**Commenting on the results, Andrew Cosslett, Chief Executive of InterContinental Hotels Group PLC said:**

We have had a good first half with strong trading around the world producing a significant increase in hotels operating profit. We continue to make good progress on our asset disposal programme and returning funds to shareholders.

IHG is in an excellent position in a strong hotels market and there is much for us to go for. Our aim is to make our brands the first choice for hotel guests and hotel owners. We will do this by building the brands and strengthening our operating systems. The demanding room growth target we have set out today underlines my confidence in our future.

**Sharper focus**

IHG's core strategy remains consistent, concentrating on the growth of its managed and franchised operations. IHG's focus will now be on driving faster growth by making its brands the first choice for hotel guests and hotel owners. IHG will do this by building the strongest operating system in the industry, focused on the biggest markets and segments where its scale really counts.

There are four main priorities:

Strengthening the brand portfolio, with an initial focus on the Holiday Inn and InterContinental brands. Better and more consistent brand experiences will be delivered to guests through distinctive brand standards and quality improvements. A more systematic approach to brand development will be adopted and global brand identities will converge over time. Further opportunities to extend brands and develop the portfolio will be identified.

Driving hotel returns by strengthening front end delivery systems, building IT infrastructure and support, and linking Priority Club Rewards and brand programmes more directly. Systems to identify continuous improvement in hotel efficiency and operating processes will be put in place.

Using IHG's market knowledge and scale. Geographical rollout of IHG's brands will be pursued more aggressively. Managed and franchised sales teams will be strengthened across regions and segments. Capital will be used where appropriate to maximise opportunities to work with owners.

Aligning IHG's organisational structure. IHG's teams around the world will be aligned to work better together and in partnership with owners, recognising their differing needs. Growth critical capabilities will be strengthened. IHG's corporate social responsibility agenda will continue to be developed.

Successful execution of the strategy will drive 50,000-60,000 net organic room additions by the end of 2008. This is more than three times the recent rate of net rooms additions. The commitment to improving the quality of rooms operated under IHG's brands will be maintained.

## Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

Costs will continue to be held under tight control. A higher proportion of IHG's costs will, over time, be focused on IHG's guest and owner facing capabilities, where additional investment drives the most growth. In the short term, fulfilling IHG's growth potential will require additional revenue investment to strengthen capabilities in certain key areas, including brand management, IT and the managed and franchised sales teams.

### **Continuing hotel portfolio**

IHG intends to continue to dispose of its remaining hotels, except those hotels which play a strategic role in supporting a brand and can generate an appropriate return on investment. As a consequence further hotels, principally in Continental Europe, with a net book value of £600m are intended to be put on the market when the time is right.

The size of the future owned portfolio is likely to fluctuate over time with ongoing disposals and expenditure on new or existing assets. The aggregate value of owned and leased hotels that are intended to be retained from the current portfolio is up to £1.0bn. IHG will continue to own InterContinental hotels in the strategic cities of London, New York, Hong Kong and Paris. These hotels have recently completed, or are undergoing, full refurbishment. A small portfolio of other hotels will be retained, including the new InterContinental Buckhead hotel in Atlanta, Georgia and the prototype Holiday Inn hotel in Gwinnett, Georgia. Maintenance of these hotels and of central systems is expected to require annual capital expenditure of approximately £60-80m.

Hotels capital expenditure of £63m was incurred in the first half. The forecast for full year capital expenditure has been reduced to approximately £200m, including a significant proportion of the costs of the major renovation and re-launch of the InterContinental London. This renovation is now expected to have a £12m impact on operating profit in 2005, heavily second half weighted, and a similar impact in 2006, when the hotel will reopen.

