ENDEAVOR ACQUISITION CORP.

(A DEVELOPMENT STAGE ENTERPRISE)

NOTES TO UNAUDITED CONDENSED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED SEPTEMBER 30, 2006 AND

THE PERIOD JULY 22, 2005 (INCEPTION) TO SEPTEMBER 30, 2006

1. Interim Financial Information

These unaudited condensed financial statements as of September 30, 2006 and for the period July 22, 2005 (inception) to September 30, 2006 and for the quarter ended September 30, 2006, have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the interim period presented are not necessarily indicative of the results to be expected for any other interim period or for the full year.

These unaudited condensed financial statements should be read in conjunction with the financial statements and notes thereto for the fiscal year ended December 31, 2005 included in Endeavor Acquisition Corp.'s (the "Company") Form 10-K for the fiscal year ended December 31, 2005, filed on March 31, 2006. The accounting policies used in preparing these unaudited condensed financial statements are consistent with those described in the December 31, 2005 financial statements.

2. Organization and Business Operations

The Company was incorporated in Delaware on July 22, 2005 as a blank check company whose objective is to acquire an operating business.

All activity from July 22, 2005 through December 21, 2005 related to the Company's formation and initial public offering as described below. Since December 22, 2005, the Company has been searching for a target business to acquire. The Company has selected December 31 as its fiscal year end.

The Company's management has broad discretion with respect to the specific application of the net proceeds of this Offering, although substantially all of the net proceeds of this Offering are intended to be generally applied toward consummating a business combination with an operating business ("Business Combination"). Furthermore, there is no assurance that the Company will be able to successfully effect a Business Combination. An amount of \$121,030,234 of the net proceeds from the initial public offering and the exercise of the underwriters' overallotment option was deposited and is being held in an interest-bearing trust account ("Trust Account") until the earlier of (i) the consummation of a Business Combination or (ii) liquidation of the Company. As of September 30, 2006, the balance in the Trust Account was \$124,043,336, which includes \$3,016,114 of interest earned. Under the agreement governing the Trust Account, funds will only be invested in United States government securities within the meaning of Section 2(a)(16) of the Investment Company Act of 1940, having a maturity of 180 days or less, or in money

Table of Contents

market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940. The remaining net proceeds (not held in the Trust Account) may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses.

The Company, after signing a definitive agreement for the acquisition of a target business, will submit such transaction for stockholder approval. In the event that stockholders owning 20% or more of the shares sold in the Offering vote against the Business Combination and exercise their conversion rights described below, the Business Combination will not be consummated.

All of the Company's stockholders prior to the Offering, including all of the officers and directors of the Company (Initial Stockholders), have agreed to vote their 3,750,000 founding shares of common stock in accordance with the vote of the majority in interest of all other stockholders of the Company (Public Stockholders) with respect to any Business Combination. After consummation of a Business Combination, these voting safeguards will no longer be applicable.

With respect to a Business Combination which is approved and consummated, any Public Stockholder who voted against the Business Combination may demand that the Company convert their shares. The per share conversion price will equal the amount in the Trust Account, calculated as of two business days prior to the consummation of the proposed Business Combination, divided by the number of shares of common stock held by Public Stockholders at the consummation of the Offering. Accordingly, Public Stockholders holding 19.99% of the aggregate number of shares owned by all Public Stockholders may seek conversion of their shares in the event of a Business Combination. Such Public Stockholders are entitled to receive their per share interest in the Trust Account computed without regard to the shares held by Initial Stockholders. Accordingly, a portion of the net proceeds from the offering (19.99% of the amount held in the Trust Account) amounting to \$24,807,769 has been classified as common stock subject to possible conversion in the accompanying September 30, 2006 unaudited condensed balance sheet.

The Company's Certificate of Incorporation provides for mandatory liquidation of the Company in the event that the Company does not consummate a Business Combination within 18 months from the date of the consummation of the Offering, or 24 months from the consummation of the Offering if certain extension criteria have been satisfied. In the event of liquidation, it is likely that the per share value of the residual assets remaining available for distribution (including Trust Account assets) will be less than the initial public offering price per share in the Offering due to costs related to the Offering and since no value would be attributed to the Warrants contained in the Units sold.

