Dividend Reinvestment Plan

Western Asset Premier Bond Fund (the Fund) and Computershare Trust Company N.A. (Agent), as the Transfer Agent and Registrar of the Fund, offer a convenient way to add shares of the Fund to your account. The Fund offers to all common shareholders a Dividend Reinvestment Plan (Plan). Under the Plan, cash distributions (e.g., dividends and capital gains) on the common shares are automatically invested in shares of the Fund unless the shareholder elects otherwise by contacting the Agent at the address set forth below.

As a participant in the Dividend Reinvestment Plan you will automatically receive your dividend or net capital gains distribution in newly issued shares of the Fund if the market price of a share on the date of the distribution is at or above the net asset value (NAV) of a Fund share, minus estimated brokerage commissions that would be incurred upon the purchase of common shares on the open market. The number of shares to be issued to you will be determined by dividing the amount of the cash distribution to which you are entitled (net of any applicable withholding taxes) by the greater of the NAV per share on such date or 95% of the market price of a share on such date. If the market price of a share on such distribution date is below the NAV, minus estimated brokerage commissions that would be incurred upon the purchase of common shares on the open market, the Agent will, as agent for the participants, buy shares of the Fund through a broker on the open market. All common shares acquired on your behalf through the Plan will be automatically credited to an account maintained on the books of the Agent. Full and fractional shares will be voted by Computershare in accordance with your instructions.

Additional Information Regarding the Plan

The Fund will pay all costs applicable to the Plan, except for brokerage commissions for open market purchases by the Agent under the Plan, which will be charged to participants. All shares acquired through the Plan receive voting rights and are eligible for any stock split, stock dividend, or other rights accruing to shareholders that the Board of Trustees may declare.

You may terminate participation in the Plan at any time by giving written notice to the Agent. Such termination shall be effective prior to the record date next succeeding the receipt of such instructions or by a later date of termination specified in such instructions. Upon termination, a participant will receive a certificate for the full shares credited to his or her account or may request the sale of all or part of such shares. Fractional shares credited to a terminating account will be paid for in cash at the current market price at the time of termination.

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSRS

Dividends and other distributions invested in additional shares under the Plan are subject to income tax just as if they had been received in cash. After year end, dividends paid on the accumulated shares will be included in the Form 1099-DIV information return to the Internal Revenue Service (IRS) and only one Form 1099-DIV will be sent to participants each year.

Inquiries regarding the Plan, as well as notices of termination, should be directed to Computershare Trust Company, N.A. P.O. Box 43010, Providence, Rhode Island 02940-3010 Investor Relations telephone number 1-800-426-5523.

FUND HIGHLIGHTS Continued

Schedule of Portfolio Holdings

The Fund files a complete schedule of its portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. You may obtain a free copy of the Fund's Form N-Q by calling 1-800-799-4932 or by writing to the Fund, or you may obtain a copy of this report (and other information relating to the Fund) from the Securities and Exchange Commission's (SEC) website (<http://www.sec.gov>). Additionally, the Fund's Form N-Q can be viewed or copied at the SEC's Public Reference Room in Washington D.C. Information about the operation of the Public Reference Room can be obtained by calling 1-202-551-8090.

Annual Certifications

In May 2006, the Fund submitted its annual CEO certification to the New York Stock Exchange (NYSE) in which the Fund's principal executive officer certified that he was not aware, as of the date of the certification, of any violation by the Fund of the NYSE's Corporate Governance listing standards. In addition, as required by Section 302 of the Sarbanes-Oxley Act of 2002 and related Securities and Exchange Commission (SEC) rules, the Fund's principal executive and principal financial officers have made quarterly certifications, included in filings with the SEC on Forms N-CSR and N-Q, relating to, among other things, the Fund's disclosure controls and procedures and internal control over financial reporting.

Proxy Voting

You may request a free description of the policies and procedures that the Fund uses to determine how proxies relating to the Fund's portfolio securities are voted by calling 1-800-799-4932 or by writing to the Fund, or you may obtain a copy of these policies and procedures (and other information relating to the Fund) from the SEC's web site (<http://www.sec.gov>). You may request a free report regarding how the Fund voted proxies relating to portfolio securities during the most recent twelve-month period ended June 30 by calling 1-800-799-4932 or by writing to the Fund, or you may obtain a copy of this report (and other information relating to the Fund), from the SEC's website (<http://www.sec.gov>).

