NOTES:

1 BASIS OF PREPARATION

This interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited, including compliance with International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") adopted by the International Accounting Standards Board ("IASB").

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2004 annual financial statements, except for the change in presentation of financial statements arising from the changes of International Financial Reporting Standards ("IFRS") that is expected to be reflected in the 2005 annual financial statements. Details of the changes are set out in note 2.

The preparation of an interim financial report in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

The interim financial report is unaudited, but has been reviewed by KPMG in accordance with Statement of Auditing Standards 700, Engagements to review interim financial reports, issued by the Hong Kong Institute of Certified Public Accountants.

2 NEW AND REVISED IFRS

The IASB has issued a number of new and revised IFRS that are effective or available for early adoption for accounting periods beginning on or after 1 January 2005. The Board of Directors has determined the accounting policies to be adopted in the preparation of the Group's annual financial statements prepared under IFRS for the year ending 31 December 2005, on the basis of IFRS currently in issue.

The IFRS that will be effective or are available for voluntary early adoption in the annual financial statements prepared under IFRS for the year ending 31 December 2005 may be affected by the issue of additional interpretation(s) or other changes announced by the IASB subsequent to the date of issuance of this interim report. Therefore the policies that will be applied in the Group's financial statements for that period cannot be determined with certainty at the date of issuance of this interim financial report.

The adoption of revised IAS 1, Presentation of financial statements and IAS 27, Consolidated and separate financial statements, has resulted in a change in presentation of minority interests in the financial statements:

In prior years, minority interests at the balance sheet date were presented in the consolidated balance sheet separately from liabilities and as deduction from net assets. Minority interests in the results of the Group for the year were also separately presented in the consolidated income statement as a deduction before arriving at the profit attributable to shareholders.

With effect from 1 January 2005, in order to comply with IAS 1 and IAS 27, minority interests at the balance sheet date are presented in the consolidated balance sheet within equity, separately from the equity attributable to the equity holders of the parent, and minority interests in the results of the Group for the period are presented on the face of the consolidated income statement as an allocation of the total profit or loss for the period between the minority interests and the equity holders of the parent.

The presentation of minority interests in the consolidated balance sheet, income statement and statement of changes in equity for the comparative period has been restated accordingly.

3 TURNOVER

The Group is principally engaged in the provision of domestic, Hong Kong regional and international passenger, cargo and mail airline services, with flights operating primarily from the Guangzhou Baiyun International Airport in the People's Republic of China ("PRC"), which is both the main hub of the Group's route network and the location of its corporate headquarters.

Turnover comprises revenues from airline and airline-related businesses and is stated net of sales tax.

BUSINESS OVERVIEW

BUSINESS REVIEW

With the continuous and steady growth of the PRC economy and the nation's "Go West" and "Revitalising the Old Industrial Bases in the North-eastern Region" strategies, coupled with the effects of joint restructuring of domestic airlines, the Company is faced with new challenges under a market environment which is full of opportunities. On 31 December 2004, the acquisition of the airline operations and certain related assets of China Northern Airlines Company ("CNA") and Xinjiang Airlines Company ("XJA") ("CNA/XJA Acquisition") was approved at an extraordinary general meeting of the Company, which completed the restructuring exercise. The Group has benefited from this acquisition through increased economies of scale and transportation capacity.

However, escalating oil prices continued to drive up the jet fuel prices, which directly increased the operating costs of the Company significantly. In addition, the competition in the domestic civil aviation market was very intensive, leading to an unstable yield. Furthermore, after the restructuring of the Group, it would take a period of time for the benefits of business integration to materialise and for business synergy to take effect. As a result,

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

the Company recorded a net loss of RMB907 million during the first half of the year.

During the first half year of 2005, the Group managed to maintain a consistently high level of flight safety standard to further implement the integration of management of the Group and to complete a stable transition. Notwithstanding challenges like the period required for reorganisation of the management and personnel of the Group after the CNA/XJA Acquisition, the enlarged scale of management and difficulties associated therewith, and the increasingly intensive competition in the aviation and air freight market, the Company has handled these challenges with care and plan, and further implemented the development strategies of the Company.

