Based on historical figures, and with regard to current market prices and the approximate amount of import and export required for the business development of the Company, the annual cap for the Import and Export Agency Framework Agreement is set at RMB80,000,000 per annum for the entire term of the Import and Export Agency Framework Agreement. ### 2. CONNECTED TRANSACTION WITH CSAHC HAINAN CO., LTD.

- (A) In order to expand the assets size and competitive advantage of the Company's airline operations and completely remove competition with CSAHC in the airline industry, the Board of Directors reviewed and approved the acquisition (the "Acquisition") by the Company of the assets ("Core Assets") and liabilities ("Core Liabilities") in relation to the airline operations of CSAHC Hainan Co., Ltd. ("Hainan Co., Ltd."), a subsidiary of CSAHC from Hainan Co., Ltd., whose main business is that of civil aviation, on 18 April, 2006:
- (i) Scope of Acquisition: Core Assets and Core Liabilities of Hainan Co., Ltd. as set out in the valuation reports (Zhongqihuapingbaozi (2006) Report No. 024) on the transfer of business and assets of Hainan Co., Ltd. dated 30 June, 2005 issued by China Enterprise Appraisal Co., Ltd. and finalised in the Auditor's Report of KPMG Huazhen.
  - (ii) Pricing Basis and Terms and Payment: As agreed by the parties, the value of the Core Assets to be acquired and the Core Liabilities to be assumed by the Company is determined in accordance with the valuation reports (Zhongqihuapingbaozi (2006) Report No. 024) on the transfer of business and assets of Hainan Co., Ltd. dated 30 June, 2005 which was issued by China Enterprise Appraisal Co., Ltd., which sets out the estimated value of the Core Assets as RMB355,150,000, consisting mainly of RMB103,020,000 in cash, RMB55,110,000 for bill and trade receivables, RMB160,970,000 for airplanes, aviation equipment and production-related buildings and equipment, as well as RMB35,480,000 of land; and the Core Liabilities, which include airplane repair expenses, jet fuel and takeoff and landing fees,

## Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

amount to RMB350,000,000. The Core Liabilities will be paid directly by the Company to the creditors in accordance with the terms and period as agreed by relevant parties. After deducting the above-mentioned liabilities, the Company shall pay RMB5,150,000 in cash, being the difference in the estimated values of the Core Assets and Core Liabilities, into the bank account designated by Hainan Co., Ltd. The Company will fund the consideration for the Acquisition wholly by its internal resources.

(iii) Increase in Value upon Assessment: The book value of the major assets of Hainan Co., Ltd. to be acquired under the Acquisition amounted to RMB245,200,000 while the assessed value thereof amounted to RMB355,150,000, an increase of 44.8%. The following major facts have contributed to this increase in the assessed value: (i) The book value of the buildings and structures amounted to RMB23,820,000 and the value added upon assessment thereof amounted to RMB10,610,000, which resulted mainly from the fact that most of the buildings owned by Hainan Co., Ltd. were purchased in 1994, when the market prices of such buildings were relatively low compared to the date of assessment when prices of such buildings have increased considerably. (ii) The book value of the aircraft and equipment of Hainan Co., Ltd. amounted to RMB27,890,000 and the value upon assessment thereof amounted to RMB68,440,000, the increase in value in the assessed value was attributed to: (A) The increase in value upon assessment of the aircraft, which amounted to RMB28,450,000, mainly because production of the MD82 aircraft has now completely stopped, with no follow-up or similar model available, therefore the market price of MD82 aircraft has fallen significantly, leading to a reduction in value of such aircraft in the aggregate amount of RMB43,789,100 upon assessment. However, as Hainan Co., Ltd. had previously allocated RMB72,239,400 to a reserve for the depreciation of such MD82 aircraft according to its accounting policies, as a result there is net value added of the aggregate amount of RMB28,450,400 upon assessment thereof. (B) The increase in value upon assessment of the other machinery and equipment amounted to RMB39,990,000, which resulted mainly from the fact that the period of depreciation of such machinery and equipment for which Hainan Co., Ltd. had made an allowance was shorter than the economic life as determined for this category of equipment in the assessment. The increase in value upon assessment of the high value circulating equipment resulted mainly from the fact that, as of the month following the purchase of such circulating, allowances are made for depreciation of such equipment for a period of eight to twelve years. However, such circulating equipment was assessed on the basis of their latest price during the assessment, so that their assessed value was higher than their book value. The book value of the usable parts of the aviation equipment is relatively low after an allowance is made for their depreciation, as each year Hainan Co., Ltd. pays expenses for repair and maintenance of the aviation equipment in the amount of RMB25,000,000, and the assessed value of the circulating equipment is determined on the basis of its actual condition (for example, the average assessed value of the usable parts accounts for 60% of the value of the new circulating equipment), which also contributed to the increase in value upon assessment. (iii) The book value of the land use right amounted to RMB5,600,000, which increased by RMB29,880,000 upon assessment thereof. The main reason for such increase is that the book value of the plot of land was determined on the basis of market prices of land prevailing at that time of entry of the book value. Close

