long-term liabilities	59
Total liabilities	4,308
Net assets acquired	\$ 121,213

The Company obtained third party independent appraisals to assist in the determination of the fair values of the subscriber relationships, advertiser relationships and customer relationships acquired in connection with the Morris Publishing Group newspaper acquisition. The appraisals used an excess earnings approach, a form of the income approach, which values assets based upon associated estimated discounted cash flows. A static pool approach using historical attrition rates was used to estimate attrition rates of 7.5% for advertiser relationships, subscriber relationships and customer relationships for the Morris Publishing Group newspaper acquisition. The growth rate was estimated to be 0.5% and the discount rate was estimated to be 10.0% for subscriber relationships. The growth rate was estimated to be 2.3% and the discount rate was estimated to be 10.0% for advertiser relationships. The growth rate was estimated to be 2.0% and the discount rate was estimated to be 10% for customer relationships.

Estimated cash flows extend up to periods of approximately 30 years which considers that a majority of the acquired newspapers have been in existence over 50 years with many having histories over 100 years. The Company is amortizing the fair values of the subscriber and advertiser relationships over the periods at which 90% of the cumulative net cash flows are estimated to be realized. Therefore, the subscriber relationships, advertiser relationships and customer relationships are being amortized over 14, 15 and 15 years respectively, on a straight-line basis as no other discernable pattern of usage was more readily determinable.

For tax purposes, goodwill is deductible for the newspapers acquired from Morris Publishing Group as of March 31, 2008.

(c) Gannett Co., Inc. Newspaper Acquisitions—2007

On May 7, 2007, the Company completed its acquisition of thirteen publications from Gannett Co., Inc. for an aggregate purchase price, including working capital, of approximately \$418,961. The acquisition included four daily and three weekly newspapers, as well as six shopper publications serving Rockford, Illinois, Utica, New York, Norwich, Connecticut and Huntington, West Virginia. The rationale for the acquisition was primarily due to the attractive nature of the community newspaper assets with stable revenues and cash flows combined with cost saving opportunities available by clustering with the Company's nearby newspapers. The Company has accounted for these acquisitions under the purchase method of accounting. Accordingly, the cost of the acquisition has been allocated to the assets and liabilities assumed based upon their respective fair values. The results of operations for the Gannett Co., Inc. newspaper acquisitions have been included in the Company's condensed consolidated financial statements since the date of the acquisition.

The Company continues to refine the fair value estimates in accordance with SFAS No. 141. As additional information becomes available and as actual values vary from these estimates, the underlying assets and liabilities may need to be adjusted, thereby impacting asset estimates, as well as goodwill. The following table summarizes the fair values of the assets acquired and liabilities assumed as of the acquisition date adjusted through March 31, 2008:

Current assets	\$ 14,153
Other assets	75,632

Edgar Filing: GateHouse Media, Inc. - Form 10-Q

Property, plant and equipment	39,092
Advertising relationships	96,503
Subscriber relationships	26,964
Mastheads	24,450
Goodwill	147,232
Total assets	424,026
Total liabilities	5,065
Net assets acquired	\$ 418,961

The Company obtained third party independent appraisals to assist in the determination of the fair values of the subscriber and advertiser relationships acquired in connection with the Gannett Co., Inc. newspaper acquisition. The appraisals used an excess earnings approach, a form of the income approach, which values assets based upon associated estimated discounted cash flows. A static pool approach using historical attrition rates was used to estimate attrition rates of 7.0% for advertiser relationships and subscriber relationships for the Gannett Co., Inc. newspaper acquisition. Growth rates were estimated to be 2.5% and discount rates were estimated to be 8.5% for advertiser and subscriber relationships.

Estimated cash flows extend up to periods of approximately 30 years, which considers that a majority of the acquired newspapers have been in existence over 50 years with many having histories over 100 years. The Company is amortizing the fair values of the subscriber and advertiser relationships over the periods at which 90% of the cumulative net cash flows are estimated to be realized. Therefore, the subscriber and advertiser relationships are being amortized over 16 years, on a straight-line basis, as no other discernable pattern of usage was more readily determinable.

For tax purposes, goodwill is deductible for the newspapers acquired from Gannett Co., Inc. as of March 31, 2008.

(d) The Copley Press, Inc. Newspaper Acquisitions—2007

On April 11, 2007, the Company completed its acquisition of fifteen publications from The Copley Press, Inc. for an aggregate purchase price, including working capital, of approximately \$388,245. The acquisition included seven daily and two weekly newspapers as well as six shopper publications, serving areas of Ohio and Illinois. The rationale for the acquisition was primarily due to the attractive nature of the community newspaper assets with stable revenues and cash flows. In addition there were cost saving opportunities from margin improvement as well as clustering with the Company's nearby newspapers. The Company has accounted for these acquisitions under the purchase method of accounting. Accordingly, the cost of the acquisition has been allocated to the assets and liabilities based upon their respective fair values. The results of operations for The Copley Press, Inc. newspaper acquisitions have been included in the Company's condensed consolidated financial statements since the date of the acquisition.

The Company continues to refine the fair value estimates in accordance with SFAS No. 141. As additional information becomes available and as actual values vary from these estimates, the underlying assets and liabilities may need to be adjusted, thereby impacting asset estimates, as well as goodwill. The following table summarizes the fair values of the assets acquired and liabilities assumed as of the acquisition date adjusted through March 31, 2008:

Current assets	\$ 21,204
Other assets	18
Property, plant and equipment	71,114
Advertising relationships	95,466
Subscriber relationships	40,083
Mastheads	34,719
Goodwill	164,610
Total assets	427,214
Current liabilities	15,451
Long-term liabilities	23,518
Total liabilities	38,969
Net assets acquired	\$ 388,245

The Company obtained third party independent appraisals to assist in the determination of the fair values of the subscriber and advertiser relationships acquired in connection with the Copley Press, Inc. newspaper acquisition. The appraisals used an excess earnings approach, a form of the income approach, which values assets based upon associated estimated discounted cash flows. A static pool approach using historical attrition rates was used to estimate attrition rates of 7.0% for advertiser relationships and subscriber relationships for the Copley Press, Inc. newspaper acquisition. Growth rates were estimated to be 2.5% and discount rates were estimated to be 10.0% for advertiser

relationships and subscriber relationships.

Estimated cash flows extend up to periods of approximately 30 years which considers that a majority of the acquired newspapers have been in existence over 50 years with many having histories over 100 years. The Company is amortizing the fair values of the subscriber and advertiser relationships over the periods at which 90% of the cumulative net cash flows are estimated to be realized. Therefore, the subscriber and advertiser relationships are being amortized over 15 years on a straight-line basis as no other discernable pattern of usage was more readily determinable.

For tax purposes, the amount of goodwill that is expected to be deductible is \$106,914 for the newspapers acquired from the Copley Press, Inc. as of March 31, 2008.

(e) SureWest Directories Acquisition—2007

On February 28, 2007, the Company completed its acquisition of all the issued and outstanding capital stock of SureWest Directories from SureWest Communications for an aggregate purchase price, including working capital, of approximately \$110,156. SureWest Directories is engaged in the business of publishing yellow page and white page directories, as well as internet yellow pages through the www.sacramento.com website. The Company has become the publisher of the official directory of SureWest Telephone. The acquisition of SureWest Directories is the Company's platform acquisition into the local directories business. This was an attractive acquisition due to the stability and visibility of the businesses revenues and cash flows, minimal capital expenditure requirements and growth prospects for the Sacramento, California marketplace. The Company has accounted for this acquisition under the purchase method of accounting. Accordingly, the cost of the acquisition has been allocated to the assets and liabilities assumed based upon their respective fair values. The results of operations for SureWest Directories have been included in the Company's condensed consolidated financial statements since the date of the acquisition.

The following table summarizes the fair values of the assets acquired and liabilities assumed as of the acquisition date adjusted through March 31, 2008:

Current assets	\$ 15,041
Property, plant and equipment	51
Advertising relationships	40,955
Trade name	5,493
Publication rights	345
Goodwill	48,454
Total assets	110,339
Total liabilities	183
Net assets acquired	\$ 110,156

The Company obtained third party independent appraisals to assist in the determination of the fair values of the advertiser relationships acquired in connection with the SureWest Directories acquisition. The appraisals used an excess earnings approach, a form of the income approach, which values assets based upon associated estimated discounted cash flows. A static pool approach using historical attrition rates was used to estimate attrition rates of 12.0% for advertiser relationships for SureWest Directories. Growth rates were estimated to be 2.5% and the discount rate was estimated to be 11.0% for advertiser relationships.

Estimated cash flows extend up to periods of approximately 18 years which considers an attrition study which concluded that half of the existing advertiser base would be advertising in the Company's directories after six years. Survival curves were calculated based on this and other relevant information which resulted in the 12% attrition rate. The Company is amortizing the fair values of the advertiser relationships over the periods at which 90% of the cumulative net cash flows are estimated to be realized. Therefore, the advertiser relationships are being amortized over 12 years, on a straight-line basis as no other discernable pattern of usage was more readily determinable.

For tax purposes, the amount of goodwill that is expected to be deductible is \$48,453 for SureWest Directories as of March 31, 2008.

(f) Journal Register Company Newspaper Acquisitions—2007

On February 9, 2007, the Company completed its acquisition of eight publications from the Journal Register Company for an aggregate purchase price, including working capital, of approximately \$72,371. The acquisition included two daily and four weekly newspapers as well as two shopper publications serving southeastern Massachusetts. The rationale for the acquisition was primarily due to the attractive nature of the community newspaper assets with stable revenues and cash flows combined with the cost savings opportunities from clustering with the

Edgar Filing: GateHouse Media, Inc. - Form 10-Q

Company's other newspapers serving Massachusetts. The Company has accounted for these acquisitions under the purchase method of accounting. Accordingly, the cost of the acquisition has been allocated to the assets and liabilities assumed based upon their respective fair values. The results of operations for the Journal Register Company newspaper acquisitions have been included in the Company's condensed consolidated financial statements since the date of the acquisition.

10

GATEHOUSE MEDIA, INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements—(Continued)
(In thousands, except share and per share data)

The following table summarizes the fair values of the assets acquired and liabilities assumed as of the acquisition date adjusted through March 31, 2008:

Current assets	\$ 2,614
Property, plant and equipment	7,159
Advertising relationships	27,268
Subscriber relationships	6,397
Mastheads	4,393
Goodwill	25,357
Total assets	73,188
Total liabilities	817
Net assets acquired	\$ 72,371

The Company obtained third party independent appraisals to assist in the determination of the fair values of the subscriber and advertiser relationships acquired in connection with the Journal Register Company newspaper acquisition. The appraisals used an excess earnings approach, a form of the income approach, which values assets based upon associated estimated discounted cash flows. A static pool approach using historical attrition rates was used to estimate attrition rates of 7.0% for advertiser relationships and subscriber relationships for the Journal Register Company newspaper acquisitions. The growth rate was estimated to be 1.8% and the discount rate was estimated to be 10.0% for subscriber relationships. The growth rate was estimated to be 1.7% and the discount rate was estimated to be 10.0% for advertiser relationships.

Estimated cash flows extend up to periods of approximately 30 years which considers that a majority of the acquired newspapers have been in existence over 50 years with many having histories over 100 years. The Company is amortizing the fair values of the subscriber and advertiser relationships over the periods at which 90% of the cumulative net cash flows are estimated to be realized. Therefore, the subscriber and advertiser relationships are being amortized over 16 years on a straight-line basis as no other discernable pattern of usage was more readily determinable.

For tax purposes, the amount of goodwill that is expected to be deductible is \$25,356 for the newspapers acquired from the Journal Register Company as of March 31, 2008.

