Item 1. Business

Company Overview

Derycz Scientific, Inc. (“Derycz,” “Derycz Scientific,” “we” or the “Company”) is a publicly traded holding company with one wholly owned subsidiary, Reprints Desk, Inc. (“Reprints” or “Reprints Desk”) and one majority owned subsidiary, Pools Press, Inc. (“Pools” or “Pools Press”). Derycz, through Reprints and Pools, provides its customers with copies of published content, such as articles from published journals, in either electronic or hard copy form. Our customers use this content for marketing, regulatory or research purposes. Generally, marketing departments order large quantities of printed copies that they distribute to their customers. Researchers generally order single copies of the content. Our service alleviates the need for our customers to contact any publisher or obtain permissions themselves. In addition, we ensure that we have obtained the necessary permissions from the owners of the content’s copyrights so that the reproduction complies with copyright laws. We also offer a reprints service to publishers, whereby we are responsible for all aspects of reprint production, from taking orders to final shipment. This service eliminates the need for the publishers to establish a dedicated reprints sales force or arrange for delivery of reprinted materials. Pools Press also offers other commercial printing products, such as the production of business cards and newsletters.

We aggregate published materials and charge a fee for copies of them. When possible, we obtain exclusive licenses and discounts from content producers, such as publishers. We have a fixed pricing structure for single copy orders and variable pricing for orders of multiple copies. For single copies of an article we charge a fee above the cost of the article as well as a shipping fee if the article is sent in hard copy form. For multiple copies of an article, we generally obtain a price from the publisher and then add a service fee, which is dependent on the customer, the size of the order, the complexity of the order and other considerations. When possible we obtain the right to print the reprints from the holder of the copyright and we print and ship the reprints ourselves. However, many publishers have exclusive agreements with particular printers and we are required to use those printers. By purchasing the reprints or the rights to print from the publisher we are able to ensure our customers that they have proper rights under copyright laws to use the content, provided that they use the content only as specified in the order they placed with us.

Reprints Desk’s customer base grew from approximately 80 customers at June 30, 2008 to over 150 customers on June 30, 2009. In 2008, our services were ranked first in all four categories in the 2008 Document Delivery Scorecard, a customer satisfaction survey conducted by Outsell, an information industry analyst. Reprints Desk was also named to KMWorld’s “100 knowledge management companies that matter” (one of the youngest companies ever to have achieved that distinction) and it earned a 97% customer satisfaction rating from the Dun & Bradstreet 2009 Open Ratings evaluation, relative to other companies with similar classifications.

Our overall revenue grew 20% during fiscal 2009. While we had hoped to increase our revenues by a larger amount, the economic climate has reduced the marketing and research budgets of many of our customers and as a result their order volume has decreased. However, we expect the order volume to increase as the economy recovers and we continue to add new customers.

Publishers typically produce their content in order to generate subscription and advertising sales. The sale of published content generates additional revenues at little or no additional cost to the publisher. As an example, if an article contains a favorable mention of a chemical compound, the manufacturer of that compound may want to send its customers and potential customers copies of the article. These copies are called “reprints.” Reprints have traditionally been used primarily in the pharmaceutical, biotechnology and medical device industries both for research purposes and for marketing purposes. We expect that the use of reprints will gain in popularity in other industries due to society’s increasing sophistication and desire for information. Published articles are useful marketing and information

dissemination tools because they provide a third party, unbiased endorsement of a company, product or service. Articles can effectively describe the science behind a product or its effectiveness more thoroughly than traditional advertising. Published content is also used effectively for internal corporate training and education, as well as for research and regulatory needs.

During fiscal 2009 we entered into agreements with several publishers which gave us the ability to acquire their content electronically, making it easier and faster for us to deliver the content to our customers.

The Industry

The size of the reprint market is difficult to estimate because it is a small part of the larger publishing industry and little financial information relating specifically to the market for reprints is available. As a new business, we believe we have a small fraction of that market. However, we believe that we are able to compete with larger providers based on our customer service and our order processing system. In addition, we have internal printing capability. As a result, we are often able to substantially reduce the time it takes to deliver the reprints to our customers.

Growth Strategy

Organic Growth. The Company attempts to reach customers through the use of targeted selling and marketing campaigns consisting of sales calls on potential customers, supported by aggressive pricing and excellent service.

Publisher Agreements. We regularly contact publishers directly and attempt to negotiate agreements with them under which the publisher would give us access to part or all of their content and would agree to a price list. Once we have access and a price list, when we receive an order for a particular article we can access the article electronically, print the required number of copies and provide it to the customer within a few days. These agreements eliminate the need to contact the publisher and obtain the rights for each individual order. Because this step is eliminated, we attempt to negotiate for discounts on the publisher's existing price list. Ideally, we would like to become the exclusive producer of reprints for a publisher, allowing the publisher to eliminate the need for a reprints staff internally.

Acquisitions. The Company may attempt to acquire companies in the industry that bring revenue, profitability, growth potential and additional products and/or services to the Company. The Company has targeted several potential acquisition opportunities. We intend to implement acquisitions primarily through stock transactions, supplemented only when necessary with a cash component. While we have entered into preliminary discussions with three potential targets, we have not entered into any letter of intent or other agreement relating to any target nor have we determined the financial terms of any potential acquisition. We are continuing to evaluate whether or not to pursue any opportunity further.

International Expansion. The Company operates primarily in the U.S. market, but has expanded internationally through sales to companies located abroad, particularly in Europe, and we hope to continue that growth through partnerships or acquisition opportunities. We have begun selling reprints to a small number of customers in Europe, and we are currently in discussions with the owners of a commercial printer located in France regarding the potential acquisition of their company.

Our Products and Services

Reprints, ePrints and Article Distribution Systems. The Company has developed services that provide reprints, ePrints and single copies of articles to its customers. We accept reprint orders by email or phone, and we have developed an internet-based ordering system that allows customers to initiate, at any time, orders by specifying the citation or other identifying information related to the particular article they need. In some cases, we are able to fulfill the order without the need for action on the part of our employees. In addition, we have internal printing capability. Because of this, if we are able to obtain the right from the publisher to print the reprint ourselves, rather than purchasing the printed reprints through the publisher, we are generally able to substantially reduce the time it takes to deliver the reprints to our customers. However, we are currently only able to obtain such print rights on a small portion of our orders.

Publisher Outsourced Reprint Management. Derycz Scientific helps publishers grow and manage their reprints business by providing a reprints service whereby we are responsible for all aspects of reprint production, from taking orders to final shipment. This service eliminates the need for the publishers to establish a dedicated reprints sales force or arrange for delivery of reprinted materials. While we do not charge the publishers for this service, we generate revenue by selling participating publishers' reprints to customers.

Print on Demand. The Company has begun to provide a print on demand service to some customers. By using this service, a customer can print one or more hard copies or send an electronic copy of a frequently used article without having to place a separate order for each use of the article with the publisher. Uses could include article reprints, course-packs, custom books, and other content re-use printing that requires strict adherence to copyright law in the

printing process.

Logistics. The Company is developing a service which will allow a customer to print a large quantity of reprints at one time and store them with us. We will then send them to the customer as they need them. We also have technology which allows us to monitor the number of times an electronic copy of an article has been viewed or printed. This technology allows a customer to order a large quantity of electronic copies and use them as needed while providing assurance to the publisher that the customer will not exceed the number of views that were sold.

