FINANCIAL SUMMARY FOR THE FIRST QUARTER OF 2018

Health Division	3.6	%	8.3	%	11.6	%	0.8	%

Eduardo Padilla, FEMSA’s CEO, commented:

“There are a number of reasons to be cautiously optimistic in our results for the first quarter. FEMSA Comercio’s Retail Division showed solid growth trends across its income statement, although we must remember that some of that came from the Holy Week calendar shift and we will likely give it back in the month of April. Nevertheless, profitability trends were structurally positive. The Health Division delivered improved results from Mexico, which may be the first signs that we are turning a corner in this key market after much hard work, while the Fuel Division faced an undemanding comparable base and thus delivered another quarter of gradual sequential recovery in profitability. And at Coca-Cola FEMSA, we continued to see promising signs in our key Brazilian operations, as well as a resilient environment in Mexico, while the team again navigated challenging consumer, cost and tax conditions across several of our markets.

It is also encouraging to see inflation coming down fast in Mexico, bolstering real wage growth, although we continue to expect volatility in the exchange rate in the coming months that could yet spill over and reverse those positive inflation trends. All told, FEMSA’s first quarter results came in a little better than we expected in several of our operations, but the second quarter will be tougher based on the calendar shift, and we continue to expect choppy waters ahead.”

Quarterly results are compared to the same period of previous year

Our **effective income tax rate** was 49.9% in 1Q18. A lower Income before income tax base magnified the impact of certain recurrent and permanent tax effects.

Net consolidated income decreased 77.6%, mainly driven by a non-cash foreign exchange loss related to FEMSA's U.S. dollar-denominated cash position as impacted by the appreciation of the Mexican peso, which was partially offset by lower interest expense and an increase in income from operations.

1Q18 Financial Summary

(Millions of Ps. except same-stores sales)

	1Q18	1Q17	Var.	
Same-store sales (thousands of Ps.)	729	678	7.5	%
Revenues	38,806	34,070	13.9	%
Income from Operations	1,873	1,529	22.5	%
Income from Operations Margin (%)	4.8	4.5	30	<i>bps</i>
Operative Cash Flow (EBITDA)	3,166	2,660	19.0	%
Operative Cash Flow (EBITDA) Margin (%)	8.2	7.8	40	<i>bps</i>

Total revenues increased 13.9% in 1Q18 compared to 1Q17, reflecting the opening of 237 net new OXXO stores in the quarter to reach 1,362 total net new store openings for the last twelve months. As of March 31, 2018, FEMSA Comercio's Retail Division had a total of 16,763 OXXO stores. OXXO's same-store sales increased an average of 7.5%, reflecting resilient consumer demand as well as the benefit from the Holy Week calendar shift. This performance was driven by a 5.1% increase in average customer ticket and an increase of 2.4% in store traffic.

Gross profit increased by 15.1%, resulting in a gross margin expansion of 40 basis points to 36.0% of total revenues. This expansion mainly reflects i) sustained growth of the services category, including income from financial services; and ii) healthy trends in our commercial income activity.

Income from operations increased 22.5%. Operating expenses increased 14.1% to Ps. 12,101 million, slightly above revenues, reflecting a combination of: i) a favorable calendar and profitability comparison base in 1Q17, when retail operating income and margin fell; ii) a decrease in electricity tariffs; iii) investments related to certain IT projects; and iv) increased secure cash transportation costs driven by incremental volume. The healthy growth in revenues drove higher operating leverage, and therefore operating margin expanded by 30 basis points to 4.8% of total revenues.

Same-store sales for drugstores increased by an average of 0.8%.

Gross profit increased by 8.3%, resulting in a gross margin expansion of 130 basis points to 29.7% of total revenues, reflecting positive sales mix as well as a more effective collaboration and execution with key supplier partners across our operations and to benefits that are gradually beginning to materialize in Mexico, through the incipient leverage of our recently integrated operating platform.

2018 FIRST QUARTER RESULTS

Mexico City, April 25, 2018, Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest Coca-Cola franchise bottler in the world by sales volume, announces results for the first quarter of 2018.

