THE WALT DISNEY COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited; tabular dollars in millions, except for per share data)

1. Principles of Consolidation

These Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and the instructions to Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, normal recurring adjustments considered necessary for a fair presentation have been reflected in these Condensed Consolidated Financial Statements. Operating results for the quarter and six months ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ending September 29, 2007.

These financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended September 30, 2006.

In December 1999, DVD Financing, Inc. (DFI), a subsidiary of Disney Vacation Development, Inc. and an indirect subsidiary of the Company, completed a receivables sale transaction which established a facility that permits DFI to sell receivables arising from the sale of vacation club memberships on a periodic basis. In connection with this facility, DFI prepares separate financial statements, although its separate assets and liabilities are also consolidated in these financial statements.

The terms Company, we, us, and our are used in this report to refer collectively to the parent company and the subsidiaries through which our various businesses are actually conducted.

2. Segment Information

The operating segments reported below are the segments of the Company for which separate financial information is available and for which segment results are evaluated regularly by the Chief Executive Officer in deciding how to allocate resources and in assessing performance. The Company reports the performance of its operating segments including equity in the income of investees, which consists primarily of cable businesses included in the Media Networks segment.

	Quarter Ended		Six Months Ended	
	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006
Revenues ⁽¹⁾ :				
Media Networks	\$ 3,561	\$ 3,551	\$ 7,472	\$ 7,225
Parks and Resorts	2,446	2,251	4,935	4,653
Studio Entertainment	1,550	1,774	4,183	3,819
Consumer Products	516	451	1,208	1,184
	\$ 8,073	\$ 8,027	\$ 17,798	\$ 16,881
Segment operating income ⁽¹⁾ :				
Media Networks	\$ 1,175	\$ 969	\$ 1,925	\$ 1,575

Income before income taxes and minority interests	\$ 1,524	\$ 1,149	\$ 4,256	\$ 2,328

3. *Acquisitions and Dispositions*

Fiscal Year 2007

On February 1, 2007, the Company acquired all the outstanding shares of NASN Limited, an Irish company that operates cable television networks in Europe dedicated to North American sporting events and related programming, for cash consideration and debt assumption totaling \$112 million. We are currently in the process of finalizing the valuation of the assets acquired and liabilities assumed.

On November 21, 2006, in connection with the execution of new long-term agreements for the provision of programming to cable service provider Comcast Corporation (Comcast), the Company sold its 39.5% interest in E! Entertainment Television (E!) to Comcast (which owned the remainder of the interest in E!) for \$1.23 billion, which resulted in a pre-tax gain of \$780 million (\$487 million after-tax). On October 2, 2006, the Company sold its 50% stake in Us Weekly for \$300 million, which resulted in a pre-tax gain of \$272 million (\$170 million after-tax). These gains are reported in Gains on sales of equity investments and business in the Condensed Consolidated Statements of Income.

On February 6, 2006, the Company and Citadel Broadcasting Corporation (Citadel) announced an agreement to merge the ABC Radio business, which consists of 22 of the Company's owned radio stations and the ABC Radio Network, with Citadel. The ESPN Radio and Radio Disney networks and station businesses are not included in the transaction. The merger is expected to occur after the ABC Radio business is distributed to Disney shareholders (the Distribution), which is expected to be completed through a spin-off. The agreement was subsequently amended on November 19, 2006. Under the amended terms, (i) Disney's shareholders are expected to collectively receive approximately 57% of Citadel's common stock post-merger, and (ii) the Company expects to retain between \$1.10 billion and \$1.35 billion in cash, depending upon the market price of Citadel's common stock over a measurement period ending prior to the closing. This cash will be obtained from loan proceeds raised by ABC Radio from third-party lenders prior to the Distribution. If the market price of Citadel's common stock over the measurement period were the same as Citadel's stock price on May 4, 2007, the Company estimates the aggregate value of the retained cash and Citadel common stock to be received by Disney shareholders would be approximately \$2.4 billion. The amended agreement provides that the closing will occur no earlier than May 31, 2007, unless Citadel elects to close at an earlier date subject to closing conditions within the merger agreement. The closing is also subject to regulatory approvals, and that either party may terminate the agreement if the closing does not occur by June 15, 2007. Once the Distribution has occurred, the Company will report the results of the ABC Radio business for the current and prior periods separately as discontinued operations. The Company expects that there will be no gain or loss on distribution. As of March 31, 2007, the net assets of the ABC Radio business were approximately \$1.4 billion.

THE WALT DISNEY COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited; tabular dollars in millions, except for per share data)

Fiscal Year 2006

On November 23, 2005, the Company sold a cable television equity investment in Spain, which resulted in a pre-tax gain of \$57 million. In addition, on October 7, 2005, the Company sold its Discover Magazine business, which resulted in a pre-tax gain of \$13 million. These gains are reported in Gains on sales of equity investments and business in the Condensed Consolidated Statements of Income.

4. Borrowings

During the six months ended March 31, 2007, the Company's borrowing activity was as follows:

	September 30, 2006	Additions	Payments	Other Activity	March 31, 2007
Commercial paper borrowings	\$ 839	\$ 134	\$	\$	\$ 973
U.S. medium-term notes	6,499		(750)		5,749
Convertible senior notes	1,323				1,323
Other U.S. dollar denominated debt	305		(305)		
Privately placed debt	54		(54)		
European medium-term notes	191				191
Preferred stock	353			(5)	348
Capital Cities/ABC debt	183			(1)	182
Film financing	276	184	(132)		328
Other	260	2	(19)	(21)	222
Euro Disney borrowings ⁽¹⁾	2,172			134	2,306
Hong Kong Disneyland borrowings	1,070			(3)	1,067
Total	\$ 13,525	\$ 320	\$ (1,260)	\$ 104	\$ 12,689

⁽¹⁾ Other activity included a \$108 million increase from foreign currency translations as a result of the weakening of the U.S. dollar against the Euro.

5. Euro Disney and Hong Kong Disneyland

The Company consolidates Euro Disney and Hong Kong Disneyland and has effective ownership of 51% and 43%, respectively. The following tables set out the impact of consolidating Euro Disney and Hong Kong Disneyland.

THE WALT DISNEY COMPANY

THE WALT DISNEY COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited; tabular dollars in millions, except for per share data)

The following table presents a condensed consolidating cash flow statement of the Company for the six months ended March 31, 2007, reflecting the impact of consolidating the cash flow statements of Euro Disney and Hong Kong Disneyland.

	Before Euro Disney and Hong Kong Disneyland Consolidation	Euro Disney, Hong Kong Disneyland and Adjustments	Total
Cash provided (used) by operations	\$ 2,764	\$ (4)	\$ 2,760
Investments in parks, resorts and other property	(419)	(127)	(546)
Other investing activities	1,496		1,496
Cash used by financing activities	(3,939)		(3,939)
Decrease in cash and cash equivalents	(98)	(131)	(229)
Cash and cash equivalents, beginning of period	1,812	599	2,411
Cash and cash equivalents, end of period	\$ 1,714	\$ 468	\$ 2,182

6. Pension and Other Benefit Programs

The components of net periodic benefit cost are as follows:

	Pension Plans				Postretirement Medical Plans			
	Quarter Ended		Six Months Ended		Quarter Ended		Six Months Ended	
	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006
Service cost	\$ 42	\$ 46	\$ 84	\$ 92	\$ 6	\$ 8	\$ 12	\$ 16
Interest cost	74	56	148	112	15	15	30	30
Expected return on plan assets	(76)	(52)	(152)	(104)	(5)	(4)	(10)	(8)
Recognized net actuarial loss	13	35	26	70		11		22
Net periodic benefit cost	\$ 53	\$ 85	\$ 106	\$ 170	\$ 16	\$ 30	\$ 32	\$ 60

During the six months ended March 31, 2007, the Company made contributions of \$51 million into its pension and postretirement medical plans. The Company currently does not anticipate making any material contributions to its pension and postretirement medical plans during the remaining six months of fiscal 2007 but may make additional contributions in fiscal 2007 depending on how the funded status of the plans change and as we gain more clarity with respect to the Pension Protection Act of 2006 (PPA) that was signed into law on August 17, 2006. The United States Treasury Department is in the process of developing implementation guidance for the PPA; however, it is likely the PPA will accelerate minimum funding requirements beginning in fiscal 2009. The Company may choose to pre-fund some of this anticipated funding.

THE WALT DISNEY COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited; tabular dollars in millions, except for per share data)

7. Earnings Per Share

Diluted earnings per share amounts are based upon the weighted average number of common and common equivalent shares outstanding during the period and are calculated using the treasury stock method for equity-based compensation awards and assuming conversion of the Company's convertible senior notes. For the quarters ended March 31, 2007 and April 1, 2006, options for 16 million and 93 million shares, respectively, were excluded from the diluted earnings per share calculation as they were anti-dilutive. A reconciliation of net income and weighted average number of common and common equivalent shares outstanding for calculating diluted earnings per share is as follows:

	Quarter Ended		Six Months Ended	
	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006
Net income	\$ 931	\$ 733	\$ 2,632	\$ 1,467
Interest expense on convertible senior notes (net of tax)	6	6	11	11
	\$ 937	\$ 739	\$ 2,643	\$ 1,478

Shares (in millions):

Weighted average number of common shares outstanding (basic)	2,039	1,924	2,049	1,932
Weighted average dilutive impact of equity-based compensation awards	45	21	44	17
Assumed conversion of convertible senior notes	45	45	45	45
Weighted average number of common and common equivalent shares outstanding (diluted)	2,129	1,990	2,138	1,994

8. Shareholders Equity

The Company declared a \$637 million dividend (\$0.31 per share) on November 28, 2006 related to fiscal 2006, which was paid on January 12, 2007 to shareholders of record on December 15, 2006. The Company paid a \$519 million dividend (\$0.27 per share) during the second quarter of fiscal 2006 related to fiscal 2005.

During the first six months of fiscal 2007, the Company repurchased 96 million shares for approximately \$3.3 billion, of which 67 million shares for \$2.3 billion were purchased in the second quarter. On May 1, 2007, the Board of Directors of the Company increased the share repurchase authorization to a total of 400 million shares. The repurchase program does not have an expiration date.

