Exhibit Index

The following document (bearing the exhibit number listed below) is furnished herewith and is made a part of this Report pursuant to the General Instructions for Form 6-K:

Exhibit	Description
No. 1	RNS Announcement, re: Increase in Govt Facility dated November 27, 2003

27 November 2003

Edgar Filing: BRITISH ENERGY PLC - Form 6-K

BRITISH ENERGY PLC

("British Energy" or the "Company")

INCREASE IN GOVERNMENT CREDIT FACILITY

British Energy announces that it has today agreed with the Secretary of State for Trade and Industry (the "Secretary of State") a temporary increase in the amount of the credit facility initially provided to the Company on 9 September 2002 (the "Government Facility") from the current level of GBP200 million to GBP275 million, subject to formal documentation.

As previously announced, the Company is facing short term pressures on liquidity resulting from the combined effect of seasonality, the recent unplanned outages at Sizewell B (which returned to service on 15 November 2003) and Heysham 1 and the increased levels of collateral and costs of unplanned outages brought about by the increased volatility of electricity prices. Taken together with other initiatives, this temporary increase in the Government Facility will provide the Company with additional financial flexibility.

The temporary increase in the Government Facility will only be available until the earlier of the receipt by British Energy of the proceeds from the disposal of its 50 per cent. interest in AmerGen Energy Company, LLC ("AmerGen") and 22 February 2004.

A circular to shareholders convening an Extraordinary General Meeting to approve the disposal of the Company's interest in AmerGen will be sent to shareholders shortly.