Table of Contents

Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying condensed unaudited financial statements.

3. Commitment and Contingencies

The Company presently occupies office space provided by an affiliate of one of the Company's executive officers. Such affiliate has agreed that, until the acquisition of a target business by the Company, it will make such office space, as well as certain office and secretarial services, available to the Company, as may be required by the Company from time to time. The Company has agreed to pay such affiliate \$7,500 per month for such services commencing on December 15, 2005, the effective date of the Offering. The statement of operations for the quarter ended September 30, 2006 includes \$22,500 related to this agreement, whereas for July 22, 2005 (inception) to September 30, 2006, the statement of operations includes \$70,000 related to this agreement.

Pursuant to letter agreements with the Company and Ladenburg Thalmann & Co. Inc., the representative of the underwriters in the Offering (Representative), the Initial Stockholders have waived their rights to receive distributions with respect to their founding shares upon the Company's liquidation.

The Company's executive officers have agreed with the Representative that after consummation of the Offering and during the period beginning once separate trading of the Warrants has commenced and ending on December 31, 2006, they or certain of their affiliates or designees will collectively purchase up to 15,000,000 Warrants in the open market. The executive officers have committed to place limit orders on these Warrants at a price of \$0.80 per Warrant for the first three month period after separate trading of the Warrants commences, at a price of \$0.90 per Warrant during the second three month period after separate trading of the Warrants commences and at a price of \$1.00 per Warrant thereafter until December 31, 2006.

The Initial Stockholders are entitled to registration rights with respect to their founding shares pursuant to an agreement dated December 15, 2005. The holders of the majority of these shares are entitled to make up to two demands that the Company register these shares at any time commencing three months prior to the third anniversary of the effective date of the Offering. In addition, the Initial Stockholders have certain piggy-back registration rights on registration statements filed subsequent to the third anniversary of the effective date of the Offering.

The Company hired a consultant on July 17, 2006 to perform services through the later of June 15, 2007 if the Company has not announced an acquisition candidate within the initial 18 month period or December 15, 2007 if the Company has signed a letter of intent with a proposed acquisition candidate within the initial 18 month period. The Company will pay the consultant a base salary of \$125,000 per year and the

Table of Contents

Company will issue to the consultant 12,500 shares of the Company's common stock upon the closing of the initial business combination by the Company. The Company will also issue to the consultant an additional 12,500 shares of the Company's common stock six months after closing of the initial business combination by the Company.

4. Initial Public**Offering**

On December 21, 2005, the Company sold 15,000,000 units (Units) in the Offering at \$8.00 per Unit. On January 5, 2006, the Company sold an additional 1,160,745 Units which were subject to the underwriters over-allotment option. Each Unit consists of one share of the Company's common stock, \$.0001 par value, and one Redeemable Common Stock Purchase Warrant (Warrants). Each Warrant entitles the holder to purchase from the Company one share of common stock at an exercise price of \$6.00 commencing the later of the completion of a Business Combination or December 15, 2006 and expiring on December 14, 2009. The Warrants will be redeemable by the Company, at a price of \$.01 per Warrant upon 30 days notice after the Warrants become exercisable, only in the event that the last sale price of the common stock is at least \$11.50 per share for any 20 trading days within a 30 trading day period ending on the third day prior to the date on which notice of redemption is given. There is no cash settlement option for the Warrants. In connection with this Offering, the Company issued an option, for \$100, to the Representative to purchase 350,000 Units at an exercise price of \$10.00 per Unit. The Company has accounted for the fair value of the option, inclusive of the receipt of the \$100 cash payment, as an expense of the public offering resulting in a charge directly to stockholders' equity. The Company estimated that the fair value of this option is approximately \$703,500 (\$2.01 per Unit) using a Black-Scholes option-pricing model. The fair value of the option granted to the Representative is estimated as of the date of grant using the following assumptions: (1) expected volatility of 52.7%, (2) risk-free interest rate of 4.43%, (3) expected life of two years and 30 days and (4) dividend rate of zero. The option may be exercised for cash or on a cashless basis at the holder's option, such that the holder may use the appreciated value of the option (the difference between the exercise prices of the option and the underlying Warrants and the market price of the Units and underlying securities) to exercise the option without the payment of any cash. There is no cash settlement option for the underwriters' purchase options, or for the Warrants contained in the units to be purchased by the underwriters.