The Company received proceeds of \$897 million from the exercise of 39 million stock options during the first six months of fiscal 2007.

The Company also has 1.0 billion shares of Internet Group Stock at \$.01 par value authorized. No shares are issued or outstanding.

9. Comprehensive Income

Edgar Filing: WALT DISNEY CO/ - Form 10-Q

Comprehensive income (loss), net of tax, is as follows:

	Quarter Ended		Six Months Ended	
	March 31,	April 1,	March 31,	April 1,
	2007	2006	2007	2006
Net income	\$ 931	\$ 733	\$ 2,632	\$ 1,467
Market value adjustments for investments and hedges	(4)		(16)	37
Foreign currency translation and other	13	2	40	(42)
Comprehensive income	\$ 940	\$ 735	\$ 2,656	\$ 1,462

THE WALT DISNEY COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited; tabular dollars in millions, except for per share data)

Accumulated other comprehensive income (loss), net of tax, is as follows:

	March 31, 2007	Sept. 30, 2006
Market value adjustments for investments and hedges	\$ 13	\$ 29
Foreign currency translation	127	87
Additional minimum pension liability adjustment	(124)	(124)
Accumulated other comprehensive income (loss)	\$ 16	\$ (8)

10. *Equity-Based Compensation*

The impact of stock options and restricted stock units (RSUs) on pre-tax income is as follows:

	Quarter Ended		Six Months Ended	
	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006
Stock option compensation expense	\$ 57	\$ 63	\$ 111	\$ 121
RSU compensation expense	37	33	71	66
	94	96	182	187
Equity-based compensation plan modification charge			48	
Total equity-based compensation expense	\$ 94	\$ 96	\$ 230	\$ 187

Unrecognized compensation cost related to unvested stock options and RSUs totaled approximately \$570 million and \$438 million, respectively, as of March 31, 2007.

On January 10, 2007, the Company made its regular annual stock compensation grant which consisted of 22 million stock options and 8 million RSUs, of which 1 million RSUs included market-based performance conditions.

The weighted average fair values of options at their grant date during the six months ended March 31, 2007 and April 1, 2006 were \$9.24 and \$7.12, respectively.

In anticipation of the ABC Radio transaction, the Company needed to determine whether employee equity-based compensation awards would be adjusted for the dilutive impact of the transaction on the employee awards. Certain of the Company's plans required such adjustments to be made on an equitable basis. All other plans permitted such adjustments to be made. In order to treat all employees consistently with respect to the ABC Radio transaction (and other similar future transactions), the Company amended the plans such that all plans require equitable adjustments for such transactions. In connection with these amendments, the Company was required to record a non-cash charge of \$48 million in the first quarter of fiscal 2007 representing the estimated fair value of this modification with respect to vested equity-based employee compensation awards. The estimated fair value of the modification with respect to unvested awards remaining at March 31, 2007 is \$21 million and will be

expensed over the vesting period of these awards.

11. Commitments and Contingencies

The Company has exposure to various legal and other contingencies arising from the conduct of its businesses.

Legal Matters

Milne and Disney Enterprises, Inc. v. Stephen Slesinger, Inc. On November 5, 2002, Clare Milne, the granddaughter of A. A. Milne, author of the Winnie the Pooh books, and the Company's subsidiary Disney Enterprises, Inc. (DEI) filed a complaint against Stephen Slesinger, Inc. (SSI) in the United States District Court for the Central District of

THE WALT DISNEY COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited; tabular dollars in millions, except for per share data)

California. On November 4, 2002, Ms. Milne served notices to SSI and DEI terminating A. A. Milne's prior grant of rights to Winnie the Pooh, effective November 5, 2004, and granted all of those rights to DEI. In their lawsuit, Ms. Milne and DEI sought a declaratory judgment, under United States copyright law, that Ms. Milne's termination notices were valid; that SSI's rights to Winnie the Pooh in the United States terminated effective November 5, 2004; that upon termination of SSI's rights in the United States, the 1983 licensing agreement that is the subject of the *Stephen Slesinger, Inc. v. The Walt Disney Company* lawsuit terminated by operation of law; and that, as of November 5, 2004, SSI was entitled to no further royalties for uses of Winnie the Pooh. SSI filed (a) an answer denying the material allegations of the complaint and (b) counterclaims seeking a declaration that (i) Ms. Milne's grant of rights to DEI is void and unenforceable and (ii) DEI remains obligated to pay SSI royalties under the 1983 licensing agreement. The District Court ruled that Milne's termination notices were invalid. The Court of Appeals for the Ninth Circuit affirmed, and on June 26, 2006, the United States Supreme Court denied Milne's petition for a writ of certiorari. On June 23, 2003, SSI filed an amended answer and counterclaims and a third-party complaint against Harriet Hunt (heir to E. H. Shepard, illustrator of the original Winnie the Pooh stories), who had served a notice of termination and a grant of rights similar to Ms. Milne's, and asserted counterclaims against the Company allegedly arising from the Milne and Hunt terminations and the grant of rights to DEI for (a) unlawful and unfair business practices; and (b) breach of the 1983 licensing agreement.

On October 19, 2006, the parties stipulated to SSI's filing its Fourth Amended Answer and Counterclaims (Fourth Amended Answer) seeking (a) to invalidate the Hunt termination notice, (b) to terminate the Company's rights vis-à-vis SSI, and (c) damages in excess of two billion dollars, among other relief. That stipulation also provided that Hunt and the Company need not respond to the Fourth Amended Answer until the conclusion of two events: the state court appeal in *Stephen Slesinger, Inc. v. The Walt Disney Company*, and the trial in the District Court on the validity of the Hunt termination notice. SSI then sought to withdraw both the Fourth Amended Answer and its stipulation, but on November 3, 2006, the District Court denied that request. SSI's motion for summary judgment on the validity of Hunt's 2002 attempt to recapture E. H. Shepard's rights was granted on February 15, 2007, and thereafter, on March 27, 2007, the District Court dismissed as moot all claims against Hunt and three of SSI's counterclaims against the Company related to the Company's agreements with Milne and Hunt concerning the termination and disposition of their rights. In a related development, on January 23, 2007, the Company received notice of a petition by SSI in the United States Patent and Trademark Office seeking, among other things, cancellation of certain Pooh trademark registrations, relief that is effectively duplicative of that sought in the Fourth Amended Answer and, on that ground on February 27, 2007, the Patent and Trademark office granted the Company's request to suspend the proceeding.

Stephen Slesinger, Inc. v. The Walt Disney Company. In this lawsuit, filed on February 27, 1991 in the Los Angeles County Superior Court, the plaintiff claims that a Company subsidiary defrauded it and breached a 1983 licensing agreement with respect to certain Winnie the Pooh properties, by failing to account for and pay royalties on revenues earned from the sale of Winnie the Pooh movies on videocassette and from the exploitation of Winnie the Pooh merchandising rights. The plaintiff seeks damages for the licensee's alleged breaches as well as confirmation of the plaintiff's interpretation of the licensing agreement with respect to future activities. The plaintiff also seeks the right to terminate the agreement on the basis of the alleged breaches. If each of the plaintiff's claims were to be confirmed in a final judgment, damages as argued by the plaintiff could total as much as several hundred million dollars and adversely impact the value to the Company of any future exploitation of the licensed rights. On March 29, 2004, the Court granted the Company's motion for terminating sanctions against the plaintiff for a host of discovery abuses, including the withholding, alteration, and theft of documents and other information, and, on April 5, 2004, dismissed plaintiff's case with prejudice. Plaintiff's subsequent attempts to disqualify the judge who granted the terminating sanctions were denied in 2004, and its motion for a new trial was denied on January 26, 2005, allowing plaintiff to proceed with its noticed appeal from the April 5, 2004, order of dismissal. Argument of the appeal has not been scheduled.

Management believes that it is not currently possible to estimate the impact, if any, that the ultimate resolution of these matters will have on the Company's results of operations, financial position or cash flows.

THE WALT DISNEY COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited; tabular dollars in millions, except for per share data)

The Company, together with, in some instances, certain of its directors and officers, is a defendant or co-defendant in various other legal actions involving copyright, breach of contract and various other claims incident to the conduct of its businesses. Management does not expect the Company to suffer any material liability by reason of such actions.

Contractual Guarantees

The Company has guaranteed certain special assessment and water/sewer revenue bonds issued by the Celebration Community Development District and the Enterprise Community Development District (collectively, the Districts). The bond proceeds were used by the Districts to finance the construction of infrastructure improvements and the water and sewer system in the mixed-use, residential community of Celebration, Florida. As of March 31, 2007, the remaining debt service obligation guaranteed by the Company was \$69 million, of which \$45 million was principal. The Company is responsible for satisfying any shortfalls in debt service payments, debt service and maintenance reserve funds, and for ensuring compliance with specified rate covenants. To the extent that the Company has to fund payments under its guarantees, the Districts have an obligation to reimburse the Company from future District revenues.

The Company has also guaranteed certain bond issuances by the Anaheim Public Authority that were used by the City of Anaheim to finance construction of infrastructure and a public parking facility adjacent to the Disneyland Resort. Revenues from sales, occupancy and property taxes from the Disneyland Resort and non-Disney hotels are used by the City of Anaheim to repay the bonds. In the event of a debt service shortfall, the Company is responsible for satisfying the shortfall. As of March 31, 2007, the remaining debt service obligation guaranteed by the Company was \$389 million, of which \$104 million was principal. To the extent that subsequent tax revenues exceed the debt service payments in subsequent periods, the Company would be reimbursed for any shortfalls it funded.

To date, tax revenues have exceeded the debt service payments for both the Celebration and Anaheim bonds.

ESPN STAR Sports, a joint-venture in which ESPN owns a 50% equity interest, has an agreement for global programming rights to International Cricket Council Events from 2007 through 2015. Under the terms of the agreement, ESPN and the other joint-venture partner have jointly guaranteed the programming rights obligation totaling \$1.0 billion over the remaining term of the agreement.

