Table of Contents**Additions****1. Pension Plans**

The Company and certain subsidiaries have trusted contributory and non-contributory funded pension plans covering substantially all of their employees other than directors and corporate auditors. Under the plans, employees are entitled to lump-sum payments at the time of termination of their employment or to pension payments. The amounts of such payments are determined on the basis of length of service and remuneration at the time of termination. The Company and its subsidiaries' funding policy is to contribute annually the amounts actuarially determined. Assets of the plans are invested primarily in interest-bearing securities and marketable equity securities.

The funded status of the defined benefit pension plans, a substantial portion of which consists of domestic pension plans, as of March 31, 2003 is as follows:

	Millions of JPY	Millions of U.S. dollars

Total provisions charged to income for all the plans including the defined benefit plans are JPY7,094 million (US\$59 million) in fiscal 2003.

The Company and its domestic subsidiaries are subject to a National Corporate tax of 30%, an Inhabitant tax of approximately 6% and a deductible Enterprise tax of approximately 10%, which in the aggregate resulted in a statutory income tax rate of approximately 42% in fiscal 2003. The effective income tax rate is different from the statutory tax rate primarily because of certain non-deductible expenses for tax purposes, a change in valuation allowance and the effect of lower income tax rates on foreign subsidiaries and a domestic life insurance subsidiary.

Under the provisions of FASB statement No. 109 (Accounting for Income Taxes), the effect of a change in tax laws or rates is included in income in the period the change is enacted and includes a cumulative recalculation of deferred tax balances based on the new tax laws or rates. The Amendments to Local Tax Laws, enacted on March 31, 2003 (effective from April 1, 2004), decreased the statutory tax rate to approximately 40.7%. As a result, the net deferred tax liability was reduced by JPY2,420 million (US\$20 million) which was credited to the provisions for income taxes in fiscal 2003.

Reconciliation of the differences between tax provision computed at the statutory rate and consolidated provisions for income taxes in fiscal 2003 is as follows:

	Millions of JPY	Millions of U.S. dollars
Income before extraordinary gain, cumulative effect of a change in accounting principle and income taxes	<u>46,288</u>	<u>385</u>

The net change in the total valuation allowance in fiscal 2003 was increase of JPY 2, 412 million (US\$20 million).