With the approval of the Board, the Company and Centergate Securities Co., Ltd mutually agreed to the early termination of the assets management agreement. As of 30 May 2005, the Company recovered the full investment principal sum of RMB500,000,000 and the investment return of RMB12,904,110.

For the period under review, the Group's total traffic revenue was RMB17,443 million, an increase of RMB6,609 million or 61.0% from the same period last year. Meanwhile, the Group's total traffic volume increased by 52.9% to 3,343 million RTKs. The aggregate utilisation rate of the Group's aircraft was 9.87 hours per day for the period under review, an increase of 0.47 hours or 5.0% from the same period last year.

Passenger revenue for the period under review was RMB15,967 million, up 63.3% from the same period last year, representing 91.5% of the Group's total traffic revenue. Passenger traffic volume increased by 65.2% to 28,478 million RPKs.

Domestic passenger revenue was RMB12,956 million, up 64.4% from the same period last year. Domestic passenger revenue accounted for 81.1% of overall passenger revenue. Passenger capacity, in terms of ASKs, increased by 68.0% while passenger traffic volume, in terms of RPKs, increased by 72.1% from the same period last year, resulting in an increase in passenger load factor of 1.7 percentage points to 69.4%. The passenger yield per RPK decreased by 5.2% from RMB0.58 to RMB0.55, resulting from intensive competition in the domestic market.

On Hong Kong regional routes, the Group recorded passenger revenue of RMB599 million, up 12.0% from the same period last year. Hong Kong regional passenger revenue accounted for 3.8% of total passenger revenue. Passenger capacity, in terms of ASKs, increased by 22.9% while passenger traffic volume, in terms of RPKs increased by 21.3% from the same period last year, resulting in a decrease in passenger load factor of 0.8 percentage points to 61.1%. The passenger yield per RPK decreased by 7.5% to RMB0.86 as more chartered flights were rendered during the period under review.

13

Passenger revenue for the Group's international routes amounted to RMB2,412 million, an increase of 77.5% from the same period last year. International passenger revenue accounted for 15.1% of total passenger revenue. Passenger capacity, in terms of ASKs, increased by 39.5% while passenger traffic volume, in terms of RPKs, increased by 42.3% from the same period last year, resulting in an increase in passenger load factor of 1.3 percentage points to 63.5%. The passenger yield per RPK increased by 24.4% to RMB0.56 mainly due to upward fare adjustment on certain routes during the period under review.

Cargo and mail revenue was RMB1,476 million, an increase of 39.5% from the same period last year. Cargo and mail revenue accounted for 8.5% of total traffic revenue. Cargo and mail volume grew by 24.5% to 804 million RTKs from the same

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

period last year, mainly due to the increase in traffic volume. The overall yield per cargo and mail tonne kilometre increased by 12.2% to RMB1.84, mainly due to an increase in fares during the period under review.

The Group's other revenue amounted to RMB401 million, an increase of 54.2% from the same period last year, primarily due to increases in ground service income of RMB72 million, as a result of the increase in traffic volume.

Total operating expenses increased by 76.6% to RMB18,260 million from the same period last year, primarily due to the general increases in fuel cost, aircraft repairs and maintenance expenses, landing and navigation fees and commission expenses resulting from the increase in traffic volume during the period under review.

Flight operations expenses increased by 92.4% to RMB9,084 million from the same period last year. Of these expenses, fuel cost was RMB5,549 million, up 104.6% from the same period last year, mainly as a result of increases in fuel consumption and fuel prices. Aircraft insurance costs increased by 48.2% to RMB126 million, primarily resulted from the fleet expansion subsequent to the CNA/XJA Acquisition. Operating lease payments increased by 43.0% to RMB1,184 million, mainly attributable to additional rental payments for new aircraft under operating leases. Air catering expenses increased by 72.4% to RMB538 million, primarily as a result of an increase in number of passengers carried during the period under review. Labour costs for flight personnel increased by 65.8% to RMB814 million, largely due to an increase in flying hours.

Maintenance expenses increased by 64.5% to RMB2,320 million, due mainly to increases in aircraft overhaul charges and routine maintenance costs resulting from the increase in flying hours during the period under review.