12. Income Taxes

As a matter of course, the Company is regularly audited by federal, state and foreign tax authorities. From time to time, these audits result in proposed assessments. The Company believes that its tax positions comply with applicable tax law, and it has adequately provided for any probable and estimable exposures. Accordingly, the Company does not anticipate any material earnings impact from any such assessments.

13. New Accounting Pronouncements

SFAS 159

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities including an amendment of FASB Statement No. 115* (SFAS 159). SFAS 159 gives the Company the irrevocable option to carry most financial assets and liabilities at fair value, with changes in fair value recognized in earnings. SFAS 159 is effective for the Company's 2009 fiscal year, although early adoption is permitted. The Company is currently assessing the potential effect of SFAS 159 on its financial statements.

SAB 108

Edgar Filing: WALT DISNEY CO/ - Form 10-Q

In September 2006, the U.S. Securities and Exchange Commission (SEC) staff issued Staff Accounting Bulletin No. 108, *Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements* (SAB 108). SAB 108 was issued in order to eliminate the diversity in practice surrounding how public companies quantify financial statement misstatements. SAB 108 requires that registrants quantify errors using both a

THE WALT DISNEY COMPANY

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(unaudited; tabular dollars in millions, except for per share data)

balance sheet and income statement approach and evaluate whether either approach results in a misstated amount that, when all relevant quantitative and qualitative factors are considered, is material. SAB 108 must be implemented by the end of the Company's fiscal 2007. The Company does not currently expect the adoption of SAB 108 to have a material impact on its financial statements.

SFAS 158

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, an amendment of FASB Statements No. 87, 88, 106, and 132(R) (SFAS 158). This statement requires recognition of the overfunded or underfunded status of defined benefit pension and other postretirement plans as an asset or liability in the statement of financial position and changes in that funded status to be recognized in comprehensive income in the year in which the changes occur. SFAS 158 also requires measurement of the funded status of a plan as of the date of the statement of financial position. The recognition provisions of SFAS 158 are effective for fiscal 2007, while the measurement date provisions are not effective until fiscal year 2009. If the Company had applied SFAS 158 at the end of fiscal 2006, using the Company's June 30, 2006 actuarial valuation, we would have recorded a pre-tax charge to accumulated other comprehensive income totaling \$509 million (\$320 million after tax) representing the difference between the funded status of the plans based on the project benefit obligation and the amounts recorded on our balance sheet at September 30, 2006.

SFAS 157

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 provides a common definition of fair value and establishes a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. SFAS 157 also requires expanded disclosures to provide information about the extent to which fair value is used to measure assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. SFAS 157 is effective for the Company's 2009 fiscal year, although early adoption is permitted. The Company is currently assessing the potential effect of SFAS 157 on its financial statements.

FIN 48

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 clarifies the accounting for income taxes by prescribing a minimum probability threshold that a tax position must meet before a financial statement benefit is recognized. The minimum threshold is defined in FIN 48 as a tax position that is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. FIN 48 must be applied to all existing tax positions upon initial adoption. The cumulative effect of applying FIN 48 at adoption, if any, is to be reported as an adjustment to opening retained earnings for the year of adoption. FIN 48 is effective for the Company's 2008 fiscal year, although early adoption is permitted. The Company is currently assessing the potential effect of FIN 48 on its financial statements.

EITF 06-3

In June 2006, the FASB issued Emerging Issues Task Force Issue No. 06-3, *How Taxes Collected from Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement (That Is, Gross versus Net Presentation)* (EITF 06-3). EITF 06-3 indicates that the presentation of taxes within the scope of this issue on either a gross or net basis is an accounting policy decision that should be disclosed. The Company's policy is to present the taxes collected from customers and remitted to governmental authorities on a net basis.

Edgar Filing: WALT DISNEY CO/ - Form 10-Q

Net income	\$	931	\$	733	27	%	\$	2,632	\$	1,467	79	%
Diluted earnings per share	\$	0.44	\$	0.37	19	%	\$	1.24	\$	0.74	68	%

Quarter Results

Revenues for the quarter increased 1%, or \$46 million, to \$8.1 billion. The increase was driven by the following:

increased guest spending and theme park attendance at Walt Disney World and Disneyland Resort Paris, higher sales of ABC Studios (formerly Touchstone Television) productions, led by the returning series *Desperate Housewives*, *Lost* and *Grey's Anatomy* and new series *Ugly Betty*, *Brothers and Sisters* and *What About Brian*, higher affiliate and advertising revenues at ESPN, higher earned royalties across multiple product categories at Merchandise Licensing, and self-published unit volume growth at Disney Interactive Studios (formerly Buena Vista Games) driven by the release of the titles *Meet the Robinsons* and *Spectrobes*.

These increases were offset by the absence of the Super Bowl and three less College Bowl games at the ABC Television Network and lower international theatrical distribution revenues reflecting the strong performance of *The*

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Chronicles of Narnia: The Lion, The Witch and The Wardrobe and *Chicken Little* in the prior-year quarter, as well as fewer titles in release in the current quarter.

Net income for the quarter increased 27%, or \$198 million, to \$931 million. The increase was primarily due to higher affiliate and advertising revenues and lower costs at ESPN and improvements in domestic theatrical distribution driven by a better-performing slate of titles in the current quarter and lower distribution expense due to timing of releases.

Six-Month Results

Revenues for the six months increased 5%, or \$917 million, to \$17.8 billion. The increase was primarily due to the following:

increased DVD unit sales at home entertainment from the strong performance of *Pirates of the Caribbean: Dead Man's Chest* and Disney/Pixar's *Cars*,
increased guest spending and theme park attendance at Walt Disney World and Disneyland Resort Paris,
strong international and DVD sales of ABC Studios productions, and
higher affiliate and advertising revenues at ESPN.

These increases were partially offset by the absence of Monday Night Football and the Super Bowl and three fewer College Bowl games at the ABC Television Network and lower worldwide theatrical distribution revenues reflecting the strong performance of *The Chronicles of Narnia: The Lion, The Witch and The Wardrobe* and *Chicken Little* in the prior six-month period.

Net income for the six months increased by \$1.2 billion to \$2.6 billion due to gains on sales of equity investments, growth in worldwide home entertainment and growth at ESPN and the international Disney Channels.

Diluted earnings per share increased to \$1.24 from \$0.74 in the six-month period. Results for the current and prior-year six months included the net favorable impact of the items summarized in the following tables (amounts in millions, except for per share data):

Favorable/(unfavorable) impact	Six Months Ended March 31, 2007		
			Diluted
	Pre-Tax	Net Income	EPS
Gain on sale of equity investment in E! Entertainment Television	\$ 780	\$ 487	\$ 0.23
Gain on sale of equity investment in Us Weekly	272	170	0.08
Equity-based compensation plan modification charge	(48)	(30)	(0.01)
Total	\$ 1,004	\$ 627	\$ 0.30

	Six Months Ended April 1, 2006		
			Diluted
	Pre-Tax	Net Income	EPS
Gains on sales of a cable television equity investment in Spain and the Discover Magazine business	\$ 70	\$ 44	\$ 0.02

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

SEASONALITY

The Company's businesses are subject to the effects of seasonality. Consequently, the operating results for the quarter and six months ended March 31, 2007 for each business segment, and for the Company as a whole, are not necessarily indicative of results to be expected for the full year.

Media Networks advertising revenues are typically somewhat higher during the fall and somewhat lower during the summer months. Affiliate revenues are typically collected ratably throughout the year. Recognition of certain affiliate revenues at ESPN is deferred until annual programming commitments are met. These commitments are typically satisfied during the second half of the Company's fiscal year which generally results in higher revenue recognition during that period.

Parks and Resorts revenues fluctuate with changes in theme park attendance and resort occupancy resulting from the seasonal nature of vacation travel and leisure activities. Peak attendance and resort occupancy generally occur during the summer months when school vacations occur and during early-winter and spring-holiday periods.

Studio Entertainment revenues fluctuate due to the timing and performance of releases in the theatrical, home entertainment, and television markets. Release dates are determined by several factors, including competition and the timing of vacation and holiday periods.

Consumer Products revenues are influenced by seasonal consumer purchasing behavior and by the timing and performance of animated theatrical releases.

BUSINESS SEGMENT RESULTS

The Company evaluates the performance of its operating segments based on segment operating income, which is shown below along with segment revenues:

(in millions)	Quarter Ended			Six Months Ended		
	March 31, 2007	April 1, 2006	Change	March 31, 2007	April 1, 2006	Change
<i>Revenues:</i>						
Media Networks	\$ 3,561	\$ 3,551		\$ 7,472	\$ 7,225	3 %
Parks and Resorts	2,446	2,251	9 %	4,935	4,653	6 %
Studio Entertainment	1,550	1,774	(13) %	4,183	3,819	10 %

	\$ 1,175	\$ 969	21 %	\$ 1,925	\$ 1,575	22 %

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Revenues

Media Networks revenues were flat at \$3.6 billion, consisting of a 7% increase, or \$127 million, at the Cable Networks offset by a 7% decrease, or \$117 million, at Broadcasting.

Increased Cable Networks revenues were primarily due to growth of \$45 million from cable and satellite operators, \$30 million from advertising revenues and \$52 million in other revenues. Revenues from cable and satellite operators are generally derived from fees charged on a per subscriber basis, and the increase in the current quarter was due to contractual rate increases primarily at ESPN and subscriber growth at ESPN and at the international Disney Channels. These increases were partially offset by higher revenue deferrals at ESPN due to annual programming commitments in new affiliate contract provisions. The deferred revenues are expected to be recognized in the second half of the year. Increased advertising revenue was driven by higher advertising rates at ESPN. The increase in other revenues reflected a settlement of a claim in the bankruptcy of a distributor and higher DVD sales.

Certain of the Company's existing contracts with cable and satellite operators include annual programming commitments. In these cases, revenue subject to the commitment is deferred until the annual commitments are satisfied which generally results in revenue shifting from the first half of the year to the second half. During the quarter, the Company deferred revenues of \$227 million related to these commitments compared to \$142 million in the prior-year quarter. The increase in deferred revenue was primarily due to annual programming commitments in new affiliate contract provisions.

