PROSPECTUS SUPPLEMENT NO. 1

Prospectus Supplement dated November 14, 2007
to Prospectus declared
effective on May 8, 2007
(Registration No. 333-128011)

DEFENSE INDUSTRIES INTERNATIONAL, INC.

This Prospectus Supplement No. 1 supplements our Prospectus dated May 8, 2007.

The shares that are the subject of the Prospectus have been registered to permit their resale to the public by the selling stockholders named in the Prospectus.

We are not selling any shares of common stock in this offering and therefore will not receive any proceeds from this offering. You should read this Prospectus Supplement No. 1 together with the Prospectus and each prior Prospectus Supplement referenced above.

This Prospectus Supplement includes the attached Quarterly Report on Form 10-QSB of Defense Industries International, Inc. filed on November 14, 2007 with the Securities and Exchange Commission.

Our common stock trades on the Over-the-Counter Bulletin Board, or OTC Bulletin Board, under the symbol DFNS.OB.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS SUPPLEMENT. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The date of this Prospectus Supplement is November 14, 2007

SUPPLEMENTAL SCHEDULE OF NON-CASH FINANCING ACTIVITIES:

On May 1, 2007, the Company issued 74,074 shares of common stock, having a fair value of \$40,000 at date of issuance, to the former owner of Owen Mills. The shares were issued pursuant to the agreement signed on February 28, 2005 to acquire the business of Owen Mills.

6

**DEFENSE INDUSTRIES INTERNATIONAL, INC.
AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2007**

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

- A.** The accompanying unaudited interim consolidated financial statements as of September 30, 2007 and for the three and nine month periods then ended (the Interim Financial Statements) were prepared in a condensed form in accordance with the instructions for Form 10-Q and, therefore, do not include all disclosures necessary for a complete presentation of financial condition, results of operations, cash flows and all the data and notes which are required when preparing annual financial statements, in conformity with generally accepted accounting principles accepted in the United States.
- B.** The accounting principles used in the presentation of the Interim Financial Statements are consistent with those principles used in the presentation of the latest annual financial statements. All significant accounting policies have been applied consistently with year ended December 31, 2006, as noted in G below.
- C.** The preparation of the Interim Financial Statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation of the Interim Financial Statements have been included. The results of operations for the three and nine months period ended September 30, 2007, are not necessarily indicative of the results that may be expected for the year ending December 31, 2007. The

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 424B3

Interim Financial Statements should be read in conjunction with the Company's annual financial statements as of December 31, 2006 and for the year then ended and the accompanying notes thereto.

D. Principles of Consolidation

The Interim Financial Statements include the accounts of Defense Industries International, Inc. and its wholly owned subsidiaries, Export Erez, USA, Inc., Export Erez, Ltd., Mayotex, Ltd., Dragonwear Trading Ltd, its 76% owned subsidiary, Achidatex Nazareth Elite (1997) Ltd., for all periods presented and Owen Mills (collectively, the Company). The minority interest represents the minority shareholders' proportionate share of Achidatex Nazareth Elite (1997) Ltd. All intercompany accounts and transactions have been eliminated in consolidation.

7

**DEFENSE INDUSTRIES INTERNATIONAL, INC.
AND SUBSIDIARY COMPANIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2007**

E. Earnings per common share

Basic and diluted earnings per common share is presented in conformity with SFAS No.128, Earnings Per Share for all periods presented. Basic earnings per common share is computed by dividing net income, by the weighted average number of shares of outstanding common shares. Diluted earnings per common share is computed by dividing net income, by the weighted average number of shares of outstanding common shares adjusted to include incremental common shares that would have been outstanding if potentially dilutive common shares had been issued.

F. Recent accounting pronouncements

In March 2007, the Financial Accounting Standards Board (FASB) ratified Emerging Issues Task Force (EITF) Issue No. 06-10, Accounting for Collateral Assignment Split-Dollar Life Insurance Arrangements (EITF No. 06-10). EITF No. 06-10 requires an employer to recognize a liability for the postretirement benefit related to a collateral assignment split-dollar life insurance arrangement in accordance with either Statement of Financial Accounting Standards (SFAS) No. 106 or Accounting Principles Board (APB) Opinion No. 12 if the employer has agreed to maintain a life insurance policy during the employee's retirement or provide the employee with a death benefit. EITF No. 06-10 also requires an employer to recognize and measure an asset based on the nature and substance of the collateral assignment split-dollar life insurance arrangement. EITF No. 06-10 is effective for fiscal years beginning after December 15, 2007 with early adoption permitted. The Company is evaluating the impact that the adoption of EITF No. 06-10 will have on its financial statements.

