Description

1. Press release dated December 14, 2005 - Pre Close Statement

14 December 2005

Edgar Filing: BUNZL PLC - Form 6-K

BUNZL PRE CLOSE STATEMENT

Bunzl plc, the international distribution and outsourcing Group, is updating the market today prior to entering the close period for the year to 31 December 2005. Following Mike Roney's appointment as Chief Executive on 1 November, Australasia is now treated as a separate business segment reporting directly to him. Therefore the Group's results will be presented in four business segments: North America, UK & Ireland, Continental Europe and Australasia. For comparison purposes the revenue and operating profit for Australasia for 2004 and the first half of 2005 were GBP78.4m and GBP6.4m and GBP47.2m and GBP3.3m respectively.

The Company also announces that:

- Overall trading is expected to be in line with market estimates.
- The good sales progress seen in North America in the first half of 2005 has continued, supported by generally firm product prices resulting from higher commodity input prices to suppliers. During the second half the pace of acquisition activity has increased. The acquisitions of SOFCO, Mendenhall, Retail Resources and Weiss have enabled Bunzl to develop further its positions in the higher growth redistribution and non-food retail areas in particular, while adding marginally to the traditional supermarket area where trading continues to be more difficult than in other sectors.
- In the UK & Ireland growth continues to be satisfactory though general economic activity has softened in the second half of 2005. The business continues to benefit from the ongoing refinement of the operating platform.
- Continental Europe has performed well in spite of the lethargic economic growth in the euro zone. The new acquisitions are being integrated and are contributing to the strong development of this business area.
- Australasia has continued its above Group average growth rate in 2005. The Sanicare acquisition completed in July has opened up a new front to service the growing healthcare market. Cooperation with other business areas continues to offer new sourcing opportunities.
- Annualised revenue of the acquisitions completed in 2005 is c.GBP270m. This strong acquisition activity, particularly in the second half of the year, is encouraging and the process of integration is ongoing.