Decreased Broadcasting revenues were primarily due to a decline at the ABC Television Network, partially offset by strong international and domestic syndication sales of ABC Studios productions, led by the returning series *Desperate Housewives*, *Lost*, and *Grey's Anatomy*, and new series *Ugly Betty*, *Brothers and Sisters* and *What About Brian*. The decline at the ABC Television Network reflected the absence of the Super Bowl, three less College Bowl games and fewer hours of other sports programming. In primetime, lower ratings were essentially offset by higher sold inventory and higher advertising rates.

Costs and Expenses

Costs and expenses, which consist primarily of programming rights costs, production cost amortization, distribution and marketing expenses, labor costs and general and administrative costs, decreased 7%, or \$178 million, to \$2.5 billion consisting of a 10% decrease, or \$166 million, at Broadcasting and a 1% decrease, or \$12 million, at the Cable Networks. The decrease at Broadcasting was due to lower sports programming costs, partially offset by higher production cost amortization related to the sales of ABC Studios productions and higher costs for the Disney mobile phone service. The decrease at Cable Networks reflected a decrease at ESPN due to the airing of one fewer regular season National Football League (NFL) game and the benefit of the transition of ESPN's mobile phone operations to a licensing model, partially offset by higher programming and other costs at the international Disney Channels.

Sports Programming Costs

The Company has various contractual commitments for the purchase of television rights for sports and other programming, including the NFL, NASCAR, Major League Baseball, various college football and basketball conferences and football bowl games and the National Basketball Association. The costs of these contracts have increased significantly in recent years. We enter into these contractual commitments with the expectation that, over the life of the contracts, revenue from advertising during the programming and affiliate fees will exceed the costs of the programming. While contract costs may initially exceed incremental revenues and negatively impact operating income, it is our expectation that the combined value to our networks from all of these contracts will result in long-term benefits. The actual impact of these contracts on the Company's results over the term of the contracts is dependent upon a number of factors, including the strength of advertising markets, effectiveness of marketing efforts and the size of viewer audiences.

Segment Operating Income

Segment operating income increased 21%, or \$206 million, to \$1.2 billion for the quarter due to an increase of \$154 million at the Cable Networks and \$52 million at Broadcasting. The increase at Cable Networks was primarily due

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

to increases at ESPN and the international Disney Channels. The increase at Broadcasting was due to fewer hours of sports programming and strong international and domestic syndication sales of ABC Studios productions. Also included in segment operating income is income from equity investees of \$120 million for the quarter compared to \$101 million in the prior-year quarter.

ABC Radio Disposition

On February 6, 2006, the Company and Citadel Broadcasting Corporation (Citadel) announced an agreement to merge the ABC Radio business, which consists of 22 of the Company's owned radio stations and the ABC Radio Network, with Citadel. The ESPN Radio and Radio Disney networks and station businesses are not included in the transaction. The merger is expected to occur after the ABC Radio business is distributed to Disney shareholders (the Distribution), which is expected to be completed through a spin-off. The agreement was subsequently amended on November 19, 2006. Under the amended terms, (i) Disney's shareholders are expected to collectively receive approximately 57% of Citadel's common stock post-merger, and (ii) the Company expects to retain between \$1.10 billion and \$1.35 billion in cash, depending upon the market price of Citadel's common stock over a measurement period ending prior to the closing. This cash will be obtained from loan proceeds raised by ABC Radio from third-party lenders prior to the Distribution. If the market price of Citadel's common stock over the measurement period were the same as Citadel's stock price on May 4, 2007, the Company estimates the aggregate value of the retained cash and Citadel common stock to be received by Disney shareholders would be approximately \$2.4 billion. The amended agreement provides that the closing will occur no earlier than May 31, 2007, unless Citadel elects to close at an earlier date subject to closing conditions within the merger agreement. The closing is also subject to regulatory approvals, and that either party may terminate the agreement if the closing does not occur by June 15, 2007. Once the Distribution has occurred, the Company will report the results of the ABC Radio business for the current and prior periods separately as discontinued operations. The Company expects that there will be no gain or loss on distribution. As of March 31, 2007, the net assets of the ABC Radio business were approximately \$1.4 billion.

Parks and Resorts

Revenues

Revenues at Parks and Resorts increased 9%, or \$195 million, to \$2.4 billion due to increases of \$135 million at our domestic resorts and \$60 million at our international resorts.

Domestic Parks and Resorts

At our domestic parks and resorts, revenue growth was primarily due to increased guest spending and theme park attendance at Walt Disney World and, to a lesser extent, Disneyland Resort. Increased guest spending reflected higher average ticket prices and higher average daily room rates. Additionally, higher vacation ownership sales at Walt Disney World contributed to revenue growth.

The following table presents attendance, per capita theme park guest spending and hotel statistics for our domestic properties:

	East Coast Quarter Ended		West Coast Quarter Ended		Total Domestic Quarter Ended	
	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006
Parks						
<i>(Increase/decrease)</i>						
Attendance	7 %	3 %	1 %	15 %	6 %	6 %
Per Capita Guest Spending	3 %	(4) %	3 %	8 %	3 %	(1) %
Hotels						
Occupancy	88 %	85 %	87 %	89 %	88 %	85 %
Available Room Nights (in thousands)	2,157	2,217	202	202	2,359	2,419

Edgar Filing: WALT DISNEY CO/ - Form 10-Q

Per Room Guest Spending	\$	224	\$	216	\$	294	\$	262	\$	230	\$	220
-------------------------	----	-----	----	-----	----	-----	----	-----	----	-----	----	-----

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Per room guest spending consists of the average daily hotel room rate as well as guest spending on food, beverages and merchandise at the hotels.

International Parks and Resorts

At our international parks and resorts, revenue growth was due to the favorable impact of foreign currency translation as a result of the weakening of the U.S. dollar against the Euro and higher theme park attendance, guest spending, and hotel occupancy at Disneyland Resort Paris. These revenue increases were partially offset by lower guest spending and theme park attendance at Hong Kong Disneyland Resort.

Costs and Expenses

Costs and expenses, which consist principally of labor, costs of merchandise, food and beverages sold, depreciation, repairs and maintenance, entertainment, and marketing and sales expense, increased 8%, or \$155 million. The increase in costs and expenses primarily reflected increases at Walt Disney World and at Disneyland Resort Paris. The increase at Walt Disney World was primarily due to labor cost inflation, new guest offerings, increased marketing, and volume-related costs, partially offset by lower pension and postretirement medical costs. The increase at Disneyland Resort Paris was driven by the unfavorable impact of foreign currency translation as a result of the weakening of the U.S. dollar against the Euro, volume-related costs, marketing, and labor cost inflation.

Segment Operating Income

Segment operating income increased 19%, or \$40 million, to \$254 million, reflecting increases at Disneyland Resort Paris, Disneyland Resort and Walt Disney World, partially offset by a decline at Hong Kong Disneyland Resort.

Studio Entertainment

Revenues

Revenues decreased 13%, or \$224 million, to \$1.6 billion primarily due to a decrease of \$155 million in international theatrical distribution reflecting the strong performance of *The Chronicles of Narnia: The Lion, The Witch and The Wardrobe* and *Chicken Little* in the prior-year quarter and fewer titles in release in the current quarter.

Cost and Expenses

Costs and expenses, which consist primarily of production cost amortization, distribution and marketing expenses, product costs, and participation costs, decreased 19%, or \$312 million, primarily due to decreases in both international and domestic theatrical distribution.

Lower costs and expenses in international theatrical distribution were primarily due to lower distribution and participation expense and decreased production cost amortization resulting from fewer titles in the current quarter. The decrease in domestic theatrical distribution was driven by lower production cost amortization and the timing of distribution expenses.

Segment Operating Income

Segment operating income increased 60% to \$235 million primarily due to an improvement at domestic theatrical distribution.

Consumer Products

Revenues

Revenues for the quarter increased 14%, or \$65 million, to \$516 million, primarily due to increases of \$31 million at Merchandise Licensing and \$31 million at Disney Interactive Studios. Growth at Merchandise Licensing was due to higher earned royalties across multiple product

Edgar Filing: WALT DISNEY CO/ - Form 10-Q

categories, which included the strong performance of *Cars* merchandise. Growth at Disney Interactive Studios was due to the release of the self-published titles *Meet the Robinsons* and *Spectrobes*.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Costs and Expenses

Costs and expenses increased 11%, or \$38 million, primarily due to higher cost of goods sold, product development spending and marketing costs at Disney Interactive Studios.

Operating Income

Segment operating income increased 20%, or \$21 million, to \$125 million, primarily due to higher earned royalties at Merchandise Licensing.

Business Segment Results Six Month Results

Media Networks

Revenues

Media Networks revenues increased 3%, or \$247 million, to \$7.5 billion, consisting of a 10% increase, or \$354 million, at the Cable Networks partially offset by a 3% decrease, or \$107 million, at Broadcasting.

Increased Cable Networks revenues were primarily due to growth of \$137 million from cable and satellite operators, \$84 million from advertising revenues and \$133 million from other revenues. The increase in cable and satellite operator revenues was driven by contractual rate increases, primarily at ESPN, and subscriber growth at the international Disney Channels and ESPN. These increases were partially offset by higher revenue deferrals at ESPN driven by annual programming commitments in new affiliate contract provisions. For the six months ended March 31, 2007, the Company deferred revenues of \$408 million related to these commitments compared to \$263 million in the prior-year period. Increased advertising revenue was driven by an increase at ESPN primarily due to higher sales of Monday Night Football (which moved to ESPN from the ABC Television Network) compared to Sunday Night Football in the prior year and at the domestic Disney/ABC Cable Networks. Higher other revenues were driven by DVD sales, primarily *High School Musical*, and the settlement of a claim in the bankruptcy of a distributor.