### **Hotel disposals continue**

82 hotels were disposed of in the first half for proceeds of £1.2bn, approximately equal to net book value. Disposals included the UK portfolio of 68 Holiday Inns, four Crowne Plazas and one Holiday Inn Express to LRG for £1bn and the acquisition by Strategic Hotel Capital of 85% interests in InterContinental hotels in Miami and Chicago. Since the period end a portfolio of 10 hotels in Australasia has also been sold for approximately £170m, 23% ahead of its net book value of £138m, and the InterContinental Paris for 315m, 26% ahead of net book value.

Proceeds announced from the asset disposal process since Separation amount to £2.2bn, approximately equal to net book value. Management or franchise contracts have been retained on 88% of these properties.

### **Additional return of funds announced**

£2bn return of funds to shareholders has already been announced. £1.9bn has been returned to date and £122m remains to be returned via share buybacks.

A further share buyback programme of £250m will commence following completion of the current programme.

The timing and amount of further returns to shareholders will be influenced by when disposal proceeds are received, the need to maintain an appropriate level of gearing and opportunities to drive growth through investment in the business.

**Americas: strong performance across the business**

**Revenue performance**

RevPAR increased 9.0% in the first half, with all brands performing strongly. Rate growth generated most of the increase, though occupancy continued to rise. Corporate rate business and corporate groups were particularly strong. Candlewood Suites benefited from being integrated into IHG's system delivery platform, out-performing its market segment. Holiday Inn and Holiday Inn Express maintained their significant RevPAR premiums, with Holiday Inn increasing its revenue market share.

**Operating profit performance**

Operating profit, up 21% from \$150m to \$181m, benefited by \$8m from not depreciating assets held for sale under IFRS. Continuing owned and leased profit increased from \$2m to \$10m, driven by strong trading in the remaining owned portfolio. Managed profit, up 375%, gained from new management contracts on disposed assets and increased profitability across the existing portfolio. Franchised profit was up 10%, driven by RevPAR increases and fees from increased franchise sales.

**Owner relationships and brand development**

Owner relationships continued to expand. Owners acquiring properties and retaining IHG's brand included Strategic Hotel Capital, Hospitality Properties Trust and Highgate Holdings. Owner interest remains high in the newly launched Hotel Indigo brand. Franchise and management development teams have been further strengthened, with new hires increasing development resources by 40%.

## **EMEA: continued out-performance in UK market**

### **Revenue performance**

RevPAR increased 5.3% in the first half. There were considerable variances in performance across geographic markets. Holiday Inn UK revPAR was up 7.9% continuing to benefit from strong business travel, room refurbishments and targeted marketing campaigns. France, where RevPAR was up 8.5%, was aided by continuing ramp up at the reopened InterContinental Le Grand Hotel in Paris. Germany, with 2.3% RevPAR decline, saw demand fall as oversupply continued in several of IHG's main markets.

### **Operating profit performance**

Operating profit, up 46% from £50m to £73m, benefited by £18m from not depreciating assets held for sale under IFRS. Continuing owned and leased profit increased from £5m to £7m, with the impact of refurbishments at the InterContinental London and Holiday Inn Munich City Centre mitigated by improved trading at InterContinental Le Grand, Paris. Managed profit, down 13%, was impacted by non recurring 2004 first half liquidated damages, but benefited from stronger trading. Franchised profit was up 78%, as a result of receiving £7m liquidated damages from the termination of IHG's South African master franchise.

## **Owner relationships and brand development**

Since the period end, franchise agreements have been signed on portfolios of hotels owned by Stardon UK and Queens Moat House, adding two Crowne Plazas and 16 Holiday Inns in the UK (2,800 rooms).

## **Asia Pacific: continued growth**

### **Revenue performance**

RevPAR increased 7.5% in the first half, driven by rate increases. The three main brands in the region, InterContinental, Crowne Plaza and Holiday Inn, all generated strong RevPAR growth.

### **Operating profit performance**

Operating profit increased 38% from \$21m to \$29m. Owned and leased operating profit increased 46%, driven by InterContinental Hong Kong. Managed hotels profit increased 33%, driven by continued strength in China, Australia and New Zealand.