Sales and Marketing

Derycz identifies target customers and communicates with them directly, offering our various services through traditional cold-calling efforts. We also attempt to increase our awareness to the market through attendance at publishing industry fairs and conferences.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our results of operations and financial condition for the years ended June 30, 2009 and 2008 should be read in conjunction with our financial statements and the notes to those financial statements that are included elsewhere in this report. Our discussion includes forward-looking statements based upon current expectations that involve risks and uncertainties, such as our plans, objectives, expectations and intentions. Actual results and the timing of events could differ materially from those anticipated in these forward-looking statements as a result of a number of factors, including those set forth under the "Business" section and elsewhere in this report. We use words such as "anticipate," "estimate," "plan," "project," "continuing," "ongoing," "expect," "believe," "intend," "may," "will," "could," and similar expressions to identify forward-looking statements. All forward-looking statements included in this report are based on information available to us on the date hereof and, except as required by law, we assume no obligation to update any such forward-looking statements.

Overview

Derycz Scientific, Inc. (the "Company" or "Derycz") was incorporated in the State of Nevada on November 2, 2006. In November 2006 the Company entered into a Share Exchange Agreement with Reprints Desk, Inc. ("Reprints"). At the closing of the transaction contemplated by the Share Exchange Agreement, the Company acquired all of the outstanding shares of Reprints from the shareholders of Reprints and issued 8,000,003 of its common shares to the shareholders. Following completion of the exchange transaction, Reprints became a wholly owned subsidiary of the Company.

On February 28, 2007, the Company entered into an agreement with Pools Press, Inc. ("Pools") of Northbrook, Illinois, a privately held company, pursuant to which the Company acquired 75% of the issued and outstanding common stock of Pools for consideration of \$616,080. Pools is a commercial printer, specializing in reprints of copyrighted articles. The results of Pools Press' operations have been included in the consolidated financial statements since March 1, 2007.

Derycz, through Reprints and Pools, provides copies of published content, such as articles from published journals, in either electronic or hard copy form. Our customers use this content for marketing or research purposes. Generally, marketing departments order large quantities of printed copies that they distribute to their customers. Researchers generally order single copies of the content. Our service alleviates the need for our customers to contact any publisher or obtain permissions themselves. In addition, we ensure that we have obtained the necessary permissions from the owners of the content's copyrights so that the reproduction complies with copyright laws. We also offer reprints service to publishers, whereby we are responsible for all aspects of reprint production, from taking orders to final shipment. This service eliminates the need for the publishers to establish a dedicated reprints sales force or arrange for delivery of reprinted materials. Pools Press also offers other commercial printing products, such as the production of business cards and newsletters.

Results of Operations

Year Ended June 30, 2009 Compared to the Year Ended June 30, 2008:

Sales and Cost of Goods Sold

We achieved revenues of \$14,653,374 for the year ended June 30, 2009, compared to revenue of \$12,209,916 for the year ended June 30, 2008, an increase of 20%. Our revenues for last six fiscal quarters have been \$4,205,195, \$3,818,500, \$3,426,953, \$3,202,726, \$4,143,157 and \$2,910,183, respectively. These revenues have increased each quarter compared to the prior quarter, with the exception of the quarter ending September 30, 2008 as a result of a very strong 4th quarter in the 2008 fiscal year. We expect revenues to continue to increase during the 2010 fiscal

year.

The revenue of our main operating company, Reprints, increased from \$10,086,255 for the year ended June 30, 2008, to \$13,196,956 for the year ended June 30, 2009, an increase of 31%. Pools Press contributed the remainder of the revenue.

Our cost of goods sold increased from \$10,023,768 for the year ended June 30, 2008, to \$11,413,544 for the year ended June 30, 2009, which represents an increase of 14%, which is lower than the percentage increase in our revenues.

Our gross margin increased from 18% during the year ended June 30, 2008 to 22% for the year ended June 30, 2009. This has been a result of increased sales of higher margin products.

We anticipate that our sales will increase by at least 20% during the 2010 fiscal year. Because our customers are spending cautiously we will have to rely heavily on new customer acquisition and new products and services to achieve that growth. We expect our cost of goods sold to continue to increase by a lower percentage than our revenues. This is a result of efficiencies gained as a result of increased volume as well as changes to our product mix towards higher margin products and services. However, most of our costs are determined by the publishers from whom we purchase media for each individual order and they do not generally grant significant discounts.

6

Operating Expenses

General and Administrative

Our general and administrative expenses increased 77% from \$2,268,895 for the year ended June 30, 2008 to \$4,019,065 for the year ended June 30, 2009. These expenses include Reprints' salary costs, which were \$1,133,710 in the 2008 fiscal year and \$1,940,708 in the 2009 fiscal year, an increase of \$806,998 or 71%. During 2009 we added an additional salesperson as well as a marketing manager and operations staff in order to increase our customer base and to assist with implementation of and service new accounts. We also incurred investor relations expenses totaling \$571,445 during the 2009 fiscal year compared to \$57,969 in the 2008 period, an increase of \$513,476 or roughly 900%. These expenses were incurred after our stock was listed on the Over-the-Counter Bulletin Board in an effort to increase the visibility and ownership of our stock. We do not expect to incur this level of investor relations expense in fiscal 2010. However, we will continue to incur significant expenses related to investor relations as a result of being a publicly traded company. Also included in this figure is the expense related to stock option grants of \$161,271 in the 2009 year and \$110,867 in fiscal 2008. We do not plan to make any additional large option grants during the 2010 fiscal year. Also included in this figure is the expense related to stock option grants of \$161,271 in the 2009 year and \$110,867 in fiscal 2008. We do not plan to make any additional large option grants during the 2010 fiscal year.

Marketing and Advertising

Our marketing and advertising expenses increased from \$40,437 for the year ended June 30, 2008, to \$158,524, an increase of \$118,087 or 292%. We expanded our marketing efforts during the 2009 fiscal year and we expect our marketing costs will increase to approximately \$250,000 during fiscal 2010.

Depreciation and Amortization

Our depreciation expense decreased from \$236,724 for the year ended June 30, 2008, to \$235,660 during the year ended June 30, 2009, a decrease of \$1,064 or less than 1%. Pools' share of these expenses was \$37,471 in the 2009 period and included \$36,667 related to the amortization of Pools' customer list, which has been fully depreciated as of June 30, 2009.

Unrealized loss on marketable securities

We recognized unrealized losses on our short-term investments of \$33,660 during the year ended June 30, 2008 and realized gains of \$33,668 during the year ended June 30, 2009. These investments consisted of preferred stock auction rate securities held in an account with UBS Financial Services, Inc., and the losses were based on valuations by UBS. In January 2009, we received cash for the par value of the outstanding auction rate securities.

Realized loss on sale of fixed assets

We recognized losses on the sale of fixed assets of \$5,367 and \$0 during the years ended June 30, 2008 and 2009, respectively. We realized the 2008 loss upon the sale of a vehicle used by the previous owner of Pools Press.

Interest Expense

Interest expense was \$32,313 for the year ended June 30, 2008, and \$34,993 for the year ended June 30, 2009, and increase of \$2,680 or 8%. This interest expense was primarily attributable to the interest paid on a credit line with UBS that was secured by marketable securities. This credit line was cancelled in January 2009 when we liquidated our position in the marketable securities.

Interest Income

Interest income was \$111,336 for the year ended June 30, 2008, and decreased to \$39,528 for the year ended June 30, 2009, a decrease of \$71,808 or 64%. This interest income was primarily attributable to the interest earned on investments in marketable securities.

Other Income

The Company earned \$98,605 in other income in during the year ended June 30, 2009. No such income was earned in fiscal 2008. This income represents income we receive from publishers and customers for miscellaneous services.

Net Loss

We had a net loss of \$338,321 for the year ended June 30, 2008 compared to a net loss of \$1,066,041 for the year ended June 30, 2009. Investor relations expenses of \$571,445 represented over half of the net loss for 2009. When the Company was founded, three of the Company's objectives were, a) to build an experienced and highly capable management team, b) to grow revenues and acquire customers while developing new products and services for those customers and c) to become publicly traded. While we are still in our early stages of development and have incurred considerable expenses thus far, we have accomplished those goals. We anticipate that our revenues will continue to grow, our gross margins will continue to improve and we hope to achieve a modest profit during the fiscal year ending June 30, 2010.