The decrease in Broadcasting revenues was primarily due to a decrease in advertising revenue at the ABC Television Network due to the absence of Monday Night Football and the Super Bowl, three fewer College Bowl games and fewer hours of other sports programming. This decrease was partially offset by increased sales of ABC Studios productions and higher political advertising revenue at the owned television stations. Increased sales of ABC Studios productions reflected higher international and DVD sales of the hit dramas *Desperate Housewives*, *Lost* and *Grey's Anatomy*.

Costs and Expenses

Costs and expenses decreased 1%, or \$70 million, to \$5.8 billion consisting of a 7% decrease, or \$218 million, at Broadcasting partially offset by a 6% increase, or \$148 million, at the Cable Networks. The decrease at Broadcasting was due to lower sports programming costs, partially offset by increases in other programming and production cost amortization (including the cost to replace sports programming) and higher costs for the Disney mobile phone service. The increase at Cable Networks was primarily due to increased costs at ESPN driven by higher programming costs for Monday Night Football compared to Sunday Night Football in the prior year, partially offset by the benefit from the transition of ESPN's mobile phone operations to a licensing model.

Segment Operating Income

Segment operating income increased 22%, or \$350 million, to \$1.9 billion for the six months due to increases of \$235 million at the Cable Networks and \$115 million at Broadcasting. The increase at the Cable Networks was due primarily to growth at ESPN, the international Disney Channels and the domestic Disney/ABC Cable Networks. The increase at Broadcasting was due to fewer hours of sports programming at the ABC Television Network, higher sales of ABC Studios productions, and higher revenues at the owned television stations, partially offset by higher costs associated with the Disney mobile phone service. Also included in segment operating income is income from equity investees of \$241 million for the six months compared to \$208 million in the prior-year.

Parks and Resorts

Revenues

Revenues at Parks and Resorts increased 6%, or \$282 million, to \$4.9 billion due to increases of \$200 million at our domestic resorts and \$82 million at our international resorts.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Domestic Parks and Resorts

At our domestic parks and resorts, revenue growth was primarily due to increased guest spending, theme park attendance, and vacation club ownership sales at Walt Disney World. Increased guest spending was due to higher ticket prices, increased food, beverage and merchandise spending, and higher average room rates.

The following table presents attendance, per capita theme park guest spending and hotel statistics for our domestic properties:

	East Coast Six Months Ended		West Coast Six Months Ended		Total Domestic Six Months Ended	
	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006	March 31, 2007	April 1, 2006
Parks						
(Increase/decrease)						
Attendance	5 %	4 %	(2) %	17 %	3 %	8 %
Per Capita Guest Spending	5 %	(1) %	1 %	13 %	4 %	3 %
Hotels						
Occupancy	86 %	84 %	90 %	92 %	87 %	85 %
Available Room Nights (in thousands)	4,300	4,415	405	404	4,705	4,819
Per Room Guest Spending	\$ 220	\$ 214	\$ 290	\$ 272	\$ 226	\$ 219

Per room guest spending consists of the average daily hotel room rate as well as guest spending on food, beverages and merchandise at the hotels.

International Parks and Resorts

At our international parks and resorts, revenue growth was primarily due to the favorable impact of foreign currency translation as a result of the weakening of the U.S. dollar against the Euro, and higher theme park attendance, guest spending, and hotel occupancy at Disneyland Resort Paris. These revenue increases were partially offset by lower theme park attendance and guest spending at Hong Kong Disneyland Resort.

Costs and Expenses

Costs and expenses increased 5%, or \$212 million. The increase in costs and expenses primarily reflected increases at Walt Disney World and at Disneyland Resort Paris. The increase at Walt Disney World was primarily due to labor cost inflation, new guest offerings, increased marketing, and volume-related costs, partially offset by lower pension and postretirement medical costs. The increase at Disneyland Resort Paris was driven by the unfavorable impact of foreign currency translation as a result of the weakening of the U.S. dollar against the Euro, labor cost inflation, marketing, and volume-related costs.

Segment Operating Income

Segment operating income increased 12%, or \$70 million, to \$659 million, primarily due to increases at Walt Disney World and Disneyland Resort Paris, partially offset by a decline at Hong Kong Disneyland Resort.

Studio Entertainment

Revenues

Revenues increased 10%, or \$364 million, to \$4.2 billion primarily due to an increase of \$664 million in worldwide home entertainment partially offset by a decrease of \$366 million in worldwide theatrical distribution.

Edgar Filing: WALT DISNEY CO/ - Form 10-Q

The increase in worldwide home entertainment revenues was primarily due to increased DVD unit sales resulting from the strong performance of current-period titles including *Pirates of the Caribbean: Dead Man's Chest*, Disney/Pixar's *Cars* and *Little Mermaid* Platinum release. Lower worldwide theatrical distribution revenues were

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

primarily due to the strong performance of *The Chronicles of Narnia: The Lion, The Witch and The Wardrobe* and *Chicken Little* in the prior-year six months compared to the current period titles, which included *Déjà vu* and *Wild Hogs*.

Costs and Expenses

Costs and expenses decreased 6%, or \$200 million primarily due to a decrease in worldwide theatrical distribution partially offset by an increase in worldwide home entertainment.

Lower costs and expenses in worldwide theatrical distribution were driven by lower distribution costs, participation costs, production cost amortization and film cost write-downs. Distribution costs were lower as the prior-year period included higher profile films that had extensive marketing campaigns. The decrease in participation costs and production cost amortization was driven by the strong prior-year performance including *The Chronicles of Narnia: The Lion, The Witch and The Wardrobe*. The increase at worldwide home entertainment was driven by higher participation costs and production cost amortization due to increased unit sales in the current-period.

Segment Operating Income

Segment operating income increased \$564 million, to \$839 million, due to an improvement at worldwide home entertainment.

Consumer Products

Revenues

Revenues increased 2%, or \$24 million, to \$1.2 billion, primarily due to higher earned royalties across multiple product categories at Merchandise Licensing, which included the strong performance of *Cars* merchandise. Higher revenues were partially offset by lower contractual minimum guarantee revenues.

Costs and Expenses

Costs and expenses increased 3%, or \$28 million, driven by an increase at Disney Interactive Studios due to increased product development spending.

Operating Income

Segment operating income decreased 4%, or \$14 million, to \$360 million, as higher earned royalties at Merchandise Licensing were more than offset by lower contractual minimum guarantee revenues and increased product development spending at Disney Interactive Studios.

OTHER FINANCIAL INFORMATION

Net Interest Expense

Net interest expense is as follows:

(in millions)	Quarter Ended			Six Months Ended		
	March 31, 2007	April 1, 2006	Change	March 31, 2007	April 1, 2006	Change
Interest expense	\$ (167)	\$ (187)	(11) %	\$ (355)	\$ (368)	(4) %
Interest and investment income	37	42	(12) %	68	60	13 %

Edgar Filing: WALT DISNEY CO/ - Form 10-Q

Net interest expense	\$ (130)	\$ (145)	(10) %	\$ (287)	\$ (308)	(7) %
----------------------	-----------------	----------	--------	-----------------	----------	-------

Interest expense decreased 11% for the quarter and 4% for the six months driven by lower average debt balances. For the six months, lower interest expense was partially offset by the write-off of remaining debt issuance costs for quarterly interest bonds, which were redeemed during the first quarter of fiscal 2007.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Interest and investment income increased for the six months primarily due to increased interest income from higher cash balances, partially offset by a \$12 million recovery in the second quarter of fiscal 2006 in connection with the Company's leveraged lease investment with United Airlines which had been written off previously.

Income Taxes

The effective income tax rate is as follows:

	Quarter Ended			Six Months Ended		
	March 31, 2007	April 1, 2006	Change	March 31, 2007	April 1, 2006	Change
Effective Income Tax Rate	38.7 %	35.2 %	3.5 ppt	38.0 %	35.8 %	2.2 ppt

The effective income tax rate increased for the quarter and six months due to an adjustment to previously recognized tax benefits with respect to Hong Kong Disneyland and a reduction in the benefit from the exclusion of certain foreign source income.

The exclusion of certain foreign source income was repealed on a phase-out basis as part of the *American Jobs Creation Act of 2004*. No exclusion is available for transactions originating after the first quarter of fiscal 2007.

Minority Interests

Minority interest expense is as follows:

(in millions)	Quarter Ended			Six Months Ended		
	March 31, 2007	April 1, 2006	Change	March 31, 2007	April 1, 2006	Change
Minority interest expense	\$ (3)	\$ (12)	(75) %	\$ (8)	\$ (28)	(71) %

Minority interest expense decreased for the quarter and the six months due to the impact of increased losses at Hong Kong Disneyland, partially offset by the impacts of increased profits at ESPN and decreased losses at Disneyland Resort Paris. The minority interest impact is determined on income after royalties, financing costs and income taxes.

FINANCIAL CONDITION

The change in cash and cash equivalents is as follows:

(in millions)	Six Months Ended		
	March 31, 2007	April 1, 2006	Change
Cash provided by operations	\$ 2,760	\$ 2,181	\$ 579
Cash provided by (used by) investing activities	950	(383)	1,333
Cash used by financing activities	(3,939)	(1,490)	(2,449)
Increase (decrease) in cash and cash equivalents	\$ (229)	\$ 308	\$ (537)

Operating Activities

Cash provided by operations increased by \$579 million to \$2.8 billion primarily due to higher operating performance at Studio Entertainment and Media Networks and lower NFL payments, partially offset by higher income tax payments due to the strong operating performance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Film and Television Costs

The Company's Studio Entertainment and Media Networks segments incur costs to acquire and produce television and feature film programming. Film and television production costs include all internally produced content such as live action and animated feature films, animated direct-to-video programming, television series, television specials, theatrical stage plays or other similar product. Programming costs include film or television product licensed for a specific period from third parties for airing on the Company's broadcast, cable networks and television stations. Programming assets are generally recorded when the programming becomes available to us with a corresponding increase in programming liabilities. Accordingly, we analyze our programming assets net of the related liability.