### **Owner relationships and brand development**

Express by Holiday Inn's launch in Greater China has generated considerable owner interest, with two properties already in the pipeline. IHG's nearly 20 year track record of operations in China, and its sizeable Shanghai based presence, gives owners confidence in IHG's commitment to maintain its premier position in China. IHG's Australasian portfolio, comprising one InterContinental, three Crowne Plazas and six Holiday Inns, was sold after the period end and will remain under IHG's brands.

### **Increase in system and pipeline size**

IHG's system increased by 3,500 rooms in the first half to 537,700.

16,900 rooms opened, of which 10,200 were new build. 11,800 room additions were from Holiday Inn and Express, 3,100 from Crowne Plaza, 1,000 from InterContinental, and 1,000 from IHG's other brands.

13,400 rooms left the system, of which 11,500 were in the Americas. Over 50% of total room exits were at IHG's instigation. Applications or enquiries have already been received to replace hotels in a third of the locations where IHG enforced exits. 1,800 of total room exits were as a result of hotels damaged by hurricanes in 2004 which have been unable to reopen and 400 from hotels sold by IHG without retaining an IHG brand. Excluding these, net room additions in the period would have been 5,700 rooms.

2,800 rooms have been signed in the UK since the period end as a result of franchise agreements with Stardon UK and Queens Moat House.

IHG's South African master franchise has been terminated. As a result, 6,300 rooms are expected to leave the system over the remainder of the year. £7m liquidated damages were received in the period and IHG is now free to operate with any franchisee in South Africa.

IHG continues to expand its upscale hotel presence, with eighteen additions

Four newly built InterContinental hotels.

Ten Crowne Plazas hotels, four newly built and six brand conversions.

Three Staybridge Suites, and one Hotel Indigo.

IHG's pipeline continues to grow.

27,200 rooms were signed in the first half. 21,700 in the Americas, 2,100 in EMEA and 3,400 in Asia Pacific.

89,600 rooms are now in the pipeline, up nearly 7,000 (9%) since the start of the year.

76% of pipeline rooms are in IHG's key markets of US, UK and China.

**Increased revenue delivery to IHG's hotel owners**

IHG continues to demonstrate the strength of its revenue delivery to hotel owners through its sales channels and loyalty programme, with significant increases over the same period of 2004.

Rooms revenue booked through IHG's reservation channels rose from 39% to 42%, \$2.4bn of revenue.

Rooms revenue generated from Priority Club Rewards members increased from 30% to 32%, \$1.8bn of revenue.

Internet revenues increased from 13% to over 15% of the total.

The proportion of Internet revenues delivered through IHG's own websites grew from 78% to 85%.

Membership of Priority Club Rewards, the largest loyalty scheme in the hotel industry, expanded to 26m.

Priority Club Rewards membership continues to grow in Greater China, where it now has nearly 450,000 members.

### **Current trading**

Trading continues to be good in the US, UK and Asia with RevPAR growing through a mixture of rate and occupancy. However, performance in Continental Europe is still varied. Although revenues have grown and market share increased in many markets, trading in a number of larger owned InterContinental has been adversely affected by continuing specific events or local market issues, primarily in Cannes, Paris and Frankfurt. So far, relatively limited impact has been seen from the recent London bombings, with slightly higher than normal cancellations and a lower growth in RevPAR in July.

It is too early to predict the trading impact of Hurricane Katrina in the US.

### **Britvic first half trading**

The trading environment was highly competitive, leading to a decline in average prices seen across the market. Despite these conditions, Britvic has performed well, achieving 1% turnover growth and a 5% increase in operating profit.

Volumes of branded product sold increased by 5%. J<sub>2</sub>O and Robinsons Fruit Shoot continued to increase volumes and to win market share. Pepsi achieved 7% growth in volume and also gained market share.