Semi-Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS

(Amounts in Thousands) (Unaudited)

1. Significant Accounting Policies:

Western Asset Premier Bond Fund (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a diversified, closed-end management investment company. The Fund commenced investment operations on March 28, 2002.

The Fund's investment objective is to provide current income and capital appreciation by investing primarily in a diversified portfolio of investment grade bonds. The Fund currently seeks to achieve its investment objective by investing substantially all of its assets in bonds, including corporate bonds, U.S. government and agency securities and mortgage-related securities. The ability of the issuers of the securities held by the Fund to meet their obligations might be affected by, among other things, economic developments in a specific state, industry or region.

Preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation

The Fund's securities are valued on the basis of readily available market quotations or, lacking such quotations, at fair value as determined under policies approved by and under the general oversight of the Board of Trustees. In determining fair value, all relevant qualitative and quantitative factors available are considered. These factors are subject to change over time and are reviewed periodically. The Fund may use fair value pricing instead of market quotations to value one or more securities if the Fund believes that, because of special circumstances, doing so would more accurately reflect the prices the Fund expects to realize on the current sale of those securities. Further, because of the inherent uncertainty of valuation, those estimated values may differ significantly from quoted or published values or from the values that would have been used had a ready market for the investments existed, and the differences could be material.

With respect to the Fund, where a security is traded on more than one market, which may include foreign markets, the securities are generally valued on the market considered by the Fund's adviser to be the primary market. The Fund will value its foreign securities in U.S. dollars on the basis of the then-prevailing exchange rates.

Security Transactions

Security transactions are accounted for as of the trade date. Realized gains and losses from security transactions are reported on an identified cost basis for both financial reporting and federal income tax purposes.

Purchases and sales of investment securities (excluding short-term investments, U.S. government securities and U.S. government agency securities) aggregated \$36,565 and \$35,722, respectively for the six months ended June 30, 2006. There were purchases of \$14,652 and sales of

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSRS

\$13,172 of U.S. government and government agency obligations for the six months ended June 30, 2006.

Foreign Currency Translation

Assets and liabilities initially expressed in non-U.S. currencies are translated into U.S. dollars using currency exchange rates determined prior to the close of trading on the NYSE, usually at 2:00 p.m. Eastern time. Purchases and sales of securities and income and expenses are translated into U.S. dollars at the prevailing market rates on the dates of such transactions. The effects of changes in non-U.S. currency exchange rates on investment securities and other assets and liabilities are included with the net realized and unrealized gain or loss on foreign currency transactions.

Repurchase Agreements

The Fund may engage in repurchase agreement transactions. Under the terms of a typical repurchase agreement, the Fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Fund to resell, the obligation at an agreed-upon price and time, thereby determining the yield during the Fund's holding period. This arrangement results in a fixed rate of return that is not subject to market fluctuations during the Fund's holding period. The value of the

Semi-Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS Continued

collateral is at all times at least equal to the total amount of the repurchase obligation, including interest. In the event of a counterparty default, the Fund has the right to use the collateral to satisfy the terms of the repurchase agreement. However, there could be a potential loss to the Fund in the event the Fund is delayed or prevented from exercising its right to dispose of the collateral securities, including the risk of a possible decline in the value of the collateral securities during the period in which the Fund seeks to assert its rights. The Fund's investment adviser reviews the value of the collateral and the creditworthiness of those banks and dealers with which the Fund enters into repurchase agreements to evaluate potential risks.

Reverse Repurchase Agreements

The Fund may enter into reverse repurchase agreements. Under the terms of a typical reverse repurchase agreement, the Fund sells an underlying debt obligation subject to an obligation to repurchase the security from the buyer at an agreed-upon price and time, thereby determining the yield during the buyer's holding period. A reverse repurchase agreement involves the risk, among others that the market value of the securities the Fund has sold and is obligated to repurchase exceed the cash retained by the Fund. In the event the buyer of the securities under a reverse repurchase agreement files for bankruptcy or becomes insolvent, the Fund's use of the proceeds of the agreement may be restricted pending a determination by the party, or its trustee or receiver, whether to enforce the Fund's obligation to repurchase the securities. At the time the Fund enters into a reverse repurchase agreement, it will segregate, on its books, liquid assets having a value at least equal to the repurchase price or take other actions permitted by law to cover its obligations.