The Company's film and television production and programming activity for the six months ended March 31, 2007 and April 1, 2006 are as follows:

(in millions)	Six Months Ended	
	March 31, 2007	April 1, 2006
Beginning balances:		
Production and programming assets	\$ 5,650	\$ 5,937
Programming liabilities	(1,118)	(1,083)
	4,532	4,854
Spending:		
Film and television production	1,457	1,541
Broadcast programming	2,278	2,409
	3,735	3,950
Amortization:		
Film and television production	(1,762)	(1,772)
Broadcast programming	(2,011)	(2,338)
	(3,773)	(4,110)
Change in film and television production and programming costs	(38)	(160)
Other non-cash activity	91	(31)
Ending balances:		
Production and programming assets	5,808	5,859
Programming liabilities	(1,223)	(1,196)
	\$ 4,585	\$ 4,663

Investing Activities

Cash provided by investing activities during the six months ended March 31, 2007 of \$950 million was due to proceeds from the sales of our interests in E! Entertainment Television and Us Weekly, totaling \$1.5 billion, and from sales of fixed assets, partially offset by investments in parks, resorts and other property and acquisitions. During the six months ended March 31, 2007, the Company invested \$546 million in parks,

resorts and other properties as follows:

(in millions)	Six Months Ended	
	March 31, 2007	April 1, 2006
Media Networks	\$ 73	\$ 73
Parks and Resorts		
Domestic	269	224
International	127	120
Total Parks and Resorts	396	344
Studio Entertainment	34	16
Consumer Products	11	4
Corporate	32	25
	\$ 546	\$ 462

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Capital expenditures for the Parks and Resorts segment are principally for new rides and attractions and recurring capital improvements. The increase in capital expenditures at the domestic parks and resorts was primarily due to new rides and attractions at Disneyland Resort including the *Finding Nemo Submarine Voyage*.

Financing Activities

Cash used in financing activities during the six months ended March 31, 2007 of \$3.9 billion primarily reflected share repurchases, repayments of borrowings and dividends, partially offset by proceeds from the exercise of stock options.

During the six months ended March 31, 2007, the Company's borrowing activity was as follows:

	September 30, 2006	Additions	Payments	Other Activity	March 31, 2007
Commercial paper borrowings	\$ 839	\$ 134	\$	\$	\$ 973
U.S. medium-term notes	6,499		(750)		5,749
Convertible senior notes	1,323				1,323
Other U.S. dollar denominated debt	305		(305)		
Privately placed debt	54		(54)		
European medium-term notes	191				191
Preferred stock	353			(5)	348
Capital Cities/ABC debt	183			(1)	182
Film financing	276	184	(132)		328
Other	260	2	(19)	(21)	222
Euro Disney borrowings ⁽¹⁾	2,172			134	2,306
Hong Kong Disneyland borrowings	1,070			(3)	1,067
Total	\$ 13,525	\$ 320	\$ (1,260)	\$ 104	\$ 12,689

⁽¹⁾ Other activity included a \$108 million increase from foreign currency translation as a result of the weakening of the U.S. dollar against the Euro.

The Company's bank facilities as of March 31, 2007 were as follows:

(in millions)	Committed Capacity	Capacity Used	Unused Capacity
Bank facilities expiring 2010	\$ 2,250	\$	\$ 2,250
Bank facilities expiring 2011	2,250	212	2,038
Total	\$ 4,500	\$ 212	\$ 4,288

These bank facilities allow for borrowings at LIBOR-based rates plus a spread which ranges from 0.175% to 0.75% depending on the amount borrowed and the Company's public debt rating. As of March 31, 2007, the Company had not borrowed under these bank facilities although \$212 million of letters of credit had been issued under the facility expiring in 2011.

Edgar Filing: WALT DISNEY CO/ - Form 10-Q

The Company may use commercial paper borrowings up to the amount of its unused bank facilities, in conjunction with term debt issuance and operating cash flow, to retire or refinance other borrowings before or as they come due.

The Company declared a \$637 million dividend (\$0.31 per share) on November 28, 2006 related to fiscal 2006, which was paid on January 12, 2007 to shareholders of record on December 15, 2006. The Company paid a \$519 million dividend (\$0.27 per share) during the second quarter of fiscal 2006 related to fiscal 2005.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

During the six months ended March 31, 2007, the Company repurchased 96 million shares of Disney common stock for \$3.3 billion. On May 1, 2007, the Board of Directors of the Company increased the share repurchase authorization to a total of 400 million shares. The repurchase program does not have an expiration date.

We believe that the Company's financial condition is strong and that its cash balances, other liquid assets, operating cash flows, access to debt and equity capital markets and borrowing capacity, taken together, provide adequate resources to fund ongoing operating requirements and future capital expenditures related to the expansion of existing businesses and development of new projects. However, the Company's operating cash flow and access to the capital markets can be impacted by macroeconomic factors outside of its control. In addition to macroeconomic factors, the Company's borrowing costs can be impacted by short and long-term debt ratings assigned by independent rating agencies, which are based, in significant part, on the Company's performance as measured by certain credit metrics such as interest coverage and leverage ratios. As of March 31, 2007, Moody's Investors Service's long and short-term debt ratings for the Company were A3 and P-2, respectively, with outlook under review; and Standard & Poor's long and short-term debt ratings for the Company were A- and A-2, respectively, with positive outlook. In January 2007, Moody's Investors Service placed Disney's ratings on review for an upgrade. The Company's bank facilities contain only one financial covenant, relating to interest coverage, which the Company met on March 31, 2007, by a significant margin. The Company's bank facilities also specifically exclude certain entities, such as Euro Disney and Hong Kong Disneyland, from any representations, covenants or events of default.

Hong Kong Disneyland is subject to semi-annual financial performance covenants under its commercial term loan and revolving credit facility agreement. The commercial term loan had a balance of approximately \$294 million on March 31, 2007. The revolving credit facility has not been drawn on to date. In July 2006, lenders under the commercial term loan and revolving credit facility agreement provided a waiver to these covenants for the September 30, 2006 and March 31, 2007 measurement dates. The revolving credit facility will not be available for the period the waiver is in effect. The covenants will be in effect for the September 30, 2007 measurement date.

In anticipation of the prospect that the covenants will not be met at that date, and that Hong Kong Disneyland may require alternative sources of financing to meet its operating and development needs, Hong Kong Disneyland is currently engaged in discussions with the Company and Hong Kong Disneyland's majority shareholder (the Government of the Hong Kong Special Administrative Region) regarding financing arrangements that will assist in meeting these needs. The Company expects that such financing likely would include additional investment by the Company. Although there can be no assurance that acceptable financial arrangements can be obtained prior to September 30, 2007, management currently expects that Hong Kong Disneyland will be successful in developing financial arrangements necessary to meet its financial and development needs.

Euro Disney has covenants under its debt agreements that limit its investment and financing activities. Beginning with fiscal year 2006, Euro Disney must also meet financial performance covenants that necessitate improvements to its operating margin.

For fiscal year 2007, if compliance with financial performance covenants cannot be achieved through increased revenues, Euro Disney would have to appropriately reduce operating costs, curtail a portion of planned capital expenditures (outside those contained in its multi-year investment program) and/or seek assistance from Disney or other parties as permitted under the loan agreements. Although no assurances can be given, Euro Disney currently believes that it will meet its financial performance covenants in fiscal year 2007 through increased revenues and continuing cost containment, without the need for any of the additional measures referred to above.

COMMITMENTS AND CONTINGENCIES

Legal and Tax Matters

As disclosed in Notes 11 and 12 to the Condensed Consolidated Financial Statements the Company has exposure for certain legal and tax matters.

Contractual Commitments and Guarantees

See Note 11 to the Condensed Consolidated Financial Statements for information regarding the Company's contractual commitments and guarantees.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

OTHER MATTERS

Accounting Policies and Estimates

We believe that the application of the following accounting policies, which are important to our financial position and results of operations, requires significant judgments and estimates on the part of management. For a summary of our significant accounting policies, see Note 2 to the Consolidated Financial Statements in the 2006 Annual Report on Form 10-K.

Film and Television Revenues and Costs

We expense the cost of film and television productions over the applicable product life cycle based upon the ratio of the current period's gross revenues to the estimated remaining total gross revenues (Ultimate Revenues) for each production. If our estimate of Ultimate Revenues decreases, amortization of film and television costs may be accelerated. Conversely, if estimates of Ultimate Revenues increase, film and television cost amortization may be slowed. For film productions, Ultimate Revenues include revenues from all sources that will be earned within ten years of the date of the initial theatrical release. For television series, we include revenues that will be earned within ten years of the delivery of the first episode, or if still in production, five years from the date of delivery of the most recent episode, if later.

With respect to films intended for theatrical release, the most sensitive factor affecting our estimate of Ultimate Revenues (and therefore affecting film cost amortization and/or impairment) is domestic theatrical performance. Revenues derived from other markets subsequent to the domestic theatrical release (e.g. the home video or international theatrical markets) have historically been highly correlated with domestic theatrical performance. Domestic theatrical performance varies primarily based upon the public interest and demand for a particular film, the quality of competing films at the time of release, as well as the level of marketing effort. Upon a film's release and determination of domestic theatrical performance, the Company's estimates of revenues from succeeding windows and markets are revised based on historical relationships. The most sensitive factor affecting our estimate of Ultimate Revenues for released films is the extent of home entertainment sales achieved. Home entertainment sales vary based on the volume and quality of competing home video products as well as the manner in which retailers market and price our products.

With respect to television series or other television productions intended for broadcast, the most sensitive factor affecting estimates of Ultimate Revenues is the program's rating. Program ratings, which are an indication of market acceptance, directly affect the Company's ability to generate advertising revenues during the airing of the program. In addition, television series with greater market acceptance are more likely to generate incremental revenues through the eventual sale of the program rights in syndication. Alternatively, poor ratings may result in a television series cancellation, which would require the immediate write-off of any unamortized production costs.

