Compensation Discussion And Analysis

Our Compensation Committee is comprised of independent members of the Board of Directors. The Compensation Committee's basic responsibility is to review the performance of our management in achieving corporate goals and objectives and to assure that our management is compensated effectively in a manner consistent with our compensation philosophy, competitive practice and the requirements of the appropriate regulatory bodies. Toward that end, the Compensation Committee oversees, reviews and administers all of our compensation, equity and employee benefit plans and programs.

Compensation Objectives

We believe that compensation of our executive officers should encourage creation of shareholder value and achievement of strategic corporate objectives. We attempt to align the interests of the Company's shareholders and management by integrating compensation with the Company's short-term and long-term corporate strategic and financial objectives. In order to attract and retain the most qualified personnel, the Company intends to offer a total compensation package competitive with companies in the pharmaceutical industries, taking into account relative company size, performance and geographic location as well as individual responsibilities and performance. However, we believe that, given the current challenges the Company faces, as well as the challenges it has faced recently, a standard compensation methodology is not appropriate for the Company. For example, the Compensation Committee has utilized, and will continue to utilize, performance-based incentives which are tied to key corporate goals critical to the Company's long-term success and viability.

The elements of compensation for executive officers include base salaries, annual cash incentives, long-term equity incentives, and perquisites as well as additional features which are available to most other employees, including a 401(k) plan, employee stock purchase plan, health and welfare insurance, life insurance,

some of which allocate payments generally based on an individual's level of annual cash compensation. Executives have substantial portions of their compensation at risk for annual and long-term performance, with the largest portion at risk for the most senior executives.

As described in Item 1a of our Annual Report on Form 10-K filed with the SEC on March 16, 2007, we have experienced certain financial difficulties. For example, we expect that our existing cash and cash equivalents will not be sufficient to fund our operations at current levels for the next 12 months and we have a substantial amount of debt. In light of our business situation, our compensation philosophy and objectives for fiscal 2007 will be adjusted to reflect the current environment in which we are operating and will be focused more heavily on retention of our senior management team through this challenging time while creating the foundation for value creation in the future. Our fiscal year 2007 philosophy and objectives will continue our trend of generally providing reduced or flat levels of cash compensation while increasing the equity compensation component of the compensation packages for our named executive officers.

Compensation Consultant

The Compensation Committee has the authority under its charter to hire experts in the field of executive compensation to assist it with its evaluation of CEO or executive officer compensation and other advisors to assist with other matters related to executive officer and director compensation. In early 2006, the Board of Directors engaged Frederic W. Cook & Co., Inc., an independent executive compensation consultant, to review the Company's non-employee director compensation arrangements. Based in part on this review and the advice provided to the Board of Directors by Frederic W. Cook, the non-employee director compensation was revised in February 2006 to adjust the cash and equity components of non-employee director compensation. The non-employee director compensation policy was again revised in April 2007 based in part on the advice of Milliman, Inc., who the Compensation Committee engaged in late 2006 to provide advice and input with respect to executive and director compensation policies and programs.

Milliman recommended a group of comparable companies that the Compensation Committee used as a reference when evaluating the Company's executive and director compensation policies and programs and for making specific recommendations regarding the Company's executive and director compensation policies, including, in the case of the Company's executive officers, salaries, equity ownership levels and requirements and other compensation issues and, in the case of the Company's directors, annual retainers, equity awards and other compensation issues.

Principal Elements of Compensation

Base Salaries. Base salary, including merit based salary increases, for the CEO and the other executive officers is established based on the underlying scope of their respective responsibilities, taking into account available compensation information for comparable companies in similar positions. Salary adjustments are based on competitive market salaries and general levels of market increases in salaries, individual performance, achievement of the Company's corporate and strategic goals and changes in job duties and responsibilities.

