**ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION**

On October 25, 2005, we announced our financial results for the quarter ended September 30, 2005. A copy of our press release announcing these financial results and certain other information is attached as Exhibit 99.1 to this Current Report on Form 8-K.

The attached press release contains non-GAAP financial measures. For purposes of Regulation G, a non-GAAP financial measure is a numerical measure of a company's performance, financial position, or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles, or GAAP. To supplement our consolidated financial statements presented in accordance with GAAP, Digital Insight uses non-GAAP, or pro forma, measures of net income and earnings per share, which are adjusted from results based on GAAP to exclude certain expenses, gains and losses.

These non-GAAP measures are provided to enhance the investors' overall understanding of our current financial performance and our prospects for the future. Specifically, we believe the non-GAAP results provide useful information to investors by excluding certain expenses, gains and losses that may not be indicative of our core operating results. Further, we believe these financial measures are helpful to investors in understanding certain non-GAAP information used by management in its financial and operational decision-making. In addition, because we have historically reported certain non-GAAP results to investors, we believe the inclusion of non-GAAP numbers provides consistency in our financial reporting.

These measures should be considered in addition to results prepared in accordance with GAAP, and are not a substitute for, or superior to, GAAP results. Consistent with our historical practice, the non-GAAP measures included in the attached press release have been reconciled to the nearest GAAP measure.

As used herein and in the press release, GAAP refers to accounting principles generally accepted in the United States. As stated in our press release, our non-GAAP pro forma results exclude the following non-cash or non-recurring charges and benefits, net of any related tax impact, from our statements of operations:

Non-cash charges related to amortization of acquisition-related intangible assets;

Non-cash charges related to amortization of stock-based compensation;

Merger-related charges;

Restructuring-related charges;

Impairment charges;

Cumulative effect of change in accounting methods;

Income benefit from the release of valuation allowances; and

Non-recurring tax charges.

The attached press release also contains forward-looking statements relating to Digital Insight's anticipated performance for the three-month period ending December 31, 2005 and for the twelve-month period ending December 31, 2005. A more thorough discussion of certain factors that may affect our operating results is included under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2004. We assume no obligation and do not intend to update any such forward-looking statements.

The information in this section and in exhibit 99.1 is furnished pursuant to Item 2.02 and shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), or otherwise subject to the liabilities under that Section. Furthermore, such information shall not be deemed to be incorporated by reference into any filing made by us under the Securities Act of 1933, as amended, or the Exchange Act.