We expense the cost of television broadcast rights for acquired movies, series and other programs based on the number of times the program is expected to be aired. Amortization of these television programming assets is accelerated if we reduce the estimated future airings and slowed if we increase the estimated future airings. The number of future airings of a particular program is impacted primarily by the program's ratings in previous airings, expected advertising rates and availability and quality of alternative programming. Accordingly, planned usage is reviewed periodically and revised if necessary. Rights costs for multi-year sports programming arrangements are amortized based upon the ratio of the current period's gross revenues to Ultimate Revenues (the Projected Revenue Method) or on a straight line basis, as appropriate. Gross revenues include both advertising revenues and an allocation of affiliate fees. If the annual contractual payments related to each season over the term of a multi-year sports programming arrangement approximate each season's rights cost based on the Projected Revenue Method, we expense the related annual payments during the applicable season. If Ultimate Revenues change significantly from projections, rights costs amortization may be accelerated or slowed.

Costs of film and television productions and programming rights for our broadcast businesses and cable networks are subject to valuation adjustments pursuant to applicable accounting rules. The net realizable value of the television broadcast program licenses and rights are reviewed using a daypart methodology. A daypart is defined as

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

an aggregation of programs broadcast during a particular time of day or programs of a similar type. The Company's day parts are: early morning, daytime, late night, primetime, news, children, and sports (includes network and cable). The net realizable values of other cable programming assets are reviewed on an aggregated basis for each cable channel. Estimated values are based upon assumptions about future demand and market conditions. If actual demand or market conditions are less favorable than our projections, film, television and programming cost write-downs may be required.

Revenue Recognition

The Company has revenue recognition policies for its various operating segments that are appropriate to the circumstances of each business. See Note 2 to the Consolidated Financial Statements in the 2006 Annual Report on Form 10-K for a summary of these revenue recognition policies.

We record reductions to home entertainment and software product revenues for estimated future returns of merchandise and for customer programs and sales incentives. These estimates are based upon historical return experience, current economic trends and projections of customer demand for and acceptance of our products. If we underestimate the level of returns and concessions in a particular period, we may record less revenue in later periods when returns exceed the estimated amount. Conversely, if we overestimate the level of returns and concessions for a period, we may have additional revenue in later periods when returns and concessions are less than estimated.

Revenues from advance theme park ticket sales are recognized when the tickets are used. For non-expiring, multi-day tickets, we recognize revenue over a three-year time period based on estimated usage patterns, which are derived from historical usage patterns. A change in these estimated usage patterns could have an impact on the timing of revenue recognition.

Pension and Postretirement Benefit Plan Actuarial Assumptions

The Company's pension and postretirement medical benefit obligations and related costs are calculated using actuarial concepts, within the framework of SFAS No. 87 *Employer's Accounting for Pensions* and SFAS No. 106, *Employer's Accounting for Postretirement Benefits Other than Pensions*, respectively. Two critical assumptions, the discount rate and the expected return on plan assets, are important elements of expense and/or liability measurement. We evaluate these critical assumptions annually. Refer to the 2006 Annual Report on Form 10-K for estimated impacts of changes in these assumptions. Other assumptions include the healthcare cost trend rate and employee demographic factors such as retirement patterns, mortality, turnover and rate of compensation increase.

The discount rate enables us to state expected future cash payments for benefits as a present value on the measurement date. The guideline for setting this rate is a high-quality long-term corporate bond rate. A lower discount rate increases the present value of benefit obligations and increases pension expense. The assumed discount rate for pension plans reflects the market rates for high-quality corporate bonds currently available. The Company's discount rate was determined by considering the average of pension yield curves constructed of a large population of high quality corporate bonds. The resulting discount rate reflects the matching of plan liability cash flows to the yield curves.

To determine the expected long-term rate of return on the plan assets, we consider the current and expected asset allocation, as well as historical and expected returns on each plan asset class. A lower expected rate of return on pension plan assets will increase pension expense.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, an amendment of FASB Statements No. 87, 88, 106, and 132(R) (SFAS 158). See Note 13 to the Condensed Consolidated Financial Statements for further discussion.

Goodwill, Intangible Assets, Long-lived Assets and Investments

SFAS No. 142, *Goodwill and Other Intangible Assets* (SFAS 142) requires that goodwill and other indefinite-lived intangible assets be tested for impairment on an annual basis. In assessing the recoverability of goodwill and other indefinite-lived intangible assets, market values and projections regarding estimated future cash flows and other

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

factors are used to determine the fair value of the respective assets. If these estimates or related projections change in the future, we may be required to record impairment charges for these assets.

As required by SFAS 142, goodwill is allocated to various reporting units, which are generally one reporting level below the operating segment. SFAS 142 requires the Company to compare the fair value of each reporting unit to its carrying amount on an annual basis to determine if there is potential goodwill impairment. If the fair value of a reporting unit is less than its carrying value, an impairment loss is recorded to the extent that the fair value of the goodwill within the reporting unit is less than the carrying value of its goodwill.

To determine the fair value of our reporting units, we generally use a present value technique (discounted cash flow) corroborated by market multiples when available and as appropriate. The factor most sensitive to change with respect to our discounted cash flow analyses is the estimated future cash flows of each reporting unit which is, in turn, sensitive to our estimates of future revenue growth and margins for these businesses. If actual revenue growth and/or margins are lower than our expectations, the impairment test results could differ. A present value technique was not used to determine the fair value of the ABC Television Network, a business within the Television Broadcasting reporting unit within the Media Networks operating segment. To determine the fair value of the ABC Television Network, we used a revenue multiple, as a present value technique would not capture the full fair value of the ABC Television Network and there is little comparable market data available due to the scarcity of television networks. If there were a publicly disclosed sale of a comparable network, this may provide better market information with which to estimate the value of the ABC Television Network and could impact our impairment assessment. We applied what we believe to be the most appropriate valuation methodology for each of the reporting units. If we had established different reporting units or utilized different valuation methodologies, the impairment test results could differ.

SFAS 142 requires the Company to compare the fair value of other indefinite-lived intangible assets to its carrying amount. If the carrying amount of other indefinite-lived intangible assets exceeds its fair value, an impairment loss is recognized. Fair values for goodwill and other indefinite-lived intangible assets are determined based on discounted cash flows, market multiples, or appraised values as appropriate.

The Company has cost and equity investments. The fair value of these investments is dependent on the performance of the investee companies, as well as volatility inherent in the external markets for these investments. In assessing potential impairment for these investments, we consider these factors as well as forecasted financial performance of our investees. If these forecasts are not met, impairment charges may be required.

Contingencies and Litigation

We are currently involved in certain legal proceedings and, as required, have accrued estimates of the probable and estimable losses for the resolution of these claims. These estimates have been developed in consultation with outside counsel and are based upon an analysis of potential results, assuming a combination of litigation and settlement strategies. It is possible, however, that future results of operations for any particular quarterly or annual period could be materially affected by changes in our assumptions or the effectiveness of our strategies related to these proceedings. See Note 11 to the Condensed Consolidated Financial Statements for more detailed information on litigation exposure.

Income Tax Audits

As a matter of course, the Company is regularly audited by federal, state and foreign tax authorities. From time to time, these audits result in proposed assessments. Our estimates of potential liability related to income tax audits are made in consultation with outside tax and legal counsel where appropriate and are based upon the expected outcome of proceedings (or negotiations) with taxing and legal authorities in consideration of applicable tax statutes and related interpretations and precedents. The actual outcome of such proceedings and the ultimate actual liability borne by the Company are subject to change based on a number of factors, including the Company's decision to settle rather than litigate a matter, relevant legal precedent related to similar matters and the Company's success in supporting its filing positions with taxing authorities.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS (continued)**

Stock Option Compensation Expense

Compensation expense for stock options is estimated on the date of grant using the binomial valuation option-pricing model. In the second quarter of fiscal 2007, the weighted average assumptions used in the binomial valuation model were 26% for the expected volatility, 1.38 for the expected exercise multiple (the multiple of exercise price to grant price at which exercises are expected to occur on average), 7.4% for the expected termination rate and 4.6 years for the expected life. Although the initial fair value of stock options is not adjusted after the grant date, changes in the Company's assumptions may change the estimated fair value of and therefore, the expense related to future stock option grants. The assumptions that cause the greatest variation in fair value in the binomial valuation model are the assumed volatility and expected exercise multiple. Increases or decreases in either the assumed volatility or expected exercise multiple will cause the binomial option value to increase or decrease, respectively.

The volatility assumption considers both historical and implied volatility and may be impacted by the Company's performance as well as changes in economic and market conditions. The expected exercise multiple may be influenced by the Company's future stock performance, stock price volatility and employee turnover rate. Refer to the 2006 Annual Report on Form 10-K for estimated impacts of changes in these assumptions.

New Accounting Pronouncements

See Note 13 to the Condensed Consolidated Financial Statements for information regarding new accounting pronouncements.

MARKET RISK

The Company is exposed to the impact of interest rate changes, foreign currency fluctuations and changes in the market values of its investments.

Policies and Procedures

In the normal course of business, we employ established policies and procedures to manage the Company's exposure to changes in interest rates, foreign currencies and the fair market value of certain investments in debt and equity securities using a variety of financial instruments.

Our objectives in managing exposure to interest rate changes are to limit the impact of interest rate volatility on earnings and cash flows and to lower overall borrowing costs. To achieve these objectives, we primarily use interest rate swaps to manage net exposure to interest rate changes related to the Company's portfolio of borrowings. By policy, the Company maintains fixed-rate debt as a percentage of its net debt between minimum and maximum percentages.

Our objective in managing exposure to foreign currency fluctuations is to reduce volatility of earnings and cash flow in order to allow management to focus on core business issues and challenges. Accordingly, the Company enters into various contracts that change in value as foreign exchange rates change to protect the U.S. dollar equivalent value of its existing foreign currency assets, liabilities, commitments and forecasted foreign currency revenues. The Company utilizes option strategies and forward contracts that provide for the sale of foreign currencies to hedge probable, but not firmly committed, transactions. The Company also uses forward contracts to hedge foreign currency assets and liabilities. The principal foreign currencies hedged are the Euro, British pound, Japanese yen and Canadian dollar. Cross-currency swaps are used to effectively convert foreign currency denominated borrowings to U.S. dollar denominated borrowings. By policy, the Company maintains hedge coverage between minimum and maximum percentages of its forecasted foreign exchange exposures generally for periods not to exceed five years. The gains and losses on these contracts offset changes in the U.S. dollar equivalent value of the related exposures.

