-
-

Item 8.01

Other Events.

On August 23, 2010, Schweitzer-Mauduit International Inc. (the Company) was informally advised that the prEN ISO 12863 Standard Test Method for Assessing the Ignition Propensity of Cigarettes (ISO/FDIS 12863:2010) was approved by the European Committee on Standardization, or CEN, and the International Organization for Standardization, or ISO. The Company cautions that this was informal advice and is not official unless and until published by the authorities, which is anticipated sometime in September 2010.

In accordance with the regulatory process, a second standard, FprEN 16156 Cigarettes-Assessment of the Ignition Propensity – Safety Requirement is reportedly in the balloting process which is anticipated to end October 15.

The approval of the Standard Test Method would represent accomplishment of a significant step toward implementation of a lower ignition propensity regulatory requirement in the EU.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Schweitzer-Mauduit International, Inc.