Options, Futures and Swap Agreements

The current market value of a traded option is the last sale price or, in the absence of a sale, the mean between the closing bid and asked price. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded. Futures contracts are marked-to-market on a daily basis. As a contract's value fluctuates, payments known as variation margin are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealized gains or losses, and the Fund recognizes a gain or loss when the contract is closed. Swap agreements are priced daily based upon valuations furnished by an independent pricing service and the change, if any, is recorded as unrealized appreciation or depreciation.

Short Sales

The Fund may sell a security it does not own in anticipation of a decline in the market price of that security. The Fund must then borrow the security sold short and deliver it to the dealer that brokered the short sale. A gain, limited to the price at which the security was sold short, or a loss, potentially unlimited in size, will be recognized upon the termination of the short sale. With respect to each short sale, the Fund must segregate collateral consisting of cash or liquid securities with a value at least equal to the current market value of the shorted securities, marked-to-market daily, or take other actions permitted by law to cover its obligations. Dividend expenses and fees paid to brokers to borrow securities in connection with short sales are considered part of the cost of short sale transactions. The Fund had no open short sales at June 30, 2006.

Distributions to Common Shareholders

Investment income and distributions to common shareholders are recorded on the ex-dividend date. Dividends from net investment income are declared and paid monthly. Net capital gain distributions are declared and paid after the end of the tax year in which the gain is realized. Distributions are determined in accordance with federal income tax regulations, which may differ from those determined in accordance with accounting principles generally accepted in the United States of America; accordingly, periodic reclassifications are made within the Funds

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSRS

capital accounts to reflect income and gains available for distribution under federal income tax regulations. Interest income and expenses are recorded on the accrual basis. Bond discounts and premiums are amortized and included in interest income for financial reporting purposes and federal income tax purposes.

Compensating Balance Credits (amounts are not in thousands):

The Fund has an arrangement with its custodian bank, whereby a portion of the custodian's fee is paid indirectly by credits earned on the Fund's cash on deposit with the bank. This deposit arrangement is an alternative to purchasing overnight investments. For the six months ended June 30, 2006, the Fund earned compensating balance credits of \$6,338.

Semi-Annual Report to Shareholders

2. Federal Income Taxes:

No provision for federal income or excise taxes is required since the Fund intends to continue to qualify as a regulated investment company and distribute substantially all of its taxable income and capital gains to its shareholders. Because federal income tax regulations differ from accounting principles generally accepted in the United States, income and capital gains distributions determined in accordance with tax regulations may differ from net investment income and realized gains recognized for financial reporting purposes. Accordingly, the character of distributions and composition of net assets for tax purposes may differ from those reflected in the accompanying financial statements.

An additional distribution may be made in December to the extent necessary in order to comply with Federal excise tax requirements.

3. Financial Instruments:

Forward Currency Exchange Contracts

As part of its investment program, the Fund may utilize forward currency exchange contracts. Forward foreign exchange contracts are marked-to-market daily using foreign currency exchange rates supplied by an independent pricing service. The change in the contract's market value is recorded by the Fund as an unrealized gain or loss. When a contract is closed or delivery is taken, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

The use of forward foreign currency exchange contracts does not eliminate fluctuations in the underlying prices of the Fund's securities, but it does establish a rate of exchange that can be achieved in the future. These forward foreign currency exchange contracts involve market risk in excess of amounts reflected in the financial statements. Although forward foreign currency exchange contracts used for hedging purposes limit the risk of loss due to the decline in the value of the hedged currency, they also limit any potential gain that might result should the value of the currency increase. In addition, the Fund could be exposed to risks if the counterparties to the contracts are unable to meet the terms of their contracts.

The Fund had no outstanding forward foreign currency exchange contracts as of June 30, 2006.

Option Transactions

As part of its investment program, the Fund may utilize options. Options may be written (sold) or purchased by the Fund. When the Fund purchases a put or call option, the premium paid is recorded as an investment and its value is marked-to-market daily. When the Fund writes a put or call option, an amount equal to the premium received by the Fund is recorded as a liability and its value is marked-to-market daily.

When options, whether written or purchased, expire, are exercised or are closed (by entering into a closing purchase or sale transaction), the Fund realizes a gain or loss as described in the chart below:

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSRS

Purchased option:	Impact on the Fund:
The option expires	Realize a loss in the amount of the cost of the option.
The option is closed through a closing sale transaction	Realize a gain or loss depending on whether the proceeds from the closing sale transaction are greater or less than the cost of the option.
The Fund exercises a call option	The cost of the security purchased through the exercise of the option will be increased by the premium originally paid to purchase the option.
The Fund exercises a put option	Realize a gain or loss from the sale of the underlying security. The proceeds of that sale will be reduced by the premium originally paid to purchase the put option.