In light of the Company's current business situation, and consistent with its philosophy of providing reduced or flat levels of cash compensation while increasing equity awards during this challenging time, the Company has generally not provided the named executive officers with increases in base salary in recent years. In particular, the base salary for Dr. James Bianco, Mr. Louis Bianco and Dr. Jack Singer have remained unchanged since 2005. In addition, Dr. Stromatt's base salary increased roughly 1% from 2005 to 2006 and for fiscal year 2007 the Compensation Committee approved a raise of approximately 20% to Dr. Stromatt's base salary, as compared to fiscal year 2006, to bring his base salary up to approximately the 50th percentile for companies in our peer group. In connection with its annual review of base salaries, the Compensation Committee has determined to keep fiscal year 2007 base salaries unchanged for our named executive officers other than Dr. Stromatt.

In addition, pursuant to his employment agreement, dated as of January 1, 2005, which is filed as an exhibit to our Annual Report on Form 10-K, Dr. James Bianco's base salary was initially set at \$650,000 per year and remained unchanged for 2006 and 2007.

Annual Cash Incentive Compensation. Annual cash incentives for the executive officers and other key employees are designed to reward performance for achieving key corporate goals, which we believe in turn should increase shareholder value. The performance metrics against which the executives are measured are clearly communicated, measurable and consistently applied, and include corporate and individual goals. The annual incentive awards for executive officers are determined on the basis of management's achievement of specific performance goals established at the beginning of the fiscal year. In addition, pursuant to his employment agreement, Dr. James Bianco's target bonus opportunity under the Company's annual incentive compensation program was fixed at an amount no less than 50% of his base salary. For a discussion of annual cash incentive compensation paid to our named executive officers in fiscal year 2006 see "2006 Cash Bonuses" below.

Long-Term Equity Incentive Compensation. Generally, a significant stock option grant is made in the year that an executive officer commences employment. Thereafter, option grants may be made at varying times and in varying amounts at the discretion of the Compensation Committee or the Board of Directors. Upon hiring an executive officer, an option grant generally will be made at the first regularly scheduled meeting of the Compensation Committee or the Board of Directors after the officer commences employment. The size of each new hire or promotion stock option grant made to officers is generally set at a level that the Compensation Committee or the Board of Directors deems appropriate to create a meaningful opportunity for stock ownership based upon the grant guidelines and the individual's potential for future responsibility and promotion. The relative weight given to each of these factors will vary from individual to individual at the Compensation Committee's discretion and adjustments may be made as the Compensation Committee deems reasonable to attract candidates in the competitive environment for highly qualified employees in which the Company operates.

The exercise price of stock options is always equal to the fair market value (the closing price on Nasdaq) of the Company's common stock on the date of grant. Options granted pursuant to our equity incentive plans will provide a return to the employee only if he or she remains in the Company's service, and then only if the market price of the Company's common stock appreciates over the option term. Generally, stock options granted pursuant to our equity incentive plans vest 1/3 annually over a three-year period. Annual equity awards are granted and dated as of the date of the Compensation Committee or Board of Directors meeting at which the awards were made.

The Compensation Committee grants restricted stock, in addition to stock options, to our executives as long-term incentive compensation. The restricted stock grants are included as part of the annual compensation package and are also used in connection with incentive rewards designed to provide benefits to our executive officers only upon the successful accomplishment of critical corporate goals. The restricted stock grants normally vest over a two year period and are subject to automatic forfeiture if the executive leaves the Company prior to the vesting date or the achievement of the specified corporate goal. For a discussion of equity awards granted to our named executive officers in fiscal year 2006 see "2006 Equity Awards" below.