Brand innovation continued, with successful launches of Tango Clear, new flavours of J<sub>2</sub>O and Fruit Shoot, and no added sugar variants of Robinsons Fruit Spring and Robinsons for Milk.

Revenue for the Americas reduced by 6.0% to \$421m for the six months ended 30 June 2005 mainly as a result of the owned hotel disposals in the first half of 2005. Revenue from continuing operations increased by 24.1% to \$345m for the six months. Continuing owned and leased revenue grew by 32.1% as a result of strong trading in the comparable estate (those hotels fully trading as owned and leased in both six month periods) and the contribution from the InterContinental Buckhead, which opened in November 2004. Managed revenue more than doubled to \$57m as a result of management fees received from the disposed hotels where management contracts were entered into, and improved trading in the existing managed portfolio. Franchised revenue grew by 6.9% reflecting increased royalties and sales revenues.

Operating profit increased by 20.7% to \$181m. The relative strength of sterling to the US dollar (2005 six months to June \$1.87 : £1; 2004 six months to June \$1.82 : £1) meant that sterling reported operating profit grew by 18.3%. Operating profit from continuing operations before regional overheads grew by 24.0% to \$191m for the six months ended 30 June 2005.

Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

Owned and leased continuing operations operating profit grew by \$8m to \$10m. This was driven by strong trading in the comparable estate and a good performance from the recently opened InterContinental Buckhead.

Managed operating profit grew to \$19m for the six months ended 30 June 2005. This was boosted by management fees received on the 13 hotels sold to Hospitality Properties Trust (HPT) and the two InterContinental hotels acquired by Strategic Hotel Capital, Inc. (SHC), as well as improved trading in the rest of the managed portfolio. Managed RevPAR grew by 6.6% for Holiday Inn, 11.3% for Staybridge Suites and 17.4% for Candlewood Suites.

Franchised operating profit grew by 9.5% as all brands demonstrated strong RevPAR growth over the first six months of 2004 with Crowne Plaza 10.9% up, Holiday Inn 7.5% up, Holiday Inn Express 9.9% up and Staybridge Suites 10.6% up. This led to a growth in royalties, whilst increased sales revenues from new agreements also boosted operating profit.

The number of hotels in the Americas system grew in the first half of 2005 by a net 24, with 92 hotels joining the system (11,000 rooms) and 68 hotels leaving (11,500 rooms). The Americas pipeline (deals signed but hotels yet to enter the system) remains strong at 30 June 2005 with 619 hotels, 63,000 rooms; up 74 hotels, 7,600 rooms from 31 December 2004.

Revenue for EMEA reduced by 7.4% to £374m for the six months ended 30 June 2005. Revenue from continuing operations increased by 5.2% to £203m, with owned and leased revenue increasing by 3.8% to £162m.

In May 2005 the disposal of 73 hotels to LRG Acquisition Limited (LRG) was completed; these hotels together with other smaller disposals are treated as discontinued operations. Operating profit in total increased by 46.0% to £73m and for continuing operations before regional overheads by 24.1% to £36m.

Owned and leased operating profit from continuing operations increased by £2m to £7m. Continued difficult trading conditions in France and Frankfurt and the refurbishment disruption at the InterContinental London and Holiday Inn Munich, held back performance.

Managed operating profit was 13.3% below last year, at £13m. Underlying trading was strong but the results were impacted by loss of earnings at the InterContinental Beirut due to the terrorist bombing during the first quarter. The comparison to last year is also distorted by the inclusion in 2004 of £4m liquidated damages from the early termination of the InterContinental Barcelona management contract.

Franchised operating profit was up by £7m to £16m for the first six months of 2005. This included £7m liquidated damages for the termination of franchise agreements in South Africa. Underlying trading was strong with Holiday Inn franchise RevPAR up by 1.9% and Holiday Inn Express RevPAR up by 7.0%.