G. Accounting for registration payment arrangements

The Company adopted as of January 1, 2007, FSP EITF 00-19-2, Accounting for Registration Payment Arrangements (FSP), which addresses an issuer's accounting for registration payment arrangements. This FSP specifies that the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement, whether issued as a separate agreement or included as a provision of a financial instrument or other agreement, should be separately recognized and measured in accordance with FASB Statement No. 5, Accounting for Contingencies. This FSP further clarifies that a financial instrument subject to a registration payment arrangement should be accounted for in accordance with other applicable generally accepted accounting principles (GAAP) without regard to the contingent obligation to transfer consideration pursuant to the registration payment arrangement.

As a result of our adoption of the FSP, the Interim Financial Statements includes a cumulative-effect adjustment to the opening balance of retained earnings, liabilities and equity as follows:

NOTE 3 SEGMENT INFORMATION AND CONCENTRATIONS

The Company has two strategic business units: the civilian market and the military market. The military market is further broken down between local and export sales in order to better analyze trends in sales and profit margins. The Company does not allocate assets between segments because several assets are used in more than one segment and any allocation would be impractical.

NOTE 4 Income taxes

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation 48, Accounting for Uncertainty in Income Taxes an Interpretation of FASB Statement No. 109, (FIN 48), which clarifies the accounting for uncertain income tax positions. This interpretation prescribes a financial statement recognition threshold and measurement attribute for any tax position taken or expected to be taken in a tax return. The interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Effective January 1, 2007, the Company adopted FIN 48. Upon adoption, the Company determined that there were no unrecognized income tax benefits or liabilities. The Company recognizes accrued interest and penalties related to uncertain tax positions in income tax expense.

As of January 1, 2007, the Company's Israeli subsidiaries income tax returns filed with the Israeli Tax Authorities prior to 2003, were no longer subject to examination by the Israeli tax authorities. During 2006, the Israeli tax authorities commenced an examination of certain of the subsidiaries' income tax returns for the years 2003 through 2005. The Company did not anticipate at January 1, 2007 or during the first quarter of 2007, that the examination commenced in 2006 would have a material effect on its financial position.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2007**

During the second quarter of 2007, the Israeli Tax authorities proposed certain adjustments to the subsidiaries' tax positions related to the allocation of costs within the group and management fees made by the Company. During the period ended September 30, 2007, each of Mayotex Ltd. and Export Erez Ltd. reached a settlement with the Israeli Tax Authorities regarding their tax positions from 2003 through 2005 for an aggregate of \$214,620 (including accumulated interest) related to allocation of costs within the group and management fees made by the Company.

As a result of these tax settlements and based upon the enforcement of Israeli statutory tax regulations, the Company recognized a tax expense and a current tax liability of approximately \$41,000 (including anticipated interest), since it is more likely than not that the settlement achieved will be sustained by the Israeli Tax Authorities with respect to the Company's other subsidiaries in Israel and for all the Israeli subsidiaries for 2006.

Of the amounts mentioned above, \$207,620 was recognized during the second quarter of 2007 and \$48,000 was recognized during the third quarter of 2007.

NOTE 5 Significant related party transactions

Pursuant to an employment agreement with the President of the Company, he is entitled to additional compensation of 1.5% of the growth in the Company's total sales since 2002, by cash payment or at his discretion, by receiving options to purchase shares of common stock in lieu of cash.

As of September 30, 2007, the President was entitled to bonus compensation in the amount of \$104,989, or 104,989 options, each exercisable for two shares of the Company's common stock, in lieu of such compensation, which may be realized over a vesting period of three years (having a fair value of \$117,588 as of September 30, 2007). The Interim Financial Statements include a liability of \$104,989 for such bonus.

Item 2. Management's Discussion and Analysis or Plan of Operation

This information should be read in conjunction with the condensed consolidated financial statements and notes included elsewhere in this Quarterly Report on Form 10-QSB and the consolidated financial statements and notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations for the year ended December 31, 2006 contained in our 2006 Annual Report on Form 10-KSB. The discussion and analysis which follows may contain trend analysis and other forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 which reflect our current views with respect to future events and financial results. These include statements regarding our earnings, projected growth and forecasts, and similar matters that are not historical facts.

We remind shareholders that forward-looking statements are merely predictions and therefore are inherently subject to uncertainties and other factors that could cause the future results to differ materially from those described in the forward-looking statements.

Critical Accounting Policies

We have identified the following policies as critical to the understanding of our financial statements. The preparation of our financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of sales and expenses during the reporting periods. Our financial statements have been prepared in accordance with accounting principles generally accepted in the United States.

Revenue Recognition. Revenues from sales of products are recognized upon shipment to customers. We provide a warranty on goods ranging from three to four years. Our policy is to consider the establishment of a reserve for warranty expenses, based upon our historical experience. We did not establish a reserve as at September 30, 2007 and December 31, 2006. If we change any of our assumptions with regard to our recognition of revenues or if there is a change with respect to warranties expenses, our financial position and results of operations may change materially.