2006 Cash Incentive Bonuses. The Company established corporate and individual performance targets for its named executive officers in fiscal year 2006. In December 2006, the Compensation Committee determined that each of the named executive officers had achieved 80% of certain financial, product, corporate and business development performance targets and would be entitled to 80% of the target level of annual cash incentive compensation. In particular, Dr. James Bianco was awarded an annual bonus of \$260,000 pursuant to the achievement of individual and corporate goals in fiscal year 2006 (which amount was \$65,000 less than the target annual bonus set forth in Dr. James Bianco's employment agreement). In addition, in December 2006, Mr. Louis Bianco, Mr. Dan Eramian, Dr. Jack Singer and Dr. Scott Stromatt were awarded annual cash bonuses of \$79,200, \$62,176, \$81,600 and \$69,960, respectively, pursuant to achievement of individual and corporate goals in fiscal

year 2006. Consistent with the Company's compensation philosophy of providing reduced or flat cash compensation while increasing equity incentive compensation, the annual bonuses paid to our named executive officers in fiscal year 2006 were generally less than bonuses paid in recent years. The table below sets forth annual bonuses paid to our named executive officers for each of the past three years.

Name	Year	Annual Cash Bonus (\$)
James Bianco, M.D.	2006	260,000(1)

(1) Does not include the special cash bonus paid in July 2006 referred to below, which such bonus was based on the achievement of a significant corporate goal.

In addition to the annual cash incentive bonus referred to above, in July 2006 the Company paid Dr. James Bianco a cash bonus of \$125,000 in recognition of his special contributions in helping the Company meet certain mid-year product and regulatory objectives and approved an incentive bonus of \$125,000 payable only upon the closing of a material partnership deal with a pharmaceutical company on or before September 30, 2006 (which was paid in September 2006 as a result of the signing of the license and co-development agreement with Novartis International Pharmaceutical Ltd. on September 15, 2006). Taxes due with respect to bonuses paid to Dr. James Bianco in fiscal year 2006 were grossed up and the gross up amount was included in his compensation.

2006 Equity Awards. As discussed above, in light of the business environment and existing challenges facing it, the Company has generally been reducing or keeping unchanged annual cash compensation while increasing equity compensation. In implementing this part of the compensation policy, the Compensation Committee was cognizant of the key compensation goals for the Company, including (i) recognizing that the next one to three years will be extremely critical to the Company's future and shareholder value, (ii) taking into consideration present and projected trials, (iii) considering pipeline products and their status, (iv) the need for a retention plan for critical executives and for the CEO, (v) staying as close to the 75th percentile in total compensation as possible while still meeting the other compensation goals, and (vi) supplying a mechanism for motivating the CEO and the executive team during the upcoming critical time period.

In June 2006, consistent with the above mentioned goals, the Compensation Committee granted to each of Mr. Jade Brown, Mr. Louis Bianco, Mr. Dan Eramian, Dr. Jack Singer and Dr. Scott Stromatt an option to acquire 7,500 shares of our common stock, at an exercise price of \$5.68 per share. Such options were set to vest in full upon the close of a material partnership deal with a pharmaceutical company on or before September 30, 2006, subject to each optionee's continued service to the Company through such closing and the Compensation Committee's determination that such partnership deal is on terms that are in the best interest of the Company.

shareholders. As a result of the closing of the license and co-development agreement with Novartis International Pharmaceutical Ltd. on September 15, 2006, these options have vested in full.

In December 2006, after consulting with Milliman, its outside compensation consultant, the Compensation Committee approved the following restricted stock grants to the named executive officers, each of which will vest in full on December 22, 2008 subject to the relevant named executive officer remaining employed with the Company through December 22, 2008:

Name	Number of shares of Restricted Stock
Dr. James Bianco	80,645
Mr. Louis Bianco	24,193
Dr. Jack Singer	24,193
Mr. Dan Eramian	20,161
Dr. Scott Stromatt	20,161

In addition, in December 2006, the Compensation Committee made additional grants of restricted stock to the named executive officers tied to the Company's achievement of significant corporate goals. In particular, the Company identified the following three key corporate goals over the next three years: (A) approval from the FDA or EMEA for the sale of either Xyotax or pixantrone or any other drug currently owned or exclusively licensed by the Company, (B) approval from the FDA or EMEA of a second such drug and (C) the closing share price for the Company's common stock exceeding \$35.00 (as equitably adjusted for any stock split, stock dividend or similar adjustment in the Company's capitalization). In the event that one of the above-mentioned corporate goals is achieved prior to December 31, 2009, the following additional shares of restricted stock granted to the named executive officers in December 2006 would vest as of the date of the achievement of such corporate goal:

