PART I

Item 1. Description of Business

Overview

In 2004, we began developing visualization software, and commenced selling the software in 2005. Due to lack of significant sales, we substantially reduced our workforce and overhead costs beginning in September 2005. From September 2005 through July 2007, Ener1 Group, Inc., a related party, loaned us money to fund our operations. In July 2007, Ener1 Group, Inc. stopped funding our operations and we stopped paying our remaining executive employee. In August and September 2007, two of our three members of the board of directors resigned.

In December 2007, a related party structured a transaction that provided funds to us to settle our existing debts at a discount to the face amount of the obligations, restructured certain notes payable in exchange for newly issued common shares of the company, and gave Splinx, LLC substantial majority of the outstanding common shares (the “Splinx Restructuring”).

In December 2007, Bzinfin, S. A., a company that is affiliated with the Company through common ownership, agreed to loan Splinx, LLC \$500,000 to fund the settlement of certain financial obligations and the costs of audit and filing financial reports with the SEC. Under a Purchase Agreement dated December 17, 2007, TGR Capital, LLC, a Florida limited liability company (“TGR”) controlled by a related party, 1) acquired the membership interests in Splinx, LLC, thereby giving TGR control over Splinx, LLC, and 2) agreed to repay the Bzinfin loan of \$500,000. Under an Exchange Agreement dated December 18, 2007, the Company issued 113,500,000 newly issued shares of the Company to Splinx, LLC of which 8,500,000 shares were issued to Bzinfin and 2,125,000 were issued to Alexander Malovik in exchange for forgiveness of debts other than the \$500,000 discussed above.

Splinx, LLC owned 98,157,334 shares of the Company as of December 17, 2007 and now owns 201,263,749 shares after the completion of the Exchange Agreement. The Company had 100,757,773 shares outstanding at December 17, 2007 and now has 214,507,773 shares outstanding after the completion of the Exchange Agreement and at March 31, 2008.

TGR Capital, LLC has renamed Splinx Technology, Inc., TOT Energy, Inc (“TOT”). TOT Energy is working to build a diversified portfolio of energy assets through acquisitions, joint ventures and other business structures. The Company’s activities are expected to include the exploration, development, production, and marketing of crude oil and natural gas in Russia and Kazakhstan, as well as other markets around the world. TOT Energy will also explore investments in renewable energy.

History of TOT Energy, Inc f/k/a Splinx

TOT Energy was originally formed to create and license software which it developed that enables the generation, manipulation, viewing and image-based searching of complex, multi-dimensional mathematical objects and information. The targeted end-users of our software products were mathematicians, scientists, graphic designers or digital artists working on complex, graphical three-dimensional problems. The software was expected to provide greater productivity through improved interaction with, enhanced visual representation and faster manipulation of, and greater technical and artistic precision in representing, multi-dimensional mathematical objects and information.

Since October 28, 2003 (“Inception”) through December 17, 2007, we operated in a development phase typical of a software company and focused on developing technologies and products and securing intellectual property rights while we developed relationships with potential customers and resellers. We were organized under the laws of the State of Delaware in February 2004 to conduct the business and operations of Splinx, LLC (“Predecessor”). Effective

Edgar Filing: TOT Energy - Form 10KSB

April 1, 2004, our Predecessor reorganized as a corporation and, as a result, contributed its assets, liabilities and operations to us under a contribution agreement.

On December 17, 2007, TGR Capital, LLC acquired Splinx and renamed the Company TOT Energy, Inc. The focus of the company was changed from technology to oil and gas services. To date, we have minimal sales and no sales contracts and are considered to be in the development stage as of March 31, 2008. Our corporate activities to date included raising capital, strategic and business planning, filing required documents with the U. S. Securities and Exchange Commission (the “Commission”), and hiring executive management.

The Company

We began activity on October 28, 2003. We were organized to conduct the business and operations of our Predecessor. Effective April 1, 2004, our Predecessor reorganized as a corporation and, as a result, contributed its assets, liabilities and operations to us.

On January 18, 2005, we merged with a subsidiary of Ener1, Inc., an affiliated company controlled by certain direct and indirect beneficial owners of the membership interests of our Predecessor (the "Merger"). We survived the Merger and issued 5,000,000 shares of our common stock to Ener1, Inc. in the Merger. Ener1, Inc. declared a dividend of the 5,000,000 shares that it received to its shareholders of record as of January 17, 2005 (the "Distribution"). The dividend was paid on January 24, 2005. Immediately after the Merger, and prior to the Distribution, Splinx, LLC and Ener1, Inc. owned 95% and 5%, respectively, of our then outstanding common stock. We registered the Distribution by Ener1, Inc. of our common stock on a registration statement on Form S-1 filed with the Commission. As a result of the Merger and the Distribution, we became a public reporting company subject to the information and reporting requirements of the Securities Exchange Act of 1934. The Merger and the Distribution are described further in our Registration Statement on Form S-1, filed with the Commission on December 27, 2004 (Registration No. 333-116817).

