August 06, 2009

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2009

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number: 0-22196

INNODATA ISOGEN, INC.  
(Exact name of registrant as specified in its charter)

Delaware  
(State or other jurisdiction of  
incorporation or organization)

13-3475943  
(I.R.S. Employer  
Identification No.)

Three University Plaza  
Hackensack, New Jersey  
(Address of principal executive offices)

07601  
(Zip Code)

(201) 371-8000  
(Registrant's telephone number, including area code)

[None]

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Edgar Filing: INNODATA ISOGEN INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

The number of outstanding shares of the registrant's common stock, \$.01 par value, as of July 31, 2009 was 24,474,099.

1. Description of Business and Summary of Significant Accounting Policies

Description of Business-Innodata Isogen, Inc. and subsidiaries (the “Company”), is a leading provider of knowledge process outsourcing (“KPO”) services as well as publishing and related information technology (“IT”) services that help leading media, publishing and information service companies create, manage, use and maintain their products. Our publishing services include digitization, conversion, composition, data modeling and XML encoding, and our KPO services include research and analysis, authoring, copy-editing, abstracting, indexing and other content creation activities. Our staff of IT systems professionals design, implement, integrate and deploy systems and technologies used to improve the efficiency of authoring, managing and distributing content.

Basis of Presentation-The condensed consolidated financial statements for the interim periods included herein are unaudited; however, they contain all adjustments (consisting of only normal recurring adjustments) which, in the opinion of management, are necessary to present fairly the consolidated financial position of the Company as of June 30, 2009, and the results of its operations and its cash flows for the three and six months ended June 30, 2009 and 2008. The results of operations for the interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year.

These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2008 included in the Company's Annual Report on Form 10-K. Unless otherwise noted, the accounting policies used in preparing these condensed consolidated financial statements are the same as those described in the December 31, 2008 consolidated financial statements.

In May 2009, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards (“SFAS”) No. 165, “Subsequent Events” (“SFAS 165”), which established general accounting standards and disclosure for subsequent events. The Company adopted SFAS 165 during the second quarter of 2009. In accordance with SFAS No. 165, the Company has evaluated subsequent events through the date and time the financial statements were issued on August 6, 2009. No material subsequent events have occurred since June 30, 2009 that would require recognition or disclosure in these condensed consolidated financial statements.

Principles of Consolidation-The condensed consolidated financial statements include the accounts of Innodata Isogen, Inc. and its subsidiaries, all of which are wholly owned. All significant intercompany transactions and balances have been eliminated in consolidation.

Use of Estimates-In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include those related to revenue recognition, allowance for doubtful accounts and billing adjustments, long-lived assets, goodwill, valuation of deferred tax assets, valuation of securities underlying stock-based compensation, litigation accruals, pension benefits, valuation of derivative instruments and estimated accruals for various tax exposures.

---

**Foreign Currency-**The functional currency for the Company's production operations located in the Philippines, India, Sri Lanka and Israel is U.S. dollars. As such, transactions denominated in Philippines pesos, Indian and Sri Lankan rupees and Israeli shekels were translated to U.S. dollars at rates which approximate those in effect on the transaction dates. Monetary assets and liabilities denominated in foreign currencies at June 30, 2009 and 2008 were translated at the exchange rate in effect as of those dates. Nonmonetary assets, liabilities, and stockholders' equity were translated at the appropriate historical rates. Included in direct operating costs are exchange losses resulting from such transactions in the amounts of \$228,000 in the three months ended June 30, 2009. Exchange gains and losses resulting from such transactions were not material in the three months ended June 30, 2008. Exchange gains and losses resulting from such transactions were not material in the six months ended June 30, 2009 and 2008.

**Reclassifications-**Certain reclassifications have been made to the prior year's condensed consolidated financial statements to conform to the current period presentation.

#### Recent Accounting Pronouncements

In April 2009, the FASB issued FASB Staff Position No. FAS 141(R)-1, "Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies" ("FSP 141(R)-1"), to amend SFAS 141(R). FSP 141(R)-1 addresses the initial recognition, measurement and subsequent accounting for assets and liabilities arising from contingencies in a business combination, and requires that such assets acquired or liabilities assumed be initially recognized at fair value at the acquisition date if fair value can be determined during the measurement period. If the acquisition-date fair value cannot be determined, the asset acquired or liability assumed arising from a contingency is recognized only if certain criteria are met. This FSP also requires that a systematic and rational basis for subsequently measuring and accounting for the assets or liabilities be developed depending on their nature. Absent any material business combinations, the adoption of the FSP did not have any impact on the Company's condensed consolidated financial statements.

In April 2009, the FASB issued FSP FAS No. 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" ("FSP FAS 157-4"). This FSP provides additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to normal market activity for the asset or liability. The FSP also provides additional guidance on circumstances that may indicate that a transaction is not orderly. The adoption of the FSP did not have any impact on the Company's condensed consolidated financial statements.

In June 2009, the FASB issued SFAS No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles" ("SFAS 168"). SFAS 168 establishes the FASB Accounting Standards Codification ("Codification") as the single source of authoritative generally accepted accounting principles ("GAAP") to be applied by nongovernmental entities, except for the rules and interpretive releases of the SEC under authority of federal securities laws which are sources of authoritative GAAP for SEC registrants. All guidance contained in the Codification carries an equal level of authority. The Codification does not change GAAP. SFAS 168 is effective for interim and annual periods ending on or after September 15, 2009. The adoption of SFAS 168 is not expected to have any impact on the Company's consolidated results of operations and financial position.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
SIX MONTHS ENDED JUNE 30, 2009 AND 2008  
(Unaudited)

2. Long term obligations

Total long term obligations as of June 30, 2009 and December 31, 2008 consist of the following (amounts in thousands):

	2009	2008
Vendor obligations:		
Capital lease obligations	\$ 297	\$ 453
Deferred lease payments	68	89
Microsoft license	825	1,100
Pension obligations:		
Accrued pension liability	1,023	944
	2,213	2,586
Less: current portion of long term obligations	865	915
Totals	\$ 1,348	\$ 1,671

3. Income taxes

The Company had unrecognized tax benefits of \$854,000 and \$840,000 at June 30, 2009 and December 31, 2008, respectively. The portion of unrecognized tax benefits relating to interest and penalties were \$267,000 and \$253,000 at June 30, 2009 and December 31, 2008, respectively. \$678,000 and \$664,000 of the unrecognized tax benefits as of June 30, 2009 and December 31, 2008, respectively, if recognized, would have an impact on the Company's effective tax rate.

