## PRESIDENT'S LETTER

---

Dear Shareholder,

ING Global Equity Dividend and Premium Opportunity Fund (the Fund) is a diversified, closed-end management investment company whose shares are traded on the New York Stock Exchange under the symbol IGD. The primary objective of the Fund is to provide a high level of income, with a secondary objective of capital appreciation.

The Fund seeks to achieve its objectives by investing in a portfolio of global common stocks that have a history of attractive dividend yields and employing an option strategy of writing call options on a portion of the equity portfolio. During this reporting period, the Fund partially hedged currency exposure to reduce volatility of total return.

For the period ended February 28, 2014, the Fund made monthly distributions totaling \$0.96 per share, which were characterized as \$0.27 per share return of capital and \$0.69 per share net investment income.

Based on net asset value (NAV), the Fund provided a total return of 13.65% including reinvestments for the year ended February 28, 2014.<sup>(1)</sup> This NAV return reflects an increase in the Fund's NAV from \$9.82 on February 28, 2013 to \$10.05 on February 28, 2014. Based on its share price, the Fund provided a total return of 9.95% including reinvestments for the year ended February 28, 2014.<sup>(2)</sup> This share price return reflects a decrease in the Fund's share price from \$9.17 on February 28, 2013 to \$9.08 on February 28, 2014.

The global equity markets have witnessed a challenging and turbulent period. Please read the Market Perspective and Portfolio Managers Report for more information on the market and the Fund's performance.

At ING Funds our mission is to help you grow, protect and enjoy your wealth. We seek to assist you and your financial advisor by offering a range of global investment solutions. We invite you to visit our website at [www.inginvestment.com](http://www.inginvestment.com). Here you will find information on our products and services, including current market data and fund statistics on our open- and closed-end funds. You will see that we offer a broad variety of equity, fixed income and multi-asset funds that aim to fulfill a variety of investor needs.

On April 7, 2014, ING U.S., Inc. was renamed to Voya Financial, Inc. The actual rebranding of the various businesses that comprise ING U.S. Retirement Solutions, Investment Management and Insurance Solutions will occur in stages, with ING U.S. Investment Management among the first to rebrand.<sup>(3)</sup> As of May 1, 2014, ING U.S. Investment Management will be known as Voya Investment Management. Though the rebranding will affect product and legal entity names, there will be no disruption in service or product delivery to our clients. As always, we remain committed to delivering unmatched client service with a focus on sustainable long-term investment results, to help investors meet their long-term goals with confidence.

We thank you for trusting ING Funds with your investment assets, and we look forward to serving you in the months and years ahead.

Sincerely,

Shaun Mathews  
President and Chief Executive Officer  
ING Funds  
April 1, 2014

The prospectus contains this information and other information about the fund. Check with your Investment Professional to determine which funds are available for sale within their firm. Not all funds are available for sale at all firms.**

---

- (1) Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of each period and a sale at net asset value at the end of each period and assumes reinvestment of dividends, capital gain distributions, and return of capital distributions/allocations, if any, in accordance with the provisions of the Fund's dividend reinvestment plan.
- (2) Total investment return at market value measures the change in the market value of your investment assuming reinvestment of dividends, capital gain distributions, and return of capital distributions/allocations, if any, in accordance with the provisions of the Fund's dividend reinvestment plan.
- (3) Please see the "Additional Information" section regarding rebranding details on page 32.

## MARKET PERSPECTIVE: YEAR ENDED FEBRUARY 28, 2014

---

By the middle of the fiscal year, global equities, in the form of the MSCI World Index<sup>SM</sup> measured in local currencies, including net reinvested dividends (the Index), had already gained 7.15%. In the second half a change in the dynamics of investor sentiment seemed to emerge and in the end the Index returned 21.53% for the whole fiscal year. (The Index returned 21.68% for the one year ended February 28, 2014, measured in U.S. dollars.)

In the U.S., investor sentiment was cushioned by the U.S. Federal Reserve Board's (Fed's) \$85 billion of monthly Treasury and mortgage-backed securities purchases in the face of an unimpressive economic recovery. Gross Domestic Product (GDP) in the first quarter of 2013 rose by just 1.8% (annualized) and in the second by only 2.5%. As late as October, the average number of new jobs being created was reported at fewer than 150,000 per month with the unemployment rate at 7.2%. However a slow recovery was a double-edged sword for markets in risky assets: a faster pace would probably cause the tapering of bond purchases by the Fed.

During most of the summer then, the tapering issue dominated investor confidence. On May 22 and again on June 19, Fed Chairman Bernanke attempted to prepare markets for the beginning of the end of quantitative easing. The reaction was soaring bond yields and by June 24 an 8% slump in the Index from its May 21 peak. Nervous central bankers were forced to give assurances that easy money was here for a long time. Soothed by these and later words of comfort in July, markets recovered, but were dampened again by the threat of military engagement in the Middle East.

Yet a change in the dynamics of investor sentiment seemed to be underway. Middle East tensions eased and attention turned to the September 18 meeting of the Fed, which was widely expected to announce the imminent tapering of the Fed's bond purchases. Surprisingly, on the day before Chairman Bernanke's address, the Index had again reached a new high for the year. This would have been hard to imagine even a few months earlier, but the significance was apparently lost in the shock of the Fed's decision not to taper.

## Edgar Filing: Voya GLOBAL EQUITY DIVIDEND & PREMIUM OPPORTUNITY FUND - Form N-CSR

The next jolt to investor sentiment was Congressional gridlock in October, which shut the government down and threatened a debt ceiling crisis of the type that sapped investor confidence in 2011. But a deal to postpone the day of reckoning for a few months was reached on October 16 and markets quickly regained their poise.

Increasingly it appeared that investors were reconciled to tapering, no longer treating bad news on the economy, which might prolong the Fed's bond purchases, as good news. And better news was starting to flow. A limited budget deal was reached on December 11. The unemployment rate fell to 7.0%. GDP growth in the third quarter was revised up to 4.1% (flattered somewhat by inventory accumulation). Consumer confidence was clearly improving.

When on December 18 the Fed did announce a tapering to \$75 billion per month with more to come, markets quickly took it in stride and the Index ended 2013 at a new all-time high. January and February saw some U.S. data deteriorate, perhaps cold weather-related, with two weak employment reports (despite the unemployment rate falling to 6.6%), fourth quarter GDP growth down to 2.4% and declining retail sales.

In U.S. fixed income markets, the Barclays U.S. Aggregate Bond Index (Barclays Aggregate) of investment grade bonds returned just 0.15% in the fiscal year. The anticipated end to quantitative easing undermined longer-dated issues. The Barclays Long Term U.S. Treasury sub-index dropped 4.90%, recovering in January and February most of a much larger loss suffered in the first 10 months. The Barclays U.S. Corporate Investment Grade Bond sub-index added 1.42%. However the (separate) Barclays High Yield Bond 2% Issuer Constrained Composite Index (not a part of the Barclays Aggregate) gained 8.36%.

U.S. equities, represented by the S&P 500® Index including dividends, soared 25.37%, to a record closing high. The health care sector did best with a gain of 39.26%, followed by consumer discretionary 33.79%. By far the worst performer was the telecommunications sector 0.92%, then utilities 12.46%. Operating earnings per share for S&P 500® companies set another record in the fourth quarter of 2013, with the share of profits in national income historically high, supported by low interest rates and sluggish wage growth.

In currencies the dollar fell 5.40% against the euro during the 12 months and 9.45% against the pound on better economic news from Europe, especially the UK. But the dollar gained 9.98% on the yen in the face of the new Japanese government's aggressive monetary easing.

In international markets, the MSCI Japan® Index surged 26.39% during the fiscal year, but has retreated by 7% in 2014. GDP grew for four consecutive quarters, albeit at declining rates. From October core consumer prices started rising again after years of decline. The MSCI Europe ex UK® Index advanced 21.13%. The euro zone finally recorded quarterly GDP growth of 0.3% in the second quarter of 2013 after six straight quarterly declines, followed by slim gains of 0.1% and 0.3%. The closely watched composite purchasing managers' index registered expansion from July after 17 months of contraction. But there was still much to do with unemployment at 12.0%, near an all-time high. The MSCI UK® Index added 10.53%, held back by heavily weighted laggards especially among banks and miners. GDP in the third quarter of 2013 grew an improved 0.8% followed by 0.7%, while unemployment continued to fall. But concerns remained about a housing bubble and consumer prices rising faster than wages.

**Past performance does not guarantee future results. The performance quoted represents past performance. Investment return and principal value of an investment will fluctuate, and shares, when redeemed, may be worth more or less than their original cost. The Fund's performance is subject to change since the period's end and may be lower or higher than the performance data shown. Please call (800) 992-0180 or log on to [www.inginvestment.com](http://www.inginvestment.com) to obtain performance data current to the most recent month end.**

*Market Perspective reflects the views of ING's Chief Investment Risk Officer only through the end of the period, and is subject to change based on market and other conditions.*

**Portfolio holdings are subject to change daily.**

ING Global Equity Dividend and Premium Opportunity Fund\* (the Fund) seeks to provide investors with a high level of income from a portfolio of global common stocks with historically attractive dividend yields and premiums from call option writing. Under normal market conditions, the Fund will invest at least 80% of its managed assets in a portfolio of common stocks of dividend paying companies located throughout the world, including the U.S. The Fund's secondary investment objective is capital appreciation.

**Portfolio Management:** The Fund is managed by Bruno Springael, Nicolas Simar, Willem van Dommelen, Edwin Cuppen, and Herman Klein, Portfolio Managers, ING Investment Management Advisors B.V. the Sub-Adviser\*\*.

**Equity Portfolio Construction:** The stock selection process begins with constructing an eligible universe of global common stocks with market capitalizations typically over \$1 billion that have a history of paying dividend yields. Through a multi-step screening process of various fundamental factors and fundamental analysis, the portfolio managers construct a portfolio generally consisting of 80 - 120 common stocks with a history of attractive dividend yields and a potential for stable or growing dividends that are supported by business fundamentals. The portfolio generally seeks to target a dividend yield higher than that of the MSCI World Index<sup>SM</sup> dividend yield. Stocks that do not pay dividends may also be selected for portfolio construction and risk control purposes.