Liquidity and Capital Resources

Since our inception, we have funded our operations primarily through private sales of equity securities. Reprints Desk's initial investors were Bristol Capital, LLC, which is owned by Paul Kessler and Diana Derycz-Kessler, Bristol Investment Fund, Ltd., over which Paul Kessler has investment and voting control, and three employees of Bristol Capital, LLC, including the current Chief Financial Officer of Derycz, Richard McKilligan. These initial investors purchased 275,000 shares of Reprints Desk for a total of \$275,000. Their 275,000 shares were converted into a total of 4,000,003 common shares of Derycz Scientific in November 2006. Peter Derycz, as the founder of Reprints Desk, paid \$275 for his 275,000 shares of Reprints Desk, which were exchanged for 4,000,000 common shares of Derycz Scientific. On December 22, 2006, we sold units consisting of 4,500,000 shares of common stock and warrants to purchase 2,250,000 shares of common stock at an exercise price of \$1.25 per share to 45 accredited investors in a private transaction. We received \$4,500,000 in proceeds from this transaction.

On July 17, 2008, we sold 400,017 shares of common stock and warrants to purchase 200,009 shares of common stock at an exercise price of \$2.00 per share at anytime prior to July 17, 2011 for an aggregate purchase price of \$600,025. These shares and warrants were sold to a total of 4 investors.

As of June 30, 2009, we had cash of \$1,854,093.

Net cash provided by operating activities was \$233,767 for the year ended June 30, 2009 compared to net cash used in operating activities of \$932,306 for the year ended June 30, 2008. The \$1,166,073 increase in cash provided by operating activities was due primarily to an increase in accounts receivable of \$380,690 and an increase in accounts payable of \$1,039,382 which offset the net loss of \$1,066,041.

Net cash provided by investing activities was \$1,478,452 for the year ended June 30, 2009 compared to net cash provided by investing activities of \$302,052 for the year ended June 30, 2008. The \$1,176,400 difference in cash flows from investing activities was due to the proceeds from the sale of our short term investments of \$1,665,298 in the 2009 period.

Net cash used in financing activities was \$707,960 for the year ended June 30, 2009 compared to net cash provided by financing activities of \$1,097,501 for the year ended June 30, 2008. The decrease in cash provided by financing activities was due primarily to our repayment of our credit line associated with our short term investments of \$1,291,855 during the 2009 period. We made no sales of our common stock during the year ended June 30, 2009.

We believe that our current cash resources will be sufficient to sustain our current operations for at least one year. We may need to obtain additional cash resources during the next year if we are able to acquire complementary businesses or if we add large customers and experience a corresponding increase in our accounts receivable. The need for cash to finance acquisitions will depend on the businesses acquired and we cannot predict those needs with any certainty. In the event such funds are needed, we may engage in additional sales of debt or equity securities. The sale of additional equity or convertible debt securities would result in additional dilution to our shareholders. The issuance of additional debt would result in increased expenses and could subject us to covenants that may have the effect of restricting our operations. We have not made arrangements to obtain additional financing and we can provide no assurance that additional financing will be available in an amount or on terms acceptable to us, if at all.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements and accompanying notes, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and related

disclosure of contingent assets and liabilities. When making these estimates and assumptions, we consider our historical experience, our knowledge of economic and market factors and various other factors that we believe to be reasonable under the circumstances. Actual results may differ under different estimates and assumptions.

The accounting estimates and assumptions discussed in this section are those that we consider to be the most critical to an understanding of our financial statements because they inherently involve significant judgments and uncertainties.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from these estimates.

Revenue Recognition

The Company applies the provisions of the Securities and Exchange Commission (“SEC”) Staff Accounting Bulletin (SAB) No. 104, “Revenue Recognition in Financial Statements,” which provides guidance on the recognition, presentation and disclosure of revenue in financial statements filed with the SEC. SAB No. 104 outlines the basic criteria that must be met to recognize revenue and provides guidance for disclosure related to revenue recognition policies. In general, the Company recognizes revenue when (i) persuasive evidence of an arrangement exists, (ii) shipment of products has occurred or services have been rendered, (iii) the sales price charged is fixed or determinable and (iv) collection is reasonably assured.

The Company recognizes revenues from printing services when services have been rendered and accepted by the customer while revenues from the re-use of published articles and rights management services are recognized upon shipment or electronic delivery to the customer.

Included in revenues are fees charged to customers for shipping, handling and delivery services.

Impairment of Long-lived Assets

SFAS No. 144, “Accounting for the Impairment or Disposal of Long-Lived Assets,” requires that long-lived assets to be disposed of by sale, including those of discontinued operations, be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or in discontinued operations. SFAS No. 144 broadens the reporting of discontinued operations to include all components of an entity with operations that can be distinguished from the rest of the entity and that will be eliminated from the ongoing operations of the entity in a disposal transaction. SFAS No. 144 also establishes a “primary-asset” approach to determine the cash flow estimation period for a group of assets and liabilities that represents the unit of accounting for a long-lived asset to be held and used. The Company has no impairment issues to disclose.

Stock Based Compensation

The Company adopted SFAS No. 123 (Revised 2004), “Share Based Payment” (“SFAS No. 123R”). SFAS No. 123R requires companies to measure and recognize the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value. SFAS No. 123R eliminates the ability to account for the award of these instruments under the intrinsic value method prescribed by Accounting Principles Board (“APB”) Opinion No. 25, “Accounting for Stock Issued to Employees,” and allowed under the original provisions of SFAS No. 123. As of June 30, 2007, the Company had no employee options outstanding.

Recent Accounting Pronouncements

In May 2009, the FASB issued SFAS No. 165 “Subsequent Events” (“SFAS 165”). SFAS 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS 165 sets forth (1) The period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, (2) The circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements and (3) The disclosures that an entity should make about events or transactions that occurred after the balance sheet date. SFAS 165 is effective for interim or annual financial periods ending after June 15, 2009. The adoption of this statement did not have a material effect on the Company’s financial statements.

In June 2009, the FASB issued SFAS No. 166 “Accounting for Transfers of Financial Assets*an amendment of FASB Statement No. 140” (“SFAS 166”). SFAS 166 improves the relevance, representational faithfulness, and comparability of

the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets. SFAS 166 is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. The Company is evaluating the impact the adoption of SFAS 166 will have on its financial statements.

In June 2009, the FASB issued SFAS No. 167 "Amendments to FASB Interpretation No. 46(R)" ("SFAS 167"). SFAS 167 improves financial reporting by enterprises involved with variable interest entities and to address (1) the effects on certain provisions of FASB Interpretation No. 46 (revised December 2003), "Consolidation of Variable Interest Entities", as a result of the elimination of the qualifying special-purpose entity concept in SFAS 166 and (2) constituent concerns about the application of certain key provisions of Interpretation 46(R), including those in which the accounting and disclosures under the Interpretation do not always provide timely and useful information about an enterprise's involvement in a variable interest entity. SFAS 167 is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. The Company is evaluating the impact the adoption of SFAS 167 will have on its financial statements.

In June 2009, the FASB issued SFAS No. 168 "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles* a replacement of FASB Statement No. 162". The FASB Accounting Standards Codification ("Codification") will be the single source of authoritative nongovernmental U.S. generally accepted accounting principles. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. SFAS 168 is effective for interim and annual periods ending after September 15, 2009. All existing accounting standards are superseded as described in SFAS 168. All other accounting literature not included in the Codification is nonauthoritative. The Codification is not expected to have a significant impact on the Company's financial statements.