Aircraft and traffic servicing expenses increased by 51.6% to RMB2,560 million from the same period last year, reflecting primarily an increase in number of landing and takeoffs.

Promotion and sales expenses increased by 39.6% to RMB1,220 million from the same period last year, primarily as a result of an increase in traffic volume.

General and administrative expenses increased by 65.2% to RMB912 million from the same period last year, due mainly to an increase in the scale of operations.

As compared with the same period last year, depreciation and amortisation expenses increased by 93.4% to RMB2,094 million, reflecting primarily the effect of the fleet expansion through the CNA/XJA Acquisition and scheduled aircraft delivered during the second half of 2004 and the period under review.

Interest expense increased by 118.0% to RMB750 million in the period under review, primarily reflecting an increase in the balance of loan borrowings and the increase in LIBOR rate, while 46.5% of the Group total borrowings are subject to LIBOR rate.

The Group recorded a net exchange gain of RMB197 million, predominantly relating to its Japanese yen denominated borrowings as a result of the depreciation of Japanese Yen during the period under review. The major part of such amount represented unrealised translation gain.

As a result of the aforementioned factors, for the six months ended 30 June 2005, the Group recorded a net loss attributable to equity holders of the parent of RMB907 million, as compared to a net profit attributable to equity holders of the parent of RMB266 million for the same period last year.

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

As of 30 June 2005, the Group's borrowings totalled RMB42,933 million, an increase of RMB7,601 million from RMB35,332 million as of 31 December 2004. The majority of such borrowings were denominated in United States dollars and, to a smaller extent, in Japanese yen and Hong Kong dollars, with a significant portion being fixed interest rate borrowings. As of 30 June 2005, cash and cash equivalents of the Group totalled RMB5,632 million, an increase of RMB2,549 million from RMB3,083 million as of 31 December 2004. Of such balance, 30.8% was denominated in foreign currencies. Net debts (total borrowings net of cash and cash equivalents) increased by 15.7% to RMB37,301 million from RMB32,249 million as of 31 December 2004.

As of 30 June 2005, the equity attributable to equity holders of the parent amounted to RMB10,941 million, a decrease of RMB907 million from RMB11,848 million as of 31 December 2004, reflecting the net loss recorded for the period under review.

Net debt/equity ratio of the Group as of 30 June 2005 was 3.41 times, as compared to 2.72 times as of 31 December 2004.

FINANCIAL RISK MANAGEMENT POLICY

In the normal course of business, the Group is exposed to fluctuations in foreign currencies and jet fuel prices. The Group's exposure to foreign currencies is mainly attributable to its debts denominated in foreign currencies. Depreciation or appreciation of the Renminbi against foreign currencies could affect the Group's results and financial position significantly, as the Group's foreign currency payments generally exceed its foreign currency receipts. The Group is not able to hedge its foreign currency exposure effectively other than by retaining its foreign currency denominated earnings and receipts to the extent permitted by the State Administration of Foreign Exchange, or subject to certain restrictive conditions, by entering into forward foreign exchange contracts with authorised PRC banks.

On 21 July 2005, the People's Bank of China ("PBOC") announced that the PRC government reformed the exchange rate regime by moving into a managed floating exchange rate regime based on market supply and demand with reference to a basket of foreign currencies. In particular, the exchange rate of US dollar against Renminbi was adjusted upward to RMB8.11 per US dollar with effect from the close of business on 21 July 2005. The Group considers that the above appreciation of Renminbi would not have adverse financial impacts to its operation.

The Group is required to procure a majority of its jet fuel domestically at PRC spot market prices. There are currently no effective means available to the Group for managing its exposure associated with the fluctuations in domestic jet fuel prices.

CHARGES ON ASSETS

As of 30 June 2005, certain aircraft of the Group with an aggregate carrying value of approximately RMB25,268 million (as of 31 December 2004: RMB23,562 million) were mortgaged under certain loan and lease agreements.

CAPITAL AND INVESTING COMMITMENTS

As of 30 June 2005, the Group had capital commitments of approximately RMB40,605 million. Of such amounts, RMB37,429 million was related to the acquisition of aircraft and related flight equipment and RMB820 million was related to the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

Group's facilities and equipment to be constructed and installed at the new Guangzhou Baiyun International Airport. The remaining amount of RMB2,356 million was related to the Group's other airports and office facilities and equipment, overhaul and maintenance bases and training facilities.