⁽¹⁾Comparability

The comparability of our financial and operating performance in the first quarter of 2018, as compared to the same period of 2017, was affected by the following factors: (a) as previously announced, due to a change in reporting method, the results from Coca-Cola FEMSA de Venezuela are no longer included in our consolidated financial statements as of January 1, 2018; and (b) the consolidation of Coca-Cola FEMSA Philippines commencing on February 1, 2017. In addition, the consolidation generated a one-time non-cash gain during the first quarter of 2017.

In order to better describe the performance of our business, for certain information we present the comparable figures excluding the effects of: (i) mergers, acquisitions, and divestitures, (ii) translation effects resulting from exchange rate movements, (iii) the results of Coca-Cola FEMSA de Venezuela in 2017; and including the results of Coca-Cola FEMSA Philippines, Inc., as if its consolidation had taken place at the beginning of first quarter 2017.

Furthermore, as of January 1, 2018, margin comparability in the Philippines was impacted by the excise tax on soft drink production, accounted for in cost of goods sold.

Operational and Financial Highlights

Revenues declined 3.2%, impacted by an unfavorable currency translation effect, while comparable revenues grew 7.2% for the quarter.

Volume increased in Brazil, Central America and Colombia driven by the rollout of our portfolio and affordability initiatives, while transactions outperformed volumes in key markets such as Argentina, Brazil and the Philippines.

Operating income declined 3.4%, while comparable operating income declined 1.1% for the quarter, driven mainly by cost pressures in Central America, Mexico, and the Philippines, partially offset by raw material tailwinds in South America.

Majority net income decreased 59.0% during the first quarter of 2018, as compared to the same period of 2017 which included a one-time non-cash gain related to the consolidation of the Philippines.

Message from the Chief Executive Officer

“At the start of the year, we faced a mixed macroeconomic environment across our operations, coupled with a new tax environment in the Philippines. However, our ability to adapt to ever-changing market and consumer dynamics, combined with our transformational initiatives, enabled us to deliver comparable revenue and operating cash flow growth of 7.2% and 4.0%, respectively. By leveraging our clear strategy, the encouraging recovery of our South America division, a resilient Mexico, and an adaptable Philippines, we aim to continue Coca-Cola FEMSA’s growth, while hitting new milestones in transforming our operating model, protecting our short-term results, and ensuring sustainable social and economic value for all of our stakeholders,” said John Santa Maria Otazua, Chief Executive Officer of the Company.

Consolidated results for the first quarter

Comparable figures:⁽¹⁾

Revenues: Comparable total revenues grew 7.2% in the first quarter of 2018 as compared to the same period of 2017, driven by average price per unit case growth in Argentina and Mexico, coupled with volume growth in Brazil, Central America, and Colombia, partially offset by volume declines in the rest of our operations.

Transactions: Comparable number of transactions increased 1.0%. Our sparkling beverage category grew 0.4%, driven by 1.3% growth in our colas portfolio, partially offset by a 2.3% decline in flavors. Our positive performance in colas was driven by growth in Argentina, Brazil, Central America and Colombia, partially offset by a decline in Mexico and the Philippines. Our decline in flavors was driven by Brazil, Colombia, and Mexico, partially offset by growth in Argentina, Central America, and the Philippines. Our still beverage category grew 0.8%, driven mainly by the positive performance of Brazil, Central America, and Mexico. Finally, our water category's transactions increased by 7.7%, driven by growth in almost all of our operations, partially offset by a decline in Argentina.

Volume: Comparable sales volume remained flat in the first quarter of 2018 as compared to the same period in 2017. Our sparkling beverage portfolio's volume remained flat, driven by 1.5% growth in our colas portfolio, partially offset by a 4.4% decline in flavors. Growth in our colas portfolio was driven mainly by the performance of Brazil, Central America, and Colombia, while our decline in flavors was driven mainly by declines in Brazil, Colombia, and the Philippines. Our still beverage category's volume declined 6.6%, as growth in most of our operations was offset by declines in Argentina, Colombia, and the Philippines. Our personal water portfolio's volume grew 10.6% due to positive performance in most of our operations. Finally, our bulk water portfolio's volume declined 1.2%, driven by Mexico and Colombia, partially offset by growth in the rest of our operations.