On December 17, 2007, we were effectively acquired by TGR Capital, LLC with all shares held by Splinx, LLC being sold to TGR which is controlled by a related party. Our principal executive offices are located at 201 South Biscayne Blvd; Suite 2804; Miami, FL 33131. Our telephone number is (305) 913-1622.

Item 6. Management's Discussion and Analysis or Plan of Operations

This Annual Report on Form 10-KSB contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements relate to our expectations, hopes, intentions or strategies regarding future events or future financial performance. Any statements contained in this report that are not statements of historical fact may be deemed forward-looking statements. In some cases, forward-looking statements can be identified by terminology such as "may," "will," "should," "expect," "plan," "anticipate," "intend", "believe," "estimate," "predict," "potential" or "continue," or the negative of such terms or other comparable terminology. Forward-looking statements include but are not limited to statements regarding: the possible merger of the Company. These statements are only predictions and are subject to a number of assumptions, risks and uncertainties that could cause actual results to differ materially from those expressed or implied in the forward-looking statements. The following important factors, in addition to those discussed in our filings with the Commission from time to time, and other unforeseen events or circumstances, could affect our future results and could cause those results or other outcomes to differ materially from those expressed or implied in our forward-looking statements: general economic conditions; our ability to negotiate successfully settlement of debt obligation; our ability to find a suitable merger partner; legal and regulatory issues; and, changes in accounting policies or practices.

All forward-looking statements are based on information available to us on the date of this filing, and we assume no obligation to update such statements.

The following discussion should be read in conjunction with our other filings with the Commission and the consolidated financial statements and related notes included in this Annual Report.

Plan of Operation

TOT Energy is working to build a diversified portfolio of energy assets through acquisitions, joint ventures and other business structures. The Company's activities are expected to include the exploration, development, production, and marketing of crude oil and natural gas in Russia and Kazakhstan, as well as other markets around the world. TOT Energy will also explore investments in renewable energy and participate in limited trading activities to sell energy products we may source.

We intend to acquire a portfolio of energy related companies. and we are engaged in various discussions to achieve this goal. Our communication policy on acquisitions is to disclose a transaction when a definitive agreement has been executed. Any potential acquisition would be financed primarily with new shares of TOT Energy, Inc., and therefore will result in substantial dilution to the existing shareholders.

As of March 31, 2008, we have plans to lease and furnish approximately 3,600 square feet of permanent office space in Miami, Florida.

Results of Operations for the Year Ended March 31, 2008 Compared to the Year Ended March 31, 2007

We earned \$215,085 in net income, or \$0.00 per share, for the year ended March 31, 2008 (“fiscal 2008”) compared to a loss of \$361,061, or \$0.00 per share, for the year ended March 31, 2007 (“fiscal 2007”). Our total operating expenses for fiscal 2008 were \$243,111 as compared to operating expenses for fiscal 2007 of \$371,217. Interest expense in fiscal 2008 was \$110,464 compared to fiscal 2007 interest expense of \$158,881.

Our operating expenses decreased significantly during fiscal 2008 as we terminated product development activities and our remaining workforce. Our work in fiscal 2008 was to settle all liabilities with the funds on hand and create a clean balance sheet that could be sold.

BZINFIN, S.A. agreed to loan the Company, through Splinx, LLC, \$500,000 in order to settle outstanding obligations and prepare the Company for sale. Outstanding payable were settled at a discount and the Company recognized \$167,244 and \$568,562 of income from settlements in 2007 and 2008 respectively.

There were no research and development expenses for fiscal 2008 or 2007.

Liquidity and capital resources

At March 31, 2008, we had negative working capital of \$5,705,494 and cash of \$88,007. The Company has no further borrowing availability under the existing intercompany loan.

We expect to refinance our existing intercompany debt in the later part of 2008 with a demand note from a Mike Zoi related company. Our short term cash needs are expected to be met by Mike Zoi and/or companies he controls in exchange for consideration to be determined. Mr Zoi intends to finance the short term needs of the Company but he has no obligation to provide future funding. Future business or economic changes could change Mike’s funding plans.

Our goal is to acquire energy related companies and business through joint ventures using, where appropriate, our common stock to fund the acquisitions.