(g) Other Acquisitions—2007

During the year ended December 31, 2007, the Company acquired an additional 40 publications (excluding the acquisitions discussed above) for an aggregate purchase price of \$27,595. These were all attractive tuck-in acquisitions, in which the acquired businesses fit in extremely well with existing GateHouse clusters. The purchase price allocations for these acquisitions are as follows:

Current assets	\$ 2,630
Other assets	225
Property, plant and equipment	5,683
Noncompete agreements	1,577
Advertising relationships	7,432
Subscriber relationships	1,716
Mastheads	3,375
Customer relationships	967
Goodwill	8,662
Total assets	32,267
Current liabilities	2,519
Long-term liabilities	2,153
Total liabilities	4,672
Net assets acquired	\$ 27,595

The Company continues to refine the fair value estimates in accordance with SFAS No. 141. As additional information becomes available and as actual values vary from these estimates, the underlying assets and liabilities may need to be adjusted, thereby impacting intangible asset estimates, as well as goodwill.

Edgar Filing: GateHouse Media, Inc. - Form 10-Q

(h) Restructuring

As of March 31, 2008, the accrued restructuring balance was \$519, which relates to on-going obligations for employee termination agreements in connection with the acquisition of Morris Publishing Group newspapers, The Copley Press, Inc. newspapers, as well as the acquisitions of Messenger Post and Enterprise NewsMedia, LLC. During the three months ended March 31, 2008, the Company made payments of \$243 in connection with these obligations.

During the three months ended March 31, 2008, restructuring related expense, which is included in integration and reorganization costs on the accompanying statement of operations was \$731. This amount relates primarily to severance expense incurred in connection with the closing of two of the Company's printing facilities. During the three months ended March 31, 2008, the Company made payments of \$533 in connection with these obligations.

(i) Pro-Forma Results

The unaudited pro forma condensed consolidated statement of operations information for 2007, set forth below, presents the results of operations as if the acquisitions of the newspapers from The Copley Press, Inc. and the newspapers from Gannett Co., Inc. had occurred on January 1, 2007. These amounts are not necessarily indicative of future results or actual results that would have been achieved had the acquisitions occurred as of the beginning of such period. The unaudited pro forma condensed consolidated statements of operations data, set forth below, does not give pro forma effect to the following acquisitions which are not considered significant:

- the acquisition of all the issued and outstanding capital stock of SureWest Directories from SureWest Communications for an aggregate purchase price of approximately \$110,156 in February of 2007;
- the acquisition of eight publications from the Journal Register Company for an aggregate purchase price of approximately \$72,371 in February of 2007;
- the acquisition of 37 publications from Morris Publishing Group for an aggregate purchase price of \$121,213 in November of 2007; and
- the acquisition of 17 publications for an aggregate purchase price of \$23,250 during the three months ended March 31, 2008.

Three Months Ended March 31, 2007

Revenues	\$	153,832
Net loss from continuing operations	\$	(13,327)
Net loss per common share:		
Basic	\$	(0.35)
Diluted	\$	(0.35)

(5) Goodwill and Other Intangible Assets

Goodwill and intangible assets consisted of the following:

	Gross carrying amount	March 31, 2008 Accumulated amortization	Net carrying amount
Amortized intangible assets:			
Noncompete agreements	\$ 4,775	\$ 1,578	\$ 3,197
Advertiser relationships	572,747	54,052	518,695
Customer relationships	8,256	523	7,733
Subscriber relationships	148,379	13,157	135,222
Trade name	5,493	595	4,898
Publication rights	345	25	320
Total	\$ 739,995	\$ 69,930	\$ 670,065
Nonamortized intangible assets:			
Goodwill	\$ 698,886		
Mastheads	141,841		
Total	\$ 840,727		

December 31, 2007

Edgar Filing: GateHouse Media, Inc. - Form 10-Q

	Gross carrying amount	Accumulated amortization	Net carrying amount
Amortized intangible assets:			
Noncompete agreements	\$ 3,172	\$ 1,295	\$ 1,877
Advertiser relationships	565,663	45,097	520,566
Customer relationships	6,689	383	6,306
Subscriber relationships	146,751	10,859	135,892
Trade name	5,493	458	5,035
Publication rights	345	19	326
Total	\$ 728,113	\$ 58,111	\$ 670,002
Nonamortized intangible assets:			
Goodwill	\$ 701,852		
Mastheads	138,792		
Total	\$ 840,644		

The weighted average amortization periods for amortizable intangible assets are 4.5 years for noncompete agreements, 15.8 years for advertiser relationships, 13.9 years for customer relationships, 16.3 years for subscriber relationships, 10.0 years for trade names and 15.0 years for publication rights.

Amortization expense for the three months ended March 31, 2008 and 2007 was \$11,918 and \$5,652 respectively. Estimated future amortization expense as of March 31, 2008 is as follows:

For the year ending December 31:	
2008	\$ 36,186
2009	48,138
2010	48,138
2011	48,138
2012	48,138
Thereafter	441,327
Total	\$ 670,065

The changes in the carrying amount of goodwill for the period from January 1, 2008 to March 31, 2008 are as follows:

Balance at January 1, 2008	\$ 701,852
Additions	3,327
Goodwill impairment on discontinued operations	(1,113)
Other adjustments	(5,180)
Balance at March 31, 2008	\$ 698,886

The Company's date on which its annual impairment assessment is made is June 30. No impairment charge resulted from the assessment completed as of June 30, 2007. As of September 30, 2007 a review of impairment indicators was performed with the Company noting that its market capitalization continued to exceed its consolidated carrying value, and it was determined that an impairment analysis was not required. The Company determined that it should perform impairment testing of goodwill and indefinite lived intangible assets as of December 31, 2007, due to the declines in its stock price, market capitalization, revenue trends and other economic factors, which were most significant in the fourth quarter of 2007. During the second half of 2007, the Company and the newspaper industry experienced declines in classified advertising, primarily caused by economic trends. Also during this period, the Company's stock price declined, with its consolidated carrying value exceeding its market capitalization in the fourth quarter of 2007.

As of December 31, 2007, the fair values of the Company's reporting units for goodwill impairment testing and individual newspaper mastheads were estimated using the expected present value of future cash flows, recent industry transaction multiples and using estimates, judgments and assumptions that management believes were appropriate in the circumstances. While this method was consistent with the June 30, 2007, impairment analysis, revenue declines, increased volatility of operating performance and decreased market capitalization, primarily occurring during the fourth quarter, resulted in a reduction of the Company's estimated fair value between the June 30, 2007, and December

31, 2007, impairment analysis. The sum of the fair values of the reporting units was reconciled to the Company's then market capitalization (based upon the stock market price) plus an estimated control premium. The Company recorded an impairment charge related to goodwill of \$201,479 and a newspaper masthead impairment charge of \$24,514 in the fourth quarter of 2007 based on this comparison of reporting unit carrying value to fair value.

The 2007 impairment charge included amounts related to the Copley and Gannett operations which were purchased during 2007. While these operations were purchased during the year, the industry downturn, as well as the Company's revenue, stock price and enterprise value declines, predominately occurred in the second half of 2007 and the impact was considered for these reporting units.

It is reasonably possible that goodwill and/or masthead impairment charges could be incurred in the future based on industry and market factors present at that time. The Company is unable to estimate any possible future impairment charges at this time.

GATEHOUSE MEDIA, INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements—(Continued)
(In thousands, except share and per share data)

(6) Long-Term Debt and Short-Term Note Payable

On February 28, 2005, the Company entered into a Credit Agreement with a syndicate of financial institutions led by Wells Fargo Bank, National Association (the “2005 Credit Facility”). The 2005 Credit Facility provided for a \$280,000 principal amount term loan facility that matured in February 2012 and a \$50,000 revolving credit facility with a \$10,000 sub-facility for letters of credit that matured in February 2011. The 2005 Credit Facility was secured by a first-priority security interest in substantially all of the tangible and intangible assets of the Company and its subsidiaries.

All amounts outstanding under the 2005 Credit Facility were repaid with borrowings under the 2006 Credit Facility, as described below. In connection with the termination of the 2005 Credit Facility, the Company wrote off \$702 of deferred financing costs.

In connection with the Company’s acquisitions of CP Media and Enterprise NewsMedia, LLC, on June 6, 2006 GateHouse Media Holdco, Inc., a subsidiary of the Company (“Holdco”), GateHouse Media Operating, Inc., a subsidiary of Holdco (“Operating”) and certain of the Company’s other direct and indirect subsidiaries (together, the “Borrower”) entered into a financial arrangement with Wachovia Bank, National Association (the “2006 Credit Facility”). The 2006 Credit Facility consisted of a First Lien Credit Agreement (the “First Lien Facility”) and a Secured Bridge Credit Agreement (the “Second Lien Facility”). The First Lien Facility, which was amended on each of June 21, 2006 and October 11, 2006, provided for a \$570,000 term loan facility which matured on December 6, 2013 and a \$40,000 revolving credit facility including a \$15,000 sub-facility for letters of credit, that matured on June 6, 2013. The Second Lien Facility provided for a \$152,000 term loan facility that matured on June 6, 2014. The 2006 Credit Facility was secured by a first priority security interest in (i) all of the equity ownership or profits interest of Operating and its direct and indirect subsidiaries and (ii) substantially all of the tangible and intangible assets of Holdco, Operating and their respective direct and indirect subsidiaries. The obligations of the Borrower under the 2006 Credit Facility were guaranteed by Holdco, Operating and their respective direct and indirect subsidiaries.

Borrowings under the First Lien Facility bore interest, at the Borrower’s option, at a rate equal either to the LIBOR Rate or the Alternate Base Rate (each as defined in the First Lien Facility), in each case plus an applicable margin. The applicable margin for LIBOR Rate term loans and Alternate Base Rate term loans was fixed at 2.25% and 1.25%, respectively. The applicable margin for revolving loans was adjusted quarterly based upon Holdco’s Total Leverage Ratio (as defined in the First Lien Facility) and ranged from 1.5% to 2.0% in the case of LIBOR Rate loans and 0.5% to 1.0% in the case of Alternate Base Rate loans. A quarterly commitment fee ranging from 0.25% to 0.5% on unused revolving credit availability based on the ratio of Consolidated Indebtedness to Consolidated EBITDA (each as defined in the First Lien Facility), and a quarterly fee equal to the applicable margin for LIBOR Rate loans on the aggregate amount of outstanding letters of credit were also payable under the First Lien Facility.

Borrowings under the Second Lien Facility bore interest, at the Borrower’s option, at a rate equal to the LIBOR Rate or the Alternate Base Rate, in each case plus an applicable margin. The applicable margin for LIBOR Rate term loans and Alternate Base Rate term loans under the Second Lien Facility was fixed at 1.5% and 0.5%, respectively.

No principal payments were due on the term loan or the revolving credit portions of the 2006 Credit Facility until the applicable maturity date. However, the Borrower was required to prepay borrowings under the term loan facility in an amount equal to 50% of Holdco’s Excess Cash Flow (as defined in the First Lien Facility), except that no prepayments were required if Holdco’s Total Leverage Ratio (as defined in the First Lien Facility) was less than or equal to 6.0 to

1.0 at the end of any fiscal year. In addition, the Borrower was required to prepay borrowings under the term loan portion of the 2006 Credit Facility with certain asset disposition proceeds, cash insurance proceeds and condemnation or expropriation awards. The Borrower was also required to prepay borrowings with 50% of the net proceeds of certain equity issuances or 100% of the proceeds of certain debt issuances, except that no prepayment was required if Holdco's Total Leverage Ratio was less than 6.0 to 1.0. The 2006 Credit Facility also contained financial covenants that required Holdco to satisfy specified quarterly financial tests and which also contained customary covenants and events of default.

GATEHOUSE MEDIA, INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements—(Continued)
(In thousands, except share and per share data)

In October 2006, using a portion of the proceeds from the Company's IPO, the Borrower repaid in full and terminated the \$152,000 Second Lien Facility. In addition, a portion of the net proceeds of the Company's IPO was used to pay down \$12,000 of the \$570,000 then outstanding under the First Lien Facility, and to repay in full the outstanding balance of \$21,300 under the \$40,000 revolving credit portion of the First Lien Facility.

