FOR IMMEDIATE RELEASE

**Alvarion® Selected to Deploy the First Mobile WiMAX Network
in Papua New Guinea for Telikom PNG**

***Operator to provide nationwide broadband coverage with Alvarion's end-to-end
Mobile WiMAX 4Motion® solution***

TEL AVIV, June 2, 2009 Alvarion Ltd. (NASDAQ:ALVR), the world's leading provider of WiMAX and wireless broadband solutions, today announced it was chosen to deploy the first Mobile WiMAX network in Papua New Guinea for Telikom PNG. The country's telecommunications leader plans to provide nationwide coverage using Alvarion's end-to-end Mobile WiMAX 4Motion solution at the 2.3 GHz frequency band. Alvarion's local partner for this project is Telrad Networks.

Telikom PNG is wholly owned by the government and responsible for providing telecommunications services in Papua New Guinea. The operator's first network in the capital city of Port Moresby was launched this month and is expected to provide connectivity to approximately 1500 users. The second network to be deployed in the city of Lae is planned to go live in the second quarter of 2009. Further expansion is expected at the end of 2009, extending the network to all regional cities as part of the master plan to achieve nationwide coverage for 55,000

end-users.

We are proud to announce the deployment of the first Mobile WiMAX network in Papua New Guinea and introduce a new era of communications to all citizens, said Peter Loko Acting CEO of Telikom PNG. Alvarion presents an impressive track record in WiMAX solutions and early deployment capabilities. Together with our partner Telrad, we will leverage Alvarion's technology and expertise to provide a high-performance quality solution, offering compelling broadband services to our customers in this market.

Bringing services based on Mobile WiMAX to Papua New Guinea will enable Telikom PNG to give its customers a complete new wireless broadband experience, said Tzvika Friedman, president and CEO of Alvarion. We are excited about working with the nation's leading operator. Our advanced technology will increase network coverage and capacity and, allowing Telikom PNG to offer their customers a real high-speed wireless broadband experience.

4

Papua New Guinea has a population of almost 6 million and Internet penetration rate below 2 percent. WiMAX presents an ideal business case for enabling mobile broadband to mass consumers. By building a network based on Alvarion's leading platform, Telikom PNG can cost-effectively offer a wide range of voice and data services to the people of Papua New Guinea.

About Telikom PNG

Telikom PNG Limited, a 100% government owned company, replaced the former PTC. Telikom PNG provides public telecommunication services in Papua New Guinea, such as fixed network and cellular services through its owned subsidiary, BMobile Communications Limited. In addition to voice telephony services, other leased data circuits and internet services are retailed to local service providers. Telikom PNG was ear-marked for privatization in 2002 together with other Government owned institutions. For more information, visit www.telikompng.com.pg

About Telrad Networks

Telrad Networks has been developing carrier-grade communications equipment for more than half a century. Telrad provides development capabilities that focus on integration of core technologies into standardized, Tier-1 carrier-class products. Telrad is devoted to providing a highly flexible development team, allowing its partners and customers a high level of control in the development cycle and product roadmap. Telrad is a privately-owned company founded in 1951. For more information, visit www.telrad.com

About Alvarion

Alvarion (NASDAQ: ALVR) is the largest WiMAX pure-player with the most extensive WiMAX customer base and over 250 commercial deployments around the globe. Committed to growing the WiMAX market, the company offers solutions for a wide range of frequency bands supporting a variety of business cases. Through its OPEN WiMAX strategy, superior IP and OFDMA know-how, and ability to deploy end-to-end turnkey WiMAX projects, Alvarion is shaping the new wireless broadband experience (www.alvarion.com).

This press release contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on the current expectations or beliefs of Alvarion's management and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: potential impact on our business of the spread of the U.S. credit crisis and current global recession; the failure of the market for WIMAX products to develop as anticipated; Alvarion's inability to capture market share in the expected growth of the WiMAX market as anticipated, due to, among other things, competitive reasons or failure to execute in our sales, services provisioning, marketing or manufacturing objectives; inability to further identify, develop and achieve success for new products, services and technologies; increased competition and its effect on pricing, spending, third-party relationships and revenues; as well as the inability to establish and maintain relationships with commerce, advertising, marketing, and technology providers, and other risks detailed from time to time in the Company's 20-F Annual Report Risk Factors section as well as in other filings with the Securities and Exchange Commission.