The following presents a roll forward of the Company's unrecognized tax benefits and associated interest for the six months ended June 30, 2009 (amounts in thousands):

	Unrecognized tax benefits
Balance - January 1, 2009	\$ 840
Interest accrual	14
Balance - June 30, 2009	\$ 854

The Company is subject to US federal income tax as well as income tax in various states and foreign jurisdictions. The Company is no longer subject to examination by federal and New Jersey taxing authorities for years prior to 2006. Various foreign subsidiaries currently have open tax years ranging from 2004 through 2008.

Pursuant to an income tax audit by the Indian Bureau of Taxation in March 2006, one of the Company's Indian subsidiaries received a tax assessment approximating \$339,000, including interest through June 30, 2009, for the fiscal tax year ended March 31, 2003. Management disagrees with the basis of the tax assessment, and has filed an appeal

against the assessment, which it will contest vigorously. The Indian Bureau of Taxation has also completed an audit of the Company's Indian subsidiary's income tax return for the fiscal tax year ended March 31, 2004. The ultimate outcome was favorable, and there was no tax assessment imposed for the fiscal tax year ended March 31, 2004. In December 2008, the Company received a final tax assessment for the fiscal year ended March 31, 2005 from the Indian Bureau of Taxation approximating \$333,000, including interest through June 30, 2009. Management disagrees with the basis of the tax assessment, has filed an appeal against the assessment and will contest it vigorously. In 2008, the Indian Bureau of Taxation commenced an audit of the subsidiary's income tax return for the fiscal year ended 2006. The ultimate outcome cannot be determined at this time.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
SIX MONTHS ENDED JUNE 30, 2009 AND 2008  
(Unaudited)

---

4. Commitments and contingencies

Line of Credit-The Company has a \$7.0 million line of credit pursuant to which it may borrow up to 80% of eligible accounts receivable. Borrowings under the credit line bear interest at the bank's alternate base rate plus ½% or LIBOR plus 3%. The line, which expires in August 2009, is collateralized by the Company's accounts receivable. The Company has no outstanding obligations under this credit line as of June 30, 2009. The Company plans on renewing the line of credit in the third quarter of 2009.

Litigation- The Supreme Court of the Republic of the Philippines has refused to review a decision of the Court of Appeals in Manila against a Philippines subsidiary of the Company that is inactive and has no material assets, and purportedly also against Innodata Isogen, Inc., that orders the reinstatement of certain former employees of the subsidiary to their former positions and also orders the payment of back wages and benefits that aggregate approximately \$7.5 million. Complainants have moved for execution of this decision before the Department of Labor and Employment National Labor Relations Commission, Republic of the Philippines, and the Department of Labor and Employment Office of the Secretary of Labor and Employment, Republic of the Philippines. Based on consultation with legal counsel, the Company believes that recovery against the Company is nevertheless unlikely.

The Company is also subject to various legal proceedings and claims which arise in the ordinary course of business. While management currently believes that the ultimate outcome of these proceedings will not have a material adverse effect on the Company's consolidated financial position or overall trends in results of operations, litigation is subject to inherent uncertainties. Substantial recovery against the Company in the above referenced Philippines actions could have a material adverse impact on the Company, and unfavorable rulings or recoveries in the other proceedings could have a material adverse impact on the operating results of the period in which the ruling or recovery occurs. In addition, the Company's estimate of the potential impact on the Company's consolidated financial position or overall results of operations for the above legal proceedings could change in the future.

5. Stock options

The Company adopted, with stockholder approval, the Innodata Isogen, Inc. 2009 Stock Plan (the "2009 Plan"). The maximum number of shares of common stock that may be delivered under the 2009 Plan is (i) 1,000,000 shares of common stock, plus (ii) 835,834, shares of common stock that were available for issuance under the Company's 2001 and 2002 Stock Option Plans (the "Prior Plans") as of the effective date of the 2009 Plan, plus (iii) any shares subject to an award or portion of any award under the Prior Plans that were outstanding as of the effective date of the 2009 Plan that expire or terminate unexercised, become unexercisable or are forfeited or otherwise terminated, surrendered or canceled as to any shares without the delivery of shares of common stock or other consideration, subject to adjustment for certain specified changes to the Company's capital structure. No further grants may be made under the Prior Plans.

INNODATA ISOGEN, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
SIX MONTHS ENDED JUNE 30, 2009 AND 2008  
(Unaudited)

All directors, officers and other employees and other persons who provide services to the Company are eligible to participate in the 2009 Plan. The 2009 Plan provides for the grants of stock option (which may be incentive stock options within the meaning of the Internal Revenue Code of 1986, as amended, or non-qualified stock options). The stock options granted may have a maximum term of up to ten years. The 2009 Plan also provides for awards of stock appreciation rights, restricted stock awards, stock units and performance grants.

