CROSS TIMBERS ROYALTY TRUST

GLOSSARY OF TERMS

The following are definitions of significant terms used in this Form 10-Q:

Bbl	Barrel (of oil)
Mcf	Thousand cubic feet (of natural gas)
MMBtu	One million British Thermal Units, a common energy measurement
net proceeds	Gross proceeds received by XTO Energy from sale of production from the underlying properties, less applicable costs, as defined in the net profits interest conveyances
net profits income	Net proceeds multiplied by the applicable net profits percentage of 75% or 90%, which is paid to the trust by XTO Energy. "Net profits income" is referred to as "royalty income" for income tax purposes.
net profits interest	An interest in an oil and gas property measured by net profits from the sale of production, rather than a specific portion of production. The following defined net profits interests were conveyed to the trust from the underlying properties:  90% net profits interests – interests that entitle the trust to receive 90% of the net proceeds from the underlying properties that are royalty or overriding royalty interests in Texas, Oklahoma and New Mexico  75% net profits interests – interests that entitle the trust to receive 75% of the net proceeds from the underlying properties that are working interests in Texas and Oklahoma
royalty interest (and overriding royalty interest)	A nonoperating interest in an oil and gas property that provides the owner a specified share of production without any production expense or development costs
underlying properties	XTO Energy's interest in certain oil and gas properties from which the net profits interests were conveyed. The underlying properties include royalty and overriding royalty interests in producing and nonproducing properties in Texas, Oklahoma and New Mexico, and working interests in producing properties located in Texas and Oklahoma.
working interest	An operating interest in an oil and gas property that provides the owner a specified share of production that is subject to all production expense and development costs

CROSS TIMBERS ROYALTY TRUST

PART I - FINANCIAL INFORMATION

Item 1. Financial Statements.

The condensed financial statements included herein are presented, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in annual financial statements have been condensed or omitted pursuant to such rules and regulations, although the trustee believes that the disclosures are adequate to make the information presented not misleading. These condensed financial statements should be read in conjunction with the financial statements and the notes thereto included in the trust's latest Annual Report on Form 10-K. In the opinion of the trustee, all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the assets, liabilities and trust corpus of the Cross Timbers Royalty Trust at March 31, 2011, and the distributable income and changes in trust corpus for the three-month periods ended March 31, 2011 and 2010, have been included. Distributable income for such interim periods is not necessarily indicative of distributable income for the full year.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Bank of America, N.A., as Trustee  
for the Cross Timbers Royalty Trust:

We have reviewed the accompanying condensed statement of assets, liabilities and trust corpus of the Cross Timbers Royalty Trust as of March 31, 2011 and the related condensed statements of distributable income and changes in trust corpus for the three-month periods ended March 31, 2011 and 2010. These condensed financial statements are the responsibility of the trustee.

We conducted our review in accordance with standards established by the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

The accompanying condensed financial statements are prepared on a modified cash basis as described in Note 1 which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Based on our review, we are not aware of any material modifications that should be made to the condensed financial statements referred to above for them to be in conformity with the basis of accounting described in Note 1.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of assets, liabilities and trust corpus of the Cross Timbers Royalty Trust as of December 31, 2010, and the related statements of distributable income and changes in trust corpus for the year then ended (not presented herein), included in the trust's 2010 Annual Report on Form 10-K, and in our report dated February 24, 2011, we expressed an unqualified opinion on those financial statements. In our opinion, the information set forth in the accompanying condensed statement of assets, liabilities and trust corpus as of December 31, 2010 is fairly stated, in all material respects, in relation to the statement of assets, liabilities and trust corpus included in the trust's 2010 Annual Report on Form 10-K from which it has been derived.

KPMG LLP

The accompanying notes to condensed financial statements are an integral part of these statements.

CROSS TIMBERS ROYALTY TRUST

Notes to Condensed Financial Statements (Unaudited)

1. Basis of Accounting

The financial statements of Cross Timbers Royalty Trust are prepared on the following basis and are not intended to present financial position and results of operations in conformity with U.S. generally accepted accounting principles (“GAAP”):

-Net profits income recorded for a month is the amount computed and paid by XTO Energy Inc., the owner of the underlying properties, to Bank of America, N.A., as trustee for the trust. XTO Energy is a wholly owned subsidiary of Exxon Mobil Corporation. Net profits income consists of net proceeds received by XTO Energy from the underlying properties in the prior month, multiplied by net profit percentages of 90% for the 90% net profits interests, and 75% for the 75% net profits interests.