Table of Contents

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our Condensed Financial Statements and footnotes thereto contained in this report.

Forward Looking Statements

All statements other than statements of historical fact included in this Form 10-Q including, without limitation, statements under "Management's Discussion and Analysis or Plan of Operation" regarding our financial position, business strategy and the plans and objectives of management for future operations, are forward looking statements. When used in this Form 10-Q, words such as "anticipate," "believe," "estimate," "expect," "intend" and similar expressions, as they relate to us or our management, identify forward looking statements. Such forward looking statements are based on the beliefs of management, as well as assumptions made by, and information currently available to, our management. Actual results could differ materially from those contemplated by the forward looking statements as a result of certain factors detailed in our filings with the Securities and Exchange Commission. All subsequent written or oral forward looking statements attributable to us or persons acting on our behalf are qualified in their entirety by this paragraph.

Overview

We were formed on July 22, 2005, to serve as a vehicle to effect a merger, capital stock exchange, asset acquisition or other similar business combination with an operating business. We intend to utilize cash derived from the proceeds of our recently completed public offering, our capital stock, debt or a combination of cash, capital stock and debt, in effecting a business combination.

Results of Operations

For the three months ended September 30, 2006, we had a net income of \$997,309 consisting of \$1,031,673 of dividend income on the trust fund and a benefit for income tax of \$252,148 offset by \$286,512 of general, selling and administrative expenses. The Company reversed an over accrual of taxes of \$252,148 in the 3rd quarter resulting in an income tax benefit of \$252,148.

For the nine months ended September 30, 2006, we had a net income of \$2,192,356 consisting of \$2,897,916 of dividend income on the trust fund offset by \$705,560 of general, selling and administrative expenses.

For the period from July 22, 2005 (inception) to September 30, 2006, we had a net income of \$2,246,671 consisting of \$3,016,114 of dividend income on the trust fund offset by \$720,314 of general, selling and administrative expenses and \$49,129 of provision for income taxes.

Financial Condition and Liquidity

We consummated our initial public offering on December 21, 2005. On January 5, 2006, we consummated the closing of an additional 1,160,745 units which were subject to the over-allotment option. Gross proceeds from our initial public offering, including the over-allotment option, were \$129,285,860. We paid a total of \$6,205,726 in underwriting discounts and commissions and \$743,766 for other costs and expenses related to the offering and the over-allotment option. After deducting the underwriting discounts and commissions and the offering expenses, the total net proceeds to us from the offering were \$122,336,368, of which \$121,030,234 was deposited into the trust account and the remaining proceeds of

Table of Contents

\$1,306,134 became available to be used to provide for business, legal and accounting due diligence on prospective business combinations and continuing general and administrative expenses. We intend to use substantially all of the net proceeds of this offering to acquire a target business, including identifying and evaluating prospective acquisition candidates, selecting the target business, and structuring, negotiating and consummating the business combination. To the extent that our capital stock is used in whole or in part as consideration to effect a business combination, the proceeds held in the trust fund as well as any other net proceeds not expended will be used to finance the operations of the target business. We believe we will have sufficient available funds outside of the trust fund to operate through December 21, 2007, assuming that a business combination is not consummated during that time. From December 21, 2005 through December 21, 2007, we anticipate incurring approximately \$300,000 of expenses for legal, accounting and other expenses attendant to the due diligence investigations, structuring and negotiating of a business combination, \$300,000 of expenses for the due diligence and investigation of a target business, \$180,000 for the administrative fee payable to Ironbound Partners (\$7,500 per month for 24 months), \$80,000 of expenses in legal and accounting fees relating to our SEC reporting obligations and \$525,000 for general working capital that will be used for miscellaneous expenses and reserves, including approximately \$115,000 for director and officer liability insurance premiums. We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, we may need to raise additional funds through a private offering of debt or equity securities if such funds are required to consummate a business combination that is presented to us. We would only consummate such a financing simultaneously with the consummation of a business combination.