Foreign Currency Translation and Transactions. The functional currency of Export Erez, Ltd., Mayotex Ltd., and Achidatex Nazareth Elite is the New Israeli Shekel, or NIS. The functional currency of Dragonwear Trading Ltd. is the Cyprus Pound, or CYP. The financial statements of Dragonwear are translated into NIS. The financial statements for all of these entities are then translated into U.S. dollars from NIS at period-end exchange rates as to assets and liabilities and at average exchange rates as to revenues and expenses. Capital accounts are translated at their historical exchange rates when the capital transactions occurred. Foreign currency transaction gains or losses from transactions denominated in currencies other than NIS are recognized in net income in the period the gain or loss occurs. Any change in exchange rates may have a material impact on our financial position and results of operations.

Accounts Receivable. Accounts receivable consist primarily of receivables from customers and institutions. We record a provision for doubtful accounts, when appropriate, to allow for any amounts which may be unrecoverable based upon an analysis of our prior collection experience, customer creditworthiness and current economic trends.

Most of our large export purchase orders are supported by letters of credit. As a result, we believe that we have limited exposure to doubtful accounts receivables. We have historically achieved net profits on an annual basis, but our quarterly profits are not consistent on a quarter to quarter basis. Nevertheless, we have striven to balance our accounts payable and accounts receivable.

Inventories. Inventories are valued at the lower of cost or market value using the first-in first-out method. The cost includes expenses of freight-in transportation. The specific identification method is used for finished goods since all orders are custom orders for customers. Inventories write-offs and write-down provisions are provided to cover risks arising from slow-moving items or technological obsolescence. Any change in our assumptions with respect to the need to write-off or write-down the value of our inventories may have a material affect on our financial position or results of operations.

Property Plant and Equipment. Fixed assets are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of three to twenty-five years. These long-lived assets are generally evaluated on an individual basis in making a determination as to whether such assets are impaired. Periodically, we review our long-lived assets for impairment based on estimated future non-discounted cash flows attributed to the assets. In the event such cash flows are not expected to be sufficient to

recover the recorded value of the assets, the assets are written down to their estimated fair values. The use of different assumptions with respect to the expected cash flows from our assets and other economic variables, primarily the discount rate, may lead to different conclusions regarding the recoverability of our assets carrying values and to the potential need to record an impairment loss for our long-lived assets.

Overview

We are a manufacturer and global provider of personal military and civilian protective equipment and supplies. Our products are used by military, law enforcement, border patrol enforcement, other special security forces, corporations, non-governmental organizations and individuals throughout the world.

Our main products include body armor, bomb disposal suits, bullet proof vests and jackets, ballistic wall coverings, bullet proof ceramic and polyethylene panels, V.I.P. car armoring and lightweight armor kits for vehicles, personal military equipment, dry storage systems, liquid logistic products, tents and other camping and travel gear.

We believe that current international tensions, as well as terror attacks in Europe, Asia and Africa in recent years, the continuing war on terrorism, and the continuing conflict in Iraq are all likely to result in additional interest in our products, and that the demand for our products will continue to grow.

14

We expect to address this growth by offering a comprehensive array of high quality branded security products that meet our customers increasingly complex security products requirements. We intend to enhance our position in the industry through additional strategic acquisitions and we believe that these acquisitions will also assist us to broaden our portfolio of products.

Material Trends

Local Military Market. The Israeli Military defense budget has been subject to reductions since the second half of the 2003. As a result, the demand for our products declined in the second half of 2003 and stabilized at a lower level during the three years ended December 31, 2006.

In the second half of 2005, the Israeli Government evacuated the Gaza strip. As a result of the Israeli Government's decisions and the evacuation, the Israeli Defense Forces, or IDF, indicated that it would slightly reduce its manpower and that its battlefield equipment will be stored for long periods in environments that will promote battlefield readiness and the capability of quick deployment. In addition, as a result of the war between Israel and the Hezbollah in Lebanon, which started in July 2006, many Israeli reserve forces were activated, and a large amount of stored equipment was removed from dry-storage compartments and mobilized. Since then our military business has grown as a result of an increase in the demand for our dry storage systems products, bulletproof vests and other military gear. The growth began in the fourth quarter of 2006 and has continued in 2007. In the nine months ended September 30, 2007 our sales to the Israeli Ministry of Defense grew to \$7.6 million from \$1.5 million in the nine months ended September 30, 2006, accounting for 53.5% and 21.0 % of our sales during these periods. As of November 11, 2007, we had a backlog of firm orders from the Israeli Ministry of Defense of approximately \$4.0 million, including orders of approximately \$500,000 that we received subsequent to September 30, 2007. We anticipate that we will ship approximately \$1.0 million of this backlog during the fourth quarter of 2007.