In December 2007, the FASB issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51". SFAS No. 160 establishes accounting and reporting standards that require that the ownership interests in subsidiaries held by parties other than the parent be clearly identified, labeled, and presented in the consolidated statement of financial position within equity, but separate from the parent's equity; the amount of consolidated net income attributable to the parent and to the noncontrolling interest be clearly identified and presented on the face of the consolidated statement of income; and changes in a parent's ownership interest while the parent retains its controlling financial interest in its subsidiary be accounted for consistently. SFAS No. 160 also requires that any retained noncontrolling equity investment in the former subsidiary be initially measured at fair value when a subsidiary is deconsolidated. SFAS No. 160 also sets forth the disclosure requirements to identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. SFAS No. 160 applies to all entities that prepare consolidated financial statements, except not-for-profit organizations, but will affect only those entities that have an outstanding noncontrolling interest in one or more subsidiaries or that deconsolidate a subsidiary. SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. SFAS No. 160 must be applied prospectively as of the beginning of the fiscal year in which it is initially applied, except for the presentation and disclosure requirements. The presentation and disclosure requirements are applied retrospectively for all periods presented.

The Company does not believe that the adoption of the above recent pronouncements will have a material effect on the Company's consolidated results of operations, financial position, or cash flows.

Off-Balance Sheet Arrangements

At June 30, 2009, we had no obligations that would require disclosure as off-balance sheet arrangements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
Derycz Scientific, Inc. and Subsidiaries
Los Angeles, California

We have audited the consolidated balance sheets of Derycz Scientific, Inc. (the "Company") and Subsidiaries as of June 30, 2009 and 2008, and the related consolidated statements of operations, stockholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Derycz Scientific, Inc and Subsidiaries as of June 30, 2009 and 2008 and the consolidated results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

DERY CZ SCIENTIFIC, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
For the Years Ended June 30, 2009 and 2008

Note 1 — Organization, Nature of Business and Basis of Presentation

(a) Organization

Derycz Scientific, Inc. was incorporated in the State of Nevada on November 2, 2006. On November 2, 2006 the Company entered into a Share Exchange Agreement with Reprints Desk, Inc., a Delaware corporation formed on January 6, 2006. Derycz was formed to facilitate a holding company structure. At the closing of the transaction contemplated by the Share Exchange Agreement, the Company acquired all of the 550,000 outstanding shares of Reprints from the shareholders of Reprints and issued 8,000,003 of its common shares to the shareholders of Reprints. As the intention behind forming Derycz was the creation of a holding company structure and Derycz had no appreciable assets prior to the acquisition of Reprints, the exchange ratio was determined arbitrarily and was not based on any determination of the value of shares of Derycz common stock as compared to Reprints shares acquired. As each former Reprints shareholder acquired a percentage interest in Derycz equal to the percentage interest such shareholder held in Reprints immediately prior to the transaction, there was no dilution of the interest of any former Reprints shareholder. Following completion of the exchange transaction, Reprints became a wholly owned subsidiary of the Company. The transaction was accounted as a statutory merger of companies under common control. As such, the historical financial statements of the Company are combined with the operations of Reprints since its inception, and the merger shares are accounted for as a stock split as of the inception of Reprints for financial reporting purposes.

(b) Nature of business

For certain of the Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued expenses, the carrying amounts approximate fair value due to their short maturities. The estimated fair value of the capital lease and line of credit obligations is based on borrowing rates currently available to the Company for loans with similar terms and maturities.

Reprints is a content repurposing and rights management company, with a focus on content re-use services and products. The Company operates within the periodicals publishing industry which is a large and growing market. The Company has developed products in the following areas:

- Reprints, ePrints and Article Distribution Systems
- Commercial Printing Services
- Publisher Outsourced Reprint Management
- Print-on-Demand Services for copyright and regulatory sensitive documents

(c) Basis of Presentation

The accompanying financial statements are consolidated and include the accounts of the Company and its wholly and majority owned subsidiaries. The consolidated accounts include 100% of assets and liabilities of our majority owned subsidiary, and the ownership interests of minority investors are recorded as a minority interest. Intercompany balances and transactions have been eliminated in consolidation.

Note 2 — Summary of Significant Accounting Policies

(a) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Actual results could differ from these estimates.

(b) Fair value of financial instruments

For certain of the Company's financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued expenses, the carrying amounts approximate fair value due to their short maturities. The estimated fair value of the capital lease and line of credit obligations is based on borrowing rates currently available to the Company for loans with similar terms and maturities.

The Company partially adopted SFAS 157, "Fair Value of Financial Instruments," on January 1, 2008, delaying application for non-financial assets and non-financial liabilities as permitted. This statement establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS 157 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels as follows:

Level 1: quoted prices (unadjusted) in active markets for identical asset or liabilities that the Company has the ability to access as of the measurement date. Financial assets and liabilities utilizing Level 1 inputs include active exchange-traded securities and exchange-based derivatives.

Level 2: inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data. Financial assets and liabilities utilizing Level 2 inputs include fixed income securities, non-exchange-based derivatives, mutual funds, and fair-value hedges.

Level 3: unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date. Financial assets and liabilities utilizing Level 3 inputs include infrequently-traded, non-exchange-based derivatives and commingled investment funds and are measured using present value pricing models.

The following table represents certain financial instruments of the Company measured and recorded at fair value on the Company's consolidated balance sheets on a recurring basis and their level within the fair value hierarchy as of June 30, 2009 and 2008:

Year Ended June 30, 2009:	Level 1	Level 2	Level 3	Total
Assets:				
Investments at fair value	\$ -	\$ -	\$ -	\$ -
Year Ended June 30, 2008:				
Assets:				
Investments at fair value	\$ -	\$ 1,736,630	\$ -	\$ 1,736,630

(c) Short term investments

Our short term investments at June 30, 2008 consisted of corporate and municipal debt and preferred stock auction rate securities held in an account with UBS Financial Services, Inc. In January 2009, we received cash for the par value of the outstanding auction rate securities. The proceeds received in January 2009 exceeded the book value of the investment resulting in a realized gain of \$33,668 that was recorded during the year ended June 30, 2009.

(d) Cash and cash equivalents

For purposes of the statements of cash flows, the Company defines cash equivalents as all highly liquid debt instruments purchased with a maturity of three months or less.

(e) Allowance for Doubtful Accounts

The Company regularly reviews the accounts receivable aging and applying various expected loss percentages to certain accounts receivable categories based upon historical bad debt experience in order to determine whether an allowance for doubtful accounts resulting from the inability, failure or refusal of customers to make required payments, is appropriate. The Company established an allowance for doubtful accounts of \$35,000 as of June 30, 2009. The Company determined that no allowance was necessary at June 30, 2008.

(f) Concentration of credit risk

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist of cash and cash equivalents and accounts receivables. The Company places its cash with high quality financial institutions and at times may exceed the FDIC \$250,000 insurance limit. The Company does not anticipate incurring any losses related to these credit risks. The Company extends credit based on an evaluation of the customer's financial condition, generally without collateral. Exposure to losses on receivables is principally dependent on each customer's financial condition. The Company monitors its exposure for credit losses and intends to maintain allowances for anticipated losses, as required.

One customer accounted for 16% of the revenues for the year ended June 30, 2009 and two customers accounted for 14% and 12% of the revenue for the year ended June 30, 2008.

As of June 30, 2009, two customers accounted for 15% and 14% of accounts receivable, and one customer accounted for 38% of accounts receivable at June 30, 2008.

(g) Property and equipment

Property and equipment are stated at cost and are depreciated using the straight-line method over their estimated useful lives of 3-5 years. Expenditures for maintenance and repairs are charged to operations as incurred while renewals and betterments are capitalized. Gains and losses on disposals are included in the results of operations.

(h) Intellectual Property Licenses

The Company has purchased licenses to use certain intellectual property. These licenses are amortized on the straight-line method over their estimated useful lives of 7 years.