Name	Number of shares of Restricted Stock
Dr. James Bianco	80,645
Mr. Louis Bianco	24,193
Dr. Jack Singer	24,193
Mr. Dan Eramian	20,161
Dr. Scott Stromatt	20,161

In the event that two of the above-mentioned corporate goals are achieved prior to December 31, 2009, the following additional shares of restricted stock granted to the named executive officers in December 2006 would vest as of the date of the second to occur of the two corporate goals:

Name	Number of shares of Restricted Stock
Dr. James Bianco	40,322
Mr. Louis Bianco	12,096
Dr. Jack Singer	12,096
Mr. Dan Eramian	10,080
Dr. Scott Stromatt	10,080

Edgar Filing: CELL THERAPEUTICS INC - Form 10-K/A

In the event that all three of the above-mentioned corporate goals are achieved prior to December 31, 2009, the following additional shares of restricted stock granted to the named executive officers in December 2006 would vest as of the date of the last to occur of the three corporate goals:

Name	Number of shares of Restricted Stock
Dr. James Bianco	80,645
Mr. Louis Bianco	24,193
Dr. Jack Singer	24,193
Mr. Dan Eramian	20,161
Dr. Scott Stromatt	20,161

The restricted shares referred to in the three immediately preceding paragraphs above are also subject to a vesting ceiling and shall cease vesting, notwithstanding the achievement of any of the three corporate goals, if such additional vesting would cause the relevant named executive officer's aggregate ownership percentage of the Company's outstanding stock to exceed the ownership target established by the Company for each such named executive officer. The Company has established the following ownership targets for its named executive officers (reflected as a percentage of the Company's outstanding stock): Dr. James Bianco 2.5%, Mr. Louis Bianco 1.5%, Dr. Jack Singer 1.5%, Mr. Dan Eramian 1.0% and Dr. Scott Stromatt 1.0%. The restricted shares referred to above have not yet been issued because an amendment to the Company's 2003 Equity Incentive Plan (to increase the number of shares authorized for issuance under such plan), pursuant to which such shares will be issued, has not yet been approved by the Company's shareholders. The Company intends to seek the approval of its shareholders to amend the 2003 Equity Incentive Plan to increase the number of shares authorized for issuance under such plan at its Annual Meeting of Shareholders to be held later this year.

Benefits. The named executive officers are entitled to participate in the Company's benefit programs which are available to all Company employees, including company-sponsored health, welfare, 401(k), and employee stock purchase plans. The Company also paid for health and life insurance premiums for the named executive officers in the following amounts: \$20,020 for Dr. James Bianco, \$7,326 for Mr. Louis Bianco, \$26,934 for Dr. Jack Singer, \$810 for Dr. Scott Stromatt, \$324 for Mr. Jade Brown and \$1,742 for Mr. Dan Eramian. In addition, the Company paid \$116,287 in executive relocation expenses for Mr. Dan Eramian pursuant to its written moving and relocation policy.

