## Item 5.1

### Full Description of Material Change

The Corporation intends to file substantially revised management discussion and analysis of financial condition and results of operations for the nine and three month periods ended September 30, 2008 (the **Revised MD&A**) and annual information form for the financial year ended December 31, 2007 (the **Revised AIF**).

The nature and substance of the Revised MD&A and the Revised AIF include amendments to comply with the form requirements of National Instrument 51-102 *Continuous Disclosure Obligations* and to provide additional information regarding the Corporation's joint venture interest in the San José Project and update the Corporation's financial position.

Title to the San José Project is held by Minera Santa Cruz S.A. (**MSC**), an Argentinean corporation which is owned, as to 49%, by Minera Andes, and as to 51%, by Hochschild Mining plc (**Hochschild**).

---

Specifically, the Revised MD&A and Revised AIF will make it clear that:

MSC has made a cash call of \$23 million (all amounts are in US dollars), of which the Corporation's share is \$11.3 million, due on February 17, 2009 and a failure by the Corporation to pay such amount may result in a reduction of our interest in the San José Project;

by the terms of the Corporation's credit agreement (the **Credit Agreement**) with Macquarie Bank Limited (**Macquarie**), the sum of \$7.5 million is scheduled to be repaid in March 2009;

the Corporation currently has approximately \$2.5 million in cash and cash equivalents;

the Corporation's lack of available cash and cash equivalents, constitutes an event of default under the Credit Agreement entitling Macquarie to demand payment of the entire principal amount of \$17.5 million due thereunder (plus accrued interest), which it has not done;

the Corporation's obligations under the Credit Agreement are secured by all of the Corporation's present and after-acquired property;

Hochschild has made project loans to MSC, in the aggregate principal amount of \$65 million for the development of the project which loans (plus accrued interest) are to be repaid from the operating cash of MSC in priority to any other distributions to the shareholders of MSC;

the Corporation has no control or influence over the strategic operating, investing and financing policies of MSC, including the amount and timing of any cash call, and that in the past, decisions have been made, notwithstanding the Corporation's opposition; and

there can be no assurance that additional cash calls will not be made or that the Corporation will have the funds available to satisfy any such cash call, as and when due, and that our interest in the San José Project will not be reduced as a result.

The Corporation is assessing all of the options available to it to raise the required financing to pay the cash call of \$11.3 million, satisfy our debt obligation to Macquarie and maintain our ability to meet our planned growth and development. There can be no assurance that the Corporation will be successful in securing the required funding.

The refiling of this disclosure is part a result of the Corporation's response to a review of its continuous disclosure record by the Alberta Securities Commission. When completed, the Revised MD&A, the Revised AIF and the restated interim financial statements will be available for review on [www.sedar.com](http://www.sedar.com).