The Company's board of directors may amend, alter, suspend, discontinue, or terminate the 2009 Plan or any portion thereof at any time; provided that no such amendment, alteration, suspension, discontinuation or termination shall be made without stockholder approval if such approval is necessary to comply with any tax or regulatory requirement applicable to the 2009 Plan ; and provided further that any such amendment, alteration, suspension, discontinuance or termination that would impair the rights of any participant or any holder or beneficiary of any award theretofore granted shall not to that extent be effective without the consent of the affected participant, holder or beneficiary. Notwithstanding the foregoing, the board of directors may unilaterally amend the 2009 Plan and outstanding awards without participant consent as it deems necessary or appropriate to ensure compliance with applicable securities laws and provisions of the Internal Revenue Code of 1986.

A summary of option activity under the Company's stock option plans as of June 30, 2009, and changes during the period then ended is presented below:

	Number of Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Outstanding at January 1, 2009	3,173,111	\$ 2.68		
Granted	-	-		
Exercised	(291,197)	2.85		
Forfeited/Expired	(51,000)	2.54		
Outstanding at June 30, 2009	2,830,914	\$ 2.66	4.22	\$ 5,430,702
Exercisable at June 30, 2009	2,782,246	\$ 2.65	4.15	\$ 5,365,478

The fair value of stock options is estimated on the date of grant using the Black-Scholes option pricing model. There were no options granted during the six months ended June 30, 2009 or 2008.

The total compensation cost related to non-vested stock options not yet recognized as of June 30, 2009 totaled approximately \$115,000. The weighted-average period over which these costs will be recognized is fourteen months.

The total intrinsic value of options exercised for the six months ended June 30, 2009 and 2008 was approximately \$330,000 and \$88,000, respectively. The total fair value of stock options vested during the six months ended June 30, 2009 was \$176,000.

The stock-based compensation expense related to the Company's various stock option plans were allocated as follows (in thousands):

	2009	2008	2009	2008
Direct operating costs	\$ 3	\$ 17	\$ 6	\$ 31
Selling and administrative expenses	80	17	160	42
Total stock-based compensation	\$ 83	\$ 34	\$ 166	\$ 73

6. Comprehensive income (loss)

The components of comprehensive income (loss) are as follows (in thousands):

	Three months ended		Six months ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Net income	\$ 3,204	\$ 36	\$ 6,785	\$ 869
Pension liability adjustment	(8)	20	(18)	41
Unrealized loss from derivatives	(138)	(858)	(138)	(949)
Comprehensive income (loss)	\$ 3,058	\$ (802)	\$ 6,629	\$ (39)

Accumulated other comprehensive income as reflected in the consolidated balance sheets consists of changes in transitional projected benefit obligation, net of taxes and changes in fair value of derivatives, net of taxes.

7. Restructuring charges

As part of the overall cost reduction plan to reduce operating costs, in December 2008, the Company announced a restructuring plan to reduce its global work force by approximately 260 employees, the majority of whom were based in Asia. The termination date for most of the affected employees was December 31, 2008.

As of December 31, 2008, accrued salaries, wages and related benefits included approximately \$210,000 related to restructuring costs charged in 2008. During the six months ended June 30, 2009, the Company paid these severance costs.

8. Segment reporting and concentrations

The Company operates in one reportable segment.

The following table summarizes revenues by geographic region (determined based upon customer's domicile) (in thousands):

INNODATA ISOGEN, INC. AND SUBSIDIARIES

SIX MONTHS ENDED JUNE 30, 2009 AND 2008  
(Unaudited)

	Three months ended		Six months ended	
	2009	June 30, 2008	2009	June 30, 2008
Unites States	\$ 18,186	\$ 13,769	\$ 36,389	\$ 28,452
The Netherlands	1,257	1,857	2,876	3,841
Other - principally Europe	2,192	2,244	4,185	3,977
	\$ 21,635	\$ 17,870	\$ 43,450	\$ 36,270

Long-lived assets as of June 30, 2009 and December 31, 2008, respectively, by geographic regions are comprised of (in thousands):

	2009	2008
United States	\$ 1,290	\$ 1,372
Foreign countries:		
Philippines	3,091	3,379
India	1,554	1,675
Sri Lanka	555	654
Israel	318	321
Total foreign	5,518	6,029
	\$ 6,808	\$ 7,401

The Company's top two clients generated approximately 50% and 44% of our revenues for the three months ended June 30, 2009 and 2008, respectively. No other client accounted for 10% or more of revenues during these periods. Further, for the three months ended June 30, 2009 and 2008, revenues from non-US clients accounted for 16% and 23%, respectively, of the Company's revenues.

The Company's top two clients generated approximately 53% and 47% of our revenues for the six months ended June 30, 2009 and 2008, respectively. No other client accounted for 10% or more of revenues during these periods. Further, for the six months ended June 30, 2009 and 2008, revenues from non-US clients accounted for 16% and 22%, respectively, of the Company's revenues.

A significant amount of the Company's revenues are derived from clients in the publishing industry. Accordingly, the Company's accounts receivable generally includes significant amounts due from such clients. In addition, as of June 30, 2009, approximately 18% of the Company's accounts receivable was from foreign (principally European) clients and 44% of accounts receivable was due from one client. As of December 31, 2008, approximately 22% of the Company's accounts receivable was from foreign (principally European) clients and 51% of accounts receivable was due from two clients.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
SIX MONTHS ENDED JUNE 30, 2009 AND 2008  
(Unaudited)

9.	Income per share	Three months ended		Six months ended	
		June 30,		June 30,	
		2009	2008	2009	2008
		(in thousands, except per share amounts)			
Net income		\$ 3,204	\$ 36	\$ 6,785	\$ 869
Weighted average common shares outstanding		24,249	24,600	24,194	24,662
Dilutive effect of outstanding options		1,124	808	718	1,145
Adjusted for dilution computation		25,373	25,408	24,912	25,807
Basic net income per share		\$ .13	\$ -	\$ .28	\$ .04
Diluted net income per share		\$ .13	\$ -	\$ .27	\$ .03

Basic income per share is computed using the weighted-average number of common shares outstanding during the year. Diluted income per share is computed by considering the impact of the potential issuance of common shares, using the treasury stock method, on the weighted average number of shares outstanding.