Perquisites. The named executive officers receive certain perquisites provided by or paid for by the Company. For example, in fiscal year 2006, Dr. James Bianco used aircraft chartered by the Company for business use pursuant to our Corporate Travel Policy referred to below. On occasion, Dr. James Bianco's spouse or another family member accompanied him on chartered flights provided by the Company. In fiscal year 2006, we determined that the aggregate incremental cost of the chartered aircraft for Dr. James Bianco's family members accompanying him while traveling for business with other named executive officers and employees was approximately \$219,832. The Company also provided tax gross-up payments to its named executive officers in fiscal year 2006. The Company provided tax gross-up payments of \$146,320 to Dr. James Bianco (for reimbursement of taxes arising from bonuses paid, tax preparation fees, health club dues and insurance premiums), \$3,429 to Mr. Louis Bianco, \$9,375 to Dr. Jack Singer and \$290 to Dr. Scott Stromatt (in each case, for reimbursement of taxes arising from tax preparation assistance and/or insurance premiums) and \$6,547 to Mr. Dan Eramian (for reimbursement of taxes arising from tax preparation assistance, relocation expenses and gifts). In addition, in fiscal year 2006, the Company paid \$2,650 for Dr. James Bianco, \$3,451, for Mr. Louis Bianco, \$600 for Mr. Dan Eramian, \$2,700 for Dr. Jack Singer and \$795 for Dr. Scott Stromatt for tax preparation assistance. In addition, in fiscal year 2006, the Company paid \$6,985 for Dr. James Bianco's health club membership and \$7,050 for personal travel expenses.

Corporate Travel Policy. To best utilize the time of executive officers and members of management as well as due to potential security concerns, we occasionally charter aircraft for use by our executives, members of

management and their family members in connection with business travel. To comply with applicable laws and prevent any abuse of chartered aircraft, we have instituted a Corporate Travel Policy. The policy sets forth the detailed procedures related to business travel by Company employees. Pursuant to the policy, chartered aircraft use is available to employees, solely at the discretion of the Company's Chief Executive Officer, so long as a bona fide business justification for the use of chartered aircraft is provided. In 2006, certain of our named executive officers and employees, in compliance with the Corporate Travel Policy, occasionally used a chartered aircraft for business related activities.

Post-Termination Protection and Payments

In April 2005, the Compensation Committee approved a form of strategic management team severance agreement (*Severance Agreement*) which our executive officers other than Dr. James Bianco have entered into. The Severance Agreements replaced existing severance agreements certain of the Company's executive officers had previously entered into with the Company. The Severance Agreements provide that in the event an executive officer is discharged from employment by the Company without cause or resigns for good reason (including upon a change of control) (each as defined in the Severance Agreements), he or she will be entitled to receive (i) acceleration of all then existing unvested stock based compensation (options shall remain exercisable for a period of twenty-one months following the severance date), (ii) severance pay based on the executive officer's base salary in effect immediately prior to the severance date for a period of eighteen months, (iii) bonus pay equal to the greater of the average of the three prior years' bonuses or 30% of base salary, (iv) continuation of or reimbursement for certain health benefits for a period of up to eighteen months, and (v) all accrued but unused vacation and certain other benefits for a severance period of eighteen months. The Severance Agreements further provide that if the executive officer is discharged from employment by the Company for cause, as a result of death or disability, or resigns without good reason, the executive officer is entitled only to (i) his base salary through and including the severance date and (ii) pay for all accrued but unused vacation as of the severance date. Under the Severance Agreements, if any severance payments are subject to the excise tax on parachute payments, the Company will make a gross up payment in an amount that covers the excise tax due plus the excise and income taxes payable on the gross up payment. The severance payments are conditioned upon the executive not breaching his or her inventions and proprietary information agreement with the Company.

Dr. James Bianco entered into an employment agreement with us effective January 1, 2005, superseding the agreement he had with us effective December 31, 2002. Pursuant to the employment agreement, if Dr. Bianco is terminated without cause or if he resigns for good reason (each, as defined in his employment agreement), he will receive (i) at his choice either (x) a lump sum payment representing two years of his salary based on a 6% discount factor, or (y) continuing payments of severance pay at a rate equal to his monthly base salary rate, as then in effect, plus his most recent annual cash bonus continuation, for a period of eighteen (18) months from the date of such termination, (ii) full vesting of outstanding unvested stock options which shall become exercisable for a period of two (2) years following the date on which they vest, subject to the terms of the applicable award agreements, and full vesting of outstanding unvested or restricted stock, (iii) continuation of health benefits for the severance period not to exceed two (2) years following termination, and (iv) all accrued but unused vacation. In the event of a change of control and Dr. Bianco is terminated without cause or resigns for good reason, Dr. Bianco will receive the following severance benefits: (i) a lump sum payment equal to two (2) years of his base salary plus his most recent annual cash bonus, (ii) full vesting of outstanding unvested stock options which shall become exercisable for a period of two (2) years following the date on which they vest, and full vesting of outstanding unvested or restricted stock, (iii) continuation of health benefits for two (2) years, and (iv) all accrued but unused vacation. The employment agreement restricts Dr. Bianco from competing with us for the term of the severance payment period following the termination of his employment with us. In addition, the severance payments are conditioned upon Dr. Bianco not competing with us and not soliciting our employees. The agreement further provides that, if any payments are subject to the excise tax on parachute payments, we will make a gross up payment in an amount that covers the excise tax due plus the excise and income taxes payable on the gross up payment.