Export Military Market. Our customers in this market are military and law enforcement organizations, mostly in South America, North America and Europe. Their budgets fluctuate and as a result we cannot identify definite trends in these markets.

Since 2003, we have increased our export efforts as a consequence of the prevailing environment resulting from the events of September 11, 2001, the subsequent war on terrorism and the continuing conflict in Iraq. We are continuing our efforts to strengthen our position in our existing export markets in the U.S., South America, Asia and Europe, and to extend our presence to new export markets in South America and Europe and Australia. We believe that those markets are growing and that any future success in such markets is mainly dependent on our ability to be competitive in our pricing and the quality of our products.

As a result of the above, we expect that our export military business will grow in the next two to three years.

15

The following table presents details of our export military sales:

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 424B3

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Sales to South America	\$ 68,112	\$ 1,041,919	\$ 1,130,073	\$ 1,333,776
Sales to North America	1,037,199	452,112	1,879,188	563,899
Sales to Europe and Asia	1,121,234	146,955	1,761,679	651,399
Sales to Australia	-	371,280	349,720	371,280
	\$ 2,226,545	\$ 2,012,266	\$ 5,120,660	\$ 2,920,354

Local Civilian Market. Our product range for the civilian market is diversified. In 2006 and 2005, our local market business grew as a result of the improvement of the economic situation in Israel.

Export Civilian Market. Our product range for the export civilian market consists of a range of several similar products to the agriculture sector to a single US based customer. The products we manufacture are distributed by us directly to end users located worldwide.

Industry Consolidation. Prior to 2005, we encountered additional competition as a result of a trend toward consolidation among our competitors. This trend abated in 2006 and is not as relevant at present. However, there can be no assurance that additional consolidation among our competitors will not take place in the future.

Gross Profit Margins. Our pricing policy, although slightly different from one product to the other, is based on our existing overall gross margin. We do not expect a material change in our gross profit margins in the foreseeable future.

Backlog. We had approximately \$5.0 million of unfilled customer orders at September 30, 2007, out of which approximately \$3.5 million was attributable to the Israeli Ministry of Defense, approximately \$300,000 was attributable to the Israeli civilian market, approximately \$470,000 was attributable to the U.S. market, and approximately \$680,000 was attributable to orders from Europe, Asia and Africa.

Prior operations in the Erez Industrial Zone

During 2004, the Israeli Government decided to evacuate persons and companies from the Erez Industrial Zone in the Gaza Strip where part of our operations was located. During the second half of 2004, we prepared for the eventual evacuation of facilities we owned and leased within this area by merging existing production facilities. We moved one of our light cut and sew operations to Sderot and some of our webbing equipment to Nazareth. We evacuated our remaining operations from the Erez Industrial Zone in August 2005. The Israeli Government's decision to evacuate the Gaza Strip was supported by certain resolutions as well as the Israeli Evacuation Compensation Law (2005) that was adopted by the Israeli Parliament to compensate the Israeli Gaza Strip settlers as well as business and property owners in the Gaza Strip and in the Erez Industrial Zone. On November 30, 2006, we were notified that the Israeli Government determined that Export Erez Ltd. and Mayotex Ltd. are entitled to advanced payments in the amounts of approximately \$452,000 and \$71,000, respectively, which amounts exceeded the receivables on our financial statements. We received those sums in January 2007. Further negotiations are currently taking place with respect to the final amount of compensation to be paid to our subsidiaries under their claims. However, we cannot provide any assurance that the claims, will be approved in full, or to what extent, or when the compensation will be paid.

Results of Operations

Key Indicators

Our management team views revenues, the sources of our revenues, gross profit margin and the level of inventory compared to revenues as the key performance indicators in assessing our company's financial condition and results of operations. Our management team believes that the upward trend in our revenues is reflective of an industry-wide increase in demand for our types of products, and we currently expect that this trend will continue for the remainder of 2007. While our management team believes that demand for our products will continue to grow, our business is subject to a high degree of volatility because of the impact of geopolitical events and government budgeting.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 424B3

Three Months Ended September 30, 2007 Compared with Three Months Ended September 30, 2006

Net Revenues and Gross Profit Margin. Net revenues for the three months ended September 30, 2007 increased to \$4.6 million from \$3.5 million in the same period in 2006, an increase of 30.9%. The increase is primarily attributable to an increase in our major market segment, the local military market. In the three months ended September 30, 2007, Achidatex, Export Erez and Owen Mills accounted for \$1.3 million or 27.0%, \$3.0 million or 64.5%, and \$394,000 or 8.5 % of our revenues, respectively. In the three months ended September 30, 2006, Achidatex, Export Erez, and Owen Mills accounted for \$870,000 or 24.5%, \$2.4 million or 67.3%, and \$289,000 or 8.2% of our revenues, respectively.