In connection with the termination of the \$152,000 Second Lien Facility and the \$12,000 reduction in borrowing capacity on the First Lien Facility, the Company wrote off \$1,384 of deferred financing costs.

On February 27, 2007, the Borrower amended and restated the 2006 Credit Agreement (as amended, the "2007 Credit Facility"). The 2007 Credit Facility provides for a \$670,000 term loan facility which matures in August 2014 and a \$40,000 revolving credit facility including a \$15,000 sub-facility for letters of credit and a \$10,000 swingline facility which matures in February 2014. Under the 2007 Credit Facility, up to an additional \$250,000 was available until August 2007 for borrowing under a delayed draw term loan.

The 2007 Credit Facility is secured by a first priority security interest in (i) all of the present and future equity ownership or profits interest of Operating and its direct and indirect subsidiaries, (ii) 66% of the voting stock (and 100% of the nonvoting stock) of certain present and future foreign subsidiaries and (iii) substantially all of the tangible and intangible assets of Holdco, Operating and their respective present and future subsidiaries. In addition, the loans and other obligations of the Borrower under the 2007 Credit Facility are guaranteed by Holdco, Operating and their present and future direct and indirect subsidiaries.

No principal payments are due on the term or the revolving credit portions of the 2007 Credit Facility until the applicable maturity date. However, the Borrower is required to make prepayments under the term loan facility, and/or to collateralize letter of credit obligations, under specified conditions, from excess cash flow and from the proceeds of asset dispositions, issuances of debt and equity and insurance and condemnation awards.

Borrowings under the 2007 Credit Facility bear interest, at the Borrower's option, at a rate equal to the LIBOR Rate or the Alternate Base Rate (each as defined in the 2007 Credit Facility), plus an applicable margin. The applicable margin for revolving loans under the 2007 Credit Facility is adjusted quarterly based upon Holdco's Total Leverage Ratio (as defined in the 2007 Credit Facility). The applicable margin for revolving loans ranges from 1.50% to 2.00% in the case of LIBOR Rate loans and 0.50% to 1.00% in the case of Alternate Base Rate loans. Prior to the consummation of the First Amendment, as discussed below, the applicable margin for LIBOR Rate term loans and Alternate Base Rate term loans was 1.75% and 0.75%, respectively, if credit ratings for the 2007 Credit Facility from Moody's Investors Service Inc. and Standard & Poor's Ratings Services were at least B1 and B+, respectively, and otherwise was 2.00% and 1.00%, respectively. A quarterly commitment fee ranging from 0.25% and 0.5% of the unused portion of the revolving loan facility based on the ratio of Consolidated Indebtedness to Consolidated EBITDA (each as defined in the 2007 Credit Facility), and a quarterly fee equal to the applicable margin for LIBOR Rate loans on the aggregate amount of outstanding letters of credit are also payable under the 2007 Credit Facility.

The 2007 Credit Facility contains a financial covenant which requires Holdco to maintain a Total Leverage Ratio of less than or equal to 6.5 to 1.0 at any time an extension of credit is outstanding under the revolving credit portion of the facility. The 2007 Credit Facility also contains covenants customarily found in loan agreements for similar transactions, including restrictions on the Borrower's ability to incur indebtedness (which is generally permitted so long as Holdco maintains a pro forma Total Leverage Ratio of less than 6.5 to 1.0), create liens on assets, engage in certain lines of business, engage in mergers or consolidations, dispose of assets, make investments or acquisitions, engage in transactions with affiliates, enter into sale leaseback transactions, enter into negative pledges or pay

dividends or make other restricted payments (except that Holdco is permitted to (i) make restricted payments (including quarterly dividends) so long as, after giving effect to any such restricted payment, Holdco's Fixed Charge Coverage Ratio (as defined in the 2007 Credit Facility) is equal to or greater than 1.0 to 1.0 and it would be permitted under the 2007 Credit Facility to incur an additional \$1.00 of debt) and (ii) make restricted payments of proceeds of asset dispositions to the Company to the extent such proceeds are not required to prepay borrowings under the 2007 Credit Facility and/or cash collateralize letter of credit obligations, provided that such proceeds are used to prepay borrowings under the Company's credit facilities used to finance acquisitions). The Borrower, in certain limited circumstances, may also designate subsidiaries as "unrestricted subsidiaries" which are not subject to the covenant restrictions in the 2007 Credit Facility. The 2007 Credit Facility contains customary events of default. The Company is in compliance with these covenants as of March 31, 2008.

On April 11, 2007, the Company entered into a Bridge Facility with Wachovia Investment Holdings, LLC acting as administrative agent (the "2007 Bridge Facility"). The 2007 Bridge Facility, which was repaid by the Company in full in July 2007, provided for a \$300,000 term loan facility that matured on April 11, 2015. Borrowings under the 2007 Bridge Facility bore interest, at the Company's option, at a floating rate equal to the LIBOR Rate or the Base Rate (each as defined in the 2007 Bridge Facility), plus an applicable margin. The applicable margin for LIBOR Rate term loans and Base Rate term loans was 1.50% and 0.50%, respectively. The 2007 Bridge Facility was secured by a first priority interest in all of the capital stock of Holdco owned by the Company and contained customary covenants and events or default. In connection with its repayment of the 2007 Bridge Facility, the Company wrote off \$2,240 of deferred financing costs.

On May 7, 2007, the Borrower amended the 2007 Credit Facility pursuant to a First Amendment (the "First Amendment"). The First Amendment provided for a \$275,000 incremental increase in the term loan available under the 2007 Credit Facility pursuant to an Incremental Term Facility. The \$275,000 incremental term loan facility matures in August 2014. Pursuant to the First Amendment, the applicable margin for the initial \$670,000 term loan facility under the 2007 Credit Facility was increased to 2.00% for LIBOR Rate term loans and 1.00% for Alternate Base Rate term loans, which margin is not adjustable based upon Borrower's credit rating. Interest on the incremental term loan portion of the 2007 Credit Facility accrues, at the option of the Borrower, at a rate equal to the LIBOR Rate or the Alternate Base Rate, plus an applicable margin. The applicable margin for LIBOR Rate incremental term loans and Alternate Base Rate incremental term loans is (i) 2.00% and 1.00%, respectively, if the corporate family ratings and corporate credit ratings of Operating by Moody's Investor Service Inc. and Standard & Poor's Rating Services, are at least B1 and B+, respectively, in each case with stable outlook, or (ii) 2.25% and 1.25% otherwise. The First Amendment also provides that term loans under the 2007 Credit Facility are also subject to a "most favored nation" interest provision that (i) increases the interest rate margin to a rate that is 0.25% less than the highest margin of any future incremental term loan borrowings under the 2007 Credit Facility and (ii) provides that after any such increase, no reductions in the margin based on credit ratings will be permitted. Any voluntary or mandatory repayment of the First Amendment term loans made with the proceeds of a new term loan entered into for the primary purpose of benefiting from a margin that is less than the margin applicable as a result of the First Amendment are subject to a 1.00% prepayment premium.

As of March 31, 2008, a total of \$670,000, \$250,000, \$275,000 and \$21,500 was outstanding under the term loan facility, the delayed draw term loan, the incremental term loan facility and the revolving credit facility portions of the 2007 Credit Facility, respectively. As of March 31, 2008, the Company had availability under the revolving Credit Facility of approximately \$14,207.

In connection with the acquisition of Morris Publishing Group, the Company committed to pay a portion of the purchase price under a \$10,000 promissory note. The note is due on November 30, 2008 and bears interest at the rate of 8% per annum, payable on February 28, 2008, May 30, 2008, August 30, 2008, and November 30, 2008.

On February 15, 2008, GateHouse Media Intermediate Holdco, Inc., a subsidiary of GateHouse Media Holdco II, Inc. ("Holdco II") and GateHouse Media (collectively, the "Bridge Borrower") entered into a Bridge Credit Agreement (the

“2008 Bridge Facility”) with Barclays Capital, as syndication agent, sole arranger and book runner (“Barclays”).

The 2008 Bridge Facility provides for a \$20,600 term loan facility that matures on May 15, 2008, subject to extensions through August 15, 2009. The 2008 Bridge Facility is secured by a first priority security interest in all present and future capital stock of Holdco owned by Holdco II and all proceeds thereof.

Borrowings under the 2008 Bridge Facility bear interest at a floating rate equal to the LIBOR Rate (as defined in the 2008 Bridge Facility), plus an applicable margin. During the first three months of the facility, until May 15, 2008 (the “First Pricing Step-Up Date”), the applicable margin is 8.00%. After the First Pricing Step-Up Date and until the nine month anniversary of the First Pricing Step-Up Date (February 15, 2009, the “Second Pricing Step-Up Date”), the applicable margin is 10.00%. After the Second Pricing Step-Up Date and until the maturity date, the applicable margin is 12.00%.

No principal payments are due on the 2008 Bridge Facility until the maturity date. The Bridge Borrower is required to prepay borrowings under the 2008 Bridge Facility with (a) 100% of the net cash proceeds from the issuance or incurrence of debt by Holdco II and its restricted subsidiaries, (b) 100% of the net cash proceeds from any issuances of equity by Holdco II or any of its restricted subsidiaries and (c) 100% of the net cash proceeds of asset sales and dispositions by Holdco II and its subsidiaries, except, in the case of each of clause (a), (b) and (c), to the extent such required prepayment would contravene any provision of, or cause a violation of or default under, the 2007 Credit Facility, in which case such mandatory prepayment shall not be required. The Bridge Borrower may voluntarily prepay the 2008 Bridge Facility at any time.

The 2008 Bridge Facility contains affirmative and negative covenants applicable to Holdco II and, in limited circumstances, GateHouse Media and Holdco II’s restricted subsidiaries, customarily found in loan agreements for similar transactions, including restrictions on their ability to incur indebtedness, create liens on assets, engage in certain lines of business; engage in mergers or consolidations, dispose of assets, make investments or acquisitions; engage in transactions with affiliates, enter into sale leaseback transactions, enter into negative pledges or pay dividends or make other restricted payments (except that the Bridge Borrower is permitted to make restricted payments during the first 12 months of the 2008 Bridge Facility (including quarterly dividends) so long as, after giving effect to any such restricted payment, the Bridge Borrower would not be in default under the 2008 Bridge Facility). The 2008 Bridge Facility contains customary events of default, including defaults based on a failure to pay principal, reimbursement obligations, interest, fees or other obligations, subject to specified grace periods; a material inaccuracy of representations and warranties; breach of covenants; failure to pay other indebtedness and cross-accelerations; a Change of Control (as defined in the 2008 Bridge Facility); events of bankruptcy or insolvency; material judgments; failure to meet certain requirements with respect to ERISA; and impairment of collateral. Certain of the foregoing covenants are only applicable to the extent they do not contravene any provision of or cause a violation of or default under the 2007 Credit Facility.

In connection with the 2008 Bridge Facility, Holdco II entered into a Pledge Agreement in favor of Barclays, pursuant to which Holdco II pledged certain assets for the benefit of the secured parties as collateral security for the payment and performance of its obligations under the Bridge Agreement. The pledged assets include, among other things (i) all present and future capital stock or other membership, equity, ownership or profits interest of GateHouse Media in all of its direct domestic restricted subsidiaries and (ii) 65% of the voting stock (and 100% of the nonvoting stock) of all of its present and future first-tier foreign subsidiaries.

As of March 31, 2008, a total of \$20,291 was outstanding under the 2008 Bridge Facility.

(7) Derivative Instruments

The Company uses certain derivative financial instruments to hedge the aggregate risk of interest rate fluctuations with respect to its long-term debt, which requires payments based on a variable interest rate index. These risks

include: increases in debt rates above the earnings of the encumbered assets, increases in debt rates resulting in the failure of certain debt ratio covenants, increases in debt rates such that assets can no longer be refinanced, and earnings volatility.