The Compensation Committee believes the Severance Agreements and Dr. James Bianco's employment agreement are important to protect the Company's officers from any involuntary termination associated with a change of control and that the acceleration of vesting provided in such agreements is reasonable when compared with similar arrangements adopted by other companies in the pharmaceutical industry. With these agreements, the Compensation Committee sought uniformity of results among the executive officers based on their positions at the Company.

Under the Company's 2003 Equity Incentive Plan, in the event of a change in control all awards granted pursuant to this plan generally become fully exercisable. Further, all restrictions and conditions on any award then outstanding shall lapse as of the date of the change in control. Under the Company's 1996 Employee Stock Purchase Plan, in the event of a change in control, the Board or a committee created by the Board, in its sole discretion, shall either (a) provide that options granted under this plan shall be fully exercisable to the extent of each optionee's accumulated withholdings for the respective offering period (as defined in the 1996 Employee Stock Purchase Plan) as of a date prior to the change in control or (b) arrange with the surviving, continuing, successor or purchasing corporation, as the case may be, that such corporation assume the Company's rights and obligations under this plan. Under the Company's 1994 Equity Incentive Plan, in the event of a change in control (a) all options granted (including options granted to officers or directors less than six months prior to any such change in control) generally become fully exercisable; and (b) all restrictions and conditions of all bonus shares then outstanding shall lapse as of the date of the change in control. The Company's directors and executive officers participate in the Company's 2003 Equity Incentive Plan and 1994 Equity Incentive Plan and have outstanding awards which have been issued pursuant to such plans. The Company's executive officers participate in the Company's 1996 Employee Stock Purchase Plan and have outstanding awards which have been issued pursuant to such plan.

Tax Deductibility of Pay

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Tax Code), places a limit of \$1,000,000 on the amount of compensation that the Company may deduct in any one year with respect to each of its five most highly paid executive officers. There is an exception to the \$1,000,000 limitation for performance-based compensation meeting certain requirements. To qualify for an exemption from the \$1,000,000 limitation, the shareholders were asked to approve a limit under stock incentive plans on the maximum number of shares for which a participant may be granted stock options in any calendar year. Because our stock incentive plans and option grants under our stock incentive plans comply with the applicable requirements for this exemption, any compensation deemed paid to a named executive officer when he or she exercises an option with an exercise price that is at least equal to the fair market value of the option shares on the grant date should qualify as performance-based compensation and should not be subject to the \$1 million deduction limitation. The Compensation Committee may approve compensation or changes to plans, programs or awards that may cause the compensation or awards not to comply with Section 162(m) if it determines that such action is appropriate and in the Company's best interests.

Summary

The Compensation Committee believes that the Company's compensation philosophy and programs are designed to foster a performance-oriented culture that aligns employees' interests with those of the Company's shareholders. The Compensation Committee believes that the compensation of the Company's executives is both appropriate and responsive to the goal of improving shareholder value.