It is the Company's policy to enter into foreign currency and interest rate derivative transactions and other financial instruments only to the extent considered necessary to meet its objectives as stated above. The Company does not enter into these transactions or any other hedging transactions for speculative purposes.

Item 3. Quantitative and Qualitative Disclosures about Market Risk. See Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures We have established disclosure controls and procedures to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to the officers who certify the Company's financial reports and to other members of senior management and the Board of Directors.

Based on their evaluation as of March 31, 2007, the principal executive officer and principal financial officer of the Company have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

PART II. OTHER INFORMATION**ITEM 1. Legal Proceedings**

Since our Form 10-K filing for the year ended September 30, 2006, developments identified below occurred in the following legal proceedings. For information on certain other legal proceedings, see Note 11 to the Condensed Consolidated Financial Statements included in this report.

Milne and Disney Enterprises, Inc. v. Stephen Slesinger, Inc. On November 5, 2002, Clare Milne, the granddaughter of A. A. Milne, author of the Winnie the Pooh books, and the Company's subsidiary Disney Enterprises, Inc. (DEI) filed a complaint against Stephen Slesinger, Inc. (SSI) in the United States District Court for the Central District of California. On November 4, 2002, Ms. Milne served notices to SSI and DEI terminating A. A. Milne's prior grant of rights to Winnie the Pooh, effective November 5, 2004, and granted all of those rights to DEI. In their lawsuit, Ms. Milne and DEI sought a declaratory judgment, under United States copyright law, that Ms. Milne's termination notices were valid; that SSI's rights to Winnie the Pooh in the United States terminated effective November 5, 2004; that upon termination of SSI's rights in the United States, the 1983 licensing agreement that is the subject of the *Stephen Slesinger, Inc. v. The Walt Disney Company* lawsuit terminated by operation of law; and that, as of November 5, 2004, SSI was entitled to no further royalties for uses of Winnie the Pooh. SSI filed (a) an answer denying the material allegations of the complaint and (b) counterclaims seeking a declaration that (i) Ms. Milne's grant of rights to DEI is void and unenforceable and (ii) DEI remains obligated to pay SSI royalties under the 1983 licensing agreement. The District Court ruled that Milne's termination notices were invalid. The Court of Appeals for the Ninth Circuit affirmed, and on June 26, 2006, the United States Supreme Court denied Milne's petition for a writ of certiorari. On June 23, 2003, SSI filed an amended answer and counterclaims and a third-party complaint against Harriet Hunt (heir to E. H. Shepard, illustrator of the original Winnie the Pooh stories), who had served a notice of termination and a grant of rights similar to Ms. Milne's, and asserted counterclaims against the Company allegedly arising from the Milne and Hunt terminations and the grant of rights to DEI for (a) unlawful and unfair business practices; and (b) breach of the 1983 licensing agreement.

On October 19, 2006, the parties stipulated to SSI's filing its Fourth Amended Answer and Counterclaims (Fourth Amended Answer) seeking (a) to invalidate the Hunt termination notice, (b) to terminate the Company's rights vis-à-vis SSI, and (c) damages in excess of two billion dollars, among other relief. That stipulation also provided that Hunt and the Company need not respond to the Fourth Amended Answer until the conclusion of two events: the state court appeal in *Stephen Slesinger, Inc. v. The Walt Disney Company*, and the trial in the District Court on the validity of the Hunt termination notice. SSI then sought to withdraw both the Fourth Amended Answer and its stipulation, but on November 3, 2006, the District Court denied that request. SSI's motion for summary judgment on the validity of Hunt's 2002 attempt to recapture E. H. Shepard's rights was granted on February 15, 2007, and thereafter, on March 27, 2007, the District Court dismissed as moot all claims against Hunt and three of SSI's counterclaims against the Company related to the Company's agreements with Milne and Hunt concerning the termination and disposition of their rights. In a related development, on January 23, 2007, the Company received notice of a petition by SSI in the United States Patent and Trademark Office seeking, among other things, cancellation of certain Pooh trademark registrations, relief that is effectively duplicative of that sought in the Fourth Amended Answer and, on that ground on February 27, 2007, the Patent and Trademark office granted the Company's request to suspend the proceeding.

Management believes that it is not currently possible to estimate the impact, if any, that the ultimate resolution of these and matters previously disclosed in Form 10-K for the year ended September 30, 2006 will have on the Company's results of operations, financial position or cash flows.

The Company, together with, in some instances, certain of its directors and officers, is a defendant or co-defendant in various other legal actions involving copyright, breach of contract and various other claims incident to the conduct of its businesses. Management does not expect the Company to suffer any material liability by reason of such actions.

ITEM 1A. Risk Factors

The Private Securities Litigation Reform Act of 1995 (the Act) provides a safe harbor for forward-looking statements made by or on behalf of the Company. We may from time to time make written or oral statements that are forward-looking including statements contained in this report and other filings with the Securities and Exchange Commission and in reports to our shareholders. All forward-looking statements are made on the basis of management's views and assumptions regarding future events and business performance as of the time the statements are made and the Company does not undertake any obligation to update its disclosure relating to forward looking matters. Actual results may differ materially from those expressed or implied. Such differences may result from actions taken by the Company, including restructuring or strategic initiatives (including capital investments or asset acquisitions or dispositions), as well as from developments beyond the Company's control, including: adverse weather conditions or natural disasters; health concerns; international, political or military developments; technological developments; and changes in domestic and global economic conditions, competitive conditions and consumer preferences. Such developments may affect travel and leisure businesses generally and may, among other things, affect the performance of the Company's theatrical and home entertainment releases, the advertising market for broadcast and cable television programming, expenses of providing medical and pension benefits, demand for our products and performance of some or all company businesses either directly or through their impact on those who distribute our products. Additional factors are in the 2006 Annual Report on Form 10-K, as updated below, and in subsequent reports on Form 10-Q under the Item 1A, Risk Factors.

The following statement updates the corresponding risk factor included in the Company's 2006 Annual Report on Form 10-K.

A variety of uncontrollable events may reduce demand for our products and services or impair our ability to provide or increase the cost of providing products and services.

Demand for our products and services, particularly our theme parks and resorts, is highly dependent on the general environment for travel and tourism. The environment for travel and tourism, as well as demand for other entertainment products, can be significantly adversely affected in the United States, globally or in specific regions as a result of a variety of factors beyond our control, including: adverse weather conditions or natural disasters (such as excessive heat or rain, hurricanes and earthquakes); health concerns; international, political or military developments; and terrorist attacks. These events, and others such as fluctuations in travel and energy costs and computer virus attacks or other widespread computing or telecommunications failures, may also damage our ability to provide our products and services or to obtain insurance coverage with respect to these events. We obtain insurance against the risk of losses relating to some but not all of these events, and when insurance is obtained it is subject to deductibles, exclusions and caps. The types and levels of coverage we obtain vary from time to time depending on our view of the likelihood of specific types and levels of loss in relation to the cost of obtaining coverage for such types and levels of loss.

PART II. OTHER INFORMATION (continued)**ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The following table provides information about Company purchases of equity securities that are registered by the Company pursuant to Section 12 of the Exchange Act during the quarter ended March 31, 2007:

Period		Total Number of Shares Purchased ⁽¹⁾	Weighted Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
December 31, 2006	January 31, 2007	14,669,302	\$ 34.70	14,567,600	162 million
February 1, 2007	February 28, 2007	16,834,428	\$ 34.84	16,730,800	146 million
March 1, 2007	March 31, 2007	35,455,533	\$ 34.30	35,330,900	110 million
Total		66,959,263	\$ 34.52	66,629,300	110 million

(1) 329,963 shares were purchased on the open market to provide shares to participants in the Walt Disney Investment Plan (WDIP) and Employee Stock Purchase Plan (ESPP). These purchases were not made pursuant to a publicly announced repurchase plan or program.

(2) Under a share repurchase program most recently reaffirmed by the Company's Board of Directors on April 21, 1998, and implemented effective June 10, 1998, the Company was authorized to repurchase up to 400 million shares of its common stock. In January 2006, following share repurchases made through the end of December 2005, the Company's Board of Directors increased the repurchase authorization to a total of 400 million shares. On May 1, 2007, following share repurchases made through May 1, 2007, the Company's Board of Directors increased the repurchase authorization to a total of 400 million shares as of that date. The repurchase program does not have an expiration date.

PART II. OTHER INFORMATION (continued)**ITEM 4. Submission of Matters to a Vote of Security Holders**

The following matters were submitted to a vote of security holders during the Company's annual meeting of shareholders held on March 8, 2007.

	Votes		Authority
	Cast For	Withheld	
1. Election of Directors:			
John E. Bryson	1,785,854,117	38,859,961	
John S. Chen	1,786,374,408	38,339,670	
Judith L. Estrin	1,785,629,759	39,084,319	
Robert A. Iger	1,798,405,716	26,308,362	
Steven P. Jobs	1,793,537,373	31,176,705	
Fred H. Langhammer	1,785,849,133	38,864,945	
Aylwin B. Lewis	1,788,382,298	38,331,780	
Monica C. Lozano	1,797,615,240	27,098,838	
Robert W. Matschullat	1,798,354,395	26,359,683	
John E. Pepper, Jr.	1,798,434,416	26,279,662	
Orin C. Smith	1,798,245,596	26,468,482	

	For	Against	Abstentions	Broker Non-Votes
2. Ratification of PricewaterhouseCoopers LLP as registered public accountants	1,785,295,957	20,653,708	18,763,230	1,183
3. Approval of amendments to the Amended and Restated 2005 Stock Incentive Plan	1,374,348,333	138,604,163	22,950,708	288,810,874
4. Approval of terms of the Amended and Restated 2002 Executive Performance Plan	1,710,468,730	89,974,587	24,240,872	
5. Shareholder proposal relating to greenmail	226,406,890	1,283,877,335	25,121,477	289,308,376
6. Shareholder proposal to amend Bylaws relating to shareholder rights plans	880,552,953	629,459,862	25,888,837	288,812,426