Costs deducted in the calculation of net proceeds for the 90% net profits interests generally include applicable taxes, transportation, marketing and legal costs, and do not include production expense or development costs. For the 75% net profits interests, costs deducted in the calculation of net proceeds include production expense, development costs, applicable taxes, transportation, marketing and legal costs, operating charges and other costs.

-Net profits income is computed separately for each of five conveyances under which the net profits interests were conveyed to the trust. If monthly costs exceed revenues for any conveyance, such excess costs must be recovered, with accrued interest, from future net proceeds of that conveyance and cannot reduce net proceeds from the other conveyances.

-Interest income, interest to be received and distribution payable to unitholders include interest to be earned on net profits income from the monthly record date (last business day of the month) through the date of the next distribution to unitholders.

-Trust expenses are recorded based on liabilities paid and cash reserves established by the trustee for liabilities and contingencies.

-Distributions to unitholders are recorded when declared by the trustee.

The financial statements of the trust differ from those prepared in conformity with U.S. GAAP because revenues are recognized when received rather than accrued in the month of production, expenses are recognized when paid rather than when incurred, and certain cash reserves may be established by the trustee for contingencies which would not be recorded under U.S. GAAP. This comprehensive basis of accounting other than U.S. GAAP corresponds to the accounting permitted for royalty trusts by the U.S. Securities and Exchange Commission, as specified by Staff Accounting Bulletin Topic 12:E, Financial Statements of Royalty Trusts.

Most accounting pronouncements apply to entities whose financial statements are prepared in accordance with U.S. GAAP, directing such entities to accrue or defer revenues and expenses in a period other than when such revenues were received or expenses were paid. Because the trust's financial statements are prepared on the modified cash basis, as described above, most accounting pronouncements are not applicable to the trust's financial statements.

The initial carrying value of the net profits interests of \$61,100,449 represents XTO Energy's historical net book value for the interests on February 12, 1991, the creation date of the trust. Amortization of the net profits interests is calculated on a unit-of-production basis and is charged directly to trust corpus. Accumulated amortization was \$46,858,488 as of March 31, 2011 and \$46,579,102 as of December 31, 2010.

## 2. Contingencies

Several states have enacted legislation to require state income tax withholding from nonresident recipients of oil and gas proceeds. After consultation with its state tax counsel, XTO Energy has advised the trustee that it believes the trust is not subject to these withholding requirements. However, regulations are subject to change by the various states, which could change this conclusion. Should the trust be required to withhold state taxes, distributions to the unitholders would be reduced by the required amount, subject to the unitholder's right to file a state tax return to claim any refund due.

### Item 2. Trustee's Discussion and Analysis.

The following discussion should be read in conjunction with the trustee's discussion and analysis contained in the trust's 2010 Annual Report on Form 10-K, as well as the condensed financial statements and notes thereto included in this Quarterly Report on Form 10-Q. The trust's Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and all amendments to those reports are available on the trust's web site at [www.crosstimberstrust.com](http://www.crosstimberstrust.com).

#### Distributable Income

For the quarter ended March 31, 2011, net profits income was \$4,350,853 compared to \$4,269,080 for first quarter 2010. This 2% increase in net profits income is the result of higher oil prices (\$0.3 million), increased oil production (\$0.2 million) and decreased taxes, transportation and other costs (\$0.1 million), partially offset by decreased gas production (\$0.3 million), lower gas prices (\$0.1 million) and increased development costs (\$0.1 million). See "Net Profits Income" on following page.