Item 13. Certain Relationships and Related Transactions, and Director Independence
Related Party Transactions

Pursuant to our Code of Business Conduct and Ethics and our Amended and Restated Charter for the Audit Committee of the Board of Directors of Cell Therapeutics, Inc., any potential related party transaction must be fully disclosed to our Chief Financial Officer. Upon review, if our Chief Financial Officer determines that the transaction is material to the Company, then the Company's Audit Committee must review and approve in writing in advance such related party transaction. Item 404(a) of Regulation S-K requires the company to disclose in its proxy statement any transaction involving more than \$120,000 in which the Company is a participant and in which any related person has or will have a direct or indirect material interest. A related person is any executive officer, director, nominee for director, or holder of 5% or more of the Company's common stock, or an immediate family member of any of those persons.

Since January 1, 2006, the Company has not been a participant in any transaction with a related person other than those described below.

In November 2002, we entered into a two-year Sponsored Research Agreement with the Hope Heart Institute, a non-profit corporation, to perform research specified by us and reviewed by a joint research committee comprised of individuals from our company and from the Hope Heart Institute. In addition to monthly payments, we granted a fully vested warrant to the Hope Heart Institute to purchase 25,000 shares of our common stock at a purchase price of \$40.00 per share. Dr. Nudelman is the President, Chief Executive Officer and a member of the board of directors of The Hope Heart Institute. Dr. Singer was a member of the Scientific Advisory Board of The Hope Heart Institute in 2002. In 2004, we terminated the Sponsored Research Agreement with the Hope Heart Institute. We made charitable contributions of \$24,000 in 2005 and \$6,500 in 2006 to the Hope Heart Institute.

In December 2004, we entered into a licensing agreement with DiaKine Therapeutics, Inc., or DiaKine, for the development and commercialization of Lisofylline. We received an upfront payment of \$250,000 in 2004 and additional payments of \$427,000 in 2005. In 2006, we received no payment from DiaKine. As part of the agreement, Jack W. Singer, M.D., agreed to join the board of directors of DiaKine. Dr. Singer is not currently compensated for his service on the DiaKine board of directors.

Director Independence

The Board of Directors has adopted standards concerning director independence which meet the independence standards of the Nasdaq Stock Market and, with respect to the Audit Committee, the rules of the Securities and Exchange Commission.

The Company, the Nominating and Governance Committee and the Board of Directors are involved in the process for determining the independence of acting directors and director nominees. The Company solicits relevant information from directors and director nominees via a questionnaire, which covers material relationships, compensatory arrangements, employment and any affiliation with the Company. In addition to reviewing information provided in the questionnaire, the Company asks the Company's executive officers on an annual basis regarding their awareness of any existing or currently proposed transactions, arrangements or understandings involving the Company in which any director or director nominee has or will have a direct or indirect material interest. The Company shares its findings with the Nominating and Governance Committee and the Board of Directors regarding the Nasdaq Stock Market and SEC independence requirements and any information regarding the director or director nominee that suggest that such individual is not independent. The Board of Directors discusses all relevant issues, including consideration of any transactions, relationships or arrangements which are not required to be disclosed under Item 404(a) of Regulation S-K, prior to making a determination with respect to the independence of each director.

Based on the review described above, the Board of Directors affirmatively determined that:

A majority of the directors are independent, and all members of the Audit, Compensation and Nominating and Governance Committees are independent, under the Nasdaq standard and, in the case of the Audit Committee, the SEC standard.

All of the non-management directors of the Company are independent under the Nasdaq standard. The independent directors are: John H. Bauer, Vartan Gregorian, Ph.D, Mary O. Mundinger, Dr. PH, Phillip M. Nudelman, Ph.D., and Frederick W. Telling, Ph.D.

James A. Bianco and Jack W. Singer, M.D are not independent by virtue of their positions as President and Chief Executive Officer of the Company and Executive Vice President, Chief Medical Officer, respectively.

Other than as described above, in 2006, there were no transactions, relationships or arrangements not disclosed as related person transactions that were considered by the Board of Directors in determining that the applicable independence standards were met by each of the directors.