Gross profit: Comparable gross profit grew 6.1%. Our pricing initiatives, coupled with lower sweetener prices in most of our operations, were offset by an unfavorable currency hedging position, higher sweetener and concentrate prices in Mexico, higher sweetener and PET costs and the inclusion of the excise tax on beverage production in the Philippines, which is applied as a cost, and the depreciation in the average exchange rate of the Argentine Peso, the Brazilian Real, and the Philippine Peso as applied to our U.S. dollar-denominated raw material costs.

Operating Income: Comparable operating income declined 1.1% for the first quarter of 2018 as compared to the same period of 2017.

Operating cash flow: Comparable operating cash flow increased 4.0% in the first quarter of 2018.

As reported figures:

Revenues: Total revenues declined 3.2% to Ps. 49,713 million in the first quarter of 2018, mainly due to the negative translation effect resulting from the depreciation of all of our operating currencies as compared to the Mexican Peso, combined with the deconsolidation of Coca-Cola FEMSA de Venezuela as of December 31, 2017, and an unfavorable price/mix in Brazil, Central America and Colombia. These effects were partially offset by price increases aligned with or above inflation in key territories such as Argentina and Mexico, supported by volume growth in Brazil, Central America and Colombia.

Transactions: Reported total number of transactions increased 6.9% to 6,137.6 million in the first quarter of 2018 as compared to the same period in 2017.

Volume: Reported total sales volume increased 3.0% to 907.8 million unit cases in the first quarter of 2018 as compared to the same period in 2017.

Gross profit: Gross profit declined 1.7% to Ps. 21,917 million, and gross margin expanded 70 basis points to 44.1%.

April 25, 2018

Equity method: The reported share of the profits of associates and joint ventures recorded a loss of Ps. 49 million in the first quarter of 2018, compared to a gain of Ps. 46 million recorded in the first quarter of 2017. This is mainly due to: (i) a loss in our dairy joint venture in Panama; (ii) larger gains in our joint ventures in Brazil during the first quarter of 2017 as compared to the first quarter of 2018; and (iii) the consolidation of Coca-Cola FEMSA Philippines, Inc., which is no longer included in the equity method as of February 2017.

Operating Income: Operating income decreased 3.4% to Ps. 5,883 million, and operating margin contracted 10 basis points to 11.8% during the first quarter 2018 as compared with the same period of 2017, which benefited from the reversal of expense-related provisions that did not materialize.

Other non-operative expenses, net: Other non-operative expenses, net, recorded an expense of Ps. 62 million, compared to a gain of Ps. 2,471 million during the first quarter of 2017, due mainly to the consolidation of Coca-Cola FEMSA Philippines, Inc., starting February 2017.

Comprehensive financing result: Comprehensive financing result in the first quarter of 2018 recorded an expense of Ps. 2,072 million, compared to an expense of Ps. 1,286 million in the same period of 2017.

During the first quarter of 2018, we recorded an interest expense, net, of Ps. 1,598 million, compared to Ps. 2,328 million in the first quarter of 2017. This decrease was driven by the decline of short-term interest rates in Brazil; the average exchange rate depreciation of the Brazilian Real compared to the Mexican Peso as applied to existing Brazilian Real-denominated interest expense; and the reduction of debt in Argentina, Brazil, and Colombia. However, these effects were partially offset by: (i) an interest rate increase in Mexico; (ii) additional debt in Mexico; and (iii) an interest rate increase resulting from swapping U.S. dollar-denominated debt to Brazilian Real and Mexican Peso-denominated debt, as part of our strategy to eliminate our U.S. dollar net debt exposure.

In addition, for the first quarter, we recorded a foreign exchange loss of Ps. 228 million as compared to a gain of Ps. 53 million in 2017, which resulted from the quarterly appreciation of the Mexican Peso as applied to our U.S. dollar-denominated cash position.

Additionally, due to the announced change in the reporting method, the results of Coca-Cola FEMSA de Venezuela are no longer included in our consolidated financial statements, for this reason no monetary position in hyperinflationary subsidiaries was recorded as of January 1, 2018.

Market value on financial instruments recorded a loss of Ps. 246 million as compared to a gain of Ps. 434 million in the first quarter of 2017 due to the decrease during the quarter in the long-term interest rates in Brazil as applied to our fixed rate cross-currency swaps.

Income tax: During the first quarter of 2018, reported income tax as a percentage of income before taxes was 32.0%, compared to 17.1% in the same period of 2017. The lower tax rate in the first quarter of 2017 was driven mainly by one-time non-cash gain recorded in connection with the consolidation of Coca-Cola FEMSA Philippines, Inc.