Critical Accounting Policies and Estimates

Our significant accounting policies are described more fully in Note 1 to our consolidated financial statements. Management is required to make certain estimates and assumptions during the preparation of our financial statements in accordance with generally accepted accounting principles. These estimates and assumptions impact the reported amount of assets and liabilities as well as disclosures regarding any contingencies. Actual results could differ from estimates and this could impact reported net income or the value of our assets and liabilities.

In applying estimates, management uses its judgment to determine the appropriate assumptions to be used in the determination of certain estimates. Those estimates are based on our historical experience, terms of existing contracts, our observance of trends in the industry, information provided by outside sources, trade journals and other sources, as appropriate.

Deferred Taxes. Estimates of deferred income taxes and items giving rise to deferred tax assets and liabilities reflect management’s assessment of actual future taxes to be paid on items reflected in the financial statements, giving consideration to both timing and the probability of the realization. Actual income taxes could vary from these estimates for a variety of reasons including changes in tax law, operating results that vary from budget or the review of our tax returns by the IRS. We believe the estimate of deferred taxes is a “critical accounting estimate”. Management of the Company has discussed the development and selection of this critical accounting estimate with the audit

committee of our board of directors and the audit committee has reviewed the Company's disclosure relating to it in this MD&A.

8

Quantitative and Qualitative Disclosures About Market Risk

We do not have material exposure to market risks associated with changes in interest rates related to cash equivalent securities held at March 31, 2008.

Off-balance sheet arrangements

At March 31, 2008, we did not have any off-balance sheet arrangements, as defined in tem 303(c)(4)(2) of SEC Regulation S-B.

Recently Issued Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 159 “The Fair Value Option for Financial Assets and Financial Liabilities, Including an Amendment of FASB Statement No. 115,” (SFAS No. 159). SFAS No. 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. SFAS No. 159 is expected to expand the use of fair value measurement, which is consistent with the FASB’s long-term measurement objectives for accounting for financial instruments. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007 (i.e., fiscal year 2008). We have assessed the effect of this pronouncement on our consolidated financial statements, and at this time, no material effect is expected.

In September 2006, the FASB issued SFAS No. 157, “*Fair Value Measurements*”. SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. The provisions of SFAS No. 157 are effective for fiscal years beginning after November 15, 2007. Management is currently evaluating the impact of adopting SFAS No. 157 on its financial position, cash flows, and results of operations.

In December 2007, the FASB issued SFAS No. 141(R), “Business Combinations” and SFAS No. 160, “Noncontrolling Interest in Consolidated Financial Statements.” These Statements replace FASB Statement No. 141, “Business Combinations,” and requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date. SFAS No. 141(R) also makes significant amendments to other Statements and other authoritative guidance. The Statements are effective for years beginning on or after December 15, 2008. Management is evaluating if the adoption of these new standards would have a material effect on the Company’s financial position or operating results.

On December 15, 2006 the SEC announced that it is has modified reporting requirements for smaller public companies under Section 404 of the Sarbanes-Oxley Act (SOX 404) of 2002. The Commission granted relief to smaller public companies by extending the date by which non-accelerated filers must start providing a report by management assessing the effectiveness of the company’s internal control over financial reporting. The compliance date for these companies was moved from fiscal years ending on or after July 15, 2007, to fiscal years ending on or after December 15, 2007. The Commission also extended the date by which non-accelerated filers must begin to comply with the Section 404(b) requirement to provide an auditor’s attestation report on internal control over financial reporting in their annual reports. This deadline was moved to the first annual report for a fiscal year ending on or after December 15, 2008. This provision has been further extended to 2009. The extension requires all non-accelerated filers to complete only the management’s portion of the internal control requirements in their first year of compliance with SOX 404. This modification is intended to provide cost savings and efficiency opportunities to smaller public companies and to assist them as they prepare to comply fully with SOX 404 reporting requirements. The extension will provide these issuers and their auditors an additional year to consider, and adapt to, the changes in Auditing Standard No. 2 that the Commission and the Public Company Accounting Oversight Board intend to make, as well as

the guidance for management the Commission has issued, to improve the efficiency of the Section 404(b) auditor attestation report process.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders
of TOT Energy, Inc.