In order to reduce such risks, the Company primarily uses interest rate swap agreements to change floating-rate long term debt to fixed-rate long-term debt. This type of hedge is intended to qualify as a “cash-flow hedge” under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* (“SFAS No. 133”). For these instruments, the effective portion of the change in the fair value of the derivative is recorded in accumulated other comprehensive income in the Condensed Consolidated Statement of Stockholders’ Equity and recognized in the Condensed Consolidated Statement of Operations in the same period in which the hedged transaction impacts earnings. The ineffective portion of the change in the fair value of the derivative is immediately recognized in earnings.

GATEHOUSE MEDIA, INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements—(Continued)
(In thousands, except share and per share data)

On June 23, 2005, the Company entered into and designated an interest rate swap based on a notional amount of \$300,000 maturing June 2012 as a cash flow hedge. Under the swap agreement, the Company receives interest equivalent to one month LIBOR and pays a fixed rate of 4.135%, with settlements occurring monthly. For the period from January 1, 2006 through February 19, 2006, the hedge was deemed ineffective and, as a result, the change in the fair value of the derivative of \$2,605 was recognized through earnings. On February 20, 2006, the Company redesignated the same interest rate swap as a cash flow hedge for accounting purposes. The fair value of the swap decreased by \$1,082, net, of which (\$1,472) was recognized through earnings and a \$234 increase in fair value net of income taxes of \$156 was recognized through accumulated other comprehensive income. At December 31, 2006, the swap no longer qualified as an effective hedge. Therefore, the balance in accumulated other comprehensive income will be reclassified into earnings over the life of the hedged item. On January 1, 2007, the Company redesignated the same interest rate swap as a cash flow hedge for accounting purposes. During the three months ended March 31, 2008, the fair value of the swap decreased by \$11,078, net, of which \$546 was recognized through earnings and a \$6,409 decrease in fair value, net of income taxes of \$4,123 was recognized through accumulated other comprehensive income. During the three months ended March 31, 2008, \$9, net of taxes of \$6 was amortized and recognized through earnings relating to the balance in accumulated other comprehensive income as of December 31, 2006. The estimated net amount to be reclassified into earnings during the next twelve months is \$68.

In connection with the 2006 Financing, the Company entered into and designated an interest rate swap based on a notional amount of \$270,000 maturing July 2011 as a cash flow hedge. Under the swap agreement, the Company receives interest equivalent to one month LIBOR and pays a fixed rate of 5.359%, with settlements occurring monthly. On December 31, 2006, the swap was dedesignated and was redesignated on January 1, 2007. Therefore, the balance in accumulated other comprehensive income will be reclassified into earnings over the life of the hedged item. During the three months ended March 31, 2008, the effective portion of the decrease in fair value of the swap of \$5,051, net of income taxes of \$3,250, was recognized through accumulated other comprehensive income. During the three months ended March 31, 2008, \$172 net of taxes of \$114 was amortized and recognized through earnings relating to the balance in accumulated other comprehensive income as of December 31, 2006. The estimated net amount to be reclassified into earnings during the next twelve months is \$1,313.

In connection with the 2007 Credit Facility, the Company entered into and designated an interest rate swap based on a notional amount of \$100,000 maturing September 2014, as a cash flow hedge. Under the swap agreement, the Company receives interest equivalent to one-month LIBOR and pays a fixed rate of 5.14%, with settlements occurring monthly. During the three months ended March 31, 2008, the fair value of the swap decreased by \$4,040, net, of which (\$9) was recognized through earnings and a \$2,464 decrease in fair value net of income taxes of \$1,585, was recognized through accumulated other comprehensive income.

In connection with the 2007 Credit Facility, the Company entered into and designated an interest rate swap based on a notional amount of \$250,000 maturing September 2014, as a cash flow hedge. Under the swap agreement, the Company receives interest equivalent to one-month LIBOR and pays a fixed rate of 4.971%, with settlements occurring monthly. During the three months ended March 31, 2008, the fair value of the swap decreased by \$10,273, net, of which (\$5) was recognized through earnings and a \$6,254 decrease in fair value, net of income taxes of \$4,024, was recognized through accumulated other comprehensive income.

In connection with the First Amendment to the 2007 Credit Facility, the Company entered into and designated an interest rate swap based on a notional amount of \$200,000 maturing September 2014, as a cash flow hedge. Under the swap agreement, the Company receives interest equivalent to one-month LIBOR and pays a fixed rate of 5.079% with settlements occurring monthly. During the three months ended March 31, 2008 the fair value of the swap decreased by \$8,142, net, of which (\$49) was recognized through earnings and a \$4,984 decrease in fair value, net of income taxes

of \$3,207 was recognized through accumulated other comprehensive income.

During September, 2007, the Company entered into and designated an interest rate swap based on a notional amount of \$75,000 maturing September 2014, as a cash flow hedge. Under the swap agreement, the Company receives interest equivalent to one-month LIBOR and pays a fixed rate of 4.941% with settlements occurring monthly. During the three months ended March 31, 2008, the fair value of the swap decreased by \$3,209, net, of which (\$35) was recognized through earnings and a \$1,974 decrease in fair value, net of income taxes of \$1,270 was recognized through accumulated other comprehensive income.

A valuation allowance was recognized during the three months ended March 31, 2008 to offset the additional deferred tax assets established as a result of the change in fair value of the swap instruments in the amount of \$17,351 for a net tax effect of \$0.

(8) Related Party Transactions

As of March 31, 2008, Fortress Investment Group LLC and its affiliates ("Fortress") beneficially owned approximately 41.9% of the Company's outstanding common stock.

In addition, the Company's Chairman, Wesley Edens, is also the Chief Executive Officer and Chairman of the board of directors of Fortress Investment Group LLC. The Company does not pay Mr. Edens a salary or any other form of compensation.

Affiliates of Fortress Investment Group LLC own \$126,000 of the \$1,216,500 2007 Credit Facility as of March 31, 2008. These amounts were purchased on arms' length terms in secondary market transactions.

Affiliates of Fortress Investment Group LLC own \$10,300 of the \$20,600 2008 Bridge Facility as of March 31, 2008. These amounts were purchased directly from Barclays.

On October 24, 2006, the Company entered into an Investor Rights Agreement with Parent, an affiliate of Fortress, our principal and controlling stockholder. The Investor Rights Agreement provides Parent with certain rights with respect to the nomination of directors to the Company's board of directors as well as registration rights for securities of the Company owned by Fortress Investment Group LLC.

The Investor Rights Agreement requires the Company to take all necessary or desirable action within its control to elect to its board of directors so long as Fortress beneficially owns (i) more than 50% of the voting power of the Company, four directors nominated by FIG Advisors LLC, an affiliate of Fortress Investment Group LLC ("FIG Advisors"), or such other party nominated by Fortress; (ii) between 25% and 50% of the voting power of the Company, three directors nominated by FIG Advisors; (iii) between 10% and 25% of the voting power of the Company, two directors nominated by FIG Advisors; and (iv) between 5% and 10% of the voting power of the Company, one director nominated by FIG Advisors. In the event that any designee of FIG Advisors shall for any reason cease to serve as a member of the board of directors during his term of office, FIG Advisors will be entitled to nominate an individual to fill the resulting vacancy on the board of directors.

Pursuant to the Investor Rights Agreement, the Company has granted Parent, for so long as it or its permitted transferees beneficially own an amount of the Company's common stock at least equal to 5% or more of the Company's common stock issued and outstanding immediately after the consummation of its IPO (a "Registrable Amount"), "demand" registration rights that allow Parent at any time after six months following the consummation of its IPO to request that the Company register under the Securities

GATEHOUSE MEDIA, INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements—(Continued)
(In thousands, except share and per share data)

Act of 1933, as amended, an amount equal to or greater than a Registrable Amount. Parent is entitled to an aggregate of four demand registrations. The Company is not required to maintain the effectiveness of the registration statement for more than 60 days. The Company is also not required to effect any demand registration within six months of a “firm commitment” underwritten offering to which the requestor held “piggyback” rights and which included at least 50% of the securities requested by the requestor to be included. The Company is not obligated to grant a request for a demand registration within four months of any other demand registration and may refuse a request for demand registration if, in the Company’s reasonable judgment, it is not feasible for the Company to proceed with the registration because of the unavailability of audited financial statements.

For as long as Parent and its permitted transferees beneficially own an amount of the Company’s common stock at least equal to 1% of the Company’s common stock issued and outstanding immediately after the consummation of its IPO, Parent also has “piggyback” registration rights that allow Parent to include the shares of common stock that Parent and its permitted transferees own in any public offering of equity securities initiated by the Company (other than those public offerings pursuant to registration statements on Forms S-4 or S-8) or by any of the Company’s other stockholders that may have registration rights in the future. The “piggyback” registration rights of Parent are subject to proportional cutbacks based on the manner of the offering and the identity of the party initiating such offering.

The Company has granted Parent and its permitted transferees for as long as Fortress beneficially owns a Registrable Amount, the right to request shelf registrations on Form S-3, providing for an offering to be made on a continuous basis, subject to a time limit on the Company’s efforts to keep the shelf registration statement continuously effective and the Company’s right to suspend the use of a shelf registration prospectus for a reasonable period of time (not exceeding 60 days in succession or 90 days in the aggregate in any 12-month period) if the Company determines that certain disclosures required by the shelf registration statement would be detrimental to the Company or the Company’s stockholders.

The Company has agreed to indemnify Parent and its permitted transferees against any losses or damages resulting from any untrue statement or omission of material fact in any registration statement or prospectus pursuant to which Parent and its permitted transferees sells shares of the Company’s common stock, unless such liability arose from Parent misstatement or omission, and Parent has agreed to indemnify the Company against all losses caused by its misstatements or omissions. The Company will pay all expenses incident to registration and Fortress will pay its respective portions of all underwriting discounts, commissions and transfer taxes relating to the sale of its shares under such a registration statement.

(9) Income Taxes

The Company performs a quarterly assessment of its deferred tax assets and liabilities. SFAS No. 109, *Accounting for Income Taxes* (“SFAS No. 109”) limits the ability to use future taxable income to support the realization of deferred tax assets when a company has experienced a history of losses even if future taxable income is supported by detailed forecasts and projections.

In assessing the realizability of deferred tax assets, the Company considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. The Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. The Company reported pretax losses for the year ended December 31, 2007 and the three months ended March 31, 2008. The Company concluded during the fourth quarter of 2006 and 2007 that it was more likely than not that the Company would not fully realize the benefits of its existing deductible differences. The Company concluded that during the first quarter of 2008 an increase to the valuation allowance of \$30,325 would be necessary to offset additional deferred tax assets. Of this amount, \$12,944 was recognized through the income statement and \$17,381 was recognized through accumulated other comprehensive income.

The realization of the remaining deferred tax assets is primarily dependent on the scheduled reversals of deferred taxes. Any changes in the scheduled reversals of deferred taxes may require an additional valuation allowance against the remaining deferred tax assets. Any increase or decrease in the valuation allowance could result in an increase or decrease in income tax expense in the period of adjustment.

The computation of the annual expected effective tax rate at each interim period requires certain estimates and assumptions including, but not limited to, the expected operating income for the year, projections of the proportion of income (or loss), permanent and temporary differences, including purchase accounting adjustments and the likelihood of recovering deferred tax assets generated in the current year. The accounting estimates used to compute the provision for income taxes may change as new events occur, more experience is acquired, or as additional information is obtained. To the extent that the estimated annual effective tax rate changes during a quarter, the effect of the change on prior quarters is included in tax expense for the current quarter.

For the three months ended March 31, 2008, the expected Federal tax benefit at 34% is \$8,948. The difference between the expected tax rate and the effective tax rate is primarily attributable to the tax effect of the federal valuation allowance of \$11,241.

The Company and its subsidiaries file a U.S. federal consolidated income tax return. The U.S. federal and state statute of limitations generally remains open for the 2004 tax year and beyond.

