ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

GENERAL

We were incorporated in the State of Nevada on June 6, 2011. We are involved the chauffeured transportation business. Global lines Inc. will be providing chauffeuring and transportation services to residents within its local market. We will primarily provide transportation services such as private school student transport, sightseeing trips, and elderly transportation. We will also offer transportation to the airport and special event such as proms and weddings. We plan to serve a repeat clientele who demand--and can afford--reliable, secure service from drivers with detailed knowledge of the area. We have not generated any revenues to date. We have executed an agreement with "Super Limousines", developed our business plan and paid deposit of \$4,000 on one car to be used for

Edgar Filing: GLOBAL LINES INC - Form 10-Q

Limousine Service. Since inception through February 29, 2012, the Company has not generated any revenue and has accumulated losses of \$8,167.

LIMOUSINE SERVICE

The customer needs in the limousine transportation market are quite diverse. Corporate and airport transfer clients are mostly interested in reliable and fast service. For these clients, limousine services save time and add convenience compared to using public transportation or personal vehicles. Prom and bachelor party clients are more interested in the social status associated with the limousine service; however, this segment is less loyal and shops around for the best value. At the same time, wedding and funeral transportation clients, who also seek the emotional benefits of using a limousine service, may be less price sensitive than other segments. Further, the sightseeing segment, which is currently underserved, does not only need spacious and comfortable accommodation during the trip, but also benefits from a driver who is very familiar with the area and who can serve as a guide as well. Global Lines Inc. will concentrate in the areas of private school student transport, sightseeing trips, and elderly transportation. We believe that these markets have higher margins and are less price sensitive. According to www.localschooldirectory.com, Ft Lauderdale has 33 private schools with 32000 students. According to www.broward.org, Ft Lauderdale airport traffic (December-June 2010) is 10,367,009 passengers--potential clients for the sightseeing service. There are 150 assisted living facilities in the area--potential clients for elderly transportation service.

PRICING

Edgar Filing: GLOBAL LINES INC - Form 10-Q

Average hourly cost to hire Limousine in South Florida is \$60 (July 2011). We plan to price our service approximately at the same rate.

RESULTS OF OPERATION

Our financial statements have been prepared assuming that we will continue as a going concern and, accordingly, do not include adjustments relating to the recoverability and realization of assets and classification of liabilities that might be necessary should we be unable to continue in operation. We expect we will require additional capital to meet our long term operating requirements. We expect to raise additional capital through, among other things, the sale of equity or debt securities.

THREE MONTHS PERIOD ENDED FEBRUARY 29, 2012

Our net loss for the three months period ended February 29, 2012 was \$2,249. During the three months periods ended February 29, 2012 we have not generated any revenue.

During the three months period ended February 29, 2012, our operating expenses were general and administrative expenses \$91, professional fees of \$1,560 and depreciation expenses \$598. The weighted average number of shares outstanding was 4,956,044 for the three months period ended February 29, 2012.

LIQUIDITY AND CAPITAL RESOURCES

THREE MONTHS PERIOD ENDED FEBRUARY 29, 2012

As at February 29, 2012, our total assets were \$11,437 compared to \$4,588 in total assets at August 31, 2011. Total assets were comprised of \$351 in cash. As at, our current liabilities were \$0.

9

Stockholders' equity was \$(3,167) as of February 29, 2012 compared to stockholders' equity of \$3,984 as of August 31, 2011.

CASH FLOWS FROM OPERATING ACTIVITIES

We have not generated positive cash flows from operating activities. For the three months period ended February 29, 2012, net cash flows used in operating activities was \$(6,737). For the period from inception (June 6, 2011) to February 29, 2012, net cash from operating activities was \$(6,749).

CASH FLOWS FROM INVESTING ACTIVITIES

For the three months period ended February 29, 2012, the Company generated \$4,000 cash flow.

CASH FLOWS FROM FINANCING ACTIVITIES

We have financed our operations primarily from either advancements or the issuance of equity. For the three month period ended February 29, 2012, net cash provided by financing activities was \$6,500. For the period from inception (June 6, 2011) to February 29, 2012, net cash provided by financing activities was \$11,100 received from proceeds from issuance of common stock.

PLAN OF OPERATION AND FUNDING

We expect that working capital requirements will continue to be funded through a combination of our existing funds and further issuances of securities. Our working capital requirements are expected to increase in line with the growth of

Edgar Filing: GLOBAL LINES INC - Form 10-Q

our business.

Existing working capital, further advances and debt instruments, and anticipated cash flow are expected to be adequate to fund our operations over the next three months. We have no lines of credit or other bank financing arrangements. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt instruments. In connection with our business plan, management anticipates additional increases in operating expenses and capital expenditures relating to: (i) acquisition of inventory; (ii) developmental expenses associated with a start-up business; and (iii) marketing expenses. We intend to finance these expenses with further issuances of securities, and debt issuances. Thereafter, we expect we will need to raise additional capital and generate revenues to meet long-term operating requirements. Additional issuances of equity or convertible debt securities will result in dilution to our current shareholders. Further, such securities might have rights, preferences or privileges senior to our common stock. Additional financing may not be available upon acceptable terms, or at all. If adequate funds are not available or are not available on acceptable terms, we may not be able to take advantage of prospective new business endeavors or opportunities, which could significantly and materially restrict our business operations. We will have to raise additional funds in the next twelve months in order to sustain and expand our operations. We currently do not have a specific plan of how we will obtain such funding; however, we anticipate that additional funding will be in the form of equity financing from the sale of our common stock. We have and will continue to seek to obtain short-term loans from our directors, although no future arrangement for additional loans has been made. We do not have any agreements with our directors concerning these loans. We do not have any arrangements in place for any future equity financing.

OFF-BALANCE SHEET ARRANGEMENTS

As of the date of this Quarterly Report, we do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to investors.

10

GOING CONCERN

The independent auditors' review report accompanying our February 29, 2012 financial statements contained an explanatory paragraph expressing substantial doubt about our ability to continue as a going concern. The financial statements have been prepared "assuming that we will continue as a going concern," which contemplates that we will realize our assets and satisfy our liabilities and commitments in the ordinary course of business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

No report required.

ITEM 4. CONTROLS AND PROCEDURES

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) that is designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports

Edgar Filing: GLOBAL LINES INC - Form 10-Q

that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

An evaluation was conducted under the supervision and with the participation of our management of the effectiveness of the design and operation of our disclosure controls and procedures as of February 29, 2012. Based on that evaluation, our management concluded that our disclosure controls and procedures were not effective as of such date to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms. Such officer also confirmed that there was no change in our internal control over financial reporting during the three-month period ended February 29, 2012 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