(i) Customer Lists

From time to time, the Company purchases customer lists. These lists are amortized using an accelerated method that management presently estimates matches the utilization of those lists over an estimated useful life of 2 years.

(j) Revenue recognition

The Company applies the provisions of the Securities and Exchange Commission (SEC) Staff Accounting Bulletin (SAB) No. 104, "Revenue Recognition in Financial Statements," which provides guidance on the recognition,

presentation and disclosure of revenue in financial statements filed with the SEC. SAB No. 104 outlines the basic criteria that must be met to recognize revenue and provides guidance for disclosure related to revenue recognition policies. In general, the Company recognizes revenue when (i) persuasive evidence of an arrangement exists, (ii) shipment of products has occurred or services have been rendered, (iii) the sales price charged is fixed or determinable and (iv) collection is reasonably assured.

The Company recognizes revenues from printing services when services have been rendered and accepted by the customer while revenues from the re-use of published articles and rights management services are recognized upon shipment or electronic delivery to the customer.

(k) Impairment of long-lived assets

SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" requires that long-lived assets to be disposed of by sale, including those of discontinued operations, be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or in discontinued operations. SFAS No. 144 also establishes a "primary-asset" approach to determine the cash flow estimation period for a group of assets and liabilities that represents the unit of accounting for a long-lived asset to be held and used. Management regularly reviews property, equipment and other long-lived assets for possible impairment in accordance with SFAS No. 144 and based upon this review believes there are no indications of impairment at June 30, 2009 or 2008.

(l) Stock based compensation

The Company periodically issues stock options and warrants to employees and non-employees in capital raising transactions, for services and for financing costs. The Company adopted SFAS No. 123R effective January 1, 2006, and is using the modified prospective method in which compensation cost is recognized beginning with the effective date (a) based on the requirements of SFAS No. 123R for all share-based payments granted after the effective date and (b) based on the requirements of SFAS No. 123R for all awards granted to employees prior to the effective date of SFAS No. 123R that remain unvested on the effective date.

The Company accounts for stock option and warrant grants issued and vesting to non-employees in accordance with EITF No. 96-18: "Accounting for Equity Instruments that are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services" and EITF No. 00-18 "Accounting Recognition for Certain Transactions involving Equity Instruments Granted to Other Than Employees" whereas the value of the stock compensation is based upon the measurement date as determined at either a) the date at which a performance commitment is reached, or b) at the date at which the necessary performance to earn the equity instruments is complete.

(m) Goodwill and Intangible Assets

As required by Statement of Financial Accounting Standards ("SFAS") No. 142, management performs impairment tests of goodwill and indefinite-lived intangible assets whenever an event occurs or circumstances change that indicate impairment has more likely than not occurred. Also, as required by SFAS No. 142, management performs impairment testing of goodwill and indefinite-lived intangible assets at least annually.

In accordance with SFAS No. 142, management tests goodwill for impairment at the reporting unit level. The Company has only one reporting unit. At the time of goodwill impairment testing, management determines fair value through the use of a discounted cash flow valuation model incorporating discount rates commensurate with the risks involved its reporting unit. If the calculated fair value is less than the current carrying value, impairment of the Company may exist. The use of a discounted cash flow valuation model to determine estimated fair value is common practice in impairment testing in the absence of available domestic and international transactional market evidence to determine the fair value. The key assumptions used in the discounted cash flow valuation model for impairment testing include discount rates, growth rates, cash flow projections and terminal value rates.

In accordance with SFAS No. 144, "Accounting for the Impairment and Disposal of Long-Lived Assets," the Company reviews intangible assets subject to amortization at least annually to determine if any adverse conditions exist or a change in circumstances has occurred that would indicate impairment or a change in the remaining useful life. If the carrying value of an asset exceeds its undiscounted cash flows, the Company writes down the carrying value of the intangible asset to its fair value in the period identified. If the carrying value of assets is determined not to be recoverable, the Company records an impairment loss equal to the excess of the carrying value over the fair value of the assets. The Company's estimate of fair value is based on the best information available, in the absence of quoted market prices. The Company generally calculates fair value as the present value of estimated future cash flows that the Company expects to generate from the asset using a discounted cash flow income approach as described above. If the estimate of an intangible asset's remaining useful life is changed, the Company amortizes the remaining carrying value of the intangible asset prospectively over the revised remaining useful life.

(n) Shipping and handling costs

The Company accounts for shipping and handling fees and costs in accordance with EITF 00-10. As such, the Company includes shipping and handling charges billed to its customers in its revenues, and classifies shipping and handling costs of the sale of its products as a component of cost of sales. Those costs were approximately \$151,544

and \$155,161, respectively, for the years ended June 30, 2009 and 2008.

(o) Income taxes

The Company accounts for income taxes in accordance with SFAS No. 109, "Accounting for Income Taxes." Deferred taxes are provided on the liability method whereby deferred tax assets are recognized for deductible temporary differences, and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

(p) Net Income (Loss) per share

The Company reports net income (loss) per share in accordance with SFAS No. 128, "Earnings per Share." Basic net income (loss) per share is computed by dividing the net income (loss) by the weighted average number of common shares available. Weighted average number of shares outstanding reflects the equivalent number of shares received as a result of the exchange transaction as if these shares had been outstanding as of the beginning of the earliest period presented. Diluted income (loss) per share is computed similar to basic income (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. Warrants to purchase 2,800,009 and 2,450,000 shares of common stock have been excluded from the calculation of diluted net loss per share for the years ended June 30, 2009 and 2008, respectively, and options to purchase 1,022,000 and 530,000 shares of common stock outstanding as of June 30, 2009 and June 30, 2008, respectively, have been excluded from the calculation as the effect would have been anti-dilutive.

(q) Marketing and Advertising expenses

Marketing and Advertising expenses are expensed as incurred and consist primarily of various forms of media purchased from Internet-based marketers and search engines. Marketing and advertising expense amounted to \$158,524 and \$40,437 for the years ended June 30, 2009 and 2008, respectively.

(r) Recently issued accounting pronouncements

In May 2009, the FASB issued SFAS No. 165 "Subsequent Events" ("SFAS 165"). SFAS 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS 165 sets forth (1) The period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, (2) The circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements and (3) The disclosures that an entity should make about events or transactions that occurred after the balance sheet date. SFAS 165 is effective for interim or annual financial periods ending after June 15, 2009. The adoption of this statement did not have a material effect on the Company's financial statements.

In June 2009, the FASB issued SFAS No. 166 "Accounting for Transfers of Financial Assets*an amendment of FASB Statement No. 140" ("SFAS 166"). SFAS 166 improves the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets. SFAS 166 is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. The Company is evaluating the impact the adoption of SFAS 166 will have on its financial statements.

In June 2009, the FASB issued SFAS No. 167 "Amendments to FASB Interpretation No. 46(R)" ("SFAS 167"). SFAS 167 improves financial reporting by enterprises involved with variable interest entities and to address (1) the effects on certain provisions of FASB Interpretation No. 46 (revised December 2003), "Consolidation of Variable Interest Entities", as a result of the elimination of the qualifying special-purpose entity concept in SFAS 166 and (2) constituent concerns about the application of certain key provisions of Interpretation 46(R), including those in which the accounting and disclosures under the Interpretation do not always provide timely and useful information about an enterprise's involvement in a variable interest entity. SFAS 167 is effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual

reporting period, and for interim and annual reporting periods thereafter. The Company is evaluating the impact the adoption of SFAS 167 will have on its financial statements.

In June 2009, the FASB issued SFAS No. 168 “The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles—a replacement of FASB Statement No. 162”. The FASB Accounting Standards Codification (“Codification”) will be the single source of authoritative nongovernmental U.S. generally accepted accounting principles. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. SFAS 168 is effective for interim and annual periods ending after September 15, 2009. All existing accounting standards are superseded as described in SFAS 168. All other accounting literature not included in the Codification is nonauthoritative. The Codification is not expected to have a significant impact on the Company’s financial statements.