The following table sets forth the breakdown of sales by segment for the three months ended September 30, 2007 and 2006.

	Three Months Ended September 30,	
	2007	2006
Sales to the local civilian market	\$ 841,000	\$ 1,255,000
Sales to the export civilian market	-	250,000
Sales to the local military market	2,612,000	400,000
Export military sales	1,193,000	1,643,000
	\$ 4,646,000	\$ 3,548,000

Gross profit in each of the three months periods ended September 30, 2007 and 2006 was approximately \$1.2 million. Our gross profit did not increase in line with the increase in our revenues, mainly due to the mixture of products sold during this quarter compared to the two previous quarters. In the three months ended September 30, 2007 Achidatex, Export Erez, and Owen Mills accounted for 29.7%, 71.0%, and (0.7)% of our gross profit, respectively. In the three months ended September 30, 2006, Achidatex, Export Erez and Owen Mills accounted for 33.0%, 58.8%, and 8.2%, of our gross profit, respectively.

17

Selling Expenses. Selling expenses for the three months ended September 30, 2007 increased to \$219,000 from \$197,000 for the same period in 2006. The increase in our selling expenses was attributable to the higher sales commissions paid on export sales. Achidatex's selling expenses for the three months ended September 30, 2007 were \$121,000 compared to \$ 27,000 for the three months ended September 30, 2006. Export Erez's selling expenses for the three months ended September 30, 2007 were \$95,000 compared to \$165,000 for the three months ended September 30, 2006. Owen Mills' selling expenses for the three months ended September 30, 2007 were \$2,600 compared to \$5,000 for the three months ended September 30, 2006.

General and Administrative Expenses. General and administrative expenses for the three months ended September 30, 2007 slightly decreased to \$529,000 from \$536,000 for the same period in 2006, as a result of the stability of our operations in this period.

Financial Expenses. We had financial expense, net of \$ 128,000 for the three months ended September 30, 2007 as compared to financial expenses, net of \$95,000 for the same period in 2006. This expense is primarily due to the change in the exchange rate of the U.S. Dollar versus the NIS, which resulted in a loss of \$89,000 for the three months ended September 30, 2007 compared to a loss of \$44,000 for the same period in 2006.

Other Income (Expenses), Net. We had other expense, net for the three months ended September 30, 2007 of \$24,000 as compared to other income, net of \$18,000 for the same period in 2006. Our other expense in 2007 is attributable to losses from sales of our tradable securities.

Income Tax Expense (Benefit). Our income tax expense for the three months ended September 30, 2007 was \$199,000 as compared to an income tax expense of \$24,000 for the comparable period in 2006. Our income tax expense of \$199,000 resulted from Export Erez Ltd.'s tax settlement with the Israeli tax authorities regarding its tax position from 2003 through 2005. As a result of Export Erez Ltd.'s tax settlement and based upon the enforcement of statutory tax regulations, we recognized a tax expense and a current tax liability of approximately \$41,000 during the three months ended September 30, 2007, related to the above unrecognized tax expenses in respect of our other subsidiaries in Israel, since it is more likely than not that the proposed settlement will be sustained by the Israeli tax authorities.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 424B3

As an Israeli taxpayer, we are unable to include the losses of Owen Mills in our consolidated income tax filings in Israel. Achidatex's income tax expense for the three months ended September 30, 2007 was \$16,000 compared to income tax benefit of \$2,000 for the three months ended September 30, 2006. Export Erez's income tax expense for the three months ended September 30, 2007 was \$57,000 compared to income tax expense of \$26,000 for the three months ended September 30, 2006. The increase in income tax expense was mainly due to our subsidiary tax settlement. In 2007, the corporate statutory tax rate in Israel was reduced to 29%. Defense Industries did not have any tax expense for the three months ended September 30, 2007 and 2006. Owen Mills did not have any tax expense for the three months ended September 30, 2007 and 2006.

18

Minority Interest. Minority interest in the profits and losses of one of our consolidated subsidiaries represents the minority shareholders share of the profits or losses in such majority owned subsidiary. For the three months ended September 30, 2007, we recognized and recorded minority share in our subsidiary profit of \$6,400 compared to minority share in our subsidiary profit of \$68,000 for the three months ended September 30, 2006.