We have audited the accompanying consolidated balance sheets of TOT Energy, Inc., f/n/a Splinx Technology, Inc., (a development stage company) as of March 31, 2008 and 2007, and the related consolidated statements of operations, changes in stockholders' deficiency in assets and cash flows for the years then ended and for the period from October 28, 2003 (inception), to March 31, 2008. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of TOT Energy Technologies, Inc. as of March 31, 2008 and 2007, and the related consolidated statements of operations, changes in stockholders' deficiency in assets and cash flows for the years then ended and for the period from October 28, 2003 (inception), to March 31, 2008 in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the Company has experienced recurring losses in the development stage. This raises substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

TOT ENERGY, INC. **f/n/a SPLINEX TECHNOLOGY, INC.**
(A DEVELOPMENT STAGE COMPANY)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Basis of Presentation

TOT Energy, Inc. (“Company” or “TOT”), f/n/a Splinex Technology, Inc., was organized under the laws of the State of Delaware as a wholly owned subsidiary of Splinex, LLC, a Florida limited liability company (the “Predecessor”), to conduct the business and operations of the Predecessor. Under an agreement effective April 1, 2004 (the “Contribution Agreement”), the Predecessor contributed substantially all of its assets, liabilities and operations to Technology. The financial statements include the accounts of Splinex Technology, Inc. and the Predecessor (combined, the “Company”), and all material intercompany transactions have been eliminated. The Company was a Shell Company until January 1, 2008 when TOT began pursuing acquisitions in the oil and gas industry.

Reclassifications

Certain prior period amounts have been reclassified to conform to the current year presentation.

Basis of Consolidation

The consolidated financial statements include the accounts of TOT Energy, Inc., formerly known as Splinex Technology, Inc. and Antao Ltd., a limited liability company formed under the laws of Russia. Antao Ltd. was a subsidiary of Splinex during fiscal 2007 only.

Business Activity

In 2004, the Company began developing visualization software, and commenced selling the software in 2005. Due to lack of significant sales, the Company substantially reduced its workforce and overhead costs beginning in September 2005. From September 2005 through July 2007, Ener1 Group, Inc., a related party, began loaning the Company money to fund its operations.

In December 2007, a related party structured a transaction that provided funds to the Company to settle its existing debts at a discount to the face amount of the obligations, restructured certain notes payable in exchange for newly issued common shares of the Company, and gave Splinex, LLC a substantial majority of the outstanding common shares (the “Splinex Restructuring”).

On December 17, 2007, TGR Capital, LLC acquired the controlling interest in Splinex and changed the Company’s business strategy to focus on service companies in the oil and gas sector. The Company has minimal sales and no sales contracts and is considered to be in the development stage as of March 31, 2008. TOT was classified as a shell company until January 1, 2008 when a business direction was chosen and the Company began to seek acquisitions in the oil and gas service industry.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the balance sheet date and the reported amounts of expenses for the period presented. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include highly liquid money market investments purchased with an original maturity of three months or less. At March 31, 2008 and 2007 the Company had no cash equivalents. The Company maintains its cash in a bank deposit account, the balance of which, at times, may exceed federally insured limits. Accounts are guaranteed by the Federal Deposit Insurance Corporation (FDIC) up to \$100,000. At March 31, 2008 and 2007, the Company had no deposits in excess of FDIC insured limits.

Foreign Currency Transactions

All transactions of the Company are denominated in U.S. dollars. The Company has not engaged in foreign currency hedging activities.

Stock-Based Compensation

Statement of Financial Accounting Standards ("SFAS") No. 123R, "Accounting for Stock-Based Compensation," requires companies to record employee stock option compensation at fair value. The Company adopted SFAS 123R during the quarter ending March 31, 2005. Stock options for 100,000 shares of stock were granted to Stuart Murdoch for his efforts as a board of director. At March 31, 2008, the Company has 100,000 options outstanding under its plan.

Software Development Costs

The Company no longer develops software. Prior to December 17, 2007, the Company accounted for software development costs in accordance with SFAS No. 86, "Accounting for the Costs of Computer Software to Be Sold, Leased or Otherwise Marketed." Costs incurred to establish the technological feasibility of a computer software product are considered research and development costs and are expensed as incurred. When the technological feasibility of a software product has been established using the working model approach, development cost are capitalized. Capitalization of these costs ceases when the product is ready for production. The Company has expensed all software development costs since Inception.

Revenue Recognition

The Company's revenues, net of sales returns and other allowances, were from the licensing of products. The Company recognized revenues in accordance with Statement of Position or "SOP" 97-2, "Software Revenue Recognition," as amended, SOP 81-1, "Accounting for Performance of Construction-Type and Certain Production-Type Contracts," and Staff Accounting Bulletin or "SAB" 104, "Revenue Recognition." The Company will recognize revenues when persuasive evidence of an arrangement exists, delivery has occurred, the vendor's fee is fixed or determinable, vendor-specific objective evidence exists for all undelivered elements of the arrangement and collection is determined to be probable.