In December 2007, the FASB issued SFAS No. 160, “Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51”. SFAS No. 160 establishes accounting and reporting standards that require that the ownership interests in subsidiaries held by parties other than the parent be clearly identified, labeled, and presented in the consolidated statement of financial position within equity, but separate from the parent’s equity; the amount of consolidated net income attributable to the parent and to the noncontrolling interest be clearly identified and presented on the face of the consolidated statement of income; and changes in a parent’s ownership interest while the parent retains its controlling financial interest in its subsidiary be accounted for consistently. SFAS No. 160 also requires that any retained noncontrolling equity investment in the former subsidiary be initially measured at fair value when a subsidiary is deconsolidated. SFAS No. 160 also sets forth the disclosure requirements to identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. SFAS No. 160 applies to all entities that prepare consolidated financial statements, except not-for-profit organizations, but will affect only those entities that have an outstanding noncontrolling interest in one or more subsidiaries or that deconsolidate a subsidiary. SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Earlier adoption is prohibited. SFAS No. 160 must be applied prospectively as of the beginning of the fiscal year in which it is initially applied, except for the presentation and disclosure requirements. The presentation and disclosure requirements are applied retrospectively for all periods presented.

The Company does not believe that the adoption of the above recent pronouncements will have a material effect on the Company’s consolidated results of operations, financial position, or cash flows.

Note 3 — Property and Equipment

Property and equipment consists of the following as of June 30, 2009 and 2008:

	June 30, 2009	June 30, 2008
Computer equipment	\$ 68,640	\$ 32,344
Software	112,570	95,045
Printing equipment	286,452	286,452
Furniture and fixtures	57,380	34,677
Autos and vans	4,000	4,000
	529,042	452,518
Less accumulated depreciation	(188,266)	(89,711)
	\$ 340,776	\$ 362,807

Printing equipment includes \$91,792 of equipment under capital lease and related accumulated depreciation of \$35,187 and \$16,829 as of June 30, 2009 and June 30, 2008, respectively.

Depreciation expense for the years ended June 30, 2009 and 2008 was \$98,555 and \$92,102, respectively.

Note 4 — Intangible Assets

Intangible assets consist of the following at June 30, 2009 and 2008:

	June 30, 2009	June 30, 2008
Customer list	\$ 50,000	\$ 275,000
Intellectual property licenses	764,096	582,975
Accumulated amortization	(206,265)	(246,238)
	\$ 607,831	\$ 611,737

Customer lists are amortized using an accelerated method that management presently estimates matches the utilization of those lists over an estimated useful life of 2 years.

The Company has purchased licenses to use certain intellectual property, including computer software. These licenses are depreciated using the straight-line method over their estimated useful lives of 7 years.

Future annual amortization under these intangible assets at June 30, 2009 is as follows:

Year ending June 30,	Amount
2010	\$ 129,408
2011	122,463
2012	122,463
2013	122,463
Thereafter	111,034
	\$ 607,831

Note 5 — Leases

The Company leases space in Northbrook, Illinois in accordance with the terms of a non cancelable operating lease agreement. The lease requires monthly payments between \$7,750 and \$8,000 through May 2011 and is being accounted for by the Company on a straight-line basis over the term of the lease. In addition to monthly rentals, the lease requires the payment of real estate taxes and maintenance. Rent, including real estate taxes, for the years ended June 30, 2009 and 2008 was \$143,727 and \$140,912, respectively.

The Company leases space in Santa Monica, California in accordance with the terms of a non cancelable operating lease agreement. The lease requires monthly payments between \$5,200 and \$5,517 through May 2012 and is being accounted for by the Company on a straight-line basis over the term of the lease. In addition to monthly rentals, after June 1, 2010, the lease requires the payment of any increases in real estate taxes. Rent, including real estate taxes, for the year ended June 30, 2009 was \$5,200.

The Company also has a non-cancelable lease for machinery and equipment that is accounted for as a capital lease that requires monthly payment of \$1,945 including interest at a rate of 10.25% per annum through July 2012. Annual future minimum rentals under operating and capital leases as of June 30, 2009 are as follows:

Fiscal Year	Operating Leases	Capital Leases
2010	\$ 155,806	\$ 23,340
2011	152,433	23,340
2012	60,687	25,285
Total minimum lease payments	\$ 368,926	\$ 71,965
Amounts representing interest		(10,487)
Total		61,478
Less current portion		(17,861)
Long term		\$ 43,617

Note 6 — Line of Credit

The Company entered into a credit agreement with UBS Financial Services Inc. on March 1, 2007. The credit facility was secured by the Company's marketable securities, described in Note 2(c), above, which were held by UBS. The Company was able to borrow up to 80% of the value of the securities held in that account. There was no stated maturity on the credit facility. The interest rate was 30 Day LIBOR plus 150 basis points. The balance of the credit facility on June 30, 2008 was \$1,291,855. The credit line was repaid to UBS upon the sale of the marketable securities to UBS during January 2009.

Note 7 — Stockholders' Equity

Common Stock

The Company has authorized 120,000,000 shares of \$0.001 par value stock. 100,000,000 have been authorized as common stock and 20,000,000 have been authorized as preferred stock.

During the year ending June 30, 2007, the Company sold units to acquire 4,500,000 shares of its common stock and warrants to purchase 2,250,000 shares of its common stock for gross proceeds of \$4,500,000 that resulted in net proceeds to the Company of \$4,211,784 after commissions and offering costs. The Company also issued 200,000 warrants to the placement agent. Each warrant is exercisable for a period of 3 years with an exercise price of \$1.25 per

share of common stock. In the event a public market develops, and the closing price of the Company's common stock for 10 of any of 25 consecutive days is greater than \$3.00 per share, the Company may elect at that time to compel the holders of the Warrants to exercise the Warrants at the exercise price. If any investor fails to exercise the Warrant within 10 days of such notice of redemption, then the Warrants shall be redeemed by the Company at a redemption price of \$0.01 per warrant.

On November 30, 2007, the Company issued 50,000 shares of common stock valued at \$1.00 per share to Pinpoint Documents, LLC as payment for a customer list. We relied upon the exemption from registration as set forth in Section 4(2) of the Securities Act for the issuance of these shares. The investor took its shares for investment purposes without a view to distribution and had access to information concerning Derycz and our business prospects, as required by the Securities Act. In addition, there was no general solicitation or advertising for the purchase of our shares.

On December 21, 2007, the Company issued 11,810 shares of common stock, valued at \$1.00 per share, to Scott Ahlberg, an employee of Reprints Desk and a director of the Company, as a discretionary bonus. We relied upon the exemption from registration as set forth in Section 4(2) of the Securities Act for the issuance of these shares. Mr. Ahlberg took his shares for investment purposes without a view to distribution and had access to information concerning Derycz and our business prospects, as required by the Securities Act. In addition, there was no general solicitation or advertising for the purchase of our shares.

On July 17, 2008, the Company sold 400,017 shares of common stock and warrants to purchase 200,009 shares of Common Stock at an exercise price of \$2.00 per share at anytime prior to July 17, 2011, for an aggregate purchase price of \$600,025. The common stock and warrants were sold to a total of 4 investors.

Stock Options

On December 21, 2007, the Company established the 2007 Equity Compensation Plan (the "Plan"). The Plan was approved by our Board of Directors and security holders holding a majority of the shares of our common stock outstanding. The total amount of shares subject to the Plan is 1,500,000 shares. On December 21, 2007, we granted options to purchase 530,000 shares of common stock at \$1.50 per share to eight employees and one consultant, which expire on December 21, 2017. The options were valued at \$112,000 using a Black-Scholes valuation model and will be amortized over the vesting period. The exercise price for the options was \$1.50 per share and was based on the fair value of the shares on the date of issuance. For the Black - Scholes calculation, the Company assumed no dividend yield, a risk free interest rate of 4.18 %, expected volatility of 25 % and an expected term for the options of 7 years.