## Edgar Filing: CHINA SOUTHERN AIRLINES CO LTD - Form 6-K

to the expiration date of the term of the use of the plot of land, Hainan Co., Ltd. renewed the term of the use of the plot of land to allow its business operation to continue on the land. Moreover, as a result of the rapid development of the tourism industry in Shanya in the past few years and the gradual recovery of the real estate market there, the price of the land use right has risen.

Hainan Co., Ltd. is a subsidiary of China Northern Airlines Company ("Northern Airlines"). It was not included as part of the acquisition when the Company acquired the core airline operations of Northern Airlines in November 2004 (the "Northern Airlines Acquisition"), as the process to resolve the then existing legal uncertainties in respect of the shareholding in Hainan Co., Ltd was still on-going. Such legal uncertainties have now been resolved, with 75.9% and 24.1% of its current shareholding held by Northern Airlines and CSAHC respectively. However, as part of CSAHC's commitment not to compete in the similar industry with the Company, Hainan Co., Ltd. has ceased its airline operations since the Company signed the assets sales and purchase agreement in respect of the Northern Airlines Acquisition with CSAHC, Northern Airlines and Xinjiang Airlines, which was approved by the independent shareholders of the Company on 31 December, 2004. The airline operations of Hainan Co., Ltd. were then taken over by the Hainan Branch and Sanya Branch of the Company.

In order to completely remove any remaining competition in the similar industry between the Company and CSAHC, the Company hereby acquired the assets of Hainan Co., Ltd. Such acquisition has been approved by the relevant government authorities in the PRC.

### (B) IMPLICATIONS UNDER THE LISTING RULES

As Hainan Co., Ltd. is a connected person of the Company under the Listing Rules, the Acquisition constitutes a connected

4

transaction for the Company under the Listing Rules. The Board of Directors, including the independent non-executive Directors, considers the Acquisition to be on normal commercial terms, in the ordinary and usual course of business, fair and reasonable and in the interests of the Company and its shareholders as a whole.

Among the 10 Directors of the Company, four Directors, namely Liu Shao Yong Wang Quan Hua, Zhao Liu An and Zhou Yong Qian, who were duly appointed to the Board of Directors of the Company by CSAHC and were therefore required to abstain from voting in respect of the Acquisition. All remaining six Directors who were entitled to vote unanimously approved the Acquisition on 18 April, 2006. The number of Directors who participated in approving the Acquisition and the procedures were in compliance with the relevant requirements of Company Law of the PRC and the Articles of Association of the Company.

Pursuant to the Listing Rules, each percentage ratio (other than the profits ratio) for the Acquisition is on an annual basis less than 2.5%. The Acquisition falls under Rule 14A.32 and is only subject to the reporting and announcement requirements set out in Rules 14A.45 to 14A.47 of the Listing Rules and is exempt from the independent shareholders' approval requirements.