**The Fund's Integrated Option Strategy:** The Fund's option strategy is designed to seek gains and lower volatility of total returns over a market cycle by primarily selling call options on selected indices and/or on individual securities and/or exchange traded funds (ETFs).

The Fund's call option writing is determined based on stock outlook, market opportunities and option price volatility. The Fund seeks to sell call options that are generally short-term (between 10 days and three months until expiration) and at-the-money, out-of-the-money, or near-the-money. The underlying value of such calls will generally represent 35% to 75% of the value of the Fund's portfolio. The Fund typically maintains its call positions until expiration, but it retains the option to buy back the call options and sell new call options. Call options can be written both in exchange-listed option markets and over-the-counter markets with major international banks, broker-dealers and financial institutions.

The Fund may seek to, and during the reporting period sought to, partially hedge the foreign currency risk inherent in its international equity holdings. Such currency hedges are generally implemented by buying out-of-the-money puts on international currencies versus the U.S. dollar and financing them by writing out-of-the-money FX calls. The Fund may also hedge currency exposure by selling the international currencies forward.

The Fund may also invest in other derivative instruments such as futures for investment, hedging and risk-management purposes to gain or reduce exposure to securities, security markets, market indices consistent with its investment objectives and strategies. Such derivative instruments are acquired to enable the Fund to make market directional tactical decisions to enhance returns, to protect against a decline in its assets or as a substitute for the purchase or sale of equity securities.

**Top Ten Holdings**  
**as of February 28, 2014**  
*(as a percentage of net assets)*

Roche Holding AG Genusschein	1.6%
Eli Lilly & Co.	1.6%
Public Service Enterprise Group, Inc.	1.6%
Taiwan Semiconductor Manufacturing Co., Ltd. ADR	1.6%
BP PLC	1.5%
Zurich Insurance Group AG	1.5%
Royal Dutch Shell PLC	1.5%
Novartis AG	1.5%
Microsoft Corp.	1.5%
McDonald's Corp.	1.5%

**Portfolio holdings are subject to change daily.**

Additionally, the Fund retains the ability to partially hedge against significant market declines by buying out-of-the-money put options on regional or country indices, such as the S&P 500® Index, the Financial Times Stock Exchange 100 Index ( FTSE 100 ), the Nikkei All Stock Index ( Nikkei ), the Euro Stoxx 50 (Price) Index ( EuroStoxx 50 ) or any other broad-based global or regional securities index with an active derivatives market.

**Performance:** Based on net asset value ( NAV ) as of February 28, 2014, the Fund provided a total return of 13.65% for the year. This NAV return reflects an increase in the Fund's NAV from \$9.82 on February 28, 2013 to \$10.05 on February 28, 2014. Based on its share price, the Fund provided a total return of 9.95% for the year. This share price return reflects a decrease in the Fund's share price from \$9.17 on February 28, 2013 to \$9.08 on February 28, 2014. The reference indices, the MSCI World Index<sup>SM</sup> and the Chicago Board Options Exchange ( CBOE ) BuyWrite Monthly Index ( BXM Index ), returned 21.68% and 12.78%, respectively, for the reporting period. During the year, the Fund made monthly distributions totaling \$0.96 per share, which were characterized as \$0.27 per share return of capital and \$0.69 per share net investment income. As of February 28, 2014, the Fund had 97,548,925 shares outstanding.

**Portfolio Specifics:** Global equities made strong gains over the reporting period. The United States and Europe were the strongest regions on improving growth prospects, while emerging markets ( EM ) lagged. Japan fared best in local terms but its returns were lower in U.S.-dollar terms, due to a sharp depreciation of the yen.

The period was dominated by speculation about when the U.S. Federal Reserve Board (the Fed ) would start the tapering of its quantitative easing program. The expectations sent U.S. Treasury yields significantly higher and put pressure on dividend-paying stocks that had acted as bond proxies for yield-seeking investors. The actual start of tapering was announced and then initiated towards the end of the period. The Fed's decision to scale back its bond buying program by \$10 billion per month was in the end positive for U.S. equities as investors cheered the strength of the U.S. economy and looked past the disadvantages of reduced quantitative easing.

4

ING GLOBAL EQUITY DIVIDEND  
AND PREMIUM OPPORTUNITY FUND

PORTFOLIO MANAGERS REPORT

---

The decision to taper by the Fed was influenced by an improvement in macroeconomic indicators in the U.S. There were also signs of economic recovery in Europe, as aggregate GDP growth in the euro zone moved out of negative territory. The European Central Bank ( ECB ) did feel the need, however, to make a surprise cut to its reference interest rate from 0.5% to 0.25% due to deflation concerns. In Japan, enthusiasm for Abenomics—a bold, three-pillar plan of monetary easing, fiscal stimulus and structural reform weakened towards the end of the period due to uncertainties surrounding the economic reforms.

Fed tapering talk had a negative effect on sentiment towards emerging markets as investors worried about the impact of a possible reduction in global liquidity. Many of the emerging countries that had benefited from foreign investment flows were sold off, especially those with the largest macroeconomic imbalances. Most of the volatility was felt in foreign-exchange markets.

Health care, consumer discretionary and information technology ( IT ) were the best performing sectors; materials, consumer staples and energy were the main laggards. In terms of style, value stocks underperformed growth stocks, and both mid- and small-caps did better than large-caps.

The Fund lagged its reference index over the reporting period. The lag was largely attributable to the Fund's positioning in options and other derivatives, as well as its cash position. Stock selection represented a minor drag on performance.

**Equity Portfolio:** In the strong up-market that characterized the reporting period, our dividend equity strategy captured a significant portion of the upside but nevertheless slightly lagged the broad market. This was despite a headwind for dividend-paying stocks

## Edgar Filing: Voya GLOBAL EQUITY DIVIDEND & PREMIUM OPPORTUNITY FUND - Form N-CSR

following the start of Fed tapering discussions and rising bond yields earlier in the period. In this regard, our focus on valuation was beneficial as we were underweight consumer staples, an area where dividend stock expectations had been very high. Sector allocation was positive overall, helped significantly by our overweight in healthcare companies.

Stock selection, on the other hand, was negative mainly due to our stock picking within consumer discretionary, IT, health care and materials. Our stock picking within financials and consumer staples was positive and that helped to offset part of the negative effects elsewhere. The worst active contributors at the stock level were Gold miner Barrick Gold Corp., Canadian integrated oil company Cenovus Energy Inc. and ICL-Israel Chemicals Ltd. The best stock picks during the period were Deutsche Telekom AG, French industrial firm Vinci SA and the U.S. life insurer MetLife, Inc.

At the end of the period, relative to the MSCI World Index<sup>SM</sup>, our main overweight positions were in utilities, health care and telecommunication services. The largest underweights were in the consumer staples and consumer discretionary sectors. From a regional perspective, North America was still a substantial underweight as valuations remained quite stretched. Continental Europe remained the largest overweight. After the rally towards the end of 2013, valuation differentials decreased, but earnings expectations were still low for this region.

**Options Portfolio:** The option strategy seeks to reduce volatility of total returns as well as generate capital gains. The Fund currently sells calls on indices (Nikkei 225, DJ Euro STOXX 50, FTSE 100 and S&P 500®). During the reporting period the Fund maintained coverage of approximately 60% of portfolio value. Strikes of the call options were mostly at-the-money or near at-the-money. During the reporting period the relevant markets rallied. Implied volatility generally increased towards the end of June, and then declined towards levels observed at the beginning of the period. As expected during a rising equity market, the Fund collected less option premium than needed to be settled at options expiry and the option overlay detracted from performance. Nonetheless, the overlay helped reduce Fund volatility.

The Fund also uses derivative instruments such as futures to make market directional tactical decisions to enhance returns or to protect against declines in the value of its assets. During the reporting period this strategy detracted from performance.

A significant part of the Fund's investments are directly exposed to currency risk, due to investments in global markets. We partially hedge this risk by purchasing FX put options. To bring the FX overlay more in line with the equity option overlay, we continued to write FX calls to finance the puts that the Fund purchased, effectively creating a collar. In doing so, the Fund gave up part of its FX upside potential in return for cheaper downside protection. On balance, the currency options strategy marginally detracted from performance; results against the relevant currencies were mixed. While the dollar strengthened against the yen, it weakened against the euro as well as the pound.

**Outlook and Current Strategy:** Despite a volatile start to 2014, we believe the picture for global equities still looks constructive. We believe the U.S. is taking the lead as its labor market recovers. In Europe, the sovereign crisis is under control for now and economic activity is picking up. Japan, the third largest economy in the world, seems to have found a solution to end its deflationary spiral in our opinion. We believe only the emerging markets region remains a wild card: several countries have either serious macroeconomic imbalances or suffer political unrest. In our view, the trade impact on developed markets of a slowdown in emerging markets seems limited, but global risk aversion due to emerging market turmoil remains a factor in the outlook.

We continue to expect earnings growth for 2014, supported, in our opinion, by four drivers. The first and most critical driver is higher economic growth. Second, despite their record-high levels, we think corporate margins can remain stable (U.S.) or increase (Europe and Japan) as persistent unemployment has stripped labor of pricing power. The other drivers are low interest rates and low depreciation charges, the latter a consequence of low levels of past investment.

Across the globe, we believe valuation dispersion remains high. In our opinion, the euro zone offers significant value in a normalized economic environment. We remain cautious, however, about industries trading at all-time high margins and peak earnings, especially in the consumer space.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Shareholders and Board of Trustees  
 ING Global Equity Dividend and Premium Opportunity Fund

We have audited the accompanying statement of assets and liabilities, including the summary portfolio of investments, of ING Global Equity Dividend and Premium Opportunity Fund, as of February 28, 2014, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years or periods in the eight-year period then ended. These financial statements and financial highlights are the responsibility of management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of February 28, 2014, by correspondence with the custodian, transfer agent, and brokers, or by other appropriate auditing procedures where replies from brokers were not received. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of ING Global Equity Dividend and Premium Opportunity Fund as of February 28, 2014, and the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for the each of the years or periods in the eight-year period then ended, in conformity with U.S. generally accepted accounting principles.