All options outstanding were included in the computation of diluted income per share for the three months ended June 30, 2009, as the exercise price was lower than the average market price. Options to purchase 340,000 shares of common stock for the three months ended June 30, 2008 were outstanding but not included in the computation of diluted income per share because the options' exercise price was greater than the average market price of the common shares and therefore, the effect would have been antidilutive.

Options to purchase 297,000 shares of common stock for the six months ended June 30, 2009 were outstanding but not included in the computation of diluted income per share because the options' exercise price was greater than the average market price of the common shares and therefore, the effect would have been antidilutive. For the six months ended June 30, 2008, all options outstanding were included in the computation of diluted income per share as the exercise price was lower than the average market price.

10. Derivatives

In the first quarter of 2009, the Company adopted SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133" ("SFAS 161"), which requires enhanced qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about the fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements.

The Company has a large portion of its operations in international markets that are subject to foreign currency fluctuations. The most significant foreign currency exposures occur when revenue and associated accounts receivable

are collected in one currency and expenses incurred in order to generate that revenue in another currency. The Company's primary exchange rate exposure relates to payroll, other payroll costs and operating expenses in the Philippines, India and Israel.

INNODATA ISOGEN, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
SIX MONTHS ENDED JUNE 30, 2009 AND 2008  
(Unaudited)

To manage its exposure to fluctuations in foreign currency exchange rates, the Company entered into foreign currency forward contracts, authorized under Company policies, with counterparties that were highly rated financial institutions. The Company utilized non-deliverable forward contracts expiring within twelve months to reduce its foreign currency risk.

The Company formally documents all relationships between hedging instruments and hedged items, as well as its risk management objective and strategy for undertaking hedge transactions. The Company does not hold or issue derivatives for trading purposes. All derivatives are recognized at their fair value and classified based on the instrument's maturity date. The total notional amount for outstanding derivatives as of June 30, 2009 was \$12.1 million, which is comprised of cash flow hedges denominated in U.S. Dollars.

As of December 31, 2008, there were no outstanding foreign currency forward contracts or other derivative instruments.

The following table presents the fair value of derivative instruments included within the condensed consolidated balance sheet as of June 30, 2009 (in thousands):

	Asset Derivative		Liability Derivative	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Derivative designated as hedging instruments under SFAS 133:				
	Prepaid expenses and other			
Foreign currency forward contracts	current assets	\$	—	\$ 138
Total derivative		\$	—	\$ 138

The effect of foreign currency forward contracts designated as cash flow hedges on our condensed consolidated statements of operations were as follows (in thousands):

	Three months ended June 30, 2009	Six months ended June 30, 2009
Net gain (loss) recognized in AOCI (1)	\$ (138)	\$ (138)
Net gain (loss) reclassified from accumulated AOCI into income	\$ —	\$ —
Net gain (loss) recognized in income	\$ —	\$ —

(1) Net change in the fair value of the effective portion classified in accumulated other comprehensive income ("AOCI").

The carrying amounts of financial instruments, including cash and cash equivalents, accounts receivable and accounts payable approximated fair value as of June 30, 2009 and December 31, 2008, because of the relative short maturity of these instruments. The carrying amounts of long term obligations approximated their fair value as of June 30, 2009 and December 31, 2008, based upon rates currently available to the Company.

INNODATA ISOGEN, INC. AND SUBSIDIARIES  
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
 SIX MONTHS ENDED JUNE 30, 2009 AND 2008  
 (Unaudited)

SFAS No. 157, “Fair Value Measurements” (“SFAS 157”) defines fair value as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The Company adopted FASB Staff Position No. 157-2, “Effective Date of FASB Statement No. 157” (“FSP 157-2”) on January 1, 2009, which delayed the effective date of SFAS 157 for all non-financial assets and non-financial liabilities, except for items that are recognized or disclosed at fair value on a recurring basis (at least annually). FSP 157-2 did not have any impact on the Company’s condensed consolidated financial statements.

SFAS 157 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value into three levels. The three levels are defined as follows:

- Level 1: Unadjusted quoted price in active market for identical assets and liabilities.
- Level 2: Observable inputs other than those included in Level 1.
- Level 3: Unobservable inputs reflecting management’s own assumptions about the inputs used in pricing the asset or liability.

The following table sets forth the financial assets and liabilities as of June 30, 2009 that the Company measured at fair value, on a recurring basis by level, within the fair value hierarchy (in thousands). As required by SFAS 157, assets and liabilities measured at fair value are classified in their entirety based on the lowest level of input that is significant to their fair value measurement.

	Level 1	Level 2	Level 3
<b>Assets</b>			
Derivatives	\$	—\$	—\$
<b>Liabilities</b>			
Derivatives	\$	—\$	138 \$

The Level 2 liabilities contain foreign currency forward contracts. Fair value is determined based on the observable market transactions of spot and forward rates. The fair value of these contracts as of June 30, 2009 is included in accrued expenses in the accompanying condensed consolidated balance sheets.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

Disclosures in this Form 10-Q contain certain forward-looking statements, including without limitation, statements concerning our operations, economic performance, and financial condition. These forward-looking statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. The words “estimate,” “believe,” “expect,” and “anticipate” and other similar expressions generally identify forward-looking statements, which speak only as of their dates.

These forward-looking statements are based largely on our current expectations, and are subject to a number of risks and uncertainties, including without limitation, the primarily at-will nature of the Company’s contracts with its customers and the ability of customers to reduce, delay or cancel projects, including projects that the Company regards as recurring, continuing revenue concentration in a limited number of clients, continuing reliance on project-based work, inability to replace projects that are completed, cancelled or reduced, depressed market conditions, changes in external market factors, the ability and willingness of our clients and prospective clients to execute business plans which give rise to requirements for digital content and professional services in knowledge processing, difficulty in integrating and deriving synergies from acquisitions, potential undiscovered liabilities of companies that we acquire, changes in our business or growth strategy, the emergence of new or growing competitors, various other competitive and technological factors, and other risks and uncertainties indicated from time to time in our filings with the Securities and Exchange Commission.