The Company adopted the provisions of FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes, an interpretation of SFAS No. 109* (“FIN 48”), effective January 1, 2007. There was no impact as a result of the implementation of FIN 48. The Company does not anticipate significant increases or decreases in our uncertain tax positions within the next twelve months. The Company recognizes penalties and interest relating to uncertain tax positions in the provision for income taxes. The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense. As of December 31, 2007 and March 31, 2008, the Company had unrecognized tax benefits of approximately \$4,518 and \$4,480, respectively. The Company did not record significant amounts of interest and penalties related to unrecognized tax benefits.

Edgar Filing: GateHouse Media, Inc. - Form 10-Q

The Company records tax assets and liabilities at the date of a purchase business combination, based on management's best estimate of the ultimate tax basis that will be accepted by the tax authority, and liabilities for prior tax returns of the acquired entity should be based on the Company's best estimate of the ultimate settlement in accordance with Emerging Issues Task Force ("EITF") Issue No. 93-7, *Uncertainties Related to Income Taxes in a Purchase Business Combination*. At the date of a change in the Company's best estimate of the ultimate tax basis of acquired assets, liabilities, and carryforwards, and at the date that the tax basis is settled with the tax authority, tax assets and liabilities should be adjusted to reflect the revised tax basis and the amount of any settlement with the tax authority for prior-year income taxes. Similarly, at the date of a change in the Company's best estimate of items relating to the acquired entity's prior tax returns, and at the date that the items are settled with the tax authority, any liability previously recognized should be adjusted. The effect of those adjustments should be applied to increase or decrease the remaining balance of goodwill attributable to that acquisition. If goodwill is reduced to zero, the remaining amount of those adjustments should be applied initially to reduce to zero other noncurrent intangible assets related to that acquisition, and any remaining amount should be recognized in earnings.

(10) Pension and Postretirement Benefits

The Company maintains a pension plan and several postretirement medical and life insurance plans which cover certain employees. The Company uses the accrued benefit actuarial method and best estimate assumptions to determine pension costs, liabilities and other pension information for defined benefit plans.

The following provides information on the pension plan and postretirement medical and life insurance plans for the three months ended March 31, 2008 and 2007.

	Three Months Ended March 31, 2008		Three Months Ended March 31, 2007	
	Pension	Postretirement	Pension	Postretirement
Components of Net Periodic Benefit				
Costs:				
Service cost	\$ 128	\$ 126	\$ 160	\$ 108
Interest cost	323	247	308	143
Expected return on plan assets	(358)	—	(345)	—
Special termination benefits	69	—	—	—
Total	\$ 162	\$ 373	\$ 123	\$ 251

During the three months ended March 31, 2008 and 2007, the Company recognized a total of \$535, and \$374 in pension and postretirement benefit expense, respectively.

The following assumptions were used in connection with the Company's actuarial valuation of its defined benefit pension and postretirement plans during the three months ended March 31, 2008:

	Pension	Postretirement
Weighted average discount rate	6.4%	6.5%
Rate of increase in future compensation levels	3.5%	— %
Expected return on assets	8.5%	— %
Current year trend	—	8.5% - 9.5%
Ultimate year trend	—	5.0% - 5.5%
Year of ultimate trend	—	2012

(11) Assets Held for Sale

As of March 31, 2008 and December 31, 2007, the Company intended to dispose of various assets which are classified as held for sale on the condensed consolidated balance sheet in accordance with SFAS No. 144, *Accounting for Impairment or Disposal of Long-Lived Assets* ("SFAS No. 144").

The following table summarizes the major classes of assets and liabilities held for sale at March 31, 2008 and December 31, 2007:

	March 31, 2008	December 31, 2007
Assets held for sale:		
Accounts receivable, net	\$ 55	\$ 1,314
Inventory	22	152
Prepaid expenses and other current assets	14	74
Total assets held for sale	\$ 91	\$ 1,540
Long-term assets held for sale:		
Property, plant and equipment, net	\$ 14,961	\$ 15,842
Intangible assets	964	7,422
Total long-term assets held for sale	\$ 15,925	\$ 23,264

Liabilities held for sale	\$	40	\$	623
---------------------------	----	----	----	-----

During the three months ended March 31, 2007, the Company recorded a charge to operations of \$119, related to the impairment of property, plant and equipment which was classified as held for sale as of March 31, 2007.

(12) Fair Value Measurement

The Company measures and records in the accompanying condensed consolidated financial statements certain assets and liabilities at fair value on a recurring basis. SFAS No. 157 establishes a fair value hierarchy for those instruments measured at fair value that distinguishes between assumptions based on market data (observable inputs) and the Company's own assumptions (unobservable inputs).

GATEHOUSE MEDIA, INC. AND SUBSIDIARIES
Notes to Unaudited Condensed Consolidated Financial Statements—(Continued)
(In thousands, except share and per share data)

The following table provides fair value measurement information for the Company's major categories of financial assets and liabilities measured on a recurring basis:

Fair Value Measurements at Reporting Date Using			
Quoted Prices			
in			
Active	Significant	Significant	March 31, 2008
Markets for	Other	Unobservable	
Identical	Observable	Inputs	
Assets	Inputs	Inputs	
(Level 1)	(Level 2)	(Level 3)	
Liabilities			
Derivatives (1)	\$	89,145	\$ 89,145

(1) Derivative assets and liabilities include interest rate swaps which are measured using observable quoted prices for similar assets and liabilities. The calculation of fair value of the Company's derivatives in a liability position includes the Company's own credit risk.

Certain assets and liabilities are measured at fair value on a non-recurring basis and are not currently required to be presented on an interim basis. The FASB deferred implementation of SFAS 157 for certain non-financial assets and liabilities until 2009.

(13) Commitments and Contingencies

The Company becomes involved from time to time in claims and lawsuits incidental to the ordinary course of its business, including such matters as libel, invasion of privacy, intellectual property infringement, wrongful termination actions, and complaints alleging discrimination. In addition, the Company is involved from time to time in governmental and administrative proceedings concerning employment, labor, environmental and other claims. Insurance coverage mitigates potential loss for certain of these matters. Historically, such claims and proceedings have not had a material effect upon the Company's condensed consolidated results of operations or financial condition. While the Company is unable to predict the ultimate outcome of any currently outstanding legal actions, it is the opinion of the Company's management that it is a remote possibility that the disposition of these matters would have a material adverse effect upon the Company's condensed consolidated results of operations, financial condition or cash flow.

(14) Discontinued Operations

During the three months ended March 31, 2008, the Company completed its sale of eight publications (initially acquired in the Morris Publishing Group newspaper acquisition) for an aggregate purchase price of approximately \$9,500. Additionally, during the three months ended March 31, 2008, the Company entered into an agreement to sell three publications in Globe, Arizona for an aggregate price of approximately \$1,100.

The net revenue during the three months ended March 31, 2008 and 2007 for the aforementioned discontinued operations was \$1,909 and \$257, respectively. Income (loss) before income taxes during the three ended March 31, 2008 and 2007 for the aforementioned discontinued operations was (\$1,781) and \$51, respectively. There was no depreciation and amortization expense recorded during the three months ended March 31, 2008 for the aforementioned discontinued operations in accordance with GAAP. During the three months ended March 31, 2008, the Company recorded a charge to operations of \$1,792 related to the impairment of property, plant and equipment and certain intangibles related to the Globe, Arizona publications which were classified as held for sale as of March 31, 2008.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cautionary Note Regarding Forward Looking Information

The following discussion of Gatehouse Media, Inc.'s ("we," "us" or "our") financial condition and results of operations should be read in conjunction with our historical condensed consolidated financial statements and notes to those statements appearing in this report. The discussion and analysis below includes certain forward-looking statements that are subject to risks, uncertainties and other factors, including but not limited to, those described under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2007. Such risks, uncertainties and other factors could cause actual future growth, results of operations, performance and business prospects and opportunities to differ materially from those expressed in, or implied by, such forward looking information.

Certain statements in this Quarterly Report on Form 10-Q may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that reflect our current views regarding, among other things, our future growth, results of operations, performance and business prospects and opportunities, as well as other statements that are other than historical fact. Words such as "anticipate(s)," "expect(s)," "intend(s)," "plan(s)," "target(s)," "project(s)," "believe(s)," "will", "would", "seek(s)", "estimate(s)" and similar expressions are intended to indicate such forward-looking statements.

Forward-looking statements are based on management's current expectations and beliefs and are subject to a number of known and unknown risks, uncertainties and other factors that could lead to actual results materially different from those described in the forward-looking statements. We can give no assurance that our expectations will be attained. Factors that could cause actual results to differ materially from our expectations include, but are not limited to, the risks, uncertainties and other factors identified by us under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2007. Such forward-looking statements speak only as of the date on which they are made. Except to the extent required by law, we expressly disclaim any obligation to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in our expectations with regard thereto or change in events, conditions or circumstances on which any statement is based.

Edgar Filing: GateHouse Media, Inc. - Form 10-Q

Overview

We are one of the largest publishers of locally based print and online media in the United States as measured by number of daily publications. Our business model is to be the preeminent provider of local content and advertising in the small and midsize markets we serve. Our portfolio of products, which as of March 31, 2008, includes 523 community publications and more than 260 related websites and seven yellow page directories, serves over 233,000 business advertising accounts and reaches approximately 10.0 million people on a weekly basis. Our core products include:

- 98 daily newspapers with total paid circulation of approximately 872,000;
- 292 weekly newspapers (published up to three times per week) with total paid circulation of approximately 656,000 and total free circulation of approximately 933,000;
- 133 shoppers (generally advertising-only publications) with total circulation of approximately 2.1 million;
- over 260 locally focused websites, which extend our franchises onto the internet; and
- 7 yellow page directories, with a distribution of approximately 810,000, that covers a population of approximately 2.0 million people.

In addition to our core products, we also opportunistically produce niche publications that address specific local market interests such as recreation, sports, healthcare and real estate. Over the last twelve months, we created approximately 175 niche publications.

We were incorporated in Delaware in 1997 for purposes of acquiring a portion of the daily and weekly newspapers owned by American Publishing Company. We accounted for the initial acquisition using the purchase method of accounting.

On May 9, 2005, FIF III Liberty Holdings LLC, an affiliate of Fortress Investment Group, LLC, entered into an Agreement and Plan of Merger with us pursuant to which a wholly-owned subsidiary of FIF III Liberty Holdings LLC merged with and into the Company (the "Merger"). The Merger was effective on June 6, 2005, thus making FIF III Liberty Holdings LLC our principal and controlling stockholder. Prior to the effectiveness of the Merger, affiliates of Leonard Green & Partners, L.P. controlled the Company.

As of March 31, 2008, Fortress beneficially owned approximately 41.9% of our outstanding common stock.

Since 1998, we have acquired 408 daily and weekly newspapers and shoppers, including 17 dailies, 120 weeklies and 22 shoppers acquired in the acquisitions of CP Media and Enterprise NewsMedia, LLC (the "Massachusetts Acquisitions"), The Copley Press, Inc. newspapers and the Gannett Co., Inc. newspapers and launched numerous new products.

We generate revenues from advertising, circulation and commercial printing. Advertising revenue is recognized upon publication of the advertisements. Circulation revenue from subscribers, which is billed to customers at the beginning of the subscription period, is recognized on a straight-line basis over the term of the related subscription. The revenue for commercial printing is recognized upon delivery of the printed product to our customers. Directory revenue is recognized on a straight-line basis over the 12-month period in which the corresponding directory is distributed.

Our advertising revenue tends to follow a seasonal pattern, with higher advertising revenue in months containing significant events or holidays. Accordingly, our first quarter followed by our third quarter, historically, are our weakest quarters of the year in terms of revenue.

Correspondingly, our second and fourth fiscal quarters, historically, are our strongest quarters. We expect that this seasonality will continue to affect our advertising revenue in future periods.

Our operating costs consist primarily of labor, newsprint, and delivery costs. Our selling, general and administrative expenses consist primarily of labor costs.