- (1) Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of each period and a sale at net asset value at the end of each period and assumes reinvestment of dividends, capital gain distributions and return of capital distributions/allocations, if any, in accordance with the provisions of the dividend reinvestment plan. Total investment return at net asset value is not annualized for periods less than one year.
- (2) Total investment return at market value measures the change in the market value of your investment assuming reinvestment of dividends, capital gain distributions and return of capital distributions/allocations, if any, in accordance with the provisions of the Fund's dividend reinvestment plan. Total investment return at market value is not annualized for periods less than one year.
- (3) Annualized for periods less than one year.
- (4) Commencement of operations.
- (5) Net asset value at beginning of period reflects the deduction of the sales load of \$0.90 per share and the offering costs of \$0.04 per share paid by the shareholder from the \$20.00 offering price.

Calculated using average number of shares outstanding throughout the period.

## NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 28, 2014

---

### NOTE 1 ORGANIZATION

ING Global Equity Dividend and Premium Opportunity Fund (the Fund) is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the 1940 Act). The Fund is organized as a Delaware statutory trust.

### NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies are consistently followed by the Fund in the preparation of its financial statements, and such policies are in conformity with U.S. generally accepted accounting principles (GAAP) for investment companies.

A. **Security Valuation.** U.S. GAAP defines fair value as the price the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in equity securities traded on a national securities exchange are valued at the official closing price when available or, for certain markets, the last reported sale price on each valuation day. Securities traded on an exchange for which there has been no sale and equity securities traded in the over-the-counter-market are valued at the mean between the last reported bid and ask prices on each valuation day. All investments quoted in foreign currencies will be valued daily in U.S. dollars on the basis of the foreign currency exchange rates prevailing at that time. Debt securities with more than 60 days to maturity are valued using matrix pricing methods determined by an independent pricing service which takes into consideration such factors as yields, maturities, liquidity, ratings and traded prices in similar or identical securities. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of fair market value obtained from yield data relating to investments or securities with similar characteristics. Investments in open-end mutual funds are valued at the net asset value (NAV). Investments in securities of sufficient credit quality maturing 60 days or less from date of acquisition are valued at amortized cost which approximates fair value.

Securities and assets for which market quotations are not readily available (which may include certain restricted securities that are subject to limitations as to their sale) are valued at their fair values, as defined by the 1940 Act, and as determined in good faith by or under the supervision of the Fund's Board of Trustees ( Board ), in accordance with methods that are specifically authorized by the Board. Securities traded on exchanges, including foreign exchanges, which close earlier than the time that the Fund calculates its NAV may also be valued at their fair values, as defined by the 1940 Act, and as determined in good faith by or under the supervision of the Board, in accordance with methods that are specifically authorized by the Board. The value of a foreign security traded on an exchange outside the United States is generally based on its price on the principal foreign exchange where it trades as of the time the Fund determines its NAV or if the foreign exchange closes prior to the time the Fund determines its NAV, the most recent closing price of the foreign security on its principal exchange. Trading in certain non-U.S. securities may not take place on all days on which the NYSE Euronext ( NYSE ) is open. Further, trading takes place in various foreign markets on days on which the NYSE is not open. Consequently, the calculations of the Fund's NAV may not take place contemporaneously with the determination of the prices of securities held by the Fund in foreign securities markets. Further, the value of the Fund's assets may be significantly affected by foreign trading on days when a shareholder cannot purchase or redeem shares of the Fund. In calculating the Fund's NAV, foreign securities denominated in foreign currency are converted to U.S. dollar equivalents. If an event occurs after the time at which the market for foreign securities held by the Fund closes but before the time that the Fund's NAV is calculated, such event may cause the closing price on the foreign exchange to not represent a readily available reliable market value quotation for such securities at the time the Fund determines its NAV. In such a case, the Fund will use the fair value of such securities as determined under the Fund's valuation procedures. Events after the close of trading on a foreign market that could require the Fund to fair value some or all of its foreign securities include, among others, securities trading in the U.S. and other markets, corporate announcements, natural and other disasters, and political and other events. Among other elements of analysis in the determination of a security's fair value, the Board has authorized the use of one or more independent research services to assist with such determinations. An independent research service may use statistical analyses and quantitative models to help determine fair value as of the time the Fund calculates its NAV. There can be no assurance that such models accurately reflect the behavior of the applicable markets or the effect of the behavior of such markets on the fair value of securities, or that such markets will continue to behave in a fashion that is consistent with such models. Unlike the closing price of a security on an exchange, fair value determinations employ elements of judgment. Consequently, the fair value assigned to a security may not represent the actual value that the Fund could obtain if it were to sell the security at the time of the close of the NYSE. Pursuant to procedures adopted by the Board, the Fund is not obligated to use the fair valuations suggested by any research service, and valuation recommendations provided by such research services may be overridden if other events have occurred

---

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 28, 2014 (CONTINUED)

---

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

or if other fair valuations are determined in good faith to be more accurate. Unless an event is such that it causes the Fund to determine that the closing prices for one or more securities do not represent readily available reliable market value quotations at the time the Fund determines its NAV, events that occur between the time of the close of the foreign market on which they are traded and the close of regular trading on the NYSE will not be reflected in the Fund's NAV.

Options that are traded over-the-counter will be valued using one of three methods: (1) dealer quotes; (2) industry models with objective inputs; or (3) by using a benchmark arrived at by comparing prior-day dealer quotes with the corresponding change in the underlying security or index. Exchange traded options will be valued using the last reported sale. If no last sale is reported, exchange traded options will be valued using an industry accepted model such as Black Scholes. Options on currencies purchased by the Fund are valued using industry models with objective inputs at their last bid price in the case of listed options or at the average of the last bid prices obtained from dealers in the case of over-the-counter options.

Each investment asset or liability of the Fund is assigned a level at measurement date based on the significance and source of the inputs to its valuation. Quoted prices in active markets for identical securities are classified as Level 1, inputs other than quoted prices for an asset or liability that are observable are classified as Level 2 and unobservable inputs, including the sub-adviser's judgment about the assumptions that a market participant would use in pricing an asset or liability are classified as Level 3. The inputs used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. Short-term securities of sufficient credit quality which are valued at amortized cost, which approximates fair value, are generally considered to be Level 2 securities under applicable accounting rules. A table summarizing the Fund's investments under these

levels of classification is included following the Summary Portfolio of Investments.

The Board has adopted methods for valuing securities and other assets in circumstances where market quotes are not readily available, and has delegated the responsibility for applying the valuation methods to the Pricing Committee as established by the Fund's Administrator. The Pricing Committee considers all facts it deems relevant that are reasonably available, through either public information or information available to the Investment Adviser or sub-adviser, when determining the fair value of the security. In the event that a security or asset cannot be valued pursuant to one of the valuation methods established by the Board, the fair value of the security or asset will be determined in good faith by the Pricing Committee. When the Fund uses these fair valuation methods that use significant unobservable inputs to determine its NAV, securities will be priced by a method that the Pricing Committee believes accurately reflects fair value and are categorized as Level 3 of the fair value hierarchy. The methodologies used for valuing securities are not necessarily an indication of the risks of investing in those securities nor can it be assured the Fund can obtain the fair value assigned to a security if they were to sell the security.

To assess the continuing appropriateness of security valuations, the Pricing Committee may compare prior day prices, prices on comparable securities, and traded prices to the prior or current day prices and the Pricing Committee challenges those prices exceeding certain tolerance levels with the independent pricing service or broker source. For those securities valued in good faith at fair value, the Pricing Committee reviews and affirms the reasonableness of the valuation on a regular basis after considering all relevant information that is reasonably available.

For fair valuations using significant unobservable inputs, U.S. GAAP requires a reconciliation of the beginning to ending balances for reported fair values that presents changes attributable to total realized and unrealized gains or losses, purchases and sales, and transfers in or out of the Level 3 category during the period. The end of period timing recognition is used for the transfers between Levels of the Fund's assets and liabilities. A reconciliation of Level 3 investments is presented only when the Fund has a significant amount of Level 3 investments.

For the year ended February 28, 2014, there have been no significant changes to the fair valuation methodologies.

**B. Security Transactions and Revenue Recognition.** Security transactions are recorded on the trade date. Realized gains or losses on sales of investments are calculated on the identified cost basis. Interest income is recorded on the accrual basis. Premium amortization and discount accretion are determined using the effective yield method. Dividend income is recorded on the ex-dividend date or in the case of certain foreign dividends, when the information becomes available to the Fund.

**C. Foreign Currency Translation.** The books and records of the Fund are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Market value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the day.

---

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 28, 2014 (CONTINUED)

---

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

- (2) Purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

Although the net assets and the market values are presented at the foreign exchange rates at the end of the day, the Fund does not isolate the portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses from investments. For securities, which are subject to foreign withholding tax upon disposition, liabilities are recorded on the Statement of Assets and Liabilities for the estimated tax withholding based on the securities current market value. Upon disposition, realized gains or losses on such securities are recorded net of foreign withholding tax.

Reported net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in securities at period end, resulting from changes in the exchange rate. Foreign security and currency transactions may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, revaluation of currencies and future adverse political and economic developments which could cause securities and their markets to be less liquid and prices more volatile than those of comparable U.S. companies and U.S. government securities. The foregoing risks are even greater with respect to securities in emerging markets.

**D. Distributions to Shareholders.** The Fund intends to make monthly distributions from its cash available for distribution, which consists of the Fund's dividends and interest income after payment of Fund expenses, net option premiums and net realized and unrealized gains on investments. Such monthly distributions may also consist of return of capital. At least annually, the Fund intends to distribute all or substantially all of its net realized capital gains. Distributions are recorded on the ex-dividend date. Distributions are determined annually in accordance with federal tax principles, which may differ from U.S. GAAP for investment companies.