As of 30 June 2005, the Group was committed to making a capital contribution of approximately RMB61 million and RMB83 million to its subsidiaries and jointly controlled entities respectively.

15

CONTINGENT LIABILITIES

There have been no material adverse changes in the contingent liabilities of the Group since 31 December 2004.

RECENT ECONOMIC DEVELOPMENT

Upon approval from the Board, the Company will set up its Beijing branch in Tianzhu Airport Industrial Zone, Beijing. The Company believes that with the integration of the Group's core business, the Company's business development in Beijing Capital International Airport will provide a better hub base for the Group's existing Azure Big Delta (Guangzhou, Shenyang and Urumqi) network services. Meanwhile, the Group can also take an active role in and share the opportunities arising from the Beijing Olympics Games 2008.

Following the announcement by the PBOC on the changes in the Renminbi foreign exchange rate system on 21 July 2005, the Company will benefit from the Renminbi appreciation as it finances its aircraft acquisitions and conducts other transactions in US dollar e.g. jet fuel, lease of aviation equipment, acquisition and major repair, and it still has a substantial amount of debt in US dollar. In addition, landing fees for international flights are denominated in foreign currencies making the Company a beneficiary of the appreciation of Renminbi. Renminbi appreciation will also bring a one-off exchange gain to the Group and reduce its operating costs which are denominated in foreign currencies. On the other hand, the Group faces greater challenge from international routes.

According to "Notice of the National Development and Reform Commission (NDRC) and the General Administration of Civil Aviation of China (CAAC) Concerning the Relevant Questions on Collecting Fuel Surcharge to Domestic Routes", effective from 1 August 2005 (flight time), airlines are allowed to impose fuel surcharge on all domestic routes (other than routes between Mainland to Hong Kong and Macau). The resumption of fuel surcharge collection will ease the Group's burden due to the jet fuel cost.

PROSPECTS FOR THE SECOND HALF

Global airline industry has been badly hit by soaring jet fuel prices. As a result of the three times increases in domestic jet fuel prices, the Group's jet fuel cost has accounted for 30% of total costs. The Group intends to meet the challenges by using its economies of scale operation and strict control over operating costs increase, so as to reduce the impact brought by the persistently high oil prices.

The enlarged scale of the Group due to its joint restructuring will provide more opportunities for the development of the Company's business and operations. The Group will adjust its flight network by increasing traffic capacity to fill in any deficiencies in its routes, and will maintain or increase domestic and regional market shares. The Group believes that its leading position in the

Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

civil aviation industry can be assured by speeding up integration of flight networks and capacity to realize the objectives of network operation, and also through innovation, refinement and enhancement of incentive mechanism.

The Company will continue to implement strict costs control and raise its overall synergy benefits.

DIVIDENDS

The Board of Directors does not propose to declare an interim dividend for the year 2005.

MATERIAL LITIGATION

The Company was involved in a civil litigation (Hong Kong High Court Action No. 515 of 2001) ("Litigation"). According to the writ of summons for the Litigation, New Link Consultants Limited, the plaintiff, claimed against the Group (as one of the defendants to the Litigation) on the basis of certain evidence proving that United Aero-Supplies System of China, Limited ("UASSC") entered into an agreement with the defendants for exclusive purchase of aviation equipment consigned to UASSC for sale. As the defendants failed to perform the agreement, UASSC should have the right to compensation. Since UASSC was in the course of its winding up proceedings, all the rights and benefits of UASSC in connection with the claim had been transferred to the plaintiff. The Company, as one of the defendants to the Litigation was claimed for unspecified damages for breach of the agreement. The Company filed an objection in respect of the jurisdiction of the court, and has requested the court to transfer the case to the PRC for trial. On 3 May 2004, the court made an award in favour of the Company for the transfer to the PRC, against which the plaintiff has filed an appeal.

18

In August 2005, the parties to the Litigation reached an out of court settlement, pursuant to which the plaintiff will waive all its rights or possible rights to commence proceedings, claims or appeals against the Company in respect of the same matter.