Net income: Consolidated net controlling interest income decreased 59.0% to Ps. 2,414 million in the first quarter of 2018, resulting in earnings per share (EPS) of Ps. 1.15 (Ps. 11.49 per ADS), in the face of a high comparable driven mainly by one-time non-cash gain recorded in connection with the consolidation of Coca-Cola FEMSA Philippines, Inc.

Operating cash flow: Operating cash flow decreased 8.9% to Ps. 8,706 million, and operating cash flow margin contracted 110 basis points to 17.5%.

Balance Sheet ⁽¹⁾

As of March 31, 2018, we had a cash balance of Ps. 19,549 million, including US\$353 million denominated in U.S. dollars, an increase of Ps. 777 million as compared to December 31, 2017. As of March 31, 2018, total short-term debt was Ps. 11,238 million, and long-term debt was Ps. 67,463 million. Total debt decreased by Ps. 4,664 million, and net debt decreased by Ps. 5,447 million compared to year-end 2017, due mainly to our cash flow generation during the year and the positive translation effect resulting from the appreciation of the end-of-period exchange rate of the Mexican Peso as applied to our U.S. dollar-denominated debt position.

The weighted average cost of debt for the quarter, including the effect of debt swapped to Brazilian Reals and Mexican Pesos, was 7.67%, a reduction as compared to the fourth quarter 2017, due mainly to the reduction of interest rates in Brazil. April 25, 2018

Asia Division

(The Philippines)

As of January 1, 2018, the Philippines implemented a comprehensive tax reform to fund infrastructure investments. As part of this reform, among other initiatives, excise taxes on sweetened beverages were applied as follows: (i) 6 Philippine Pesos per liter on beverages containing sugar or non-caloric sweeteners; and (ii) 12 Philippine Pesos per liter on beverages containing high fructose corn syrup (HFCS).

As this excise tax is applied to soft drink production, margins in this operation are incomparable with margins from 2017. This impact in comparability is caused by the recognition of this excise tax in cost of goods sold and the Company's increased prices to adjust to this change, resulting in increased revenues.

Comparable figures: ⁽¹⁾

Revenues: Comparable total revenues increased 18.5% during the first quarter of 2018, driven by average price per unit case increase as an adjustment to the excise tax, partially offset by a volume decline.

Transactions: Comparable transactions decreased 1.2% in the first quarter of 2018. Our sparkling beverage portfolio's transactions decreased 1.4%, driven by a 3.5% decline in our colas portfolio, partially offset by 2.6% growth in flavors. Our still beverage category's transactions, not including powders, increased by 35.1%. Our water transactions, including bulk water, increased 8.2%.

Volume: Comparable total sales volume decreased 8.1% in the first quarter of 2018. Our sparkling beverage category's volume decreased 7.0%, driven by an 8.4% decline in our colas portfolio and a 4.2% decline in flavors. Our still beverage category's volume, excluding powders, increased 18.8%. Our personal water category's volume decreased 1.3%. Our bulk water business's volume grew 20.6%.

Gross profit: Comparable gross profit decreased 14.9% as compared to the same period of 2017, driven mainly by the inclusion of the excise tax on soft drink production as a cost of goods sold, as well as higher sweetener and PET resin prices and the devaluation of the Philippine Peso as applied to our U.S. dollar-denominated raw material costs.

Operating income: Comparable operating income decreased 38.8% to Ps. 117 million during the first quarter of 2018.

Operating cash flow: Comparable operating cash flow decreased 6.4% to Ps. 541 million as compared to the same period of 2017.

As reported figures:

Revenues: Reported total revenues increased 55.2% to Ps. 5,591 million for the first quarter 2018 as compared to the results of February and March 2017. Additionally, total revenues were driven by an average price per unit case increase, as an adjustment to the excise tax, partially offset by a volume decline and the negative translation effect resulting from the depreciation the Philippine Peso as compared to the Mexican Peso.

Transactions: Reported total number of transactions increased 39.0% to 1,452.1 million in the first quarter of 2018 as compared to the same period of 2017.

Volume: Reported total sales volume increased 29.9% to 119.9 million unit cases in the first quarter of 2018 as compared to the same period of 2017.