After considering interest income of \$94 and administration expense of \$126,773, distributable income for the quarter ended March 31, 2011 was \$4,224,174, or \$0.704029 per unit of beneficial interest. Administration expense for the quarter decreased 26% from the prior year quarter primarily because of the timing of expenditures. For first quarter 2010, distributable income was \$4,098,576, or \$0.683096 per unit. Distributions to unitholders for the quarter ended March 31, 2011 were:

Record Date	Payment Date	Distribution per Unit
January 31, 2011	February 14, 2011	\$ 0.247320
February 28, 2011	March 14, 2011	0.215836
March 31, 2011	April 14, 2011	0.240873
		\$ 0.704029

Net Profits Income

Net profits income is recorded when received by the trust, which is the month following receipt by XTO Energy, and generally two months after oil production and three months after gas production. Net profits income is generally affected by three major factors:

- oil and gas sales volumes,
- oil and gas sales prices, and
- costs deducted in the calculation of net profits income.

Because properties underlying the 90% net profits interests are royalty and overriding royalty interests, the calculation of net profits income from these interests only includes deductions for production and property taxes, legal costs, and marketing and transportation charges. In addition to these costs, the calculation of net profits income from the 75% net profits interests includes deductions for production expense and development costs since the related underlying properties are working interests.

Edgar Filing: CROSS TIMBERS ROYALTY TRUST - Form 10-Q

The following is a summary of the calculation of net profits income received by the trust:

	Three Months		Increase (Decrease)	
	Ended March 31 (a)			
	2011	2010		
<b>Sales Volumes</b>				
<b>Oil (Bbls) (b)</b>				
Underlying properties	52,829	50,162	5	%
Average per day	574	545	5	%
Net profits interests	29,047	25,686	13	%
<b>Gas (Mcf) (b)</b>				
Underlying properties	468,436	521,531	(10)	%
Average per day	5,092	5,669	(10)	%
Net profits interests	413,119	457,677	(10)	%
<b>Average Sales Prices</b>				
Oil (per Bbl)	\$ 79.31	\$ 70.87	12	%
Gas (per Mcf)	\$ 6.69	\$ 6.94	(4)	%
<b>Revenues</b>				
Oil sales	\$ 4,189,749	\$ 3,554,795	18	%
Gas sales	3,133,075	3,618,192	(13)	%
Total Revenues	7,322,824	7,172,987	2	%
<b>Costs</b>				
Taxes, transportation and other	954,029	1,083,416	(12)	%
Production expense (c)	1,123,998	1,087,698	3	%
Development costs	194,692	71,086	174	%
Total Costs	2,272,719	2,242,200	1	%
Net Proceeds	\$ 5,050,105	\$ 4,930,787	2	%
Net Profits Income	\$ 4,350,853	\$ 4,269,080	2	%

(a) Because of the interval between time of production and receipt of royalty income by the trust, oil and gas sales for the quarter ended March 31 generally represent oil production for the period November through January and gas production for the period October through December.

(b) Oil and gas sales volumes are allocated to the net profits interests based upon a formula that considers oil and gas prices and the total amount of production expense and development costs. As product prices change, the trust's share of the production volumes is impacted as the quantity of production to cover expenses in reaching the net profits break-even level changes inversely with price. As such, the underlying property production volume changes may not correlate with the Trust's net profit share of those volumes in any given period. Therefore, comparative discussion of oil and gas sales volumes is based on the underlying properties.

(c) Production expense is primarily from seven working interest properties in the 75% net profits interest. Five of these properties are not operated by XTO Energy or Exxon Mobil. Production expense includes an overhead charge which is deducted and retained by the operator. As of March 31, 2011, this charge was \$34,481 per month

Edgar Filing: CROSS TIMBERS ROYALTY TRUST - Form 10-Q

(including monthly overhead charges of \$2,713 which XTO Energy deducts as operator of the Penwell Unit and \$4,538 which Exxon Mobil deducts as operator of the Hewitt Unit) and is subject to adjustment each May based on an oil and gas industry index.

The following are explanations of significant variances on the underlying properties from first quarter 2010 to first quarter 2011:

#### Sales Volumes

##### Oil

Oil sales volumes increased 5% from first quarter 2010 to first quarter 2011 primarily because of the timing of cash receipts, partially offset by natural production decline.

##### Gas

Gas sales volumes decreased 10% from first quarter 2010 to first quarter 2011 primarily because of natural production decline and the timing of cash receipts.

The rate of natural production decline on the underlying oil and gas properties is approximately 6% to 8% a year.