According to the Newspaper Association of America, overall daily newspaper circulation, including national and urban newspapers, has declined at an average annual rate of 0.8% during the three year period from 2002 to 2004. This has put downward pressure on advertising and circulation revenues in the industry. We have maintained relatively stable revenues due to our geographic diversity, well-balanced portfolio of products, strong local franchises, broad customer base and reliance on smaller markets. We believe our local advertising tends to be less sensitive to economic cycles than national advertising because local businesses generally have fewer advertising channels through which to reach their target audience.

Operating cost categories of newsprint, labor and delivery costs have experienced increased upward price pressure in the industry over the three year period from 2003 to 2006. Newsprint prices then declined in late 2006 and 2007. However, we expect newsprint costs to continue to increase per metric ton in 2008. We have previously experienced these upward pressures and have taken steps to mitigate some of these increases with consumption declines. In addition, we are a member of a newsprint-buying consortium which enables our local publishers to obtain favorable pricing versus the general market. Additionally, we have taken steps to cluster our operations thereby increasing the usage of facilities and equipment while increasing the productivity of our labor force. We expect to continue to employ these steps as part of our business and clustering strategy.

Pro Forma

We have presented our operating results on a pro forma basis for the three months ended March 31, 2007. This pro forma presentation for the three months ended March 31, 2007 assumes that the acquisitions of the newspapers from The Copley Press Inc. and Gannett Co, Inc. and the 2007 Financings occurred at the beginning of the pro forma period. This pro forma presentation is not necessarily indicative of what our operating results would have actually been had the acquisitions of the newspapers from The Copley Press, Inc. and Gannett Co., Inc., and the 2007 Financings occurred at the beginning of the pro forma period.

Critical Accounting Policy Disclosure

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make decisions based on estimates, assumptions and factors it considers relevant to the circumstances. Such decisions include the selection of applicable principles and the use of judgment in their application, the results of which could differ from those anticipated.

A summary of our significant accounting policies are described in Note 1 of our consolidated financial statements for the year ended December 31, 2007, included in our Annual Report filed on Form 10-K.

There have been no changes in critical accounting policies in the current year from those described in our Annual Report on Form 10-K for the year ended December 31, 2007.

Results of Operations

The following table summarizes our historical results of operations for the three months ended March 31, 2008 and 2007 and our pro forma results of operations for the three months ended March 31, 2007.

	Three months ended March 31, 2008 (Actual)	Three months ended March 31, 2007 (Pro forma) (in thousands)	Three months ended March 31, 2007 (Actual)
Revenues:			
Advertising	\$ 122,349	\$ 111,178	\$ 71,072

Adjustments to Pro Forma Condensed Consolidated Statement of Operations

(A) GateHouse Media, Inc.

Reflects historical unaudited consolidated statement of operations for the Company for the three months ended March 31, 2007.

(B) Copley

Reflects historical consolidated statement of operations for the newspapers acquired from the Copley Press Inc. for the three months ended April 1, 2007.

(C) Gannett

Reflects historical consolidated statement of operations for the newspapers acquired from Gannett Co. Inc. for the three months ended April 1, 2007.

(D) Adjustments

- (1) Reflects the adjustment to eliminate the revenue and expenses related to the group of assets and liabilities from the Gannett Acquisition held for sale:

	Total three months ended March 31, 2007
Revenues:	
Advertising	\$ 3,424
Circulation	1,073
Commercial printing and other	771
Operating costs and expenses:	
Operating costs	3,166
Selling, general and administrative	869
Depreciation and amortization	151
Income tax expense	433
Income from operations	\$ 649

- (2) Reflects the elimination of expenses related to the pension and postretirement plans not continued by the Company.

	Total three months ended March 31, 2007
Copley—LIFO adjustment	\$ —
Gannett—Pension and postretirement adjustment	408
	\$ 408

- (3) Reflects the elimination of certain expenses related to liabilities included in the historical statement of operations of Copley and Gannett but not assumed by the Company.

	Total three months ended March 31, 2007
Copley:	
Pension, postretirement and other retirement plans	\$ 729
Gannett:	
Pension, postretirement and other retirement plans	136
	\$ 865

- (4) Copley:

Asset Category	Fair value	Remaining	Pro forma expense Three months
----------------	------------	-----------	--------------------------------------

		estimated useful life in years	ended March 31, 2007
Buildings	\$ 25,691	25	\$ 256
Machinery & Equipment	33,866	10	847
Furniture & Fixtures	589	10	15
Auto & Trucks	2,144	5	107
Computer Software & Equipment	2,344	3	196

	Copley	Gannett	Total three months ended March 31, 2007
Pro forma depreciation expense	\$ 1,421	\$ 839	\$ 2,260
Pro forma amortization expense	2,421	1,930	4,351
Less: historical depreciation expense	(2,304)	(828)	(3,132)
Less: historical amortization expense	(119)	(20)	(139)

\$	1,419	\$	1,921	\$	3,340
----	-------	----	-------	----	-------

- (5) Represents adjustment to reflect the interest expense of the 2007 Financings for the periods presented. The following table illustrates the assumed interest rates and amounts of borrowings the pro forma interest expense calculation is based on. The term loan, delayed draw term loan, bridge facility and the revolving loan facility average rate is LIBOR based. The term loan and delayed draw term loan variable interest rate is effectively converted to a fixed rate loan under five interest rate swap agreements for notional amounts of \$300,000, \$270,000, \$100,000, \$250,000 and \$200,000, except for a \$75,000 unhedged portion of the term loan. Unused commitment fees are based on the remaining balance of the \$40,000 of the total revolving credit facility. Letter of credit fees are a quarterly fee equal to the applicable margin for the LIBOR based loans on the aggregate amount of outstanding letters of credit.

Three months ended March 31, 2007

					Pro forma interest expense	Net Less: adjustment Historical interest expense	to interest expense
	Average Rate	Margin	Total Rate	Amount of borrowing			
Term Loan Facility - B	4.778%	2.00%	6.778%	\$ 670,000	\$ 11,354		
Delayed Draw Term Loan Facility	4.971%	2.00%	6.971%	250,000	4,357		
Term Loan Facility - C	5.156%	2.25%	7.406%	275,000	5,091		
Bridge Facility	5.320%	1.50%	6.820%	300,000	5,115		
Unused commitment fees	0.50%	—	0.500%	40,000	50		
Letter of credit fees	2.00%	—	2.000%	3,269	16		
					\$ 25,983	\$ 10,217	\$ 15,766
Historical weighted average debt balance					\$ 624,000		
Weighted average interest rate					7.32%		

For the three months ended March 31, 2007, the elimination of other interest expense also included interest expense on an intercompany demand note held by the newspapers acquired from the Copley Press, Inc. of \$3,817.

- (6) Deferred financing costs consist of costs incurred in connection with debt financings. Such costs are amortized to interest expense on a straight-line basis over the remaining terms of the related debt. Reflects the net adjustment to a total deferred financing cost amount of \$13,091 amortized over a weighted average life of 2.7 years as follows:

	Three months ended March 31, 2007	
Pro forma deferred financing costs	\$	317

Edgar Filing: GateHouse Media, Inc. - Form 10-Q

Less: historical costs		(223)
Net adjustment	\$	94

- (7) The pro forma adjustment reflects the income tax effect of pro forma adjustments.
The tax effect is calculated based on a 39.15% effective tax rate.

Three Months Ended March 31, 2008 Compared To Three Months Ended March 31, 2007

The discussion of our results of operations that follows is based upon our historical results of operations for the three months ended March 31, 2008 and our pro forma results of operations for the three months ended March 31, 2007.

Revenue. Total GAAP revenue for the three months ended March 31, 2008 increased by \$15.1 million or 9.8% to \$168.9 million from the pro forma three months ended March 31, 2007 revenues of \$153.8 million. \$11.2 million of the increase came from advertising revenue, \$3.5 million of the increase came from circulation revenue and \$0.5 million of the increase came from commercial printing and other revenue. The increase in total revenues of \$15.1 million was driven primarily by revenues from the acquisitions that did not meet the significance test for pro forma treatment (the "2007 and Q1 2008 acquisitions") of \$21.7 million. This 2007 and Q1 2008 acquisition related revenue increase was partially offset by the loss of a third party printing contract not assumed in the acquisition of The Copley Press, Inc. of \$0.7 million. Excluding the revenue increases of \$21.7 million from the 2007 and Q1 2008 acquisitions and the revenue declines of \$0.7 million from the printing contract not assumed, same store revenues were down \$7.5 million or 4.2%. The same store revenue declines were primarily driven by decreases in classified advertising.

Operating Costs. Operating costs for the three months ended March 31, 2008 increased by \$10.2 million, or 11.7%, to \$97.5 million from \$87.3 million for the three months ended March 31, 2007. The increase in operating costs was primarily due to operating costs of the 2007 and Q1 2008 acquisitions of \$11.4 million. These amounts were partially offset by decreased newsprint and compensation expenses of \$3.4 million and \$1.4 million, respectively.

Selling, General and Administrative. Selling, general and administrative expenses for the three months ended March 31, 2008 increased by \$4.4 million, or 9.9%, to \$48.9 million from \$44.5 million for the three months ended March 31, 2007. The increase in selling, general and administrative expenses was primarily due to selling, general and administrative expenses of the 2007 and Q1 2008 acquisitions of \$5.8 million.

Depreciation and Amortization. Depreciation and amortization expense for the three months ended March 31, 2008 increased by \$3.4 million to \$18.8 million from \$15.4 million for the three months ended March 31, 2007. The increase was primarily due to depreciation and amortization of the 2007 and Q1 2008 acquisitions of \$3.1 million.

Impairment of Long-Lived Assets. During the three months ended March 31, 2007 we incurred a charge of \$0.1 million related to the impairment of property, plant and equipment which was classified as held for sale at March 31, 2007.

Interest Expense. Total interest expense for the three months ended March 31, 2008 decreased by \$1.6 million, or 6.0%, to \$24.4 million from \$26.0 million for the three months ended March 31, 2007. The decrease was primarily due to decreases in our total outstanding debt balances.

Unrealized Loss on Derivative Instrument. During the three months ended March 31, 2008 we recorded a loss of \$0.7 million due to ineffectiveness related to several of our interest rate swaps which were entered into, in an effort to eliminate a significant portion of our exposure to fluctuations in LIBOR.

Income Tax Expense (Benefit). Income tax expense for the three months ended March 31, 2008 was \$2.5 million compared to income tax benefit of \$7.3 million for the three months ended March 31, 2007. The change of \$9.7 million was primarily due to an increase in the valuation allowance recognized.

Net Loss from Continuing Operations. Net loss from continuing operations for the three months ended March 31, 2008 was \$27.0 million. Net loss from continuing operations for the three months ended March 31, 2007 was \$13.6 million. Our net loss from continuing operations increased due to the factors noted above.

Three Months Ended March 31, 2008 Compared To Three Months Ended March 31, 2007

The discussion of our results of operations that follows is based upon our historical results of operations for the three months ended March 31, 2008 and 2007.

Revenue. Total revenue for the three months ended March 31, 2008 increased by \$74.2 million, or 78.4%, to \$168.9 million from \$94.7 million for the three months ended March 31, 2007. The increase in total revenue was comprised of a \$51.3 million, or 72.1%, increase in advertising revenue, a \$19.1 million, or 110.8%, increase in circulation revenue and a \$3.9 million, or 60.2%, increase in commercial printing and other revenue. The increase in advertising revenue was primarily due to advertising revenue from the Copley acquisition and the Gannett acquisition of \$23.0 million and \$15.6 million, respectively. The increase in advertising expense was also due to advertising revenue of revenue from the 2007 and Q1 2008 acquisitions of \$17.0 million. These amounts were partially offset by decreases in same store advertising revenues of \$6.8 million. The increase in circulation revenue was primarily due to circulation revenue from the Copley acquisition and the Gannett acquisition of \$11.8 million and \$4.7 million, respectively. The increase in circulation expense was also due to the circulation revenue from the 2007 and Q1 2008 acquisitions of \$3.0 million as well as an increase in circulation same store revenues of \$0.5 million. The increase in commercial printing and other revenue was primarily due to revenue from the Copley acquisition and the Gannett acquisition of \$1.6 million and \$0.8 million, respectively. The increase in commercial printing and other revenue was also due to commercial printing and other revenue from the 2007 and Q1 2008 acquisitions of \$1.8 million. These amounts were partially offset by decreases in commercial printing and other same store revenues of \$1.3 million.