The EMEA system grew by 10 hotels, 3,100 rooms in the period. The termination of the franchise agreements in South Africa will remove approximately 6,300 rooms from the system by the end of 2005. In July 2005, IHG announced the signing of a franchise agreement for five Holiday Inn hotels (600 rooms) in the United Kingdom owned by Stardon, a joint venture company formed between Starwood Capital Europe and Chardon Hotels. In August 2005, IHG announced the signing of a new franchise agreement for 13 hotels (2,200 rooms) in the United Kingdom owned by Queens Moat Houses Limited.

Revenue in Asia Pacific grew by \$19m to \$135m for the six months ended 30 June 2005. Operating profit increased by \$8m to \$29m.

Discontinued operations represents the results of the ten owned and leased hotels in Australia, New Zealand and Fiji placed on the market on 4 April 2005 and announced as disposed on 1 September 2005 (see Asset Disposals).

Owned and leased continuing operations operating profit increased by \$2m driven by strong trading in the InterContinental Hong Kong, with a RevPAR increase of 20.8% over the first half of 2004.

Managed operating profit increased to \$16m, with strong RevPAR growth in Australia, New Zealand and China.

The system in Asia Pacific grew as eight hotels (2,700 rooms) joined the system in the period, including five in China.

Britvic Soft Drinks revenue increased by 1.1% on the first half of 2004, despite tough market conditions. Volumes grew by 6.7% in the first half, with J<sub>2</sub>O and Robinsons Fruit Shoot performing well, growing at 21% and 24% respectively. Despite a highly competitive carbonates market, Pepsi achieved 6.9% volume growth. High levels of promotional activity across the market led to a decline in average prices. Britvic continued to invest in supply chain and IT infrastructure. Operating profit finished ahead of last year at £39m.

**OTHER OPERATING INCOME AND EXPENSES**

Other operating income and expenses, an £8m charge in the six months ended 30 June 2005, incorporated the £4m costs of the corporate restructuring required to effect the £1bn return of funds together with restructuring costs in the hotel business arising from the asset disposal programme. The £6m credit in the six months ended 30 June 2004 was the adjustment to market value of the Group's investment in FelCor Lodging Trust Inc.

**NET FINANCING COSTS**

Net financing costs amounted to £18m in the six months ended 30 June 2005. The period benefited from the receipt of proceeds from the LRG disposal (approximately £960m) which completed on 24 May 2005.

**TAXATION**

The tax charge on profit before tax, excluding the impact of special items (see note 5 in notes to the interim financial statements), has been calculated using an estimated effective annual tax rate of 29%. By also excluding the effect of prior year items, the equivalent effective tax rate would be approximately 36%. Prior year items relate wholly to continuing operations.

**GAIN ON DISPOSAL OF ASSETS**

The gain on disposal of assets, net of related tax, amounted to £14m for the six months ended 30 June 2005.

**TREASURY**

The net movement in cash and cash equivalents in the six months ended 30 June 2005 was an inflow of £1,060m. This included a net cash inflow from operations of £140m. Net debt at 30 June 2005 was £5m comprising Hotels net cash of £262m and Britvic net debt of £267m.

The net cash inflow from investing activities included £1,394m from Hotel disposals.

## ASSET DISPOSALS

During the first half of 2005 IHG completed three significant transactions:

the sale of 13 hotels in the United States, Canada and Puerto Rico to HPT for \$425m before transaction costs. \$395m was received upon the main completion of the sale on 16 February 2005, and \$30m upon the completion of the sale of the InterContinental hotel in Austin, Texas on 1 June 2005. IHG entered into a management agreement with HPT on 12 of the hotels and will operate one on a lease agreement.

the acquisition by SHC of 85% interests in the InterContinental Miami and InterContinental Chicago, for \$287m in cash before transaction costs. The acquisition completed on 1 April 2005. IHG entered into a management agreement with SHC on both of the hotels.

the sale of 73 hotels in the United Kingdom to LRG. The transaction completed on 24 May 2005. IHG entered into a management agreement with LRG on 63 of the hotels and will operate the other ten hotels on a temporary management agreement.