The tax treatment and characterization of the Fund's distributions may vary significantly from time to time depending on whether the Fund has gains or losses on the call options written on its portfolio versus gains or losses on the equity securities in the Fund. Each month, the Fund will provide disclosures with distribution payments made that estimate the percentages of that distribution that represent net investment income, other income or capital gains, and return of capital, if any. The final composition of the tax characteristics of the distributions cannot be determined with certainty until after the end of the Fund's tax year, and will be reported to shareholders at that time. A significant portion of the Fund's distributions may constitute a return of capital. The amount of monthly distributions will vary, depending on a number of factors. As portfolio and market conditions change, the rate of dividends on the common shares will change. There can be no assurance that the Fund will be able to declare a dividend in each period.

**E. Federal Income Taxes.** It is the policy of the Fund to comply with the requirements of subchapter M of the Internal Revenue Code that are applicable to regulated investment companies and to distribute substantially all of its net investment income and any net realized capital gains to its shareholders. Therefore, a federal income tax or excise tax provision is not required. Management has considered the sustainability of the Fund's tax positions taken on federal income tax returns for all open tax years in making this determination.

**F. Use of Estimates.** The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

**G. Risk Exposures and the use of Derivative Instruments.** The Fund's investment objectives permit the Fund to enter into various types of derivatives contracts, including, but not limited to, forward foreign currency exchange contracts and purchased and written options. In doing so, the Fund will employ strategies in differing combinations to permit it to increase or decrease the level of risk, or change the level or types of exposure to market risk factors. This may allow the Fund to pursue its objectives more quickly and efficiently, than if it were to make direct purchases or sales of securities capable of affecting a similar response to market factors.

**Market Risk Factors.** In pursuit of its investment objectives, the Fund may seek to use derivatives to

---

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 28, 2014 (CONTINUED)

---

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

increase or decrease its exposure to the following market risk factors:

**Credit Risk.** Credit risk relates to the ability of the issuer to meet interest and principal payments, or both, as they come due. In general, lower-grade, higher-yield bonds are subject to credit risk to a greater extent than lower-yield, higher-quality bonds.

**Equity Risk.** Equity risk relates to the change in value of equity securities as they relate to increases or decreases in the general market.

**Foreign Exchange Rate Risk.** Foreign exchange rate risk relates to the change in U.S. dollar value of a security held that is denominated in a foreign currency. The U.S. dollar value of a foreign currency denominated security will decrease as the dollar appreciates against the currency, while the U.S. dollar value will increase as the dollar depreciates against the currency.

**Interest Rate Risk.** Interest rate risk refers to the fluctuations in value of fixed-income securities resulting from the inverse relationship between price and yield. For example, an increase in general interest rates will tend to reduce the market value of already issued fixed-income investments, and a decline in general interest rates will tend to increase their value. In addition, debt securities with longer duration, which tend to have higher yields, are subject to potentially greater fluctuations in value from changes in interest rates than obligations with shorter duration. The Fund may lose money if short-term or long-term interest rates rise sharply or otherwise change in a manner not anticipated by the sub-adviser. As of the date of this report, interest rates in the United States are at, or near, historic lows, which may increase the Fund's exposure to risks associated with rising interest rates.

**Risks of Investing in Derivatives.** The Fund's use of derivatives can result in losses due to unanticipated changes in the market risk factors and the overall market. In instances where the Fund is using derivatives to decrease, or hedge, exposures to market risk factors for securities held by the Fund, there are also risks that those derivatives may not perform as expected resulting in losses for the combined or hedged positions.

The use of these strategies involves certain special risks, including a possible imperfect correlation, or even no correlation, between price movements of derivative instruments and price movements of related investments. While some strategies involving derivative instruments can reduce the risk of loss, they can also reduce the opportunity for gain or even result in losses by offsetting favorable price movements in related investments or otherwise, due to the possible inability of the Fund to purchase or sell a portfolio security at a time that otherwise would be favorable or the possible need to sell a portfolio security at a disadvantageous time because the Fund is required to maintain asset coverage or offsetting positions in connection with transactions in derivative instruments. Additional associated risks from investing in derivatives also exist and potentially could have significant effects on the valuation of the derivative and the Fund. Associated risks are not the risks that the Fund is attempting to increase or decrease exposure to, per its investment objectives, but are the additional risks from investing in derivatives. Examples of these associated risks are liquidity risk, which is the risk that the Fund will not be able to sell the derivative in the open market in a timely manner, and counterparty credit risk, which is the risk that the counterparty will not fulfill its obligation to the Fund. Associated risks can be different for each type of derivative and are discussed by each derivative type in the following notes.

**Counterparty Credit Risk and Credit Related Contingent Features.** Certain derivative positions are subject to counterparty credit risk, which is the risk that the counterparty will not fulfill its obligation to the Fund. The Fund's derivative counterparties are financial institutions who are subject to market conditions that may weaken their financial position. The Fund intends to enter into financial transactions with counterparties that it believes to be creditworthy at the time of the transaction. To reduce this risk, the Fund generally enters into master netting arrangements, established within the Fund's International Swap and Derivatives Association, Inc. ( ISDA ) Master Agreements ( Master Agreements ). These agreements are with select counterparties and they govern transactions, including certain over-the-counter ( OTC ) derivative and forward foreign currency contracts, entered into by the Fund and the counterparty. The Master Agreements maintain provisions for general obligations, representations, agreements, collateral, and events of default or termination. The occurrence of a specified event of termination may give a counterparty the right to terminate all of its contracts and affect settlement of all outstanding transactions under the applicable Master Agreement.

The Fund may also enter into collateral agreements with certain counterparties to further mitigate credit risk associated with OTC derivative and forward foreign currency contracts. Subject to established minimum levels, collateral is generally determined based on the net aggregate unrealized gain or loss on contracts with a certain counterparty. Collateral pledged to the Fund is held in a segregated account by a third-party agent and can be in the form of cash or debt securities issued by the U.S. government or related agencies.

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

The Fund's maximum risk of loss from counterparty credit risk on OTC derivatives is generally the aggregate unrealized gain in excess of any collateral pledged by the counterparty to the Fund. For purchased OTC options, the Fund bears the risk of loss in the amount of the premiums paid and the change in market value of the options should the counterparty not perform under the contracts. As of February 28, 2014, the total fair value of purchased OTC put options subject to counterparty credit risk was \$287,171. The counterparties did not post any collateral to the Fund at year end. There were no credit events during the year ended February 28, 2014 that triggered any credit related contingent features.

The Fund's master agreements with derivative counterparties have credit related contingent features that if triggered would allow its derivatives counterparties to close out and demand payment or additional collateral to cover their exposure from the Fund. Credit related contingent features are established between the Fund and its derivatives counterparties to reduce the risk that the Fund will not fulfill its payment obligations to its counterparties. These triggering features include, but are not limited to, a percentage decrease in the Fund's net assets and or a percentage decrease in the Fund's NAV, which could cause the Fund to accelerate payment of any net liability owed to the counterparty. The contingent features are established within the Fund's Master Agreements.

Written options by the Fund do not give rise to counterparty credit risk, as written options obligate the Fund to perform and not the counterparty. As of February 28, 2014, the total value of written OTC call options subject to Master Agreements in a liability position was \$14,616,632. If a contingent feature had been triggered, the Fund could have been required to pay this amount in cash to its counterparties. The Fund did not post collateral for its open written OTC options at year end. There were no credit events during the year ended February 28, 2014 that triggered any credit related contingent features.

**H. Futures Contracts.** The Fund may enter into futures contracts involving foreign currency, interest rates, securities and securities indices. A futures contract obligates the seller of the contract to deliver and the purchaser of the contract to take delivery of the type of foreign currency, financial instrument or security called for in the contract at a specified future time for a specified price. Upon entering into such a contract, the Fund is required to deposit and maintain as collateral such initial margin as required by the exchange on which the contract is traded. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount equal to the daily fluctuations in the value of the contract. Such receipts or payments are known as variation margin and are recorded as unrealized gains or losses by the Fund. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Futures contracts are exposed to the market risk factor of the underlying financial instrument. During the year ended February 28, 2014, the Fund had purchased futures contracts on various equity indices primarily to provide exposures to such index returns while allowing the fund managers to maintain a certain level of cash balances in the Fund. Additional associated risks of entering into futures contracts include the possibility that there may be an illiquid market where the Fund is unable to liquidate the contract or enter into an offsetting position and, if used for hedging purposes, the risk that the price of the contract will correlate imperfectly with the prices of the Fund's securities. With futures, there is minimal counterparty credit risk to the Fund since futures are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures, guarantees the futures against default.

During the year ended February 28, 2014, the Fund had an average notional value on purchased and sold futures of \$60,451,092 and \$12,860,839, respectively. Please refer to the Summary Portfolio of Investments for open futures contracts at February 28, 2014.

**I. Options Contracts.** The Fund may purchase put and call options and may write (sell) put options and covered call options. The premium received by the Fund upon the writing of a put or call option is included in the Statement of Assets and Liabilities as a liability which is subsequently marked-to-market until it is exercised or closed, or it expires. The Fund will realize a gain or loss upon the expiration or closing of the option contract. When an option is exercised, the proceeds on sales of the underlying security for a written call option or purchased put option or the purchase cost of the security for a written put option or a purchased call option is adjusted by the amount of premium received or paid. The risk in writing a call option is that the Fund gives up the opportunity for profit if the market price of the security increases and the option is exercised. The risk in buying an option is that the Fund pays a premium whether or not the option is exercised. Risks may also arise from an illiquid secondary market or from the inability of counterparties to meet the terms of the contract.

The Fund's option strategy seeks to reduce volatility of total returns and to supplement distributions by selling call options and may also purchase put options on equity indices.

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 28, 2014 (CONTINUED)

---

**NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (continued)**

The Fund is also subject to foreign currency risk given its significant investments in foreign equities. In order to mitigate this risk, the Fund uses foreign-exchange option collars. Please refer to Note 7 for the volume of both purchased and written option activity during the year ended February 28, 2014.