On May 28, 2009, we granted options to purchase 492,000 shares of common stock at \$1.00 per share to nine employees, which expire on May 28, 2019. The options were valued at \$148,327 using a Black-Scholes valuation model and were expensed on the grant date as the options all vested immediately. The exercise price for the options was \$1.00 per share and was based on the fair value of the shares on the date of issuance. For the Black - Scholes calculation, the Company assumed no dividend yield, a risk free interest rate of 3.67 %, expected volatility of 83 % and an expected term for the options of 10 years.

Stock based compensation expense of \$161,271 and \$99,057 was recognized during the years ended June 30, 2009 and 2008, respectively, relating to the vesting of such options. No future compensation expense related to these options remains as of June 30, 2009. As of June 30, 2009, these options have no intrinsic value.

At June 30, 2009 options outstanding are as follows:

On July 1, 2008, the Company issued warrants to acquire 150,000 shares of our stock at an exercise price of \$2.00 per share and a life of five years to a consultant. The warrants were valued at \$43,693 using a Black-Scholes pricing model with the following assumptions; no dividend yield, risk free interest rate of 4.5%, expected volatility of 25%, and an expected term of the warrants of five years.

The above warrants are fully vested and have a five year contractual life. There was no intrinsic value to these warrants as of June 30, 2009 and June 30, 2008.

Note 8 — Related Party Transactions

The Company leased furniture and office space on a month to month basis from a stockholder of the Company until May 31, 2009. The total rent expense paid to the stockholder for the years ended June 30, 2009 and 2008 were \$27,404 and \$27,404, respectively.

Note 9 — Income Taxes

The provision for income taxes consists of the following for the years ended June 30:

	June 30, 2009	June 30, 2008
Current Federal	\$ 21,007	\$ -

Edgar Filing: Derycz Scientific Inc - Form 10-K

State	11,167	-
Deferred		
Federal		
State		—
Provision for income tax expense	\$ 32,174	\$ -

The reconciliation of the effective income tax rate to the federal statutory rate is as follows:

	Years Ended June 30,	
	2009	2008
Federal income tax rate	(34.00)%	(34.00)%
State tax, net of federal benefit	(3.00)%	(6.00)%
Permanent differences	5.53%	10.00%
Change in valuation allowance	33.98%	30.00%
Other	0.59 %	0.00%
Effective income tax rate	3.10%	0.00%

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial statement purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax assets and liabilities at June 30, 2009 and 2008 are as follows:

	June 30, 2009	June 30, 2008
Deferred tax assets:		
Federal net operating loss	\$ 458,540	\$ 224,236
State net operating loss	45,139	22,292
Intangibles	79,976	16,510
Stock based compensation	16,345	0
Unrealized loss on Investments	0	13,127
Other	845	0
Total deferred tax assets	600,845	276,165
Deferred tax liability		
Fixed asset depreciation	(91,778)	(105,492)
Net deferred tax assets	509,067	170,673
Less valuation allowance	(509,067)	(170,673)
	\$ —	\$ —

The Company has provided a full valuation allowance on the deferred tax assets at June 30, 2009 and 2008 to reduce such asset to zero, since there is no assurance that the Company will generate future taxable income to utilize such asset. Management will review this valuation allowance requirement periodically and make adjustments as warranted. The net change in the valuation allowance for the year ended June 30, 2009 was an increase of \$338,394. This amount is net of a decrease in the valuation allowance of \$13,801 related to the acquisition of an additional interest in an existing subsidiary.

At June 30, 2009 and 2008, the Company had federal net operating loss (“NOL”) carryforwards of approximately \$1,349,000 and \$574,000, respectively and state NOL carryforwards of approximately \$792,000 and \$406,000, respectively. Federal NOLs could, if unused, expire in 2029. State NOLs, if unused, could expire in 2019.

Effective January 1, 2007, the Company adopted Financial Accounting Standards Board Interpretation No. 48, “Accounting for Uncertainty in Income Taxes (“FIN 48”) — an interpretation of FASB Statement No. 109, Accounting for Income Taxes .” The Interpretation addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under FIN 48, we may recognize the tax

benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. FIN 48 also provides guidance on derecognition, classification, interest and penalties on income taxes, accounting in interim periods and requires increased disclosures. At the date of adoption, and as of June 30, 2009 and 2008, the Company did not have a liability for unrecognized tax benefits, and no adjustment was required at adoption.

The Company files income tax returns in the U.S. federal jurisdiction and various states. The Company is subject to U.S. federal or state income tax examinations by tax authorities for years after 2006.

The Company's policy is to record interest and penalties on uncertain tax provisions as income tax expense. As of June 30, 2009 and 2008, the Company has no accrued interest or penalties related to uncertain tax positions. Additionally, tax years 2006 through 2009 remain open to examination by the major taxing jurisdictions to which the Company is subject.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.

There were no changes in or disagreements with our accountants on accounting and financial disclosure during the last two fiscal years.

Item 9A(T). Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of its Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Annual Report on Form 10-K. For purposes of this section, the term disclosure controls and procedures means controls and other procedures of an issuer that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that as of June 30, 2009, the Company's disclosure controls and procedures were effective to ensure that information it is required to disclose in reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure, and that such information is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

Management's Report on Internal Control over Financial Reporting

This annual report does not include a report of management's assessment regarding internal control over financial reporting or an attestation report of the Company's registered public accounting firm due to a transition period established by rules of the SEC for newly public companies.

Changes in Internal Controls Over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, its internal control over financial reporting.

Item 9B. Other Information.

None.

Business Experience Descriptions

Peter Derycz – Chief Executive Officer, President and Chairman

Peter Derycz founded Reprints as its President in 2006. Mr. Derycz was a founder of Infotrieve, Inc. in 1989 and served as its President from February 2003 until September 2003. He served as the Chief Executive Officer of Puerto Luperon, Ltd. (Bahamas) from January 2004 until December 2005. In January 2006, he was appointed to, and currently serves as a member of, the board of directors of Insignia Systems, Inc. Mr. Derycz received a B.A. in Psychology from the University of California at Los Angeles.

Richard McKilligan – Chief Financial Officer

Richard McKilligan earned his law degree from Cornell Law School, his MBA from the University of Chicago and his undergraduate degree in Accountancy from the University of Illinois at Urbana-Champaign. He joined Derycz in January 2007. Mr. McKilligan is also a director of Bristol Investment Fund, Ltd., which holds a significant equity stake in the Company, and Chief Financial Officer of Percipio Biotherapeutics, Inc., of which Bristol Investment Fund, Ltd. also holds a significant equity stake. He was an associate with Morgan, Lewis & Bockius, LLP in their New York and London offices from 2000 until January 2006. He is a member of the State Bar of California, the New York State Bar Association and the Florida Bar.

Scott Ahlberg – Head of Corporate Services of Reprints Desk

Scott Ahlberg has degrees from Stanford University (BA, 1984) and the University of London (MA, 1990). Mr. Ahlberg was Vice President of Infotrieve, Inc. from 1991 until 2001 and Executive Vice President from 2001 until May 2005. From May 2005 until February 2006, Mr. Ahlberg provided consulting services to ventures in professional networking and medical podcasting. He joined Reprints Desk in 2006.