Net Income (Loss). In the three months ended September 30, 2007, we had consolidated net income of \$184,000 compared to net income of \$275,000 for the three months ended September 30, 2006. Achidatex's net income for the three months ended September 30, 2007 was \$20,000 compared to a net income of \$147,000 for the three months ended September 30, 2006. Export Erez's net income for the three months ended September 30, 2007 was \$252,000 compared to a net income of \$262,000 for the three months ended September 30, 2006. Owen Mills' net loss for the three months ended September 30, 2007 was \$14,000 compared to a net loss of \$5,500 for the three months ended September 30, 2006. Defense Industries' net income for the three months ended September 30, 2007 was \$15,000 compared to a net loss of \$139,000 for the three months ended September 30, 2006.

Other Comprehensive Income (Loss). We had other comprehensive income, for the three months ended September 30, 2007 of \$215,000 compared to other comprehensive income of \$120,000 for the three months ended September 30, 2006. This comprehensive loss is principally attributable to the change in the US Dollar exchange rate versus the NIS.

Nine Months Ended September 30, 2007 Compared with Nine Months Ended September 30, 2006

Net Revenues and Gross Profit Margin. Net revenues for the nine months ended September 30, 2007 increased to \$14.2 million, from \$7.2 million in the same period in 2006, an increase of 97.0%. The increase is primarily attributable to a general increase in the local military and export military market segments. In the nine months ended September 30, 2007, Achidatex, Export Erez and Owen Mills accounted for \$4.2 million, or 29.6%, \$9.1 million, or 64.0%, and \$904,000, or 6.4% of our revenues, respectively. In the nine months ended September 30, 2006, Achidatex, Export Erez, and Owen Mills accounted for \$2.2 million, or 30.5%, \$4.3 million, or 59.1%, and \$747,000, or 10.4% of our revenues, respectively.

The following table sets forth the breakdown of sales by segment for the nine months ended September 30, 2007 and 2006.

	Nine Months Ended September 30,	
	2007	2006
Sales to the local civilian market	\$ 2,521,000	\$ 2,646,000
Sales to the export civilian market	539,000	499,000
Sales to the local military market	7,603,000	1,516,000
Export military sales	3,548,000	2,551,000
	\$ 14,212,000	\$ 7,212,000

19

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 424B3

Gross profit for the nine months ended September 30, 2007 was \$4.8 million, compared to \$1.7 million, for the same period in 2006. This increase in gross profit is principally attributable to the increase in sales and the increase in production resulting in the increased absorption of fixed manufacturing expenses during the nine months ended September 30, 2007 compared to the same period in 2006. In the nine months ended September 30, 2007 Achidatex, Export Erez, and Owen Mills accounted for 32.4%, 64.7% and 2.9%, of our gross profit, respectively. In the three months ended September 30, 2006, Achidatex, Export Erez and Owen Mills accounted for 32.6%, 58.5% and 8.9%, of our gross profit, respectively.

Selling Expenses. Selling expenses for the nine months ended September 30, 2007 increased to \$773,000 from \$415,000 for the same period in 2006. The increase in our selling expenses was attributable to an increase in the export sales and commissions paid on export sales. Achidatex's selling expenses for the nine months ended September 30, 2007 were \$229,000 compared to \$133,000 for the nine months ended September 30, 2006. Export Erez's selling expenses for the nine months ended September 30, 2007 were \$533,000 compared to \$271,000 for the nine months ended September 30, 2006. Owen Mills' selling expenses for the nine months ended September 30, 2007 were \$3,500 compared to \$11,000 for the nine months ended September 30, 2006.

General and Administrative Expenses. General and administrative expenses for the nine months ended September 30, 2007 slightly increased to \$1.6 million, from \$1.5 million, for the same period in 2006, as a result of the stability of our operations in this period.

Financial Expenses. We had financial expenses, net of \$176,000 for the nine months ended September 30, 2007 as compared to financial expenses, net of \$253,000 for the same period in 2006. The decrease is primarily due to the change in the U.S. Dollar exchange rate versus the NIS, which resulted in a loss of \$41,000 for the nine months ended September 30, 2007 and a loss of \$108,000 for the same period in 2006.

Other Income (Expenses), Net. We had other income, net for the nine months ended September 30, 2007 of \$54,000 as compared to other income, net of \$32,000 for the same period in 2006. Our other income in 2007 is attributable to profit from sales of tradable securities and from sales of fixed assets.

Income Tax Expense (Benefit). Our income tax expense for the nine months ended September 30, 2007 was \$958,000 as compared to an income tax benefit of \$20,000 for the comparable period in 2006. Approximately \$215,000 of our income tax expense of \$958,000 resulted from Mayotex Ltd.'s and Export Erez Ltd. tax settlement with the Israeli tax authorities regarding its tax position from 2003 through 2005. As a result of Mayotex Ltd.'s and Export Erez Ltd. tax settlement and based upon the enforcement of statutory tax regulations, we recognized a tax expense and a current tax liability of approximately \$41,000 during the nine months ended September 30, 2007, related to the above unrecognized tax expenses, in respect of our other subsidiaries in Israel, since it is more likely than not that the proposed settlement will be sustained by the Israeli tax authorities.