J. **Indemnifications.** In the normal course of business, the Fund may enter into contracts that provide certain indemnifications. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, management considers risk of loss from such claims remote.

**NOTE 3 INVESTMENT MANAGEMENT AND ADMINISTRATIVE FEES**

ING Investments, LLC ( *ING Investments* or the *Investment Adviser* ), an Arizona limited liability company, is the Investment Adviser of the Fund. The Fund pays the Investment Adviser for its services under an investment management agreement ( *Management Agreement* ), a fee, payable monthly, based on an annual rate of 1.05% of the Fund's average daily managed assets. For the first five years of the Fund's existence, the Investment Adviser contractually waived a portion of its fee equivalent to 0.20% of the Fund's managed assets. Beginning in the sixth year, the fee waiver declined each year by 0.05% until it was eliminated in the ninth year. The management fee waiver expired on April 1, 2013. For purposes of the Management Agreement, managed assets are defined as the Fund's average daily gross asset value, minus the sum of the Fund's accrued and unpaid dividends on any outstanding preferred shares and accrued liabilities (other than liabilities for the principal amount of any borrowings incurred, commercial paper or notes issued by the Fund and the liquidation preference of any outstanding preferred shares). As of February 28, 2014, there were no preferred shares outstanding.

The Investment Adviser has retained ING Investment Management Co. LLC ( *ING IM* or *Consultant* ), a Delaware limited liability company, to provide certain consulting services for the Investment Adviser. These services include, among other things, furnishing statistical and other factual information; providing advice with respect to potential investment strategies that may be employed for the Fund, including, but not limited to, potential options strategies; developing economic models of the anticipated investment performance and yield for the Fund; and providing advice to the Investment Adviser and/or sub-adviser with respect to the Fund's level and/or managed distribution policy. For its services, the Consultant will receive a consultancy fee from the Investment Adviser. No fee will be paid by the Fund directly to the Consultant.

The Investment Adviser entered into a sub-advisory agreement with ING Investment Management Advisors B.V. ( *IIMA* ), a subsidiary of ING Groep N.V. ( *ING Groep* ), domiciled in The Hague, The Netherlands. Subject to policies as the Board or the Investment Adviser might determine, IIMA manages the Fund's assets in accordance with the Fund's investment objectives, policies and limitations.

Effective, July 5, 2013, the Investment Adviser entered into a sub-advisory agreement with ING IM. Subject to policies as the Board or the Investment Adviser might determine, ING IM will manage the Fund's assets in accordance with the Fund's investment objectives, policies and limitations.

IIMA currently manages the Fund's assets; however, in the future, the Investment Adviser may allocate the Fund's assets to ING IM for management, and may change the allocation of the Fund's assets among the two sub-advisers in its discretion, to pursue the Fund's investment objective. Each sub-adviser would make investment decisions for the assets it is allocated to manage.

ING Funds Services, LLC (the *Administrator* ), a Delaware limited liability company, serves as Administrator to the Fund. The Fund pays the Administrator for its services a fee based on an annual rate of 0.10% of the Fund's average daily managed assets.

**NOTE 4 EXPENSE LIMITATION AGREEMENT**

The Investment Adviser has entered into a written expense limitation agreement ( *Expense Limitation Agreement* ) with the Fund under which it will limit the expenses of the Fund, excluding interest, taxes, leverage expenses, extraordinary expenses, and acquired fund fees and expenses to 1.20% of average daily managed assets. The Investment Adviser may at a later date recoup from the Fund fees waived and other expenses assumed by the Investment Adviser during the previous 36 months, but only if, after

such recoupment, the Fund's expense ratio does not exceed the percentage described above. The Expense Limitation Agreement is contractual through March 1, 2015 and shall renew automatically for one-year terms unless: (i) ING Investments provides 90 days written notice of its termination and such termination is approved by the Board; or (ii) the Management Agreement has been terminated.

Waived and reimbursed fees and any recoupment by the Investment Adviser of such waived and reimbursed fees are reflected on the accompanying Statement of Operations.

---

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 28, 2014 (CONTINUED)

---

**NOTE 4 EXPENSE LIMITATION AGREEMENT (continued)**

As of February 28, 2014, the amounts of waived or reimbursed fees that are subject to possible recoupment by the Investment Adviser, and the related expiration dates, are as follows:

February 28,			
2015	2016	2017	Total
\$0	\$0	\$128,395	\$128,395

**NOTE 5 OTHER TRANSACTIONS WITH AFFILIATES AND RELATED PARTIES**

The Fund has adopted a Deferred Compensation Plan (the Plan), which allows eligible non-affiliated trustees as described in the Plan to defer the receipt of all or a portion of the trustees fees payable. Amounts deferred are treated as though invested in various notional funds advised by ING Investments until distribution in accordance with the Plan.

**NOTE 6 PURCHASES AND SALES OF INVESTMENT SECURITIES**

The cost of purchases and proceeds from sales of investments for the year ended February 28, 2014, excluding short-term securities, were \$451,481,966 and \$586,440,153, respectively.

**NOTE 7 PURCHASED AND WRITTEN OPTIONS**

Transactions in purchased OTC options on currencies were as follows:

	Notional Amount	Cost
Balance at 02/28/13	\$ 212,200,000	\$ 1,063,580
Options Purchased	915,000,000	4,888,015
Options Expired	(729,300,000)	(4,061,645)
Options Exercised		
Options Terminated in Closing Sell Transactions	(151,900,000)	(763,650)
Balance at 02/28/14	\$ 246,000,000	\$ 1,126,300

Transactions in written OTC call options on currencies were as follows:

	Notional Amount	Premiums Received
Balance at 02/28/13	\$ 212,200,000	\$ 1,063,580
Options Written	915,000,000	4,888,015
Options Expired	(632,200,000)	(3,475,720)
Options Exercised		
Options Terminated in Closing Purchase Transactions	(249,000,000)	(1,349,575)
Balance at 02/28/14	\$ 246,000,000	\$ 1,126,300

Transactions in written OTC call options on indices were as follows:

	Number of Contracts	Premiums Received
Balance at 02/28/13	654,800	\$ 9,871,846
Options Written	5,270,100	92,366,357
Options Expired	(1,353,000)	(22,258,012)
Options Exercised		
Options Terminated in Closing Purchase Transactions	(3,958,700)	(68,951,409)
Balance at 02/28/14	613,200	\$ 11,028,782

#### NOTE 8 CONCENTRATION OF INVESTMENT RISKS

All mutual funds involve risk some more than others and there is always the chance that you could lose money or not earn as much as you hope. The Fund's risk profile is largely a factor of the principal securities in which it invests and investment techniques that it uses. For more information regarding the types of securities and investment techniques that may be used by the Fund and its corresponding risks, see the Fund's Prospectus and/or the Statement of Additional Information.

**Foreign Securities and Emerging Markets.** The Fund makes significant investments in foreign securities and may invest up to 20% of its managed assets in securities issued by companies located in countries with emerging markets. Investments in foreign securities may entail risks not present in domestic investments. Since investments in securities are denominated in foreign currencies, changes in the relationship of these foreign currencies to the U.S. dollar can significantly affect the value of the investments and earnings of the Fund. Foreign investments may also subject the Fund to foreign government exchange restrictions, expropriation, taxation or other political, social or economic developments, as well as from movements in currency, security value and interest rate, all of which could affect the market and/or credit risk of the investments. The risks of investing in foreign securities can be intensified in the case of investments in issuers located in countries with emerging markets.

**Leverage.** Although the Fund has no current intention to do so, the Fund is authorized to utilize leverage through the issuance of preferred shares and/or borrowings, including the issuance of debt securities. In the event that the Fund determines in the future to utilize investment leverage, there can be no assurance that such a leveraging strategy will be successful during any period in which it is employed.

#### NOTE 9 CAPITAL SHARES

There was no capital shares activity during year ended February 28, 2013 and during the year ended February 28, 2014.

**NOTE 10 FEDERAL INCOME TAXES**

The amount of distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from U.S. GAAP for investment companies. These book/tax differences may be either temporary or permanent. Permanent differences are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences are not reclassified. Key differences include the treatment of short-term capital gains, foreign currency transactions, and wash sale deferrals. Distributions in excess of net investment income and/or net realized capital gains for tax purposes are reported as return of capital.

The following permanent tax differences have been reclassified as of the Fund's tax year ended December 31, 2013<sup>(1)</sup>:

Paid-in Capital	Undistributed Net Investment Income	Accumulated Net Realized Gains/(Losses)
\$(37,150,191)	\$40,108,551	\$(2,958,360)

<sup>(1)</sup> \$37,150,191 relates to distributions in excess of net investment income taxed as ordinary income due to current year earnings and profits.

Dividends paid by the Fund from net investment income and distributions of net realized short-term capital gains are, for federal income tax purposes, taxable as ordinary income to shareholders.

The tax composition of dividends and distributions in the current period will not be determined until after the Fund's tax year-end of December 31, 2014. The tax composition of dividends and distributions as of the Fund's most recent tax year-ends was as follows:

Tax Year Ended December 31, 2013		Tax Year Ended December 31, 2012	
Ordinary Income	Return of Capital	Ordinary Income	Return of Capital
\$60,444,019	\$34,763,732	\$28,520,289	\$76,832,550

The tax-basis components of distributable earnings and the capital loss carryforwards which may be used to offset future realized capital gains for federal income tax purposes as of December 31, 2013 are detailed below. The Regulated Investment Company Modernization Act of 2010 (the Act) provides an unlimited carryforward period for newly generated capital losses. Under the Act, there may be a greater likelihood that all or a portion of the Fund's pre-enactment capital loss carryforwards may expire without being utilized due to the fact that post-enactment capital losses are required to be utilized before pre-enactment capital loss carryforwards.

Unrealized Appreciation/ (Depreciation)	Short-term Capital Loss Carryforwards	Expiration
\$118,602,019	\$(69,809,827)	2016
	(325,327,424)	2017
	\$(395,137,251)	

The Fund's major tax jurisdictions are U.S. federal and Arizona. The earliest tax year that remains subject to examination by these jurisdictions is 2009.