Operating Costs. Operating costs for the three months ended March 31, 2008 increased by \$45.2 million, or 86.3%, to \$97.5 million from \$52.4 million for the three months ended March 31, 2007. The increase in operating costs was primarily due to operating costs of the Copley acquisition and Gannett acquisition of \$22.7 million and \$11.4 million respectively. The increase in operating costs was also due to operating costs of the 2007 and Q1 2008 acquisitions of \$11.4 million.

Selling, General and Administrative. Selling, general and administrative expenses for the three months ended March 31, 2008 increased by \$18.3 million, or 60%, to \$48.9 million from \$30.6 million for the three months March 31, 2007. The increase in selling, general and administrative expenses was primarily due to selling, general and administrative expenses of Copley acquisition and Gannett acquisition of \$6.5 million and \$4.6 million, respectively. The increase in selling general and administrative expenses was also due to selling general and administrative expenses of the 2007 and Q1 2008 acquisitions of \$5.8 million.

Depreciation and Amortization. Depreciation and amortization expense for the three months ended March 31, 2008, increased by \$10.0 million to \$18.8 million from \$8.8 million for the three months ended March 31, 2007. Depreciation and amortization increased due to depreciation and amortization of the Copley acquisition and the Gannett acquisition of \$3.7 million and \$3.0 million, respectively. The increase in depreciation and amortization expense was also due to depreciation and amortization expense of the 2007 and Q1 2008 acquisitions of \$3.1 million.

Impairment of Long-Lived Assets. During the three months ended March 31, 2007 we incurred a charge of \$0.1 million related to the impairment of property, plant and equipment which was classified as held for sale at March 31, 2007.

Interest Expense. Total interest expense for the three months ended March 31, 2008 increased by \$14.2 million or 139% to \$24.4 million from \$10.2 million for the three months ended March 31, 2007. The increase was primarily due to increases in our total outstanding debt balances.

Unrealized Loss on Derivative Instrument. During the three months ended March 31, 2008 we recorded a loss of \$0.7 million due to ineffectiveness related to several of our interest rate swaps, which were entered into, in an effort to

eliminate a significant portion of our exposure to fluctuations in LIBOR.

Income Tax Expense (Benefit). Income tax expense for the three months ended March 31, 2008 was \$2.5 million compared to income tax benefit of \$2.5 million for the three months ended March 31, 2007. The change of \$5.0 million was primarily due to an increase in the valuation allowance recognized.

Net Loss from Continuing Operations. Net loss from continuing operations for the three months ended March 31, 2008 was \$27.0 million. Net loss from continuing operations for the three months ended March 31, 2007 was \$6.1 million. Our net loss from continuing operations increased due to the factors noted above.

25

Liquidity and Capital Resources

Our primary cash requirements are for working capital, borrowing obligations, capital expenditures and dividends. We have no material outstanding commitments for capital expenditures. We also intend to continue to pursue our strategy of opportunistically acquiring locally focused media businesses in contiguous and new markets. Our principal sources of funds have historically been, and will be, cash provided by operating activities and borrowings under our revolving credit facility.

On February 27, 2007, we entered into the 2007 Credit Facility with a syndicate of financial institutions with Wachovia Bank, National Association as administrative agent. The 2007 Credit Facility provides for a \$670.0 million term loan facility which matures in August, 2014, a delayed draw term loan of up to \$250.0 million available until August 2007 which matures in August 2014 and a revolving credit agreement with a \$40.0 million aggregate loan commitment available, including a \$15.0 million sub-facility for letters of credit and a \$10.0 million swingline facility, which matures in February 2014.

On April 11, 2007, we entered into the 2007 Bridge Facility with a syndicate of financial institutions with Wachovia Investment Holdings LLC as administrative agent. The Bridge Agreement provided a \$300.0 million term loan facility which matured on April 11, 2015, and was paid in full as described below.

On May 7, 2007, we amended our 2007 Credit Facility and increased our borrowing by \$275.0 million. This incremental borrowing has an interest rate of LIBOR + 2.25% or the Alternate Base Rate + 1.25%, depending upon the designation of the borrowing.

The rate on the previously existing borrowings of \$920.0 million was changed to bear interest at LIBOR + 2.00% or the Alternate Base Rate + 1.00% depending upon the designation of the borrowing. The terms of the previously outstanding borrowings were also modified to include a 1% premium if the debt is called within one year and an interest feature that grants the previously outstanding debt an interest rate of .25% below the highest rate of any borrowing under the 2007 Credit Facility.

On February 15, 2008, we entered into our 2008 Bridge Facility with Barclays Capital, as syndication agent, sole arranger and book runner. The 2008 Bridge Facility provides for a \$20,600 term loan facility that matures on May 15, 2008, subject to extensions through August 15, 2009.

As of March 31, 2008, the available amount of debt under our current agreements was \$14.2 million.

As a holding company, we have no operations of our own and accordingly have no independent means of generating revenue, and our internal sources of funds to meet our cash needs, including payment of expenses, are dividends and other permitted payments from our subsidiaries. Our 2007 Credit Facility imposes upon us certain financial and operating covenants, including, among others, requirements that we satisfy certain quarterly financial tests, including a total leverage ratio, a minimum fixed charge ratio, and restrictions on our ability to incur debt, pay dividends or take certain other corporate actions including, among other things, acquisitions of assets and disposition of assets. We were in compliance with the total leverage ratio test and our other covenants for the measurement date of March 31, 2008 under the terms of the 2007 Credit Facility. Continued compliance with our financial and operating covenants will depend on the future performance of the business and our ability to curtail the negative revenue trends experience in the prior periods as well as our ability to address other risks set forth herein and in our

Annual Report on Form 10-K for the year ended December 31, 2007. Management believes that we have adequate capital resources and liquidity to meet our working capital needs, borrowing obligations and all required capital expenditures for at least the next twelve months.

Our leverage may adversely affect our business and financial performance and may restrict our operating flexibility.

The level of our indebtedness and our on-going cash flow requirements may exposure us to a risk that a substantial decrease in operating cash flows due to economic developments or adverse developments in our business, including declines in advertising revenues, could make it difficult to meet the total leverage ratio test and other financial and operating covenants. In addition, our leverage may limit cash flow available for general corporate purposes such as capital expenditures and our flexibility to react to competitive technological and other changes in our industry and economic conditions generally.

On October 25, 2006, we completed our IPO of 13,800,000 shares of common stock at a price of \$18 per share, raising approximately \$231.0 million, which is net of the underwriters' discount of \$17.4 million. We used a portion of the net proceeds to repay in full and terminate our \$152.0 million second lien term loan credit facility. In addition, we used a portion of the net proceeds to pay down \$12.0 million of the \$570.0 million first lien term loan credit facility, reducing the balance and limit to \$558.0 million, and to repay in full the outstanding balance of \$21.3 million under our \$40.0 million revolving credit facility. In connection with the termination of our \$152.0 million second lien term loan credit facility and the \$12.0 million reduction in borrowing capacity on the first lien term loan credit facility, we wrote off \$1.4 million of deferred financing costs, in the fourth quarter of 2006.

On November 3, 2006, the underwriters of the Company's initial public offering exercised their option to purchase an additional 2,070,000 shares of common stock as allowed in the underwriting agreement. The net proceeds before offering expenses of these additional shares was \$34.7 million, after deducting the underwriting discount. The total net proceeds from the initial public offering of 13,800,000 shares and this additional allotment of 2,070,000 shares before offering expenses was \$265.7 million, after deducting the underwriting discount.

On July 23, 2007, we completed our follow-on public offering of 18,700,000 shares of our common stock, including 1,700,000 shares sold pursuant to the exercise by the underwriters of their option, as allowed in the underwriting agreement at a public offering price of \$18.45 per share. The total net proceeds from our follow-on public offering were approximately \$331.6 million. We used a portion of the proceeds to repay in full and terminate our \$300.0 million 2007 Bridge Facility.

Cash Flows

The following table summarizes our historical cash flows:

	Three months ended March 31, 2008	Three months ended March 31, 2007
Cash provided by operating activities	\$ 7,713	\$ 5,089
Cash used in investing activities	(16,066)	(208,051)
Cash provided by financing activities	6,879	119,217

The discussion of our cash flows that follows is based on our historical cash flows for the three months ended March 31, 2008 and March 31, 2007.

Cash Flows from Operating Activities. Net cash provided by operating activities for the three months ended March 31, 2008 was \$7.7 million, an increase of \$2.6 million when compared to the \$5.1 million of cash provided by operating activities for the three months ended March 31, 2007. This \$2.6 million increase was the result of an increase in cash provided by working capital of \$6.5 million and an increase in non-cash charges of \$17.0 million, partially offset by an increase in net loss from continuing operations of \$20.9 million.

The \$6.6 million increase in cash provided by working capital for the three months ended March 31, 2008 when compared to the three months ended March 31, 2007 is primarily attributable to decreases in accounts receivable and increases in deferred revenue.

The \$17.0 million increase in non-cash charges primarily consisted of an increase in depreciation and amortization of \$10.0 million, an increase in amortization of deferred financing costs of \$0.4 million, an increase in unrealized net losses on derivative instruments of \$0.3 million, an increase in deferred income taxes of \$6.1 million, and an increase in pension and other post-retirement obligations of \$0.4 million.

Cash Flows from Investing Activities. Net cash used in investing activities for the three months ended March 31, 2008 was \$16.1 million. During the three months ended March 31, 2008, we used \$22.8 million, net of cash acquired, for acquisitions and \$2.6 million for capital expenditures, which uses were partially offset by proceeds of \$9.4 million from the sale of publications and other assets.

Net cash used in investing activities for the three months ended March 31, 2007 was \$208.1 million. During the three months ended March 31, 2007, we used \$206.0 million, net of cash acquired, for acquisitions and \$2.2 million for capital expenditures, which uses were partially offset by proceeds of \$0.2 million from the sale of publications and other assets.

Cash Flows from Financing Activities. Net cash provided by financing activities for the three months ended March 31, 2008 was \$6.9 million. The net cash provided by financing activities resulted from borrowings of \$19.5 million under the Barclays Credit Agreement, which is net of certain financing charges and original issue discount, and \$10.5 million from the Revolver, partially offset by the payment of dividends of \$23.1 million.

Net cash provided by financing activities for the three months ended March 31, 2007 was \$119.2 million. The net cash provided by financing activities primarily resulted from borrowings of \$690.0 million under the 2007 Credit Facility, partially offset by the repayment of \$558.0 million of borrowings under the 2006 Credit Facility, payment of dividends of \$9.4 million, payment of \$3.0 million of debt issuance costs in connection with the 2007 Credit Facility, and payment of \$0.4 million of offering costs.

Changes in Financial Position

The discussion that follows highlights significant changes in our financial position and working capital from December 31, 2007 to March 31, 2008.

Accounts Receivable. Accounts receivable decreased \$10.8 million from December 31, 2007 to March 31, 2008, of which \$11.1 million primarily relates to lower revenue recognized in the first quarter of 2008 compared to the fourth quarter of 2007. Additionally, \$1.2 million of the decrease resulted from the sale of assets, partially offset by \$1.5 million acquired from acquisitions during the first three months of 2008.