Our actual results could differ materially from the results referred to in the forward-looking statements. In light of these risks and uncertainties, there can be no assurance that the results referred to in the forward-looking statements contained in this release will occur.

We undertake no obligation to update or review any guidance or other forward-looking information, whether as a result of new information, future developments or otherwise.

#### Business Overview

We provide knowledge process outsourcing (KPO) services, as well as publishing and related information technology (IT) services, that help leading media, publishing and information services companies create, manage and maintain their products. We also provide our services to companies in other information-intensive industries, such as information technology, manufacturing, aerospace, defense, government, law and intelligence.

We help our clients lower costs, realize productivity gains and improve operations, enabling them to compete more effectively in demanding global markets.

Our publishing services include digitization, conversion, composition, data modeling and XML encoding. Our KPO services include research and analysis, authoring, copy-editing, abstracting, indexing and other content creation activities. We often combine publishing services and KPO services within a single client engagement, providing an end-to-end content supply chain solution.

Our staff of IT systems professionals design, implement, integrate and deploy systems and technologies used to improve the efficiency of authoring, managing and distributing content.

We use a distributed global resource model. Our onshore workforce works from our North American and European offices, as well as from client sites. Our distributed global workforce delivers services from our ten offshore facilities in India, the Philippines, Sri Lanka and Israel.

Services that we anticipate a client will require for an indefinite period generate what we regard as recurring revenues. Services that terminate upon completion of a defined task generate what we regard as project, or non-recurring, revenues.

Our business is organized and managed around three vectors: a vertical industry focus, a horizontal service/process focus, and a focus on supportive operations.

Our vertically-aligned groups understand our clients' businesses and strategic initiatives and are able to help them meet their goals. With respect to media, publishing and information services, for example, we have continued to hire experts out of that sector to establish solutions and services tailored to companies in that sector. They work with many of the world's leading media, publishing and information services companies, dealing with challenges involving new product creation, product maintenance, digitization, content management and content creation.

Our service/process-aligned groups are comprised of engineering and delivery personnel responsible for creating the most efficient and cost-effective custom workflows. These workflows integrate proprietary and third-party technologies, while harnessing the benefits of a globally distributed workforce. They are responsible for executing our client engagements in accordance with our service-level agreements and ensuring client satisfaction.

Our support groups are responsible for managing a diverse group of enabling functions, including human resources and recruiting, global technology infrastructure and physical infrastructure and facilities.

#### Revenues

Our publishing services include digitization, conversion, composition, data modeling and XML encoding and our KPO services include research and analysis, authoring, copy-editing, abstracting, indexing and other content creation activities. Our staff of IT systems professionals focus on the design, implementation, integration and deployment of digital systems used to author, manage and distribute content. We price our publishing services and KPO services based on the quantity delivered or resources utilized and generally recognize revenue in the period in which the services are performed and delivered. A substantial majority of our IT professional services is provided on a project basis that generates non-recurring revenues. We price our IT professional services on an hourly basis for actual time and expense incurred, or on a fixed-fee turn-key basis. Revenues for contracts billed on a time-and-materials basis are recognized as services are performed. Revenues under fixed-fee contracts, which are not significant to the overall revenues, are recognized on the percentage of completion method of accounting as services are performed or as portions of projects are completed.

#### Direct Operating Costs

Direct operating costs consist of direct payroll, occupancy costs, depreciation, telecommunications, computer services and supplies.

## Selling and Administrative Expenses

Selling and administrative expenses consist of management and administrative salaries, sales and marketing costs, new services research and related software development, professional fees and consultant costs, and other administrative overhead.

## Results of Operations

### Three Months Ended June 30, 2009 and 2008

#### Revenues

Revenues were \$21.6 million for the three months ended June 30, 2009 compared to \$17.9 million for the similar period in 2008, an increase of approximately 21%. The \$3.7 million increase in revenues, which is principally attributable to one client, reflects a \$0.1 million increase from recurring revenue and \$3.6 million from non-recurring project revenue.

Our top two clients generated approximately 50% and 44% of our revenues for the three months ended June 30, 2009 and 2008, respectively. No other client accounted for 10% or more of our total revenues for these periods. Further, for the three months ended June 30, 2009 and 2008, revenues from clients located in foreign countries (principally in Europe) accounted for 16% and 23% respectively, of our total revenues.

For the three months ended June 30, 2009, approximately 59% of our revenue was recurring and 41% was non-recurring, compared with 71% and 29%, respectively, for the three months ended June 30, 2008.

#### Direct Operating Costs

Direct operating costs were \$14.2 million and \$13.8 million for the three months ended June 30, 2009 and 2008, respectively, an increase of approximately 3%. Direct operating costs as a percentage of revenues for the three months ended June 30, 2009 and 2008 were 66% and 77% respectively.

The increase in direct operating costs was principally attributable to an increase in variable labor (management and production personnel) and other operating costs in support of increased revenue. The increase in direct operating costs was partially offset by cost savings from the restructuring activity undertaken in December 2008 and a favorable impact of foreign exchange rates of approximately \$1.4 million in direct operating costs resulting from a strengthening of the U.S. dollar against the Philippine peso and Indian rupee. The direct operating expenses as a percentage of revenues was lower in the three months ended June 30, 2009, compared to the corresponding 2008 period, principally due to higher revenues with less than proportional increases in fixed costs.