As of February 28, 2014, no provision for income tax is required in the Fund's financial statements as a result of tax positions taken on federal and state income tax returns for open tax years. The Fund's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state department of revenue.

**NOTE 11 RESTRUCTURING PLAN**

In October 2009, ING Groep submitted a restructuring plan (the "Restructuring Plan") to the European Commission in order to receive approval for state aid granted to ING Groep by the Kingdom of the Netherlands in November 2008 and March 2009. To receive approval for this state aid, ING Groep was required to divest its insurance and investment management businesses, including ING U.S., before the end of 2013. In November 2012, the Restructuring Plan was amended to permit ING Groep additional time to complete the divestment. Pursuant to the amended Restructuring Plan, ING Groep must divest at least 25% of ING U.S. by the end of 2013, more than 50% by the end of 2014, and the remaining interest by the end of 2016 (such divestment, the "Separation Plan").

In May 2013, ING U.S. conducted an initial public offering of ING U.S. common stock (the "IPO"). In October 2013, ING Groep divested additional shares in a secondary offering of common stock of ING U.S. In March 2014, ING Groep divested additional shares, reducing its ownership interest in ING U.S. below 50%. ING U.S. did not receive any proceeds from these offerings.

ING Groep has stated that it intends to sell its remaining interest in ING U.S. over time. While the base case for the remainder of the Separation Plan is the divestment of ING Groep's remaining interest in one or more broadly distributed offerings, all options remain open and it is possible that ING Groep's divestment of its remaining interest in ING U.S. may take place by means of a sale to a single buyer or group of buyers.

It is anticipated that one or more of the transactions contemplated by the Separation Plan would result in the automatic termination of the existing investment advisory

---

NOTES TO FINANCIAL STATEMENTS AS OF FEBRUARY 28, 2014 (CONTINUED)

---

**NOTE 11 RESTRUCTURING PLAN (continued)**

and sub-advisory agreements under which the Investment Adviser and sub-adviser provide services to the Fund. In order to ensure that the existing investment advisory and sub-advisory services can continue uninterrupted, the Board approved new advisory and sub-advisory agreements for the Fund in connection with the IPO. Shareholders of the Fund approved the new investment advisory and sub-advisory agreements prompted by the IPO, as well as any future advisory and sub-advisory agreements prompted by the Separation Plan that are approved by the Board and whose terms are not materially different from the current agreements. This means that shareholders may not have another opportunity to vote on a new agreement with the Investment Adviser or an affiliated sub-adviser even if they undergo a change of control, as long as no single person or group of persons acting together gains control (as defined in the 1940 Act) of ING U.S.

The Separation Plan, whether implemented through public offerings or other means, may be disruptive to the businesses of ING U.S. and its subsidiaries, including the Investment Adviser and affiliated entities that provide services to the Fund, and may cause, among other things, interruption of business operations or services, diversion of management's attention from day-to-day operations, reduced access to capital, and loss of key employees or customers. The completion of the Separation Plan is expected to result in the Investment Adviser's loss of access to the resources of ING Groep, which could adversely affect its business. Since a portion of the shares of ING U.S., as a standalone entity, are publicly held, it is subject to the reporting requirements of the Securities Exchange Act of 1934 as well as other U.S. government and state regulations, and subject to the risk of changing regulation.

The Separation Plan may be implemented in phases. During the time that ING Groep retains a significant interest in ING U.S., circumstances affecting ING Groep, including restrictions or requirements imposed on ING Groep by European and other authorities, may also affect ING U.S. A failure to complete the Separation Plan could create uncertainty about the nature of the

Edgar Filing: Voya GLOBAL EQUITY DIVIDEND & PREMIUM OPPORTUNITY FUND - Form N-CSR

relationship between ING U.S. and ING Groep, and could adversely affect ING U.S. and the Investment Adviser and its affiliates. Currently, the Investment Adviser and its affiliates do not anticipate that the Separation Plan will have a material adverse impact on their operations or the Fund and its operation.

**NOTE 12 SUBSEQUENT EVENTS**

**Dividends:** Subsequent to February 28, 2014, the Fund made distributions of:

Per Share Amount	Declaration Date	Payable Date	Record Date
\$0.076	2/18/2014	3/17/2014	3/5/2014
\$0.076	3/17/2014	4/15/2014	4/3/2014
\$0.076	4/15/2014	5/15/2014	5/5/2014

Each month, the Fund will provide disclosures with distribution payments made that estimate the percentages of that distribution that represent net investment income, capital gains, and return of capital, if any. A significant portion of the monthly distribution payments made by the Fund may constitute a return of capital.

Effective May 1, 2014, the Fund is to be renamed Voya Global Equity Dividend and Premium Opportunity Fund.

The Fund has evaluated events occurring after the Statement of Assets and Liabilities date (subsequent events) to determine whether any subsequent events necessitated adjustment to or disclosure in the financial statements. Other than the above, no such subsequent events were identified.

^ See Note 2, Significant Accounting Policies in the Notes to Financial Statements for additional information.

+ Other Financial Instruments are derivatives not reflected in the Portfolio of Investments and may include open forward foreign currency contracts, futures, centrally cleared swaps, OTC swaps and written options. Forward foreign currency contracts, futures and centrally cleared swaps are valued at the unrealized gain (loss) on the instrument. OTC swaps and written options are valued at the fair value of the instrument.

# The earlier close of the foreign markets gives rise to the possibility that significant events, including broad market moves, may have occurred in the interim and may materially affect the value of those securities. To account for this, the Fund may frequently value many of its foreign equity securities using fair value prices based on third party vendor modeling tools to the extent available. Accordingly, a portion of the Fund's investments are categorized as Level 2 investments.

24

**ING GLOBAL EQUITY DIVIDEND AND  
PREMIUM OPPORTUNITY FUND**

**SUMMARY PORTFOLIO OF INVESTMENTS**

AS OF FEBRUARY 28, 2014 (CONTINUED)

Currency	
% of Total Net Assets against which Currency calls/puts purchased	25.28%
Average Days to Expiration at time purchased	90 days
Average Currency Put Moneyness* at time purchased	OTM
Premiums Paid for puts	\$ 1,126,300
Value of puts	\$ 287,171

\* Moneyness is the term used to describe the relationship between the price of the underlying asset and the option's exercise or strike price. For example, a call (buy) option is considered in-the-money when the value of the underlying asset exceeds the strike price. Conversely, a put (sell) option is considered in-the-money when its strike price exceeds the value of the underlying asset. Options are characterized for the purpose of Moneyness as, in-the-money (ITM), out-of-the-money (OTM) or at-the-money (ATM), where the underlying asset value equals the strike price.

25

TAX INFORMATION (UNAUDITED)

Dividends and distributions paid during the tax year ended December 31, 2013 were as follows:

Fund Name	Type	Per Share Amount
ING Global Equity Dividend and Premium Opportunity Fund	NII	\$0.6192
	ROC	\$0.3568

NII Net investment income

ROC Return of capital

Of the ordinary distributions made during the tax year ended December 31, 2013, 51.61% qualifies for the dividends received deduction (DRD) available to corporate shareholders.

For the tax year ended December 31, 2013, 51.68% of ordinary income dividends paid by the Fund (including creditable foreign taxes paid) are designated as qualifying dividend income (QDI) subject to reduced income tax rates for individuals.

Pursuant to Section 853 of the Internal Revenue Code, the Fund designates the following amounts as foreign taxes paid for the tax year ended December 31, 2013:

Creditable Foreign Taxes Paid	Per Share Amount	Portion of Ordinary Income Distribution Derived from Foreign Sourced Income*
\$1,159,477	\$0.0119	57.09%

\* None of the Fund's income was derived from ineligible foreign sources as defined under Section 901(j) of the Internal Revenue Code.

Foreign taxes paid or withheld should be included in taxable income with an offsetting deduction from gross income or as a credit for taxes paid to foreign governments. Shareholders are strongly advised to consult their own tax advisors regarding the appropriate treatment of foreign taxes paid.

Above figures may differ from those cited elsewhere in this report due to differences in the calculation of income and gains under U.S. generally accepted accounting principles (book) purposes and Internal Revenue Service (tax) purposes.

Shareholders are strongly advised to consult their own tax advisors with respect to the tax consequences of their investments in the Fund. In January, shareholders, excluding corporate shareholders, receive an IRS 1099-DIV regarding the federal tax status of the dividends and distributions they received in the calendar year.

SHAREHOLDER MEETING INFORMATION (UNAUDITED)

An annual shareholder meeting of ING Global Equity Dividend and Premium Opportunity Fund was held May 6, 2013, at the offices of ING Funds, 7337 East Doubletree Ranch Road, Suite 100, Scottsdale, AZ 85258.

Proposals:

- 1 To approve a new investment advisory agreement for the Fund with ING Investments prompted by the IPO, and to approve, under certain circumstances, any future advisory agreements prompted by Change of Control Events that occur as part of the Separation Plan.
- 2 To approve a new investment sub-advisory agreement between ING Investments and IIMA with respect to the Fund prompted by the IPO, and to approve, under certain circumstances, any future sub-advisory agreements prompted by Change of Control Events that occur as part of the Separation Plan.
- 3 To elect five nominees to the Board of Trustees of the Fund.
- 4 To approve a new investment sub-advisory agreement between ING Investments and ING IM with respect to the Fund.

(April 2009 Present).
--	---------	-------------------	--

(1) Trustees serve until their successors are duly elected and qualified. The tenure of each Trustee ( Independent Trustee ) is subject to the Board s retirement policy, which states that each duly elected or appointed Independent Trustee shall retire from and cease to be a member of the Board of Trustees as of the close of business on December 31 of the calendar year in which the Independent Trustee attains the age of 73. A majority vote of the Board s other Independent Trustees may extend the retirement date of an Independent Trustee if the retirement would trigger a requirement to hold a meeting of shareholders of the Trust under applicable law, whether for purposes of appointing a successor to the Trustee or otherwise comply with applicable law, in which case the extension would apply until such time as the shareholder meeting can be held or is no longer required (as determined by a vote of a majority of the other Independent Trustees).