20

As an Israeli taxpayer, we are unable to include the losses of Owen Mills in our consolidated income tax filings in Israel. Achidatex's income tax expense for the nine months ended September 30, 2007 was \$234,000 compared to income tax benefit of \$23,000 for the nine months ended September 30, 2006. Export Erez's income tax expense for the nine months ended September 30, 2007 was \$724,000 compared to income tax expense of \$43,000 for the nine months ended September 30, 2006. The increase in income tax expense was due to our improved operating results in the period. In 2007, the corporate statutory tax rate in Israel was reduced to 29%. Defense Industries did not have any tax expense for the nine months ended September 30, 2007 and 2006. Owen Mills did not have any tax expense for the nine months ended September 30, 2007 compared to \$800 for the nine months ended September 30, 2006.

Minority Interest. Minority interest in the profits and losses of one of our consolidated subsidiaries represents the minority shareholders share of the profits or losses in such majority owned subsidiary. For the nine months ended September 30, 2007, we recognized and recorded minority share in our profit of \$129,000 compared to minority share in our loss of \$27,000 for the nine months ended September 30, 2006.

Net Income (Loss). In the nine months ended September 30, 2007, our consolidated net income was \$1.2 million, compared to net a net loss of \$430,000 for the nine months ended September 30, 2006. Achidatex's net income for the nine months ended September 30, 2007 was \$407,458 compared to a net loss of \$227,000 for the nine months ended September 30, 2006. Export Erez's net income for the nine months ended September 30, 2007 was \$1.0 million, compared to net income of \$121,000 for the nine months ended September 30, 2006. Owen Mills' net loss for the nine months ended September 30, 2007 was \$167,000 compared to a net loss of \$114,000 for the nine months ended September 30, 2006. Defense Industries' net loss for the nine months ended September 30, 2007 was \$48,000 compared to a net loss of \$210,000 for the nine months ended September 30, 2006.

Other Comprehensive Income (Loss). We had other comprehensive income, for the nine months ended September 30, 2007 of \$131,000 compared to other comprehensive income of \$165,000 for the nine months ended September 30, 2006. This comprehensive income is principally attributable to the change in the exchange rate of U.S. Dollar versus the NIS.

Liquidity and Capital Resources

As of September 30, 2007, we had cash and cash equivalents of \$2.9 million, \$801,000 of trading securities, and working capital of \$6.2 million as compared to \$1.7 million in cash and cash equivalents, \$805,000 of trading securities and \$4.8 million of working capital at December 31, 2006.

Net cash provided by operating activities was \$3.0 million for the nine months ended September 30, 2007 as compared to net cash used in operating activities of \$489,000 for the same period in 2006. This was primarily attributable to net income of \$1.2 million, an increase in accounts payable of \$1.2 million, a decrease in other assets of 461,000, depreciation of \$362,000 and an increase in other liabilities of \$891,000 offset by an increase in inventory of \$873,000 and an increase in accounts receivable of \$310,000.

21

Net cash used in investing activities was \$335,000 for the nine months ended September 30, 2007 as compared to \$208,000 in the nine months ended September 30, 2006. During the nine months ended September 30, 2007, purchases of fixed assets were \$362,000 compared to \$228,000 during the nine months ended September 30, 2006.

Net cash used in financing activities was \$1.5 million for the nine months ended September 30, 2007 as compared to \$497,000 of net cash provided by financing activities for the nine months ended September 30, 2006. During the nine months ended September 30, 2007, we decreased our short-term debt by \$1.1 million and we repaid \$630,000 of long-term debt.

The following table summarizes our minimum contractual obligations and commercial commitments as of September 30, 2007 and the effect we expect them to have on our liquidity and cash flow in future periods:

Contractual Obligations	Payments due by Period				
	Total	less than 1 year	2 -3 years	4 -5 years	more than 5 years
Long-term debt obligations	\$ 1,203,000	\$ 496,000	\$ 550,000	\$ 158,000	-
Estimated interest payments on long-term debt obligations	127,000	46,000	44,000	37,000	-
Operating lease obligations	439,000	362,000	77,000	-	-
Total	\$ 1,769,000	\$ 904,000	\$ 671,000	\$ 195,000	

As of September 30, 2007, our principal commitments consisted of \$1.8 million of long-term debt, estimated interest payments on long-term debt obligations, and operating lease obligations. Of such amount, we incurred \$1.2 million in long-term debt in order to support the increased scope of our operations. We currently do not have significant capital expenditures or purchase commitments. We anticipate that our cash resources will be used primarily to fund our operating activities. We believe that our spending for research and development for the remainder of 2007 will be approximately \$30,000.