## Selling and Administrative Expenses

Selling and administrative expenses were \$3.1 million and \$4.1 million for the three months ended June 30, 2009 and 2008, respectively, a decline of approximately 25%. Selling and administrative expenses as a percentage of revenues was 14% and 23% for the three months ended June 30, 2009 and 2008, respectively. The lower percentage reflects reduced operating cost levels on a higher revenue base.

The decrease in selling and administrative expenses principally reflects cost reductions resulting from the restructuring program undertaken in December 2008, favorable impact of foreign exchange rates and reduction in payroll and other administrative costs.

## Income Taxes

For the three months ended June 30, 2009, we recorded a provision for income taxes for the U.S. entity and certain other foreign subsidiaries, as certain foreign subsidiaries are subject to tax holidays or preferential tax rates. In addition, certain overseas income is not subject to tax in the U.S. unless repatriated.

For the three months ended June 30, 2008, no provision for income taxes, other than alternative minimum tax, was recorded for our U.S. entity primarily due to utilization of net operating losses for which a valuation allowance was previously recorded against the corresponding deferred tax assets. In addition, certain overseas income is neither subject to foreign income taxes because of tax holidays granted to us, nor subject to tax in the U.S. unless repatriated.

## Net Income

We generated net income of \$3.2 million in the three months ended June 30, 2009 compared with net income of \$36,000 in the comparable period in 2008. The change was principally attributable to an increase in gross margin resulting from increased revenues and favorable foreign exchange rates, lower selling and administrative expenses as a percentage of revenues, partially offset by an increase in the provision for income taxes.

## Six Months Ended June 30, 2009 and 2008

### Revenues

Revenues were \$43.5 million for the six months ended June 30, 2009 compared to \$36.3 million for the similar period in 2008, an increase of approximately 20%. The \$7.2 million increase in revenues, which is principally attributable to one client, reflects a \$0.5 million increase from recurring revenue and \$6.7 million from non-recurring project revenue.

Our top two clients generated approximately 53% and 47% of our revenues for the six months ended June 30, 2009 and 2008, respectively. No other client accounted for 10% or more of our total revenues for these periods. Further, for the six months ended June 30, 2009 and 2008, revenues from clients located in foreign countries (principally in Europe) accounted for 16% and 22%, respectively, of our total revenues.

For the six months ended June 30, 2009, approximately 58% of our revenue was recurring and 42% was non-recurring, compared with 68% and 32%, respectively, for the six months ended June 30, 2008.

### Direct Operating Costs

Direct operating costs were \$27.3 million and \$27.1 million for the six months ended June 30, 2009 and 2008, respectively, an increase of 1%. Direct operating costs as a percentage of revenues for the six months ended June 30, 2009 and 2008 were 63% and 75% respectively.

The increase in direct operating costs was principally attributable to an increase in variable labor (management and production personnel) and other operating costs in support of increased revenue. The increase in direct operating costs was partially offset by cost savings from the restructuring activity undertaken in December 2008 and a favorable impact of foreign exchange rates of approximately \$3.2 million in direct operating costs resulting from a strengthening of the U.S. dollar against the Philippine peso and Indian rupee. The direct operating expenses as a percentage of revenues was lower in the six months ended June 30, 2009, compared to the corresponding 2008 period, principally due to higher revenues with less than proportional increases in fixed costs.

### Selling and Administrative Expenses

Selling and administrative expenses were \$6.7 million and \$8.4 million for the six months ended June 30, 2009 and 2008, respectively, representing a decline of approximately 21%. Selling and administrative expenses as a percentage of revenues was 15% and 23% for the six months ended June 30, 2009 and 2008, respectively. The lower percentage reflects reduced operating cost levels on a higher revenue base.

The decrease in selling and administrative expenses principally reflects cost reductions resulting from the restructuring program undertaken in December 2008, favorable impact of foreign exchange rates and reduction in payroll and other administrative costs.

### Income Taxes

For the six months ended June 30, 2009, we recorded a provision for income taxes for the U.S. entity and certain other foreign subsidiaries, as certain foreign subsidiaries are subject to tax holidays or preferential tax rates. In addition, certain overseas income is not subject to tax in the U.S. unless repatriated.

For the six months ended June 30, 2008, no provision for income taxes, other than alternative minimum tax, was recorded for our U.S. entity primarily due to utilization of net operating losses for which a valuation allowance was previously recorded against the corresponding deferred tax assets. In addition, certain overseas income is neither subject to foreign income taxes because of tax holidays granted to us, nor subject to tax in the U.S. unless repatriated.

### Net Income

We generated net income of \$6.8 million in the six months ended June 30, 2009 compared with a net income of approximately \$0.9 million in the comparable period in 2008. The change was principally attributable to an increase in gross margin resulting from increased revenues and favorable foreign exchange rates, lower selling and administrative expenses as a percentage of revenues, partially offset by an increase in the provision for income taxes.

### Liquidity and Capital Resources

Selected measures of liquidity and capital resources, expressed in thousands, are as follows:

	June 30, 2009	December 31, 2008
Cash and cash equivalents	\$ 23,118	\$ 13,875
Working capital	30,785	22,807

At June 30, 2009, we had cash and cash equivalents of \$23.1 million, representing a significant increase of \$9.2 million from December 31, 2008. We have used, and plan to use, such cash for (i) expansion of existing operations; (ii) general corporate purposes, including working capital; and (iii) possible acquisitions of related businesses. As of June 30, 2009, we had working capital of approximately \$30.8 million as compared to working capital of approximately \$22.8 million as of December 31, 2008. Accordingly, we do not anticipate any near-term liquidity issues.

### Net Cash Provided By Operating Activities

Cash provided by our operating activities for the six months ended June 30, 2009 was \$10.1 million, representing a significant increase from \$3.9 million for the six months ended June 30, 2008.

