Continued Mr. Porat, "As we move through the second quarter, we can definitely say that the markets we operate in are now all in a high utilization mode and customers are actively expanding their capacity by investing in capital equipment. Looking ahead, we are expecting to show continued improvements, not only from the recovery and expansion of our main markets, but also from the additional growth of our new products, which are targeting new and potentially larger markets for Camtek. With regard to our outlook for the second quarter, we expect revenues of between \$20-\$22 million and anticipate continued growth into the second half of the year."