Other disposals during the first half of 2005 included the Crowne Plaza United Nations, New York, the InterContinental The George, Edinburgh, the Crowne Plaza American Hotel, Amsterdam, and the Holiday Inns at Plymouth and Swansea, all of which left the system, and the Crowne Plaza Brussels Europa and Holiday Inn Birmingham Airport, which were sold with franchise agreements.

On 1 September 2005, in two separate transactions, IHG announced the sale of ten hotels in Asia Pacific that had been placed on the market in the second quarter of 2005. The aggregate proceeds were Aus\$405m in cash before transaction costs. Both transactions are expected to complete in the fourth quarter of 2005. IHG will enter into management agreements on all ten hotels.

On 8 September IHG announced the sale of the InterContinental Paris for 315m in cash before transaction costs. The transaction, which is expected to complete by the end of the year, may be subject to shareholder approval, if required.

Since April 2003 IHG has disposed of or announced the disposal of 139 hotels with proceeds of approximately £2.2bn. At 7 September 2005 five hotels remained on the market with a net book value of approximately £50m.

## RETURN OF FUNDS

IHG's second on-market £250m share repurchase programme commenced in December 2004. A further 19.5 million shares were repurchased during the first half of 2005 at an average price per share of 631 pence (total £123m). This brought the total amount of funds returned to shareholders by way of special dividends and share repurchase programmes, since April 2003, to £879m.

The planned return of a further £1bn of capital to shareholders occurred on 8 July 2005, following the capital reorganisation completed in June 2005. Under the arrangements, shareholders received 11 New Ordinary Shares and £24.75 cash in exchange for every 15 Existing Ordinary Shares held on 24 June 2005.

On 8 September 2005 IHG announced a further £250m share repurchase programme, to commence on completion of the second programme.

### NOTES TO THE INTERIM FINANCIAL STATEMENTS

#### 1. Basis of preparation

For all periods up to and including the year ended 31 December 2004, InterContinental Hotels Group PLC (IHG) prepared its financial statements in accordance with UK generally accepted accounting practice (UK GAAP). From 1 January 2005 IHG is required to prepare consolidated financial statements in accordance with International Financial Reporting Standards (IFRS) as endorsed by the European Union (EU). Consequently, financial information for interim quarters of 2005 must be prepared on the basis of IFRS.

These interim financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 Interim Financial Reporting. The unaudited financial statements for the period ended 30 June 2005 and the restatement of financial information for the year ended 31 December 2004 and the period ended 30 June 2004 have been prepared in accordance with IFRS expected to be endorsed by the EU and available for use by listed European companies at 31 December 2005 (with the exception of IAS 32 Financial Instruments: Disclosure and Presentation and IAS 39 Financial Instruments: Recognition and Measurement (as amended) for the 2004 information). These International Financial Reporting Standards, Standing Interpretations Committee and International Financial Reporting Interpretations Committee interpretations issued by the International Accounting Standards Board (IASB) are subject to ongoing review and possible amendment or interpretive guidance and are therefore still subject to change which may require further adjustments to this information before it is included in the 2005 Annual Report and Financial Statements.

Shareholder approval was given on 1 June 2005 to recommend proposals for the return of approximately £1 billion to shareholders by way of a capital reorganisation (by means of a Scheme of Arrangement under Section 425 of the Companies Act 1985). Under the arrangement, shareholders received 11 New Ordinary Shares and £24.75 cash in exchange for every 15 Existing Ordinary Shares held on 24 June 2005. The overall effect of the transaction was that of a share repurchase at fair value, therefore no adjustment has been made to comparative earnings per share data (see note 7).