Cash provided by our operating activities for the six months ended June 30, 2009 was \$10.1 million resulting from a net income of \$6.8 million, adjustments for non-cash items of \$3.9 million and \$0.6 million used for working capital. Adjustments for non-cash items primarily consisted of \$1.8 million for depreciation and amortization and \$1.8 million for deferred income taxes. Working capital activities primarily consisted of a use of cash of \$0.4 million for an increase in prepaid expenses and other current assets and a use of cash of \$0.3 million in income and other taxes representing payments made to regulatory agencies, partially offset by a source of cash of \$0.2 million from an increase in accounts payable and accrued expenses due to the timing of payment.

Cash provided by our operating activities for the six months ended June 30, 2008 was \$4.0 million resulting from a net income of \$0.9 million, adjustments for non-cash items of \$2.5 million and \$0.6 million provided by working capital. Adjustments for non-cash items primarily consisted of \$1.8 million for depreciation and amortization and \$0.3 million for pension cost. Working capital activities primarily consisted of a source of cash of \$1.9 million for a decrease in accounts receivable due to timing of collection and a slight reduction in revenue, a use of cash of \$0.5 million for a decrease in accounts payable and accrued expenses representing payments to vendors and a use of cash of \$0.3 million in income and other taxes representing payments made to regulatory agencies.

At June 30, 2009, our days' sales outstanding were approximately 58 days as compared to 62 days as of December 31, 2008.

### Net Cash Used in Investing Activities

For the six months ended June 30, 2009, we spent cash approximating \$1.0 million for capital expenditures, compared to approximately \$1.6 million for the six months ended June 30, 2008. Capital spending in 2009 related principally to purchasing of routine technology equipment and software. Capital spending in 2008 related principally to purchasing of routine technology equipment and facility upgrades. During the next twelve months, we anticipate that capital expenditures for ongoing technology, hardware, equipment and infrastructure upgrades will approximate \$4.0 to \$4.5 million, a portion of which we may finance.

### Net Cash Used In Financing Activities

Cash proceeds received from the exercise of stock options amounted to approximately \$0.6 million and \$0.1 million for the six months ended June 30, 2009 and 2008, respectively. In addition, total payments of long term obligations approximated \$0.5 million, in each of the six months ended June 30, 2009 and 2008.

In March 2008, we renewed a vendor agreement, which had expired in February 2008, to acquire certain additional software licenses and to receive support and subsequent software upgrades on these and other currently owned software licenses through February 2011, for a total cost of approximately \$1.7 million, representing a non-cash investing and financing activity. In conjunction with this agreement, we paid approximately \$0.3 million, in each of the six months ended June 30, 2009 and 2008.

During the quarter ended June 30, 2008, we announced that the Board of Directors authorized the repurchase of up to \$2 million of its common stock. As of June 30, 2008, we had acquired approximately 430,000 shares of its common stock for \$1.4 million at a volume weighted average price of \$3.13 per share.

#### Future Liquidity and Capital Resource Requirements

We have a \$7.0 million line of credit pursuant to which we may borrow up to 80% of eligible accounts receivable. Borrowings under the credit line bear interest at the bank's alternate base rate plus ½% or LIBOR plus 3%. The line, which expires in August 2009, is collateralized by our accounts receivable. We have no outstanding obligations under this credit line as of June 30, 2009. We plan on renewing the line of credit in the third quarter of 2009.

We believe that our existing cash and cash equivalents, funds generated from our operating activities and funds available under our credit facility will provide sufficient sources of liquidity to satisfy our financial needs for the next twelve months. However, if circumstances change, we may need to raise debt or additional equity capital in the future.

#### Contractual Obligations

The table below summarizes our contractual obligations (in thousands) at June 30, 2009 and the effects that those obligations are expected to have on our liquidity and cash flows in future periods.

Contractual Obligations	Total	Payments Due by Period			
		Less than 1 year	1-3 years	4-5 years	After 5 years
Capital lease obligations	\$ 297	\$ 242	\$ 55	\$ -	\$ -
Non-cancelable operating leases	1,551	675	839	37	-
Long term vendor obligation	825	275	550	-	-
<b>Total contractual cash obligations</b>	<b>\$ 2,673</b>	<b>\$ 1,192</b>	<b>\$ 1,444</b>	<b>\$ 37</b>	<b>\$ -</b>

Future expected obligations under our pension benefit plan have not been included in the contractual cash obligations table above.

#### Inflation, Seasonality and Prevailing Economic Conditions

To date, inflation has not had a significant impact on our operations. We generally perform work for our clients under project-specific contracts, requirements-based contracts or long term contracts. Contracts are typically subject to numerous termination provisions.

Our quarterly operating results are subject to certain fluctuations. We experience fluctuations in our revenue and earnings as we replace and begin new projects, which may have some normal start-up delays, or we may be unable to replace a project entirely. These and other factors may contribute to fluctuations in our operating results from quarter to quarter.

### Critical Accounting Policies and Estimates

Our discussion and analysis of our results of operations, liquidity and capital resources is based on our consolidated financial statements which have been prepared in conformity with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates and judgments, including those related to revenue recognition, allowance for doubtful accounts and billing adjustments, long-lived assets, goodwill, valuation of deferred tax assets, value of securities underlying stock-based compensation, litigation accruals, pension benefits, valuation of derivative instruments and estimated accruals for various tax exposures. We base our estimates on historical and anticipated results and trends and on various other assumptions that we believe are reasonable under the circumstances, including assumptions as to future events. These estimates form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. By their nature, estimates are subject to an inherent degree of uncertainty. Actual results may differ from our estimates and could have a significant adverse effect on our results of operations and financial position. For a discussion of our critical accounting policies see Part II, Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2008. There have been no material changes to our critical accounting policies during the six months ended June 30, 2009.