Fixed assets

The Company depreciates computer equipment and software over the useful lives of such assets, generally three years. Fixed assets, consisting mainly of computer equipment are fully depreciated.

Earnings Per Share

Basic net earnings (loss) per common share are computed by dividing net earnings (loss) applicable to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net earnings (loss) per common share is determined using the weighted-average number of common shares outstanding during the

period, adjusted for the dilutive effect of common stock equivalents, consisting of shares that would be issued upon exercise of common stock options. In periods when losses are reported, the weighted-average number of common shares outstanding excludes common stock equivalents because their inclusion would be anti-dilutive.

During fiscal 2007, the Company had a loss of \$361,061 and consequently no common stock equivalents were included in the calculation of earnings per share. At March 31, 2007, the Company had 550,000 options outstanding that were not included in earnings per share. These options expired during fiscal 2008 and the company issued an additional 100,000 options to director Murdoch for services. These options are not part of earnings per share calculation for fiscal 2008 as they are anti-dilutive.

Fair Value of Financial Instruments

The Company's financial instruments consist mainly of cash, short-term payables and borrowings under the notes payable. The Company believes that the carrying amounts approximate fair value, due to their short-term maturities and current interest rates.

Impairment of Long-Lived Assets

The Company reviews its long-lived assets for impairment whenever events or changes indicate that the carrying amount of an asset or group of assets may not be recoverable. An impairment loss of \$20,000 and \$0 was recorded during the fiscal years ended March 31, 2007 and 2008, related to accounting software licenses no longer in use.

Other Income

Other income reflects gains from settlement for less than face value of various obligations due to vendors and former employees.

NOTE 2. GOING CONCERN CONSIDERATIONS

The Company's financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company is in the development stage and has had minimal revenues since Inception. Management recognizes that the Company must raise capital sufficient to fund business activities until such time as it can generate revenues and net cash flows in amounts necessary to enable it to continue in existence. The realization of assets and satisfaction of liabilities in the normal course of business is dependent upon the Company achieving these goals. Management's plans are to acquire companies in the oil and gas service business. TOT Energy plans to use stock, where appropriate, to fund a portion of these acquisitions.

Board composition

Effective February, 2008, our board of directors consisted of three members. The number of directors may change from time to time, solely as determined by resolution adopted by a majority of the board of directors. Our bylaws require a minimum of one director and allow a maximum of nine directors.

23

Currently, there is no one serving on the board who is a “financial expert” under the Commission’s standards and is “independent” as defined under Rule 4200(a)(15) of the National Association of Securities Dealers’ (“NASD”) Listing Standards for NASDAQ-listed companies.

Committees of the board of directors

In December 2004, our board of directors established a Nominating and Compensation Committee and an Audit Committee. Currently, there are no members of these committees.

Audit Committee

Our audit committee’s main function is to oversee our accounting and financial reporting processes, internal systems of control, independent auditor relationships and the audits of our financial statements. This committee’s responsibilities include:

- Selecting and hiring our independent auditors.
- Evaluating the qualifications, independence and performance of our independent auditors.
- Approving the audit and non-audit services to be performed by our independent auditors.
- Reviewing the design, implementation, adequacy and effectiveness of our internal controls and our critical accounting policies.
- Overseeing and monitoring the integrity of our financial statements and our compliance with legal and regulatory requirements as they relate to financial statements or accounting matters.
- Reviewing with management and our auditors any earnings announcements and other public announcements regarding our results of operations.
- Preparing the audit committee report we are required to include in filings with the Commission.

Currently, the board of directors is serving as the audit committee.

Code of Ethics

We have a Code of Ethics that applies to our officers and directors. The code provides written standards that are reasonably designed to deter wrongdoing and promote: (1) honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interests between personal and professional relationships; (2) full, fair, accurate, timely and understandable disclosure in reports and documents that we file with or submit to the SEC or in other public communications we make; (3) compliance with applicable laws, rules and regulations; (4) prompt reporting of internal violations of the code; and (5) accountability for the adherence to the code.

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors, executive officers and holders of more than 10% of our outstanding common stock to file with the Securities and Exchange Commission reports regarding their ownership and changes in ownership of the common stock. Based solely upon a review of copies of forms furnished to our company or written representations from certain reporting persons, each of our officers and directors and holders of more than 10% of our common stock timely filed the statement of changes in beneficial ownership on Form 4 or the statement of beneficial ownership on Form 3 pursuant to Section 16(a) during fiscal 2007. No Forms 3 or 4 were required during fiscal 2007.