(2) For the purpose of this table ING Fund Complex means the following investment companies: ING Asia Pacific High Dividend Equity Income Fund; ING Balanced Portfolio, Inc.; ING Emerging Markets High Dividend Equity Fund; ING Equity Trust; ING Funds Trust; ING Global Advantage and Premium Opportunity Fund; ING Global Equity Dividend and Premium Opportunity Fund; ING Infrastructure, Industrials and Materials Fund; ING Intermediate Bond Portfolio; ING International High Dividend Equity Income Fund; ING Investors Trust; ING Money Market Portfolio; ING Mutual Funds; ING Partners, Inc.; ING Prime Rate Trust; ING Risk Managed Natural Resources Fund; ING Senior Income Fund; ING Separate Portfolios Trust; ING Series Fund, Inc.; ING Strategic Allocation Portfolios, Inc.; ING Variable Funds; ING Variable Insurance Trust; ING Variable Portfolios, Inc.; and ING Variable Products Trust. The number of funds in the ING Fund Complex is as of March 31, 2014.

(3) Interested person, as defined in the 1940 Act, by virtue of this Trustee s current affiliation with any of the Funds, ING or any of ING s affiliates.

**ADDITIONAL INFORMATION (UNAUDITED)**

During the period, there were no material changes in the Fund's investment objective or policies that were not approved by the shareholders or the Fund's charter or by-laws or in the principal risk factors associated with investment in the Fund other than that listed below.

The Fund may lend portfolio securities in an amount equal to up to 33-1/3% of its managed assets to broker dealers or other institutional borrowers, in exchange for cash collateral and fees. The fund may use the cash collateral in connection with the Fund's investment program as approved by the Adviser, including generating cash to cover collateral posting requirements. Although the Fund has no current intention to do so, it may use the cash collateral to generate additional income. The use of cash

collateral in connection with the Fund's investment program may have a leveraging effect on the Fund, which would increase the volatility of the Fund and could reduce its returns and/or cause a loss.

The Fund intends to engage in lending portfolio securities only when such lending is secured by cash or other permissible collateral in an amount at least equal to the market value of the securities loaned. The Fund will maintain cash, cash equivalents or liquid securities holdings in an amount sufficient to cover its repayment obligation with respect to the collateral, marked to market on a daily basis.

Securities lending involves the risks of delay in recovery or even loss of rights in the securities loaned if the borrower of the securities fails financially. Loans will be made only to organizations whose credit quality or claims paying ability is considered by the Sub-Adviser to be at least investment grade. The financial condition of the borrower will be monitored by the Adviser on an ongoing basis. The Fund will not lend portfolio securities subject to a written American style covered call option contract. The Fund may lend portfolio securities subject to a written European style covered call option contract as long as the lending period is less than or equal to the term of the covered call option contract.

The Fund was granted exemptive relief by the SEC (the Order), which under the 1940 Act, would permit the Fund, subject to Board approval, to include realized long-term capital gains as a part of its regular distributions to Common Shareholders more frequently than would otherwise be permitted by the 1940 Act (generally once per taxable year) (Managed Distribution Policy). The Fund may in the future adopt a Managed Distribution Policy.

### **Dividend Reinvestment Plan**

Unless the registered owner of Common Shares elects to receive cash by contacting Computershare Shareowner Services LLC (the Plan Agent), all dividends declared on Common Shares of the Fund will be automatically reinvested by the Plan Agent for shareholders in additional Common Shares of the Fund through the Fund's Dividend Reinvestment Plan (the Plan). Shareholders who elect not to participate in the Plan will receive all dividends and other distributions in cash paid by check mailed directly to the shareholder of record (or, if the Common Shares are held in street or other nominee name, then to such nominee) by the Plan Agent. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Agent prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional Common Shares of the Fund for you. If you wish for all dividends declared on your Common Shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Agent will open an account for each Common Shareholder under the Plan in the same name in which such Common Shareholder's Common Shares are registered. Whenever the Fund declares a dividend or other distribution (together, a Dividend) payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Shares. The Common Shares will be acquired by the Plan Agent for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Shares from the Fund (Newly Issued Common Shares) or (ii) by purchase of outstanding Common Shares on the open market (Open-Market Purchases) on the NYSE or elsewhere. Open-market purchases and sales are usually made through a broker affiliated with the Plan Agent.

If, on the payment date for any Dividend, the closing market price plus estimated brokerage commissions per Common Share is equal to or greater than the net asset value per Common Share, the Plan Agent will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per Common Share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Share on the payment date. If, on the payment date for any Dividend, the net asset value per Common Share is greater than the closing market value plus estimated brokerage commissions, the Plan Agent will invest the Dividend amount in Common Shares acquired on behalf of the

## Edgar Filing: Voya GLOBAL EQUITY DIVIDEND & PREMIUM OPPORTUNITY FUND - Form N-CSR

participants in Open-Market Purchases. In the event of a market discount on the payment date for any Dividend, the Plan Agent will have until the last business day before the next date on which the Common Shares trade on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Shares acquired in Open-Market Purchases.

The Fund pays monthly Dividends. Therefore, the period during which Open-Market Purchases can be made will exist only from the payment date of each Dividend through the date before the next ex-dividend date, which typically will be approximately ten days.

If, before the Plan Agent has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per Common Share, the average per Common Share purchase price paid by the Plan Administrator may exceed the net asset value of the Common Shares, resulting in the acquisition of fewer Common Shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Agent is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Agent will cease making Open-Market Purchases and will invest the un-invested portion of the Dividend amount in Newly Issued Common Shares at the net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per Common Share, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Agent maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common Shares in the account of each Plan participant will be held by the Plan Agent on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Agent will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of Common Shares certified from time to time by the record shareholder's name and held for the account of beneficial owners who participate in the Plan.

There will be no brokerage charges with respect to Common Shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. Participants that request a partial or full sale of shares through the Plan Agent are subject to a \$15.00 sales fee and a \$0.10 per share brokerage commission on purchases or sales, and may be subject to certain other service charges.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All questions concerning the Plan should be directed to the Fund's Shareholder Service Department at (800) 992-0180.

### Key Financial Dates Calendar 2014 Distributions:

December 15, 2014	December 29, 2014	January 15, 2015

*Record date will be two business days after each Ex-Dividend Date. These dates are subject to change.*

**Stock Data**

The Fund's common shares are traded on the NYSE (Symbol: IGD).

**Repurchase of Securities by Closed-End Companies**

In accordance with Section 23(c) of the 1940 Act, and Rule 23c-1 under the 1940 Act the Fund may from time to time purchase shares of beneficial interest of the Fund in the open market, in privately negotiated transactions and/or purchase shares to correct erroneous transactions.

**Number of Shareholders**

The approximate number of record holders of Common Stock as of February 28, 2014 was 102, which does not include approximately 50,687 beneficial owners of shares held in the name of brokers of other nominees.

ADDITIONAL INFORMATION (UNAUDITED) (CONTINUED)

**Certifications**

In accordance with Section 303A.12 (a) of the New York Stock Exchange Listed Company Manual, the Fund's CEO submitted the Annual CEO Certification on June 27, 2013 certifying that he was not aware, as of that date, of any violation by the Fund of the NYSE's Corporate governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related SEC rules, the Fund's principal executive and financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal controls over financial reporting.

ADDITIONAL INFORMATION (UNAUDITED) (CONTINUED)

On April 7, 2014, ING U.S., Inc. changed its name to Voya Financial, Inc. Effective May 1, 2014, ING Investments, LLC, the Investment Adviser to the Fund, will be renamed Voya Investments, LLC. **Item 2. Code of Ethics.**

As of the end of the period covered by this report, Registrant had adopted a code of ethics, as defined in Item 2 of Form N-CSR, that applies to the Registrant's principal executive officer and principal financial officer. There were no amendments to the Code during the period covered by the report. The Registrant did not grant any waivers, including implicit waivers, from any provisions of the Code during the period covered by this report. The code of ethics is filed herewith pursuant to Item 10(a)(1), Exhibit 99.CODE ETH.

**Item 3. Audit Committee Financial Expert.**

The Board of Trustees has determined that J. Michael Earley, Peter S. Drotch and Colleen Baldwin are audit committee financial experts, as defined in Item 3 of Form N-CSR. Mr. Earley, Mr. Drotch and Ms. Baldwin are independent for purposes of Item 3 of Form N-CSR.

**Item 4. Principal Accountant Fees and Services.**

- (a) Audit Fees: The aggregate fees billed for each of the last two fiscal years for professional services rendered by KPMG LLP ( KPMG ), the principal accountant for the audit of the registrant's annual financial statements, for services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for those fiscal years were \$26,600 for the year ended February 28, 2014 and \$24,500 for the year ended February 28, 2013.
- (b) Audit-Related Fees: The aggregate fees billed in each of the last two fiscal years for assurance and related services by KPMG that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this item were \$2,400 for the year ended February 28, 2014 and \$2,400 for the year ended February 28, 2013.
- (c) Tax Fees: The aggregate fees billed in each the last two fiscal years for professional services rendered by KPMG for tax compliance, tax advice, and tax planning were \$11,518 in the year ended February 28, 2014 and \$8,926 in the year ended February 28, 2013. Such services included review of excise distribution calculations (if applicable), preparation of the Funds' federal, state and excise tax returns, tax services related to mergers and routine consulting.
- (d) All Other Fees: none.
- (e)(1) Audit Committee Pre-Approval Policies and Procedures

---

**AUDIT AND NON-AUDIT SERVICES  
PRE-APPROVAL POLICY**

**I. Statement of Principles**

Under the Sarbanes-Oxley Act of 2002 (the Act), the Audit Committee of the Board of Directors or Trustees (the Committee) of the ING Funds (each a Fund, collectively, the Funds) set out on Exhibit A to this Audit and Non-Audit Services Pre-Approval Policy ( Policy ) is responsible for the oversight of the work of the Funds' independent auditors. As part of its responsibilities, the Committee must pre-approve the audit and non-audit services performed by the auditors in order to assure that the provision of these services does not impair the auditors' independence from the Funds. The Committee has adopted, and the Board has ratified, this Policy, which sets out the procedures and conditions under which the services of the independent auditors may be pre-approved.