Property, Plant, and Equipment. Property, plant, and equipment increased \$7.1 million during the period from December 31, 2007 to March 31, 2008, of which \$5.7 million was acquired from acquisitions during the first three months of 2008, purchase accounting adjustments of \$5.7 million from acquisitions consummated in 2007, and \$2.6 million was used for capital expenditures. These increases in property, plant, and equipment were partially offset by depreciation of \$6.8 million.

Goodwill. Goodwill decreased \$3.0 million from December 31, 2007 to March 31, 2008, of which \$1.1 million relates to an impairment loss related to discontinued operations, assets sold and held for sale of \$0.7 million, and \$4.5 related to purchase accounting adjustments from acquisitions in 2007. These decreases in goodwill were partially offset by \$3.3 million acquired from acquisitions consummated during the first three months of 2008.

Intangible Assets. Intangible assets increased \$3.1 million from December 31, 2007 to March 31, 2008, of which \$15.8 million was acquired from acquisitions consummated during the first three months of 2008, partially offset by assets sold and held for sale of \$0.3 million, an impairment loss of \$0.5 million and amortization of \$11.9 million.

Long-term Assets Held for Sale. Long-term assets held for sale decreased \$7.3 million from December 31, 2007 to March 31, 2008 of which \$8.4 million came from assets sold during the first three months of 2008, partially offset by \$1.1 million from assets classified as held for sale during the first three months of 2008. Included in long-term assets held for sale as of March 31, 2008 are buildings and equipment at our Massachusetts and Arizona locations.

Short Term Debt. Short term debt increased \$20.3 million from December 31, 2007 to March 31, 2008 due to borrowings under the Barclay's Credit Agreement in February 2008.

Accrued Expenses. Accrued expenses increased \$1.2 million from December 31, 2007 to March 31, 2008, of which \$0.7 million was acquired from acquisitions consummated during the first three months of 2008. In addition, accrued expenses increased \$1.9 million due to the timing of payments primarily from an increase of accrued vacation, partially offset by a decrease in discontinued operations of \$1.0 million and \$0.4 million related to purchase accounting adjustments from acquisitions in 2007.

Deferred Revenue. Deferred revenue increased \$2.9 million from December 31, 2007 to March 31, 2008, of which \$3.0 million primarily relates to the timing of directory mailings and \$0.3 million was acquired from acquisitions consummated during the first three months of 2008 partially offset by \$0.3 million for operations classified as held for sale.

Dividend Payable. Dividend payable decreased \$11.5 million from December 31, 2007 to March 31, 2008 from the payment of dividends of \$23.1 million, offset by dividends declared of \$11.6 million, as the cash dividend declared in March 2008 was reduced to 0.20 per share.

Long-Term Debt. Long-term debt increased \$10.5 million from December 31, 2007 to March 31, 2008 from borrowings of \$31.5 million under the Revolver, partially offset by repayments of \$21.0 million under the Revolver.

Derivative Instruments. Derivative instruments, which consist of interest rate swaps, increased \$45.0 million from December 31, 2007 to March 31, 2008 due to continued declines in interest rates.

Deferred Income Taxes. Deferred income taxes increased \$2.5 million from December 31, 2007 to March 31, 2008, primarily attributable to the quarterly tax provision which is a result of changes in the valuation allowance.

Additional Paid-in Capital. Additional paid-in capital increased \$1.1 million from December 31, 2007 to March 31, 2008, which resulted from non-cash compensation expense of \$1.1 million.

Accumulated Deficit. Accumulated deficit increased \$40.4 million from December 31, 2007 to March 31, 2008 from declaration of dividends of \$11.6 million and a net loss of \$28.8 million.

Contractual Commitments

The changes to our contractual commitments as of March 31, 2008 compared to December 31, 2007 relate to the consummation of our 2008 Bridge Facility.

Non-GAAP Financial Measures

A non-GAAP financial measure is generally defined as one that purports to measure historical or future financial performance, financial position or cash flows, but excludes or includes amounts that would not be so adjusted in the most comparable GAAP measure. We define and use Adjusted EBITDA, a non-GAAP financial measure, as set forth below.

Adjusted EBITDA

We define Adjusted EBITDA as follows:

Income (loss) from continuing operations *before*:

- Net income tax expense (benefit);
- interest/financing expense; and
- depreciation and amortization

Management's Use of Adjusted EBITDA.

Adjusted EBITDA is not a measurement of financial performance under GAAP and should not be considered in isolation or as an alternative to income from operations, net income (loss), cash flow from continuing operating activities or any other measure of performance or liquidity derived in accordance with GAAP. We believe this non-GAAP measure, as we have defined it, is helpful in identifying trends in our day-to-day performance because the items excluded have little or no significance on our day-to-day operations. This measure provides an assessment of controllable expenses and affords management the ability to make decisions which are expected to facilitate meeting current financial goals as well as achieve optimal financial performance. It provides an indicator for management to determine if adjustments to current spending decisions are needed.

Adjusted EBITDA provides us with a measure of financial performance, independent of items that are beyond the control of management in the short-term, such as depreciation and amortization, taxation and interest expense associated with our capital structure. This metric measures our financial performance based on operational factors that management can impact in the short-term, namely the cost structure or expenses of the organization. Adjusted EBITDA is one of the metrics used by senior management and the board of directors to review the financial performance of the business on a monthly basis.

Limitations of Adjusted EBITDA.

Adjusted EBITDA has limitations as an analytical tool. It should not be viewed in isolation or as a substitute for GAAP measures of earnings or cash flows. Material limitations in making the adjustments to our earnings to calculate Adjusted EBITDA and using this non-GAAP financial measure as compared to GAAP net income (loss), include: the cash portion of interest/financing expense, income tax (benefit) provision and charges related to gain (loss) on sale of facilities represent charges (gains) which may significantly affect our financial results.

An investor or potential investor may find this item important in evaluating our performance, results of operations and financial position. We use non-GAAP financial measures to supplement our GAAP results in order to provide a more complete understanding of the factors and trends affecting our business.

Adjusted EBITDA is not an alternative to net income, income from operations or cash flows provided by or used in operations as calculated and presented in accordance with GAAP. You should not rely on Adjusted EBITDA as a substitute for any such GAAP financial measure. We strongly urge you to review the reconciliation of net loss from continuing operations to Adjusted EBITDA, along with our consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q. We also strongly urge you to not rely on any single financial measure to evaluate our business. In addition, because Adjusted EBITDA is not a measure of financial performance under GAAP and is susceptible to varying calculations, the Adjusted EBITDA measure, as presented in this Quarterly Report on Form 10-Q may differ from and may not be comparable to similarly titled measures used by other companies.

The Company uses Adjusted EBITDA as a measure of its core operating performance, which is evidenced by the publishing and delivery of news and other media and excludes certain expenses that may not be indicative of the Company's core business operating results. We consider the unrealized (gain) loss on derivative instruments and the loss on early extinguishment of debt to be financing related costs associated with interest expense or amortization of financing fees. Accordingly, the Company excludes financing related costs such as the early extinguishment of debt because they represent the write-off of deferred financing costs and the Company believes these non-cash write-offs are similar to interest expense and amortization of financing fees, which by definition are excluded from Adjusted EBITDA. Additionally, the non-cash gains (losses) on derivative contracts, which are related to interest rate swap agreements to manage interest rate risk, are financing costs associated with interest expense. Such charges are incidental to, but not reflective of, the Company's core operating performance and it is appropriate to exclude charges related to financing activities such as the early extinguishment of debt and the unrealized (gain) loss on derivative instruments which, depending on the nature of the financing arrangement, would have otherwise been amortized over the period of the related agreement and does not require a current cash settlement.

The table below shows the reconciliation of loss from continuing operations to Adjusted EBITDA for the periods presented:

	Three Months Ended	
	March 31,	Three Months Ended
	2008	March 31, 2007
	(in thousands)	
q		
Loss from continuing operations	\$ (27,008)	\$ (6,130)
Income tax expense (benefit)	2,471	(2,486)
Unrealized loss on derivative instrument	719	383
Amortization of deferred financing costs	583	223
Interest expense	24,416	10,217
Impairment of long-lived assets	-	119
Depreciation and amortization	18,763	8,802
Adjusted EBITDA from continuing operations	\$ 19,944(a)	\$ 11,128(b)

-
- (a) Adjusted EBITDA for the three months ended March 31, 2008 included net expenses of \$10,129 which are one-time in nature or non-cash compensation. Included in these net expenses of \$10,129 is non-cash compensation and other expense of \$6,965, non-cash portion of postretirement benefits expense of \$558 and integration and reorganization costs of \$2,612, which are partially offset by a \$6 gain on the sale of assets.

Adjusted EBITDA also does not include \$10 from our discontinued operations.

- (b) Adjusted EBITDA for the three months ended March 31, 2007 included net expenses of \$3,318, which are one-time in nature or non-cash compensation. Included in these net expenses of \$3,318 is non-cash compensation and other expense of \$2,153, non-cash portion of postretirement benefits expense of \$314, integration and reorganization costs of \$838 and a \$13 loss on the sale of assets.

Adjusted EBITDA also does not include \$1,015 from SureWest Directories due to the impact of purchase accounting and \$51 from our discontinued operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk from changes in interest rates and commodity prices. Changes in these factors could cause fluctuations in earnings and cash flow. In the normal course of business, exposure to certain of these market risks is managed as described below.

Interest Rates

At March 31, 2008, after consideration of the interest rate swaps described below, none of the remaining principal amount of our term loans are subject to floating interest rates.

On June 23, 2005, we executed an interest rate swap in the notional amount of \$300.0 million with a forward starting date of July 1, 2005. The interest rate swap has a term of seven years. Under this swap, we pay an amount to the swap counterparty representing interest on a notional amount at a rate of 4.135% and receive an amount from the swap counterparty representing interest on the notional amount at a rate equal to the one month LIBOR.

On May 10, 2006, we executed an additional interest rate swap in the notional amount of \$270.0 million with a forward starting date of July 3, 2006. The interest rate swap has a term of five years. Under this swap, we pay an amount to the swap counterparty representing interest on a notional amount at a rate of 5.359% and receive an amount from the swap counterparty representing interest on the notional amount at a rate equal to the one month LIBOR.

On February 27, 2007, we executed an additional interest rate swap in the notional amount of \$100.0 million with a forward starting date of February 28, 2007. The interest rate swap has a term of seven years. Under this swap, we pay an amount to the swap counterparty representing interest on a notional amount at a rate of 5.14% and receive an amount from the swap counterparty representing, interest on the notional amount at a rate equal to the one month LIBOR.

On April 4, 2007, we executed an additional interest rate swap in the notional amount of \$250.0 million with a forward starting date of April 13, 2007. The interest rate swap has a term of seven years. Under this swap, we pay an amount to the swap counterparty representing interest on a notional amount at a rate of 4.971% and receive an amount from the swap counterparty representing interest on the notional amount at a rate equal to one month LIBOR.

On April 13, 2007, we executed an additional interest rate swap in the notional amount of \$200.0 million with a forward starting date of April 30, 2007. The interest rate swap has a term of seven years. Under this swap, we pay an amount to the swap counterparty representing interest on a notional amount at a rate of 5.079% and receive an amount from the swap counterparty representing interest on the notional amount at a rate equal to one month LIBOR.

On September 18, 2007, we executed an additional interest rate swap based on a notional amount of \$75.0 million with a forward starting date of September 18, 2007. The interest rate swap has a term of seven years. Under the swap, we pay an amount to the swap counterparty representing interest on a notional amount at a rate of 4.941% and receive an amount from the swap counterparty representing interest on the notional amount at a rate equal to one month LIBOR.

Commodities

Certain materials we use are subject to commodity price changes. We manage this risk through instruments such as purchase orders, membership in a buying consortium and continuing programs to mitigate the impact of cost increases through identification of sourcing and operating efficiencies. Primary commodity price exposures are newsprint, energy costs and, to a lesser extent, ink.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer), has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act of 1934, as amended), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective.

Changes in Internal Control

There has not been any change in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