Jan Peterson – Head of Publisher Relations of Reprints Desk

Edgar Filing: Derycz Scientific Inc - Form 10-K

Jan Peterson was Vice President for Content Development at Infotrieve, Inc. from 2000 to 2006 and Vice President for Publisher Relations and Content Development at RoweCom, formerly Faxon/Dawson, from 1997 to 2000. Ms. Peterson was at Academic Press (now Elsevier) for 14 years, where her last position was Fulfillment Director. The contract provided an annual base salary of \$70,000 and an annual guaranteed bonus of \$30,000. The contract sets out additional commissions available to Ms. Peterson, which vary from 1% to 5% of the discounts or sales that result from agreements that she negotiates between publishers and either Pools Press or Reprints Desk. No part of Ms. Peterson's salary is allocated to her duties as a director of the Company. The contract contains no other incentive bonus structure.

Director Compensation

We intend to compensate non-management directors through stock option and/or restricted stock granted under our 2007 Equity Compensation Plan. At this time, no directors receive compensation for their services as directors.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The following table sets forth certain information, as of September 25, 2009, with respect to the holdings of (1) each person who is the beneficial owner of more than five percent of our common stock, (2) each of our directors, (3) the CEO and each named executive officer, and (4) all of our directors and executive officers as a group.

Beneficial ownership of the common stock is determined in accordance with the rules of the Securities and Exchange Commission and includes any shares of common stock over which a person exercises sole or shared voting or investment powers, or of which a person has a right to acquire ownership at any time within 60 days of September 25, 2009. Except as otherwise indicated, and subject to applicable community property laws, the persons named in this table have sole voting and investment power with respect to all shares of common stock held by them. Applicable percentage ownership in the following table is based on 12,961,830 shares of common stock outstanding as of September 22, 2009 plus, for each person, any securities that person has the right to acquire within 60 days of September 22, 2009.

Unless otherwise indicated below, the address of each of the principal shareholders is c/o Derycz Scientific, Inc., 1524 Cloverfield Blvd., Suite E, Santa Monica, California 90404.

Name and Address	Shares Beneficially Owned	Percentage of Class
Bristol Investment Fund, Ltd. (1) (2)	2,750,000	20.8%

Scott Ahlberg	161,810	1.2%
Jan Peterson	160,000	1.2%
All Directors and Executive Officers as a group (4 persons)	4,579,538	34.5%

(1) Paul Kessler exercises investment and voting control over the shares held by Bristol Investment Fund, Ltd. and Bristol Capital, LLC.

(2) Includes warrants to purchase 250,000 shares of common stock at an exercise price of \$1.25 per share.

(3) Diana Derycz-Kessler is a member of Bristol Capital, LLC, the spouse of Paul Kessler and the sibling of Peter Derycz.

Change of Control

To the knowledge of management, there are no present arrangements or pledges of securities of our company that may result in a change in control of the Company.

Equity Compensation Plan Information

In December 2007, we established the 2007 Equity Compensation Plan (the "Plan"). The Plan was approved by our Board of Directors and security holders holding a majority of the shares of our common stock outstanding. The purpose of the Plan is to grant stock and stock options to purchase our common stock to our employees and key consultants. The total amount of shares subject to the Plan is 1,500,000 shares. As of September 25, 2009, we had granted 1,022,000 options under the Plan. The following table provides information as of June 30, 2009 with respect to the Plan, which is the only compensation plan under which our equity securities are authorized for issuance.

Plan category	Number of securities to be issued upon exercise of warrants and rights	Weighted-average exercise price of remaining outstanding options	Number of securities for future issuance under equity
---------------	------------------------------------------------------------------------	------------------------------------------------------------------	-------------------------------------------------------

	(a)	(b)	compensation plans (excluding securities reflected in column (a)) (c)
Equity compensation plans approved by security holders	1,500,000	\$ 1.26	478,000
Equity compensation plans not approved by security holders	-	-	-
Total	1,500,000		478,000

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Described below are certain transactions or series of transactions since July 1, 2006 between us and our subsidiaries and our executive officers, directors and the beneficial owners of 5% or more of our common stock, on an as converted basis, and certain persons affiliated with or related to these persons, including family members, in which they had or will have a direct or indirect material interest in an amount that exceeds the lesser of \$120,000 or one percent of the average of our total assets at year end for the last two completed fiscal years, other than compensation arrangements that are otherwise required to be described under “Executive Compensation.”

Richard McKilligan, our Chief Financial Officer, is also a director of Bristol Investment Fund, Ltd., which holds 2,750,000 shares, or 20.8%, of the Company’s common stock. Mr. McKilligan is also the Chief Financial Officer and General Counsel of Percipio Biotherapeutics, Inc., of which Bristol Investment Fund, Ltd. is a shareholder.

Until May 31, 2009, the Company sublet its office space from Bristol Capital Advisors, LLC pursuant to a lease agreement. The office space is approximately 1,000 square feet and the cost is \$2,740.40 per month, which rate is equivalent on a per square foot basis to the amount Bristol Capital Advisors, LLC pays under its lease agreement and is comparable to the terms of a lease between unaffiliated parties. The sublease agreement is a month-to-month tenancy which may be terminated at any time. Bristol Capital Advisors, LLC is the investment manager of Bristol Investment Fund, Ltd., which holds a significant equity stake in the Company.

A familial relationship exists between management and certain equity holders of the Company. Paul Kessler and Diana Derycz-Kessler are married and are the owners of Bristol Capital, LLC, which holds 1,810,910 shares, or 14.4%, of the Company’s common stock. Paul Kessler has investment and voting control over the shares held by Bristol Investment Fund, Ltd., which holds 2,750,000 shares, or 20.8%, of the Company’s common stock. Diana Derycz-Kessler and Peter Derycz, the Company’s Chief Executive Officer, are siblings. Diana Derycz-Kessler is a registered representative of T.R. Winston & Company, LLC, which was the Placement Agent for the Company’s December 2006 offering of common shares. Our agreement with the Placement Agent was on terms that would be comparable to the terms in similar agreements between unaffiliated parties. Although no agreement exists between the Company and Ms. Derycz-Kessler, she may receive compensation in connection with that offering through T.R. Winston & Company, LLC.

Director Independence

None of the members of the Company’s Board of Directors are independent directors as that term is defined by NASDAQ Rule 4200(a)(15). The Company’s currently does not have an Audit Committee. None of the members of the Company’s Board of Directors meet the Audit Committee independence requirements of NASDAQ Rule 4350(d)(2).

Item 14. Principal Accounting Fees and Services.

Summary of Principal Accounting Fees for Professional Services Rendered

The following table presents the aggregate fees for professional audit services and other services rendered by Weinberg & Company, P.A., our independent registered public accountants in the fiscal years ended June 30, 2009 and 2008.

	Year Ended June 30, 2009	Year Ended June 30, 2008
Audit Fees	\$ 89,339	147,231

Edgar Filing: Derycz Scientific Inc - Form 10-K

Audit-Related Fees	-	-
Tax Fees	-	-
All Other Fees	-	-
	\$ 89,339	147,231

32

Audit Fees consist of fees billed for the annual audit of our financial statements and other audit services including the provision of consents and the review of documents filed with the SEC.

We do not have an independent audit committee and the full Board of Directors, therefore, serves as the audit committee for all purposes relating to communication with our auditors and responsibility for our audit. Our Board of Directors has considered whether the provision of the services described above for the fiscal years ended June 30, 2008 and 2009, is compatible with maintaining the auditor's independence.

All audit and non-audit services that may be provided by our principal accountant to us shall require pre-approval by the Board of Directors. Further, our auditor shall not provide those services to us specifically prohibited by the SEC, including bookkeeping or other services related to the accounting records or financial statements of the audit client; financial information systems design and implementation; appraisal or valuation services, fairness opinion, or contribution-in-kind reports; actuarial services; internal audit outsourcing services; management functions; human resources; broker-dealer, investment adviser, or investment banking services; legal services and expert services unrelated to the audit; and any other service that the Public Company Accounting Oversight Board determines, by regulation, is impermissible.