Under Securities and Exchange Commission ( SEC ) rules promulgated in accordance with the Act, the Funds may establish two different approaches to pre-approving audit and non-audit services. The Committee may approve services without consideration of specific case-by-case services ( general pre-approval ) or it may pre-approve specific services ( specific pre-approval ). The Committee believes that the combination of these approaches contemplated in this Policy results in an effective and efficient method for pre-approving audit and non-audit services to be performed by the Funds' independent auditors. Under this Policy, services that are not of a type that may receive general

pre-approval require specific pre-approval by the Committee. Any proposed services that exceed pre-approved cost levels or budgeted amounts will also require the Committee's specific pre-approval.

For both types of approval, the Committee considers whether the subject services are consistent with the SEC's rules on auditor independence and that such services are compatible with maintaining the auditors' independence. The Committee also considers whether a particular audit firm is in the best position to provide effective and efficient services to the Funds. Reasons that the auditors are in the best position include the auditors' familiarity with the Funds' business, personnel, culture, accounting systems, risk profile, and other factors, and whether the services will enhance the Funds' ability to manage and control risk or improve audit quality. Such factors will be considered as a whole, with no one factor being determinative.

The appendices attached to this Policy describe the audit, audit-related, tax-related, and other services that have the Committee's general pre-approval. For any service that has been approved through general pre-approval, the general pre-approval will remain in place for a period 12 months from the date of pre-approval, unless the Committee determines that a different period is appropriate. The Committee will annually review and pre-approve the services that may be provided by the independent auditors without specific pre-approval. The Committee will revise the list of services subject to general pre-approval as appropriate. This Policy does not serve as a delegation to Fund management of the Committee's duty to pre-approve services performed by the Funds' independent auditors.

---

## II. Audit Services

The annual audit services engagement terms and fees are subject to the Committee's specific pre-approval. Audit services are those services that are normally provided by auditors in connection with statutory and regulatory filings or engagements or those that generally only independent auditors can reasonably provide. They include the Funds' annual financial statement audit and procedures that the independent auditors must perform in order to form an opinion on the Funds' financial statements (*e.g.*, information systems and procedural reviews and testing). The Committee will monitor the audit services engagement and approve any changes in terms, conditions or fees deemed by the Committee to be necessary or appropriate.

The Committee may grant general pre-approval to other audit services, such as statutory audits and services associated with SEC registration statements, periodic reports and other documents filed with the SEC or issued in connection with securities offerings.

The Committee has pre-approved the audit services listed on Appendix A. The Committee must specifically approve all audit services not listed on Appendix A.

## III. Audit-related Services

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or the review of the Funds' financial statements or are traditionally performed by the independent auditors. The Committee believes that the provision of audit-related services will not impair the independent auditors' independence, and therefore may grant pre-approval to audit-related services. Audit-related services include accounting consultations related to accounting, financial reporting or disclosure matters not classified as audit services; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; agreed-upon or expanded audit procedures relating to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements under Form N-SAR or Form N-CSR.

The Committee has pre-approved the audit-related services listed on Appendix B. The Committee must specifically approve all audit-related services not listed on Appendix B.

#### **IV. Tax Services**

The Committee believes the independent auditors can provide tax services to the Funds, including tax compliance, tax planning, and tax advice, without compromising the auditors' independence. Therefore, the Committee may grant general pre-approval with respect to tax services historically provided by the Funds' independent auditors that do not, in the Committee's view, impair auditor independence and that are consistent with the SEC's rules on auditor independence.

The Committee will not grant pre-approval if the independent auditors initially recommends a transaction the sole business purpose of which is tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Committee may consult

---

outside counsel to determine that tax planning and reporting positions are consistent with this Policy.

The Committee has pre-approved the tax-related services listed on Appendix C. The Committee must specifically approve all tax-related services not listed on Appendix C.

#### **V. Other Services**

The Committee believes it may grant approval of non-audit services that are permissible services for independent auditors to a Fund. The Committee has determined to grant general pre-approval to other services that it believes are routine and recurring, do not impair auditor independence, and are consistent with SEC rules on auditor independence.

The Committee has pre-approved the non-audit services listed on Appendix D. The Committee must specifically approve all non-audit services not listed on Appendix D.

A list of the SEC's prohibited non-audit services is attached to this Policy as Appendix E. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these impermissible services and the applicability of exceptions to certain of the SEC's prohibitions.

#### **VI. Pre-approval of Fee levels and Budgeted Amounts**

The Committee will annually establish pre-approval fee levels or budgeted amounts for audit, audit-related, tax and non-audit services to be provided to the Funds by the independent auditors. Any proposed services exceeding these levels or amounts require the Committee's specific pre-approval. The Committee considers fees for audit and non-audit services when deciding whether to pre-approve services. The Committee may determine, for a pre-approval period of 12 months, the appropriate ratio between the total amount of fees for the Fund's audit, audit-related, and tax services (including fees for services provided to Fund affiliates that are subject to pre-approval), and the total amount of fees for certain permissible non-audit services for the Fund classified as other services (including any such services provided to Fund affiliates that are subject to pre-approval).

#### **VII. Procedures**

Requests or applications for services to be provided by the independent auditors will be submitted to management. If management determines that the services do not fall within those services generally pre-approved by the Committee and set out in the appendices to these procedures, management will submit the services to the Committee or its delagee. Any such submission will include a detailed description of the services to be rendered. Notwithstanding this paragraph, the Committee will, on a quarterly basis, receive from the independent auditors a list of services provided for the previous calendar quarter on a cumulative basis by the auditors during the Pre-Approval Period.

---

### **VIII. Delegation**

The Committee may delegate pre-approval authority to one or more of the Committee's members. Any member or members to whom such pre-approval authority is delegated must report any pre-approval decisions, including any pre-approved services, to the Committee at its next scheduled meeting. The Committee will identify any member to whom pre-approval authority is delegated in writing. The member will retain such authority for a period of 12 months from the date of pre-approval unless the Committee determines that a different period is appropriate. The period of delegated authority may be terminated by the Committee or at the option of the member.

### **IX. Additional Requirements**

The Committee will take any measures the Committee deems necessary or appropriate to oversee the work of the independent auditors and to assure the auditors' independence from the Funds. This may include reviewing a formal written statement from the independent auditors delineating all relationships between the auditors and the Funds, consistent with Independence Standards Board No. 1, and discussing with the auditors their methods and procedures for ensuring independence.

Effective April 23, 2008, the KPMG LLP ( KPMG ) audit team for the ING Funds accepted the global responsibility for monitoring the auditor independence for KPMG relative to the ING Funds. Using a proprietary system called Sentinel, the audit team is able to identify and manage potential conflicts of interest across the member firms of the KPMG International Network and prevent the provision of prohibited services to the ING entities that would impair KPMG independence with the respect to the ING Funds. In addition to receiving pre-approval from the ING Funds Audit Committee for services provided to the ING Funds and for services for ING entities in the Investment Company Complex, the audit team has developed a process for periodic notification via email to the ING Funds' Audit Committee Chairpersons regarding requests to provide services to ING Groep NV and its affiliates from KPMG offices worldwide. Additionally, KPMG provides a quarterly summary of the fees for services that have commenced for ING Groep NV and Affiliates at each Audit Committee Meeting.

(e)(2) Percentage of services referred to in 4(b) (4)(d) that were approved by the audit committee

100% of the services were approved by the audit committee.

(f) Percentage of hours expended attributable to work performed by other than full time employees of KPMG if greater than 50%.

Not applicable.

(g) Non-Audit Fees: The following table presents (i) the aggregate non-audit fees (i.e., fees for audit-related, tax, and other services) billed to each Registrant by the independent registered public accounting firm for each Registrant's fiscal years ended February 28, 2014 and February 28, 2013; and (ii) the aggregate non-audit fees billed to the investment adviser, or any of its affiliates that provide ongoing services to the registrant, by the independent registered public accounting firm for the same time periods.

Registrant/Investment Adviser	2014	2013
Voya Global Equity Dividend and Premium Opportunity	\$ 13,918	\$ 11,326
Voya Investments, LLC <sup>(1)</sup>	\$ 345,500	\$ 461,250

(1) Each Registrant's investment adviser and any of its affiliates, which are subsidiaries of Voya Financial, Inc.

- (h) **Principal Accountants Independence:** The Registrant's Audit committee has considered whether the provision of non-audit services that were rendered to the registrant's investment adviser and any entity controlling, controlled by, or under common control with the investment adviser that provides ongoing services to the registrant that were not pre-approved pursuant to Rule 2-01(c)(7)(ii) of Regulation S-X is compatible with maintaining KPMG's independence.

**Item 5. Audit Committee of Listed Registrants.**

- a. The registrant has a separately-designated standing audit committee. The members are J. Michael Earley, Colleen D. Baldwin, Peter S. Drotch, Patrick W. Kenny, Joseph E. Obermeyer, and Roger B. Vincent.
- b. Not applicable.

**Item 6. Schedule of Investments**

**Report of Independent Registered Public Accounting Firm**

The Shareholders and Board of Trustees

ING Global Equity Dividend and Premium Opportunity Fund

We have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the statement of assets and liabilities, including the summary portfolio of investments, of ING Global Equity Dividend and Premium Opportunity Fund as of February 28, 2014, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years or periods in the nine-year period then ended, and have issued our unqualified report thereon dated April 24, 2014 (which report and financial statements are included in Item 1 of this Certified Shareholder Report on Form N-CSR). In connection with our audits of the aforementioned financial statements and financial highlights, we also audited the related portfolio of investments included in Item 6 of this Form N-CSR. The portfolio of investments is the responsibility of management. Our responsibility is to express an opinion on the portfolio of investments based on our audits.

In our opinion, the portfolio of investments, when considered in relation to the basic financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.