The capital reorganisation of InterContinental Hotels Group PLC to New InterContinental Hotels Group PLC (the Company) has been accounted for in accordance with the principles of merger accounting as applicable to group reorganisations. The consolidated financial statements are therefore presented as if the Company had been the parent company of the Group throughout the periods presented. Following this capital reorganisation InterContinental Hotels Group PLC changed its name to InterContinental Hotels PLC and was re-registered as a private limited company, named InterContinental Hotels Limited, and New InterContinental Hotels Group PLC changed its name to InterContinental Hotels Group PLC.

In the information for the year ended 31 December 2004 and the interim quarters of 2004, financial assets and financial liabilities are accounted for on the basis of UK GAAP. The effect of adopting IAS 39 at 1 January 2005 is shown in the statement of changes in equity for 2005.

Details of the accounting policies applied in the period ended 30 June 2005 are set out in the International Financial Reporting Information in IHG's Annual Report 2004. The policies assume that the amendments to IAS 19 Employee Benefits published in December 2004 by the IASB, allowing actuarial gains and losses to be recognised in full through equity, will be endorsed by the EU.

These interim financial statements are unaudited and do not constitute statutory accounts of the Group within the meaning of Section 240 of the Companies Act 1985. The Annual Report and Financial Statements for the year ended 31 December 2004 which contain an unqualified audit

report have been filed with the Registrar of Companies.

**Transition to International Financial Reporting Standards**

An explanatory note setting out IHG's accounting policies under IFRS, the major differences between UK GAAP and IFRS for IHG, and reconciliations of UK GAAP to IFRS for the Income statement for the year ended 31 December 2004 and Balance sheets at 1 January 2004 and 31 December 2004 are included within the 2004 Annual Report and Financial Statements. The reconciliations for the 2004 interim period included in this report are set out below:

All special items relate to continuing operations.

- a Restructuring costs relate to the delivery of the further restructuring of the Hotels business.
- b Adjustment to market valuation of the Group's investment in FelCor Lodging Trust Inc. Following adoption of IAS 39 at 1 January 2005 adjustments to market value are recorded directly in equity.
- c Interest on special tax refunds.
- d Cost of closing out currency swaps.
- e Represents the release of provisions which are special by reason of their size or incidence relating to tax matters which have been settled or in respect of which the relevant statutory limitation period has expired and, in 2004, the recognition of a deferred tax asset in respect of capital losses.

## 6. Tax

The tax charge on profit before tax, excluding the impact of special items (note 5), has been calculated using an estimated effective annual tax rate of 29%.

By also excluding the effect of prior year items, the equivalent effective tax rate would be approximately 36%. Prior year items relate wholly to continuing operations.

## Diluted earnings per share

## Edgar Filing: INTERCONTINENTAL HOTELS GROUP PLC /NEW/ - Form 6-K

Diluted earnings per ordinary share is calculated by adjusting basic earnings per ordinary share to reflect the notional exercise of the weighted average number of dilutive ordinary share options outstanding during the period. The resulting weighted average number of ordinary shares for the six months to 30 June 2005 is 619m (6 months to 30 June 2004, 735m) and for the three months to 30 June 2005 is 608m (3 months to 30 June 2004, 725m).

**11. Contingent liabilities**

At 30 June 2005 the Group had contingent liabilities of £10m (2004 31 December, £9m; 2004 30 June, £11m), mainly comprising guarantees given in the ordinary course of business. IHG has entered into management contract arrangements in the ordinary course of business that include performance guarantees. Management does not anticipate any material funding under these arrangements.

**12. Post balance sheet events**

On 1 September 2005, in two separate transactions, IHG announced the sale of ten hotels in Asia Pacific that had been placed on the market in the second quarter of 2005. The aggregate proceeds were Aus\$405m in cash before transaction costs. Both transactions are expected to complete in the fourth quarter of 2005. IHG will enter into management agreements on all ten hotels.

On 8 September 2005 IHG announced the sale of the InterContinental Paris for 315m in cash before transaction costs. The transaction, which is expected to complete by the end of the year, may be subject to shareholder approval, if required.