In connection with our initial public offering, we issued an option, for \$100, to Ladenburg Thalmann to purchase 350,000 units at an exercise price of \$10.00 per unit, with each unit consisting of one share of common stock and one warrant. We accounted for the fair value of the option, inclusive of the receipt of the \$100 cash payment, as an expense of the public offering resulting in a charge directly to stockholders' equity. We estimated that the fair value of this option was approximately \$703,500 (\$2.01 per unit) using a Black-Scholes option-pricing model. The fair value of the option granted to Ladenburg Thalmann was estimated as of the date of grant using the following assumptions: (1) expected volatility of 52.7%, (2) risk-free interest rate of 4.43%, (3) expected life of two years and 30 days and (4) dividend rate of zero. The option may be exercised for cash or on a cashless basis, at the holder's option, such that the holder may use the appreciated value of the option (the difference between the exercise prices of the option and the underlying warrants and the market price of the units and underlying securities) to exercise the option without the payment of any cash.

Commencing on December 15, 2005 and ending upon the acquisition of a target business, we began incurring a fee from Ironbound Partners Fund LLC, an affiliate of Jonathan J. Ledecy, our president and secretary, of \$7,500 per month for providing us with office space and certain general and administrative services. In addition, in July 2005, Jonathan J. Ledecy and Eric J. Watson, our chairman of the board and treasurer, advanced an aggregate of \$225,000 to us for payment on our behalf of offering expenses. These loans were repaid following our initial public offering from the proceeds of the offering.

The Company hired a consultant on July 17, 2006 to perform services through the later of June 15, 2007 if the Company has not announced an acquisition candidate within the initial 18 month period or December 15, 2007 if the Company has signed a letter of intent with a proposed acquisition candidate within the initial 18 month period. The Company will pay the consultant a base salary of \$125,000 per year and the Company will issue to the consultant 12,500 shares of the Company's common stock upon the closing of the initial business combination by the Company. The Company will also issue to the consultant an additional 12,500 shares of the Company's common stock six months after closing of the initial business combination by the Company.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in company reports filed or submitted under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in company reports filed or submitted under the Exchange Act is accumulated and communicated to management, including our chief executive officer and treasurer, as appropriate to allow timely decisions regarding required disclosure.

As required by Rules 13a-15 and 15d-15 under the Exchange Act, our president and treasurer carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2006. Based upon their evaluation, they concluded that our disclosure controls and procedures were effective.

Our internal control over financial reporting is a process designed by, or under the supervision of, our president and treasurer and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of our financial statements for external purposes in accordance with generally accepted accounting principles (United States). Internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of our financial statements in accordance with generally accepted accounting principles (United States), and that our receipts and expenditures are being made only in accordance with the authorization of our board of directors and management; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

During the most recently completed fiscal quarter, there has been no change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Limitations on the Effectiveness of Controls

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving its objectives. Our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective at that reasonable assurance level.

PART II

OTHER INFORMATION

ITEM 2: UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On December 21, 2005, we closed our initial public offering of 15,000,000 units with each unit consisting of one share of our common stock and one warrant, each to purchase one share of our common stock at an exercise price of \$6.00 per share. On January 5, 2006, we consummated the closing of an additional 1,160,745 units which were subject to the over-allotment option. The units from the initial public offering (including the over-allotment option) were sold at an offering price of \$8.00 per unit, generating total gross proceeds of \$129,285,860. Ladenburg Thalmann & Co. Inc. acted as lead manager for the initial public offering and Broadband Capital Management LLC acted as co-manager for the initial public offering. The securities sold in the offering were registered under the Securities Act of 1933 on a registration statement on Form S-1 (No. 333-128440). The Securities and Exchange Commission declared the registration statement effective on December 21, 2005.

We paid a total of \$6,205,726 in underwriting discounts and commissions and \$743,766 for other costs and expenses related to the offering and the over-allotment option.

After deducting the underwriting discounts and commissions and the offering expenses, the total net proceeds to us from the offering were \$122,336,368, of which \$121,030,234 was deposited into the trust account and the remaining proceeds of \$1,306,134 became available to be used to provide for business, legal and accounting due diligence on prospective business combinations and continuing general and administrative expenses.

For a description of the use of the proceeds generated in our initial public offering, see Part I, Item 2 of this Form 10-Q.