Semi-Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS *Continued*

Written option:	Impact on the Fund:
The option expires	Realize a gain equal to the amount of the premium received.
The option is closed through a closing purchase transaction	Realize a gain or loss without regard to any unrealized gain or loss on the underlying security and eliminate the option liability. The Fund will realize a loss in this transaction if the cost of the closing purchase exceeds the premium received when the option was written.
A written call option is exercised by the option purchaser.	Realize a gain or loss from the sale of the underlying security. The proceeds of that sale will be increased by the premium originally received when the option was written.
A written put option is exercised by the option purchaser	The amount of the premium originally received will reduce the cost of the security that the Fund purchased when the option was exercised.

The risk associated with purchasing options is limited to the premium originally paid. Options written by the Fund involve, to varying degrees, risk of loss in excess of the option value. The risk in writing a covered call option is that the Fund may forgo the opportunity of profit if the market price of the underlying security increases and the option is exercised. The risk in writing a put option is that the Fund may incur a loss if the market price of the underlying security decreases and the option is exercised. In addition, there is a risk the Fund may not be able to enter into a closing transaction because of an illiquid secondary market, or, for over-the-counter options, because of the counterparty's inability or unwillingness to perform.

There was no activity in written options during the six months ended June 30, 2006.

Futures

Upon entering into a futures contract, the Fund is required to deposit with the broker cash or cash equivalents in an amount equal to a certain percentage of the contract amount. This is known as the initial margin. Subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuation in the value of the contract. The daily changes in contract value are recorded as unrealized gains or losses, and the Fund recognizes a realized gain or loss when the contract is closed. Futures contracts are valued daily at the settlement price established by the board of trade or exchange on which they are traded.

The Fund may enter into futures contracts for various reasons, including in connection with its interest rate management strategy. Futures contracts involve, to varying degrees, risk of loss in excess of the amounts reflected in the financial statements. The change in the value of the futures contract primarily corresponds with the value of their underlying instruments, which may not correlate with changes in interest rates, if applicable. In addition, there is a risk that the Fund may not be able to enter into a closing transaction because of an illiquid secondary market.

The open futures positions and related appreciation or depreciation at June 30, 2006, are listed at the end of the Fund's portfolio of investments.

Reverse Repurchase Agreements

For the period ended June 30, 2006, the average amount of reverse repurchase agreements outstanding was \$29,775 and the daily weighted average interest rate was 4.66%.

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSRS

As of June 30, 2006, the Fund entered into reverse repurchase agreements with Lehman Brothers and Deutsche Bank. The reverse repurchase agreements which matured on July 11, 2006, were recorded at cost and were collateralized primarily by U.S. Government Securities with a par value of \$24,770 and a market value as of June 30, 2006, of \$25,969.

Semi-Annual Report to Shareholders

Swap Agreements

The Fund may invest in swaps for the purpose of managing its exposure to interest rate, credit or market risk, or for other purposes. The use of swaps involves risks that are different from those associated with ordinary portfolio transactions.

Total return swaps are agreements to exchange the return generated by one instrument for the return generated by another instrument, for example, the agreement to pay interest in exchange for a market-linked return based on a notional amount. To the extent the total return of the index exceeds the offsetting interest obligation, the Fund will receive a payment from the counter-party. To the extent it is less, the Fund will make a payment to the counterparty. Periodic payments received or made by the Fund are recorded in the accompanying statements of operations as realized gains or losses, respectively.

Credit default swaps involve the exchange of a fixed-rate premium for protection against the loss in value of an underlying debt instrument in the event of a defined credit event (such as payment default or bankruptcy). Under the terms of the swap, one party acts as a guarantor, receiving a periodic payment that is a fixed percentage applied to a notional principal amount. In return, the party agrees to purchase the notional amount of the underlying instrument, at par, if a credit event occurs during the term of the swap. The Fund may enter into credit default swaps in which the Fund or its counterparty act as guarantors. By acting as the guarantor of a swap, the Fund assumes the market and credit risk of the underlying instrument, including liquidity and loss of value. Interest rate swap contracts involve the exchange of commitments to pay and receive interest based on a notional principal amount.