We believe that we have sufficient working capital and borrowing capability to sustain our current level of operations for the next twelve months.

Recent Accounting Pronouncements

In March 2007, the Financial Accounting Standards Board (FASB) ratified Emerging Issues Task Force (EITF) Issue No. 06-10, Accounting for Collateral Assignment Split-Dollar Life Insurance Arrangements (EITF No. 06-10). EITF No. 06-10 requires an employer to recognize a liability for the postretirement benefit related to a collateral assignment split-dollar life insurance arrangement in accordance with either Statement of Financial Accounting Standards (SFAS) No. 106 or Accounting Principles Board (APB) Opinion No. 12 if the employer has agreed to maintain a life insurance policy during the employee's retirement or provide the employee with a death benefit. EITF No. 06-10 also requires an employer to recognize and measure an asset based on the nature and substance of the collateral assignment split-dollar life insurance arrangement. EITF No. 06-10 is effective for fiscal years beginning after December 15, 2007 with early adoption permitted. We are evaluating

the impact that the adoption of EITF No. 06-10 will have on our financial statements.

22

Foreign Currency Exchange Risk

We develop products in Israel and sell them in North and South America, Asia, Africa and several European countries. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets.

Our foreign currency exposure with respect to our sales is mitigated, and we expect it will continue to be mitigated, through salaries, materials and support operations, in which part of these costs are denominated in NIS.

During 2006, the NIS rose approximately 8.2% against the dollar. In the period ending in September 30, 2007, there was inflation in Israel of 2.29% and the U.S. dollar depreciated in relation to the NIS at a rate of 5.02%, from NIS 4.225 per \$1.00 on December 31, 2006 to NIS 4.0313 per \$1 on September 30, 2007. If future inflation in Israel exceeds the devaluation of the NIS against the U.S. dollar or if the timing of such devaluation lags behind increases in inflation in Israel, our results of operations may be materially adversely affected. We will also be adversely affected if the dollar depreciates against the Euro, the currency used for many of our purchases of raw material.

We did not enter into any foreign exchange contracts in the year ended December 31, 2006 and the nine months ended September 30, 2007.

Item 3A. Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in our Securities and Exchange Commission reports is recorded, processed, summarized and reported within applicable time periods. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in our reports that we file or submit under the Securities Exchange Act of 1934 (the Exchange Act) is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Management has concluded that there were material weaknesses in the effectiveness of our disclosure controls and procedures as of December 31, 2006, March 31, 2007 and June 30, 2007 in connection our Annual Report on Form 10-KSB for the year ended December 31, 2006 and our Quarterly Reports on Form 10-QSB for the three month period ended March 31, 2007 and the six month period ended June 30, 2007. We are working towards correcting these material weaknesses and intend to shortly file an Amended Annual Report on Form 10-KSB/A for the year ended December 31, 2006 and Amended Quarterly Reports on Form 10-QSB/A for the three month period ended March 31, 2007 and the six month period ended June 30, 2007.

23

As required by the Exchange Act Rule 13a-15(e) we conducted an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of September 30, 2007. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls over Financial Reporting

There were no changes to our internal controls over financial reporting that occurred during the period covered by this quarterly report on Form 10-QSB that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

Compliance with Section 404 of Sarbanes-Oxley Act

Pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 (the Act), beginning with our Annual Report on Form 10-KSB for our 2007 fiscal year, we will be required to furnish a report by our management on our internal controls over financial reporting. This report will contain, among other matters, an assessment of the effectiveness of our internal controls over financial reporting as of the end of our fiscal year, including a statement as to whether or not our internal controls over financial reporting is effective. This assessment must include disclosure of

any material weaknesses in our internal controls over financial reporting identified by management. If we identify one or more material weaknesses in our internal controls over financial reporting, we will be unable to assert our internal controls over financial reporting are effective. Currently, our independent registered public accountants will be required to issue an attestation report on management's assessment of such internal controls and a conclusion on the operating effectiveness of those controls for our 2008 fiscal year.

PART II OTHER INFORMATION

DEFENSE INDUSTRIES INTERNATIONAL, INC. AND SUBSIDIARIES

Item 1. Legal Proceedings

We are not a party to any pending or to the best of our knowledge, any threatening legal proceedings.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On May 1, 2007, we issued 74,074 shares of common stock, having a fair market value of \$40,000 at date of issuance, to the former owner of Owen Mills. The shares were issued pursuant to the agreement we signed on February 28, 2005 to acquire the business of Owen Mills. The shares were issued pursuant to the exemption afforded by Section 4(2) of the Securities Act of 1933.

Item 3. Default Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

None.

Item 6. Exhibits and Reports on Form 8-K