#### Sales Prices

##### Oil

The first quarter 2011 average oil price was \$79.31 per Bbl, a 12% increase from the first quarter 2010 average price of \$70.87 per Bbl. Oil prices are expected to remain volatile. The first quarter 2011 oil price is primarily related to production from November 2010 through January 2011, when the average NYMEX price was \$87.77 per Bbl. The average NYMEX price for February and March 2011 was \$96.29 per Bbl. At April 18, 2011, the average NYMEX futures price for the following twelve months was \$108.68 per Bbl.

##### Gas

The first quarter 2011 average gas price was \$6.69 per Mcf, a 4% decrease from the first quarter 2010 average price of \$6.94 per Mcf. Natural gas prices are affected by the level of North American production, weather, crude oil and natural gas liquids prices, the U.S. economy, storage levels and import levels of liquefied natural gas. Natural gas prices are expected to remain volatile. The first quarter 2011 gas price is primarily related to production from October through December 2010, when the average NYMEX price was \$3.80 per MMBtu. The average NYMEX price for January through March 2011 was \$4.11 per MMBtu. At April 18, 2011, the average NYMEX futures price for the following twelve months was \$4.52 per MMBtu.

#### Costs

##### Taxes, Transportation and Other

Taxes, transportation and other decreased 12% for the first quarter primarily because of decreased gas production taxes related to lower gas revenues and decreased property taxes related to the timing of expenditures, partially offset by increased oil production taxes related to higher oil revenues.

#### Production Expense

Production expense increased 3% for the first quarter primarily because of increased outside operated and labor costs, partially offset by decreased carbon dioxide injection, repairs and maintenance and power and fuel costs.

#### Development

Development costs increased 174% for the first quarter primarily because of increased activity and costs related to Texas and Oklahoma properties underlying the 75% net profits interests.

#### Contingencies

Several states have enacted legislation to require state income tax withholding from nonresident recipients of oil and gas proceeds. After consultation with its state tax counsel, XTO Energy has advised the trustee that it believes the trust is not subject to these withholding requirements. However, regulations are subject to change by the various states, which could change this conclusion. Should the trust be required to withhold state taxes, distributions to the unitholders would be reduced by the required amount, subject to the unitholder's right to file a state tax return to claim any refund due.

#### Forward-Looking Statements

Statements in this report relating to future plans, predictions, events or conditions are forward-looking statements. All statements other than statements of historical fact included in this Form 10-Q including, without limitation, statements regarding the net profits interests, underlying properties, development activities, development, production and other costs and expenses, oil and gas prices and differentials to NYMEX prices, distributions to unitholders and industry and market conditions, are forward-looking statements that are subject to risks and uncertainties which are detailed in Part I, Item 1A of the trust's Annual Report on Form 10-K for the year ended December 31, 2010, which is incorporated by this reference as though fully set forth herein. XTO Energy and the trustee assume no duty to update these statements as of any future date.

#### Item 3. Quantitative and Qualitative Disclosures about Market Risk.

There have been no material changes in the trust's market risks from the information disclosed in Part II, Item 7A of the trust's Annual Report on Form 10-K for the year ended December 31, 2010.

#### Item 4. Controls and Procedures.

As of the end of the period covered by this report, the trustee carried out an evaluation of the effectiveness of the trust's disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15. Based upon that evaluation, the trustee concluded that the trust's disclosure controls and procedures are effective in timely recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the trust in the reports that it files or submits under the Securities Exchange Act of 1934 and are effective in ensuring that information required to be disclosed by the trust in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the trustee to allow timely decisions regarding required disclosure. In its evaluation of disclosure controls and procedures, the trustee has relied, to the extent considered reasonable, on information provided by XTO Energy. There has not been any change in the trust's internal control over financial reporting during the period covered by this report that has materially affected, or is reasonably likely to materially affect, the trust's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1.

Not applicable.

Item 1A. Risk Factors.

There have been no material changes in the risk factors disclosed under Part I, Item 1A of the trust's Annual Report on Form 10-K for the year ended December 31, 2010.

Items 2 through 5.

Not applicable.

Item 6. Exhibits.