Swaps are marked-to-market daily and changes in value are recorded as unrealized appreciation/(depreciation). Gains or losses are realized upon termination of the swap agreement. Periodic payments and premiums received or made by the Fund are recorded in the accompanying statements of operations as realized gains or losses, respectively. Collateral, in the form of restricted cash or securities, may be required to be held in segregated accounts with the Fund's custodian in compliance with swap contracts. Risks may exceed amounts recognized on the statements of assets and liabilities. These risks include changes in the returns of the underlying instruments, failure of the counterparties to perform under the contracts' terms, and the possible lack of liquidity with respect to the swap agreements.

The following is summary of open swap contracts outstanding at June 30, 2006.

Semi-Annual Report to Shareholders

NOTES TO FINANCIAL STATEMENTS Continued

4. Common Shares (amounts are not in thousands):

Of the 11,454,996 shares of common stock outstanding at June 30, 2006, Western Asset owned 9,977 shares.

5. Preferred Shares (amounts are not in thousands):

There are 2,880 shares of Auction Market Preferred Shares (Preferred Shares) authorized. The Preferred Shares have rights as set forth in the Fund's Agreement and Declaration of Trust, as amended to date, and its Bylaws, as amended to date (the Bylaws), or as otherwise determined by the Trustees. The 2,880 Preferred Shares outstanding consist of two series, 1,440 shares of Series M and 1,440 shares of Series W. The Preferred Shares have a liquidation value of \$25,000 per share, plus any accumulated but unpaid dividends whether or not earned or declared.

Dividends on the Series M and Series W Preferred Shares are cumulative and are paid at a rate typically reset every seven and twenty-eight days, respectively, based on the results of an auction. Dividend rates ranged from 4.15% to 5.16% from January 1, 2006 to June 30, 2006. Under the Investment Company Act of 1940, the Fund may not declare dividends or make other distributions on common shares or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

The Preferred Shares are redeemable at the option of the Fund, in whole or in part, on the second business day preceding any dividend payment date at \$25,000 per share plus any accumulated but unpaid dividends. The Preferred Shares are also subject to mandatory redemption at \$25,000 per share plus any accumulated but unpaid dividends, whether or not earned or declared, if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in the Bylaws are not satisfied.

Preferred shareholders, who are entitled to one vote per Preferred Share, generally vote as a single class with the common shareholders, but will vote separately as a class (and, in certain circumstances, vote separately by series) with respect to certain matters set forth in the Bylaws. The preferred shareholders are entitled to elect two Trustees of the Fund.

6. Securities Lending:

The Fund may lend its securities to approved brokers to earn additional income. The Fund will receive collateral in cash and U.S. government securities at least equal to the current value of the securities loaned. Cash collateral received is invested in a money market pooled account by the Fund's lending agent. As of June 30, 2006, there were no securities on loan.

7. Transactions with Affiliates:

The Fund has a management agreement with Western Asset Management Company (Western Asset). Pursuant to the terms of the management agreement, the Fund pays Western Asset an annual fee, payable monthly, in an amount equal to 0.55% of the average weekly value of the Fund's total managed assets. Pursuant to a Portfolio Management Agreement between Western Asset and Western Asset Management Company Limited (WAML), Western Asset pays a portion of the fees it receives from the Fund to WAML at an annual rate of 0.425% of the average

Edgar Filing: WESTERN ASSET PREMIER BOND FUND - Form N-CSRS

weekly value of the Fund's total managed assets that WAML manages. Western Asset and WAML are wholly owned subsidiaries of Legg Mason, Inc.

Under the terms of the Administration Agreement among the Fund, Western Asset and Princeton Administrators, L.P. (the Administrator), Western Asset pays the Administrator, a monthly fee at an annual rate of 0.125% of the Fund's average weekly total managed assets, subject to a monthly minimum fee of \$12,500.

8. Trustee Compensation (amounts are not in thousands):

Each Independent Trustee receives an aggregate fee of \$60,000 annually for serving on the combined Board of Trustees/Directors of the Fund, Western Asset Income Fund and Western Asset Funds, Inc. Each Trustee also receives a fee of \$7,500 and related expenses for each meeting of the Board attended in-person and a fee of \$2,500 for participating in each telephonic meeting. The Chairman of the Board and the Chairman of the Audit Committee each receive an additional \$25,000 per year for serving in such capacities. Each member of the Audit Committee receives a fee of \$5,000 for serving as a member of the Audit Committee. Other committee members receive \$2,500 for serving as a member of each committee upon which they serve. Committee members also receive a fee of \$2,500 for participating in each telephonic committee meeting. All such fees are allocated among the Fund, Western Asset Income Fund and Western Asset Funds, Inc. according to each such investment company's average annual net assets.