### Recent Accounting Pronouncements

In April 2009, the FASB issued FASB Staff Position No. FAS 141(R)-1, "Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies" ("FSP 141(R)-1"), to amend SFAS 141(R). FSP 141(R)-1 addresses the initial recognition, measurement and subsequent accounting for assets and liabilities arising from contingencies in a business combination, and requires that such assets acquired or liabilities assumed be initially recognized at fair value at the acquisition date if fair value can be determined during the measurement period. If the acquisition-date fair value cannot be determined, the asset acquired or liability assumed arising from a contingency is recognized only if certain criteria are met. This FSP also requires that a systematic and rational basis for subsequently measuring and accounting for the assets or liabilities be developed depending on their nature. Absent any material business combinations, the adoption of this FSP did not have any impact on our condensed consolidated financial statements.

In April 2009, the FASB issued FSP FAS No. 157-4, "Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly" ("FSP FAS 157-4"). This FSP provides additional guidance on estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to normal market activity for the asset or liability. The FSP also provides additional guidance on circumstances that may indicate that a transaction is not orderly. The adoption of the FSP did not have any impact on our condensed consolidated financial statements.

In June 2009, the FASB issued SFAS No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles" ("SFAS 168"). SFAS 168 establishes the FASB Accounting Standards Codification, ("Codification") as the single source of authoritative generally accepted accounting principles ("GAAP") to be applied by nongovernmental entities, except for the rules and interpretive releases of the SEC under authority of federal securities laws, which are sources of authoritative GAAP for SEC registrants. All guidance contained in the Codification carries an equal level of authority. The Codification does not change GAAP. SFAS 168 is effective for interim and annual periods ending on or after September 15, 2009. The adoption of SFAS 168 is not expected to have any impact on our consolidated results of operations and financial position.

### Item 3. Quantitative and Qualitative Disclosures About Market Risk

#### Interest rate risk

We are exposed to interest rate change market risk with respect to our credit line with a financial institution which is priced based on the bank's alternate base rate (3.25% at June 30, 2009) plus ½% or LIBOR (0.31% at June 30, 2009) plus 3%. We have no outstanding obligations under this line. To the extent we utilize all or a portion of this line of credit, changes in the interest rate will have a positive or negative effect on our interest expense.

#### Foreign currency risk

We have operations in several international markets that are subject to foreign currency fluctuations. Although the majority of our contracts are denominated in U.S. Dollars, a substantial portion of the costs incurred to render services under these contracts is incurred in the local currencies of several international markets where we carry on our operations. Our significant operations are based in the Philippines, India and Israel where revenues are generated in U.S. Dollars and the corresponding expenses are generated in Philippine pesos, Indian rupees and Israeli shekels.

To mitigate the exposure of fluctuating future cash flows due to changes in foreign exchange rates, we entered into foreign currency forward contracts. These foreign currency forward contracts were entered into with a maximum term of twelve months and have an aggregate notional amount of approximately \$12.1 million as of June 30, 2009. We may continue to enter into such instruments or other instruments in the future to reduce foreign currency exposure to appreciation or depreciation in the value of these foreign currencies.

The impact of foreign currency will continue to present economic challenges to us and could negatively impact our overall results of operations. A 1% appreciation in the U.S. Dollar's value relating to the hedge currencies would decrease the forward contracts' fair value by approximately \$120,000 as of June 30, 2009. Similarly, a 1% depreciation in the U.S. Dollar's value relative to the hedge currencies would increase the forward contracts' fair value by approximately \$120,000. Any increase or decrease in the fair value of our currency exchange rate sensitive forward contracts, if utilized, would be substantially offset by a corresponding decrease or increase in the fair value of the hedged underlying cash flows.

Other than the aforementioned forward contracts, we have not engaged in any hedging activities nor have we entered into off-balance sheet transactions or arrangements.

As of June 30, 2009, our foreign locations held cash totaling approximately \$11.2 million.

### Item 4. Controls and Procedures

As of the end of the period covered by this report, we performed an evaluation under the supervision and with the participation of management, including our Chief Executive Officer and Interim Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e)) under the Securities and Exchange Act of 1934 (the Exchange Act)). Based upon that evaluation, our Chief Executive Officer and Interim Chief Financial Officer concluded that, as of the end of the period covered by this Quarterly Report, our disclosure controls and procedures were effective.

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) or 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

## Item 1. Legal Proceedings

There were no material changes from the legal proceedings previously disclosed in Part I, Item 3. "Legal Proceedings" in our Annual Report on Form 10-K for the year ended December 31, 2008.

## Item 1A. Risk Factors

There were no material changes from the risk factors previously disclosed in Part I, Item 1A. "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2008.

## Item 2. Unregistered Sales of Equity Securities and Use of Proceeds - None

## Item 3. Defaults Upon Senior Securities - None

## Item 4. Submission of Matters to a Vote of Security Holders

The following matters were voted on at the June 12, 2009 Annual Meeting of Stockholders. The total shares voted were 21,784,296.

## Election of Directors:

Nominee	For	Withheld
Jack Abuhoff	20,401,813	1,382,483
Haig Bagerdjian	19,942,811	1,841,485
Louise Forlenza	20,214,519	1,569,777
Stewart Massey	20,941,740	842,556
Todd Solomon	21,127,966	656,330
Anthea Stratigos	20,966,212	818,084

To ratify the selection and appointment by the Company's Board of Directors of J.H. Cohn LLP, independent registered public accounting firm, as auditors for the Company for the year ending December 31, 2009.

	For	Against	Abstain
Auditors	21,551,444	159,348	73,504

To approve the Innodata Isogen, Inc. 2009 Stock Plan.

	For	Against	Abstain	Broker Non-Vote
Stock Plan	7,683,756	2,062,856	189,570	11,848,114

## Item 5. Other Information - None

Item 6. Exhibits

31.1 Certificate of Chief Executive Officer pursuant to Section 302 of the Sarbanes Oxley Act of 2002.

31.2 Certificate of Interim Chief Financial Officer pursuant to Section 302 of the Sarbanes Oxley Act of 2002.

32.1 Certification Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certification Pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
